TITAN INTERNATIONAL, INC.

Notes to Consolidated Condensed Financial Statements
(Unaudited)

1. ACCOUNTING POLICIES

In the opinion of Titan International, Inc. (Titan or the Company), the accompanying unaudited consolidated condensed financial statements contain all adjustments, which are normal and recurring in nature and necessary for a fair statement of the Company's financial position as of March 31, 2016, and the results of operations and cash flows for the three months ended March 31, 2016 and 2015.

Accounting policies have continued without significant change and are described in the Description of Business and Significant Accounting Policies contained in the Company's 2015 Annual Report on Form 10-K. These interim financial statements have been prepared pursuant to the Securities and Exchange Commission's rules for Form 10-Q's and, therefore, certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2015 Annual Report on Form 10-K.

Sales

Sales and revenues are presented net of sales taxes and other related taxes.

Fair value of financial instruments

The Company records all financial instruments, including cash and cash equivalents, accounts receivable, notes receivable, accounts payable, and other accruals at cost, which approximates fair value due to their short term or stated rates. Investments in marketable equity securities are recorded at fair value. The 6.875% senior secured notes due 2020 (senior secured notes due 2020) and 5.625% convertible senior subordinated notes due 2017 (convertible notes) are carried at cost of \$400.0 million and \$60.2 million at March 31, 2016, respectively. The fair value of the senior secured notes due 2020 at March 31, 2016, as obtained through an independent pricing source, was approximately \$324.0 million.

Cash dividends

The Company declared cash dividends of \$.005 per share of common stock for each of the three months ended March 31, 2016 and 2015. The first quarter 2016 cash dividend of \$.005 per share of common stock was paid April 15, 2016, to stockholders of record on March 31, 2016.

Use of estimates

The policies utilized by the Company in the preparation of the financial statements conform to accounting principles generally accepted in the United States of America and require management to make estimates, assumptions and judgments that affect the reported amount of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from these estimates and assumptions.

Recently issued accounting standards

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." This update supersedes the revenue recognition requirements in Topic 605, Revenue Recognition. The core principle of this guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the

consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance also requires disclosure about the nature, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amendments in this update were deferred by ASU No. 2015-14, "Revenue from Contracts with Customers (Topic 606) Deferral of Effective Date", and are now effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. The Company will adopt the guidance in the year beginning on January 1, 2018, and is currently assessing the impact that adopting this new accounting guidance will have on the Company's consolidated financial statements.

TITAN INTERNATIONAL, INC.

Notes to Consolidated Condensed Financial Statements
(Unaudited)

In February 2016, the FASB issued ASU No. 2016-02, "Leases (Topic 842)." This update was issued to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The amendments in this update are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently assessing the impact that adopting this new accounting guidance will have on the Company's consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-07, "Simplifying the Transition to Equity Method of Accounting." This update eliminates the requirement to retroactively adopt the equity method of accounting when an investment qualifies for use of the equity method as a result of the increase in the level of ownership. The amendments in this update are effective for fiscal years, including interim periods within those years, beginning after December 15, 2016. Early application is permitted. The Company is currently assessing the impact that adopting this new accounting guidance will have on the Company's consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, "Improvements to Employee Share-Based Payment Accounting." This update involves several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The amendments in this update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted in any interim or annual period. The Company is currently assessing the impact that adopting this new accounting guidance will have on the Company's consolidated financial statements.

Reclassification

Certain amounts from prior years have been reclassified to conform to the current year's presentation. The Company has implemented new technology resources which allow for more accurate segregation of sales and profit by segment. The previous year segment information has been updated to be consistent.

2. ACCOUNTS RECEIVABLE

Accounts receivable consisted of the following (amounts in thousands):

	March 31, 2016	December 31, 2015

6.875% senior secured notes due 2020

The Company's 6.875% senior secured notes (senior secured notes due 2020) are due October 2020. These notes are secured by the land and buildings of the following subsidiaries of the Company: Titan Tire Corporation, Titan Tire Corporation of Bryan, Titan Tire Corporation of Freeport, and Titan Wheel Corporation of Illinois. The Company's senior secured notes due 2020 outstanding balance was \$400.0 million at March 31, 2016.

TITAN INTERNATIONAL, INC.

Notes to Consolidated Condensed Financial Statements
(Unaudited)

5.625% convertible senior subordinated notes due 2017

The Company's 5.625% convertible senior subordinated notes (convertible notes) are due January 2017. The initial base conversion rate for the convertible notes is 93.0016 shares of Titan common stock per \$1,000 principal amount of convertible notes, equivalent to an initial base conversion price of approximately \$10.75 per share of Titan common stock. If the price of Titan common stock at the time of determination exceeds the base conversion price, the base conversion rate will be increased by an additional number of shares (up to 9.3002 shares of Titan common stock per \$1,000 principal amount of convertible notes) as determined pursuant to a formula described in the indenture. The base conversion rate will be subject to adjustment in certain events. See the indenture incorporated by reference to the Company's most recent Form 10-K for additional information. The Company's convertible notes balance was \$60.2 million at March 31, 2016.

Titan Europe credit facilities

The Titan Europe credit facilities contain borrowings from various institutions totaling \$39.5 million at March 31, 2016. Maturity dates on this debt range from less than one year to nine years and interest rates range from 5% to 6.9%. The Titan Europe facilities are secured by the assets of its subsidiaries in Italy, Spain, Germany and Brazil.

Revolving credit facility

The Company's \$150 million revolving credit facility (credit facility) with agent Bank of America, N.A. has a December 2017 termination date and is collateralized by the accounts receivable and inventory of certain Titan domestic subsidiaries. Titan's availability under this domestic facility may be less than \$150 million as a result of eligible accounts receivable and inventory balances at certain of its domestic subsidiaries. At March 31, 2016, the amount available was \$53.4 million as a result of the outstanding letters of credit and the Company's decrease in sales, which impacted both accounts receivable and inventory balances. During the first three months of 2016 and at March 31, 2016, there were no borrowings under the credit facility.

Other debt

Titan Brazil has working capital loans for the Sao Paulo, Brazil manufacturing facility totaling \$6.9 million at March 31, 2016. Maturity dates on this debt range from less than one year to two years and interest rates range from 5.5% to 8%.

8. DERIVATIVE FINANCIAL INSTRUMENTS

The Company uses financial derivatives to mitigate its exposure to volatility in foreign currency exchange rates. These derivative financial instruments are recognized at fair value. The Company has not designated these financial instruments as hedging instruments. Any gain or loss on the re-measurement of the fair value is recorded as an offset to currency exchange gain/loss. For the three months ended March 31, 2016, the Company recorded currency exchange gain of \$0.1 million related to these derivatives.

9. REDEEMABLE NONCONTROLLING INTEREST

The Company has a shareholders' agreement with One Equity Partners (OEP) and the Russian Direct Investment Fund (RDIF) which was used for the acquisition of Voltyre-Prom, a leading producer of agricultural and industrial tires in Volgograd, Russia. The agreement contains a settlement put option which is exercisable beginning in July of 2018 and

may require Titan to purchase the shares of OEP and RDIF at a value set by the agreement.

The redemption features of the settlement put option are not solely within the Company's control and the noncontrolling interest is presented as redeemable noncontrolling interest separately from total equity in the Consolidated Balance Sheet at the redemption value of the settlement put option. If the redemption value is greater than the carrying value of the noncontrolling interest, the increase is adjusted directly to retained earnings of the affected entity, or additional paid-in capital if there are no available retained earnings applicable to the redeemable noncontrolling interest.

In the first quarter of 2016, the Company acquired \$25 million of additional shares in the consortium owning Voltyre-Prom, increasing Titan's ownership to 43% from 30%. The acquisition of shares was transacted through the conversion of an intercompany note previously held by Titan. As a result of the ownership change, the balance of the redeemable noncontrolling interest increased by \$12 million which is comprised of a \$3.5 million reclassification of currency translation and an \$8.5 million reclassification of other equity.

TITAN INTERNATIONAL, INC.
Notes to Consolidated Condensed Financial Statements
(Unaudited)

The following is a reconciliation of redeemable noncontrolling interest as of March 31, 2016 and 2015 (amounts in thousands):

	2016	2015
Balance at January 1	\$77,174	\$71,192
Reclassification as a result of ownership change	12,039	—

11. EMPLOYEE BENEFIT PLANS

The Company has three frozen defined benefit pension plans covering certain employees or former employees of three U.S. subsidiaries. The Company also has pension plans covering certain employees of several foreign subsidiaries. The Company also sponsors a number of defined contribution plans in the U.S. and at foreign subsidiaries. The Company contributed approximately \$0.9 million to the pension plans during the three months ended March 31, 2016, and expects to contribute approximately \$3.7 million to the pension plans during the remainder of 2016.

The components of net periodic pension cost consisted of the following (amounts in thousands):

	Three months ended March 31,	
	2016	2015
Service cost	\$106	\$172
Interest cost	1,237	1,224
Expected return on assets	(1,393)	(1,519)
Amortization of unrecognized prior service cost	34	34
Amortization of net unrecognized loss	765	729
Net periodic pension cost	\$749	\$640

12. VARIABLE INTEREST ENTITIES

The Company holds a variable interest in three joint ventures for which the Company is the primary beneficiary. Two of the joint ventures operate distribution facilities which primarily distribute mining products. One of these facilities is located in Canada and the other is located in Australia. The Company's variable interest in these joint ventures relates to sales of Titan product to these entities, consigned inventory and working capital loans. The third joint venture is the consortium which owns Voltyre-Prom, a leading producer of agricultural and industrial tires in Volgograd, Russia. Titan is acting as operating partner with responsibility for Voltyre-Prom's daily operations. The Company has also provided working capital loans to Voltyre-Prom.

As the primary beneficiary of these variable interest entities (VIEs), the entities' assets, liabilities and results of operations are included in the Company's consolidated financial statements. The other equity holders' interests are reflected in "Net loss attributable to noncontrolling interests" in the Consolidated Condensed Statements of Operations and "Noncontrolling interests" in the Consolidated Condensed Balance Sheets.

Current liabilities	\$ 13,939	\$ 12,850
Noncurrent liabilities	3,618	2,865
Total liabilities	\$ 17,557	\$ 15,715

All assets in the above table can only be used to settle obligations of the consolidated VIE, to which the respective assets relate. Liabilities are nonrecourse obligations. Amounts presented in the table above are adjusted for intercompany eliminations.

13. ROYALTY EXPENSE

The Company has trademark license agreements with Goodyear to manufacture and sell certain farm tires under the Goodyear name. These agreements cover sales in North America, Latin America, Europe, the Middle East, Africa, Russia and other Commonwealth of Independent States countries. The North American and Latin American farm tire royalties were prepaid through March 2018 as a part of the 2011 Goodyear Latin American farm tire acquisition. The Company also has a trademark license agreement with Goodyear to manufacture and sell certain non-farm tire products in Latin America. Royalty expenses were \$2.3 million and \$3.2 million for the three months ended March 31, 2016 and 2015, respectively.

14. OTHER INCOME

Other income consisted of the following (amounts in thousands):

	Three months ended March 31,	
	2016	2015
Gain on sale of assets	2,342	—
Wheels India Limited equity income (loss)	497	(7)

15. INCOME TAXES

The Company recorded income tax expense of \$1.0 million and \$1.4 million for the quarters ended March 31, 2016 and 2015, respectively. The Company's effective income tax rate was (13%) and 415% for the three months ended March 31, 2016 and 2015, respectively.

The Company's 2016 income tax expense and rate differs from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of U.S. and certain foreign jurisdictions that incurred a full valuation allowance on deferred tax assets created by current year projected losses. In addition, certain profitable foreign jurisdictions have lower statutory tax rates as compared to the U.S. tax rate.

The Company's 2015 income tax expense and rate differs from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of certain foreign jurisdictions that incurred a full valuation allowance on deferred tax assets created by current year projected losses and foreign income taxed in the U.S. offset by net discrete benefits related to a U.S. check the box election and tax law enactments. In addition, the Company's high effective tax rate is driven by a modest or almost break even consolidated pre-tax accounting income for the period.

The Company continues to monitor the realization of its deferred tax assets and assess the need for a valuation allowance. The Company analyzes available positive and negative evidence to determine if a valuation allowance is needed based on the weight of the evidence. This objectively verifiable evidence includes profit and loss positions and weighs this analysis to determine if a valuation allowance is needed. This process requires management to make estimates, assumptions and judgments that are uncertain in nature. The Company has established valuation allowances on U.S. and certain foreign jurisdictions and continues to monitor and assess potential valuation allowances in all its jurisdictions.

16. EARNINGS PER SHARE

Earnings per share (EPS) were as follows (amounts in thousands, except per share data):

	Three months ended March 31,	
	2016	2015
Net loss attributable to Titan	\$(9,152)	\$232
Redemption value adjustment	(5,208)	(2,930)
Net loss applicable to common shareholders	\$(14,360)	\$(2,698)
Determination of Shares:		
Weighted average shares outstanding (basic and diluted)	53,854	53,663
Earnings per share:		
Basic and diluted	(0.27)	(0.05)

The effect of stock options/trusts has been excluded for the three months ended March 31, 2016 and 2015, as the effect would have been antidilutive. The weighted average share amount excluded was 0.2 million for each of the three months ended March 31, 2016 and 2015.

The effect of convertible notes has been excluded for the three months ended March 31, 2016 and 2015, as the effect would have been antidilutive. The weighted average share amount excluded for convertible notes totaled 5.6 million shares for the three months ended March 31, 2016 and 2015.

17. LITIGATION

The Company is a party to routine legal proceedings arising out of the normal course of business. Although it is not possible to predict with certainty the outcome of these unresolved legal actions or the range of possible loss, the Company believes at this time that none of these actions, individually or in the aggregate, will have a material adverse effect on the consolidated financial condition, results of operations or cash flows of the Company. However, due to the difficult nature of predicting unresolved and future legal claims, the Company cannot anticipate or predict the material adverse effect on its consolidated financial condition, results of operations or cash flows as a result of efforts to comply with or its liabilities pertaining to legal judgments.

19. FAIR VALUE MEASUREMENTS

Accounting standards for fair value measurements establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers are defined as:

Level 1 – Quoted prices in active markets for identical instruments.

Level 2 – Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3 – Unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities measured at fair value on a recurring basis consisted of the following (amounts in thousands):

	March 31, 2016			December 31, 2015				
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3

20. RELATED PARTY TRANSACTIONS

The Company sells products and pays commissions to companies controlled by persons related to the chief executive officer of the Company. The related party is Mr. Fred Taylor, Mr. Maurice Taylor's brother. The companies which Mr. Fred Taylor is associated with that do business with Titan include the following: Blackstone OTR, LLC; FBT Enterprises; and OTR Wheel Engineering. Sales of Titan products to these companies were approximately \$0.3 million for the three months ended March 31, 2016, as compared to \$0.7 million for the three months ended March 31, 2015. Titan had trade receivables due from these companies of approximately \$0.0 million at March 31, 2016, and approximately \$0.4 million at December 31, 2015. Sales commissions paid to above companies were approximately \$0.6 million for each of the three months ended March 31, 2016 and 2015.

Mr. Fred Taylor is also associated with Green Carbon, Inc. Titan owns 60% and Green Carbon, Inc. owns 10% in Titan Tire Reclamation Corporation, which is located in Alberta Canada.

In July 2013, the Company entered into a Shareholders' Agreement between One Equity Partners (OEP) and the Russian Direct Investment Fund (RDIF) to acquire Voltyre-Prom, a leading producer of agricultural and industrial tires located in Volgograd, Russia. Mr. Richard M. Cashin, a director of the Company, is President of OEP which

owns 21.4% of the joint venture. The Shareholder's agreement contains a settlement put option which may require the Company to purchase shares from OEP and RDIF at a value set by the agreement. See Note 9 for additional information.

The Company has a 34.2% equity stake in Wheels India Limited, a company incorporated in India and listed on the National Stock Exchange in India.

22. SUBSIDIARY GUARANTOR FINANCIAL INFORMATION

The Company's 6.875% senior secured notes due 2020 and 5.625% convertible senior subordinated notes are guaranteed by the following 100% owned subsidiaries of the Company: Titan Tire Corporation, Titan Tire Corporation of Bryan, Titan Tire Corporation of Freeport, and Titan Wheel Corporation of Illinois. The note guarantees are full and unconditional, joint and several obligations of the guarantors. The guarantees of the guarantor subsidiaries are subject to release in limited circumstances only upon the occurrence of certain customary conditions. See the indenture incorporated by reference to the Company's most recent Form 10-K for additional information. The following condensed consolidating financial statements are presented using the equity method of accounting. Certain sales and marketing expenses recorded by non-guarantor subsidiaries have not been allocated to the guarantor subsidiaries.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's discussion and analysis of financial condition and results of operations (MD&A) is designed to provide a reader of these financial statements with a narrative from the perspective of the management of Titan International, Inc. (Titan or the Company) on Titan's financial condition, results of operations, liquidity and other factors which may affect the Company's future results. The MD&A in this quarterly report should be read in conjunction with the MD&A in Titan's 2015 annual report on Form 10-K filed with the Securities and Exchange Commission on February 25, 2016.

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains forward-looking statements, including statements regarding, among other items:

- Anticipated trends in the Company's business
- Future expenditures for capital projects
- The Company's ability to continue to control costs and maintain quality
- Ability to meet conditions of loan agreements
- The Company's business strategies, including its intention to introduce new products
- Expectations concerning the performance and success of the Company's existing and new products
- The Company's intention to consider and pursue acquisition and divestiture opportunities

Readers of this Form 10-Q should understand that these forward-looking statements are based on the Company's expectations and are subject to a number of risks and uncertainties (including, but not limited to, the factors discussed in Item 1A, Risk Factors, of the Company's most recent annual report on Form 10-K), certain of which are beyond the Company's control.

Actual results could differ materially from these forward-looking statements as a result of certain factors, including:

- The effect of a recession on the Company and its customers and suppliers
- Changes in the Company's end-user markets as a result of world economic or regulatory influences
- Changes in the marketplace, including new products and pricing changes by the Company's competitors
- Ability to maintain satisfactory labor relations
- Unfavorable outcomes of legal proceedings
- Availability and price of raw materials
- Levels of operating efficiencies
- Unfavorable product liability and warranty claims
- Actions of domestic and foreign governments
- Geopolitical and economic uncertainties relating to Russia and Brazil could have a negative impact on the Company's sales and results of operations at the Company's Russian and Brazilian operations
- Results of investments
- Fluctuations in currency translations
- Climate change and related laws and regulations
- Risks associated with environmental laws and regulations

Any changes in such factors could lead to significantly different results. Any assumptions that are inaccurate or do not prove to be correct could have a material adverse effect on the Company's ability to achieve the results as indicated in forward-looking statements. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks and uncertainties, there can be no assurance that the forward-looking information and assumptions contained in this document will in fact transpire.

OVERVIEW

Titan International, Inc. and its subsidiaries are leading manufacturers of wheels, tires, wheel and tire assemblies, and undercarriage systems and components for off-highway vehicles used in the agricultural, earthmoving/construction and consumer segments. Titan manufactures both wheels and tires for the majority of these market applications, allowing the Company to provide the value-added service of delivering complete wheel and tire assemblies. The Company offers a broad range of products that are manufactured in relatively short production runs to meet the specifications of original equipment manufacturers (OEMs) and/or the requirements of aftermarket customers.

Agricultural Segment: Titan's agricultural rims, wheels, tires and undercarriage systems and components are manufactured for use on various agricultural equipment, including tractors, combines, skidders, plows, planters and irrigation equipment, and are sold directly to OEMs and to the aftermarket through independent distributors, equipment dealers and Titan's own distribution centers.

Earthmoving/Construction Segment: The Company manufactures rims, wheels, tires and undercarriage systems and components for various types of off-the-road (OTR) earthmoving, mining, military, construction and forestry equipment, including skid steers, aerial lifts, cranes, graders and levelers, scrapers, self-propelled shovel loaders, articulated dump trucks, load transporters, haul trucks, backhoe loaders, crawler tractors, lattice cranes, shovels and hydraulic excavators.

Consumer Segment: Titan manufactures bias truck tires in Latin America and light truck tires in Russia. Titan also offers select products for ATVs, turf, and golf cart applications.

The Company's major OEM customers include large manufacturers of off-highway equipment such as AGCO Corporation, Caterpillar Inc., CNH Global N.V., Deere & Company, and Kubota Corporation, in addition to many other off-highway equipment manufacturers. The Company distributes products to OEMs, independent and OEM-affiliated dealers, and through a network of distribution facilities.

The table provides highlights for the quarter ended March 31, 2016, compared to 2015 (amounts in thousands):

	2016	2015	% Increase (Decrease)
Net sales	\$321,794	\$402,059	(20)%
Gross profit	31,888	42,794	(25)%
Income (loss) from operations	(7,947)	809	N/A
Net loss	(8,735)	(1,060)	(724)%

The Company recorded sales of \$321.8 million for the first quarter of 2016, which were 20% lower than the first quarter 2015 sales of \$402.1 million. Sales volume was down 11% as both the agricultural and earthmoving/construction segments remain in a cyclical downturn. The consumer segment was affected by the decrease in high-speed brake sales related to lower Chinese infrastructure investment and by lower sales related to economic stress in Brazil. Unfavorable currency translation affected sales by 6%, and a reduction in price mix of 3% further eroded sales.

The Company's gross profit was \$31.9 million, or 9.9% of net sales, for the first quarter of 2016, compared to \$42.8 million, or 10.6% of net sales, in 2015. Loss from operations was \$7.9 million for the first quarter of 2016, compared

to income of \$0.8 million in 2015. Net loss was \$8.7 million for the first quarter of 2016, compared to \$1.1 million in 2015. Basic earnings per share was \$(.27) in the first quarter of 2016, compared to \$(.05) in 2015.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

CRITICAL ACCOUNTING ESTIMATES

Preparation of the financial statements and related disclosures in compliance with accounting principles generally accepted in the United States of America requires the application of appropriate technical accounting rules and guidance, as well as the use of estimates. The Company's application of these policies involves assumptions that require difficult subjective judgments regarding many factors, which, in and of themselves, could materially impact the financial statements and disclosures. A future change in the estimates, assumptions or judgments applied in determining the following matters, among others, could have a material impact on future financial statements and disclosures.

Asset and Business Acquisitions

The allocation of purchase price for asset and business acquisitions requires management estimates and judgment as to expectations for future cash flows of the acquired assets and business and the allocation of those cash flows to identifiable intangible assets in determining the estimated fair value for purchase price allocations. If the actual results differ from the estimates and judgments used in determining the purchase price allocations, impairment losses could occur. To aid in establishing the value of any intangible assets at the time of acquisition, the Company typically engages a professional appraisal firm.

Inventories

Inventories are valued at lower of cost or market. Market value is estimated based on current selling prices. The majority of steel material inventory in North America is accounted for under the LIFO method. The remaining inventories were valued under the first-in, first-out (FIFO) method or average cost method. At March 31, 2016, approximately 8% of the Company's inventories were valued under the last-in, first-out (LIFO) method. Estimated provisions are established for slow-moving and obsolete inventory.

Impairment of Long-Lived Assets

The Company reviews fixed assets to assess recoverability from future operations whenever events and circumstances indicate that the carrying values may not be recoverable. Factors that could result in an impairment review include, but are not limited to, a current period cash flow loss combined with a history of cash flow losses, current cash flows that may be insufficient to recover the investment in the property over the remaining useful life, or a projection that demonstrates continuing losses associated with the use of a long-lived asset, significant changes in the manner of use of the assets or significant changes in business strategies. Impairment losses are recognized in operating results when expected undiscounted cash flows are less than the carrying value of the asset. Impairment losses are measured as the excess of the carrying value of the asset over the discounted expected future cash flows or the estimated fair value of the asset.

As a result of the continued downturns in the Company's markets and overall operating loss, the Company determined in the fourth quarter of 2015 that events and circumstances indicated that the carrying value of fixed assets may not be recoverable. Certain long-lived assets were reviewed for recoverability. No impairment was identified. The Company's impairment testing includes uncertainty because it requires management to make assumptions and to apply judgment to estimated future cash flows and asset fair values. If actual results are not consistent with estimates and assumptions used in estimating future cash flows and asset fair values, Titan may be exposed to impairment charges in the future, which could be material to the Company's results of operations.

Income Taxes

Deferred income tax provisions are determined using the liability method whereby deferred tax assets and liabilities are recognized based upon temporary differences between the financial statement and income tax basis of assets and liabilities. The Company assesses the realizability of its deferred tax asset positions and recognizes and measures uncertain tax positions in accordance with accounting standards for income taxes.

TITAN INTERNATIONAL, INC.
 Management's Discussion and Analysis of
 Financial Condition and Results of Operations

Retirement Benefit Obligations

Pension benefit obligations are based on various assumptions used by third-party actuaries in calculating these amounts. These assumptions include discount rates, expected return on plan assets, mortality rates and other factors. Revisions in assumptions and actual results that differ from the assumptions affect future expenses, cash funding requirements and obligations. The Company has three frozen defined benefit pension plans in the United States and pension plans in several foreign countries. During the first quarter of 2016, the Company contributed cash funds of \$0.9 million to its pension plans. Titan expects to contribute approximately \$3.7 million to these pension plans during the remainder of 2016. For more information concerning these costs and obligations, see the discussion of the "Pensions" and Note 26 to the Company's financial statements on Form 10-K for the fiscal year ended December 31, 2015.

Product Warranties

The Company provides limited warranties on workmanship of its products in all market segments. The majority of the Company's products have a limited warranty that ranges from zero to ten years, with certain products being prorated after the first year. The Company calculates a provision for warranty expense based on past warranty experience. Actual warranty expense may differ from historical experience. The Company's warranty accrual was \$22.1 million at March 31, 2016, and \$23.1 million at December 31, 2015. The Company's warranty accrual amount decreased as the result of lower sales and a decrease in warranty experience resulting from efforts to increase quality.

RESULTS OF OPERATIONS

Highlights for the three months ended March 31, 2016, compared to 2015 (amounts in thousands):

	Three months ended	
	March 31,	
	2016	2015
Net sales	\$321,794	\$402,059
Cost of sales	289,906	359,265
Gross profit	31,888	42,794
Gross profit percentage	9.9	% 10.6

Net Sales

Net sales for the quarter ended March 31, 2016, were \$321.8 million, compared to \$402.1 million in 2015, a decrease of 20%. Sales declined across all reported segments. Sales volume was down 11% as both the agricultural and earthmoving/construction segments remain in a cyclical downturn. The consumer segment was affected by the decrease in high-speed brake sales related to lower Chinese infrastructure investment and by lower sales related to economic stress in Brazil. Unfavorable currency translation affected sales by 6% and a reduction in price mix of 3% further eroded sales.

Cost of Sales and Gross Profit

Cost of sales was \$289.9 million for the quarter ended March 31, 2016, compared to \$359.3 million in 2015. Gross profit for the first quarter of 2016 was \$31.9 million, or 9.9% of net sales, compared to \$42.8 million, or 10.6% of net sales for the first quarter of 2015. Gross profit margins continue to remain around 10% as there is a continued focus on improving productivity efficiency, rationalizing expenditures, finding lower cost material, improving quality, and optimizing prices.

Selling, General and Administrative Expenses

Selling, general and administrative (SG&A) expenses for the first quarter of 2016 were \$35.1 million, or 10.9% of net sales, compared to \$35.7 million, or 8.9% of net sales, for 2015.

Research and Development Expenses

Research and development (R&D) expenses for the first quarter of 2016 were \$2.5 million, or 0.8% of net sales, compared to \$3.1 million, or 0.8% of net sales, for 2015.

TITAN INTERNATIONAL, INC.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

Royalty Expense

The Company has trademark license agreements with Goodyear to manufacture and sell certain farm tires under the Goodyear name. These agreements cover sales in North America, Latin America, Europe, the Middle East, Africa, Russia and other Commonwealth of Independent States countries. The North American and Latin American farm tire royalties were prepaid through March 2018 as a part of the 2011 Goodyear Latin American farm tire acquisition. The Company also has a trademark license agreement with Goodyear to manufacture and sell certain non-farm tire products in Latin America.

Royalty expenses were \$2.3 million and \$3.2 million for the quarters ended March 31, 2016 and 2015, respectively.

Income/Loss from Operations

Loss from operations for the first quarter of 2016, was \$7.9 million, or (2.5)% of net sales, compared to income of \$0.8 million, or 0.2% of net sales, in 2015. This decrease was the net result of the items previously discussed.

Interest Expense

Interest expense was \$8.5 million and \$8.8 million for the quarters ended March 31, 2016 and 2015, respectively.

Foreign Exchange Gain

Foreign currency gain in the first quarter of 2016 and 2015 primarily reflects the translation of intercompany loans at certain foreign subsidiaries denominated in currencies other than their functional currencies. Since such loans are expected to be settled in cash at some point in the future, these loans are adjusted each reporting period to reflect the current exchange rates.

Other Income

Other income was \$3.9 million for the quarter ended March 31, 2016, as compared to \$2.3 million in 2015. For the quarter ended March 31, 2016, the Company recorded a gain on the sale of assets of \$2.3 million, Wheels India Limited equity income of \$0.5 million, discount amortization on prepaid royalty of \$0.5 million, and interest income of \$0.4 million. For the quarter ended March 31, 2015, the Company recorded discount amortization on prepaid royalty of \$0.6 million and interest income of \$0.6 million.

Provision for Income Taxes

The Company recorded income tax expense of \$1.0 million and \$1.4 million for the quarters ended March 31, 2016 and 2015, respectively. The Company's effective income tax rate was (13%) and 415% for the three months ended March 31, 2016 and 2015, respectively.

The Company's 2016 income tax expense and rate differs from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of U.S. and certain foreign jurisdictions that incurred a full valuation allowance on deferred tax assets created by current year projected losses. In addition, certain profitable foreign jurisdictions have lower statutory tax rates as compared to the U.S. tax rate.

The Company's 2015 income tax expense and rate differs from the amount of income tax determined by applying the U.S. Federal income tax rate to pre-tax income primarily as a result of certain foreign jurisdictions that incurred a full valuation allowance on deferred tax assets created by current year projected losses and foreign income taxed in the

U.S. offset by net discrete benefits related to a U.S. check the box election and tax law enactments. In addition, the Company's high effective tax rate is driven by a modest or almost break even consolidated pre-tax accounting income for the period.

The Company continues to monitor the realization of its deferred tax assets and assess the need for a valuation allowance. The Company analyzes available positive and negative evidence to determine if a valuation allowance is needed based on the weight of the evidence. This objectively verifiable evidence includes profit and loss positions and weights this analysis to determine if a valuation allowance is needed. This process requires management to make estimates, assumptions and judgments that are uncertain in nature. The Company has established valuation allowances on U.S. and certain foreign jurisdictions and continues to monitor and assess potential valuation allowances in all its jurisdictions.

TITAN INTERNATIONAL, INC.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

Net Loss

Net loss for the first quarter of March 31, 2016, was \$8.7 million, compared to \$1.1 million in 2015. For the quarters ended March 31, 2016 and 2015, basic and diluted earnings per share were \$(.27) and \$(.05), respectively. The Company's greater net loss and lower earnings per share were due to the items previously discussed.

Agricultural Segment Results

Agricultural segment results were as follows (amounts in thousands):

	Three months ended March 31,	
	2016	2015
Net sales	\$152,825	\$193,728
Gross profit	19,277	22,808
Income from operations	11,357	13,168

Net sales in the agricultural market were \$152.8 million for the quarter ended March 31, 2016, as compared to \$193.7 million in 2015, a decrease of 21%. Agriculture sales experienced reductions in volume of 12% and price/mix of 3% as a consequence of decreased demand for new agricultural equipment. Unfavorable currency translation decreased sales by 6%

Gross profit in the agricultural market was \$19.3 million for the quarter ended March 31, 2016, as compared to \$22.8 million in 2015. Income from operations in the agricultural market was \$11.4 million for the quarter ended March 31, 2016, as compared to \$13.2 million in 2015. Despite the large overall sales erosion resulting from the agricultural and mining cyclical downturns, the Business Improvement Framework instituted in 2014 has continued to help soften the margin impact. Initiatives born from the framework helped to drive headcount reductions, expenditure rationalization, increased productivity, lower raw material costs, lower warranty costs, and pricing optimization.

Earthmoving/Construction Segment Results

Earthmoving/construction segment results were as follows (amounts in thousands):

	Three months ended March 31,	
	2016	2015
Net sales	\$131,704	\$158,526
Gross profit	9,778	12,957
Income (loss) from operations	(667)	717

The Company's earthmoving/construction market net sales were \$131.7 million for the quarter ended March 31, 2016, as compared to \$158.5 million in 2015, a decrease of 17%. Earthmoving/Construction sales experienced reductions in volume of 8% and price/mix of 5%. Unfavorable currency translation decreased sales by 4%.

Gross profit in the earthmoving/construction market was \$9.8 million for the quarter ended March 31, 2016, as compared to \$13.0 million in 2015. The Company's earthmoving/construction market loss from operations was \$0.7 million for the quarter ended March 31, 2016, as compared to income of \$0.7 million in 2015.

Consumer Segment Results

Consumer segment results were as follows (amounts in thousands):

	Three months ended March 31,	
	2016	2015
Net sales	\$37,265	\$49,805
Gross profit	2,833	7,029
Income (loss) from operations	(745)	3,446

Consumer market net sales were \$37.3 million for the quarter ended March 31, 2016, as compared to \$49.8 million in 2015. Sales in the consumer market decreased primarily as the result of unfavorable currency translation of 16%. Lower sales volume of 13% offset partially by a better price/mix of 4% make up the remaining difference in sales. Lower sales were the result of economic stress in Brazil as well as lower sales of high-speed brakes to China.

Gross profit from the consumer market was \$2.8 million for the quarter ended March 31, 2016, as compared to \$7.0 million in 2015. Consumer market loss from operations was \$0.7 million for the quarter ended March 31, 2016, as compared to income of \$3.4 million in 2015.

Segment Summary (amounts in thousands)

Corporate Expenses

Income from operations on a segment basis does not include corporate expenses totaling \$17.9 million for the quarter ended March 31, 2016, as compared to \$16.5 million for 2015. Corporate expenses were composed of selling and marketing expenses of approximately \$8 million and \$7 million for the quarters ended March 31, 2016 and 2015, respectively; and administrative expenses of approximately \$10 million and \$9 million for the quarters ended March 31, 2016 and 2015, respectively. Increases were driven by investments in advertising to support the LSW program as well as legal expenses for anti-dumping litigation.

MARKET RISK SENSITIVE INSTRUMENTS

The Company's risks related to foreign currencies, commodity prices and interest rates are consistent with those for 2015. For more information, see the "Market Risk Sensitive Instruments" discussion in the Company's Form 10-K for the fiscal year ended December 31, 2015.

PENSIONS

The Company has three frozen defined benefit pension plans covering certain employees or former employees of three U.S. subsidiaries. The Company also has pension plans covering certain employees of several foreign subsidiaries. These plans are described in Note 26 of the Company's Notes to Consolidated Financial Statements in the 2015 Annual Report on Form 10-K.

The Company's recorded liability for pensions is based on a number of assumptions, including discount rates, rates of return on investments, mortality rates and other factors. Certain of these assumptions are determined by the Company with the assistance of outside actuaries. Assumptions are based on past experience and anticipated future trends. These assumptions are reviewed on a regular basis and revised when appropriate. Revisions in assumptions and actual results that differ from the assumptions affect future expenses, cash funding requirements and the carrying value of the related obligations. Titan expects to contribute approximately \$3.7 million to these pension plans during the remainder of 2016.

Cash provided by (used for) operating activities	\$2,333	\$(6,967)	\$9,300

In the first quarter of 2016, operating activities provided \$2.3 million of cash, including an increase in accounts receivable of \$32.2 million, offset by a decrease in inventories of \$12.0 million. Included in net loss of \$8.7 million were noncash charges for depreciation and amortization of \$15.2 million.

TITAN INTERNATIONAL, INC.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

Operating cash flows increased \$9.3 million when comparing the first quarter of 2016 to the first quarter of 2015. The net loss in the first quarter of 2016 was a \$7.7 million decrease from the loss in the first quarter of 2015. When comparing the first quarter of 2016 to the first quarter of 2015, cash flows from accounts receivable increased \$24.0 million, which was partially offset by decreased cash flows from accounts payable of \$14.3 million.

The Company's inventory balance was lower at March 31, 2016, as compared to December 31, 2015. Days sales in inventory increased to 80 days at March 31, 2016, from 77 days at December 31, 2015. The Company's accounts receivable balance was higher at March 31, 2016, as compared to December 31, 2015. Days sales outstanding increased to 60 days at March 31, 2016, from 52 days at December 31, 2015.

Investing Cash Flows

Summary of cash flows from investing activities:

(Amounts in thousands)	Three months ended		
	March 31,		
	2016	2015	Change
Capital expenditures	\$(7,149)	\$(11,419)	\$4,270
Other investing activities	771	2,334	(1,563)
Cash used for investing activities	\$(6,378)	\$(9,085)	\$2,707

Net cash used for investing activities was \$6.4 million in the first quarter of 2016, as compared to \$9.1 million in the first quarter of 2015. The Company invested a total of \$7.1 million in capital expenditures in the first quarter of 2016, compared to \$11.4 million in 2015. The 2016 and 2015 expenditures represent various equipment purchases and improvements to enhance production capabilities of Titan's existing business and maintaining existing equipment.

Financing Cash Flows

Summary of cash flows from financing activities:

(Amounts in thousands)	Three months		
	ended March 31,		
	2016	2015	Change
Proceeds from borrowings	\$110	\$11,102	\$(10,992)
Payment on debt	(7,288)	(1,456)	(5,832)
Excess tax benefit from stock-based compensation	—	(388)	388
Dividends paid	(270)	(269)	(1)
Cash provided by (used for) financing activities	\$(7,448)	\$8,989	\$(16,437)

In the first quarter of 2016, \$7.4 million of cash was used for financing activities. This cash was primarily used on payment of debt of \$7.3 million.

In the first quarter of 2015, \$9.0 million of cash was provided by financing activities. This cash was primarily provided by proceeds from borrowings of \$11.1 million.

Financing cash flows decreased by \$16.4 million when comparing the first quarter of 2016 to 2015. This decrease was primarily attributable to payments on debt and decrease in borrowings.

Debt Restrictions

The Company's revolving credit facility (credit facility) contains various restrictions, including:

• Limits on dividends and repurchases of the Company's stock

• Restrictions on the ability of the Company to make additional borrowings, or to consolidate, merge or otherwise fundamentally change the ownership of the Company

• Limitations on investments, dispositions of assets and guarantees of indebtedness

• Other customary affirmative and negative covenants

These restrictions could limit the Company's ability to respond to market conditions, to provide for unanticipated capital investments, to raise additional debt or equity capital, to pay dividends or to take advantage of business opportunities, including future acquisitions.

Financial Condition and Results of Operations

Other Issues

The Company's business is subject to seasonal variations in sales that affect inventory levels and accounts receivable balances. Historically, Titan tends to have higher production levels in the first and second quarters.

Liquidity Outlook

At March 31, 2016, the Company had \$191.1 million of cash and cash equivalents and no outstanding borrowings on the Company's \$150 million credit facility. Titan's availability under this domestic facility may be less than \$150 million as a result of outstanding letters of credit and eligible accounts receivable and inventory balances at certain domestic subsidiaries. At March 31, 2016, the amount available was \$53.4 million as a result of the Company's decrease in sales which impacted both accounts receivable and inventory balances. The cash and cash equivalents balance of \$191.1 million includes \$59.3 million held in foreign countries. The Company's current plans do not demonstrate a need to repatriate the foreign amounts to fund U.S. operations. However, if foreign funds were needed for U.S. operations, the Company would be required to accrue and pay taxes to repatriate the funds.

Capital expenditures for the remainder of 2016 are estimated to be approximately \$20-25 million. Cash payments for interest are currently forecasted to be approximately \$30 million for the remainder of 2016 based on March 31, 2016 debt balances. The forecasted interest payments are comprised primarily of the semi-annual payments of \$13.8 million (due April 1) and \$13.8 million (due October 1) for the 6.875% senior secured notes.

The Company's convertible notes, of which \$60.2 million are outstanding, are due January 2017 and have been reclassified to short-term debt.

In the future, Titan may seek to grow by making acquisitions which will depend on the ability to identify suitable acquisition candidates, to negotiate acceptable terms for their acquisition and to finance those acquisitions.

Subject to the terms of indebtedness, the Company may finance future acquisitions with cash on hand, cash from operations, additional indebtedness, issuing additional equity securities and divestitures.

Cash on hand, anticipated internal cash flows from operations and utilization of remaining available borrowings are expected to provide sufficient liquidity for working capital needs, debt maturities, capital expenditures and potential acquisitions.

RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." This update supersedes the revenue recognition requirements in Topic 605, Revenue Recognition. The core principle of this guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance also requires disclosure about the nature, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amendments in this update were deferred by ASU No. 2015-14, "Revenue from Contracts with Customers (Topic 606) Deferral of Effective Date", and are now effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. The Company will adopt the guidance in the year beginning on January 1, 2018, and is currently assessing the impact that adopting this new accounting guidance will have on the Company's consolidated financial statements.

In February 2016, the FASB issued Accounting Standards Update ASU No. 2016-02, "Leases (Topic 842)." This update was issued to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The amendments in this update are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently assessing the impact that adopting this new accounting guidance will have on the Company's consolidated financial statements.

TITAN INTERNATIONAL, INC.

Management's Discussion and Analysis of
Financial Condition and Results of Operations

In March 2016, the FASB issued ASU No. 2016-07, "Simplifying the Transition to Equity Method of Accounting." This update eliminates the requirement to retroactively adopt the equity method of accounting when an investment qualifies for use of the equity method as a result of the increase in the level of ownership. The amendments in this update are effective for fiscal years, including interim periods within those years, beginning after December 15, 2016. Early application is permitted. The Company is currently assessing the impact that adopting this new accounting guidance will have on the Company's consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, "Improvements to Employee Share-Based Payment Accounting." This update involves several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The amendments in this update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted in any interim or annual period. The Company is currently assessing the impact that adopting this new accounting guidance will have on the Company's consolidated financial statements.

MARKET CONDITIONS AND OUTLOOK

In the first quarter of 2016, Titan experienced lower sales when compared to the first quarter of 2015. The lower sales levels were primarily the result of decreased demand for new equipment used in the agricultural market, which remains in a cyclical downturn, and unfavorable currency translation. In addition, competitive pressures and lower raw material prices, passed to customers in some instances, negatively impacted sales.

Energy, raw material and petroleum-based product costs have been volatile and may negatively impact the Company's margins. Many of Titan's overhead expenses are fixed; therefore, lower seasonal trends may cause negative fluctuations in quarterly profit margins and affect the financial condition of the Company.

AGRICULTURAL MARKET OUTLOOK

Agricultural market sales were lower in the first quarter of 2016 when compared to the first quarter of 2015 due to decreased demand for new equipment used in the agricultural market. Farm net income is generally expected to decline moderately through 2016 based upon lower forecasted cash receipts offset somewhat by lower production costs (fuel, oil, chemical, feed, etc.). Lower income levels are putting pressure on the demand for large farm equipment. More specifically, large equipment sales are expected to continue to decline through 2016. The mix shift to lower horsepower tractors has a negative impact on revenue and margin performance. Most major OEMs are forecasting 2016 equipment sales to be below 2015 within most regions. North American used equipment levels remain relatively high with some decreases recently from peak levels. Excess used equipment inventory and values can also negatively impact the new equipment market. Many variables, including weather, grain prices, export markets, currency and government policies and subsidies can greatly influence the overall health of the agricultural economy.

EARTHMOVING/CONSTRUCTION MARKET OUTLOOK

Earthmoving/construction market sales were lower in the first quarter of 2016 when compared to the first quarter of 2015 due to unfavorable currency translation and weak market conditions. Demand for larger products used in the mining industry is expected to remain depressed throughout 2016, with demand for our products in this market expected to remain similar to 2015. Demand for small and medium sized earthmoving/construction equipment used in the housing and commercial construction sectors is expected to be flat or down slightly. The earthmoving/construction segment is affected by many variables, including commodity prices, road construction, infrastructure, government

appropriations, housing starts and other macroeconomic drivers.

CONSUMER MARKET OUTLOOK

Consumer market sales were lower in the first quarter of 2016 when compared to the first quarter of 2015. Sales in the consumer market decreased primarily as the result of unfavorable currency translation and price/mix from competitive pressures. The consumer market is expected to remain highly competitive throughout 2016. Economic stress in Brazil has affected and may continue to affect the Company's consumer sales. The consumer segment is affected by many variables including consumer spending, interest rates, government policies and other macroeconomic drivers.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See the Company's 2015 Annual Report filed on Form 10-K (Item 7A). There has been no material change in this information.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Titan management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined under Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended) as of the period covered by this Form 10-Q and concluded that, because of a material weakness in Titan's internal control over financial reporting of the Company's entity level controls described below, disclosure controls and procedures were not effective as of the period covered by this Form 10-Q. Notwithstanding the material weakness described below, the Company's management, including the Chief Executive Officer and Chief Financial Officer, has concluded that the consolidated condensed financial statements included in the Quarterly Report and in this Form 10-Q are fairly stated, in all material respects, in accordance with generally accepted accounting principles in the United States for each of the periods presented herein.

Previously Disclosed Material Weakness

Management previously reported a material weakness in the Company's internal control over financial reporting in the Form 10-K for the year ended December 31, 2015. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. Based on this evaluation, including consideration of the control deficiencies discussed below, management has concluded that internal control over financial reporting was not effective as of December 31, 2015, due to the fact that there was a material weakness in internal control over financial reporting. Specifically, through assessment and evaluation, as discussed above, management identified the following points amplified the potential for deficiency: (i) rapid global growth, (ii) increased complexity in accounting and reporting infrastructure and (iii) economic and market downturn. The material weakness was previously identified and reported in the Form 10-K for the year ended December 31, 2014, and is further defined below.

Titan has experienced significant business changes over the past three years, including rapid global growth from a U.S. based company to a large, multinational organization, operating in more than 16 countries, resulting in unique and discrete complex accounting matters. This growth has introduced a significant increase in the complexity of Titan's accounting and reporting infrastructure for collecting and analyzing financial information. Additionally, Titan has been experiencing an economic and market downturn, adding to the complexity of assessing goodwill and fixed asset impairments, valuation of inventory and other complex accounting transactions from a global perspective. Titan's current accounting and reporting infrastructure does not possess the proper resources, processes and systems to effectively address the complex accounting transactions, resulting from its recent international growth and economic/market decline.

Remediation Plan

Management has been actively engaged in developing remediation plans to address the above control deficiencies. The remediation efforts expected to be implemented include the following:

• People - enhance Titan's current accounting and reporting infrastructure by augmenting the team with professionals who possess the commensurate accounting skillsets.

Processes - strengthen Titan's current control environment and overall business processes to ensure risk mitigation and materially accurate financial statement reporting, including increased levels of management review and updated financial policies.

• Systems - augment Titan's current system infrastructure to ensure accurate, timely data is reported.

Management has developed a detailed plan and timetable for implementing the foregoing remediation efforts and will monitor the implementation closely. Additionally, under the direction of the Chief Financial Officer, management will continue reviewing and making the necessary changes to the overall design and operation of the Company's internal control environment, as well as to policies and procedures to improve the overall effectiveness of internal control over financial reporting.

TITAN INTERNATIONAL, INC.

Management believes the aforementioned efforts will effectively remediate the material weakness. As the Company continues evaluating and improving internal control over financial reporting, Titan may determine additional measures are necessary to address control deficiencies and will modify the remediation plan described above, as required.

Changes in Internal Controls

Other than the remediation steps described above, there were no material changes in internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the first quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluations of the effectiveness to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is a party to routine legal proceedings arising out of the normal course of business. Although it is not possible to predict with certainty the outcome of these unresolved legal actions or the range of possible loss, the Company believes at this time that none of these actions, individually or in the aggregate, will have a material adverse effect on the consolidated financial condition, results of operations or cash flows of the Company. However, due to the difficult nature of predicting unresolved and future legal claims, the Company cannot anticipate or predict the material adverse effect on its consolidated financial condition, results of operations or cash flows as a result of efforts to comply with or its liabilities pertaining to legal judgments.
