Earning Release

ELBIT SYSTEMS REPORTS  
SECOND QUARTER 2010 RESULTS

Backlog of orders increased to \$5.36 billion;  
Revenues at \$603.3 million; Net income at \$44.8 million;  
Diluted net earnings per share at \$1.04

Haifa, Israel, August 17, 2010 – Elbit Systems Ltd. (the “Company”) (NASDAQ and TASE: ESLT), the international defense electronics company, today reported its consolidated financial results for the second quarter ended June 30, 2010.

Revenues in the second quarter of 2010 were \$603.3 million, as compared to \$728.3 million in the second quarter of 2009. The decrease in revenues during the second quarter of 2010 was mainly in the C4I systems areas of operations in Israel and in Europe.

Gross profit amounted to \$183.6 million (30.4% of revenues) in the second quarter of 2010, as compared to \$211.9 million (29.1% of revenues) in the second quarter of 2009, which change primarily resulted from the reduction in revenues. Despite the lower revenues, the Company's gross profit margin rate in the second quarter of 2010 improved by 1.3%, compared with the second quarter of 2009.

Research and development ("R&D") expenses, net were \$56.9 million (9.4% of revenues) in the second quarter of 2010, as compared to \$53.0 million (7.3% of revenues) in the second quarter of 2009. The higher level of R&D expenses in the second quarter of 2010 reflected increased efforts on development and adaptations to market requirements of the Company's products.

Marketing and selling expenses were \$50.3 million (8.3% of revenues) in the second quarter of 2010, as compared to \$67.5 million (9.3% of revenues) in the second quarter of 2009. The variance is attributed to quarterly fluctuations in pursuit of market opportunities.

General and administrative expenses were \$32.1 million (5.3% of revenues) in the second quarter of 2010, as compared to \$29.4 million (4.0% of revenues) in the second quarter of 2009.

Other income, net in the second quarter of 2010 reflected a net gain of \$4.8 million related to the revaluation of the previously held Azimuth Technologies Ltd. shares at the acquisition date due to its accounting treatment as a business combination achieved in stages.

Financial expenses, net were \$1.0 million in the second quarter of 2010, as compared to net financial income of \$11.4 million in the second quarter of 2009. The high level of financial income in the second quarter of 2009 was mainly a result of hedging activities related to the change in the U.S. Dollar versus the Israeli Shekel.

Taxes on income were \$6.5 million (effective tax rate of 13.5%) in the second quarter of 2010, as compared to taxes on income of \$14.0 million (effective tax rate of 19.3%) in the second quarter of 2009. The change in the effective tax rate was attributable mainly to the mix of the tax rates in the various jurisdictions in which the Company's entities generate taxable income.

Earning Release

Equity in net earnings of affiliated companies and partnerships was \$5.4 million (0.9% of revenues) in the second quarter of 2010, as compared to \$3.4 million (0.5% of revenues) in the second quarter of 2009.

Net income attributable to non-controlling interests was \$2.3 million in the second quarter of 2010, as compared to \$2.5 million in the second quarter of 2009.

Net income attributable to the Company's ordinary shareholders in the second quarter of 2010 amounted to \$44.8 million (7.4% of revenues), as compared to \$59.7 million (8.2% of revenues) for the second quarter of 2009.

Diluted net earnings per share attributable to the Company's ordinary shareholders were \$1.04 for the second quarter of 2010, as compared with \$1.39 for the second quarter of 2009.

The Company's backlog of orders increased to \$5,358 million as of June 30, 2010, as compared with \$5,044 million as of December 31, 2009. Approximately 71% of the backlog relates to orders outside of Israel. Approximately 61% of the Company's backlog as of June 30, 2010, is scheduled to be performed during the second half of 2010 and in 2011.

Operating cash flow was \$101.6 million in the first half of 2010, as compared to \$93.6 million in the first half of 2009.

Issuance of Series A Notes:

On June 8, 2010, the Company announced that following the filing of a Shelf Offering Report dated June 6, 2010, and pursuant to its Shelf Prospectus dated May 18, 2010, the public offering in Israel of the Company's Series A Notes (the "Series A Notes") was concluded.

Based on the results of the concluded public offering, the Company issued, at par value, Series A Notes in the aggregate principal amount of NIS 1.1 billion (approximately \$284 million), payable in 10 equal annual installments on June 30 of each of the years 2011 through 2020, bearing a fixed interest rate of 4.84% per annum, payable on June 30 and December 30 of each of the years 2010 through 2020 (the first interest payment will be made on December 30, 2010, and the last interest payment will be made on June 30, 2020). The Series A Notes (principal and interest) will not be linked to any currency or index.

The Series A Notes contain standard terms and conditions and are unsecured, non convertible and do not restrict the Company's ability to issue additional notes of any class or distribute dividends in the future. The Series A Notes are listed for trading on the Tel Aviv Stock Exchange.

On May 13, 2010, Midroog Ltd., an Israeli rating agency, announced that it assigned its "Aa1" rating (local scale) to unsecured notes to be issued by the Company, which include the Series A Notes.

The Series A Notes will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold in the United States or to U.S. Persons (as defined in Regulation "S" promulgated under the Securities Act) without registration under the Securities Act or an exemption from the registration requirements of the Securities Act.

Earning Release

Recent Events:

On June 20, 2010, the Company announced that it was awarded a contract to supply a Latin American Army with Command, Control, Computer & Communications (C4I) systems and Electronic Warfare (EW) systems, valued at approximately \$130 million. The project, to be performed over the next three years, is a part of the Army's extensive modernization program and is designated for all echelons, from the maneuvering forces up to the command headquarters. The new, unified communications network will facilitate a real-time common operational picture of the battlefield providing the Land Forces with enhanced operational performance and situational awareness, as well as improved force protection and prevention of "friendly fire".

On August 5, 2010, the Company announced, further to its announcements of July 15, 2010 and July 29, 2010, that the requirements were not met for implementing the tender offer ("Tender Offer") by its wholly-owned subsidiary, Elbit Security Systems Ltd., to acquire the ordinary shares of I.T.L Optronics Ltd. held by the public and therefore the Tender Offer was not implemented.

Management Comment:

The President and CEO of Elbit Systems, Joseph Ackerman, commented: "Over the past two years we have spent close to a billion dollars on R&D and business development on a gross basis, a very significant amount for any company. We believe that these investments represent a valuable asset which provides the foundation for our long-term growth and leadership in the defense electronics industry, despite the current challenges we face in the area of revenue growth."

Mr. Ackerman continued, "During the quarter, we completed a successful bond issuance in the Israeli market, amounting to approximately \$284 million. These funds will support our M&A activities and our working capital needs, including our continued investment in R&D, which are a key part of our long-term strategy of complementary growth by adding synergistic companies to the Elbit Systems family."

Mr. Ackerman concluded, "We are encouraged by the renewed increase in our backlog over the past two quarters, which provides us with a foundation for future growth. Elbit Systems remains well positioned strategically, operationally and financially, and the long-term prospects for the company remain promising."

Earning Release

Dividend:

The Board of Directors declared a dividend of \$0.36 per share for the second quarter of 2010. The dividend's record date is August 31, 2010, and the dividend will be paid on September 13, 2010, net of taxes and levies, at the rate of 17.92%.

The Company will also be hosting a conference call later today, Tuesday August 17, 2010 at 09:00a.m. Eastern Time. On the call, management will review and discuss the second quarter results and will be available to answer questions.

To participate, please call one of the teleconferencing numbers that follow. If you are unable to connect using the toll-free numbers, please try the international dial-in number.

US Dial-in Numbers: 1 888 668 9141

This press release contains forward looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current fact. Forward Looking Statements are based on management's expectations, estimates, projections and assumptions. Forward looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties, which are difficult to predict. Therefore, actual future results, performance and trends may differ materially from these forward looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward looking statements speak only as of the date of this release. The Company does not undertake to update its forward-looking statements.

(\*) In 2010, the Company acquired the remaining 81% of Azimuth Technologies Ltd.'s shares, of which 19% of the shares were held by the Company prior to the acquisition (See Note 1C).

In 2009, the Company acquired the shares of Shiron and the assets and business of BVR Systems (1998) Ltd.

The accompanying notes are an integral part of the condensed interim consolidated financial statements.

- 7 -

---

ELBIT SYSTEMS LTD. AND ITS SUBSIDIARIES

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

U. S. dollars (In thousands)

Note GENERAL

1 -

- A. The accompanying interim condensed financial statements have been prepared in a condensed format as of June 30, 2010, and for the three and six months then ended in accordance with United States generally accepted accounting principles ("U.S. GAAP") (relating to the preparation of financial statements for interim periods). Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. These condensed interim consolidated financial statements are unaudited and should be read in conjunction with the annual audited consolidated financial statements and accompanying notes as of December 31, 2009, included in the Company's annual report for the year ended December 31, 2009, filed on Form 20-F on March 10, 2010. The interim financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation. All such adjustments were of a normal recurring nature.

Operating results for the six-month period ended June 30, 2010, are not necessarily indicative of the results that may be expected for the year ending December 31, 2010.

- B. Reclassifications have been made to comparative data in the balance sheet as of December 31, 2009 in order to conform to the current year's presentation.
- C. On May 11, 2010, the Company's subsidiary, Elbit Security Systems Ltd. ("Elsec"), completed the acquisition of the balance of shares (81%) in Azimuth Technologies Ltd. ("Azimuth"), an Israeli based company, pursuant to the merger agreement signed by Azimuth and Elsec in January 2010. In November 2008, the Company purchased 19% of Azimuth shares. The purchase price for the 81% balance of Azimuth's shares was approximately \$41,500, and the Company remeasured its previously held 19% to \$8,500 using the share price of Azimuth on the Tel-Aviv Stock Exchange at the acquisition, resulting in an aggregate purchase price of approximately \$50,000.

Azimuth and its wholly-owned subsidiary, Instro Precision Ltd., a U.K. based company, specialize in the development of military systems that provide for improved target acquisition, fire coordination, navigation and orientation.

The acquisition was accounted for using the purchase method as a business combination achieved in stages. The Company remeasured its previously held equity interest in Azimuth at its acquisition date fair value, using the quoted share price of Azimuth on Tel-Aviv Stock Exchange, and recognized gain of approximately \$5,000 in earnings, net. The gain is included in "Other income, net."

The results of Azimuth were consolidated in the Company's condensed interim consolidated financial statements commencing on the date of acquisition.

- D. On June 9, 2010, the Company completed a public offering on the Tel-Aviv Stock Exchange of NIS 1.1 billion (approximately \$284,000) Series A Notes (the "Series A Notes"). The Series A Notes were offered and sold in 2010 pursuant to a shelf prospectus that the Company filed in May 2010 with the Israeli Securities Authority and the Tel-Aviv Stock Exchange. The shelf prospectus allows the Company to offer and sell debt in Israel, from time to time, subject to a supplemental shelf offering report describing the terms of the securities offered and the specific details of the offering. See Note 4.

Note 2 SIGNIFICANT ACCOUNTING POLICIES

-

A. The significant accounting policies followed in the preparation of these statements are identical to those applied in preparation of the latest annual consolidated financial statements, except as detailed in the following Notes 2(C) and 2(D).

- 8 -

---

ELBIT SYSTEMS LTD. AND ITS SUBSIDIARIES

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

U. S. dollars (In thousands)

Note 2 SIGNIFICANT ACCOUNTING POLICIES (Cont.)

-

B. USE OF ESTIMATES:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. DERIVATIVE FINANCIAL INSTRUMENTS

The Company accounts for derivatives and hedging based on ASC 815, "Derivatives and Hedging", which requires the Company to recognize all derivatives on the balance sheet at fair value.

In connection with the issuance of the Series A Notes, the Company entered into cross-currency interest rate swaps to convert the NIS fixed rate debt into a USD LIBOR (6 months) plus average of 1.65% rate obligation. The Company designates the cross-currency interest rate swaps as a fair value hedge to hedge the changes in the fair value of the Series A Notes due to both interest and foreign exchange rates.

For derivative instruments that are designated and qualify as a fair value hedge (i.e., hedging the exposure to changes in the fair value of an asset or a liability or an identified portion thereof that is attributable to a particular risk), the gain or loss on the derivative instrument as well as the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in the same line item associated with the hedged item in current earnings (i.e., in "Financial income (expenses), net" as the hedged item is the Company's fixed-rate Series A Notes). See also Note 7.

D. SERIES A NOTES

The Company accounts for the outstanding principal amount of its Series A Notes as long-term liability, in accordance with ASC 470, "Debt". The Series A Notes are classified as a long-term liability, with current maturities classified in short-term liabilities. Debt issuance costs are capitalized and reported as deferred financing costs, which are amortized over the life of the Series A Notes using the effective interest rate method. See also Note 4.

E. RECENTLY ISSUED ACCOUNTING STANDARDS

In July 2010, the FASB issued ASU 2010-20, "Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses". ASU 2010-20 is an update of ASC 310, "Receivables". This update requires enhanced disclosures on a disaggregated basis about:

1. The nature of the credit risk inherent in the portfolio of financing receivables.
2. How that risk is analyzed and assessed in arriving at the allowance for credit losses.
3. The changes and reasons for those changes in the allowance for credit losses.

The disclosures required under ASU 2010-20 as of the end of a reporting period are effective for interim and annual reporting periods ending on or after December 15, 2010. Disclosures about activity that occurs during a reporting period are effective for interim and annual reporting periods beginning on or after December 15, 2010. The Company

is currently evaluating the impact of ASU 2010-20 on the consolidated financial statements.

	\$ 617,602	\$ 569,848

(\*) The Company has transferred legal title of inventories to certain customers as collateral for advances received. Advances are allocated to the relevant inventories on a per-project basis. In cases where advances are in excess of the inventories, the net amount is presented in customer advances.

## Note 4 SERIES A NOTES

-

	June 30, 2010 (Unaudited)
Series A Notes	\$ 281,732
Less -	
Current maturities	(27,744 )
Fair value adjustments resulting from cross-currency interest rate swaps	(6,429 )
	\$ 247,559

In June 2010, the Company issued Series A Notes in the aggregate principle amount of NIS 1.1 billion (approximately \$284,000), payable in 10 equal annual installments on June 30 of each of the years 2011 through 2020. The Series A Notes bear a fixed interest rate of 4.84% per annum, payable on June 30 and December 30 of each of the years 2010 through 2020 (the first interest payment will be made on December 30, 2010, and the last interest payment will be made on June 30, 2020). As of June 30, 2010, the Company recorded \$389 as interest payable, which is included in accrued expenses and other accounts payable. Debt issuance costs were approximately \$2,529, of which \$2,163 was allocated to the Series A Notes discount, and \$366 was allocated to deferred financing costs and are amortized as financial expense over the term of the Series A Notes due in 2020.

The Series A Notes (principal and interest) are not linked to any currency or index. The Series A Notes are unsecured, non convertible and do not restrict the Company's ability to issue additional notes of any class or distribute dividends in the future. There are no covenants on the Series A Notes. The Series A Notes are listed for trading on the Tel-Aviv

Stock Exchange.

On May 13, 2010, Midroog Ltd., an Israeli rating agency, announced that it assigned its "Aa1" rating (local scale) to unsecured notes to be issued by the Company, which include the Series A Notes.

The Series A Notes will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold in the United States or to U.S. Persons (as defined in Regulation "S" promulgated under the Securities Act) without registration under the Securities Act or an exemption from the registration requirements of the Securities Act.

## Note 4SERIES A NOTES (Cont.)

-

The Company also entered into ten-year cross currency interest rate swap transactions in order to effectively hedge the effect of interest and exchange rate differences resulting from the NIS Series A Notes.

Under the cross currency interest rate swaps, the Company will receive fixed NIS at a rate of 4.84% on NIS 1.1 billion and pay floating six-month USD LIBOR + an average spread of 1.65% on \$287,000, which reflects the U.S. dollar value of the Series A Notes on the specific dates the transactions were entered. Both the debt and the swaps instruments will pay semi-annual coupons on June 30 and December 31. The purpose of these transactions was to convert the NIS fixed rate Series A Notes into a USD LIBOR (6 months) floating rate obligations. As a result of these agreements, the Company is currently paying an effective interest rate of six-month LIBOR (0.7% at June 30, 2010) plus an average of 1.65% on the principal amount, as compared to the original 4.84% fixed rate. The above transactions qualify for fair value hedge accounting.

Note 6 FAIR VALUE MEASUREMENTS

-

The carrying amount of cash and cash equivalents, short-term bank deposits, trade receivables, short-term bank credit and loans and trade payables approximate their fair values due to the short-term maturities of such instruments.

The Company accounts for certain assets and liabilities at fair value under ASC 820, “Fair Value Measurements and Disclosures”. Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability.

The hierarchy below lists three levels of fair value based on the extent to which inputs used in measuring fair value are observable in the market. The Company categorizes each of its fair value measurements in one of these three levels based on the lowest level input that is significant to the fair value measurement in its entirety.

The three levels of inputs that may be used to measure fair value are as follows:

Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets;  
 Level 2 - Includes other inputs that are directly or indirectly observable in the marketplace, other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets with insufficient volume or infrequent transactions, or other inputs that are observable (model-derived valuations in which significant inputs are observable), or can be derived principally from or corroborated by observable market data; and

Level 3 - Unobservable inputs which are supported by little or no market activity.

The Company measures its marketable equity securities, debt securities and foreign currency derivative instruments at fair value. Marketable equity securities and government debt securities are classified within Level 1. The Company’s investments in Auction Rate Securities (“ARS”) and Collateralized Debt Obligations (“CDOs”) are classified within Level 3 because they are valued using valuation techniques with significant unobservable inputs. The Company’s foreign currency derivative instruments are classified within Level 2 when the valuation inputs are based on quoted prices and market observable data of similar instruments and in Level 3 when valuation inputs are based on significant unobservable data.

Assets and liabilities measured at fair value on a recurring basis are summarized below:

Description of Assets	Fair value measurement at December 31, 2009 using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

<b>Liabilities</b>			
Foreign currency derivative contracts	-	(11,339 )	(65 )
Cross-currency interest rate swaps	-	(16,109 )	-
<b>Total</b>	<b>\$ 16,721</b>	<b>\$ 3,081</b>	<b>\$ 7,191</b>

The following table presents our assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) at June 30, 2010 (unaudited):

	Level 3
Balance, at December 31, 2009	\$ 7,749
Net change for fair value included in other comprehensive income	(558 )
<b>Balance, at June 30, 2010</b>	<b>\$ 7,191</b>

For ARS and CDO debt securities, their fair value was determined using an independent third party valuator. The fair value was based on a trinomial discount model employing assumptions that market participants would use in their estimates of fair value. The assumptions included among others, the following: the underlying structure of the security, the financial standing of the issuer, stated maturities, estimates of the probability of the issue being called at par prior to final maturity, estimates of the probability of defaults and recoveries, auctions failure and successful auction or repurchase at par for each period, expected changes in interest rates paid on the securities, interest rates paid on similar instruments, and an estimated illiquidity discount due to extended redemption periods. Finally, the present value of the future principal and interest payments was discounted at rates considered to reflect current market conditions for each security.

The fair value of long-term loans is estimated by discounting the future cash flows using current interest rates for loans of similar terms and maturities. The carrying amount of the long-term loans approximates their fair value.

## Note 8 COMMITMENTS AND CONTINGENT LIABILITIES

-

## A. LEGAL CLAIMS

- (1) Elbit Systems and its subsidiaries are involved in legal claims arising in the ordinary course of business, including claims by employees, consultants and others. The Company's management, based on the opinion of its legal counsel, believes that the financial impact for the settlement of such claims in excess of the accruals recorded in the financial statements will not have a material adverse effect on the financial position or results of operations of the Company.
- (2) The Company and its wholly-owned Israeli subsidiary, Elbit Systems Electro-Optics Elop Ltd. ("Elop"), are involved in a series of claims relating to ImageSat International N.V. ("ImageSat"), in which Elop holds an

approximately 14% interest (7% on a fully diluted basis) and is entitled to nominate one director to ImageSat's board of directors. ImageSat's largest shareholder is Israel Aerospace Industries Ltd. ("IAI"). ImageSat is engaged in the operation of satellites and in providing satellite imagery. IAI has manufactured and supplied satellites to ImageSat, and Elop manufactured and supplied the cameras for those satellites as IAI's subcontractor.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

U. S. dollars (In thousands)

Note 8 COMMITMENTS AND CONTINGENT LIABILITIES (Cont.)

-

A. LEGAL CLAIMS (Cont.)

The claims were filed by certain minority shareholders and debt holders of ImageSat against IAI, the Company and Elop. Some of the claims also named as defendants ImageSat and certain individuals who have served on ImageSat's Board of Directors at various times including, among others, Michael Federmann, Joseph Ackerman and Joseph Gaspar, the Company's Board Chairman, President and Chief Financial Officer, respectively. The claims allege that the defendants breached their fiduciary and/or contractual obligations to the detriment of the plaintiffs, alleging various causes of actions and damages aggregating hundreds of millions of dollars, not all of which were alleged against the Company, Elop and/or the above-mentioned individual defendants. Five such claims were filed: (1) in July 2007 in the United States District Court for the Southern District of New York (the "N.Y. Southern District") (the "July 2007 Claim"); (2) in August 2008 in the N.Y. Southern District (the "August 2008 Claim"); (3) in December 2008 in the N.Y. Southern District (the "December 2008 Claim"); (4) in January 2010 in the Supreme Court of the State of New York, County of New York ("New York County Supreme Court") (the "January 2010 Claim"); and (5) in April 2010 in the District Court of Petach Tikva, Israel (the "April 2010 Claim").

The July 2007 Claim was dismissed on the grounds of forum conveniens by the N.Y. Southern District in July 2008. The plaintiffs' appeal to the U.S. Federal Court for the Second Circuit (the "Second Circuit") was denied in November 2009, and the time for filing a petition to the Supreme Court of the United States has expired. Therefore, the July 2007 Claim is considered closed. The August 2008 Claim was dismissed by the N.Y. Southern District on the grounds of forum non-conveniens in January 2010 and also is considered closed. The December 2008 Claim was withdrawn, and in April 2009 re-filed in the New York County Supreme Court. In December 2009, all of the plaintiffs claims in the December 2008 Claim were dismissed by the New York County Supreme Court on the grounds of forum non-conveniens, except a single cause of action based on an alleged breach of a security holders agreement between various security holders of ImageSat (the "Security Holders Agreement"), due to an alleged failure to appoint independent directors to ImageSat's board of directors. In July 2010, the New York County Supreme Court dismissed the January 2010 Claim as to one of the plaintiffs and limited the claim by the rest of the plaintiffs solely to the claim of an alleged breach of the Security Holders Agreement with respect to the nomination of independent directors to ImageSat's board. In July 2010, the defendants filed a motion to dismiss the April 2010 Claim, which is currently pending before the District Court of Petach Tikva.

The Company believes that there is no merit or basis to the allegations made in the remaining above-mentioned legal proceedings against it, Elop or the former ImageSat directors who were nominated by Elop. IAI has agreed to indemnify the Company, Elop and the directors nominated by Elop to ImageSat's board, for any losses arising out of any of the foregoing claims or legal proceedings, net of insurance proceeds received from ImageSat's insurance policies and any indemnification proceeds received from ImageSat.

ELBIT SYSTEMS LTD. AND ITS SUBSIDIARIES

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

U. S. dollars (In thousands)

Note 8 COMMITMENTS AND CONTINGENT LIABILITIES (Cont.)

-

A. LEGAL CLAIMS (Cont.)

- (3) In December 2009, a claim in the amount of approximately \$10,000 was filed in the District Court – Central District of Israel by Pinpoint Advance Corporation (“Pinpoint”) and four of its founders against two of the Company's Israeli subsidiaries, Elbit Systems Holdings (1997) Ltd. and Kinetics Ltd. (“Kinetics”), as well as against one of Elbit Systems’ officers, Jacob Gadot. Pinpoint is a special purpose acquisition company that was in negotiations with said subsidiaries and other Kinetics’ shareholders regarding the sale of shares in Kinetics during 2008. The transaction was not completed, and negotiations were terminated. Pinpoint claims that the agreement was completed, and thus entered into effect. Alternatively, Pinpoint claims that the Company's decision not to complete the agreement was made in bad faith, and that under the circumstances Pinpoint and its founders are entitled to pecuniary compensation equal to their rights and entitlements under the alleged breached contract. Elbit Systems believes there is no merit to the allegations made in the claim, and the defendants have responded accordingly to the Court. At the request of the Court, the parties are currently pursuing a mediation process.

B. COVENANTS

- (1) In connection with bank credits and loans, including performance guarantees issued by banks and bank guarantees in order to secure certain advances from customers, the Company and certain subsidiaries are obligated to meet certain financial covenants. Such covenants include requirements for shareholders' equity, current ratio, operating profit margin, tangible net worth, EBITDA, interest coverage ratio and total leverage. As of December 31, 2009, Elbit Systems and its subsidiaries, except Elisra, were in full compliance with all covenants.
- (2) Elisra’s liabilities to banks, including performance guarantees issued by banks and bank guarantees in order to secure certain advances from customers, are secured, with first priority liens and/or floating liens on all of Elisra’s property and assets, with no limitations as to amount, and by negative pledges. According to the agreement with the banks, Elisra committed to comply with certain financial covenants (to be measured based on Elisra’s stand-alone financial statements), which include, among others, a minimum ratio of shareholders’ equity to total assets (as defined in the agreement), a minimum current ratio, a minimum amount of shareholders’ equity and a minimum amount of pre-tax income. In addition, certain restrictions have been imposed on Elisra regarding the provision of guarantees to third parties, creating new liens and on selling or transferring assets in material amounts. During the six months ended June 30, 2010, Elisra received new financial covenants from two banks, which replaced the previous covenants.

As of June 30, 2010, Elisra is in full compliance with the new financial covenants, regarding two banks, but did not comply with the covenants of another bank, and that may have a negative effect on Elisra's repayment ability. In the opinion of Elisra's and the Company's management, Elisra's anticipated cash flows from operating activities and/or available sources of financing, in the twelve months following the balance sheet date, will enable Elisra to meet its current liabilities.

NoteSUBSEQUENT EVENTS

9 -

On August 5, 2010, the Company announced, further to its announcements of July 15, 2010 and July 29, 2010, that the requirements for implementing the tender offer ("Tender Offer") issued by its wholly-owned subsidiary, Elbit Security Systems Ltd., to acquire the ordinary shares of I.T.L Optronics Ltd. held by the public were not met, and the Tender Offer was not implemented.
