SBA Communications Corporation

We are a leading independent owner and operator of wireless communications towers in the United States. We generate revenues from our two primary businesses, site leasing and site development. In our site leasing business, we lease antenna space on towers and other structures that we own or manage for others. The towers that we own have either been built by us at the request of a wireless carrier or built or acquired based on our own initiative. At December 31, 2000, we owned or controlled 2,390 towers and had agreements to acquire 677 towers. We also had carrier directives to build over 600 additional towers and had, in various phases of development, over 1,000 locations which we had internally identified as a desirable location on which to build a tower. In our site development business, we offer wireless service providers assistance in developing their own networks, including designing a network with full signal coverage, identifying and acquiring locations to place their antennas, obtaining zoning approvals, building towers when necessary and installing their antennas. Since our founding in 1989, we have participated in the development of more than 15,000 antenna sites in 49 of the 51 major wireless markets in the

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

United States.

Site Leasing Services

In 1997, we began aggressively expanding our site leasing business by capitalizing on our nationally recognized site development experience and strong relationships with wireless service providers to take advantage of the trends toward co-location, which is the placement of multiple antennas on one tower, and independent tower ownership. Our 2,390 towers at December 31, 2000 had 5,548 total tenants or 2.3 tenants per tower. We believe our towers have significant capacity to accommodate additional tenants. The following chart shows the number of towers we constructed for our own account and the number of towers we acquired during the periods indicated:

	Year Ended December				
	31,				
	1997	1998	1999	2000	Total
Towers constructed.....	15	310	438	779	1,542
Towers acquired.....	36	133	231	448	848

We believe our history and experience in providing site development services gives us a competitive advantage in choosing the most attractive locations on which to build new towers or buy existing towers, as measured by our success in increasing tower revenues and cash flows. Our same tower revenue growth at December 31, 2000 on the 1,163 towers we owned as of December 31, 1999 was 34%, based on tenant leases signed and revenues annualized as of December 31, 1999 and 2000. We signed 261 new tenant leases in the quarter ended December 31, 2000 on the 1,950 towers we owned at the beginning of the quarter, at an average initial monthly rent of \$1,567. Our annualized rate of tenants added per tower, on a broadband equivalent basis, was .55, .64, .59 and .56 for each of the last four quarters. A broadband equivalent basis is calculated by dividing total lease revenue by \$1,500, an industry benchmark for monthly tower rent per tenant. We believe that our annualized rate of new tenants added per tower per quarter is among the highest in the industry.

Our site leasing revenue comes from a variety of wireless carriers, including AT&T Wireless, Cingular, Nextel, Sprint PCS, Verizon and VoiceStream. Site leasing revenue was \$26.4 million for the year ended

1

December 31, 1999 and \$52.0 million for the year ended December 31, 2000. We believe that our site leasing revenues will grow as wireless service providers continue to lease antenna space on our towers and as the number of towers we own or control grows.

Our primary focus is the leasing of antenna space on our multi-tenant towers to a variety of wireless service providers under long-term lease contracts. We lease antenna space on:

- . the towers we construct through carrier directives under build-to-suit programs;
- . existing towers we acquire;

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

- . the towers we build on locations we have selected which we call "strategic" new tower builds; and
- . towers we lease, sublease and/or manage for third parties.

Under a build-to-suit program, we build a tower for a wireless service provider on a location of their direction. We retain ownership of the tower and the exclusive right to co-locate additional tenants on the tower. Many wireless service providers are choosing the build-to-suit option as an alternative to tower ownership, and we believe that this outsourcing trend is likely to continue for the foreseeable future. Our build-to-suit sites come from a variety of wireless carriers, including Alamosa PCS, AT&T Wireless, Cingular, Georgia PCS, Horizon PCS, Sprint PCS, TeleCorp PCS and VoiceStream.

To help maximize the revenue and profit we earn from our capital investment in the towers we own, we have begun to provide services at our tower locations beyond the leasing of antenna space. These services which we provide or may provide in the future include generator provisioning, power provisioning, antenna installation, equipment installation and backhaul, which is the transport of the wireless signals transmitted or received by an antenna to a carrier's network. Some of these services are recurring in nature, and are contracted for by a wireless carrier or other user in a manner similar to the way they lease antenna space.

Site Development Services

Our site development business consists of two segments, site development consulting and site development construction, through which we provide wireless service providers a full range of end-to-end services. In the consulting segment of our site development business, we offer clients the following services: (1) network pre-design; (2) identification of potential locations for towers and antennas; (3) support in buying or leasing of the location; and (4) assistance in obtaining zoning approvals and permits. In the construction segment of our site development business we provide a number of services, including the following: (1) tower and related site construction; (2) switch construction; (3) antenna installation; and (4) radio equipment installation, optimization and service. We will continue to use our site development expertise to complement our site leasing business and secure additional new tower build opportunities. We have capitalized on our leadership position in the site development business and our strong relationships with wireless service providers to develop our build-to-suit and strategic new tower build programs. For our strategic new tower build activities, we are often able to use our site development activities to identify an area without wireless signal coverage on which to build a tower for the benefit of a current or potential customer.

We have a diverse range of customers, including cellular, PCS, wireless data and Internet services, paging, SMR and ESMR providers as well as other users of wireless transmission and reception equipment. Our site development customers currently comprise many of the major wireless communications companies, including AT&T Wireless, Cingular, Nextel, Sprint PCS, Verizon and VoiceStream. Site development revenue was \$60.6 million for the year ended December 31, 1999 and \$115.9 million for the year ended December 31, 2000. We believe that our site development business will grow with the expected overall growth of wireless and other telecommunications networks. We anticipate that site development construction revenues will continue to exceed site development consulting revenues.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Industry Overview

We believe that the rapid growth in demand for wireless services will continue to increase the need for communication sites (which include towers, rooftops and other structures on which antennas are placed). The growth in demand for wireless services and communication sites is the result of several factors, including:

- . the emergence of new wireless technologies, such as wireless data, Internet services and improved, or "next generation" wireless voice transmission;
- . business and consumer preferences for higher quality voice and data transmission and the popularity of the "one-rate" plans;
- . the need to expand services and fill-in and upgrade existing networks;
- . the continuing build-out of higher frequency technologies, such as PCS, which have a reduced cell range and thus require a more dense network of towers;
- . the continuing issuance of new wireless network licenses requiring the construction of new wireless networks; and
- . increasing mobility of the U.S. population and the growing awareness of the benefits of mobile communications.

In addition, our site leasing business benefits from the industry's diversified recurring revenue and effective operating leverage as a result of several factors, including:

- . the long-term nature of lease contract revenues;
- . low customer turnover rates due to the high direct and indirect costs of relocation;
- . low variable operating costs, which cause increases in revenues to generate disproportionately larger increases in tower cash flow;
- . low on-going maintenance capital expenditure requirements;
- . a customer base diversified across geographic markets, industry segments (PCS, wireless data and Internet, cellular, paging, ESMR and SMR) and individual customers within these segments; and
- . the limited number of available tower sites serving a given area and consequent barriers to entry, principally as a result of local opposition to the proliferation of towers within an area.

We believe that wireless service providers face greater competition today and are now focusing their capital and operations primarily on activities that build subscriber growth, such as marketing and distribution. Therefore, they will increasingly seek to outsource communication site ownership, construction, management and maintenance.

Business Strategy

Our primary strategy is to expand the scope of our position as a leading owner and operator of communication towers and provider of site development services. Key elements of our strategy include:

- . Maximizing use of tower capacity

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

- . Developing new towers that we will own and operate
- . Acquiring existing towers

3

- . Capturing other revenues that flow from our tower ownership
- . Executing on a local basis
- . Building on strong relationships with major wireless service providers
- . Maintaining our expertise in site development services
- . Capitalizing on our management experience

Recent Events

In September 2000, we entered into an agreement to acquire 275 existing towers from TeleCorp PCS, Inc. in Illinois, Louisiana, Tennessee, Texas, Mississippi, Missouri, Arkansas and Puerto Rico. The acquisition price of the towers will be \$327,500 per tower. Contingent on the closing of the TeleCorp tower acquisition, we have agreed to become the exclusive build-to-suit provider for TeleCorp. Under the build-to-suit agreement, we will construct a minimum of 200 tower facilities and up to a maximum of 400 tower facilities. Under the terms of the acquisition, TeleCorp will enter into long-term leases, at a monthly rate of \$1,200 per acquired tower and \$1,300 per built tower, to place its wireless network equipment on each tower acquired or built. On March 16, 2001 we acquired 203 of the 275 towers from Telecorp for \$66.5 million. We anticipate completing the acquisition of the remaining 72 towers in the second quarter of 2001. However, our acquisition of the remaining towers is subject to our satisfactory completion of our review of the business, financial and legal aspects of towers that may be acquired. As of December 31, 2000, the 275 towers which would be purchased if the TeleCorp transaction was consummated, had an annualized run rate, including pending leases, of approximately \$6.1 million in revenues and approximately \$3.9 million in cash flow.

In December 2000, we entered into an agreement with Louisiana Unwired Inc., a subsidiary of US Unwired Inc., to acquire 300 towers in Louisiana, Texas and Arkansas. Pursuant to the terms of the agreement, we purchased 127 of the 300 towers on December 29, 2000. We have the obligation to purchase the remaining 173 towers, subject to the receipt of certain consents, by May 1, 2001. Additionally, the agreement granted us the option until December 31, 2001 to purchase the lesser of (1) the number of towers constructed by Louisiana Unwired during 2001 and (2) 100 towers. Our ability to exercise this option is contingent upon our (A) securing financing adequate to purchase the towers and (B) placing in escrow a deposit of \$1.67 million prior to April 19, 2001. The acquisition price for each of the towers covered by the agreement is \$313,000 per tower. Under the terms of the acquisition agreement, US Unwired has agreed to enter into long-term leases, at a monthly rate of \$1,500 per tower, to place its wireless network equipment at each tower that we purchase. As of December 31, 2000, the 300 towers, including the 173 towers which would be purchased if the second stage of the US Unwired transaction was consummated, had an annualized run rate, including pending leases, of approximately \$5.8 million in revenues and approximately \$3.4 million in cash flow.

While all of the towers acquired from TeleCorp and US Unwired will generate revenues immediately upon consummation of their respective acquisition, the towers will not at such time be profitable. We cannot assure you that these

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

towers will ever be profitable because these towers will be profitable only if we are able to sign additional leases with third parties for the location of antennas on these towers.

The acquisition of the remaining 72 TeleCorp towers and the remaining 273 US Unwired towers are subject to numerous closing conditions. We cannot assure you if or when either of these transactions will close.

Our principal executive offices are located at One Town Center Road, Third Floor, Boca Raton, Florida 33486, and our telephone number is (561) 995-7670. See "The Exchange Offer--Procedures for Tendering Old Notes--Guaranteed Delivery Procedures."

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Tax Considerations.... For U.S. federal income tax purposes, the exchange of old notes for new notes should not be considered a sale or exchange or otherwise a taxable event to the holders of notes.

Use of Proceeds..... We will receive no proceeds from the exchange offer.

Appraisal Rights..... Holders of old notes will not have dissenters' rights or appraisal rights in connection with the exchange offer.

Exchange Agent..... State Street Bank and Trust Company is serving as exchange agent in connection with the exchange offer for the notes.

Resales of New

Notes..... Based on an interpretation by the Commission set forth in no-action letters issued to third parties, we believe that you may resell or otherwise transfer new notes issued in the exchange offer in exchange for old notes without restrictions under the federal securities laws. However, there are exceptions to this general statement.

You may not freely transfer the new notes if:

- . you are an affiliate of SBA;
- . you did not acquire the new notes in the ordinary course of your business;
- . you intend to participate in the exchange offer for the purpose of distributing new notes; or
- . you are a broker-dealer who acquired the old notes directly from us.

6

Any holder subject to any of the exceptions above will not be able to rely on the interpretations of the Staff set forth in the above-mentioned interpretive letters; will not be permitted or entitled to tender old notes in the exchange offer; and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any sale or other transfer of old notes unless the sale is made pursuant to an exemption from those requirements.

In addition, each participating broker-dealer that receives new notes for its own account in the exchange offer in exchange for old notes that were acquired as a result of market making activities or other trading activities, and not directly from us, must comply with the registration and prospectus delivery requirements of the Securities Act in connection with the resale of the new notes.

Consequences of Not
Exchanging The Old

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Notes..... If you do not tender your old notes or your old notes are not properly tendered, the existing transfer restrictions will continue to apply. The old notes are currently eligible for sale pursuant to Rule 144A through the Portal Market. Because we anticipate that most holders will elect to exchange old notes for new notes due to the absence of restrictions on the resale of new notes under the Securities Act, we anticipate that the liquidity of the market for any old notes remaining after the consummation of the exchange offer will be substantially limited. See "Risk Factors--There could be negative consequences to you if you do not exchange your old notes for new notes" and "The Exchange Offer--Consequences of Failure to Exchange Old Notes."

No Prior Market..... The notes will be new securities for which there is currently no market. Although the initial purchasers have informed us of their intentions to make a market in the notes, they are not obligated to do so and they may discontinue any market-making at any time without notice. Accordingly we cannot assure you as to the development or liquidity of any market for the notes.

Summary Description of the New Notes

The terms of the new notes and the old notes are identical in all respects, except that the terms of the new notes do not include the transfer restrictions and registration rights relating to the old notes.

Notes Offered..... \$500.0 million aggregate principal amount of 10 1/4% senior notes due 2009.

Maturity Date..... February 1, 2009.

Interest Payment

Dates..... February 1 and August 1 of each year, commencing August 1, 2001.

Interest..... The new notes will bear interest from the later of February 2, 2001 or the most recent date to which interest has been paid on the old notes. Accordingly, registered holders of new notes on the relevant record date for the first interest payment date following the completion of the exchange offer will receive interest accruing from the later of February 2, 2001 or the

7

most recent date on which interest has been paid. Old notes accepted for exchange will cease to accrue interest from and after the date of completion of the exchange offer. Holders of old notes whose old notes are accepted for exchange will not receive any payment in respect of interest on the old notes otherwise payable on any interest payment date that occurs on or after completion of the exchange offer.

Interest Ranking..... The notes will be the issuer's general unsecured senior indebtedness and will be pari passu in right of payment to the issuer's other existing and future senior

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

indebtedness.

As of December 31, 2000, on a pro forma basis after giving effect to the completion of the offering of the old notes, we (exclusive of our subsidiaries) would have had \$709.0 million of indebtedness outstanding.

Because we are a holding company and conduct our business through our subsidiaries, all existing and future indebtedness and other liabilities and commitments of our subsidiaries, including any senior credit facility and trade payables, will be structurally senior to the notes.

Optional Redemption... We may redeem all or a part of the notes on or after February 1, 2005, at the redemption prices listed in "Description of the Notes--Optional Redemption" plus accrued and unpaid interest to the redemption date.

Prior to February 1, 2004, we may use the proceeds of certain equity offerings and/or equity investments to redeem up to 35% of the original principal amount of the notes at a redemption price of 110.250% of their principal amount, plus accrued and unpaid interest and liquidated damages, if any, to the redemption date; provided that at least 65% of the aggregate principal amount of the notes remain outstanding after such redemption and that such redemption shall occur within 60 days of the date of the closing of such equity offering and/or equity investment.

Mandatory Offer to Purchase..... If we experience a change of control, holders of the notes may require us to repurchase all or a part of their notes at a purchase price of 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of purchase.

Covenants..... The notes are issued under an indenture between us and the trustee. The indenture contains covenants that limit our ability to, among other things:

- . incur additional indebtedness and issue preferred stock;
- . pay dividends or make other distributions;
- . make other restricted payments and investments;
- . create liens;
- . permit restrictions on the ability of our subsidiaries to pay dividends or other payments to us;
- . sell assets;

- . merge or consolidate with other entities;

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

- . enter into sale and leaseback transactions; and
- . enter into transactions with affiliates.

Events of Default..... Each of the following constitutes an event of default:

- . default for 30 days in the payment when due of interest on the notes;
- . default in payment when due of the principal of or premium, if any, on the notes;
- . failure by us or any of our subsidiaries to comply with the provisions described under the caption "-- Certain Covenants--Merger, Consolidation or Sale of Assets" or failure by us to consummate a Change of Control Offer or Asset Sale Offer (as defined in the indenture) under the provisions of the indenture;
- . failure by us or any of our subsidiaries for 30 days after notice to comply with any of our other agreements in the indenture or the notes;
- . default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any indebtedness for money borrowed by us or any of our significant subsidiaries (or the payment of which is guaranteed by us or any of our significant subsidiaries) whether such indebtedness or guarantee now exists, or is created after the date of the indenture, which default (a) is caused by a failure to pay principal of or premium, if any, or interest on such indebtedness prior to the expiration of the grace period provided in such indebtedness on the date of such default (a "Payment Default") or (b) results in the acceleration of such indebtedness prior to its express maturity and, in each case, the principal amount of any such indebtedness, together with the principal amount of any other such indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$10.0 million or more;
- . failure by us or any of our significant subsidiaries to pay final judgments aggregating in excess of \$10.0 million, which judgments are not paid, discharged or stayed for a period of 60 days; or
- . certain events of bankruptcy or insolvency with respect to us or any of our restricted subsidiaries that is a significant subsidiary.

Rights of Holders..... If any event of default occurs and is continuing, the trustee or the holders of at least 25% in principal amount of the then outstanding notes may declare all of the notes to be due and payable immediately. Upon any such declaration, the principal of, and accrued and unpaid interest, if any, on the notes shall become due and payable immediately. Notwithstanding the foregoing, in the case of an event of default arising from certain

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

events of bankruptcy or insolvency, with respect to us, all outstanding notes will become due and payable without further action or notice. Holders of the notes may not enforce the indenture or the notes except as provided in the

9

indenture. Subject to certain limitations, holders of a majority in principal amount of the then outstanding notes may direct the trustee in its exercise of any trust or power.

The holders of a majority in aggregate principal amount of the notes then outstanding by notice to the trustee may on behalf of the holders of all of the notes waive any existing default or event of default and its consequences under the indenture except a continuing default or event of default in the payment of interest on, or the principal of, the notes.

Trustee..... State Street Bank and Trust Company

For additional information concerning the notes, see "Description of the Notes."

- (a) For the year ended December 31, 1998, selling, general and administrative expenses included non-cash compensation expense of \$0.6 million incurred in connection with the issuance of stock options and Class A common stock. For the year ended December 31, 1999, selling, general and administrative expenses included non-cash compensation expense of \$0.3 million incurred in connection with stock option activity. For the year ended December 31, 2000, selling, general and administrative expenses included non-cash compensation expense of \$0.3 million incurred in connection with stock option and restricted stock activity.
- (b) EBITDA represents earnings (loss) before interest income, interest expense, other income, income taxes, depreciation, amortization and the non-cash compensation expense referred to in footnote (a) above. EBITDA is commonly used in the telecommunications industry to analyze companies on the basis of operating performance, leverage and liquidity. EBITDA is not intended to represent cash flows for the periods presented, nor has it been presented as an alternative to operating income or as an indicator of operating performance and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with generally accepted accounting principles. Companies calculate EBITDA differently and, therefore, EBITDA as presented by us may not be comparable to EBITDA reported by other companies.
- (c) We define "tower cash flow" as site leasing revenue less cost of site leasing revenue (exclusive of depreciation). Tower cash flow includes deferred revenue attributable to certain leases. We believe tower cash flow is useful because it allows you to compare tower performance before the effect of expenses (selling, general and administrative) that do not relate directly to tower performance. We define "annualized tower cash flow" as tower cash flow for the last calendar quarter attributable to our site leasing business multiplied by four.
- (d) Includes the value of Class A common stock issued in connection with acquisitions.
- (e) For purposes of calculating the ratio of earnings to fixed charges, earnings represent net loss before income taxes and extraordinary items, interest expense, the component of rental expense believed by management to be representative of the interest factor thereon, and amortization of original issue discount and debt issue costs. Fixed charges consist of interest expense, the component of rental expense believed by management to be representative of the interest factor thereon, amortization of original issue discount and debt issue costs and preferred dividends. We had a deficiency in earnings to fixed charges of \$24.0 million and \$33.7 million for 1998 and 1999, respectively.
- (f) Annualized EBITDA represents EBITDA for the most recent quarter times four. EBITDA for the quarter ended December 31, 2000 was \$10.4 million and annualized EBITDA was \$41.4 million.

RISK FACTORS

Holders of old notes should carefully consider the information set forth under the caption "Risk Factors" and all other information set forth in this prospectus before tendering their old notes in the exchange offer. The risk factors set forth in this prospectus, other than "Risk Factors--There could be negative consequences to you if you do not exchange your old notes for new notes," are generally applicable to the old notes as well as the new notes.

Risks Relating to Our Business

Our substantial indebtedness could adversely affect our financial health and prevent us from fulfilling our payment obligations.

As indicated below, we have and will continue to have a significant amount of indebtedness relative to our equity size.

	At December 31, 2000 After Note Offering(a)	

	(in thousands)	
Total indebtedness.....	\$284,273	\$709,273
Stockholders' equity.....	\$538,160	\$533,397

(a) Subsequent to December 31, 2000, we borrowed \$30.0 million under our revolving line of credit. In February 2001, we issued \$500.0 million of the old notes and used \$105.0 million to repay all amounts outstanding under our senior credit facility. In connection with the termination of our senior credit facility, we recorded an extraordinary loss of \$4.8 million related to the write-off of deferred financing fees associated with our existing senior credit facility in the first quarter of 2001.

Our substantial indebtedness could have important consequences to you. For example, it could:

- . limit our ability to repay the notes and our 12% senior discount notes;
- . limit our ability to fund future working capital, capital expenditures and research and development costs;
- . limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;
- . place us at a competitive disadvantage to our competitors that are less leveraged; and
- . limit, along with the financial and other restrictive covenants in our indebtedness, among other things, our ability to borrow additional funds. Failing to comply with those covenants could result in an event of default.

Our ability to service our debt obligations will depend on our future operating performance. If we are unable to generate sufficient cash flow from operations to service our indebtedness, we will be forced to adopt an alternative strategy that may include actions such as reducing, delaying or eliminating acquisitions of towers or related service companies, delaying tower construction and other capital expenditures, selling assets, restructuring or refinancing our indebtedness or seeking additional equity capital. We may not be able to effect any of these alternative strategies on satisfactory terms, if at all. The implementation of any of these alternative strategies could have a material adverse effect on our growth strategy.

Our earnings have been insufficient to cover our fixed charges since the issuance of our 12% senior discount notes, treating the non-cash amortization of the original issue discount on the 12% senior discount notes as a fixed charge. This deficiency will increase as a result of the issuance of \$500.0 million of old notes completed in February 2001. We expect our earnings to

continue to be insufficient to cover our fixed charges

13

for the foreseeable future. We may incur substantial additional indebtedness in the future. If new debt is added to our current debt levels, the related risks that we face could intensify.

Our debt instruments contain restrictive covenants that could adversely affect our business by limiting flexibility.

The indentures governing the notes and our 12% senior discount notes each contain certain restrictive covenants. In addition, we intend to enter into a new senior credit facility in the future and this new facility will also likely contain restrictive covenants and require us to maintain specified financial ratios and meet financial condition tests. Our ability to comply with these covenants and meet these financial ratios and tests can be affected by events beyond our control, and we may not be able to meet these covenants, ratios and tests. A breach of any of these covenants could result in an event of default under the indentures governing the 10 1/4% senior notes and our 12% senior discount notes. Upon the occurrence of our bankruptcy, the outstanding principal, together with all accrued interest, will automatically become immediately due and payable. If any other event of default, including a continuing breach of our covenants, should occur the trustee or a percentage of such noteholders can elect to declare all amounts of principal outstanding, together with all accrued interest, to be immediately due and payable.

Our quarterly operating results fluctuate and therefore should not be considered indicative of our long-term results.

The number of towers we build, the number of tenants we add to our towers and the demand for our site development services fluctuate from quarter to quarter and should not be considered as indicative of long-term results. Numerous factors cause these fluctuations, including:

- . the timing and amount of our customers' capital expenditures;
- . the business practices of customers, such as deferring commitments on new projects until after the end of the calendar year or the customers' fiscal years;
- . the number and significance of active customer engagements during a quarter;
- . delays relating to a project or tenant installation of equipment;
- . seasonal factors, such as weather, vacation days and total business days in a quarter;
- . employee hiring;
- . the use of consultants by our customers; and
- . the rate and volume of wireless service providers' network development.

Although the demand for our services fluctuates, we incur significant fixed costs, such as maintaining a staff and office space in anticipation of future contracts. The timing of revenues is difficult to forecast because our sales cycle may be relatively long and may depend on factors such as the size and scope of assignments, budgetary cycles and pressures and general economic conditions. In addition, under lease terms typical in the tower industry,

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

revenue generated by new tenant leases usually commences upon installation of the tenant's equipment on the tower rather than upon execution of the lease, which can be 90 days or more after the execution of the lease.

We may be adversely affected by an economic slowdown.

Our business may be adversely affected by periods of economic slowdown or recession. During periods of economic slowdown or recession, wireless carriers may be unable to raise sufficient capital to expand their networks or may choose to slow or stop capital expenditures. Any material decline in the availability of capital

14

for, or in capital expenditures by, our customers would likely result in a decrease in the demand for tenant space on our towers and for our site development services.

We may not secure as many site leasing tenants as planned.

If tenant demand for tower space decreases, we may not be able to successfully grow our site leasing business. This may have a material adverse effect on our strategy and revenue growth. Our plan for the growth of our site leasing business largely depends on our management's expectations and assumptions concerning future tenant demand for independently-owned towers. Tenant demand includes both the number of tenants and the lease rates they are willing to pay. We bear a greater risk from lower tenant demand than other tower companies that have towers with positive cash flow, because the majority of our towers are newly constructed and have little or no positive cash flow at the time of construction.

Wireless service providers that own and operate their own towers and several of the independent tower companies generally are substantially larger and have greater financial resources than we do. We believe that tower location and capacity, price, quality of service and density within a geographic market historically have been and will continue to be the most significant competitive factors affecting the site leasing business.

We are not profitable and expect to continue to incur losses.

We are not profitable. The following chart shows the net losses we incurred for the periods indicated:

	Year Ended December 31,		

	1998	1999	2000

	(in millions)		
Net losses.....	\$ 19.9	\$ 34.6	\$ 28.9

Our losses are principally due to significant depreciation, amortization and interest expense. We have not achieved profitability and expect to continue to incur losses for the foreseeable future.

Increased competition to purchase existing towers and to build new towers may negatively affect the success of our growth strategy.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Increased competition to purchase existing towers and to build new towers may negatively affect the success of our growth strategy. We compete for the opportunity to build new towers primarily with site developers, wireless carriers and other independent tower companies. We believe that competition for the opportunity to build new towers will increase and that additional competitors will enter the tower market. Some of these additional competitors have or are expected to have greater financial resources than we do.

We compete with:

- . wireless service providers that own and operate their own towers;
- . site development companies that acquire antenna space on existing towers for wireless service providers, manage new tower construction and provide site development services;
- . other large independent tower companies; and
- . smaller local independent tower operators

for towers to acquire and for sites to construct towers.

Our growth strategy depends in part on our ability to acquire and operate existing towers not built by us to expand our existing tower network. Increased competition for acquisitions may result in fewer acquisition

15

opportunities for us and higher acquisition prices. We regularly explore acquisition opportunities, and we are currently actively negotiating to acquire additional towers. As of December 31, 2000, we had agreements to acquire 677 towers in 33 separate transactions for an aggregate purchase price of \$218.5 million, including \$90.0 million for all 275 towers from TeleCorp and \$85.5 million for the additional 273 towers from US Unwired, or an average acquisition price of approximately \$323,000 per tower. While all of the towers acquired from TeleCorp and US Unwired will generate revenues immediately upon consummation of their respective acquisition, the towers will not at such time be profitable. We cannot assure you that these towers will ever be profitable because these towers will be profitable only if we are able to sign additional leases with third parties for the location of antennas on these towers. All of these acquisitions are subject to a number of conditions and may or may not close.

We may not be able to identify, finance and complete future acquisitions of towers or tower companies on acceptable terms or may not be able to profitably manage and market available space on any towers that we acquire. We may also face challenges in integrating newly acquired towers or tower companies with our operations and may face difficulties in retaining current lessees on newly acquired towers.

If our carrier-directed new tower build projects are unsuccessful in yielding binding agreements or completed towers, our growth strategy or business may be negatively affected.

If our carrier-directed new tower build projects are unsuccessful in yielding binding agreements or completed towers, our growth strategy or business may be negatively affected. A carrier directive is an indication of interest from a wireless carrier for us to build a tower which we will own, on which they will place their antenna. Upon completion of the tower, the wireless carrier would lease space on the tower. A carrier directive, however, does not require the wireless carrier to actually lease space on the tower. That

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

obligation does not arise until a lease is signed. We generally will not commence construction of a tower on a carrier-directed location until a lease is signed. As of December 31, 2000, we had carrier directives to build approximately 600 towers under build-to-suit programs for wireless service providers. We believe that the majority of these carrier directives will result in new towers built and owned by us and long-term leases for antenna space on such towers. However, there are numerous factors that may prevent carrier directives from resulting in leases, including:

- . FAA, FCC or zoning restrictions that may prevent the building of a communication tower;
- . the results of the review of the business, financial and legal aspects of the transactions conducted by us or our customers;
- . the lease price; and
- . the ability of the carriers who have awarded a directive to withdraw the directive.

As a result, we cannot assure you as to the percentage of current and future carrier directives that will ultimately result in constructed towers and tenant leases.

We will need to seek additional financing to fund our business plan.

Our business strategy contemplates substantial capital expenditures for the expansion of our tower portfolio. We intend to increase the number of towers we own and lease by agreeing with wireless carriers to assume ownership or control of their existing towers, by pursuing build-to-suit opportunities and by exploring other tower acquisition opportunities. To the extent we are unable to finance our future capital expenditures, we will be unable to achieve our currently contemplated business goals.

Our cash capital expenditures for the year ended December 31, 2000 were \$445.3 million. We currently estimate that we will make at least \$400.0 million to \$450.0 million of cash capital expenditures during the

16

year ending December 31, 2001, which will be primarily for the construction and acquisition of towers, tower companies and/or related businesses. This estimate includes capital expenditures planned in connection with the TeleCorp and US Unwired transactions. We expect to fund \$400.0 million of these planned capital expenditures from the proceeds from the sale of the old notes, that resulted in net proceeds of \$484.2 million, cash on hand and cash flow from operations. In addition, we intend to seek a new senior credit agreement on terms no less favorable to us than our prior senior credit facility that we have terminated. Thereafter, however, or in the event we exceed our currently anticipated cash capital expenditures by December 31, 2001, we anticipate that we will need to seek additional equity or debt financing to fund our business plan. Additional financing, including a new senior credit facility, may not be available on commercially acceptable terms or at all, and additional debt financing may not be permitted by the terms of our existing indebtedness, including the notes and 12% senior discount notes. Prior to March 1, 2003, interest expense on our 12% senior discount notes will consist solely of non-cash accretion of original issue discount and will not require cash interest payments. After that time, our 12% senior discount notes will have increased to \$269.0 million and will require annual cash interest payments of approximately \$32.3 million. If we are required to issue additional common equity to finance our capital expenditures, it could be dilutive to our existing shareholders.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Managing our expansion and integrating acquisitions may strain our resources and reduce our cash flow.

Expanding our business may impose significant strains on our management, operating systems and financial resources. The pursuit and integration of newly constructed towers in addition to future acquisitions, investments, joint ventures and strategic alliances will require substantial attention from our senior management, which will limit the amount of time available to devote to our existing operations.

From January 1, 2000 to December 31, 2000, our work force increased from approximately 600 to approximately 1,000 employees. This growth has placed, and will likely continue to place, a substantial strain on our administrative, operational and financial resources. In addition, as part of our business strategy, we may acquire complementary businesses such as telecommunications services companies or expand into new businesses. Acquisitions involve a number of potential risks, including the potential loss of customers, and the inability to productively combine disparate company cultures and facilities or manage operating sites in geographically diverse markets. We may not be able to manage our growth successfully. Our management, personnel or operational and financial control systems may not be adequate to support expanded or complementary operations. Any of these inability or inadequacies could cause a significant increase in our expenses and reduce our cash flow.

We are subject to numerous regulations that may prevent, delay, or increase the cost of building or operating towers.

Extensive local, state and federal regulations may prevent, delay or increase the cost of building or operating towers. Before we can build a new tower, either for a wireless communications carrier or for our own account, we must receive approval under local regulations. Local regulations include city or other local ordinances, zoning restrictions and restrictive covenants imposed by community developers. These regulations vary greatly, but typically require tower owners to obtain approval from local officials or community standards organizations prior to tower construction. In addition, as the concern over tower proliferation has grown in recent years, certain communities have placed restrictions on new tower construction or have delayed granting permits required for construction. If we cannot receive local governmental approvals or if it is expensive or time consuming to obtain these approvals, then our results of operations will be negatively impacted.

Both the FCC and FAA regulate towers and other sites used for wireless communications transmitters and receivers. Wireless communications devices operating on towers are separately regulated and independently licensed based upon the particular frequency used.

17

The construction or modification of communication sites is also subject to the National Environmental Policy Act, which requires additional review of any tower that may have a significant effect upon the quality of the human environment. In addition, the operation of our towers is subject to federal, state and local environmental laws and regulations regarding the use, storage, disposal, emission, release and remediation of hazardous and non-hazardous substances, materials or wastes. Under certain of these environmental laws, we could be held strictly liable for the remediation of hazardous substance contamination at our facilities or at third party waste disposal sites, and could also be held liable for any personal or property damage related to the contamination.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Our estimates regarding our growth rate and our anticipated financial performance include the costs of complying with these regulations, as they currently exist. If new regulations are introduced or existing regulations are modified it could increase our cost of operations and decrease our cash flow.

If demand for wireless communication services decreases, our revenue will be adversely affected.

Substantially all of our customers to date have been providers of wireless communications services. If demand for wireless communication services decreases, our revenue growth will be, and our revenue may be, adversely affected. Demand for both our site leasing and site development services is dependent on demand for communication sites from wireless service providers, which, in turn, is dependent on the demand for wireless services. A slowdown in the growth of, or reduction in demand in, a particular wireless communication segment could adversely affect the demand for communication sites. Most types of wireless services currently require ground-based network facilities, including communication sites for transmission and reception. The extent to which wireless service providers lease these communication sites depends on a number of factors beyond our control, including:

- . the level of demand for wireless services;
- . the financial condition and access to capital of wireless service providers;
- . the strategy of wireless service providers with respect to owning or leasing communication sites;
- . government licensing of broadcast rights; and
- . changes in telecommunications regulations and general economic conditions.

In addition, wireless voice service providers frequently enter into roaming agreements with competitors allowing them to use another's wireless communications facilities to accommodate customers who are out of range of their home provider's services. Wireless voice service providers may view these roaming agreements as a superior alternative to leasing antenna space on communications sites owned or controlled by us. The proliferation of these roaming agreements could have a material adverse effect on our revenue.

We depend on a relatively small number of customers for most of our revenue.

We derive a significant portion of our revenue from a small number of customers that vary at any given time, particularly in the site development services side of our business. The loss of any significant customer could have a material adverse effect on our revenue.

Following is a list of significant customers and the percentage of total revenues derived from such customers:

	Year Ended December 31,	
	1999	2000
Sprint.....	17.3	10.7
Cingular.....	12.5	less than 10.0

Our site development customers engage us on a project-by-project basis, and a customer can generally terminate an assignment at any time without penalty. In addition, a customer's need for site development services can decrease, and we may not be successful in establishing relationships with new customers. Moreover, our existing customers may not continue to engage us for additional projects.

The substantial majority of our existing carrier directives under build-to-suit programs are from Alamosa PCS, AT&T Wireless, Georgia PCS, Horizon PCS and TeleCorp PCS.

Due to the long-term expectations of revenue from tenant leases, the tower industry is very sensitive to the creditworthiness of its tenants. Wireless service providers often operate with substantial leverage, and financial problems for our customers could result in uncollected accounts receivable, in the loss of customers and the associated lease revenues, or in a reduced ability of these customers to finance expansion activities. In July 2000, PageNet, one of our site leasing customers, filed for bankruptcy. For the year ended December 31, 2000, PageNet constituted less than 5% of our total revenues.

If we commence international operations in the future it could strain our resources and negatively affect our growth strategy and revenue.

We are currently evaluating international opportunities and we would like to begin operating internationally if we find an opportunity we believe is appropriate to pursue. We may commence international operations at any time. Initiating international operations may strain our resources and negatively affect our growth strategy and revenue. If we commence international operations, we will be subject to various political, economic and other uncertainties, including:

- . difficulties and costs of staffing and managing international operations;
- . different technology standards;
- . fluctuations in currency exchange rates or the implementation of currency exchange controls;
- . political and economic instability;
- . unexpected changes in regulatory requirements; and
- . potentially adverse tax consequences.

Any of these factors could delay or preclude our ability to generate revenue in any international markets that we may enter. Accordingly, we cannot assure that if we begin international operations our strategies will prove to be effective or that management's goals will be achieved.

Our towers are subject to damage from natural disasters.

Our towers are subject to risks associated with natural disasters such as tornadoes, hurricanes and earthquakes. We maintain insurance to cover the estimated cost of replacing damaged towers, but these insurance policies are subject to caps and deductibles. We also maintain third party liability insurance to protect us in the event of an accident involving a tower. A tower

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

accident for which we are uninsured or underinsured, or damage to a tower or group of towers could require us to make significant capital expenditures and may have a material adverse effect on our operations.

New technologies may have a material adverse effect on our growth rate and results of operations.

The emergence of new technologies could reduce the demand for space on our towers. This could have a material adverse effect on our growth rate and results of operations. For example, the FCC has granted license applications for several low-earth orbiting satellite systems that are intended to provide mobile voice and data

19

services. Although these systems are highly capital intensive and have only begun to be tested, mobile satellite systems could compete with land-based wireless communications systems. In addition, products are currently being developed which may permit multiple wireless carriers to use a single antenna, or to increase the range and capacity of an antenna.

Steven E. Bernstein controls the outcome of shareholder votes.

Steven E. Bernstein, our Chairman and Chief Executive Officer, controls 100% of the outstanding shares of Class B common stock. As of March 15, 2001, Mr. Bernstein controlled approximately 57% of the total voting power of both classes of our common stock. As a result, Mr. Bernstein has the ability to control the outcome of all matters determined by a vote of our common shareholders when voting together as a single class, including the election of all of our directors.

The loss of the services of certain of our executive officers may negatively affect our business.

Our success depends to a significant extent upon the continued services of Steven E. Bernstein, our Chairman and Chief Executive Officer, Jeffrey A. Stoops, our President, Ronald G. Bizick, II, our Executive Vice President and Chief Operating Officer-U.S. Site Development, and John Marino, our Senior Vice President and Chief Financial Officer. The loss of the services of any of Messrs. Bernstein, Stoops, Bizick or Marino may have a material adverse effect on our business. Each of Messrs. Bizick and Stoops has an employment agreement. We do not have an employment agreement with Messrs. Bernstein or Marino. Mr. Bernstein's compensation and other terms of employment are determined by the Board of Directors.

If we are unable to attract, retain or manage skilled employees it could have a material adverse effect on our business.

Our business, particularly site development services, involves the delivery of professional services and is labor-intensive. The loss of a significant number of employees, our inability to hire a sufficient number of qualified employees or adequately develop and motivate the skilled employees we have hired could have a material adverse effect on our business. We compete with other wireless communications firms and other enterprises for employees with the skills required to perform our services. We cannot assure you that we will be able to attract and retain a sufficient number of highly-skilled employees in the future or that we will continue to be successful in training, retaining and motivating employees.

Risks Relating to the Notes

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

The notes are structurally subordinate to the debt of our subsidiaries, including any senior credit facility.

We have no operations of our own and derive substantially all of our revenue from the operations of our subsidiaries. Our subsidiaries will not be guarantors of the notes. In the event of our bankruptcy or the bankruptcy of any of our subsidiaries, the holders of their liabilities, including indebtedness, and trade creditors of our subsidiaries would generally be entitled to payment of their claims from the assets of the affected subsidiaries before those assets were made available for distribution to us. As a result, the claims of holders of the notes will effectively rank junior to the claims of all of the creditors of our subsidiaries, including trade creditors and the lenders under any senior credit facility we may obtain in the future. If any indebtedness of our subsidiaries were to be accelerated, we cannot assure you that the assets of the subsidiaries remaining after payment of such indebtedness would be sufficient to repay our indebtedness in full, including the notes and the 12% senior discount notes. As of December 31, 2000, as adjusted for the offering of the old notes, we would have had \$709.0 million of debt that is pari passu with the notes.

The notes are not secured by any of our assets. Any senior credit facility we obtain in the future may be secured by a lien on substantially all of our assets and the assets of our domestic subsidiaries and a pledge of all of the outstanding capital stock of each of our domestic subsidiaries. If we become insolvent or are

20

liquidated, or payment under indebtedness is accelerated, our lenders would be entitled to exercise the remedies as secured lenders under applicable law and will have a claim on such assets that would rank senior to the holders of the notes. The liquidation value of our assets remaining after payment of such secured indebtedness may not be sufficient to repay in full our unsecured indebtedness, including the notes and the 12% senior discount notes.

Our dependence on our subsidiaries for cash flow may negatively affect our business and our ability to pay the principal, interest and other amounts due on the notes.

We are a holding company with no business operations of our own. Our only significant asset is and is expected to be the outstanding capital stock of our subsidiaries. We conduct, and expect to conduct, all of our business operations through our subsidiaries. Accordingly, our ability to pay our obligations, including the principal and interest, premium, if any, and liquidated damages, if any, on the 12% senior discount notes and the notes is dependent upon the earnings of our subsidiaries and their distribution of funds to us. We currently expect that the earnings and cash flow of our subsidiaries will be retained and used by them in their operations, including servicing their debt obligations, except as necessary to be distributed to us to cover holding company expenses, including interest payments on the notes. None of our subsidiaries will have any obligation, contingent or otherwise, to make any funds available to us for payment of principal or interest on the notes. The ability of our subsidiaries to pay dividends or transfer assets may be restricted under applicable state law and contractual restrictions, including the terms of any senior credit facility. Although the indenture governing the notes limits the ability of our subsidiaries to enter into consensual restrictions on their ability to pay dividends to us, these limitations are subject to a number of significant qualifications and exceptions. Our right or the right of our creditors, including holders of the notes, to participate in the assets of any subsidiary upon the liquidation or reorganization of that subsidiary will be subject to the prior claims of that subsidiary's creditors,

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

including holders of its indebtedness and trade creditors.

We may not be able to purchase your notes upon a change of control.

Upon the occurrence of specified change of control events, the indenture governing the notes and the 12% senior discount notes will require us to offer to purchase each holder's notes at a price of 101% of their principal amount plus accrued and unpaid interest to the date of purchase. We may not have sufficient financial resources to purchase all of the notes that holders tender to us upon a change of control. The occurrence of a change of control may also constitute an event of default under any senior credit facility we obtain in the future. If an event of default under any senior credit facility we obtain occurs, our bank lenders may have the right to prohibit any purchase of the notes, in which event we would be in default on the notes. In addition, some important corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, may not constitute a "change of control" under the terms of the indenture governing the notes. See "Description of the Notes--Purchase at the Option of Holders--Change of Control."

No market for the notes existed prior to this offering.

The notes are a new issue of securities with no established trading market and have not previously been listed on any securities exchange or quoted on any automated dealer quotation system. Each of the initial purchasers has informed us that it intends to make a market in the notes after this exchange is completed. However, the initial purchasers may cease their market making at any time in their sole discretion during the pendency of this exchange offer or the effectiveness of this shelf registration statement.

We cannot assure you that an active trading market for the notes will develop or that you will be able to sell your notes at a particular time or that the prices that you receive when you sell will be favorable. We also cannot assure you as to the level of liquidity of the trading market for the notes or, in the case of any holders of notes that do not exchange them, the trading market for the notes following completion of the exchange offer.

In addition, the liquidity of the trading market in the notes, and the market price quoted for the notes, may be adversely affected by changes in the overall market for high yield securities and by changes in our financial

21

performance or prospects or in the prospects for companies in our industry generally. Historically, the market for high-yield debt securities, like the notes, has been subject to disruptions that have caused substantial volatility in the prices of those securities. As a result, you cannot be sure that an active trading market will develop for the notes.

There could be negative consequences to you if you do not exchange your old notes for new notes.

Any old notes tendered and exchanged in the exchange offer will reduce the aggregate principal amount of old notes outstanding. Because we anticipate that most holders will elect to exchange their old notes for new notes due to the absence of most restrictions on the resale of new notes, we anticipate that the liquidity of the market for any old notes remaining outstanding after the exchange offer may be substantially limited. Following the consummation of the exchange offer, holders who did not tender their old notes generally will not have any further registration rights under the registration rights agreement, and these old notes will continue to be subject to restrictions on transfer. The old notes are currently eligible for sale under Rule 144A through the

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Portal Market.

As a result of making the exchange offer, we will have fulfilled our obligations under the registration rights agreement relating to the old notes. Holders who do not tender their old notes generally will not have any further registration rights or rights to receive the liquidated damages specified in the registration rights agreement for our failure to register the new notes.

Any old notes that are not exchanged for new notes will remain restricted securities. Accordingly, the old notes may be resold only:

- . to us or one of our subsidiaries;
- . to a qualified institutional buyer;
- . to an institutional accredited investor;
- . to a party outside the United States under Regulation S under the Securities Act;
- . under an exemption from registration provided by Rule 144 under the Securities Act; or
- . under an effective registration statement.

These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and assumptions. We wish to caution readers that certain important factors may have affected and could in the future affect our actual results and could cause actual results to differ significantly from those expressed in any forward-looking statement. 23

- . our ability to enter into a new senior credit facility and raise substantial additional financing to expand our tower holdings.

USE OF PROCEEDS

We will not receive any proceeds from the issuance of the new notes offered in the exchange offer. In consideration for issuing the new notes, we will receive in exchange old notes in like principal amount the terms of which are identical in all respects to the new notes except for the transfer restrictions and registration rights. The old notes surrendered in exchange for new notes will be retired and cancelled and cannot be reissued. Accordingly, issuance of the new notes will not result in any increase in our indebtedness.

The net proceeds from the sale of the old notes was approximately \$484.2 million, after deducting offering expenses payable by us. We used approximately \$105.0 million of the net proceeds from the offering to repay all outstanding debt under our senior credit facility and terminate the facility. We used approximately \$66.5 million to purchase the first 203 towers under the TeleCorp Agreement and expect to use approximately \$23.5 million to purchase the remaining 72 TeleCorp towers and approximately \$54.1 million to purchase 173 towers from US Unwired. We expect to use the remainder to finance the

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

construction and acquisition of additional towers and related businesses and for general working capital purposes. We have used the proceeds of our revolving credit loans to finance our business plan. As of December 31, 2000, the interest rate of revolving credit loans outstanding under the senior credit facility was 10.75% and the interest rate on our term loan was 10.06%. The revolving credit loans were to mature on December 31, 2004 and the term loan was to mature on December 31, 2005.

-
- (a) For the year ended December 31, 1997, selling, general and administrative expenses included non-cash compensation expense of \$1.0 million incurred in the consolidation of the predecessor companies. For the year ended December 31, 1998, selling, general and administrative expenses included non-cash compensation expense of \$0.6 million incurred in connection with the issuance of stock options and Class A common stock. For the year ended December 31, 1999, selling, general and administrative expenses included non-cash compensation expense of \$0.3 million incurred in connection with stock option activity. For the year ended December 31, 2000, selling, general and administrative expenses included non-cash compensation expense of \$0.3 million incurred in connection with stock option and restricted stock activity.
 - (b) Provision for income taxes for the year ended December 31, 1997 includes the tax effect of our conversion to a C corporation.
 - (c) EBITDA represents earnings (loss) before interest income, interest expense, other income, income taxes, depreciation, amortization and the non-cash compensation expense referred to in footnote (a) above. EBITDA is commonly used in the telecommunications industry to analyze companies on the basis of operating performance, leverage and liquidity. EBITDA is not intended to represent cash flows for the periods presented, nor has it been presented as an alternative to operating income or as an indicator of operating performance and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with generally accepted accounting principles. Companies calculate EBITDA differently and, therefore EBITDA as presented by us may not be comparable to EBITDA reported by other companies.
 - (d) We define "tower cash flow" as site leasing revenue less cost of site leasing revenue (exclusive of depreciation). Tower cash flow includes deferred revenue attributable to certain leases. We believe tower cash flow is useful because it allows you to compare tower performance before the effect of expenses (selling, general and administrative) that do not relate directly to tower performance. We define "annualized tower cash flow" as tower cash flow for the last calendar quarter attributable to our site leasing business multiplied by four.
 - (e) Includes the value of Class A common stock issued in connection with acquisitions.
 - (f) For purposes of calculating the ratio of earnings to fixed charges, earnings represent net loss before income taxes and extraordinary items, interest expense, the component of rental expense believed by management to be representative of the interest factor thereon, and amortization of original issue discount and debt issue costs. Fixed charges consist of interest expense, the component of rental expense believed by management to be representative of the interest factor thereon, amortization of original issue discount and debt issue costs and preferred dividends. We had a deficiency in earnings to fixed charges of \$24.0 million and \$33.7 million for 1998 and 1999, respectively.
 - (g) Annualized EBITDA represents EBITDA for the most recent quarter times four. EBITDA for the quarter ended December 31, 2000 was \$10.4 million and annualized EBITDA was \$41.4 million.

DESCRIPTION OF OTHER INDEBTEDNESS

The 12% Senior Discount Notes Due 2008

On March 2, 1998, we privately placed \$269.0 million in aggregate principal amount at maturity of our 12% senior discount notes. This description summarizes certain terms of the 12% senior discount notes, but does not describe all of the terms. You should refer to the indenture governing the 12%

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

senior discount notes, a copy of which was filed as an exhibit to our Registration Statement on Form S-3 filed with the Commission on January 6, 2000, as amended.

The 12% senior discount notes are unsecured senior obligations of SBA, and rank equally in right of payment with all existing and future unsecured senior indebtedness of SBA, including these notes, and senior in right of payment to future subordinated indebtedness of SBA. Our subsidiaries are not guarantors of the 12% senior discount notes. The 12% senior discount notes mature on March 1, 2008. The 12% senior discount notes accrete in value until March 1, 2003. After that date, cash interest will be payable on the 12% senior discount notes at the rate of 12% per year and will be payable semi-annually, commencing on September 1, 2003.

Except as stated below, the 12% senior discount notes are not redeemable at our option prior to March 1, 2004. Thereafter, the 12% senior discount notes are redeemable at our option, in whole or in part, at any time, at a premium which is at a fixed percentage that declines to par on or after March 1, 2007, in each case together with accrued and unpaid interest, if any, to the date of redemption. In the event we consummate a public equity offering or certain strategic equity investments prior to March 1, 2001, we may, at our option, use all or a portion of the proceeds from the offering to redeem up to 20% of the original aggregate principal amount at maturity of the 12% senior discount notes at a redemption price equal to 112% of the accreted value of the 12% senior discount notes to be redeemed, plus accrued and unpaid interest, if any, thereon to the redemption date, if at least 80% of the original aggregate principal amount at maturity of the 12% senior discount notes remains outstanding after each redemption.

Upon the occurrence of certain change of control events, each holder of 12% senior discount notes has the right to require us to purchase all or a portion of the holder's senior discount notes at a price equal to 101% of the aggregate principal amount thereof, together with accrued and unpaid interest to the date of purchase or, if the 12% senior discount notes are purchased prior to March 1, 2003, at a purchase price equal to 101% of the accreted value of the 12% senior discount notes on the date of purchase.

The indenture contains certain covenants, including covenants that limit (1) the incurrence of certain additional indebtedness and issuance of preferred stock, (2) restricted payments, (3) restrictions on distributions from restricted subsidiaries, (4) transactions with affiliates, (5) sales of assets and subsidiary stock (including sale and leaseback transactions), and (6) mergers or consolidations.

This prospectus, together with the letter of transmittal, is first being sent on or about the date set forth on the cover page to all holders of Old Notes at the addresses set forth in the security register maintained by the trustee or other registrar. Without limiting the manner in which any public announcement may be made, we will have no obligation to publish, advertise or otherwise communicate any public announcement other than by issuing a release to the Dow Jones News Service.

Registration Covenant; Exchange Offer

Under our registration rights agreement dated February 2, 2001 with the Initial Purchasers, we have agreed to file with the Commission the Exchange Offer Registration Statement on the appropriate form under the Securities Act with respect to the New Notes. Upon the effectiveness of this Exchange Offer Registration Statement, we will offer to the holders of the Old Notes who are able to make required representations the opportunity to exchange their Old Notes for New Notes. Alternatively, we will file with the Commission a Shelf Registration Statement to cover resales of Transfer Restricted Securities (as defined below) by the holders

29

- . we are not permitted to consummate the Exchange Offer because it is not

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

- . any holder of Old Notes that is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or an institutional "accredited investor" (as defined in Rule 501(A)(1), (2), (3) or (7) under the Securities Act) notifies us at least 30 business days prior to the consummation of the Exchange Offer that:
- . it is prohibited by law or Commission policy from participating in the Exchange Offer;
- . it may not resell the New Notes acquired by it in the Exchange Offer to the public without delivering a prospectus and the prospectus contained in the Exchange Offer Registration Statement is not appropriate or available for such resales; or

We will use our best efforts to cause the applicable Registration Statement to be declared effective as promptly as possible by the Commission.

"Transfer Restricted Securities" means each Old Note until the earliest of:

- . the date on which the Old Note has been exchanged by a person other than a broker-dealer for a New Note in the Exchange Offer;
- . following the exchange by a broker-dealer in the Exchange Offer of an Old Note for a New Note, the date on which the New Note is sold to a purchaser who received from the broker-dealer, on or prior to the date of the sale, a copy of the prospectus contained in the Exchange Offer Registration Statement;

- . we will use our reasonable best efforts to have the Exchange Offer Registration Statement declared effective within 150 days after February 2, 2001;
- . unless the Exchange Offer would not be permitted by applicable law or Commission policy, we will commence the Exchange Offer and use our reasonable best efforts to cause the Exchange Offer to be consummated on the earliest practicable date after the Exchange Offer Registration Statement has become effective, but in no event later than 180 days after February 2, 2001; and
- . if obligated to file the Shelf Registration Statement, we will use our best efforts to file the Shelf Registration Statement with the Commission on or prior to 60 days after the filing obligations arises, and to cause the Shelf Registration Statement to be declared effective

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

by the Commission on or prior to 150 days after this obligation arises.

If a registration default (as defined below) occurs, then additional cash interest ("Liquidated Damages") shall accrue to each holder of Transfer Restricted Securities, commencing upon the occurrence of such

30

registration default in an amount equal to \$.05 per week per \$1,000 of the principal amount of notes held by such holder of Transfer Restricted Securities for the first 90 day period immediately following the first registration default. The amount of liquidated damages will increase by an additional \$.05 per week per \$1,000 of the principal amount of notes with respect to each subsequent 90 day period (or portion thereof) until all registration defaults have been cured, up to a maximum rate of liquidated damages of \$.50 per week per \$1,000 of the principal amount of the Old Notes. All accrued liquidated damages shall be paid to the holders of the Old Notes in the same manner as interest is paid under the notes. Immediately upon the cure of all registration defaults, accrual of liquidated damages will cease.

A "registration default" means the occurrence of one of the following events:

- . we fail to file any of the registration statements required by the registration rights agreement on or before the date specified for that filing;
- . any of those registration statements are not declared effective by the Commission on or prior to the date specified for its effectiveness in the circumstances required by the registration rights agreement;
- . we fail to complete the Exchange Offer within 30 business days after the effectiveness target date specified in the registration rights agreement; or
- . any registration statement required by the registration rights agreement is filed and declared effective but thereafter ceases to be effective or usable for its intended purpose without being succeeded within two business days by a post-effective amendment to such registration statement that cures such failure and that is itself immediately declared effective.

This summary of the provisions of the registration rights agreement is not complete and is subject to, and is qualified by reference to, all provisions of the registration rights agreement.

Interest On Exchange Notes

Each New Note will bear interest from the most recent date to which interest has been paid or duly provided for on the Old Note surrendered in exchange for a New Note, or, if no interest has been paid or duly provided for on the Old Note, from February 2, 2001, the date of issuance of the Old Note. Holders of the Old Notes whose Old Notes are accepted for exchange will not receive accrued interest on the Old Notes for any period from and after the last interest payment date to which interest has been paid or duly provided for on the Old Notes prior to the original issue date of the New Notes, or, if no interest has been paid or duly provided for, will not receive any accrued interest on the Old Notes. These holders will be deemed to have waived the right to receive any interest on the Old Notes accrued from and after that interest payment date, or, if no interest has been paid or fully provided for, from and after February 2, 2001. Interest on the notes is payable semi-annually

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

in arrears on each February 1 and August 1, commencing on August 1, 2001.

Procedures For Tendering Old Notes

To tender in the Exchange Offer, a holder must complete, sign and date the letter of transmittal, or a facsimile of the letter of transmittal, have the signatures guaranteed if required by the letter of transmittal, and mail or otherwise deliver the letter of transmittal or a facsimile, together with the Old Notes and any other required documents, to the exchange agent. The exchange agent must receive these documents at the address set forth below prior to 5:00 p.m., New York City time on the expiration date. Delivery of the Old Notes may be made by book-entry transfer in accordance with the procedures described below. Confirmation of book-entry transfers must be received by the exchange agent prior to the expiration date.

By executing a letter of transmittal, each holder will make the representations set forth below under the heading "--Resale of New Notes."

31

The tender by a holder and the acceptance by us will constitute an agreement between the holder and us in accordance with the terms subject to the conditions set forth in this prospectus and in the letter of transmittal.

The method of delivery of Old Notes and the letter of transmittal and all other required documents to the exchange agent is at the election and risk of the holder. Instead of delivery by mail, it is recommended that holders use an overnight or hand delivery service. In all cases, sufficient time should be allowed to assure delivery to the exchange agent before the expiration date. No letter of transmittal or notes should be sent to us. Holders may request their brokers, dealers, commercial banks, trust companies or nominees to effect the above transactions for them.

Any beneficial owner whose Old Notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee and who wishes to tender should contact the registered holder promptly and instruct the registered holder to tender on the beneficial owner's behalf.

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed by an eligible institution (as defined below) unless the Old Notes tendered:

- . are signed by the registered holder, unless the holder has completed the box entitled "special exchange instructions" or "special delivery instructions" on the letter of transmittal; or
- . are tendered for the account of an eligible institution.

In the event that signatures on a letter of transmittal or a notice of withdrawal, as the case may be, are required to be guaranteed, the guarantee must be by a member firm of a registered national securities exchange or of the National Association of Securities Dealers, Inc., a commercial bank or trust company having an office or correspondent in the United States, or an "eligible guarantor institution" within the meaning of Rule 17Ad-15 under the Exchange Act (an "eligible institution").

If a letter of transmittal is signed by a person other than the registered holder of any Old Notes listed on the letter of transmittal, the Old Notes must be endorsed or accompanied by a properly completed bond power, signed by the registered holder as the registered holder's name appears on the Old Notes, with the signature guaranteed by an eligible institution.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

If a letter of transmittal or any Old Notes or bond powers are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or other acting in a fiduciary or representative capacity, the persons should so indicate when signing. Unless waived by us, evidence satisfactory to us of their authority to so act must be submitted with the letter of transmittal.

All questions as to the validity, form, eligibility, including time or receipt, acceptance of tendered Old Notes and withdrawal of tendered Old Notes will be determined by us in our reasonable discretion. This determination will be final and binding. We reserve the absolute right to reject any and all Old Notes that are not properly tendered or any Old Notes our acceptance of which would, in the opinion of our counsel, be unlawful. We also reserve the right to waive any defects, irregularities or conditions of tender as to particular Old Notes. Our interpretation of the terms and conditions of the Exchange Offer, including the instructions in the letter of transmittal, will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of Old Notes must be cured within the time period we determine. Although we intend to notify holders of defects or irregularities with respect to tenders of Old Notes, none of SBA, the exchange agent or any other person will incur any liability for failure to give this notification. Tendere of Old Notes will not be deemed to have been made until defects or irregularities have been cured or waived. Any Old Notes received by the exchange agent that are not properly tendered and as to which the defects or irregularities have not been cured or waived will be returned by the exchange agent to the tendering holders, unless otherwise provided in letter of transmittal, as soon as practicable following the expiration date.

32

Book-Entry Delivery Procedures

Promptly after the date of this prospectus, the exchange agent for the Old Notes will establish accounts with respect to the Old Notes at DTC, (the "book-entry transfer facility") for purposes of the Exchange Offer. Any financial institution that is a participant in the book-entry transfer facility's systems may make book-entry delivery of the Old Notes by causing the book-entry transfer facility to transfer Old Notes into the exchange agent's account at the book-entry transfer facility in accordance with the book-entry transfer facility's procedures for transfers. Timely book-entry delivery of Old Notes pursuant to the Exchange Offer, however, requires receipt of a book-entry confirmation prior to the expiration date. In addition, to receive New Notes for tendered Old Notes, the letter of transmittal, or a mutually signed facsimile, together with any required signature guarantees and any other required documents, or an agent's message in connection with a book-entry transfer, must, in any case, be delivered or transmitted to and received by the exchange agent at its address set forth under "--Exchange Agent" below prior to the expiration date. Alternatively, the guaranteed delivery procedures described below must be complied with. Tender will not be considered made until the documents are received by the exchange agent. Delivery of documents to the book-entry transfer facility does not constitute delivery to the exchange agent.

Tender Of Existing Notes Held Through Book-Entry Transfer Facility

The exchange agent and the book-entry transfer facility have confirmed that the Exchange Offer is eligible for the book-entry transfer facility's Automated Tender Offer Program, or ATOP. Accordingly, participants in the book-entry transfer facility's ATOP may, in lieu of physically completing and signing the letter of transmittal and delivering it to the exchange agent, electronically

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

transmit their acceptance of the Exchange Offer by causing the book-entry transfer facility to transfer Old Notes to the exchange agent in accordance with the book-entry transfer facility's ATOP procedures for transfer. The book-entry transfer facility will then send an agent's message to the exchange agent.

The term "agent's message" means a message transmitted by a book-entry transfer facility, received by exchange agent and forming part of the book-entry confirmation, which states that:

- . the book-entry transfer facility has received an expressed acknowledgment from a participant in its ATOP that is tendering Old Notes which are the subject of the book-entry confirmation;
- . the participant has received and agrees to be bound by the terms of the letter of transmittal or, in the case of an agent's message relating to guaranteed delivery, the participant has received and agrees to be bound by the notice of guaranteed delivery; and
- . we may enforce the agreement against the participant.

Guaranteed Delivery Procedure

Holders who wish to tender their Old Notes and (1) whose Old Notes are not immediately available, (2) who cannot deliver their Old Notes, the letter of transmittal or any other required documents to the exchange agent or (3) who cannot complete the procedures for book-entry transfer, prior to the expiration date, may effect a tender if:

- . the tender is made through an eligible institution;
- . prior to the expiration date, the agent receives from the eligible institution a properly completed and duly executed notice of guaranteed delivery, by facsimile transmission, mail or hand delivery, setting forth the name and address of the holder, the certificate number(s) of the Old Notes and the principal amount of Old Notes tendered and guaranteeing that, within three New York Stock Exchange trading days after the date of execution, the letter of transmittal or facsimile together with the certificate(s) representing the Old Notes or a book-entry confirmation of the Old Notes into the exchange agent's account at the book-entry transfer facility and any other documents required by the letter of transmittal, will be deposited by the eligible institution with the exchange agent; and

33

- . a properly completed and executed letter of transmittal or facsimile, as well as the certificate(s) representing all tendered Old Notes in proper form for transfer or a book-entry confirmation transfer of the Old Notes into the exchange agent's account at the book-entry transfer facility and all other documents required by the letter of transmittal, are received by the exchange agent within three New York Stock Exchange trading days after the date of execution.

Upon request to the exchange agent, a notice of guaranteed delivery will be sent to holders who wish to tender their Old Notes according to the guaranteed delivery procedures set forth above.

Withdrawals Of Tenders

Except as otherwise provided in this prospectus, tenders of Old Notes may be

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

withdrawn at any time prior to the earlier of 5:00 p.m., New York City time on the earlier of the expiration date or the date when all Old Notes have been tendered.

To withdraw a tender of Old Notes in the Exchange Offer, a written or facsimile transmission notice of withdrawal must be received by the exchange agent at the address set forth below prior to 5:00 p.m., New York City time, on the expiration date. Any notice of withdrawal must:

- . specify the name of the person having deposited the Old Notes to be withdrawn (the "depositor");
- . identify the Old Notes to be withdrawn, including the certificates number(s) and principal amount of the Old Notes, or, in the case of Old Notes transferred by book-entry transfer, the name and number of the account at the book-entry transfer facility to be credited;
- . be signed by the holder in the same manner as the original signature on the letter of transmittal by which the Old Notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer sufficient to have the trustee or other registrar register transfer of the Old Notes into the name of the person withdrawing the tender; and
- . specify the name in which any of the Old Notes are to be registered, if different from that of the depositor.

All questions as to the validity, form and eligibility, including time or receipt, of the notices will be determined by us. Our determination will be final and binding on all parties. Any Old Notes so withdrawn will be deemed not to have been validly tendered for purposes of the Exchange Offer and no New Notes will be issued in exchange unless the Old Notes so withdrawn are validly retendered. Any Old Notes which have been tendered but which are not accepted for exchange will be returned to their holder without cost to the holder as soon as practicable after withdrawal, rejection of tender or termination of the Exchange Offer. Properly withdrawn Old Notes may be retendered by following one of the procedures described above under "--Procedures for Tendering Old Notes" at any time prior to the expiration date.

Conditions To The Exchange Offer

Notwithstanding any other terms of the Exchange Offer, we will not be required to accept for exchange, or exchange New Notes for, any Old Notes, and may terminate the Exchange Offer before the acceptance of the Old Notes if, in our reasonable judgment, the Exchange Offer would violate any law, statute, rule or regulation or an interpretation thereof of the Staff of the Commission. If we determine in our reasonable discretion that this condition is not satisfied, we may:

- . refuse to accept any Old Notes and return all tendered Old Notes to the tendering holders;
- . extend the Exchange Offer and retain all Old Notes tendered prior to the expiration date, subject, however, to the rights of holders to withdraw the Old Notes (see "--Withdrawals of Tender"); or

- . waive the unsatisfied condition with respect to the Exchange Offer and accept all validly tendered Old Notes which have not been withdrawn. If the waiver constitutes a material change to the Exchange Offer, we will

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

promptly disclose the waiver by means of a prospectus supplement that will be distributed to the registered holders, and we will extend the Exchange Offer for a period of five to ten business days, depending upon the significance of the waiver and the manner of disclosure to the registered holders, if the Exchange Offer would otherwise expire during that five to ten business-day period.

Exchange Agent

State Street Bank and Trust Company has been appointed as the exchange agent for the Exchange Offer of the Old Notes. The executed letter of transmittal should be directed to the exchange agent at the address set forth below. Questions and requests for assistance, requests for additional copies of this prospectus or of the letter of transmittal and requests for notices of guaranteed delivery should be directed to the exchange agent, addressed as follows:

By mail or by hand: State Street Bank and Trust Company
2 Avenue de Lafayette
Boston, MA 02111
Attention: Meaghan Haight, Corporate Trust Department

By Facsimile: (617) 662-1452
Confirm Facsimile by Telephone: (617) 662-1603

Delivery of a letter of transmittal to an address other than that for the exchange agent as set forth above or transmission of instructions via facsimile other than as set forth above does not constitute a valid delivery of a letter of transmittal.

Fees And Expenses

We will not make any payment to brokers, dealers or others for soliciting acceptances of the Exchange Offer.

Transfer Taxes

Holders who tender their Old Notes for exchange generally will not be obligated to pay any transfer tax in connection with the exchange. However, holders who instruct us to register New Notes in the name of a person other than the registered tendering holders, or request that Old Notes not properly tendered, withdrawn or not accepted in the Exchange Offer be returned to a person other than the registered tendering holder, will be responsible for the payment of any applicable transfer tax.

Accounting Treatment

The New Notes will be recorded at the same carrying value as the Old Notes. This is the aggregate principal amount of the Old Notes, as reflected in our accounting records on the date of exchange. Accordingly, no gain or loss for accounting purposes will be recognized by us in connection with the Exchange Offer. The expenses of the Exchange Offer will be amortized over the term of the notes.

Appraisal Rights

Holders of Old Notes will not have dissenters' rights or appraisal rights in connection with the Exchange Offer.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Resale Of New Notes

The New Notes are being offered to satisfy our obligations contained in the registration rights agreement. We are making the Exchange Offer in reliance on the position of the Staff of the Commission as set forth in the Exxon Capital No-Action Letter, the Morgan Stanley No-Action Letter, the Shearman & Sterling No-Action Letter, and other interpretive letters addressed to third parties in other transactions. However, we have not sought our own interpretive letter addressing these matters and there can be no assurance that the Staff would make a similar determination with respect to the Exchange Offer as it has in those interpretive letters to third parties. Based on these interpretations by the Staff, and subject to the two immediately following sentences, we believe that New Notes issued pursuant to this Exchange Offer in exchange for Old Notes may be offered for resale, resold and otherwise transferred by holders, other than a holder who is a broker-dealer, without further compliance with the registration and prospectus delivery requirements of the Securities Act, provided that:

- . the New Notes are acquired in the ordinary course of the holder's business; and
- . the holder is not participating, and has no arrangement or understanding with any person to participate, in a distribution within the meaning of the Securities Act of the New Notes.

However, any holder who:

- . is an "affiliate" of us, within the meaning of Rule 405 under the Securities Act;
- . does not acquire New Notes in the ordinary course of its business;
- . intends to participate in the Exchange Offer for the purpose of distributing New Notes; or
- . is a broker-dealer who purchased Old Notes directly from us,

will not be able to rely on the interpretations of the Staff set forth in the above-mentioned interpretive letters; will not be permitted or entitled to tender Old Notes in the Exchange Offer; and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any sale or other transfer of Old Notes unless the sale is made pursuant to an exemption from those requirements.

In addition, as described below, if any broker-dealer holds Old Notes acquired for its own account as a result of market-making or other trading activities and exchanges the Old Notes for New Notes (a "participating broker-dealer"), the participating broker-dealer may be deemed to be a statutory "underwriter" within the meaning of the Securities Act and must deliver a prospectus meeting the requirements of the Securities Act in connection with any resales of New Notes. See "Plan of Distribution."

Each holder who wishes to exchange Old Notes for New Notes in the Exchange Offer will be required to represent that:

- . it is not an affiliate of us;
- . any New Notes to be received by it are being acquired in the ordinary course of its business; and
- . it has no arrangement or understanding with any person to participate in a distribution, within the meaning of the Securities Act, of New Notes.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Each broker-dealer that receives New Notes for its own account pursuant to the Exchange Offer must:

- . acknowledge that it acquired the Old Notes for its own account as a result of market-making activities or other trading activities, and not directly from us; and
- . must agree that it will deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of New Notes.

The letter of transmittal states that by so acknowledging and by delivering a prospectus, a participating broker-dealer will not be deemed to admit that it is an "underwriter" within the meaning of the Securities Act.

36

Based on the position taken by the Staff in the interpretive letters referred to above, we believe that participating broker-dealers may fulfill their prospectus delivery requirements with respect to the New Notes received upon exchange of Old Notes with a prospectus meeting the requirements of the Securities Act, which may be the prospectus prepared for an Exchange Offer so long as it contains a description of the plan of distribution with respect to the resale of New Notes. Accordingly, this prospectus, as it may be amended or supplemented from time to time, may be used by a participating broker-dealer during the period referred to below in connection with the resales of New Notes received in exchange for Old Notes where the Old Notes were acquired by the participating broker-dealer for its own account as a result of market-making or other trading activities.

Subject to provisions set forth in the registration rights agreement, we shall use our best efforts to:

- . keep the Exchange Offer Registration Statement continuously effective, supplemented and amended to the extent necessary to ensure that it is available for resales of New Notes acquired by broker-dealers for their own accounts as a result of market-making activities or other trading activities; and
- . ensure that the Exchange Offer Registration Statement conforms with the requirements of the registration rights agreement, the Securities Act and the policies, rules and regulations of the Commission as announced from time to time, for a period of 180 days from the date on which the Exchange Offer Registration Statement is declared effective.

Any participating broker-dealer who is an affiliate of us may not rely on the interpretive letters and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each participating broker-dealer who surrenders Old Notes pursuant to the Exchange Offer will be deemed to have agreed, by execution of a letter of transmittal, that, upon receipt of notice from us of the occurrence of any event or the discovery of any fact which makes any statement contained or incorporated by reference in this prospectus untrue in any material respect or which causes this prospectus to omit to state a material fact necessary in order to make the statements contained or incorporated by reference herein, in light of the circumstances under which they were made, not misleading or of the occurrence of other events specified in the registration rights agreement, the participating broker-dealer will suspend the sale of New Notes pursuant to this prospectus until we have amended or supplemented this prospectus to correct the

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

misstatement or omission and have furnished copies of the amended or supplemented prospectus to the participating broker-dealer or we have given notice that the sale of the New Notes may be resumed, as the case may be.

Consequences Of Failure To Exchange Old Notes

Any Old Notes tendered and exchanged in the Exchange Offer will reduce the aggregate principal amount of Old Notes outstanding. Following the consummation of the Exchange Offer, holders who did not tender their Old Notes generally will not have any further registration rights under the registration rights agreement, and these Old Notes will continue to be subject to restrictions on transfer. Accordingly, the liquidity of the market for the Old Notes could be adversely affected. The Old Notes are currently eligible for sale under Rule 144A through the Portal Market. Because we anticipate that most holders will elect to exchange their Old Notes for New Notes due to the absence of most restrictions on the resale of New Notes, we anticipate that the liquidity of the market for any Old Notes remaining outstanding after the Exchange Offer may be substantially limited.

As a result of the making of the Exchange Offer, we will have fulfilled our obligations under the registration rights agreement, and holders who do not tender their Old Notes generally will not have any further registration rights or rights to receive liquidated damages specified in the registration rights agreement for our failure to register the New Notes.

37

The Old Notes that are not exchanged for New Notes will remain restricted securities. Accordingly, the Old Notes may be resold only:

- . to SBA or one of its subsidiaries;
- . to a qualified institutional buyer;
- . to an institutional accredited investor;
- . to a party outside the United States under Regulation S under the Securities Act;
- . under an exemption from registration provided by Rule 144 under the Securities Act; or
- . under an effective registration statement.

38

DESCRIPTION OF THE NOTES

General

The Old Notes were and the New Notes will be issued under the Indenture dated February 2, 2001 between us and State Street Bank and Trust Company as trustee (the "Indenture"). The term "Notes" refers to the Old Notes and the New Notes. The statements under this caption relating to the Notes and the Indenture are summaries and are not complete. In addition, they are subject to, and are qualified in their entirety by reference to, all the provisions of the Indenture, including the definitions of various terms in the Indenture. The Indenture is by its terms subject to and governed by the Trust Indenture Act of 1939. Where reference is made to particular provisions of the Indenture or to defined terms not defined in this prospectus, the provisions or defined terms

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

are incorporated by reference to this prospectus. Copies of the Indenture referred to below are available for review at the corporate office of the trustee and may also be obtained from us upon request.

Brief Description of the Securities

The Notes are:

- . our senior unsecured obligations;
- . senior in right of payment to any of our future subordinated Indebtedness;
- . pari passu in right of payment to our existing and future unsecured Indebtedness that is not by its terms expressly subordinated to the Notes; and
- . effectively junior in right of payment to our existing and future secured Indebtedness to the extent of the value of the collateral securing that Indebtedness.

The Notes are not guaranteed by any of our Subsidiaries.

Our operations are conducted through our Subsidiaries and, therefore, we are dependent upon the cash flow of our Subsidiaries to meet our obligations, including our obligations under the Notes. Our Subsidiaries are not guarantors of the Notes and are separate entities with no obligation to make payments on the Notes or to make funds available therefor. The Notes are effectively subordinated to all Indebtedness (including all obligations under any senior credit facility obtained in the future) and other liabilities and commitments (including trade payables and lease obligations) of our Subsidiaries. Our right to receive assets of any of our Subsidiaries upon such Subsidiary's liquidation or reorganization (and the consequent right of the Holders of the Notes to participate in those assets) is effectively subordinated to the claims of that Subsidiary's creditors, except to the extent that we are ourselves recognized as a creditor of such Subsidiary, in which case our claims would still be subordinate to any security in the assets of such Subsidiary and any indebtedness of such Subsidiary senior to that held by us. We cannot assure you that, if a Default or Event of Default occurs, we will have sufficient cash or other assets available to meet our obligations, especially after repayment by our Subsidiaries of their obligations. For other information relating to us and our Subsidiaries and the structural subordination of the Notes to indebtedness and other obligations of such Subsidiaries, see "Risk Factors--The notes are structurally subordinate to the debt of our subsidiaries, including any senior credit facility."

As of the date we issued the Old Notes, all of our existing subsidiaries were "Restricted Subsidiaries" and bound by the covenants contained in the Indenture. However, under certain circumstances, we will be permitted to designate our Subsidiaries as "Unrestricted Subsidiaries." Our Unrestricted Subsidiaries will not be subject to the restrictive covenants in the Indenture.

At December 31, 2000, as adjusted for the offering of the Old Notes and giving effect to the application of the proceeds therefrom, we would have had approximately \$709.2 million of Indebtedness outstanding (including the Notes), none of which would have been secured. The Indenture permits certain of our Subsidiaries to incur additional amounts of Indebtedness, all of which would be effectively senior to the Notes.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Principal, Maturity and Interest

We will issue New Notes with a maximum aggregate principal amount of \$500.0 million. The Notes will mature on February 1, 2009. We will issue the New Notes in denominations of \$1,000 and integral multiples of \$1,000.

Interest on the Notes will accrue at the rate of 10 1/4% per annum and will be payable semi-annually in arrears on each February 1 and August 1, commencing on August 1, 2001, to Holders of record on the immediately preceding January 15 or July 15, respectively. The registered Holder of a Note will be treated as the owner of the Note for all purposes. Only registered Holders will have rights under the Indenture.

Interest on the Notes will accrue from the date of original issuance or, if interest has been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Methods of Receiving Payments on the Notes

If a Holder has given wire transfer instructions to us, we will pay all principal, interest and premium, if any, on that Holder's Notes in accordance with those instructions. All other payments on Notes will be made at the office or agency of the paying agent and registrar within the City and State of New York unless we elect to make interest payments by check mailed to the Holders at their address set forth in the register of Holders.

Paying Agent and Registrar for the Notes

The Trustee will initially act as paying agent and registrar. We may change the paying agent or registrar without prior notice to the Holders of the Notes, and we or any of our Subsidiaries may act as paying agent or registrar.

Transfer and Exchange

A Holder may transfer or exchange Notes in accordance with the Indenture. The registrar and the Trustee may require a Holder to furnish appropriate endorsements and transfer documents in connection with a transfer of Notes. Holders will be required to pay all taxes due on transfer. We are not required to transfer or exchange any note selected for redemption. Also, we are not required to transfer or exchange any note for a period of 15 days before a selection of Notes to be redeemed.

Optional Redemption

Except as described below, the Notes will not be redeemable at our option prior to February 1, 2005. Thereafter, the Notes will be subject to redemption at any time at our option, in whole or in part, upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below plus accrued and unpaid interest thereon, if any, to the applicable redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the twelve-month period beginning on February 1 of the years indicated below:

Year	Percentage
----	-----
2005.....	105.125%
2006.....	103.417%
2007.....	101.708%

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

2008 and thereafter..... 100.000%

At any time prior to February 1, 2004, we may on any one or more occasions redeem up to 35% of the aggregate principal amount of Notes issued under the Indenture at a redemption price of 110.250% of the

40

principal amount thereof on the redemption date with the net cash proceeds of one or more Public Equity Offerings and/or Strategic Equity Investments; provided that (1) at least 65% of the aggregate principal amount of Notes issued under the Indenture remains outstanding immediately after the occurrence of such redemption (excluding Notes held by us or any of our Subsidiaries) and (2), that such redemption shall occur within 60 days of the date of the closing of such Public Equity Offering and/or Strategic Equity Investment.

Selection and Notice

If less than all of the Notes are to be redeemed at any time, selection of Notes for redemption will be made by the Trustee in compliance with the requirements of the principal national securities exchange, if any, on which the Notes are listed, or, if the Notes are not so listed on a pro rata basis, provided that no Notes of \$1,000 or less shall be redeemed in part. Notices of redemption shall be mailed by first class mail at least 30 but not more than 60 days before the redemption date to each Holder of Notes to be redeemed at its registered address. Notices of redemption may not be conditional. If any Note is to be redeemed in part only, the notice of redemption that relates to such Note shall state the portion of the principal amount thereof to be redeemed. A new Note in principal amount equal to the unredeemed portion thereof will be issued in the name of the Holder thereof upon cancellation of the original Note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of them called for redemption so long as we have deposited with the Paying Agent funds in satisfaction at the applicable redemption price pursuant to the Indenture.

Mandatory Redemption

We are not required to make mandatory redemption or sinking fund payments with respect to the Notes.

Purchase at the Option of Holders

Change of Control

Upon the occurrence of a Change of Control, each Holder of Notes will have the right to require the Company to purchase all or any part (equal to \$1,000 or an integral multiple thereof) of such Holder's Notes pursuant to the offer described below (the "Change of Control Offer") at an offer price in cash equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest thereon, if any (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date), to the date of purchase (the "Change of Control Payment"). Within 30 days following any Change of Control, the Company will mail a notice to each Holder describing the transaction or transactions that constitute the Change of Control and offering to purchase Notes on the date specified in such notice, which date shall be no earlier than 30 days and no later than 60 days from the date such notice is mailed (the "Change of Control Payment Date"), pursuant to the procedures required by the Indenture and described in such

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

notice.

On the Change of Control Payment Date, the Company will, to the extent lawful:

(1) accept for payment all Notes or portions thereof properly tendered pursuant to the Change of Control Offer,

(2) deposit with the Paying Agent an amount equal to the Change of Control Payment in respect of all Notes or portions thereof so tendered, and

(3) deliver or cause to be delivered to the Trustee the Notes so accepted together with an Officers' Certificate stating the aggregate principal amount of Notes or portions thereof being purchased by the Company.

The Paying Agent will promptly mail to each Holder of Notes so tendered the Change of Control Payment for such Notes, and the Trustee will promptly authenticate and mail (or cause to be transferred by book entry)

41

to each Holder a new Note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; provided that each such new Note will be in a principal amount of \$1,000 or an integral multiple thereof.

We will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations applicable to any Change of Control Offer. To the extent that the provisions of any such securities laws or securities regulations conflict with the provisions of the covenant described above, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the covenant described above by virtue thereof.

The Change of Control purchase feature is a result of negotiations between the Company and the Initial Purchasers. We have no present intention to engage in a transaction involving a Change of Control, although it is possible that the Company would decide to do so in the future. Subject to the limitations discussed below, the Company could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect the Company's capital structure. Restrictions on the ability of the Company to incur additional Indebtedness are contained in the covenants described under "--Certain Covenants--Incurrence of Indebtedness and Issuance of Preferred Stock," "--Certain Covenants--Liens" and "--Certain Covenants--Sale and Leaseback Transactions." Such restrictions can be waived only with the consent of the Holders of a majority in principal amount of the Notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford Holders of the Notes protection in the event of certain highly leveraged transactions.

Any Senior Credit Facility would likely limit the Company's access to the cash flow of its Subsidiaries and, therefore, restrict the Company's ability to purchase any Notes. Any Senior Credit Facility would likely also provide that the occurrence of certain change of control events with respect to the Company will constitute a default thereunder. In the event that a Change of Control occurs at a time when the Company's Subsidiaries are prohibited from making distributions to the Company to purchase Notes, the Company could cause its

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Subsidiaries to seek the consent of the lenders under any senior credit facility we may obtain in the future to allow such distributions or could attempt to refinance the borrowings that contain such prohibition. If the Company does not obtain such a consent or repay such borrowings, the Company will remain prohibited from purchasing Notes. In such case, the Company's failure to purchase tendered Notes would constitute an Event of Default under the Indenture. The March 1998 Senior Discount Note Indenture, evidencing the Company's Senior Discount Notes due 2008 ("2008 Notes"), also requires the Company to offer to repurchase the 2008 Notes on a Change of Control. Future indebtedness of the Company and its Subsidiaries may contain prohibitions on the occurrence of certain events that would constitute a Change of Control or require such indebtedness to be purchased upon a Change of Control. Moreover, the exercise by the Holders of their right to require the Company to purchase the Notes could cause a default under such indebtedness, even if the Change of Control itself does not, due to the financial effect of such purchase on the Company. The Company's ability to pay cash to the Holders of Notes following the occurrence of a Change of Control may also be limited by the Company's then existing financial resources, including its ability to access the cash flow of its Subsidiaries. See "Risk Factors--We may not be able to purchase your notes upon a change of control."

The Company will not be required to make a Change of Control Offer upon a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer. The provisions under the Indenture relative to the Company's obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified only with the written consent of the Holders of a majority in principal amount of the Notes then outstanding.

The definition of Change of Control includes a phrase relating to the sale, lease, transfer, conveyance or other disposition of "all or substantially all" of the assets of the Company and its Restricted Subsidiaries taken

42

as a whole. Although there is a developing body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a Holder of Notes to require the Company to purchase such Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of the Company and its Subsidiaries taken as a whole to another Person or group may be uncertain.

Asset Sales

The Company will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

(1) the Company (or the Restricted Subsidiary, as the case may be) receives consideration at the time of such Asset Sale at least equal to the fair market value (evidenced by a resolution of the Board of Directors set forth in an Officers' Certificate delivered to the Trustee) of the assets or Equity Interests issued or sold or otherwise disposed of; and

(2) at least 75% of the consideration therefor received by the Company or such Restricted Subsidiary is in the form of (a) cash or Cash Equivalents, (b) Tower Assets or (c) any combination of the foregoing.

For purposes of this provision, the following shall be deemed to be

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

cash:

(A) the amount of any liabilities (as shown on the Company's or such Restricted Subsidiary's most recent balance sheet) of the Company or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes or any guarantee thereof) that are assumed by the transferee of any such assets pursuant to a customary novation agreement that releases the Company or such Restricted Subsidiary from further liability; and

(B) the amount of any securities, notes or other obligations received by the Company or any such Restricted Subsidiary from such transferee that are converted by the Company or such Restricted Subsidiary into cash within 20 days of the applicable Asset Sale (to the extent of the cash received) shall be deemed to be cash for purposes of this provision.

Within 360 days after the receipt of any Net Proceeds from an Asset Sale, the Company or the applicable Restricted Subsidiary may apply such Net Proceeds to:

(a) reduce (which reduction may be temporary) Indebtedness under a Credit Facility;

(b) reduce other Indebtedness of any of the Company's Restricted Subsidiaries;

(c) acquire all or substantially all the assets of a Permitted Business;

(d) acquire Voting Stock of a Permitted Business from a Person that is not a Subsidiary of the Company; provided, that, after giving effect thereto, the Company or its Restricted Subsidiary owns a majority of such Voting Stock; or

(e) make a capital expenditure or acquire other long-term assets that are used or useful in a Permitted Business.

Pending the final application of any such Net Proceeds, the Company may invest such Net Proceeds in any manner that is not prohibited by the Indenture.

Any Net Proceeds from Asset Sales that are not applied or invested as provided in clauses (a) through (e) immediately above will be deemed to constitute "Excess Proceeds." When the aggregate amount of Excess Proceeds exceeds \$10 million, the Company will be required to make an offer to all Holders of Notes and all Holders of other senior Indebtedness of the Company containing provisions similar to those set forth in the Indenture with respect to offers to purchase or redeem with the proceeds of sales of assets (an "Asset Sale Offer") to purchase, on a pro rata basis, the maximum principal amount (or accreted value, as applicable) of

43

Notes and such other senior Indebtedness of the Company that may be purchased out of the Excess Proceeds, at an offer price in cash in an amount equal to 100% of the principal amount thereof plus accrued and unpaid interest thereon, if any, to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date), in accordance with the procedures set forth in the Indenture and such other senior Indebtedness of the Company.

To the extent that any Excess Proceeds remain after consummation of an Asset

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Sale Offer, the Company may use such Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes and such other senior Indebtedness of the Company tendered into such Asset Sale Offer surrendered by Holders thereof exceeds the amount of Excess Proceeds, the Trustee shall select the Notes and such other senior Indebtedness to be purchased on a pro rata basis. Upon completion of such offer to purchase, the amount of Excess Proceeds shall be reset at zero.

Certain Covenants

Restricted Payments

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of the Company's or any of its Restricted Subsidiaries' Equity Interests (including, without limitation, any payment in connection with any merger or consolidation involving the Company or any of its Restricted Subsidiaries) or to the direct or indirect Holders of the Company's or any of its Restricted Subsidiaries' Equity Interests in their capacity as such (other than dividends or distributions payable (A) in Qualified Equity Interests or (B) to the Company or a Restricted Subsidiary of the Company);

(2) purchase, redeem or otherwise acquire or retire for value (including without limitation, in connection with any merger or consolidation involving the Company) any Equity Interests of the Company;

(3) designate any Restricted Subsidiary as an Unrestricted Subsidiary;

(4) make any payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any Indebtedness that is subordinated to the Notes, except a payment of interest or principal at Stated Maturity (other than payments to the Company or payments by a Restricted Subsidiary of the Company to the Company or to another Restricted Subsidiary of the Company); or

(5) make any Restricted Investment (all such payments and other actions set forth in clauses (1) through (5) being collectively referred to as "Restricted Payments"), unless, at the time of and after giving effect to such Restricted Payment:

(a) no Default shall have occurred and be continuing or would occur as a consequence thereof; and

(b) the Company would have been permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Debt to Adjusted Consolidated Cash Flow Ratio test set forth in the first paragraph of the covenant described below under the caption "--Incurrence of Indebtedness and Issuance of Preferred Stock"; provided that the Company and its Restricted Subsidiaries will not be required to comply with this clause (b) in order to make any Restricted Investment and

(c) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Company and its Restricted Subsidiaries after the date of the March 1998 Senior Discount Note Indenture (excluding Restricted Payments permitted by clauses (2) and (3) of the next succeeding paragraph), is less than the sum, without duplication, of:

(1) 100% of the Consolidated Cash Flow of the Company for the

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

period (taken as one accounting period) from the beginning of the fiscal quarter during which the May 1998 Senior

44

Discount Note Indenture was executed to the end of the Company's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment (or, if the Consolidated Cash Flow for such period is a deficit, less 100% of the deficit), less 1.75 times the Consolidated Interest Expense of the Company since the beginning of the fiscal quarter during which the May 1998 Senior Discount Note Indenture was executed to the end of the Company's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment; plus

(2) (A) 100% of the aggregate net cash proceeds plus (B) 70% of the aggregate value, as reflected on the Company's balance sheet in accordance with GAAP using purchase accounting, of any Qualified Proceeds, in each case as of the date the Company's Equity Interests were issued, sold or exchanged therefor received by the Company (from persons other than Subsidiaries) since the beginning of the fiscal quarter during which the March 1998 Senior Discount Note Indenture was executed as a contribution to its common equity capital or from the issue and sale of Qualified Equity Interests (except to the extent such net cash proceeds are used to incur new indebtedness outstanding pursuant to clause (10) of the second paragraph of the covenant described below under the caption "-- Incurrence of Indebtedness and Issuance of Preferred Stock") or from the issue or sale (whether before or after the beginning of the fiscal quarter during which the March 1998 Senior Discount Note Indenture was executed) (other than to a Subsidiary of the Company) of Disqualified Stock or debt securities of the Company that have been converted into Qualified Equity Interests sold to or held by a Subsidiary of the Company (provided that any net cash proceeds that are used pursuant to the second paragraph under "Optional Redemption" shall not be so included); plus

(3) to the extent that any Unrestricted Subsidiary of the Company is redesignated as or becomes a Restricted Subsidiary after the Issue Date; the lesser of:

(A) the fair market value of the Company's Investments in such Subsidiaries as of the date they are designated or become Restricted Subsidiaries, and

(B) the sum of:

(x) the fair market value of the Company's Investments in such Subsidiaries as of the date on which such Subsidiaries were originally designated as Unrestricted Subsidiaries, and

(y) the amount of any Investments made in such Subsidiaries subsequent to such designation (and treated as Restricted Payments) by the Company or any Restricted Subsidiary; plus

(4) to the extent not included in the Consolidated Cash Flow referred to in clause (1) and to the extent that any Restricted Investment that was made after the Issue Date is sold for cash or otherwise liquidated or repaid for cash, the lesser of:

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

(A) the cash return of capital with respect to the Restricted Investment (less the cost of disposition, if any), and

(B) the initial amount of the Restricted Investment; plus

(5) 100% of any other dividends or other distributions received by the Company or a Restricted Subsidiary of the Company since the Issue Date from an Unrestricted Subsidiary of the Company to the extent that such dividends were not otherwise included in Consolidated Net Income of the Company for such period.

The foregoing provisions will not prohibit:

(1) the payment of any dividend within 60 days after the date of declaration thereof, if at said date of declaration such payment would have complied with the provisions of the Indenture;

45

(2) the making of any Investment or the redemption, repurchase, retirement, defeasance or other acquisition of any subordinated Indebtedness or Equity Interests of the Company or its Restricted Subsidiaries in exchange for, or out of the net cash proceeds, to the extent of the net cash proceeds received by the Company from the sale since the Issue Date, (other than to a Subsidiary of the Company) of, any Qualified Equity Interests; provided that such net cash proceeds are not used to incur new Indebtedness pursuant to clause (10) of the second paragraph of the covenant described below under the caption "--Incurrence of Indebtedness and Issuance of Preferred Stock" or pursuant to the second paragraph under "Optional Redemption"; and provided further that, in each such case, the amount of any such net cash proceeds that are so utilized shall be excluded from clause (c) (2) of the preceding paragraph;

(3) the defeasance, redemption, repurchase or other acquisition of subordinated Indebtedness with the net cash proceeds from an incurrence of Permitted Refinancing Indebtedness; provided that such net cash proceeds are not used to incur new Indebtedness pursuant to clause (10) of the second paragraph of the covenant described below under the caption "--Incurrence of Indebtedness and Issuance of Preferred Stock" or pursuant to the second paragraph under "Optional Redemption"; and provided further that, in each such case, the amount of any such net cash proceeds that are so utilized shall be excluded from clause (c) (2) of the preceding paragraph;

(4) the repurchase, redemption or other acquisition or retirement for value of Equity Interests of the Company or any Restricted Subsidiary of the Company held by any member of the Company's (or any of its Restricted Subsidiaries') management; provided that the aggregate amount expended pursuant to this clause (4) shall not exceed \$500,000 in any twelve-month period;

(5) the repurchase of Equity Interests of the Company that may be deemed to occur upon the exercise of options to acquire capital stock of the Company if such Equity Interests represent a portion of the exercise price of such options; or

(6) cash payments, in lieu of fractional shares issuable as dividends on Equity Interests of the Company in an amount, when taken together with all other cash payments made pursuant to this clause (6) since the date of the Indenture, not to exceed \$500,000.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

The Board of Directors may designate any Restricted Subsidiary to be an Unrestricted Subsidiary if such Subsidiary, after giving effect to such designation, would meet the requirements of the definition of "Unrestricted Subsidiary." The Company will not, and will not permit any of its Subsidiaries to, enter into, or suffer to exist, any transaction or arrangement, with a Subsidiary that is a Restricted Subsidiary that would be inconsistent with or violate the terms set forth in the definition of "Unrestricted Subsidiary."

The amount of all Restricted Payments (other than cash), including the amount of the Restricted Payment that will be deemed to occur upon the designation of a Subsidiary as an Unrestricted Subsidiary, shall be the fair market value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by the Company or the applicable Restricted Subsidiary, or of the Company's proportionate interest in the Subsidiary so to be designated as the case may be, pursuant to the Restricted Payment.

Incurrence of Indebtedness and Issuance of Preferred Stock

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly, or indirectly, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable, contingently or otherwise, with respect to (collectively, "incur") any Indebtedness (including Acquired Debt) and the Company will not issue any Disqualified Stock and will not permit any of its Restricted Subsidiaries to issue any shares of preferred stock; provided, however, that the Company may incur Indebtedness (including Acquired Debt) or issue shares of Disqualified Stock and its Restricted Subsidiaries may incur Indebtedness or issue preferred stock if, in each case, (1) no Default shall have occurred and be continuing or would occur as a consequence thereof and (2) the Company's Debt to Adjusted Consolidated Cash Flow Ratio at the time of incurrence of

46

such Indebtedness or the issuance of such Disqualified Stock, after giving pro forma effect to such incurrence or issuance as of such date and to the use of proceeds therefrom would have been no greater than 7.0 to 1.0.

The first paragraph of this covenant will not apply to the incurrence of any of the following items of Indebtedness (collectively, "Permitted Debt") if no Default shall have occurred and be continuing or would occur as a consequence thereof:

(1) the incurrence by the Company or any of its Restricted Subsidiaries of Indebtedness under one or more Credit Facilities or through the issuance of Seller Paper in an aggregate principal amount (with letters of credit being deemed to have an aggregate principal amount equal to the maximum potential liability of the Company and its Restricted Subsidiaries thereunder) at any one time outstanding not to exceed the greater of (A) \$300.0 million or (B) the product of \$150,000 times the number of Completed Towers on the date of such occurrence less, in either such case, the aggregate amount of commitment reductions under Credit Facilities resulting from the application of proceeds of Asset Sales since the Issue Date; provided, however, that the aggregate principal amount of Seller Paper at any one time outstanding under this clause (1) shall not exceed \$50.0 million;

(2) the incurrence by the Company and its Restricted Subsidiaries of the Existing Indebtedness;

(3) the incurrence by the Company of Indebtedness represented by the

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Notes issued on the Issue Date, and the New Notes;

(4) the incurrence by the Company or any of its Restricted Subsidiaries of Indebtedness represented by Capital Lease Obligations, mortgage financings or purchase money obligations, in each case, incurred for the purpose of financing all or any part of the purchase price or cost of construction or improvement of property, plant or equipment used in the business of the Company or such Restricted Subsidiary, in an aggregate principal amount, including all Permitted Refinancing Indebtedness incurred to refund, refinance or replace any other Indebtedness incurred pursuant to this clause (4), not to exceed \$10.0 million at any one time outstanding;

(5) the incurrence by the Company or any of its Restricted Subsidiaries of Permitted Refinancing Indebtedness in exchange for, or the net proceeds of which are used to extend, refinance, renew, replace, defease or refund, Indebtedness (other than intercompany Indebtedness) that was permitted by the Indenture to be incurred under the first paragraph hereof or clause (2) or (3) or this clause (5) of this paragraph;

(6) the incurrence by the Company or any of its Restricted Subsidiaries of intercompany Indebtedness or intercompany preferred stock between or among the Company and any of its Restricted Subsidiaries; provided, however, that (1) if the Company is the obligor on such Indebtedness, such Indebtedness is expressly subordinated to the prior payment in full in cash of all Obligations with respect to the Notes and (2) (A) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness or preferred stock being held by a Person other than the Company or a Restricted Subsidiary and (B) any sale or other transfer of any such Indebtedness or preferred stock to a Person that is not either the Company or a Restricted Subsidiary shall be deemed, in each case, to constitute an incurrence of such Indebtedness or preferred stock by the Company or such Restricted Subsidiary, as the case may be;

(7) the incurrence by the Company or any of its Restricted Subsidiaries of Hedging Obligations that are incurred for the purpose of fixing or hedging interest rate risk with respect to any floating rate Indebtedness that is permitted by the terms of the Indenture to be outstanding or currency exchange risk or otherwise entered into for bona fide purposes designed to protect against interest rate or currency exchange risk and not for speculative purposes;

(8) the guarantee by the Company or any of its Restricted Subsidiaries of Indebtedness of the Company or a Restricted Subsidiary of the Company that was permitted to be incurred by another provision of the Indenture;

47

(9) the incurrence by the Company or any of its Restricted Subsidiaries of Acquired Debt in connection with the acquisition of assets or a new Subsidiary and the incurrence by the Company's Restricted Subsidiaries of Indebtedness as a result of the designation of an Unrestricted Subsidiary as a Restricted Subsidiary; provided that, in the case of any such incurrence of Acquired Debt, such Acquired Debt was incurred by the prior owner of such assets or such Restricted Subsidiary prior to such acquisition by the Company or one of its Restricted Subsidiaries and was not incurred in connection with, or in contemplation of, such acquisition by the Company or one of its Restricted Subsidiaries; and provided further that, in the case of any incurrence pursuant to this clause (9), as a result of such acquisition the Company's Debt to Adjusted Consolidated Cash Flow Ratio at the time of incurrence of such Acquired Debt, after giving pro forma effect to such incurrence as if the same had occurred at the

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

beginning of the most recently ended four full fiscal quarter period for the Company for which internal financial statements are available, would have been less than the Company's Debt to Adjusted Consolidated Cash Flow Ratio for the same period without giving pro forma effect to such incurrence;

(10) the incurrence by the Company of Indebtedness not to exceed, at any one time outstanding, the sum of (A) 2.0 times the aggregate net cash proceeds plus (B) 1.0 times the fair market value of non-cash proceeds (evidenced by a resolution of the Board of Directors of the Company set forth in an Officers' Certificate delivered to the Trustee) from the issuance and sale, other than to a Subsidiary, of Qualified Equity Interests of the Company since the beginning of the fiscal quarter during which the March 1998 Senior Discount Note Indenture was executed (less the amount of such proceeds used to make Restricted Payments as provided in clause (c)(2) of the first paragraph or clause (4) of the second paragraph of the covenant described above under the caption "--Restricted Payments");

(11) the issuance by Restricted Subsidiaries of Permitted Subsidiary Equity Interests; and

(12) the incurrence by the Company or any of its Restricted Subsidiaries of additional Indebtedness in an aggregate principal amount (or accreted value, as applicable) at any time outstanding not to exceed \$10.0 million.

(1) The Company will not incur any Indebtedness that is contractually subordinated in right of payment to any other Indebtedness of the Company unless such Indebtedness is also contractually subordinated in right of payment to the Notes on substantially identical terms; provided, however, that no Indebtedness of the Company shall be deemed to be contractually subordinated in right of payment to any other Indebtedness of the Company solely by virtue of being unsecured; and (2) the Company will not permit any of its Unrestricted Subsidiaries to incur any Indebtedness other than Non-Recourse Debt; and (3) Restricted Subsidiaries may not issue or sell, and the Company may not permit any Restricted Subsidiary to have outstanding, any Equity Interests (other than (x) Equity Interests held by the Company or its Restricted Subsidiaries or (y) Permitted Subsidiary Equity Interests).

For purposes of determining compliance with this covenant, in the event that an item of Indebtedness or preferred stock meets the criteria of more than one of the categories of Permitted Debt described in clauses (1) through (12) in the second paragraph of this covenant or is entitled to be incurred pursuant to the first paragraph of this covenant, the Company shall, in its sole discretion, classify or reclassify such item of Indebtedness in any manner that complies with this covenant. Accrual of interest, accretion or amortization of original issue discount and the payment of interest in the form of additional Indebtedness will not be deemed to be an incurrence of Indebtedness for purposes of this covenant.

Liens

The Indenture will provide that the Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, assume or suffer to exist any Lien securing Indebtedness or trade payables on any asset now owned or hereafter acquired, or any income or profits therefrom or assign or convey any right to receive income therefrom, except Permitted Liens.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

The Company will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create or otherwise cause or suffer to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

(1) (a) pay dividends or make any other distributions to the Company or any of its Restricted Subsidiaries (x) on its Capital Stock or (y) with respect to any other interest or participation in, or measured by, its profits, or (b) pay any indebtedness owed to the Company or any of its Restricted Subsidiaries;

(2) make loans or advances to the Company or any of its Restricted Subsidiaries; or

(3) transfer any of its properties or assets to the Company or any of its Restricted Subsidiaries.

However, the foregoing restrictions will not apply to encumbrances or restrictions existing under or by reason of:

(a) any agreement or instrument governing Existing Indebtedness as in effect on the Issue Date or as amended, modified, restated or renewed in any manner not materially more restrictive, taken as a whole,

(b) the Indenture, the Notes or any senior credit facility that may be obtained in the future,

(c) applicable law,

(d) any instrument governing Indebtedness or Capital Stock of a Person acquired by the Company or any of its Restricted Subsidiaries as in effect at the time of such acquisition (except to the extent such Indebtedness was incurred in connection with or in contemplation of such acquisition), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person, or the property or assets of the Person, so acquired, provided that, in the case of Indebtedness, such Indebtedness was permitted by the terms of the Indenture to be incurred,

(e) by reason of customary non-assignment provisions in leases or licenses or other contracts entered into in the ordinary course of business,

(f) purchase money obligations for property acquired in the ordinary course of business that impose restrictions of the nature described in clause (3) above on the property so acquired,

(g) the provisions of agreements governing Indebtedness incurred pursuant to clause (4) of the second paragraph of the covenant described above under the caption "--Incurrence of Indebtedness and Issuance of Preferred Stock,"

(h) any agreement for the sale of a Restricted Subsidiary that restricts that Restricted Subsidiary pending its sale,

(i) Permitted Refinancing Indebtedness, provided that the restrictions contained in the agreements governing such Permitted Refinancing Indebtedness are not materially more restrictive, taken as a whole, than those contained in the agreements governing the Indebtedness being refinanced,

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

(j) Liens permitted to be incurred pursuant to the provisions of the covenant described under the caption "--Liens" that limit the right of the debtor to transfer the assets subject to such Liens,

(k) any Indebtedness incurred in compliance with the covenant under the caption "--Incurrence of Indebtedness and Issuance of Preferred Stock" or any agreement pursuant to which such Indebtedness is issued if the encumbrance or restriction applies only in the event of a payment default or default with respect to a financial covenant contained in the Indebtedness or agreement and the encumbrance or restriction is not materially more disadvantageous to the Holders of the Notes than is customary in comparable financings (as determined by the Company) and the Company determines that any such encumbrance or restriction will not materially affect the Company's ability to pay interest or principal on the Notes,

49

(l) provisions with respect to the disposition or distribution of assets or property in joint venture agreements and other similar agreements and

(m) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business.

Merger, Consolidation or Sale of Assets

The Company may not consolidate or merge with or into (whether or not the Company is the surviving corporation), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets in one or more related transactions, to another corporation, Person or entity unless:

(1) the Company is the surviving corporation or the entity or the Person formed by or surviving any such consolidation or merger (if other than the Company) or to which such sale, assignment, transfer, lease, conveyance or other disposition shall have been made is a corporation organized or existing under the laws of the United States, any state thereof or the District of Columbia;

(2) the entity or Person formed by or surviving any such consolidation or merger (if other than the Company) or the entity or Person to which such sale, assignment, transfer, lease, conveyance or other disposition shall have been made assumes all our obligations under the Notes and the Indenture pursuant to a supplemental Indenture in a form reasonably satisfactory to the Trustee;

(3) in the case of a transaction involving the Company, immediately after giving effect to such transaction and the use of any net proceeds therefrom, on a pro forma basis, the Consolidated Net Worth of the Company or the successor, as the case may be, would be at least equal to the Consolidated Net Worth of the Company immediately prior to such transaction (exclusive of any adjustments to Consolidated Net Worth attributable to transaction costs) less any amount treated as a Restricted Payment in connection with such transaction in accordance with the Indenture; and

(4) immediately before and after such transaction no Default exists.

Transactions With Affiliates

The Company will not, and will not permit any of its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or Guarantee with, or for the benefit of, any Affiliate (each of the foregoing, an "Affiliate Transaction"), unless:

(1) such Affiliate Transaction is on terms that are no less favorable to the Company or the relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by the Company or such Restricted Subsidiary with an unrelated Person and

(2) the Company delivers to the Trustee:

(a) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of \$2.0 million, a resolution of the Board of Directors set forth in an Officers' Certificate certifying that such Affiliate Transaction complies with clause (1) above and that such Affiliate Transaction has been approved by a majority of the disinterested members of the Board of Directors; and

(b) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of \$10.0 million, an opinion as to the fairness to the Holders of such Affiliate Transaction from a financial point of view issued by an accounting, appraisal or investment banking firm of national standing.

Notwithstanding the foregoing, the following items shall not be deemed to be Affiliate Transactions:

50

(1) any employment arrangements with any executive officer of the Company or a Restricted Subsidiary that is entered into by the Company or any of its Restricted Subsidiaries in the ordinary course of business and consistent with compensation arrangements of similarly situated executive officers at comparable companies engaged in Permitted Businesses,

(2) transactions between or among the Company and/or its Restricted Subsidiaries,

(3) payment of outside directors' fees in an aggregate annual amount not to exceed \$50,000 per Person,

(4) Restricted Payments and Permitted Investments that are permitted by the provisions of the Indenture described above under the caption "-- Restricted Payments" and

(5) the issuance or sale of Equity Interests (other than Disqualified Stock) of the Company.

Sale and Leaseback Transactions

The Company will not, and will not permit any of its Restricted Subsidiaries to, enter into any sale and leaseback transaction (as seller); provided that the Company or any of its Restricted Subsidiaries may enter into a sale and leaseback transaction if:

(1) the Company or such Restricted Subsidiary, as applicable, could have (a) incurred Indebtedness in an amount equal to the Attributable Debt relating to such sale and leaseback transaction pursuant to the Debt to Adjusted Consolidated Cash Flow Ratio test set forth in the first paragraph

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

(2) the gross cash proceeds of such sale and leaseback transaction are at least equal to the fair market value (as determined in good faith by the Board of Directors) of the property that is the subject of such sale and leaseback transaction; and

(3) the transfer of assets in such sale and leaseback transaction is permitted by, and the Company applies the proceeds of such transaction in compliance with, the covenant described above under the caption "--Purchase at the Option of Holders--Asset Sales."

Limitations on Issuances of Guarantees of Indebtedness

The Company will not permit any Restricted Subsidiary, directly or indirectly, to Guarantee or pledge any assets to secure the payment of any Indebtedness of the Company (except Indebtedness of the Company under a guarantee of Indebtedness of one or more of its Restricted Subsidiaries) unless such Restricted Subsidiary simultaneously executes and delivers a supplemental Indenture to the Indenture providing for the Guarantee of the payment of the Notes by such Restricted Subsidiary, which Guarantee shall be senior to or *pari passu* with such Restricted Subsidiary's Guarantee of or pledge to secure such other Indebtedness.

Notwithstanding the foregoing, any such Guarantee by a Restricted Subsidiary of the Notes shall provide by its terms that it shall be automatically and unconditionally released and discharged upon any sale, exchange or transfer, to any Person other than a Restricted Subsidiary of the Company, of all of the Company's stock in, or all or substantially all the assets of, such Restricted Subsidiary, which sale, exchange or transfer is made in compliance with the applicable provisions of the Indenture. The form of such Guarantee will be attached as an exhibit to the Indenture.

Business Activities

Reports

Whether or not required by the rules and regulations of the Commission (the "Commission"), so long as any Notes are outstanding, the Company will furnish to the Holders of Notes:

(i) all quarterly and annual financial information that would be required to be contained in a filing with the Commission on Forms 10-Q and 10-K if the Company were required to file such Forms, including a "Management's Discussion and Analysis of Financial Condition and Results of Operations" that describes the financial condition and results of operations of the Company and its consolidated Subsidiaries (showing in reasonable detail, in the footnotes to the financial statements and in "Management's Discussion and Analysis of Financial Condition and Results of Operations" (in each case to the extent not prohibited by the Commission's rules and regulations), (a) the financial condition and results of

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

operations of the Company and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of the Company and (b) the Tower Cash Flow for the most recently completed fiscal quarter and the Adjusted Consolidated Cash Flow for the most recently completed four-quarter period) and, with respect to the annual information only, a report thereon by the Company's certified independent accountants; and

(ii) all current reports that would be required to be filed with the Commission on Form 8-K if the Company were required to file such reports, in each case within the time periods specified in the Commission's rules and regulations.

In addition, following the consummation of the Exchange Offer contemplated by the registration rights agreement, whether or not required by the rules and regulations of the Commission, the Company will file a copy of all such information and reports with the Commission for public availability within the time periods specified in the Commission's rules and regulations (unless the Commission will not accept such a filing) and make such information available to securities analysts and prospective investors upon request. In addition, the Company will, for so long as any Notes remain outstanding, furnish to the Holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d) (4) under the Securities Act.

Events of Default and Remedies

Each of the following constitutes an Event of Default:

(1) default for 30 days in the payment when due of interest on the Notes;

(2) default in payment when due of the principal of or premium, if any, on the Notes;

(3) failure by the Company or any of its Subsidiaries to comply with the provisions described under the caption "--Certain Covenants--Merger, Consolidation or Sale of Assets" or failure by the Company to consummate a Change of Control Offer or Asset Sale Offer in accordance with the provisions of the Indenture applicable thereto;

(4) failure by the Company or any of its Subsidiaries for 30 days after notice to comply with any of its other agreements in the Indenture or the Notes;

(5) default under any mortgage, Indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by the Company or any of its Significant Subsidiaries (or the payment of which is guaranteed by the Company or any of its Significant Subsidiaries) whether such Indebtedness or guarantee now exists, or is created after the date of the Indenture, which default (a) is caused by a failure to pay principal of or premium, if any, or interest on such Indebtedness prior to the expiration of the grace period provided in such Indebtedness on the date of such default (a "Payment Default") or (b) results in the acceleration of such Indebtedness prior to its express maturity and, in each case, the principal amount of any such Indebtedness, together with the

principal amount of any other such Indebtedness under which there has been

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

a Payment Default or the maturity of which has been so accelerated, aggregates \$10.0 million or more;

(6) failure by the Company or any of its Significant Subsidiaries to pay final judgments aggregating in excess of \$10.0 million, which judgments are not paid, discharged or stayed for a period of 60 days; or

(7) certain events of bankruptcy or insolvency with respect to the Company or any of its Restricted Subsidiaries that is a Significant Subsidiary.

If any Event of Default occurs and is continuing, the Trustee or the Holders of at least 25% in principal amount of the then outstanding Notes may declare all of the Notes to be due and payable immediately. Upon any such declaration, the principal of and accrued and unpaid interest, if any, shall become due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising from certain events of bankruptcy or insolvency, with respect to the Company, all outstanding Notes will become due and payable without further action or notice. Holders of the Notes may not enforce the Indenture or the Notes except as provided in the Indenture. Subject to certain limitations, Holders of a majority in principal amount of the then outstanding Notes may direct the Trustee in its exercise of any trust or power.

The Holders of a majority in aggregate principal amount of the Notes then outstanding by notice to the Trustee may on behalf of the Holders of all of the Notes waive any existing Default or Event of Default and its consequences under the Indenture except a continuing Default or Event of Default in the payment of interest on, or the principal of, the Notes.

The Indenture provides that if a Default occurs and is continuing and is known to the Trustee, the Trustee must mail to each Holder of the Notes notice of the Default within 90 days after it occurs. Except in the case of a Default in the payment of principal of or interest on any Note, the Trustee may withhold notice if and so long as a committee of its trust officers determines that withholding notice is not opposed to the interest of the Holders of the Notes. In addition, the Company is required to deliver to the Trustee, within 90 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any Default that occurred during the previous year. The Company is also required to deliver to the Trustee, forthwith after the occurrence thereof, written notice of any event that would constitute a Default, the status thereof and what action the Company is taking or proposes to take in respect thereof.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator or stockholder of the Company, as such, shall have any liability for any obligations of the Company under the Notes, the Indenture or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws and it is the view of the Commission that such a waiver is against public policy.

Legal Defeasance and Covenant Defeasance

We may, at our option and at any time, elect to have all of our obligations discharged with respect to the outstanding Notes ("Legal Defeasance") except for:

(1) the rights of Holders of outstanding Notes to receive payments in respect of the principal of, premium, if any, and interest on such Notes

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

when such payments are due from the trust referred to below,

(2) the Company's obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust,

53

(3) the rights, powers, trusts, duties and immunities of the Trustee, and the Company's obligations in connection therewith and

(4) the Legal Defeasance provisions of the Indenture.

In addition, the Company may, at its option and at any time, elect to have the obligations of the Company released with respect to certain covenants that are described in the Indenture ("Covenant Defeasance") and thereafter any omission to comply with such obligations shall not constitute a Default or Event of Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events (not including non-payment and bankruptcy, receivership, rehabilitation and insolvency events with respect to the Company) described under "--Events of Default and Remedies" will no longer constitute an Event of Default with respect to the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

(1) the Company must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the Notes, cash in United States dollars, noncallable Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of, premium, if any, and interest on the outstanding Notes on the stated maturity or on the applicable redemption date, as the case may be, and the Company must specify whether the Notes are being defeased to maturity or to a particular redemption date;

(2) in the case of Legal Defeasance, the Company shall have delivered to the Trustee an opinion of counsel in the United States reasonably acceptable to the Trustee confirming that (A) the Company has received from, or there has been published by, the Internal Revenue Service a ruling or (B) since the date of the Indenture, there has been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such opinion of counsel shall confirm that, the Holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, the Company shall have delivered to the Trustee an opinion of counsel in the United States reasonably acceptable to the Trustee confirming that the Holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Covenant Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default or Event of Default shall have occurred and be continuing on the date of such deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit) or

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

insofar as Events of Default from bankruptcy or insolvency events with respect to the Company are concerned, at any time in the period ending on the 91st day after the date of deposit;

(5) such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under any material agreement or instrument (other than the Indenture) to which the Company or any of its Restricted Subsidiaries is a party or by which the Company or any of its Restricted Subsidiaries is bound;

(6) the Company must have delivered to the Trustee an opinion of counsel to the effect that after the 91st day following the deposit, the trust funds, will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally;

(7) the Company must deliver to the Trustee an Officers' Certificate stating that the deposit was not made by the Company with the intent of preferring the Holders of Notes over the other creditors of the Company with the intent of defeating, hindering, delaying or defrauding creditors of the Company or others; and

54

(8) the Company must deliver to the Trustee an Officers' Certificate and an opinion of counsel, each stating that all conditions precedent provided for relating to Legal Defeasance or the Covenant Defeasance have been complied with.

Transfer and Exchange

A Holder may transfer or exchange Notes in accordance with the Indenture. The Registrar and the Trustee may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and the Company may require a Holder to pay any taxes and fees required by law. The Company is not required to transfer or exchange any Note selected for redemption. Also, the Company is not required to transfer or exchange any Note for a period of 15 days before a selection of Notes to be redeemed.

The registered Holder of a Note will be treated as the owner of it for all purposes.

Amendment, Supplement and Waiver

Except as provided in the next two succeeding paragraphs, the Indenture or the Notes may be amended or supplemented with the consent of the Holders of at least 51% of the aggregate principal amount of the Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes), and any existing default or compliance with any provision of the Indenture or the Notes may be waived with the consent of the Holders of at least 51% of the principal amount of the then outstanding Notes (including consents obtained in connection with a tender offer or exchange offer for Notes).

Without the consent of each Holder affected, an amendment or waiver may not (with respect to any Notes held by a non-consenting Holder):

(1) reduce the principal amount of Notes whose Holders must consent to an amendment, supplement or waiver,

(2) reduce the principal of or change the fixed maturity of any Note or

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

alter the provisions with respect to the redemption of the Notes (specifically excluding the provisions relating to the covenants described above under the caption "Purchase at the Option of Holders"),

(3) reduce the rate of or change the time for payment of interest on any Note,

(4) waive a Default or Event of Default in the payment of principal of or premium, if any, or interest on the Notes (except a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of the Notes and a waiver of the payment default that resulted from such acceleration),

(5) make any Note payable in money other than that stated in the Notes,

(6) make any change in the provisions of the Indenture relating to waivers of past Defaults or the rights of Holders of Notes to receive payments of principal of or premium, if any, or interest on the Notes,

(7) waive a redemption payment with respect to any Note (specifically excluding the payment required by one of the covenants described above under the caption "Purchase at the Option of Holders"),

(8) except as provided under the caption "Legal Defeasance and Covenant Defeasance" or in accordance with the terms of any Subsidiary Guarantee, release a Subsidiary Guarantor from its obligations under its Subsidiary Guarantee or make any change in a Subsidiary Guarantee that would adversely affect the Holders of the Notes,

(9) provide for contractual subordination of the Notes or

(10) make any change in the foregoing amendment and waiver provisions.

55

Notwithstanding the foregoing, without the consent of any Holder of Notes, the Company and the Trustee may amend or supplement the Indenture or the Notes to cure any ambiguity, defect or inconsistency, to provide for uncertificated Notes in addition to or in place of certificated Notes, to provide for the assumption of the Company's obligations to Holders of Notes in the case of a merger or consolidation, to make any change that would provide any additional rights or benefits to the Holders of Notes or that does not adversely affect the legal rights under the Indenture of any such Holder, or to comply with requirements of the Commission in order to effect or maintain the qualification of the Indenture under the Trust Indenture Act.

Concerning the Trustee

The Indenture contains certain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the Commission for permission to continue or resign.

The Holders of a majority in principal amount of the then outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. The Indenture provides that in case an Event of Default shall occur (which shall not be cured), the Trustee will be required, in the

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

exercise of its power, to use the decree of care of a prudent man in the conduct of his own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder of Notes, unless such Holder shall have offered to the Trustee security and indemnity satisfactory to it against any loss, liability or expense.

Book-Entry, Delivery and Form

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

The Old Notes were offered and sold to qualified institutional buyers ("Qualified Institutional Buyers") in reliance on Rule 144A and, to certain non-U.S. holders, in reliance on Regulation S under the Securities Act.

68

The Notes are represented by one or more permanent global notes in registered, global form without interest coupons (collectively, the "Rule 144A Global Note"). The Rule 144A Global Note was initially deposited upon issuance with the trustee as custodian for the Depository Trust Company (the "DTC") in New York, New York, and registered in the name of the DTC or its nominee, in each case for credit to an account of a direct or indirect participant as described below.

The Notes sold in offshore transactions in reliance on Regulation S under the Securities Act are represented by one or more permanent global notes in registered, global form without interest coupons (collectively, the "Regulation S Global Note", the Regulation S Global Note and the Rule 144A Global Note, collectively being called the "Global Notes"). The Regulation S Global Note is registered in the name of the DTC or its nominee for credit to the subscribers' respective accounts at the Euroclear System and Cedel Bank. Prior to the 40th day after the closing date of the offering of the Old Notes (such period through and including such 40th day being the "Distribution Compliance Period"), beneficial interest in the Regulation S Global Note could be held only through Euroclear or CEDEL. Beneficial interests in the Rule 144A Global Note may not be exchanged for beneficial interests in the Regulation S Global Note at any time except in the limited circumstances described below.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for notes in certificated form except in the limited circumstances described below. See "--Exchange of Global Notes for Certificated Notes."

The Global Notes (including beneficial interests therein) are subject to certain restrictions on transfer and bear a restrictive legend as described under "Notice to Investors." In addition, transfer of beneficial interests in the Global Notes are subject to the applicable rules and procedures of the Depository and its direct or indirect participants (including, if applicable, those of Euroclear and CEDEL), which may change from time to time.

Upon the transfer of certificated notes in physical form, if any, to a Qualified Institutional Buyer or in accordance with Regulation S, such certificated notes will, unless the relevant Global Note has previously been exchanged in whole for certificated notes, be exchanged for an interest in a Global Note. See "Notice to Investors."

Depository Procedures

The following description of the operations and procedures of DTC, Euroclear and Clearstream are provided solely as a matter of convenience. These operations and procedures are solely within the control of those respective settlement systems and are subject to changes by them. We take no responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised us that it is a limited-purpose trust company created to hold securities for its participating organizations (collectively, the "Participants") and to facilitate the clearance and settlement of transactions in those securities between Participants through electronic book-entry changes

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

in accounts of its Participants. The Participants include securities brokers and dealers (including the initial purchasers), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the "Indirect Participants"). Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised us that, pursuant to procedures established by it:

69

(1) upon deposit of the Global Notes, DTC will credit the accounts of Participants designated by the initial purchasers with portions of the principal amount of the Global Notes; and

(2) ownership of these interests in the Global Notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interests in the Global Notes).

Investors in the Rule 144A Global Notes who are Participants in DTC's system may hold their interests therein directly through DTC. Investors in the Rule 144A Global Notes who are not Participants may hold their interests in the Rule 144A Global Notes indirectly through organizations (including Euroclear and Clearstream) which are Participants in that system. Investors in the Regulation S Global Notes must initially hold their interests in the Regulation S Global Notes through Euroclear or Clearstream, if they are participants in those systems, or indirectly through organizations that are participants in those systems. After the expiration of the Distribution Compliance Period (but not earlier), investors may also hold interests in the Regulation S Global Notes through Participants in DTC's system other than Euroclear and Clearstream. Euroclear and Clearstream will hold interests in the Regulation S Global Notes on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositories, which are Morgan Guaranty Trust Company of New York, Brussels office, as operator of Euroclear, and Citibank, N.A., as, operator of Clearstream. All interests in a Global Note, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of those systems. The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to those persons will be limited to that extent. Because DTC can act only on behalf of Participants, which in turn act on behalf of Indirect Participants, the ability of a person having beneficial interests in a Global Note to pledge those interests to persons that do not participate in DTC's system, or otherwise take actions in respect of those interests, may be affected by the lack of a physical certificate evidencing those interests.

Except as described below under the caption "--Exchange of Global Notes for Certificated Notes," owners of interests in the Global Notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or "holders" thereof under the Indenture of any purpose.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

Payments in respect of the principal of, and interest and premium and liquidated damages, if any, on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the Indenture. Under the terms of the Indenture, DTC, the trustee and us will treat the persons in whose names the notes, including the Global Notes, are registered as the owners of the notes for the purpose of receiving payments and for all other purposes. Consequently, neither we, the trustee nor any agent of us or the trustee has or will have any responsibility or liability for:

(1) any aspect of DTC's records or any Participant's or Indirect Participant's records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in the Global Notes; or

(2) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date unless DTC has reason to believe it will not receive payment on that payment date. Each relevant Participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by the

70

Participants and the Indirect Participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the trustee or us. Neither we nor the trustee will be liable for any delay by DTC or any of its Participants in identifying the beneficial owners of the notes, and we and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Subject to the transfer restrictions set forth under "Notice to Investors," transfers between Participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds, and transfers between participants in Euroclear and Clearstream will be effected in accordance with their respective rules and operating procedures.

Subject to compliance with the transfer restrictions applicable to the notes described herein, cross-market transfers between the Participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository. These cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in that system in accordance with the rules and procedures and within the established deadlines (Brussels time) of that system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interest in the relevant Global Note in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

DTC has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of the portion of the aggregate principal amount of the notes as to which the Participant or Participants has or have given direction. However, if there is an Event of Default under the notes, DTC reserves the right to exchange the Global Notes for legended notes in certificated form, and to distribute those notes to its Participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the Rule 144A Global Notes and the Regulation S Global Notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform these procedures, and may discontinue these procedures at any time. Neither we nor the trustee nor any of our or their respective agents will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Global Notes for Certificated Notes

A Global Note is exchangeable for definitive notes in registered certificated form ("Certificated Notes") if:

- (1) DTC (a) notifies us that it is unwilling or unable to continue as depository for the Global Notes and we fail to appoint a successor depository or (b) has ceased to be a clearing agency registered under the Exchange Act;
- (2) we, at our option, notify the trustee in writing that we elect to cause the issuance of the Certificated Notes; or
- (3) there shall have occurred and be continuing a Default or Event of Default with respect to, the notes.

71

In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes upon prior written notice given to the trustee by or on behalf of DTC in accordance with the Indenture. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests in a Global Note will be registered in the names, and issued in any approved denominations, requested by or on behalf of DTC (in accordance with its customary procedures) and will bear the applicable restrictive legend referred to in "Notice to Investors," unless that legend is not required by applicable law.

Exchange of Certificated Notes for Global Notes

Certificated Notes may not be exchanged for beneficial interests in any Global Note unless the transferor first delivers to the trustee a written certificate (in the form provided in the Indenture) to the effect that the transfer will comply with the appropriate transfer restrictions applicable to those notes. See "Notice to Investors."

Exchanges Between Regulation S Notes and Rule 144A Notes

Prior to the expiration of the Distribution Compliance Period, beneficial interests in the Regulation S Global Note may be exchanged for beneficial interests in the Rule 144A Global Note only if:

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

(1) the exchange occurs in connection with a transfer of the notes pursuant to Rule 144A; and

(2) the transferor first delivers to the trustee a written certificate (in the form provided in the Indenture) to the effect that the notes are transferred to a person:

(a) who the transferor reasonably believes to be a qualified institutional buyer within the meaning of Rule 144A;

(b) purchasing for its own account or the account of a qualified institutional buyer in a transaction meeting the requirements of Rule 144A; and

(c) in accordance with all applicable securities laws of the states of the United States and other jurisdictions.

Beneficial Interests in a Rule 144A Global Note may be transferred to a person who takes delivery in the form of an interest in the Regulation S Global Note, whether before or after the expiration of the Distribution Compliance Period, only if the transferor first delivers to the trustee a written certificate (in the form provided in the Indenture) to the effect that the transfer is being made in accordance with Rule 903 or 904 of Regulation S or Rule 144 (if available) and that, if the transfer occurs prior to the expiration of the Distribution Compliance Period, the interest transferred will be held immediately thereafter through Euroclear or Clearstream.

Transfers involving exchanges of beneficial interests between the Regulation S Global Notes and the Rule 144A Global Notes will be effected in DTC by an instruction originated by the trustee through DTC's Deposit/Withdraw at Custodian system. Accordingly, in connection with any such transfer, appropriate adjustments will be made to reflect a decrease in the principal amount of the Regulation S Global Note and a corresponding increase in the principal amount of the Rule 144A Global Note or vice versa, as applicable. Any beneficial interest in one of the Global Notes that is transferred to a person who takes delivery in the form of an interest in the other Global Note will, upon transfer, cease to be an interest in the first Global Note and will become an interest in the other Global Note. Accordingly, that transferred interest will thereafter be subject to all transfer restrictions and other procedures applicable to a beneficial interest in the other Global Note for so long as it remains an interest in the other Global Note. The policies and practices of DTC may prohibit transfers of beneficial interests in the Regulation S Global Note prior to the expiration of the Distribution Compliance Period.

72

Same Day Settlement and Payment

We will make payments in respect of the notes represented by the Global Notes (including principal, premium, if any, interest and liquidated damages, if any) by wire transfer of immediately available funds to the accounts specified by the Global Note holder. We will make all payments of principal, interest and premium and liquidated damages, if any, with respect to Certificated Notes by wire transfer of immediately available funds to the accounts specified by the holders of those notes. If no account is specified by a holder, we will mail a check to that holder's registered address. The notes represented by the Global Notes are expected to be eligible to trade in the PORTAL market and to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in the notes will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any Certificated Notes will also be settled in immediately

available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a Participant in DTC will be credited, and that crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a Participant in DTC will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following summary describes the material U.S. federal income tax consequences and, in the case of non-U.S. holders, U.S. federal estate tax consequences, of the acquisition, ownership and disposition of the notes by investors that acquire the notes from the initial purchasers in this offering at a cash purchase price equal to the "issue price" of the notes. The issue price is the first price at which a substantial amount of the notes is sold other than to bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers.

This summary does not discuss all of the aspects of U.S. federal income and estate taxation which may be relevant to investors in light of their particular investment or other circumstances. In addition, this summary does not discuss any U.S. state or local income or foreign income or other tax consequences. This summary is based upon the provisions of the Internal Revenue Code of 1986, Treasury regulations, rulings and judicial decisions, all as in effect as of the date of this prospectus and all of which are subject to change or differing interpretation, possibly with retroactive effect. The discussion below deals only with the notes held as capital assets within the meaning of the Internal Revenue Code of 1986, and does not address purchasers of the notes that may be subject to special rules. Purchasers that may be subject to special rules include:

- . some U.S. expatriates;
- . financial institutions;
- . corporations that accumulate earnings to avoid U.S. federal income tax;
- . persons liable for alternative minimum tax;
- . controlled foreign corporations, passive foreign investment companies or foreign personal holding companies;
- . insurance companies;
- . tax-exempt entities;
- . dealers in securities or currencies;
- . certain traders in securities;
- . holders whose functional currency is not the U.S. dollar;

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

- . persons that acquire the notes for a price other than their issue price; and
- . persons that hold the notes as part of a straddle, hedge, constructive sale, conversion or other integrated transaction.

If a partnership holds notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding the notes, you should consult your tax advisor.

You should consult your own tax advisor regarding the particular U.S. federal, state and local and foreign income and other tax consequences of acquiring, owning and disposing of the notes that may be applicable to you.

U.S. Federal Income Tax Consequences to U.S. Holders

For purposes of the following discussion, a "U.S. holder" is a beneficial owner of a note that is, for U.S. federal income tax purposes:

- . an individual citizen or resident of the United States;

74

- . a corporation or partnership created or organized in or under the laws of the United States or any of its political subdivisions;
- . an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- . a trust (i) that is subject to the supervision of a court within the United States and the control of one or more U.S. persons as described in section 7701 (a) (30) of the Internal Revenue Code of 1986; or (ii) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person.

Interest

It is expected that the notes will not be issued with original issue discount. In such case, in general, interest on a note will be taxable to a U.S. holder as ordinary interest income at the time it is received or accrued in accordance with the U.S. holder's regular method of accounting for U.S. federal income tax purposes.

Dispositions

Upon the sale, exchange, retirement, redemption or other taxable disposition of a note, a U.S. holder generally will recognize taxable gain or loss in an amount equal to the difference, if any, between the amount realized on the disposition and the U.S. holder's tax basis in the note. The amount realized on the disposition of the note will not include any amount received that is attributable to accrued but unpaid interest, which will be taxable in the manner described above under "Interest" if not previously included in income. A U.S. holder's tax basis in a note generally will equal the U.S. holder's cost of the note. Gain or loss recognized by a U.S. holder on the taxable disposition of a note generally will be capital gain or loss. The capital gain or loss will be long-term capital gain or loss if the note has been held for more than one year at the time of the disposition. Long-term capital gain recognized by a non-corporate U.S. holder generally will be subject to a maximum tax rate of 20%. The deduction of capital losses is subject to

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

limitations.

Information Reporting and Backup Withholding

In general, information reporting requirements will apply:

- . to payments of principal and interest made on a note; and
- . to payment of the proceeds of a sale or exchange of a note before maturity,

that are made to a non-corporate U.S. holder. A "backup withholding" tax of 31% will apply to such payments if the holder fails to provide a correct taxpayer identification number or otherwise comply with applicable requirements of the backup withholding rules. The backup withholding tax is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a U.S. holder will be allowed as a credit against the holder's U.S. federal income tax liability and may entitle such holder to a refund of such withheld amounts, provided the required information is furnished to the Internal Revenue Service.

U.S. Federal Income and Estate Tax Consequences to Non-U.S. Holders

For the purposes of the following discussion, a "non-U.S. holder" is a beneficial owner of a note that is not a U.S. holder.

Under present U.S. federal income and estate tax law and subject to the discussion of backup withholding below:

(a) payments of principal and interest on a note by us or any of our paying agents to a non-U.S. holder will not be subject to withholding of U.S. federal income tax, provided that:

75

- . the non-U.S. holder does not actually or constructively own ten percent or more of the total combined voting power of all classes of our voting stock within the meaning of section 871(h)(3) of the Internal Revenue Code of 1986 and the Treasury regulations thereunder;
- . the non-U.S. holder is not (1) a controlled foreign corporation that is related, directly or indirectly, to us through sufficient stock ownership, or (2) a bank whose receipt of interest on a note is described in Section 881(c)(3)(A) of the Internal Revenue Code of 1986; and
- . either (1) the beneficial owner of the note provides its name and address and certifies to us or our paying agent, under penalties of perjury, that it is not a "United States person" within the meaning of the Internal Revenue Code of 1986 (which certification may be made on an Internal Revenue Service ("IRS") Form W-8 (or successor form)) or (2) a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business and holds the note on behalf of the beneficial owner certifies to us or our paying agent under penalties of perjury that it, or the financial institution between it and the beneficial owner, has received such statement and provides the payor with a copy of this statement.

The certification requirement referred to above may also be satisfied

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

with other documentary evidence for interest paid with respect to an offshore account or through certain foreign intermediaries;

(b) a non-U.S. holder will not be subject to U.S. federal income tax on any gain or income realized on the sale, exchange, redemption, retirement at maturity or other disposition of a note (provided that, in the case of proceeds representing accrued but unpaid interest not previously included in income, the conditions described in paragraph (a) above are met) unless:

- . in the case of gain, the non-U.S. holder is an individual who is present in the United States for 183 days or more during the taxable year of such sale, exchange, redemption, retirement at maturity or other disposition and specific other conditions are met; or
- . such gain or income is effectively connected with the conduct of a U.S. trade or business by the non-U.S. holder, or, if an income tax treaty applies, is generally attributable to a U.S. "permanent establishment" maintained by the non-U.S. holder; or
- . the non-U.S. holder is subject to provisions of U.S. tax law applicable to certain U.S. expatriates; and

(c) a note held by an individual who at the time of death is not a citizen or resident of the United States, as specifically defined for U.S. federal estate tax purposes, will not be subject to U.S. federal estate tax as a result of death if, at the time of death:

- . the individual did not actually or constructively own ten percent or more of the total combined voting power of all classes of our stock entitled to vote within the meaning of section 871(h)(3) of the Internal Revenue Code of 1986 and the Treasury regulations thereunder; and
- . the interest payments with respect to such note would not have been, if received at the time of such individual's death, effectively connected with the conduct of a trade or business by the individual in the United States.

As more fully described under "Description of the notes--Registration Rights; Liquidated Damages," upon the occurrence of certain enumerated events we may be required to pay liquidated damages to you. It is possible that such payments might be subject to U.S. federal withholding tax.

If a non-U.S. holder cannot satisfy the conditions described in (a) above, payments of interest made to such non-U.S. holder will be subject to a 30% U.S. federal withholding tax, unless such non-U.S. holder provides us with a properly executed (1) IRS Form W-8BEN (or successor form) claiming an exemption from or reduction in withholding under the benefit of an applicable tax treaty or (2) IRS Form W-8ECI (or successor

form) stating that interest paid on a note is not subject to withholding tax because it is effectively connected with the conduct of a trade or business in the United States.

If a non-U.S. holder is engaged in a trade or business in the United States and interest on, or gain with respect to, the note is effectively connected with the conduct of this trade or business or, if an income tax treaty applies, and the non-U.S. holder maintains a U.S. "permanent establishment" to which the interest or such gain is generally attributable, the non-U.S. holder, although

Edgar Filing: SBA COMMUNICATIONS CORP - Form 424B3

exempt from the withholding tax on interest discussed in the preceding paragraph, will be subject to U.S. federal income tax on the interest and the gain on a net income basis in the same manner as if it were a U.S. holder. If said non-U.S. holder is a foreign corporation, it may be subject to a branch profits tax equal to 30%, or lesser rate under an applicable tax treaty, of its effectively connected earnings and profits for the taxable year, subject to certain adjustments. For this purpose, interest on a note or gain recognized on the disposition of a note will be included in earnings and profits if the interest or gain is effectively connected with the conduct by the foreign corporation of a trade or business in the United States.

In general, backup withholding and information reporting will not apply to payments made by us or our paying agents, in their capacities as such, to a non-U.S. holder of a note if the holder has provided the required certification that it is not a United States person as set forth in paragraph (a) above, provided that neither we nor our paying agent has actual knowledge that the holder is a United States person. Payments of the proceeds from a disposition by a non-U.S. holder of a note made to or through a foreign office of a broker will generally not be subject to information reporting or backup withholding. However, information reporting will apply to those payments if the broker is:

- . a United States person;
- . a controlled foreign corporation for U.S. federal income tax purposes;
- . a foreign person 50% or more of whose gross income from all sources is effectively connected with a U.S. trade or business for a specified three-year period; or
- . a foreign partnership, if at any time during its tax year, one or more of its partners are U.S. persons, as defined in Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership or if, at any time during its tax year, the foreign partnership is engaged in a U.S. trade or business,

unless (1) such broker has documentary evidence in its records that the beneficial owner is not a United States person and certain other conditions are met or (2) the beneficial owner otherwise establishes an exemption.

Payments of the proceeds from a disposition by a non-U.S. holder of a note made to or through the U.S. office of a broker is subject to information reporting and backup withholding unless the statement described in (a) above has been received (and the payor does not have actual knowledge that the beneficial owner is a United States person) or the holder or beneficial owner otherwise establishes an exemption from information reporting and backup withholding.

You should consult your own tax advisor regarding application of backup withholding and information reporting in your particular circumstance and the availability of and procedure for obtaining an exemption therefrom. The backup withholding tax is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder will be allowed as a credit against the holder's U.S. federal income tax liability and may entitle such holder to a refund of such withheld amounts, provided the required information is furnished to the Internal Revenue Service.
