 - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Item 8.01. Other Events.

See MANAGEMENT'S DISCUSSION AND ANALYSIS FUTURE EARNINGS POTENTIAL Construction Projects Nuclear of The Southern Company (Southern Company) in Item 7 of the Annual Report on Form 10-K for the fiscal year ended December 31, 2007 for information regarding the potential expansion of Plant Vogtle.

In August 2006, Southern Nuclear Operating Company, Inc. (Southern Nuclear), on behalf of Georgia Power Company (Georgia Power), Oglethorpe Power Corporation, Municipal Electric Authority of Georgia and The City of Dalton, Georgia, an incorporated municipality in the State of Georgia acting by and through its Board of Water, Light and Sinking Fund Commissioners (collectively, Owners), filed an application with the Nuclear Regulatory Commission (NRC) for an early site permit approving two additional nuclear units on the site of the Alvin W. Vogtle Electric Generating Plant. In March 2008, Southern Nuclear filed an application with the NRC for a combined construction and operating license (COL) for these two new units at the site.

On April 8, 2008, Georgia Power, acting for itself and as agent for the Owners, and a consortium consisting of Westinghouse Electric Company LLC (Westinghouse) and Stone & Webster, Inc. (Stone & Webster) (collectively, Consortium) entered into an engineering, procurement and construction agreement to design, engineer, procure, construct and test two AP1000 nuclear units with electric generating capacity of approximately 1,100 megawatts each and related facilities, structures and improvements at Plant Vogtle (Vogtle 3 and 4 Agreement).

The Vogtle 3 and 4 Agreement is an arrangement whereby the Consortium supplies and constructs the entire facility with the exception of certain items provided by the Owners. Under the terms of the Vogtle 3 and 4 Agreement, the Owners will pay a purchase price that will be subject to certain price escalation and adjustments, adjustments for change orders and performance bonuses. Each Owner is severally (and not jointly) liable for its proportionate share, based on its ownership interest, of all amounts owed to the Consortium under the Vogtle 3 and 4 Agreement. Georgia Power's proportionate share, based on its current ownership interest, is approximately 45.7%. Under the terms of a separate joint development agreement, the Owners must finalize their ownership percentages by July 1, 2008 except for allowed changes, under certain limited circumstances, during the Georgia Public Service Commission (PSC) certification process.

Georgia Power expects to submit the Vogtle 3 and 4 Agreement to the Georgia PSC in May 2008 as a self-build option in connection with its 2016-2017 capacity request for proposal. Through an Independent Evaluator, the Georgia PSC will review the Vogtle 3 and 4 Agreement and competing base load generation bids. Georgia Power will select a preferred resource, which will be submitted to the Georgia PSC in August 2008 for approval, with a final certification decision expected in March 2009. If selected by Georgia Power and certified by the Georgia PSC, Vogtle Units 3 and 4 are scheduled to be placed in service in 2016 and 2017, respectively. The total plant value to be placed in service would be material and will include the costs under the Vogtle 3 and 4 Agreement, as well as financing, transmission and other costs that are the responsibility of the Owners.

The Owners and the Consortium have agreed to certain liquidated damages upon the Consortium's failure to comply with the schedule and performance guarantees. The Owners and the Consortium also have agreed to certain bonuses payable to the Consortium for early completion and unit performance. The Consortium's liability to the Owners for schedule and performance liquidated damages and warranty claims is subject to a cap.

The obligations of Westinghouse and Stone & Webster under the Vogtle 3 and 4 Agreement are guaranteed by Toshiba Corporation and The Shaw Group, Inc., respectively. In the event of certain credit rating downgrades of any Owner, such Owner will be required to provide a letter of credit or other credit enhancement.

The Vogtle 3 and 4 Agreement is subject to certification by the Georgia PSC. In addition, the Owners may terminate the Vogtle 3 and 4 Agreement at any time for their convenience, provided that the Owners will be required to pay certain termination costs and, at certain stages of the work, cancellation fees to the Consortium. The Consortium may terminate the Vogtle 3 and 4 Agreement under certain circumstances, including delays in receipt of the COL or delivery of full notice to proceed, certain Owner suspension or delays of work, action by a governmental authority to permanently stop work, certain breaches of the Vogtle 3 and 4 Agreement by the Owners, Owner insolvency and certain other events.

See MANAGEMENT'S DISCUSSION AND ANALYSIS FINANCIAL CONDITION AND LIQUIDITY Capital Requirements and Contractual Obligations of Southern Company in Item 7 and Note 7 to the financial statements of Southern Company under Construction Program in Item 8 of the Annual Report on Form 10-K for the fiscal year ended December 31, 2007. In connection with Georgia Power's entering into the Vogtle 3 and 4 Agreement, the revised estimated total construction program for Southern Company is \$4.4 billion in 2008, \$5.2 billion in 2009 and \$4.8 billion in 2010.

Cautionary Note Regarding Forward-Looking Statements:

Certain information contained in this Current Report on Form 8-K is forward-looking information based on current expectations and plans that involve risks and uncertainties. Forward-looking information includes, among other things, statements concerning the timing of various regulatory and other actions, plans for new generation resources for Georgia Power and projected construction budgets for Southern Company. Southern Company cautions that there are certain factors that can cause actual results to differ materially from the forward-looking information that has been provided. The reader is cautioned not to put undue reliance on this forward-looking information, which is not a guarantee of future performance and is subject to a number of uncertainties and other factors, many of which are outside the control of Southern Company; accordingly, there can be no assurance that such suggested results will be realized. The following factors, in addition to those discussed in the Annual Report on Form 10-K for the fiscal year ended December 31, 2007 of Southern Company, and subsequent securities filings, could cause results to differ materially from management expectations as suggested by such forward-looking information: the impact of recent and future federal and state regulatory change, including legislative and regulatory initiatives regarding deregulation and restructuring of the
