Form 10-Q
November 09, 2018
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, DC 20549

Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

OR
TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-36583

ENERGY FOCUS, INC.

(Exact name of registrant as specified in its charter)

Delaware

94-3021850

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

32000 Aurora Road, Suite B, Solon, OH

(Address of principal executive offices)

44139

(Zip Code)

(Registrant's telephone number, including area code): (440) 715-1300

None

(Former Name, Former Address and Former Fiscal Year, If Changed Since Last Report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer", and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (do not check if a smaller reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
No

The number of outstanding shares of the registrant's Common Stock, \$0.0001 par value, as of November 2, 2018 was 12,074,521.

PART I - FINANCIAL INFORMATION

Forward-looking statements

Unless the context otherwise requires, all references to “Energy Focus,” “we,” “us,” “our,” “our company,” or “the Company” to Energy Focus, Inc., a Delaware corporation, and its subsidiary, and their respective predecessor entities for the applicable periods, considered as a single enterprise.

This Quarterly Report on Form 10-Q (“Quarterly Report”) includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and therefore are, or may be deemed to be, “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms “believes,” “estimates,” “anticipates,” “expects,” “feels,” “seeks,” “forecasts,” “projects,” “intends,” “plans,” “may,” “will,” “should,” “could” or “would” and their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this Quarterly Report and include statements regarding our intentions, beliefs, or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, strategies, capital expenditures, and the industry in which we operate.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and industry developments may differ materially from statements made in or suggested by the forward-looking statements contained in this Quarterly Report. In addition, even if our results of operations, financial condition and liquidity, and industry developments are consistent with the forward-looking statements contained in this Quarterly Report, those results or developments may not be indicative of results or developments in subsequent periods.

We believe that important factors that could cause our actual results to differ materially from forward-looking statements include, but are not limited to, the risks and uncertainties outlined under “Risk Factors” under Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2017 and Part II, Item 1A of this Quarterly Report and other matters described in this Quarterly Report generally. Some of these factors include:

- our history of operating losses and our ability to generate sufficient cash from operations and receive sufficient financing, on acceptable terms to continue our operations;
- our reliance on a limited number of customers, in particular our historical sales of products for the U.S. Navy, for a significant portion of our revenue, and our ability to maintain or grow such sales levels;
- the entrance of new competitors in our target markets;
- general economic conditions in the United States and in other markets in which we operate or secure products;
- our ability to implement and manage our growth plans to increase sales and control expenses;
- our ability to increase demand in our targeted markets and to manage sales cycles that are difficult to predict and may span several quarters;
- the timing of large customer orders and significant expenses, and fluctuations between demand and capacity, as we invest in growth opportunities;
- our dependence on military maritime customers and on the levels of government funding available to such customers, as well as the funding resources of our other customers in the public sector and commercial markets;
- market acceptance of LED lighting technology;
- our ability to respond to new lighting technologies and market trends, and fulfill our warranty obligations with safe and reliable products;

- any delays we may encounter in making new products available or fulfilling customer specifications;
- our ability to compete effectively against companies with greater resources, lower cost structures, or more rapid development efforts;
- our ability to protect our intellectual property rights and other confidential information, and manage infringement claims by others;
- the impact of any type of legal inquiry, claim, or dispute;

our reliance on a limited number of third-party suppliers, our ability to obtain critical components and finished products from such suppliers on acceptable terms, and the impact of our fluctuating demand on the stability of such suppliers;

our ability to timely and efficiently transport products from our third-party suppliers to our facility by ocean marine channels;

- our ability to successfully scale our network of sales representatives, agents, and distributors to match the sales reach of larger, established competitors;

any flaws or defects in our products or in the manner in which they are used or installed;

our compliance with government contracting laws and regulations, through both direct and indirect sale channels, as well as other laws, such as those relating to the environment and health and safety;

risks inherent in international markets, such as economic and political uncertainty, changing regulatory and tax

requirements and currency fluctuations, including tariffs and other potential barriers to international trade;

our ability to attract and retain qualified personnel, and to do so in a timely manner; and

our ability to maintain effective internal controls and otherwise comply with our obligations as a public company and under Nasdaq listing standards.

In light of the foregoing, we caution you not to place undue reliance on our forward-looking statements. Any forward-looking statement that we make in this Quarterly Report speaks only as of the date of such statement, and we undertake no obligation to update any forward-looking statement or to publicly announce the results of any revision to any of those statements to reflect future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless specifically expressed as such, and should only be viewed as historical data.

Energy Focus® is our registered trademark. We may also refer to trademarks of other corporations and organizations in this document.

ENERGY FOCUS, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

NOTE 1. NATURE OF OPERATIONS

Energy Focus, Inc. and its subsidiary engage in the design, development, manufacturing, marketing, and sale of energy-efficient lighting systems. We operate in a single industry segment, developing and selling our energy-efficient light-emitting diode (“LED”) lighting products into the general commercial, industrial and military maritime markets. Our mission is to enable our customers to run their facilities with greater energy efficiency, productivity, and wellness through advanced LED retrofit solutions. Our goal is to be the retrofit technology and market leader for the most demanding applications where performance, quality, and health really matter. We specialize in LED lighting retrofit by replacing fluorescent lamps in institutional buildings and high-intensity discharge (“HID”) lighting in low-bay and high-bay applications with our innovative, high-quality commercial and military tubular LED (“TLED”) and other LED products.

Product development is a key focus for us. Our product development teams, including our teams located in our Solon, Ohio headquarters, at our San Jose, California technology center, and at our product development center in Taipei, Taiwan, are dedicated to developing and designing leading-edge technology LED lighting products.

NOTE 2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The condensed consolidated financial statements (“financial statements”) include the accounts of the Company and its subsidiary Energy Focus Europe, Ltd. located in the United Kingdom, which is not active. Unless indicated otherwise, the information in the accompanying financial statements and Notes to the condensed consolidated financial statements relates to our continuing operations.

We have prepared the accompanying financial data for the three and nine months ended September 30, 2018 and 2017 pursuant to the rules and regulations of the United States Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) have been condensed or omitted pursuant to such rules and regulations. The accompanying financial data and information should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2017 (“2017 Annual Report”). The Condensed Consolidated Balance Sheet as of December 31, 2017 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements.

In the opinion of management, the accompanying financial statements contain all normal and recurring adjustments necessary to present fairly our Condensed Consolidated Balance Sheets as of September 30, 2018 and December 31, 2017, Condensed Consolidated Statements of Operations for the three and nine months ended September 30, 2018 and 2017, Condensed Consolidated Statements of Comprehensive Loss for the three and nine months ended September 30, 2018 and 2017, Condensed Consolidated Statements of Changes in Stockholders’ Equity for the nine months ended September 30, 2018, and Condensed Consolidated Statements of Cash Flows for the nine months ended September 30, 2018 and 2017.

Use of estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in our financial statements and accompanying notes. Management bases its estimates on historical experience and various other assumptions believed to be reasonable. Although these estimates are based on management's best knowledge of current events and actions that may impact us in the future, actual results may vary from the estimates. Estimates include, but are not limited to, the establishment of reserves for accounts receivable, sales returns, inventory obsolescence and warranty claims; the useful lives of property and equipment; valuation allowance for net deferred taxes; the cost and offsetting income related to subleased property; and stock-based compensation. In addition, estimates and

ENERGY FOCUS, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

assumptions associated with the determination of the fair value of financial instruments and evaluation of long-lived assets for impairment requires considerable judgment. Actual results could differ from those estimates and such differences could be material.

Reclassifications

Certain amounts related to warranty accruals and settlements were reclassified to conform to current period reporting presentation with no impact on financial position, loss from operations, or cash used in operations.

Certain risks and concentrations

We have certain customers whose net sales individually represented 10 percent or more of our total net sales, or whose net trade accounts receivable balance individually represented 10 percent or more of our total net trade accounts receivable, as follows:

For the three months ended September 30, 2018, sales to our primary distributor for the U.S. Navy and a regional commercial lighting retrofit company located in Texas accounted for approximately 48 percent and 15 percent of net sales, respectively. When sales to our primary distributor for the U.S. Navy are combined with sales to a shipbuilder for the U.S. Navy, sales of products for the U.S. Navy comprised approximately 53 percent of net sales for the same period. For the three months ended September 30, 2017, sales to the global healthcare system located in Northeast Ohio and a regional commercial lighting retrofit company located in Texas each individually accounted for approximately 23 percent of net sales and sales to our primary distributor for the U.S. Navy accounted for approximately 12 percent of net sales for the period. When sales to our primary distributor for the U.S. Navy are combined with sales to a shipbuilder for the U.S. Navy, sales of products for the U.S. Navy comprised approximately 20 percent of net sales.

For the nine months ended September 30, 2018, sales to our primary distributor for the U.S. Navy and a regional commercial lighting retrofit company located in Texas accounted for approximately 41 percent and 10 percent of net sales, respectively. When sales to our primary distributor for the U.S. Navy are combined with sales to a shipbuilder for the U.S. Navy, sales of products for the U.S. Navy comprised approximately 45 percent of net sales for the same period. For the nine months ended September 30, 2017, sales to a global healthcare system located in Northeast Ohio accounted for approximately 17 percent of our sales for the period. In addition, sales to our primary distributor for the U.S. Navy and a regional commercial lighting retrofit company located in Texas each individually accounted for approximately 12 percent of our net sales. When sales to our primary distributor for the U.S. Navy are combined with sales to a shipbuilder for the U.S. Navy, sales of products for the U.S. Navy comprised approximately 18 percent of net sales.

Our primary distributor for the U.S. Navy and a regional commercial lighting retrofit company located in Texas accounted for approximately 42 percent, and 14 percent of net trade accounts receivable, respectively, at September 30, 2018. At December 31, 2017, our primary distributor for the U.S. Navy, the global healthcare system located in Northeast Ohio, and a regional commercial lighting retrofit company located in Texas accounted for approximately 39 percent, 21 percent, and 17 percent of net trade accounts receivable, respectively.

Recent accounting pronouncements

In August 2018, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2018-15, Intangibles--Goodwill and Other--Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract, which aligns the requirements for capitalizing implementation costs in a cloud computing service contract with the requirements for capitalizing implementation costs incurred for an internal-use software license. This standard will be effective for interim and annual periods beginning after December 15, 2019. We do not expect the adoption of this guidance to have a significant impact on our financial position, results of operations, or cash flows.

ENERGY FOCUS, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

In July 2018, the FASB issued ASU No. 2018-11, Leases (Topic 842): Targeted Improvements, which simplifies adoption of the new lease accounting requirements by allowing an additional transition method that will not require restatement of prior periods and providing a new practical expedient for lessors to avoid separating lease and nonlease components within a contract if certain criteria are met. The provisions of this guidance must be elected upon adoption of the new lease accounting requirements, which will be effective for interim and annual periods beginning after December 15, 2018. We are currently evaluating the impact of the new lease accounting guidance, but we will apply these targeted improvements upon adoption of the new lease accounting requirements on January 1, 2019.

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, which significantly changes the accounting for credit losses on instruments within its scope. The new guidance introduces an approach based on expected losses to estimate credit losses on certain financial instruments, including trade receivables, and requires an entity to recognize an allowance based on its estimate of expected credit losses rather than incurred losses. This standard will be effective for interim and annual periods beginning after December 15, 2019, and will generally require adoption on a modified retrospective basis. We are in the process of evaluating the impact of the standard.

In February 2016, the FASB issued ASU No. 2016-02, Leases, which supersedes the current lease accounting requirements. This standard requires a lessee to record on the balance sheet the assets and liabilities for the rights and obligations created by leases with lease terms of more than 12 months. In addition, this standard requires lessees to disclose certain key information about lease transactions. Upon implementation, an entity's lease payment obligations will be recognized at their estimated present value along with a corresponding right-of-use asset. Lease expense recognition will be generally consistent with current practice. This standard will be effective for interim and annual periods beginning after December 15, 2018, and will require adoption on a modified retrospective basis. We are in the process of evaluating the impact of the standard.

Update to significant accounting policies

Revenue

On January 1, 2018, we adopted ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), as amended by subsequently issued additional guidance (together, "ASC 606") using the modified retrospective method. The adoption of ASC 606 did not have a material impact on our consolidated financial position or results of operations, as our revenue arrangements generally consist of a single performance obligation to transfer promised goods at a fixed price.

Net sales include revenues from sales of products and shipping and handling charges, net of estimates for product returns. Revenue is measured at the amount of consideration we expect to receive in exchange for the transferred products. We recognize revenue at the point in time when we transfer the promised products to the customer and the customer obtains control over the products. We recognize revenue for shipping and handling charges at the time the goods are shipped to the customer, and the costs of outbound freight are included in cost of sales, as we have elected the practical expedient included in ASC 606. We provide for product returns based on historical return rates. While we incur costs for sales commissions to our sales employees and outside agents, we recognize commission costs concurrent with the related revenue, as the amortization period is less than one year and we have elected the practical expedient included in ASC 606. We do not incur any other incremental costs to obtain contracts with our customers. Our product warranties are assurance-type warranties, which promise the customer that the products are as specified in

the contract. Therefore, the product warranties are not a separate performance obligation and are accounted for as described below. Sales taxes assessed by governmental authorities are accounted for on a net basis and are excluded from net sales.

The following table provides a disaggregation of product net sales for the periods presented:

11

ENERGY FOCUS, INC.

Military maritime	2,866	1,055	7,520	2,915
Total net sales	\$5,158	\$5,002	\$14,989	\$15,119

Accounts Receivable

Our trade accounts receivable consists of amounts billed to and currently due from customers. Credit is extended to customers based upon an evaluation of the customer's financial condition and the amounts due are stated at their estimated net realizable value. We maintain an allowance for doubtful accounts receivable to provide for the estimated amount of receivables that will not be collected. The allowance is based on an assessment of customer creditworthiness and historical payment experience, the age of outstanding receivables, and performance guarantees to the extent applicable. Past due amounts are written off when our internal collection efforts have been unsuccessful. Our standard payment terms with customers are net 30 days, and we do not generally offer extended payment terms to our customers, but exceptions are made in some cases to major customers or with particular orders. Accordingly, we do not adjust trade accounts receivable for the effects of financing, as we expect the period between the transfer of product to the customer and the receipt of payment from the customer to be in line with our standard payment terms.

There have been no other material changes to our significant accounting policies, as compared to those described in our 2017 Annual Report.

Geographic information

Approximately 97 percent of our long-lived fixed assets are located in the United States, with the remainder located in our product development center in Taiwan. Net sales attributable to customers outside the United States accounted for less than one percent and approximately one percent of our net sales for the three months ended September 30, 2018 and 2017, respectively. Net sales attributable to customers outside the United States accounted for approximately two percent and one percent of our total net sales for the nine months ended September 30, 2018 and 2017, respectively. The geographic location of our net sales is derived from the destination to which we ship the product.

Net loss per share

Basic loss per share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding during the period, excluding the effects of any potentially dilutive securities. Diluted loss per share gives effect to all dilutive potential common shares outstanding during the period. Dilutive potential common shares consist of incremental shares upon the exercise of stock options or release of restricted stock units unless the effect would be anti-dilutive.

As a result of the net loss we incurred for the three and nine months ended September 30, 2018, approximately 62 thousand and 90 thousand potentially dilutive equity awards, respectively, were excluded from the net loss per share calculation, as their inclusion would have been anti-dilutive. As a result of the net loss we incurred for the three and

nine months ended September 30, 2017, approximately 28 thousand and 72 thousand potentially dilutive equity awards, respectively, were excluded from the net loss per share calculation for this same reason. Therefore, for the three and nine months ended September 30, 2018 and 2017, the basic weighted average shares outstanding were used in calculating diluted loss per share.

ENERGY FOCUS, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

The following is a reconciliation of the numerator and denominator of the basic and diluted net loss per share computations for the periods presented below (in thousands):

	Three months ended September 30, 2018		Nine months ended September 30, 2017	
Numerator:				
Net loss	\$(1,920)	\$(1,773)	\$(6,114)	\$(9,409)
Denominator:				
Basic weighted average common shares outstanding	12,059	11,856	11,970	11,789
Potential common shares from equity awards and warrants	—	—	—	—
Diluted weighted average shares	12,059	11,856	11,970	11,789

Product warranties

Through March 31, 2016, we warranted finished goods against defects in material and workmanship under normal use and service for periods generally between one and five years. Beginning April 1, 2016, we warrant our commercial LED tubes, globes, and troffer luminaires for a period of ten years. Warranty settlement costs consist of actual amounts expensed for warranty, which are largely a result of the cost of replacement products provided to our customers. A liability for the estimated future costs under product warranties is maintained for products outstanding under warranty based on the actual claims incurred to date and the estimated nature, frequency, and costs of future claims. These estimates are inherently uncertain and changes to our historical or projected experience may cause material changes to our warranty reserves in the future. We continuously review the assumptions related to the adequacy of our warranty reserve, including product failure rates, and make adjustments to the existing warranty liability when there are changes to these estimates or the underlying replacement product costs, or the warranty period expires. Extending the warranty did not have a material impact on our condensed consolidated financial statements in 2017 or for the three and nine months ended September 30, 2018. The following table summarizes warranty activity for the periods presented (in thousands):

	Three months ended September 30, 2018		Nine months ended September 30, 2017	
Balance at beginning of period	\$196	\$179	\$174	\$331
Warranty accruals for current period sales	31	108	46	152
Adjustments to existing warranties	47	30	101	(36)
In kind settlements made during the period	(14)	(130)	(61)	(260)
Accrued warranty reserve	\$260	\$187	\$260	\$187

NOTE 3. RESTRUCTURING

During the first quarter of 2017, we announced a restructuring initiative with a goal of significantly reducing annual operating costs from 2016 levels. The initiative included an organizational consolidation of management and oversight functions in order to streamline and better align the organization into more focused, efficient, and cost effective reporting relationships, and involved headcount reductions and office closures. This initiative was designed to return the Company to profitability and mitigate the substantial doubt that existed at December 31, 2016 about our ability to continue as a going concern. For additional

ENERGY FOCUS, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

information regarding the restructuring actions taken in the 2017, please refer to Note 3., “Restructuring,” included under Item 8 of our 2017 Annual Report.

During the nine months ended September 30, 2018, we recorded net restructuring credits totaling approximately \$46 thousand, primarily related to the revision of our initial estimates of the cost for the remaining lease obligation for our former Arlington, Virginia office. Restructuring adjustments recorded during the three months ended September 30, 2018 related to the accretion of the remaining lease obligations for the former New York, New York and Arlington, Virginia offices.

For the nine months ended September 30, 2017, we recorded restructuring charges totaling approximately \$1.5 million, consisting of approximately \$0.7 million in severance and related benefits, \$0.6 million in facilities costs related to the termination of the Rochester, Minnesota lease obligation and the remaining lease obligations for the former New York and Arlington offices, and \$0.2 million in other restructuring costs primarily related to fixed asset and prepaid expenses write-offs. For the three months ended September 30, 2017, we recorded restructuring credits totaling approximately \$0.2 million, primarily related to the revision of our initial estimates of the cost and offsetting sublease income for the remaining lease obligation for the former New York office.

Our restructuring liabilities consist of one-time termination costs for severance and benefits to former employees and estimated ongoing costs related to long-term operating lease obligations. The recorded value of the termination severance and benefits to employees approximates fair value, as the remaining obligation is based on the arrangements made with the former employees, and these obligations will be completely satisfied in less than 12 months. The recorded value of the ongoing lease obligations is based on the remaining lease term and payment amount, net of estimated sublease income, discounted to present value. Changes in subsequent periods resulting from a revision to either the timing or the amount of estimated cash flows over the future period are measured using the credit adjusted, risk-free rate that was used to measure the restructuring liabilities initially. We expect to incur insignificant additional costs over the remaining life of our lease obligations, but we do not anticipate further major restructuring activities in the near future. The following is a reconciliation of the beginning and ending balances of our restructuring liability:

	Severance and Related Benefits	Facilities	Total
Balance at January 1, 2018	\$ 62	\$ 340	\$402
Accretion of lease obligations	—	6	6
Adjustment of lease obligations	—	(56)	(56)
Payments	(62)	(6)	(68)
Balance at March 31, 2018	\$ —	\$ 284	\$284
Accretion of lease obligations	—	3	3
Payments	—	(25)	(25)
Balance at June 30, 2018	\$ —	\$ 262	\$262
Accretion of lease obligations	\$ —	\$ 1	\$1
Payments	\$ —	\$ (23)	\$(23)
Balance at September 30, 2018	\$ —	\$ 240	\$240

While substantial doubt about our ability to continue as a going concern continued to exist at September 30, 2018, we had \$7.1 million in cash and no debt obligations at the end of the quarter. In addition, the restructuring actions taken in 2017 resulted in a decrease in total operating expenses, including restructuring charges, of approximately \$3.1 million in the first nine months of 2018 compared to the first nine months of 2017. As a result of our first quarter 2017 restructuring initiatives, we have reduced our operating expenses to be more commensurate with our sales volumes, however, we continue to incur losses and have a substantial accumulated deficit, raising substantial doubt about our ability to continue as a going concern at September 30, 2018.

ENERGY FOCUS, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Our plans to achieve profitably include continuing to develop new technologies into sustainable product lines that allow us to effectively compete to expand our customer base, execute our marketing and sales plans, and continue to improve our supply chain and organizational structure. The restructuring and cost cutting initiatives implemented during 2017 were designed to allow us to effectively execute this strategy; however, our efforts may not occur as quickly as we envision or be successful, due to the long sales cycle in our industry, the corresponding time required to ramp up sales from new products into this sales cycle, the timing of introductions of additional new products, significant competition, and potential volatility given our customer concentration, among other factors. As a result, we will continue to review and pursue selected external funding sources to ensure adequate financial resources to execute across the timelines required to achieve these objectives including, but not limited to, the following:

- debt financing from asset-based lenders, leveraging our available unencumbered potential collateral base;
- financing from traditional or non-traditional investment capital organizations or individuals; and
- funding from the sale of our common stock or other equity or debt instruments.

These financing alternatives involve risks, and we may not be able to obtain additional funding on acceptable terms or in a timely fashion or at all. If we fail to generate cash or receive the funding necessary to grow our business, we would need to revise our business plan which could involve further reductions in our operating costs or headcount, each of which could have a material adverse effect on our business, future prospects, and financial condition.

Considering both quantitative and qualitative information, we continue to believe that the combination of our restructuring actions, current financial position, liquid resources, plans to obtain external financing, obligations due or anticipated within the next year, executive reorganization, and implementation of our product development and sales channel strategy will provide us with an ability to finance our operations through 2019 and, if adequately executed, will mitigate the substantial doubt about our ability to continue as a going concern.

NOTE 4. INVENTORIES

Inventories are stated at the lower of standard cost (which approximates actual cost determined using the first-in, first-out cost method) or net realizable value, and consist of the following (in thousands):

	September 30, 2018	December 31, 2017
Raw materials	\$ 2,991	\$ 3,316
Finished goods	7,106	6,598
Reserves for excess, obsolete, and slow moving inventories and valuation reserves	\$ (3,663)	\$ (4,196)
Inventories, net	\$ 6,434	\$ 5,718

NOTE 5. PROPERTY AND EQUIPMENT AND ASSETS HELD FOR SALE

Property and equipment are stated at cost and depreciated using the straight-line method over the estimated useful lives of the related assets and consist of the following (in thousands):

ENERGY FOCUS, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

	September 30, 2018	December 31, 2017
Equipment (useful life 3 to 15 years)	\$ 1,531	\$ 1,557
Tooling (useful life 2 to 5 years)	371	371
Vehicles (useful life 5 years)	47	47
Furniture and fixtures (useful life 5 years)	137	137
Computer software (useful life 3 years)	1,043	1,043
Leasehold improvements (the shorter of useful life or lease life)	210	201
Projects in progress	58	55
Property and equipment at cost	3,397	3,411
Less: accumulated depreciation	(2,684) (2,314)
Property and equipment, net	\$ 713	\$ 1,097

Depreciation expense was \$0.2 million and \$0.3 million the three months ended September 30, 2018 and 2017, respectively. Depreciation expense was \$0.4 million and \$0.5 million for the nine months ended September 30, 2018 and 2017, respectively.

During the first quarter of 2018, we completed the sale of the equipment that we previously classified as held for sale. We received net proceeds from the sale of \$0.2 million and recognized a gain on the sale of approximately \$15 thousand. The gain on the sale is classified on our Condensed Consolidated Statements of Operations under the caption, "Other (income) expense."

NOTE 6. INCOME TAXES

As a result of the operating loss incurred during each of the three and nine months ended September 30, 2018 and 2017, and after the application of the annual limitation set forth under Section 382 of the Internal Revenue Code ("IRC"), it was not necessary to record a provision for U.S. federal income tax or various states income taxes.

At September 30, 2018 and December 31, 2017, we had a full valuation allowance recorded against our deferred tax assets. The valuation allowance was recorded due to uncertainties related to our ability to realize the deferred tax assets, primarily consisting of certain net operating loss carry-forwards. The valuation allowance is based on management's estimates of taxable income by jurisdiction and the periods over which the deferred tax assets will be recoverable.

At December 31, 2017, we had a net operating loss carry-forward of approximately \$91.8 million for U.S. federal, state, and local income tax purposes. However, due to changes in our capital structure, approximately \$37.3 million of the net operating loss carry-forward is available to offset future taxable income, and after the application of the limitations found under Section 382 of the IRC, we expect to have approximately \$37.3 million of this amount available for use in 2018. If not used, these carry-forwards will begin to expire in 2021 for federal and have begun to expire for state and local purposes. For a full discussion of the estimated restrictions on our utilization of net operating loss carry-forwards, please refer to Note 11, "Income Taxes," included under Item 8 of our 2017 Annual Report.

NOTE 7. STOCKHOLDERS' EQUITY

Stock-based compensation

Stock-based compensation expense is attributable to stock options and restricted stock unit awards. For all stock-based awards, we recognize expense using a straight-line amortization method.

The following table summarizes stock-based compensation expense and the impact it had on operations for the periods presented (in thousands):

16

ENERGY FOCUS, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

	Three months ended September 30, 2018		Nine months ended September 30, 2017	
Cost of sales	\$8	\$10	\$27	\$40
Product development	31	16	86	45
Selling, general, and administrative	237	166	593	540
Total stock-based compensation	\$276	\$192	\$706	\$625

The table above excludes approximately \$0.3 million in stock-based compensation expense from prior periods that was reversed and included as a reduction to restructuring expenses due to the workforce reduction associated with our restructuring actions in the first six months of 2017.

Total unearned stock-based compensation was \$1.1 million at September 30, 2018, compared to \$0.9 million at September 30, 2017. These costs will be charged to expense and amortized on a straight-line basis in future periods. The weighted average period over which the unearned compensation at September 30, 2018 is expected to be recognized is approximately 2.0 years.

Stock options

The fair value of each stock option is estimated on the date of grant using the Black-Scholes option pricing model. Estimates utilized in the calculation include the expected life of the option, risk-free interest rate, and expected volatility, and are further comparatively detailed as follows:

	Nine months ended September 30, 2018			
	2018		2017	
Fair value of options issued	\$1.41		\$2.66	
Exercise price	\$1.97		\$3.55	
Expected life of options (in years)	5.9		5.8	
Risk-free interest rate	2.6	%	2.1	%
Expected volatility	84.2	%	91.9	%
Dividend yield	0.0	%	0.0	%

September 30, 2018

(Unaudited)

A summary of option activity under all plans for the nine months ended September 30, 2018 is presented as follows:

	Number of Options	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Life (in years)
Balance at December 31, 2017	248,512	\$ 5.76	
Granted	100,746	1.97	
Exercised	—	—	
Canceled/forfeited	(43,787)	7.17	
Expired	(10,000)	20.00	
Balance at September 30, 2018	295,471	\$ 3.78	7.5
Vested and expected to vest at September 30, 2018	269,153	\$ 3.93	7.3
Exercisable at September 30, 2018	144,191	\$ 5.20	5.7

Restricted stock units

A summary of restricted stock unit activity under all plans for the nine months ended September 30, 2018 is presented as follows:

	Restricted Stock Units	Weighted Average Grant Date Fair Value	Weighted Average Remaining Contractual Life (in years)
Balance at December 31, 2017	306,142	\$ 3.37	
Granted	553,657	2.38	
Released	(213,795)	3.14	
Canceled/forfeited	(76,950)	2.99	
Balance at September 30, 2018	569,054	\$ 2.55	2.0

NOTE 8. COMMITMENTS AND CONTINGENCIES

We may be the subject of threatened or pending legal actions and contingencies in the normal course of conducting our business. We provide for costs related to these matters when a loss is probable and the amount can be reasonably estimated. The effect of the outcome of these matters on our future results of operations and liquidity cannot be predicted because any such effect depends on future results of operations and the amount or timing of the resolution of such matters. For certain types of claims, we maintain insurance coverage for personal injury and property damage, product liability and other liability coverages in amounts and with deductibles that we believe are prudent, but there can be no assurance that these coverages will be applicable or adequate to cover adverse outcomes of claims or legal

proceedings against us.

18

ENERGY FOCUS, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

As of September 30, 2018, we had approximately \$3.7 million in outstanding purchase commitments for inventory. Of this amount, approximately \$2.5 million is expected to ship in the fourth quarter of 2018 with the balance expected to ship in the first quarter of 2019.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the financial statements and related notes thereto, included under Item 1 of this Quarterly Report, as well as the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" included under Item 7 of our 2017 Annual Report.

Overview

Energy Focus, Inc. and its subsidiary engage in the design, development, manufacturing, marketing, and sale of energy-efficient lighting systems. We operate in a single industry segment, developing and selling our energy-efficient light-emitting diode ("LED") lighting products into the general commercial, industrial, and military maritime markets. Our mission is to enable our customers to run their facilities with greater energy efficiency, productivity, and wellness through advanced LED retrofit solutions. Our goal is to be the retrofit technology and market leader for the most demanding applications where performance, quality, and health really matter. We specialize in LED lighting retrofit by replacing fluorescent lamps in general purpose and high-intensity discharge ("HID") lighting in low-bay and high-bay applications with our innovative, high-quality commercial and military tubular LED ("TLED") and other LED products.

Net sales increased 3.1 percent for the three months ended September 30, 2018 as compared to the three months ended September 30, 2017, driven by a 171.7 percent increase in military maritime sales period over period. Net sales decreased by 0.9 percent for the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017. For the nine months ended September 30, 2018, net sales of our commercial products decreased by 38.8 percent, while sales to our military maritime market increased by 158.0 percent, more than doubling, compared to the nine months ended September 30, 2017. Despite the decline in our commercial sales compared to the first nine months of 2017, we continued to expand sales through the national agency channel strategy we implemented in the middle of 2017, with agency sales increasing 3.7 percent during the third quarter of 2018 compared to the second quarter of 2018. In connection with this national strategy, we continue to achieve increased penetration in the Southeast and Western regions, where the total sales for these regions increased 118.8 percent during the first nine of 2018 compared to the first nine months of 2017. The sale cycles for our commercial target markets can range from several months to over one year and our financial results reflect volatility from the continued fluctuations in the timing, pace, and size of commercial projects for a major healthcare customer. The sale cycles for the military maritime market is dependent on many factors, including the availability of government funding, the timing and fulfillment of U.S. Navy awards, new ship construction and the timing of vessel maintenance schedules.

The restructuring actions taken in 2017 resulted in a decrease in operating expenses of approximately \$3.1 million in the first nine months of 2018 over the first nine months of 2017. At September 30, 2018, we had \$7.1 million in cash and no debt. As a result of our first quarter 2017 restructuring initiatives, we have reduced our operating expenses to be more commensurate with our sales volumes, however, we continue to incur losses and have a substantial accumulated deficit, raising substantial doubt about our ability to continue as a going concern at September 30, 2018.

Our plans to achieve profitably include continuing to develop new technologies into sustainable product lines that allow us to effectively compete to expand our customer base, execute our marketing and sales plans, and continue to improve our supply chain and organizational structure. We will also continue to review and pursue selected external funding sources.

We continue to believe that the combination of our restructuring actions, current financial position, liquid resources, plans to obtain external financing, obligations due or anticipated within the next year, executive reorganization, and implementation of our product development and sales channel strategy will provide us with an ability to finance our operations through 2019 and, if adequately executed, will mitigate the substantial doubt about our ability to continue as a going concern.

Results of operations

The following table sets forth items in our Condensed Consolidated Statements of Operations as a percentage of net sales for the periods indicated:

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2018	2017	2018	2017
Net sales	100.0 %	100.0 %	100.0 %	100.0 %
Cost of sales	75.2	77.3	77.4	78.8
Gross profit	24.8	22.7	22.6	21.2
Operating expenses:				
Product development	12.4	14.6	12.9	15.0
Selling, general, and administrative	49.3	47.8	50.8	58.2
Restructuring	—	(4.0)	(0.3)	10.1
Total operating expenses	61.7	58.4	63.4	83.3
Loss from operations	(36.9)	(35.7)	(40.8)	(62.1)
Other expenses (income):				
Interest expense	—	—	—	—
Other expenses (income)	0.3	(0.3)	—	—
Loss from operations before income taxes	(37.2)	(35.4)	(40.8)	(62.1)
Provision for income taxes	—	—	—	—
Net loss	(37.2)%	(35.4)%	(40.8)%	(62.1)%

Net sales

A further breakdown of our net sales is presented in the following table (in thousands):

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2018	2017	2018	2017
Commercial products	\$2,292	\$3,947	\$7,469	\$12,204
Military maritime products	2,866	1,055	7,520	2,915
Total net sales	\$5,158	\$5,002	\$14,989	\$15,119

Net sales of \$5.2 million for the third quarter of 2018 increased 3.1 percent compared to the third quarter of 2017 driven by an increase in military maritime product sales. Net sales of our commercial products decreased 41.9 percent compared to the third quarter of 2017, reflecting fluctuations in the timing, pace, and size of commercial projects. Net sales of our military maritime products increased 171.7 percent as compared to the third quarter of 2017, primarily

due to increased sales of our military globe, flood light, fixture, and Intellitube® product lines.

Net sales of \$15.0 million for the first nine months of 2018 decreased 0.9 percent compared to the first nine months of 2017 principally due to lower commercial product sales, partially offset by an increase in military product sales. Net sales of our commercial products decreased 38.8 percent as compared to the first nine months of 2017, reflecting fluctuations in the timing, pace, and size of commercial projects for a major healthcare customer. Net sales of our military maritime products increased 158.0 percent as compared to the first nine months of 2017, primarily due to increased sales of our military globe, berth light, flood light, fixture, and Intellitube® product lines.

Gross profit

Gross profit was \$1.3 million, or 24.8 percent of net sales, for the third quarter of 2018, compared to \$1.1 million, or 22.7 percent of net sales, for the third quarter of 2017. The 2.1 basis point increase in gross margin percent in the third quarter of 2018 is primarily due to our product cost reduction initiatives, partially offset by slightly higher manufacturing variances and absorption as a percent of sales compared to the third quarter of 2017. As a result of current manufacturing and sales volumes, gross margin for the third quarter of 2018 included unfavorable manufacturing variances and absorption of \$0.3 million, or 6.2 percent of net sales, whereas gross margin for the third quarter of 2017 included unfavorable manufacturing and absorption of \$0.3 million, or 5.8 percent of net sales.

Gross profit was \$3.4 million, or 22.6 percent of net sales, for the first nine months of 2018 compared to \$3.2 million, or 21.2 percent of net sales, for the first nine months of 2017. The 1.4 basis point increase in gross profit percent in the first nine months of 2018 is primarily due to the shift in the military sales mix to higher margin products, our product cost reduction initiatives, and a higher net favorable excess inventory reserve adjustments of \$0.6 million, or 3.7 percent of net sales, for items sold during the first nine months of 2018 that were previously reserved for as excess inventory. These increases were partially offset by higher manufacturing variances and absorption as a percent of sales compared to the first nine months of 2017. As a result of current manufacturing and sales volumes, gross margin for the first nine months of 2018 included unfavorable manufacturing variances and absorption of \$0.9 million, or 5.9 percent of net sales. For the first nine months of 2017, gross margin included unfavorable manufacturing variances and absorption of \$0.7 million, or 4.9 percent of net sales, partially offset by net favorable excess inventory reserve adjustments of \$0.2 million, or 1.5 percent of net sales.

Operating expenses

Product development

Product development expenses include salaries and related expenses, contractor and consulting fees, legal fees, supplies and materials, as well as overhead, such as depreciation and facility costs. Product development costs are expensed as they are incurred.

Product development expenses were \$0.6 million for the third quarter of 2018, a \$0.1 million decrease compared to \$0.7 million for the third quarter of 2017. The decrease was primarily a result of lower product testing expenses due to the timing of new product introductions. This decrease was partially offset by higher salaries and related benefits due to staffing the San Jose Innovation Center.

Product development expenses were \$1.9 million for the first nine months of 2018, a \$0.3 million decrease compared to \$2.3 million for the first nine months of 2017. The decrease was primarily a result of lower product testing expenses and legal fees due to the timing of new product introductions and new product patent activities.

Selling, general, and administrative

Selling, general, and administrative expenses were \$2.5 million for the third quarter of 2018, compared to \$2.4 million for the third quarter of 2017. The primary driver of the increased expenses was severance and benefits as a result of the Chief Financial Officer resignation, partially offset by decreases in salaries and related benefits, consultants, and depreciation.

Selling, general, and administrative expenses were \$7.6 million for the first nine months of 2018, compared to \$8.8 million for the first nine months of 2017. The \$1.2 million decrease in selling, general, and administrative expenses is the direct result of our February 2017 restructuring initiatives to reduce operating expenses. The primary drivers of the lower expenses were decreases in salaries and related benefits of \$0.5 million, consulting expenses of \$0.3 million, trade show and other marketing expenses of \$0.2 million, travel and related expenses of \$0.2 million, and decreases of \$0.1 million in each of the following categories: network and software costs, rent expense, depreciation, and insurance. The lower expenses were partially offset by increased severance and benefits of \$0.2 million, as a result of the Chief Financial Officer resignation.

Restructuring

In the first quarter of 2017, we announced a restructuring initiative with a goal of significantly reducing annual operating costs from 2016 levels. The initiative included an organizational consolidation of management and oversight functions in order to streamline and better align the organization into more focused, efficient, and cost effective reporting relationships, and involved headcount reductions and office closures. This initiative was designed to return the Company to profitability and mitigate the substantial doubt that existed at December 31, 2016 about our ability to continue as a going concern. For additional information regarding the restructuring actions taken in the 2017, please refer to Note 3, "Restructuring," included under Item 8 of our 2017 Annual Report.

For the three months ended September 30, 2017, we recorded restructuring credits totaling approximately \$0.2 million, primarily related to the revision of our initial estimates of the cost and offsetting sublease income for the remaining lease obligation for the former New York office. Restructuring expenses for the three months ended September 30, 2018 consisted of insignificant accretion related to the facilities lease obligations.

For the nine months ended September 30, 2017, we recorded restructuring charges totaling approximately \$1.5 million, consisting of approximately \$0.7 million in severance and related benefits, \$0.6 million in facilities costs related to the termination of the Rochester, Minnesota lease obligation and the remaining lease obligations for the former New York and Arlington offices, and \$0.2 million in other restructuring costs primarily related to fixed asset and prepaid expenses write-offs. Restructuring expenses for the three and nine months ended September 30, 2018 consisted of insignificant accretion and other adjustments related to the facilities lease obligations.

While substantial doubt about our ability to continue as a going concern continued to exist at September 30, 2018, we had \$7.1 million in cash and no debt obligations at the end of the quarter. In addition, the restructuring actions taken in 2017 resulted in a decrease in total operating expenses of \$3.1 million during in the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017. As a result of our first quarter 2017 restructuring initiatives, we have reduced our operating expenses to be more commensurate with our sales volumes, however, we continue to incur losses and have a substantial accumulated deficit, raising substantial doubt about our ability to continue as a going concern at September 30, 2018. Considering both quantitative and qualitative information, we continue to believe that the combination of our restructuring actions, current financial position, liquid resources, plans to obtain external financing, obligations due or anticipated within the next year, executive reorganization, and implementation of our product development and sales channel strategy will provide us with an ability to finance our operations through 2019 and, if adequately executed, will mitigate the substantial doubt about our ability to continue as a going concern.

Other expenses (income)

Other expense was \$17 thousand for the third quarter of 2018, compared to other income of \$16 thousand for the third quarter of 2017. The expenses in 2018 primarily consisted of losses on fixed asset disposals. The income in 2017 primarily consisted of interest income on our cash balances and miscellaneous utility company rebates. Other income was \$2 thousand for the nine months ended September 30, 2018 compared to other expense of \$5 thousand for the

same period of 2017. The income in 2018 primarily consists of gains on the sale of fixed assets and favorable foreign currency exchange, partially offset by losses on fixed asset disposals. The expenses in 2017 primarily related to losses on fixed asset disposals.

Provision for (benefit from) income taxes

Due to the operating losses incurred during the three and nine months ended September 30, 2018 and 2017, and after application of the annual limitation set forth under Section 382 of the IRC, it was not necessary to record a provision for U.S. federal income tax or various states income taxes.

ENERGY FOCUS, INC.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2018

(Unaudited)

Net loss

For three months ended September 30, 2018, our net loss was \$1.9 million, compared to \$1.8 million for the three months ended September 30, 2017. The increase in the net loss was principally due to increased severance and benefits partially offset by lower product development costs due to timing, as previously discussed.

For the nine months ended September 30, 2018, our net loss was \$6.1 million, compared to \$9.4 million for the nine months ended September 30, 2017. The reduction in net loss was principally due to our restructuring initiatives, resulting in lower overall operating expenses of \$3.1 million, including a reduction of \$1.6 million in restructuring expenses.

Financial condition

While we had cash and cash equivalents of \$7.1 million at September 30, 2018 and no debt, we have historically incurred substantial losses, and as of September 30, 2018, we had an accumulated deficit of \$114.3 million. Additionally, our sales have been concentrated in a few major customers and for the nine months ended September 30, 2018, two customers accounted for approximately 41 percent and 10 percent of net sales.

In order for us to operate our business profitably, we will need to continue to develop new technologies into sustainable product lines that allow us to effectively compete to expand our customer base, execute our marketing and sales plans for our energy-efficient LED lighting products, and continue to improve our supply chain and organizational structure. The restructuring and cost cutting initiatives implemented during 2017 were designed to allow us to effectively execute this strategy.

There is a risk that our efforts may not be as successful or occur as quickly as we envision, as we focus on expanding our customer base and growing net sales from commercial customers in our targeted vertical markets. Additionally, while we remain dedicated to serving the U.S. Navy, new competition may prevent us from securing sales at our historic levels. As our operations may not achieve, or we may experience an unanticipated delay in achieving, our intended level of profitability, we will continue to review and pursue selected external funding sources to execute these objectives including, but not limited to, the following:

• debt financing from asset-based lenders, leveraging our available unencumbered potential collateral base;
• financing from traditional or non-traditional investment capital organizations or individuals; and
• funding from the sale of our common stock or other equity or debt instruments.

Obtaining financing through the above-mentioned mechanisms contains risks, including:

- additional equity financing may not be available to us on satisfactory terms and any equity that we are able to issue could lead to dilution of stockholder value for current stockholders;
- loans or other debt instruments may have terms and/or conditions, such as interest rate, restrictive covenants and unfavorable control or revocation provisions or would restrict our growth opportunities; and
- the current environment in capital markets combined with our capital constraints may prevent us from being able to obtain adequate debt financing.

As a result, we may not be able to obtain additional funding on acceptable terms or in a timely fashion or at all. If we fail to generate cash or receive the funding necessary to grow our business, we would need to revise our business plan which could involve further reductions in our operating costs or headcount, each of which could have a material adverse effect on our business, future prospects, and financial condition.

Liquidity and capital resources

Cash and cash equivalents

At September 30, 2018, our cash and cash equivalents balance was approximately \$7.1 million, compared to approximately \$10.8 million at December 31, 2017. The balance at September 30, 2018 and December 31, 2017 included restricted cash of \$0.3 million for a letter of credit requirement under a lease obligation.

The following summarizes cash flows from operating, investing, and financing activities, as reflected in the Condensed Consolidated Statements of Cash Flows (in thousands):

	Nine months ended September 30,	
	2018	2017
Net cash used in operating activities	\$(3,846)	\$(4,684)
Net cash provided by (used in) investing activities	\$183	\$(57)
Net cash (used in) provided by financing activities	\$(39)	\$56

Net cash used in operating activities

Net cash used in operating activities was \$3.8 million for the nine months ended September 30, 2018, and resulted primarily from the net loss incurred of \$6.1 million, adjusted for non-cash items, including: depreciation, stock-based compensation, and provisions for inventory and warranty reserves, and working capital changes. During the nine months ended September 30, 2018, we generated cash of \$1.4 million through an increase in accounts payable, due to higher volumes, as we worked down inventory balances in 2017 and now must replenish stock levels; \$0.6 million through the collection of accounts receivable, due to the timing and volume of our shipments in December 2017 compared to September 2018; and \$0.4 million through an increase in accrued liabilities, primarily related to severance and benefits due to the executive reorganization and payroll and related benefits due to timing. Partially offsetting these increases in cash, was an increase in prepaid and other assets of \$0.6 million related to deposits paid to our contract manufacturers on inventory to be shipped in subsequent quarters and \$0.2 million through an increase in inventory due to the volume and timing of inventory receipts.

Net cash used in operating activities was \$4.7 million for the nine months ended September 30, 2017, and resulted from the net loss incurred of \$9.4 million, adjusted for non-cash items, including: depreciation, stock-based compensation, and provisions for inventory and warranty reserves, and working capital changes. In the first nine months of 2017, trade accounts receivable decreased \$2.6 million due to the timing and volume of our shipments in December 2016 compared to September 2017. In addition, during the first nine months of 2017, inventory and trade accounts payable balances decreased, as we implemented a more disciplined purchasing strategy in 2017.

Net cash provided by (used in) investing activities

Net cash provided by investing activities was \$183 thousand for the nine months ended September 30, 2018, and resulted primarily from the sale of certain equipment previously classified as held for sale, partially offset by purchases of computer equipment, equipment to support production operations, and leasehold improvements. Net cash used in investing activities was \$57 thousand for the nine months ended September 30, 2017, and resulted primarily from acquisitions of software and equipment to support our production operations.

Net cash (used in) provided by financing activities

Net cash used in financing activities during the nine months ended September 30, 2018 was \$39 thousand, resulting from issuing and immediately repurchasing our stock for employee tax withholding related to restricted stock unit vesting during the period. Net cash provided by financing activities during the nine months ended September 30, 2017 was \$56 thousand, resulting from the proceeds received for the exercise of stock options and employee stock purchase plan purchases, partially offset by the effect of issuing and immediately repurchasing our stock for employee tax withholding related to restricted stock unit vesting.

Contractual obligations

As of September 30, 2018, we had approximately \$3.7 million in outstanding purchase commitments for inventory. Of this amount, approximately \$2.5 million is expected to ship in the fourth quarter of 2018 with the balance expected to ship in the first quarter of 2019.

There have been no other material changes to our contractual obligations as compared to those included in our 2017 Annual Report.

24

Critical accounting policies

Revenue

On January 1, 2018, we adopted ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), as amended by subsequently issued additional guidance (together, “ASC 606”) using the modified retrospective method. The adoption of ASC 606 did not have a material impact on our consolidated financial position or results of operations, as our revenue arrangements generally consist of a single performance obligation to transfer promised goods at a fixed price.

Net sales include revenues from sales of products and shipping and handling charges, net of estimates for product returns. Revenue is measured at the amount of consideration we expect to receive in exchange for the transferred products. We recognize revenue at the point in time when we transfer the promised products to the customer and the customer obtains control over the products. We recognize revenue for shipping and handling charges at the time the goods are shipped to the customer, and the costs of outbound freight are included in cost of sales, as we have elected the practical expedient included in ASC 606. We provide for product returns based on historical return rates. While we incur costs for sales commissions to our sales employees and outside agents, we recognize commission costs concurrent with the related revenue, as the amortization period is less than one year and we have elected the practical expedient included in ASC 606. We do not incur incremental costs to obtain contracts with our customers. Our product warranties are assurance-type warranties, which promise the customer that the products are as specified in the contract. Therefore, the product warranties are not a separate performance obligation and are accounted for as described above. Sales taxes assessed by governmental authorities are accounted for on a net basis and are excluded from net sales.

The following table provides a disaggregation of product net sales for the periods presented:

	Three months ended September 30, 2018		Nine months ended September 30, 2017	
Net sales:				
Commercial	\$2,292	\$3,947	\$7,469	\$12,204
Military maritime	2,866	1,055	7,520	2,915
Total net sales	\$5,158	\$5,002	\$14,989	\$15,119

Accounts Receivable

Our trade accounts receivable consists of amounts billed to and currently due from customers. Credit is extended to customers based upon an evaluation of the customer’s financial condition and the amounts due are stated at their estimated net realizable value. We maintain an allowance for doubtful accounts receivable to provide for the estimated amount of receivables that will not be collected. The allowance is based on an assessment of customer creditworthiness and historical payment experience, the age of outstanding receivables, and performance guarantees to the extent applicable. Past due amounts are written off when our internal collection efforts have been unsuccessful. Our standard payment terms with customers are net 30 days, and we do not generally offer extended payment terms to our customers. Accordingly, we do not adjust trade accounts receivable for the effects of financing, as we expect the period between the transfer of product to the customer and the receipt of payment from the customer to be in line with our standard payment terms.

There have been no other material changes to our critical accounting policies as compared to those included in our 2017 Annual Report.

Certain risks and concentrations

We had certain customers whose net sales individually represented 10 percent or more of our total net sales, or whose net trade accounts receivable balance individually represented 10 percent or more of our total net trade accounts receivable, as follows:

25

For the three months ended September 30, 2018, sales to our primary distributor for the U.S. Navy and a regional commercial lighting retrofit company located in Texas accounted for approximately 48 percent and 15 percent of net sales, respectively. When sales to our primary distributor for the U.S. Navy are combined with sales to a shipbuilder for the U.S. Navy, sales of products for the U.S. Navy comprised approximately 53 percent of net sales for the same period. For the three months ended September 30, 2017, sales to a global healthcare system located in Northeast Ohio and a regional commercial lighting retrofit company located in Texas each individually accounted for approximately 23 percent of our net sales. In addition, sales to our primary distributor for the U.S. Navy accounted for approximately 12 percent of net sales for the period. When sales to our primary distributor for the U.S. Navy are combined with sales to a shipbuilder for the U.S. Navy, sales of products for the U.S. Navy comprised approximately 20 percent of net sales.

For the nine months ended September 30, 2018, sales to our primary distributor for the U.S. Navy and a regional commercial lighting retrofit company located in Texas accounted for approximately 41 percent and 10 percent, respectively. When sales to our primary distributor for the U.S. Navy are combined with sales to a shipbuilder for the U.S. Navy, sales of products for the U.S. Navy comprised approximately 45 percent of net sales for the same period. For the nine months ended September 30, 2017, sales to a global healthcare system located in Northeast Ohio accounted for approximately 17 percent of our net sales for the period. In addition, sales to our primary distributor for the U.S. Navy and a regional commercial lighting retrofit company located in Texas each individually accounted for approximately 12 percent of our net sales. When sales to our primary distributor for the U.S. Navy are combined with sales to a shipbuilder for the U.S. Navy, sales of products for the U.S. Navy comprised approximately 18 percent of net sales.

Our primary distributor for the U.S. Navy and a regional commercial lighting retrofit company located in Texas accounted for approximately 42 percent, and 14 percent of net trade accounts receivable, respectively, at September 30, 2018. At December 31, 2017, our primary distributor for the U.S. Navy, the global healthcare system located in Northeast Ohio, and a regional commercial lighting retrofit company located in Texas accounted for approximately 39 percent, 21 percent, and 17 percent of net trade accounts receivable, respectively.

Recent accounting pronouncements

For information on recent accounting pronouncements, please refer to Note 2, “Basis of Presentation and Summary of Significant Accounting Policies,” included under Part I, Item 1 of this Quarterly Report.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures

We maintain “disclosure controls and procedures,” as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”), that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Our disclosure controls and procedures have been designed to meet reasonable assurance standards. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. Any design of disclosure controls and procedures also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on their evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, our Chief Executive Officer and Chief Financial Officer have concluded that, subject to the limitations noted above, our disclosure controls and procedures were effective as of September 30, 2018.

(b) Changes in internal control over financial reporting

There has been no material change in our internal control over financial reporting (as defined in Rules 13a-15(f) under the Exchange Act) during the three months ended September 30, 2018 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1A. RISK FACTORS

There have been no material changes to our risk factors, as compared to those described in our 2017 Annual Report.

ITEM 6. EXHIBITS

The information required by this Item is set forth on the Exhibit Index that follows the signature page of this report.
