## PIMCO Municipal Income Funds II Letter to Shareholders

January 15, 2010

Dear Shareholder:

Please find enclosed the semi-annual report for PIMCO Municipal Income Fund II, PIMCO California Municipal Income Fund II and PIMCO New York Municipal Income Fund II (collectively, the Funds) for the fiscal six-month period ended November 30, 2009.

Municipal securities delivered solid gains during the fiscal six-month period as improved liquidity and attractive yields relative to other fixed income asset classes bolstered demand for tax-advantaged bonds. The U.S. Federal Funds rate, the key target rate on loans between member banks, was held to the record-low target range of 0% - 0.25% during the reporting period. The Federal Reserve also engaged in quantitative easing, purchasing significant amounts of securities from banks in order to add to the supply of cash available for lending. These efforts to reflate the economy brought interest rates down to historic low levels during the reporting period and resulted in yields approaching zero on money market securities. This caused investors to migrate to riskier assets. Municipal securities benefited from this sentiment-powered tailwind as a significant portion of the period's outflows from money market funds moved into the bond market.

In this economic environment, the unmanaged Barclays Capital Municipal Bond Index returned 4.75% during the six-months ended November 30, 2009. This compared favorably to the 6.21% return for the broad market of bonds as represented by the unmanaged Barclays Capital U.S. Aggregate Index on a tax-equivalent basis. Taxable equivalent yields are used to compare the after-tax income effect from a tax exempt investment to the yields of taxable income-producing investments. The calculation assumes an investor is in the highest marginal tax bracket.

For specific information on the Funds and their performance, please review the following pages. If you have any questions regarding the information provided, we encourage you to contact your financial advisor or to call the Funds' shareholder servicing agent at (800) 254 - 5197. In addition, a wide range of information and resources is available on our Web site, [www.allianzinvestors.com/closedendfunds](http://www.allianzinvestors.com/closedendfunds).

Together with Allianz Global Investors Fund Management LLC, the Funds' investment manager, and Pacific Investment Management Company LLC (PIMCO), the Funds' sub-adviser, we thank you for investing with us.

Sincerely,

Hans W. Kertess  
*Chairman*

Brian S. Shlissel  
*President & Chief Executive Officer*

## **PIMCO Municipal Income Fund II Fund Insights**

November 30, 2009 (unaudited)

For the fiscal six-month period ended November 30, 2009, PIMCO Municipal Income Fund II returned 17.33% on net asset value ( NAV ) and 13.79% on market price, compared with the 10.12% and 13.65% returns, respectively, for the Lipper Analytical General Municipal Debt Funds (Leveraged) Average.

High-quality municipal bond yields moved lower across the yield curve during the six-month reporting period as investors continued to put money to work in the municipal bond market.

Municipal-to-U.S. Treasury yield ratios moved lower as the market continued to normalize. The 10-year ratio decreased to 86% and the 30-year ratio decreased to 101% during the reporting period. However, both ratios were within historical average levels at the end of the six-month period.

Tobacco securitization exposure contributed positively to performance. This sector was one of the strongest performers during the reporting period as spreads moved in.

Exposure to corporate-backed municipals benefited performance during the period as this sector posted positive returns due to a strong rebound in the sector similar to what occurred in the taxable corporate market.

Significant exposure to health care contributed positively to performance during the period. Exposure to the water and sewer sector detracted from performance as this sector underperformed the general market during the six-month reporting period.

Exposure to longer-maturity zero-coupon municipals benefited performance as their longer durations outperformed with yields in longer maturities moving lower during the period. The unmanaged Barclays Capital Zero Coupon Index returned 8.57% during the six-month reporting period.

The municipal yield curve was roughly unchanged during the period although it experienced significant flows into shorter-maturity municipals. The 15- and 20-year maturity AAA General Obligation yields decreased 40 and 50 basis points, respectively, while the 30-year decreased 38 basis points. The two-year yield decreased 36 basis points during the same period. Significant exposure to longer-maturity municipals benefited performance as this portion of the yield curve outperformed due to its longer duration.

Long-maturity municipal bonds slightly underperformed the broader long-maturity taxable market, with the unmanaged Barclays Capital Long Municipal Bond Index returning 7.02%, compared to the unmanaged Barclays Capital Long Government/Credit Index which advanced 12.26%. However, long-maturity municipal bonds outperformed long-maturity U.S. Treasuries, with the unmanaged Barclays Capital Long U.S. Treasury Index returning 5.56% during the six-month reporting period.

Municipal bond issuance year-to-date through November 2009 was approximately 1% higher than the comparable period in 2008 due to a pickup in refundings and strong issuance of Build America Bonds.

**PIMCO Municipal Income Fund II Performance & Statistics**

November 30, 2009 (unaudited)

<b>Total Return<sup>(1)</sup>:</b>	<b>Market Price</b>	<b>NAV</b>
Six Months	13.79%	17.33%
1 Year	42.64%	33.14%
5 Year	0.64%	(0.51)%
Commencement of Operations (6/28/02) to 11/30/09	1.89%	2.02%

**Market Price/NAV Performance:**

Commencement of Operations (6/28/02) to 11/30/09

**Market Price/NAV:**

Market Price	\$10.46
NAV	\$10.10
Premium to NAV	3.56%
Market Price Yield <sup>(2)</sup>	7.46%

**Moody's Ratings**  
(as a % of total investments)

**(1) Past performance is no guarantee of future results.** Total return is calculated by determining the percentage change in net asset value ( NAV ) or market price (as applicable) in the specified period. The calculation assumes that all income dividends and capital gain distributions if any, have been reinvested. Total return does not reflect broker commissions or sales charges. Total return for a period of less than one year is not annualized. Total return for a period of more than one year represents the average annual total return.

Performance at market price will differ from its results at NAV. Although market price returns typically reflect investment results over time, during shorter periods returns at market price can also be influenced by factors such as changing views about the Fund, market conditions, supply and demand for the Fund's shares, or changes in Fund dividends.

An investment in the Fund involves risk, including the loss of principal. Total return, market price, market yield and NAV will fluctuate with changes in market conditions. This data is provided for information purposes only and is not intended for trading purposes. Closed-end funds, unlike open-end funds, are not continuously offered. There is a onetime public offering and once

## Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSRS

issued, shares of closed-end funds are sold in the open market through a stock exchange. NAV is equal to total assets less total liabilities divided by the number of shares outstanding. Holdings are subject to change daily.

(2) Market Price Yield is determined by dividing the annualized current monthly per share dividend (comprised of net investment income) payable to shareholders by the market price per share at November 30, 2009.

## **PIMCO California Municipal Income Fund II** Fund Insights

November 30, 2009 (unaudited)

For the fiscal six-month period ended November 30, 2009, PIMCO California Municipal Income Fund II returned 8.24% on net asset value ( NAV ) and 3.76% on market price, compared with the 8.31% and 10.84% returns, respectively, for the Lipper California Municipal Debt Funds Average.

High-quality municipal bond yields moved lower across the yield curve during the six-month reporting period as investors continued to put money to work in the municipal bond market.

Municipal-to-U.S. Treasury yield ratios moved lower as the market continued to normalize. The 10-year ratio decreased to 86% and the 30-year ratio decreased to 101% during the reporting period. However, both ratios were within historical average levels at the end of the six-month period.

Tobacco securitization exposure contributed positively to performance. This sector was one of the strongest performers during the reporting period as spreads moved in.

Exposure to corporate-backed municipals benefited performance during the period as this sector posted positive returns due to a strong rebound in the sector similar to what occurred in the taxable corporate market.

Significant exposure to health care contributed positively to performance during the period. Exposure to the water and sewer sector detracted from performance as this sector underperformed the general market during the six-month reporting period.

An allocation to local general obligation municipal bonds detracted from performance as revenue bonds outperformed general obligations during the period, with investors moving out the risk spectrum.

Exposure to longer-maturity zero-coupon municipals benefited performance as their longer durations outperformed with yields in longer maturities moving lower during the period. The unmanaged Barclays Capital Zero Coupon Index returned 8.57% during the six-month reporting period.

Municipal bonds within California, as represented by the California component of the Barclays Capital Municipal Bond Index, underperformed the unmanaged Barclays Capital Municipal Bond Index ( National Index ), returning 4.51%, compared to 4.75% for the National Index during the six-month period. California was able to balance its budget, which helped spur a rebound in performance during the latter part of the period. However, this has abated somewhat due to ongoing deficit concerns. Year-to-date through November 2009, California issued \$69.8 billion in municipal bonds, 34% higher than the comparable period in 2008.

Long California municipal bonds, as represented by the Barclays Capital California Municipal Bond Long Index, underperformed the long-maturity unmanaged Barclays Capital Long Municipal Bond Index ( Long-Maturity National Index ) returning 5.85%, compared to a rise of 7.02% for the Long-Maturity National Index during the six-month reporting period. The California municipal bond yield curve also steepened during the reporting period with 30-year yields decreasing 7 basis points and two-year yields decreasing 89 basis points. Significant exposure to the longer-maturity municipal bonds benefited performance, as longer-duration municipal bonds outperformed as yields moved lower.

## **PIMCO New York Municipal Income Fund II Fund Insights**

November 30, 2009 (unaudited)

For the fiscal six-month period ended November 30, 2009, PIMCO New York Municipal Income Fund II returned 12.48% on net asset value ( NAV ) and 9.74% on market price, compared with the 8.82% and 11.72% declines, respectively, for the Lipper New York Municipal Debt Funds Average.

High-quality municipal bond yields moved lower across the yield curve during the six-month reporting period as investors continued to put money to work in the municipal bond market.

Municipal-to-U.S. Treasury yield ratios moved lower as the market continued to normalize. The 10-year ratio decreased to 86% and the 30-year ratio decreased to 101% during the reporting period. However, both ratios were within historical average levels at the end of the six-month period.

Tobacco securitization exposure contributed positively to performance. This sector was one of the strongest performers during the reporting period as spreads moved in.

Exposure to corporate-backed municipals benefited performance during the period as this sector posted positive returns due to a strong rebound in the sector similar to what occurred in the taxable corporate market.

Significant exposure to health care contributed positively to performance during the period. Exposure to the water and sewer sector detracted from performance as this sector underperformed the general market during the six-month reporting period.

Exposure to longer-maturity zero-coupon municipals benefited performance as their longer durations outperformed with yields in longer maturities moving lower during the period. The unmanaged Barclays Capital Zero Coupon Index returned 8.57% during the six-month reporting period.

Municipal bonds within New York, as represented by the New York component of the Barclays Capital Municipal Bond Index, marginally outperformed the unmanaged Barclays Capital Municipal Bond Index ( National Index ) returning 4.96%, compared to 4.75% for the National Index during the six-month reporting period. Year-to-date through November 2009, New York State bond issuance aggregated \$38 billion, in-line with the comparable period in 2008. New York ranked second in total municipal bond issuance at the end of November 2009.

Long New York municipal bonds, as represented by the Barclays Capital New York Municipal Bond Long Index, slightly underperformed the unmanaged Barclays Capital Long Municipal Bond Index ( Long-Maturity National Index ) returning 6.87%, compared to a rise of 7.02% for the Long-Maturity National Index during the six-month reporting period. The New York municipal bond yield curve steepened marginally during the reporting period with 30-year yields decreasing 37 basis points and two-year yields decreasing 71 basis points. New York Municipal II also held significant positions in the longer portions of the municipal bond yield curve, which benefited performance as longer-duration municipal bonds outperformed and yields moved lower.

## PIMCO Municipal Income Funds II Notes to Schedule of Investments

November 30, 2009 (unaudited)

### Notes to Schedules of Investments:

- (a) Private Placement Restricted as to resale and may not have a readily available market. Securities with an aggregate value of \$12,024,228, representing 1.1% of total investments in PIMCO Municipal Income Fund II, \$18,742,071, representing 4.0% of total investments in PIMCO California Municipal Income Fund II and of \$5,954,085, representing 3.0% of total investments in PIMCO New York Municipal Income Fund II.
- (b) Illiquid.
- (c) Pre-refunded bonds are collateralized by U.S. Government or other eligible securities which are held in escrow and used to pay principal and interest and retire the bonds at the earliest refunding date (payment date) and/or whose interest rates vary with changes in a designated base rate (such as the prime interest rate).
- (d) 144A Exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, typically only to qualified institutional buyers. Unless otherwise indicated, these securities are not considered to be illiquid.
- (e) When-issued or delayed-delivery. To be settled/delivered after November 30, 2009.
- (f) In default.
- (g) Inverse Floater The interest rate shown bears an inverse relationship to the interest rate on another security or the value of an index. The interest rate disclosed reflects the rate in effect on November 30, 2009.
- (h) Variable Rate Notes Instruments whose interest rates change on specified date (such as a coupon date or interest payment date) and/or whose interest rates vary with changes in a designated base rate (such as the prime interest rate). The interest rate disclosed reflects the rate in effect on November 30, 2009.
- (i) All or partial amount segregated as collateral for reverse repurchase agreements.
- (j) Residual Interest Bonds held in Trust Securities represent underlying bonds transferred to a separate securitization trust established in a tender option bond transaction in which the Fund acquired the residual interest certificates. These securities serve as collateral in a financing transaction.

## PIMCO Municipal Income Funds II Notes to Financial Statements

November 30, 2009 (unaudited)

### 1. Organization and Significant Accounting Policies

PIMCO Municipal Income Fund II ( Municipal II ), PIMCO California Municipal Income Fund II ( California Municipal II ) and PIMCO New York Municipal Income Fund II ( New York Municipal II ), collectively referred to as the Funds or PIMCO Municipal Income Funds II , were organized as Massachusetts business trusts on March 29, 2002. Prior to commencing operations on June 28, 2002, the Funds had no operations other than matters relating to their organization and registration as non-diversified, closed-end management investment companies registered under the Investment Company Act of 1940 and the rules and regulations thereunder, as amended. Allianz Global Investors Fund Management LLC (the Investment Manager ) serves as the Investment Manager and is an indirect, wholly-owned subsidiary of Allianz Global Investors of America L.P. ( Allianz Global ). Allianz Global is an indirect, wholly-owned subsidiary of Allianz SE, a publicly traded European insurance and financial services company. Each Fund has an unlimited amount of \$0.00001 par value per share of common stock authorized.

Under normal market conditions, Municipal II invests substantially all of its assets in a portfolio of municipal bonds, the interest from which is exempt from federal income taxes. Under normal market conditions, California Municipal II invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal and California state income taxes. Under normal market conditions, New York Municipal II invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal, New York State and New York City income taxes. The Funds will generally seek to avoid investing in bonds generating interest income which could potentially subject individuals to alternative minimum tax. The issuers' abilities to meet their obligations may be affected by economic and political developments in a specific state or region. There is no guarantee that the Funds will meet their stated objectives.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the Funds financial statements. Actual results could differ from those estimated.

In the normal course of business, the Funds enter into contracts that contain a variety of representations that provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds expect the risk of any loss to be remote.

The following is a summary of significant accounting policies consistently followed by the Funds:

#### (a) Valuation of Investments

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Market value is generally determined on the basis of last reported sales prices, or if no sales are reported, on the basis of quotes obtained from a quotation reporting system, established market makers, or independent pricing services.

Portfolio securities and other financial instruments for which market quotations are not readily available or for which a development/event occurs that may significantly impact the value of a security, are fair-valued, in good faith, pursuant to procedures established by the Board of Trustees, or persons acting at their discretion pursuant to procedures established by the Board of Trustees. The Funds' investments are valued daily using prices supplied by an independent pricing service or dealer quotations, or by using the last sale price on the exchange that is the primary market for such securities, or the mean between the last quoted bid and ask price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales. Independent pricing services use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Securities purchased on a when-issued or delayed-delivery basis are marked to market daily until settlement at the forward settlement value. Short-term securities maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days or less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days.

The prices used by the Funds to value securities may differ from the value that would be realized if the securities were sold and these differences could be material to the Funds' financial statements. Each Funds' net asset value is normally determined as of the close of regular trading (normally, 4:00 p.m. Eastern time) on the New York Stock Exchange ( NYSE ) on each day the NYSE is open for business.

**1. Organization and Significant Accounting Policies (continued)**

**(b) Fair Value Measurements**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e. the exit price) in an orderly transaction between market participants. The three levels of the fair value hierarchy are described below:

Level 1    quoted prices in active markets for identical investments that the Funds have the ability to access

Level 2    valuations based on other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.) or quotes from inactive exchanges

Level 3    valuations based on significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments)

An investment asset's or liability's level within the fair value hierarchy is based on the lowest level input, individually or in aggregate, that is significant to fair value measurement. The objective of fair value measurement remains the same even when there is a significant decrease in the volume and level of activity for an asset or liability and regardless of the valuation technique used.

The valuation techniques used by the Funds to measure fair value during the six months ended November 30, 2009 maximized the use of observable inputs and minimized the use of unobservable inputs.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

A summary of the inputs used at November 30, 2009 in valuing each Fund's assets and liabilities is listed below:

Municipal II:

	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Value at 11/30/09

**(c) Investment Transactions and Investment Income**

Investment transactions are accounted for on the trade date. Securities purchased and sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date. Realized gains and losses on investments are determined on an identified cost basis. Interest income adjusted for the accretion of discounts and amortization of premiums is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized, respectively, to interest income over the lives of the respective securities.

**(d) Federal Income Taxes**

The Funds intend to distribute all of their taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. The Funds may be subject to excise tax to the extent of distributions to shareholders.

Accounting for uncertainty in income taxes establishes for all entities, including pass-through entities such as the Funds, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The Funds' management has determined that its evaluation has resulted in no material impact to the Funds' financial statements at November 30, 2009. The Funds' federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

**(e) Dividends and Distributions    Common Stock**

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. The Funds record dividends and distributions to their shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These book-tax differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment. Temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes; they are reported as dividends and/or distributions of paid-in-capital in excess of par.

**(f) Reverse Repurchase Agreements**

In a reverse repurchase agreement, the Funds sell securities to a bank or broker-dealer and agree to repurchase the securities at a mutually agreed date and price. Generally, the effect of such a transaction is that the Funds can recover and reinvest all or most of the cash invested in portfolio securities involved during the term of the reverse repurchase agreement and still be entitled to the returns associated with those portfolio securities. Such transactions are advantageous if the interest cost to the Funds of the

## Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSRS

reverse repurchase transaction is less than the returns it obtains on investments purchased with the cash. Unless the Funds cover their positions in reverse repurchase agreements (by segregating liquid assets at least equal in amount to the forward purchase commitment), their obligations under the agreements will be subject to the Funds' limitations on borrowings. Reverse repurchase agreements involve leverage risk and also the risk that the market value of the securities that the Funds are obligated to repurchase under the agreement may decline below the repurchase price.

## **PIMCO Municipal Income Funds II**    **Notes to Financial Statements**

November 30, 2009 (unaudited)

### **1. Organization and Significant Accounting Policies (continued)**

#### **(f) Reverse Repurchase Agreements (continued)**

In the event the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the Funds use of the proceeds of the agreement may be restricted pending determination by the other party, or its trustee or receiver, whether to enforce the Funds' obligation to repurchase the securities.

#### **(g) Inverse Floating Rate Transactions Residual Interest Municipal Bonds ( RIBs ) / Residual Interest Tax Exempt Bonds ( RITEs )**

The Funds may invest in interest rates of RIBs and RITEs, ( Inverse Floaters ) whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index. In inverse floating rate transactions, the Funds sell a fixed rate municipal bond ( Fixed Rate Bond ) to a broker who places the Fixed Rate Bond in a special purpose trust ( Trust ) from which floating rate bonds ( Floating Rate Notes ) and Inverse Floaters are issued. The Funds simultaneously or within a short period of time, purchase the Inverse Floaters from the broker. The Inverse Floaters held by the Funds provide the Funds with the right to: (1) cause the holders of the Floating Rate Notes to tender their notes at par, and (2) cause the broker to transfer the Fixed-Rate Bond held by the Trust to the Funds, thereby collapsing the Trust. The Funds account for the transaction described above as a secured borrowing by including the Fixed Rate Bond in their Schedules of Investments, and account for the Floating Rate Notes as a liability under the caption Payable for floating rate notes issued in the Funds' Statements of Assets and Liabilities. The Floating Rate Notes have interest rates that generally reset weekly and their holders have the option to tender their notes to the broker for redemption at par at each reset date.

The Funds may also invest in Inverse Floaters without transferring a fixed rate municipal bond into a special purpose trust, which are not accounted for as secured borrowings.

The Inverse Floaters are created by dividing the income stream provided by the underlying bonds to create two securities, one short-term and one long-term. The interest rate on the short-term component is reset by an index or auction process typically every 7 to 35 days. After income is paid on the short-term securities at current rates, the residual income from the underlying bond(s) goes to the long-term securities. Therefore, rising short-term rates result in lower income for the long-term component and vice versa. The longer-term bonds may be more volatile and less liquid than other municipal bonds of comparable maturity. Investments in Inverse Floaters typically will involve greater risk than investments in Fixed Rate Bonds. The Funds may also invest in Inverse Floaters for the purpose of increasing leverage.

The Funds' restrictions on borrowings do not apply to the secured borrowings deemed to have occurred for accounting purposes. Inverse Floaters held by the Funds are exempt from registration under Rule 144A of the Securities Act of 1933.

In addition to general market risks, the Funds' investments in Inverse Floaters may involve greater risk and volatility than an investment in a fixed rate bond, and the value of Inverse Floaters may decrease significantly when market interest rates increase. Inverse Floaters have varying degrees of liquidity, and the market for these securities may be volatile. These securities tend to underperform the market for fixed rate bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds when interest rates decline or remain relatively stable. Although volatile, Inverse Floaters typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality, coupon, call provisions and maturity. Trusts in which Inverse Floaters may be held could be terminated due to market, credit or other events beyond the Funds' control, which could require the Funds to reduce leverage and dispose of portfolio investments at inopportune times and prices.

#### **(h) When-Issued/Delayed-Delivery Transactions**

When-issued or delayed-delivery transactions involve a commitment to purchase or sell securities for a predetermined price or yield, with payment and delivery taking place beyond the customary settlement period. When delayed-delivery purchases are outstanding, the Funds will set aside and maintain, until the settlement date in a designated account, liquid assets in an amount sufficient to meet the purchase price. When purchasing a security on a delayed-delivery basis, the Funds assume the rights and risks of ownership of the security, including the risk of price and yield fluctuations; consequently, such fluctuations are taken into account when determining the net asset value. The Funds may dispose of or renegotiate a delayed-delivery transaction after it is entered into, and may sell when-issued securities before they are delivered, which may result in a realized gain or loss. When a security is sold on a delayed-delivery basis, the Funds do not participate in future gains and losses with respect to the security.

## **PIMCO Municipal Income Funds II**    **Notes to Financial Statements**

November 30, 2009 (unaudited)

### **1. Organization and Significant Accounting Policies (continued)**

#### **(i) Custody Credits on Cash Balances**

The Funds benefit from an expense offset arrangement with their custodian bank, whereby uninvested cash balances earn credits which reduce monthly custodian and accounting agent expenses. Had these cash balances been invested in income-producing securities, they would have generated income for the Funds.

#### **(j) Interest Expense**

Interest expense relates primarily to the Funds' liability in connection with floating rate notes held by third parties in conjunction with Inverse Floater transactions and reverse repurchase agreements. Interest expense on reverse repurchase agreements is recorded as it is incurred.

### **2. Principal Risk**

In the normal course of business, the Funds trade financial instruments and enter into financial transactions where risk of potential loss exists due to, among other things, changes in the market (market risk) or failure of the other party to a transaction to perform (credit/counterparty risk). The main risks from derivative instruments are interest rate and credit/counterparty risks.

Interest rate risk is the risk that fixed income securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Funds is likely to decrease. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Duration is used primarily as a measure of the sensitivity of a fixed income security's market price to interest rate (*i.e.* yield) movements.

The Funds will be exposed to credit risk on parties with whom it trades and will also bear the risk of settlement default. The Funds seek to minimize concentrations of credit risk by undertaking transactions with a large number of customers and counterparties on recognized and reputable exchanges. The Funds could lose money if the issuer or guarantor of a fixed income security, or the counterparty to a derivatives contract, repurchase agreement or a loan of portfolio securities, is unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings.

Similar to credit risk, the Funds may be exposed to counterparty risk, or the risk that an institution or other entity with which the Funds have unsettled or open transactions will default. The potential loss could exceed the value of the financial assets recorded in the Funds' financial statements. Financial assets, which potentially expose the Funds to counterparty risk, consist principally of cash due from counterparties and investments.

The Funds' sub-adviser, Pacific Investment Management Company LLC (the Sub-Adviser), an affiliate of the Investment Manager, seeks to minimize the Funds' counterparty risks by performing reviews of each counterparty. Generally, all transactions in listed securities are settled/paid for upon delivery. Delivery of securities sold is only made once the Funds have received payment. Payment is made on a purchase once the securities have been delivered by the counterparty. The trade will fail if either party fails to meet its obligation.

### **3. Investment Manager/Sub-Adviser**

Each Fund has an Investment Management Agreement (each an Agreement) with the Investment Manager. Subject to the supervision of the Funds' Board of Trustees, the Investment Manager is responsible for managing, either directly or through others selected by it, each Fund's investment activities, business affairs and administrative matters. Pursuant to the Agreements, the Investment Manager receives an annual fee, payable on a monthly basis, at an annual rate of 0.65% of each Fund's average daily net assets, inclusive of net assets attributable to any Preferred Shares that may be outstanding. In order to reduce each Fund's expenses, the Investment Manager has contractually agreed to waive a portion of its investment management fees for each Fund at the annual rate of 0.05% of each Fund's average daily net assets, inclusive of net assets attributable to any Preferred Shares that may be outstanding, through June 30, 2009. For the six months ended November 30, 2009, each Fund paid investment management fees at an annualized effective rate of 0.64% of each Fund's average daily net assets, inclusive of net assets attributable to any Preferred Shares that may be outstanding.

## Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSRS

The Investment Manager has retained the Sub-Adviser to manage each Fund's investments. Subject to the supervision of the Investment Manager, the Sub-Adviser is responsible for making all of the Funds' investment decisions. The Investment Manager, not the Funds, pays a portion of the fees it receives to the Sub-Adviser in return for its services.

**PIMCO Municipal Income Funds II**    **Notes to Financial Statements**

November 30, 2009 (unaudited)

**4. Investments in Securities**

Purchases and sales of investments, other than short-term securities and U.S. government obligations for the six months ended November 30, 2009, were:

	Municipal II	California Municipal II	New York Municipal II
Purchases	\$71,830,520	\$26,398,783	\$8,822,604
Sales	67,203,684	17,843,505	6,922,834

(a) Open reverse repurchase agreements at November 30, 2009 were:

Counterparty	Rate	Trade Date	Maturity Date	Principal & Interest	Principal
<u>Municipal II:</u>					
Credit Suisse First Boston	0.55%	11/19/09	12/16/09	\$ 2,356,432	\$ 2,356,000
<u>California Municipal II:</u>					
Barclays Bank	0.65%	11/9/09	12/4/09	\$ 8,468,362	\$ 8,465,000
<u>New York Municipal II:</u>					
Barclays Bank	0.75%	11/9/09	12/4/09	\$ 3,639,667	\$ 3,638,000
Credit Suisse First Boston	0.55%	11/19/09	12/16/09	453,083	453,000
					\$ 4,091,000

The weighted average daily balance of reverse repurchase agreements outstanding during the six months ended November 30, 2009 for Municipal II, California Municipal II and New York Municipal II was \$10,745,530, \$13,672,353 and \$4,952,207 at a weighted average interest rate of 0.78%, 0.79% and 0.78%, respectively. The total market value of underlying collateral (refer to the Schedules of Investments for positions segregated as collateral for reverse repurchase agreements) for open reverse repurchase agreements at November 30, 2009 was \$2,559,509, \$9,047,377 and \$4,749,189 for Municipal II, California Municipal II and New York Municipal II, respectively.

New York Municipal II received \$195,508 in U.S. Government Agency Securities as collateral for repurchase agreements. Collateral received as securities cannot be pledged.

**5. Income Tax Information**

The cost of investments for federal income tax purposes and gross unrealized appreciation and gross unrealized depreciation of investments at November 30, 2009 were:

Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
---------------------	-------------------------------	-------------------------------	--

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSRS

Municipal II	\$965,685,788	\$40,745,720	\$46,287,059	\$(5,541,339)
California Municipal II	391,734,997	23,853,331	7,024,630	16,828,701
New York Municipal II	188,341,907	8,677,790	5,424,320	3,253,470

**6. Auction-Rate Preferred Shares**

Municipal II has outstanding 2,936 shares of Preferred Shares Series A, 2,936 shares of Preferred Shares Series B, 2,936 shares of Preferred Shares Series C, 2,936 shares of Preferred Shares Series D and 2,936 shares of Preferred Shares Series E, each with a net asset and liquidation value of \$25,000 per share plus any accumulated, unpaid dividends.

California Municipal II has issued 1,304 shares of Preferred Shares Series A, 1,304 shares of Preferred Shares Series B, 1,304 shares of Preferred Shares Series C, 1,304 shares of Preferred Shares Series D and 1,304 shares of Preferred Shares Series E, each with a net asset and liquidation value of \$25,000 per share plus any accumulated, unpaid dividends.

New York Municipal II has issued 1,580 shares of Preferred Shares Series A and 1,580 shares of Preferred Shares Series B, each with a net asset and liquidation value of \$25,000 per share plus any accumulated, unpaid dividends.

**PIMCO Municipal Income Funds II**    **Notes to Financial Statements**

November 30, 2009 (unaudited)

**6. Auction-Rate Preferred Shares (continued)**

Dividends are accumulated daily at an annual rate (typically re-set every seven days) through auction procedures. Distributions of net realized capital gains, if any, are paid annually.

For the six months ended November 30, 2009, the annualized dividend rates for each Fund ranged from:

	High	Low	At November 30, 2009
<u>Municipal II:</u>			
Series A	0.58%	0.38%	0.46%
Series B	0.58%	0.37%	0.44%
Series C	0.58%	0.35%	0.44%
Series D	0.58%	0.35%	0.44%
Series E	0.58%	0.35%	0.44%
<u>California Municipal II:</u>			
Series A	0.58%	0.38%	0.46%
Series B	0.58%	0.37%	0.44%
Series C	0.58%	0.35%	0.44%
Series D	0.58%	0.35%	0.44%
Series E	0.58%	0.35%	0.44%
<u>New York Municipal II:</u>			
Series A	0.58%	0.35%	0.44%
Series B	0.58%	0.35%	0.44%

The Funds are subject to certain limitations and restrictions while Preferred Shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Funds from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of Preferred Shares at their liquidation value plus any accumulated, unpaid dividends.

Preferred shareholders, who are entitled to one vote per share, generally vote with the common shareholders but vote separately as a class to elect two Trustees and on any matters affecting the rights of the preferred shareholders.

Since mid-February 2008, holders of auction-rate preferred shares ( ARPS ) issued by the Funds have been directly impacted by an unprecedented lack of liquidity, which has similarly affected ARPS holders in many of the nation's closed-end funds. Since then, regularly scheduled auctions for ARPS issued by the Funds have consistently failed because of insufficient demand (bids to buy shares) to meet the supply (shares offered for sale) at each auction. In a failed auction, ARPS holders cannot sell all, and may not be able to sell any, of their shares tendered for sale. While repeated auction failures have affected the liquidity for ARPS, they do not constitute a default or automatically alter the credit quality of the ARPS, and ARPS holders have continued to receive dividends at the defined maximum rate the higher of the 30-day AA Composite Commercial Paper Rate multiplied by 110% or the Taxable Equivalent of the Short-Term Municipal Obligations Rate-defined as 90% of the quotient of (A) the per annum rate expressed on an interest equivalent basis equal to the Kenny S&P 30-day High Grade Index divided by (B) 1.00 minus the Marginal Tax Rate (expressed as a decimal) multiplied by 110% (which is a function of short-term interest rates and typically higher than the rate that would have otherwise been set through a successful auction). If the Funds ARPS auctions continue to fail and the maximum rate payable on the ARPS rises as a result of changes in short-term interest rates, returns for the Funds common shareholders could be adversely affected.

**PIMCO Municipal Income Funds II    Notes to Financial Statements**

November 30, 2009 (unaudited)

**7. Legal Proceedings**

In June and September 2004, the Investment Manager and certain of its affiliates (including PEA Capital LLC ( PEA ), Allianz Global Investors Distributors LLC and Allianz Global Investors of America, L.P.), agreed to settle, without admitting or denying the allegations, claims brought by the Securities and Exchange Commission ( SEC ) and the New Jersey Attorney General alleging violations of federal and state securities laws with respect to certain open-end funds for which the Investment Manager serves as investment adviser. The settlements related to an alleged market timing arrangement in certain open-end funds formerly sub-advised by PEA. The Investment Manager and its affiliates agreed to pay a total of \$68 million to settle the claims. In addition to monetary payments, the settling parties agreed to undertake certain corporate governance, compliance and disclosure reforms related to market timing, and consented to cease and desist orders and censures. Subsequent to these events, PEA deregistered as an investment adviser and dissolved. None of the settlements alleged that any inappropriate activity took place with respect to the Funds.

Since February 2004, the Investment Manager and certain of its affiliates and their employees have been named as defendants in a number of pending lawsuits concerning market timing, which allege the same or similar conduct underlying the regulatory settlements discussed above. The market timing lawsuits have been consolidated in a multi-district litigation proceeding in the U.S. District Court for the District of Maryland. Any potential resolution of these matters may include, but not be limited to, judgments or settlements for damages against the Investment Manager or its affiliates or related injunctions.

In addition, the Sub-Adviser is the subject of a lawsuit in the Northern District of Illinois Eastern Division in which the complaint alleges that plaintiffs each purchased and sold a 10-year Treasury note futures contract and suffered damages from an alleged shortage when the Sub-Adviser held both physical and futures positions in 10-year Treasury notes for its client accounts. In July 2007, the court granted class certification of a class consisting of those persons who purchased futures contracts to offset short positions between May 9, 2005 and June 30, 2005. The Sub-Adviser currently believes that the complaint is without merit and the Sub-Adviser intends to vigorously defend against this action.

The Investment Manager and the Sub-Adviser believe that these matters are not likely to have a material adverse effect on the Funds or on their ability to perform their respective investment advisory activities relating to the Funds.

**8. Resignation of Trustee**

Diana L. Taylor resigned as a Trustee of the Funds on September 10, 2009.

**9. Subsequent Events**

Fund management has evaluated subsequent events following the six months ended November 30, 2009 through January 25, 2010, which is the date the financial statements were issued. The subsequent events were as follows:

On December 1, 2009, the following dividends were declared to common shareholders payable December 30, 2009 to shareholders of record on December 11, 2009:

Municipal II	\$0.065 per common share
California Municipal II	\$0.0625 per common share
New York Municipal II	\$0.06625 per common share

On December 14, 2009, James A. Jacobson joined the Board of Trustees of each Fund.

On January 4, 2010, the following dividends were declared to common shareholders payable February 1, 2010 to shareholders of record on January 14, 2010:

Municipal II	\$0.065 per common share
California Municipal II	\$0.0625 per common share
New York Municipal II	\$0.06625 per common share

- (1) Total investment return is calculated assuming a purchase of a share of common stock at the current market price on the first day of each period and a sale of a share of common stock at the current market price on the last day of each period reported. Dividends and distributions are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return does not reflect brokerage commissions or sales charges. Total investment return for a period of less than one year is not annualized.
- (2) Calculated on the basis of income and expenses applicable to both common and preferred shares relative to the average net assets of common shareholders.
- (3) Inclusive of expenses offset by custody credits earned on cash balances at the custodian bank. (See note 1(i) in Notes to Financial Statements).
- (4) Interest expense relates to the liability for floating rate notes issued in connection with inverse floater transactions and reverse repurchase agreements.
- (5) During the periods indicated above, the Investment Manager waived a portion of its investment management fee. The effect of such waiver relative to the average net assets of common shareholders was 0.01% (annualized), 0.10%, 0.17%, 0.24%, 0.24% and 0.24% for the six months ended November 30, 2009 and the years ended May 31, 2009, May 31, 2008, May 31, 2007, May 31, 2006 and May 31, 2005, respectively.

## PIMCO Municipal Income Funds II

### Matters Relating to the Trustees Consideration of the Investment Management & Portfolio Management Agreements (unaudited)

The Investment Company Act of 1940, as amended, requires that both the full Board of Trustees (the Trustees) and a majority of the non-interested Trustees (the Independent Trustees), voting separately, approve the Funds' Management Agreements (the Management Agreements) with the Investment Manager and Portfolio Management Agreements (the Sub-Advisory Agreements), and together with the Advisory Agreements, the Agreements) between the Investment Manager and the Sub-Adviser. The Trustees met in person on June 16-17, 2009 (the contract review meeting) for the specific purpose of considering whether to approve the continuation of the Advisory Agreements and the Sub-Advisory Agreements. The Independent Trustees were assisted in their evaluation of the Agreements by independent legal counsel, from whom they received separate legal advice and with whom they met separately from Fund management during the contract review meeting.

Based on their evaluation of factors that they deemed to be material, including those factors described below, the Board of Trustees, including a majority of the Independent Trustees, concluded that the continuation of the Funds' Advisory Agreements and the Sub-Advisory Agreements, as amended, should be approved for a one-year period commencing July 1, 2009.

In connection with their deliberations regarding the continuation of the Agreements, the Trustees, including the Independent Trustees, considered such information and factors as they believed, in light of the legal advice furnished to them and their own business judgment, to be relevant. As described below, the Trustees considered the nature, quality, and extent of the various investment management, administrative and other services performed by the Investment Manager or the Sub-Adviser under the applicable Agreement.

In connection with their contract review meetings, the Trustees received and relied upon materials provided by the Investment Manager which included, among other items: (i) information provided by Lipper Inc. (Lipper) on the total return investment performance (based on net assets) of the Funds for various time periods and the investment performance of a group of funds with substantially similar investment classifications/objectives as the Funds identified by Lipper and the performance of applicable benchmark indices, (ii) information provided by Lipper on the Funds' management fees and other expenses and the management fees and other expenses of comparable funds identified by Lipper, (iii) information regarding the investment performance and management fees of comparable portfolios of other clients of the Sub-Advisers, (iv) the estimated profitability to the Investment Manager and the Sub-Adviser from their relationship with the Funds for the one year period ended March 31, 2009, (v) descriptions of various functions performed by the Investment Manager and the Sub-Adviser for the Funds, such as portfolio management, compliance monitoring and portfolio trading practices, and (vi) information regarding the overall organization of the Investment Manager and the Sub-Adviser, including information regarding senior management, portfolio managers and other personnel providing investment management, administrative and other services to the Funds.

The Trustees' conclusions as to the continuation of the Agreements were based on a comprehensive consideration of all information provided to the Trustees and were not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations are described below, although individual Trustees may have evaluated the information presented differently from one another, giving different weights to various factors.

As part of their review, the Trustees examined the Investment Manager's and the Sub-Adviser's abilities to provide high quality investment management and other services to the Funds. The Trustees considered the investment philosophy and research and decision-making processes of the Sub-Adviser; the experience of key advisory personnel of the Sub-Adviser responsible for portfolio management of the Funds; the ability of the Investment Manager and the Sub-Adviser to attract and retain capable personnel; the capability and integrity of the senior management and staff of the Investment Manager and the Sub-Adviser; and the level of skill required to manage the Funds. In addition, the Trustees reviewed the quality of the Investment Manager's and the Sub-Adviser's services with respect to regulatory compliance and compliance with the investment policies of the Funds; the nature and quality of certain administrative services the Investment Manager is responsible for providing to the Funds; and conditions that might affect the Investment Manager's or the Sub-Adviser's ability to provide high quality services to the Funds in the future under the Agreements, including each organization's respective business reputation, financial condition and operational stability. Based on the foregoing, the Trustees concluded that the Sub-Adviser's investment process, research capabilities and philosophy were well suited to each of the Funds given their respective investment objectives and policies, and that the Investment Manager and the Sub-Adviser would be able to continue to meet any reasonably foreseeable obligations under the Agreements.

## Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-CSRS

Based on information provided by Lipper, the Trustees also reviewed each Fund's total return investment performance as well as the performance of comparable funds identified by Lipper. In the course of their deliberations, the Trustees took into account information provided by the Investment Manager in connection with the contract review meeting, as well as during investment review meetings conducted with portfolio management personnel during the course of the year regarding each Fund's performance.

## **PIMCO Municipal Income Funds II**

### **Matters Relating to the Trustees Consideration of the Investment Management and Portfolio Management Agreements (unaudited)**

In assessing the reasonableness of each Fund's fees under the Agreements, the Trustees considered, among other information, each Fund's management fee and the total expense ratio as a percentage of average net assets attributable to common and preferred shares and the management fee and total expense ratios of comparable funds identified by Lipper.

For each of the Funds, the Trustees specifically took note of how each Fund compared to its Lipper peers as to performance, management fee expenses and total expenses. The Trustees noted that the Investment Manager had provided a memorandum containing comparative information on the performance and expenses information of the Funds compared to their Lipper peer categories. The Trustees noted that while the Funds are not charged a separate administration fee, it was not clear whether the peer funds in the Lipper categories were charged such a fee by their investment managers.

#### **Municipal Income II:**

The Trustees noted that the expense group for Municipal Income II consisted of twelve funds. The Trustees also noted that the actual management fees were the same as the median and the actual total expenses were worse than the median. The Trustees discussed Municipal Income II's fifth quintile performance for the one-, three-, five-year periods ended March 31, 2009, with over 56 funds in the peer group for the one- and three-year periods and 55 funds in the peer group for the five-year period. The Trustees also noted that for the 3-months and year-to-date period ended May 31, 2009, Municipal Income II had top quintile performance.

#### **California Municipal Income II**

The Trustees noted that the expense group for California Municipal II consisted of fourteen funds. The Trustees also noted the actual management fees and the actual total expenses were both worse than the median. The Trustees discussed California Municipal Income II's bottom quintile performance for the 1-, 3- and 5-year periods ended March 31, 2009 with 22 funds in the peer group. However, for the 3-months and year-to-date periods ended May 31, 2009, the Trustees noted California Municipal Income II had top quintile performance for the 3-month period and second quintile performance for the year-to-date period ended May 31, 2009.

#### **New York Municipal Income II**

The Trustees noted that the expense group for New York Municipal Income II consisted of thirteen funds. The Trustees also noted that the actual management fees and the actual total expenses were both worse than the median. The Trustees discussed New York Municipal Income II's bottom quintile performance for the 1-, 3- and 5-year periods ended March 31, 2009 with 15 funds in the peer group. However, for the 3-months and year-to-date periods ended May 31, 2009, the Trustees noted that New York Municipal Income II had moved into the top quintile.

At the request of the Trustees, the Investment Manager and Sub-Adviser agreed to provide performance information related to the Funds on a monthly basis.

After reviewing these and related factors, the Trustees concluded, within the context of their overall conclusions regarding the Agreements, that they were satisfied with the Investment Manager's and the Sub-Adviser's responses and efforts to continue to improve the Funds' investment performance. The Trustees agreed to reassess the services provided by the Investment Manager and Sub-Adviser under the Agreements in light of the Funds' ongoing performance at each quarterly Board meeting.

The Trustees also considered the management fees charged by Sub-Adviser to other clients. The Trustees noted that the management fees paid by the Funds are generally higher than the fees paid by the open-end funds offered for comparison but were advised that there are often additional portfolio management challenges in managing the Funds, such as the use of leverage and meeting a regular dividend.

The Trustees also took into account that the Funds have preferred shares outstanding, which increases the amount of fees received by the Investment Manager and the Sub-Adviser under the Agreements (because the fees are calculated based on either a Fund's net assets or total managed assets, including assets attributable to preferred shares and other forms of leverage outstanding, as applicable). In this regard, the Trustees took into account that the Investment Manager and the Sub-Adviser have a financial incentive for the Funds to continue to have preferred shares and other forms of leverage outstanding, which may create a conflict of interest between the Investment Manager and the Sub-Adviser, on one hand, and a Fund's common shareholders, on the other. In this regard, the Trustees considered information provided by the Investment Manager and the Sub-Adviser indicating that each Fund's use of leverage through preferred shares continues to be appropriate and in the interests of the respective Fund's common shareholders.

## PIMCO Municipal Income Funds II

### **Matters Relating to the Trustees Consideration of the Investment Management and Portfolio Management Agreements (unaudited)**

Based on a profitability analysis provided by the Investment Manager, the Trustees also considered the estimated profitability of the Investment Manager and the Sub-Adviser from their relationship with each Fund and determined that such profitability was down from last year and did not appear to be excessive.

The Trustees also took into account that, as closed-end investment companies, the Funds do not currently intend to raise additional assets, so the assets of the Funds will grow (if at all) only through the investment performance of each Fund. Therefore, the Trustees did not consider potential economies of scale as a principal factor in assessing the fee rates payable under the Agreements.

Additionally, the Trustees considered so-called fall-out benefits to the Investment Manager and the Sub-Adviser, such as reputational value derived from serving as Investment Manager and Sub-Adviser to the Funds.

After reviewing these and other factors described herein, the Trustees concluded with respect to each Fund, within the context of their overall conclusions regarding the Agreements and based on the information provided and related representations made by management, that the fees payable under the Agreements represent reasonable compensation in light of the nature and quality of the services being provided by the Investment Manager and Sub-Adviser to the Funds.

**PIMCO Municipal Income Funds II****Annual Shareholder Meetings Results/  
Proxy Voting Policies & Procedures**  
(unaudited)**Annual Shareholder Meetings Results:**

The Funds held their joint annual meetings of shareholders on December 18, 2009. Common/Preferred shareholders voted as indicated below:

	Affirmative	Withheld Authority
<b><u>Municipal II:</u></b>		
Re-election of Robert E. Connor Class I to serve until 2012	53,806,374	2,503,163
