Who is Entitled to Vote?

We have fixed the close of business on April 28, 2014, as the record date for shareholders entitled to receive notice of and to vote at our annual meeting. Only holders of record of First Financial's common stock on that date are entitled to receive notice of and to vote at the annual meeting. You are entitled to one vote for each share of First Financial common stock you own, unless you own more than 10 percent of First Financial's outstanding shares. As provided in our Articles of Incorporation, record holders of common stock who beneficially own in excess of 10 percent of First Financial's outstanding shares are not entitled to any vote in respect of the shares held in excess of the 10 percent limit unless our Board of Directors has granted permission in advance. On April 28, 2014, there were 16,454,139 shares of First Financial common stock outstanding and entitled to vote at the annual meeting.

How Do I Vote at the Annual Meeting?

Proxies are solicited to provide all shareholders on the voting record date an opportunity to vote on matters scheduled for the annual meeting and described in these materials. This question provides voting instructions for shareholders of record. You are a shareholder of record if your shares of First Financial common stock are held in your name. If you are a beneficial owner of First Financial common stock held by a broker, bank or other nominee (i.e., in "street name"), please see the instructions in the following question.

Shares of First Financial common stock can only be voted if the shareholder is present in person or by proxy at the annual meeting. To ensure your representation at the annual meeting, we recommend you vote by sending in the proxy card even if you plan to attend the annual meeting. You can also vote by telephone or the Internet by following the instructions on the proxy card. You can always change your vote at the meeting if you are a shareholder of record.

Voting instructions are included on your proxy card. Shares of First Financial common stock represented by properly executed proxies will be voted by the individuals named on the proxy card in accordance with the shareholder's instructions. Where properly executed proxies are returned to us with no specific instruction as how to vote at the annual meeting, the persons named in the proxy will vote the shares "FOR" the election of each of our director nominees, "FOR" advisory approval of the compensation of our executive compensation as disclosed in this Proxy Statement and "FOR" the ratification of the appointment of Moss Adams LLP as our independent auditor. If any other matters are properly presented at the annual meeting for action, the persons named in the enclosed proxy and acting thereunder will have the discretion to vote on these matters in accordance with their best judgment. We do not currently expect that any other matters will be properly presented for action at the annual meeting.

You may receive more than one proxy card depending on how your shares are held. For example, you may hold some of your shares individually, some jointly with your spouse and some in trust for your children. In this case, you will receive three separate proxy cards to vote.

What if My Shares Are Held in Street Name?

If you are the beneficial owner of shares held in “street name” by a broker, your broker, as the record holder of the shares, is required to vote the shares in accordance with your instructions. If you do not give instructions to your broker, your broker may vote the shares with respect to discretionary items, but will not be permitted to vote your shares with respect to non-discretionary items, pursuant to current industry practice. In the case of non-discretionary items, the shares not voted will be treated as “broker non-votes.” The proposal to elect directors and the advisory vote to approve executive compensation are considered non-discretionary items; therefore, you must provide instructions to your broker in order to have your shares voted on these proposals.

If your shares are held in street name, you will need proof of ownership to be admitted to the annual meeting. A recent brokerage statement or letter from the record holder of your shares are examples of proof of ownership. If you want to vote your shares of common stock held in street name in person at the annual meeting, you will have to get a written proxy in your name from the broker, bank or other nominee who holds your shares.

How Will My Shares of Common Stock Held in the Employee Stock Ownership Plan Be Voted?

We maintain the First Financial Northwest, Inc. Employee Stock Ownership Plan (“ESOP”) for the benefit of our employees. Each participant may instruct the trustee how to vote the shares of First Financial common stock allocated to his or her account under the ESOP by completing the voting instruction sheet distributed by the administrator. If a participant properly executes the voting instruction sheet, the administrator will instruct the trustee to vote the participant’s shares in accordance with the participant’s instructions. Unallocated shares of First Financial common stock held in the ESOP will be voted by the trustee in the same proportion as shares for which the trustee has received voting instructions. Allocated shares for which proper voting instructions are not received shall be voted by the trustee in the manner directed by the administrator. The administrator of the ESOP is Crowe Horwath.

How Many Shares Must Be Present to Hold the Meeting?

A quorum must be present at the meeting for any business to be conducted. The presence at the meeting, in person or by proxy, of at least a majority of the shares of First Financial common stock entitled to vote at the annual meeting as of the record date will constitute a quorum. Proxies received but marked as abstentions and broker non-votes will be included in the calculation of the number of shares considered to be present at the meeting.

What if a Quorum Is Not Present at the Meeting?

If a quorum is not present at the scheduled time of the meeting, a majority of the shareholders present or represented by proxy may adjourn the meeting until a quorum is present. The time and place of the adjourned meeting will be announced at the time the adjournment is taken, and no other notice will be given unless the adjourned meeting is set to be held 120 days or more after the original meeting. An adjournment will have no effect on the business that may be conducted at the meeting.

Vote Required to Approve Proposal 1: Election of Directors

Directors are elected by a plurality of the votes cast, in person or by proxy, at the annual meeting by holders of First Financial common stock. Our Nominating and Corporate Governance Committee has nominated, and our Board of Directors has ratified, the nomination of three candidates for election as directors. Pursuant to our Articles of Incorporation, shareholders are not permitted to cumulate their votes for the election of directors. Votes may be cast for or withheld from each nominee. Votes that are withheld and broker non-votes will have no effect on the outcome of the election because the three nominees receiving the greatest number of votes will be elected. Our Board of Directors unanimously recommends that you vote “FOR” the election of each of its director nominees.

Vote Required to Approve Proposal 2: Advisory Approval of Executive Compensation

Approval of the advisory (non-binding) vote on executive compensation requires the affirmative vote of a majority of the votes cast, in person or by proxy, at the annual meeting. Abstentions and broker non-votes will have no effect on the proposal. Our Board of Directors unanimously recommends that you vote “FOR” approval of the compensation of our named executive officers.

Vote Required to Approve Proposal 3: Ratification of the Appointment of the Independent Auditor

Ratification of the appointment of Moss Adams LLP as our independent auditor for the fiscal year ending December 31, 2014, requires the affirmative vote of a majority of the votes cast, in person or by proxy, at the annual meeting. Abstentions will have no effect on the proposal. Our Board of Directors unanimously recommends that you vote "FOR" the ratification of the appointment of the independent auditor.

May I Revoke My Proxy?

You may revoke your proxy before it is voted by:

- submitting a new proxy with a later date;
- notifying the Secretary of First Financial in writing (or if you hold your shares in street name, your broker, bank or other nominee) before the annual meeting that you have revoked your proxy; or
- voting in person at the annual meeting.

If you plan to attend the annual meeting and wish to vote in person, we will give you a ballot at the annual meeting. However, if your shares are held in street name, you must bring a validly executed proxy from the nominee indicating that you have the right to vote your shares.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth, as of April 28, 2014, the voting record date, information regarding share ownership of:

- those persons or entities (or groups of affiliated persons or entities) known by management to beneficially own more than five percent of First Financial's common stock other than directors and executive officers;
- each director and director nominee of First Financial;
- each executive officer of First Financial or any of its subsidiaries named in the Summary Compensation Table appearing under "Executive Compensation" above (known as "named executive officers"); and
- all current directors and executive officers of First Financial and its subsidiaries as a group.

Persons and groups who beneficially own in excess of five percent of First Financial's common stock are required to file with the Securities and Exchange Commission ("SEC"), and provide us a copy of the report disclosing their ownership pursuant to the Securities Exchange Act of 1934. To our knowledge, no other person or entity, other than the ones set forth below, beneficially owned more than five percent of the outstanding shares of First Financial's common stock as of the close of business on the voting record date.

Beneficial ownership is determined in accordance with the rules and regulations of the SEC. In accordance with Rule 13d-3 of the Securities Exchange Act, a person is deemed to be the beneficial owner of any shares of common stock if he or she has voting and/or investment power with respect to those shares. Therefore, the table below includes shares owned by spouses, other immediate family members in trust, shares held in retirement accounts or funds for the benefit of the named individuals, shares held in the ESOP, and other forms of ownership, over which shares the persons named in the table may possess voting and/or investment power. In addition, in computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of common stock subject to outstanding options that are currently exercisable or exercisable within 60 days after April 28, 2014, are included in the number of shares beneficially owned by the person and are deemed outstanding for the purpose of calculating the

person's percentage ownership. These shares, however, are not deemed outstanding for the purpose of computing the percentage ownership of any other person.

As of April 28, 2014, the voting record date, there were 16,454,139 shares of First Financial common stock outstanding.

PROPOSAL 1 – ELECTION OF DIRECTORS

Our Board of Directors currently consists of eight members and is divided into three classes. Approximately one-third of the directors are elected annually to serve for a three-year period or until their respective successors are elected and qualified. Effective September 1, 2013, Victor Karpiak retired and Richard P. Jacobson was appointed to fill the vacancy. Mr. Jacobson was recommended as a director by an independent director of First Financial. In January 2014, Mr. Anderson notified the Board of Directors that he will retire at the annual meeting of shareholders and will not seek reelection. The Board has amended First Financial's Bylaws to reduce the size of the Board from eight to seven members, effective upon Mr. Anderson's retirement.

The table below sets forth information regarding each director of First Financial and each Board nominee for director. The Nominating and Corporate Governance Committee of the Board of Directors selects nominees for election as directors. All of our nominees currently serve as First Financial directors. Each nominee has consented to being named in this Proxy Statement and has agreed to serve if elected. It is intended that the proxies solicited on behalf of the Board of Directors (other than proxies in which the vote is withheld as to the nominee) will be voted at the annual meeting for the election of the nominees identified in the table below. If a nominee is unable to stand for election, the Board of Directors will select a substitute nominee. If a substitute nominee is selected, the proxy holders will vote your shares for the substitute nominee, unless you have withheld authority. At this time, we are not aware of any reason why a nominee might be unable to serve if elected.

The Board of Directors recommends a vote “FOR” the election of Gary F. Kohlwes, Joseph W. Kiley III and Richard P. Jacobson.

MEETINGS AND COMMITTEES OF THE BOARD OF DIRECTORS
AND CORPORATE GOVERNANCE MATTERS

Board of Directors

The Boards of Directors of First Financial and First Savings Bank conduct their business through board and committee meetings. During the fiscal year ended December 31, 2013, the Board of Directors of First Financial held 13 meetings and the Board of Directors of the Bank held 12 meetings. No director of First Financial or the Bank attended fewer than 75 percent of the total meetings of the boards and committees on which that person served during this period.

Committees and Committee Charters

The Board of Directors of First Financial has standing Audit/Compliance/Risk, Compensation and Awards, Nominating and Corporate Governance, and Executive committees. The Board has adopted written charters for the

Audit/Compliance/Risk, Compensation and Awards, and Nominating and Corporate Governance committees, copies of which are available on our website at www.fsbw.com.

Audit/Compliance/Risk Committee. The Audit/Compliance/Risk Committee consists of Directors Kohlwes (Chair), Faull and Lee. The Committee meets at least quarterly to oversee the integrity of the financial reporting process, external and internal audits, third party credit reviews, determination of the adequacy of the allowance for loan and lease losses and the system of internal control. The Committee also appoints the independent auditor and retains service providers for internal audit and third party credit reviews, and reviews the various reports prepared by the independent auditor and the other service providers it appoints. The Audit/Compliance/Risk Committee met 17 times during the year ended December 31, 2013.

Each member of the Audit/Compliance/Risk Committee is “independent” in accordance with the requirements for companies listed on Nasdaq. In addition, the Board of Directors has determined that Ms. Lee meets the definition of “audit committee financial expert,” as defined by the SEC.

Compensation and Awards Committee. The Compensation and Awards Committee consists of Directors Lee (Chair), Kohlwes, Anderson, Padrick, Faull and Stevens. The Committee meets at least twice a year to provide oversight regarding personnel, compensation and benefits related matters. The Committee is also responsible for evaluating First Financial’s Chief Executive Officer and making recommendations to the full Board regarding director compensation. Each member of the Committee is “independent,” in accordance with the requirements for companies listed on Nasdaq. This Committee met six times during the year ended December 31, 2013.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee, which currently consists of Directors Anderson (Chair), Padrick and Kohlwes, assures that we maintain the highest standards and best practices in all critical areas relating to the management of the business of First Financial. The Committee also selects nominees for the election of directors and assesses Board and committee membership needs. The Committee meets at least twice a year. Each member of the Committee is “independent,” in accordance with the requirements for companies quoted on Nasdaq. This Committee met five times during the year ended December 31, 2013.

Only those nominations made by the Nominating and Corporate Governance Committee or properly presented by shareholders will be voted upon at the annual meeting. In its deliberations for selecting candidates for nominees as director, the Committee considers the candidate’s knowledge of the banking business, including regulatory and compliance matters, strategic planning, finance, accounting and overall best industry practices. The Committee also considers the candidate’s involvement in community, business and civic affairs, and whether the candidate would provide for adequate representation of First Savings Bank’s market area. Any nominee for director made by the Committee must be highly qualified with regard to some or all these attributes. The Committee strives to have a Board with diverse experience in areas relevant to First Financial’s business. In searching for qualified director candidates to fill vacancies on the Board, the Committee solicits its current Board of Directors for names of potentially qualified candidates. Additionally, the Committee may use the services of a professional search firm to solicit qualified candidates. The Committee would then consider the potential pool of director candidates, select the candidate it believes best meets the then-current needs of the Board, and conduct a thorough investigation of the proposed candidate’s background to ensure there is no past history that would cause the candidate not to be qualified to serve as one of our directors. Although the Nominating and Corporate Governance Committee charter does not specifically provide for the consideration of shareholder nominees for directors, the Committee will consider director candidates recommended by a shareholder that are submitted in accordance with our Articles of Incorporation. Because our Articles of Incorporation provide a process for shareholder nominations, the Committee did not believe it was necessary to provide for shareholder nominations of directors in its charter. If a shareholder submits a proposed nominee, the Committee would consider the proposed nominee, along with any other proposed nominees recommended by members of our Board of Directors, in the same manner in which the Committee would evaluate its nominees for director. For a description of the proper procedure for shareholder nominations, see “Shareholder Proposals” in this Proxy Statement.

As noted above, the Nominating and Corporate Governance Committee considers a number of criteria when selecting new members of the Board. Those criteria as well as having strong personal attributes, including a record of achievement and an understanding of diverse backgrounds and experience, are considered to provide for diversity on our Board of Directors. These diversity factors are considered when the Nominating and Corporate Governance Committee and Board are seeking to fill a vacancy or new seat on the Board.

Executive Committee. The Executive Committee, consisting of Director Kiley (Chair) and any two non-employee directors, acts for the Board of Directors when formal Board action is required between regular meetings. The Committee has the authority to exercise all powers of the full Board of Directors, except that it does not have the power to act in place of the Audit, Compensation, or Nominating and Corporate Governance committees. The Executive Committee did not meet during the year ended December 31, 2013.

Leadership Structure

In 2013, the Board decided to separate the roles of Chairman and Chief Executive Officer with the role of Chairman now being filled by an independent director to provide more independent oversight. To supplement information flow, the entire Management Committee, which represents all business lines, attends each Board Meeting. The Board recognizes that independent directors and management have different perspectives and roles in developing our strategy. Our independent directors bring experience, oversight and expertise from outside First Financial and the financial services industry, while the Chief Executive Officer brings a wealth of banking expertise. The Board believes that separating the roles of Chairman and Chief Executive Officer promotes a more dynamic strategic development and provides independent oversight, which are important to effective governance.

One of the key responsibilities of the Board is to develop strategic direction and hold management accountable for the execution of that strategy once it is developed. To provide oversight and balance to management, the Board has established a practice of holding executive sessions consisting of non-management directors as needed. The non-management directors also meet with independent service providers, such as the independent auditor, credit reviewer and internal auditor, as needed. The Chairman, or in his absence, a lead independent director, facilitates each executive session and is responsible for consulting with the Chief Executive Officer, acting as a liaison between management and the non-management directors.

Board Involvement in Risk Management Process

The Board of Directors and committees take an active role in overseeing management of First Financial's risks. The Board regularly reviews information regarding our asset quality, liquidity, operations and regulatory standings, as well as the risks associated with each. The Compensation and Awards Committee is responsible for overseeing the management of risks relating to our executive compensation plans and arrangements. To mitigate excessive risk taking by management, all incentive compensation plans remain strictly subjective and awards are made at the Committee's sole discretion based on overall corporate performance, peer group data, management's collective contribution and individual performance measurements. The Audit/ Compliance/Risk Committee oversees management of financial risks, including reviewing audited financial statements, engaging independent external auditors and internal auditors, and conducting discussions with management regarding quarterly and annual public filings. Our Nominating and Corporate Governance Committee manages risks associated with the independence of the Board of Directors and potential conflicts of interest. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board of Directors is regularly informed through committee reports about these risks.

As a result of First Savings Bank's improved financial condition, the Bank's Board of Directors changed its committee structure in 2013. The revised committee structure is intended to increase the Board's oversight of the risk typically associated with the growth of the Bank. In recent years, the focus has been on the oversight of the Bank's asset quality and resolving regulatory matters, which had required the Bank to suppress its growth. Now that the Bank is positioned for growth, additional emphasis will be placed on: (1) lending oversight through the Directors' Loan Committee; (2) asset/liability management through a newly formed Bank Investments and Asset Liability Committee; and (3) asset classification and loan loss estimates through a newly formed Bank Internal Asset Review Committee. It is expected that these new Bank Board committees will provide more independent Board oversight and will reduce the scope and frequency of meetings of the First Financial's Audit/Compliance/Risk Committee.

Corporate Governance

We are committed to establishing and maintaining high standards of corporate governance. Our executive officers and Board of Directors have worked together to establish a comprehensive set of corporate governance

initiatives that they believe will serve the long-term interests of our shareholders and employees. These initiatives are intended to comply with the provisions contained in the Sarbanes-Oxley Act of 2002, the rules and regulations of the SEC adopted thereunder, and the Nasdaq rules. Our Board of Directors will continue to evaluate and improve our corporate governance principles and policies as necessary and as required.

Director Independence. Our common stock is listed on the Nasdaq Global Select Market. In accordance with Nasdaq requirements, at least a majority of our directors must be independent directors. The Board has determined that six of our eight directors are independent, as defined by Nasdaq. Directors Kohlwes, Faull, Lee, Anderson, Stevens and Padrick are all independent.

Code of Business Conduct and Ethics. On June 19, 2013, the Board of Directors approved the Code of Business Conduct and Ethics. The Code is applicable to each of our directors, officers, including the principal executive officer and senior financial officers, and employees and requires individuals to maintain the highest standards of professional conduct. A copy of the Code of Business Conduct and Ethics is available on our website at www.fsbnw.com.

Shareholder Communication with the Board of Directors. The Board of Directors welcomes communication from shareholders. Shareholders may send communications to the Board of Directors, First Financial Northwest, Inc., 201 Wells Avenue South, Renton, Washington 98057. Shareholders should indicate clearly the director or director(s) to whom the communication is being sent so that each communication may be forwarded appropriately.

Annual Meeting Attendance by Directors. First Financial encourages, but does not require, its directors to attend the annual meeting of shareholders. All directors attended last year's annual meeting of shareholders.

Transactions with Related Persons. First Savings Bank has followed a policy of granting loans to officers and directors that fully complies with all applicable federal regulations. Loans to directors and executive officers are made in the ordinary course of business and on the same terms and conditions as those of comparable transactions with all customers prevailing at the time, in accordance with our underwriting guidelines, and do not involve more than the normal risk of collectibility or present other unfavorable features.

All loans made to our directors and executive officers are subject to federal regulations restricting loans and other transactions with affiliated persons of First Savings Bank. Loans and available lines of credit to all directors and executive officers and their associates totaled approximately \$548,000 at December 31, 2013, which was less than one percent of our equity at that date. All loans to directors and executive officers were performing in accordance with their terms at December 31, 2013. Total deposits of directors and executive officers were approximately \$1.9 million at December 31, 2013.

We recognize that transactions between First Financial, First Financial Diversified or First Savings Bank and any of its directors or executive officers can present potential or actual conflicts of interest and create the appearance that these decisions are based on considerations other than our best interests. Therefore, as a general matter, and in accordance with the First Financial Code of Business Conduct and Ethics Policy, it is our preference to avoid such transactions. Nevertheless, we recognize that there are situations where such transactions may be in, or may not be inconsistent with, our best interests. Accordingly, we have adopted an informal policy that requires the Compensation and Awards Committee to review and, if appropriate, to approve or ratify any such transaction. In the event that a member of the Committee is a participant in the transaction, then that member is required to abstain from the discussion, approval or ratification process. Pursuant to the policy, the Committee will review any transaction in which First Financial or the Bank is or will be a participant and the amount involved exceeds \$120,000, and in which any of the directors or executive officers had, has or will have a direct or indirect material interest. After its review, the Committee will only approve or ratify those transactions that are in, or are not inconsistent with, our best interests, as the Committee determines in good faith.

Non-employee directors receive a semi-annual retainer of \$10,000 (\$20,000 annually), a fee of \$1,200 for each Board meeting attended in person (\$600 for each meeting attended telephonically), with the Chairman receiving an additional \$450 per meeting. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

In this section, we will give an overview of our compensation program, the material compensation decisions we have made under the program and the material factors that we considered in making those decisions. Following this discussion, in the section entitled “Executive Compensation,” we provide a series of tables containing specific information about the compensation earned or paid to the following officers, who are known as our named executive officers:

Joseph W. Kiley III, President and Chief Executive Officer
Richard P. Jacobson, Chief Operating Officer and Chief Financial Officer
Herman L. Robinson, Senior Vice President and Chief Credit Officer
Simon Soh, Senior Vice President and Chief Lending Officer
Ronnie Clariza, Senior Vice President and Chief Risk Officer
Victor Karpiak, former President and Chief Executive Officer
Kari A. Stenslie, former Vice President and Chief Financial Officer

All compensation matters concerning our executive and non-executive officers are made at the sole discretion of the Compensation and Awards Committee, which is comprised of all independent directors. Compensation determinations are made based on the Compensation and Awards Committee's independent review of management recommendations and peer group surveys, for both base salary and total compensation. The peer group data is derived from the Northwest Financial Industry Survey prepared by Milliman, Inc., a global firm of consultants and actuaries serving the full spectrum of business, governmental and financial organizations since 1947, and in association with the Washington Bankers Association and the Oregon Bankers Association. In addition, the Compensation and Awards Committee engaged a compensation consultant in 2013 to review officer and non-officer compensation. The results of this review are discussed below.

The Chief Executive Officer's role is limited to providing information regarding the executive and non-executive officers to the Compensation and Awards Committee Chair, which includes salary and bonus histories for the past three years, performance highlights, level of responsibility and compensation recommendations for each officer. The Chief Executive Officer does not provide any recommendation with respect to his individual compensation. Following receipt of this information, the Compensation and Awards Committee Chair reviews the selected materials along with supplemental information independently acquired. The Chair's analysis is then incorporated into a summary packet that is provided to the Compensation and Awards Committee for their review prior to a regularly scheduled meeting. At the Committee meeting, the Chair makes salary and bonus recommendations that are considered by the Committee, however, the Compensation and Awards Committee makes the final decision and may adjust the compensation levels until a unanimous agreement is reached. In its deliberations, the Compensation and Awards Committee focuses on corporate performance, position emphasis, retention issues and management development. To further supplement its analysis, the Compensation and Awards Committee uses the services of compensation consultants on an as needed basis.

The discussion below is intended to help understand the detailed information provided in the executive compensation tables and put that information into context within our overall compensation program.

2013 Compensation Highlights.

The Board of Directors of First Financial, at its January 2013 meeting, elected to freeze the Pentegra Defined Benefit Plan effective, March 31, 2013. Freezing the plan eliminates all future benefit accruals for employees. Each employee's accrued benefit was determined as of March 31, 2013.

In 2013, the Compensation and Awards Committee retained the services of a consulting firm, third party compensation specialist, Meyer-Chatfield Compensation Advisors, Inc. They were engaged to initially review non-officer incentive plans, which is still in progress in early 2014, as well as analyze officer cash and incentive plans. Meyer Chatfield is currently performing a full market, industry-specific, benchmarking analysis of the Company's incentive plans for both officers and non-officers, and will continue to review cash compensation for our officers to ensure competitive compensation within our industry.

Additionally, in 2013, the Board and management also took steps to control health care costs in 2014, and beyond, by engaging Kibble and Prentice, an employee benefits consulting firm. Kibble and Prentice conducted a full market

review to ensure competitive rates and benefit plan options for all employees and dependents. On January 1, 2014, First Savings Bank implemented new healthcare benefit plans that not only meet the Affordable Health Care Act requirements, but also offer more cost effective options to employees, including additional benefit offerings in 2014 as outlined below. In 2013, First Savings Bank also eliminated its major medical program as a cost savings measure, and implemented competitive long-term and short-term disability coverage benefit plans in 2013.

Compensation Philosophy and Objectives. Our overall goal in compensating executive officers is to attract, retain and motivate key executives of proven ability who are critical to our future success. We believe that short-term incentive compensation paid to executive officers should be directly aligned First Savings Bank's performance and that compensation should be structured to ensure achievement of financial and operational goals along with other factors that impact corporate value. Our long-term incentive is in the form of an employee stock option plan, which is tied to longevity.

Our compensation decisions with respect to executive officer salaries and incentive compensation, are influenced by: (1) the executive's level of responsibility and function within the organization; (2) the overall performance and profitability of First Savings Bank; and (3) our assessment of the competitive marketplace, including other peer companies. Our philosophy is to focus on total direct compensation opportunities through a mix of base salary and annual incentive compensation.

Compensation Program Elements. The compensation program for executive officers consists of the elements described below.

The Compensation and Awards Committee of First Savings Bank has the responsibility for establishing and reviewing our compensation philosophy and objectives. In this role, the Committee has sought to design a compensation structure that attracts and retains qualified and experienced officers and, at the same time, is reasonable and competitive. Although First Savings Bank became a stock savings bank as a result of the mutual holding company reorganization in 2002, compensation paid to employees, officers and directors has consisted primarily of cash compensation, salary and bonuses, and retirement benefits. In 2008, shareholders approved our 2008 Equity Incentive Plan and we expected that equity-based compensation would be a more significant

component of management development in the future. As a result of the challenging operating environment over the past several years, however, equity compensation has been awarded primarily to new or newly-promoted officers.

Pay Philosophy and Competitive Standing. In general, we seek to provide competitive pay by targeting the 50th-75th percentile relative to a peer group for total compensation opportunities, including salaries and incentive compensation. It is First Saving Bank's intent to achieve an effective efficiency ratio, excellent asset quality, and a satisfactory regulatory standing; therefore, in the future, we will emphasize performance-based compensation over a fixed-salary pay structure.

With the assistance of Milliman, Inc., we receive and analyze competitive market data contained in the Northwest Financial Industry Salary Survey every year. The data is independently collected by Milliman and represents approximately 102 Northwest financial institutions ranging in asset size from \$40 million to several billion. The data is then grouped by collective asset sizes with the information adequately reflecting the complexities and compensation levels of peer group institutions. We compare compensation paid to our named executive officers with compensation paid to executive officers in comparable positions at similar size stock and mutual institutions. During 2013, our peer group consisted of the following financial institutions, with locations in Washington, Oregon and Idaho:

Bank of the Cascades	Pacific Continental Bank
Bank of the Pacific	Peoples Bank
First Federal of Port Angeles	Riverview Community Bank
Heritage Bank	Skagit State Bank
Home Federal Bank	Timberland Bank
Kitsap Bank	Whidbey Island Bank
Olympia Federal	

The peer group institutions range in asset size from \$588 million to \$1.7 billion, with an average asset size of approximately \$998 million. The peer group was selected based on asset size and geographic location.

Base Salary. The Chief Executive Officer makes initial base salary recommendations for employees to the Compensation and Awards Committee Chair that are based on individual salary history and the peer group data contained in the survey prepared by Milliman. Given the independence of the data on which these recommendations are made, historically there have been only slight modifications by the Compensation and Awards Committee. For 2013, the Compensation and Awards Committee reviewed the recommendations and established executive management salaries in accordance with its independent philosophy. For 2013, the Compensation and Awards Committee approved the base salaries of Messrs. Robinson, Soh and Clariza and submitted these determinations to the full Board of Directors for review. Messrs. Kiley and Jacobson's base salary was determined as part of the recruiting process. Mr. Kiley did not participate in Board discussions regarding his own compensation. In setting base salaries, the Compensation and Awards Committee used the information provided by Milliman, and also considered each executive's experience and tenure, our overall annual budget for merit increases and the executive's individual performance and changes in responsibility. The determination of the named executive officers' base salaries is a subjective determination with no specific criteria considered and, consequently, no particular weight is given to any single factor. The 2013 base salary for Mr. Clariza is \$140,000, and in early 2014, salaries for Messrs. Robinson and Soh were raised to \$210,000 and \$200,000, respectively. The Compensation and Awards Committee believes that the base salaries paid to each member of the senior management team is commensurate with the individual's duties, performance and range for the industry compared to our peer group. Salary levels are reviewed annually and base salary is not targeted at any particular percentage of total compensation.

Annual Incentive Compensation. The Annual Incentive Plan is intended to provide executive officers and staff with an opportunity to earn annual cash incentives based on our corporate performance as measured by our earnings, asset quality, loan growth, financial condition and satisfactory regulatory standing. The annual cash incentive payments are

determined at the discretion of the Compensation and Awards Committee, based on the recommendations of the Chief Executive Officer. In recent years, the downturns in economy and poor asset quality had impacted earnings negatively. Accordingly, incentive payments were not awarded to any staff or executive officer from 2009 to 2012. However, as a result of the new management team's efforts towards First Financial's return to profitability in 2013, its improved asset quality and complete removal of regulatory directives, the

Compensation and Awards Committee approved a discretionary bonus for all employees as of December 31, 2013. The Compensation and Awards Committee is currently considering whether to re-institute the Annual Incentive Plan for future fiscal years.

Long-term Incentive Compensation. A key component of management stability and institutional growth is the ability of a company to provide long-term incentives for its personnel. In 2008, the Board of Directors adopted the 2008 Equity Incentive Plan, which was then approved by shareholders. Under the plan, directors, officers and employees may receive awards of stock options, stock appreciation rights, restricted stock and restricted stock units. We believe that stock ownership by our officers is a significant factor in aligning the interests of the officers with those of shareholders. The ability to offer equity-based compensation provides a means for attracting and retaining directors and employees, and also provides an incentive to directors and officers to improve the long-term performance and market value of First Financial. Equity-based compensation serves as a long-term incentive because it has a five-year vesting schedule.

The 2008 Equity Incentive Plan is administered by the Compensation and Awards Committee, which makes all awards under the plan. The Committee makes its determinations on a discretionary basis, giving consideration to the following factors: corporate performance, contributory value, and anticipated future management role with respect to developing and implementing corporate objectives, financial goals and growth incentives. In 2013, Mr. Jacobson was granted 25,000 shares of restricted stock and 60,000 stock options as part of his employment package. Mr. Kiley was granted 50,000 shares of restricted stock and 50,000 stock options as part of his employment agreement in September 2012 and was granted another 50,000 stock options in September 2013. The Compensation and Awards Committee anticipates utilizing available awards primarily as part of incentive packages to attract additional senior management personnel, when appropriate.

Retirement Benefits. First Financial maintains, as part of its retirement benefit programs, the First Savings Bank Northwest Savings Plan (the “401(k) plan”) for the benefit of eligible employees, including the named executive officers, of First Financial and its subsidiaries, First Savings Bank and First Financial Diversified. The 401(k) plan is intended to be a tax-qualified retirement plan under Sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended. Employees of First Financial and its subsidiaries are eligible to participate in the 401(k) plan on the first of the month, following 60 days from hire. Generally, participants direct the investment of the plan assets.

For 2013, participants could contribute up to \$17,500 of their annual compensation through a pre-tax salary reduction election. Participants 50 years of age or more could elect to make an additional \$5,500 pre-tax salary reduction election. First Financial matches the first six percent of a participant’s pre-tax salary reduction contribution at the rate of 50 percent. To be eligible for a matching contribution, the participant must be actively employed during the pay period for which the match is allocated. Participants are, at all times, 100 percent vested in their salary reduction contributions; however, their related matching contributions are subject to a five-year vesting period with 20 percent vesting each year. For the fiscal year ended December 31, 2013, First Financial incurred a matching contribution-related expense of \$155,000 in connection with the 401(k) plan. For the 401(k) plan’s fiscal year ended December 31, 2013, employees contributed \$510,600 to the 401(k) plan.

First Savings Bank is a participating employer in a multiple-employer defined benefit plan (the “pension plan”), which provides a benefit upon retirement to eligible employees. The Board voted to freeze all accumulated pension plan benefits as of March 31, 2013, which means that employees with less than one year of service as of that date, or new employees hired subsequently, will not be eligible to participate in the plan and no new benefits will accrue to current participants under the plan after that date. Upon completion of five years of employment with First Financial or its subsidiaries, a participant is 100 percent vested. There is no provision for partial vesting. A participant’s full benefit under the pension plan is payable at age 65 with at least five years of benefit service, which is considered normal retirement. Early retirement benefit payments are available under the pension plan to participants upon attainment of age 45 and completion of five years of benefit service.

First Savings Bank also maintains an executive supplemental retirement plan for the benefit of certain executives. The plan is intended to provide supplemental benefits upon normal retirement or death prior to retirement. First Savings Bank entered into a participation agreement under the plan with Mr. Kiley effective July 1,

2013. The agreement provides for an annual pension of \$28,000 if he is employed by First Savings Bank upon attaining age 65.

Additional Benefits and Perquisites. At First Financial, an important part of our total compensation plan is the employee benefits program. We offer a comprehensive and flexible benefits plan on a non-discriminatory basis to support the basic health, welfare and retirement needs of all of our employees, including our named executive officers. The elements of the benefits plan include group policies for medical/dental/vision plans, paid time off (“PTO”) for vacation and illness, disability, life insurance, FSA/HSA pre-tax savings accounts, tuition reimbursement, bereavement leave and training. In January 2014, our benefit plans were changed to more cost effective offerings, with two choices: a base qualified, high-deductible health plan, which is at no cost to the employee, and a base buy-up option, the difference of which is charged to the employee. Additionally, employees are responsible for 50 percent of their dependent’s premiums. The Chief Executive Officer and Chief Financial Officer/Chief Operating Officer receive an automobile allowance. The Compensation and Awards Committee believes this benefit is appropriate because it assists them in fulfilling their employment obligations.

The named executive officers, along with all eligible employees, participate in our ESOP. Each eligible participant is allocated the same proportion that the participant’s compensation for the plan year bears to the total compensation of eligible participants for that year, subject to certain limitations regarding how much compensation is taken into account and how much can be allocated to a participant for a year.

Additional Considerations. Market data, individual performance, retention needs and internal pay equity have been the primary factors considered in decisions to materially adjust compensation. The accounting and tax treatment of compensation generally has not been a factor in determining the amounts of compensation for our executive officers. However, the Compensation and Awards Committee and management have considered the accounting and tax impact of various program designs to balance the potential cost to First Financial with the value to the employee.

Role of Executive Officers in Determining Compensation. Our Chief Executive Officer recommends to the Compensation and Awards Committee Chair base salary and actual bonus payouts for our named executive officers and all other officers (other than himself). Our Chief Executive Officer makes these recommendations to the committee based on data and analysis provided by Milliman in association with the Washington Bankers Association and the Oregon Bankers Association, qualitative judgments regarding individual performance and input from officers at all levels of management throughout First Savings Bank. Our Chief Executive Officer is not involved with any aspect of determining his own compensation as that function is performed by the Compensation and Awards Committee utilizing independent data contained in the Northwest Financial Industry Salary Survey prepared by Milliman in association with the Washington Bankers Association and the Oregon Bankers Association.

The compensation paid to Mr. Kiley is determined by the Compensation and Awards Committee based upon, among other factors, a review of First Savings Bank’s performance in comparison to the peer group included in the Northwest Financial Industry Salary Survey prepared by Milliman. The final compensation level is based on the peer group analysis contained in the survey and consideration is also given to First Savings Bank’s asset size, balance sheet complexity, corporate direction and management structure. No particular weight is given to any of these factors by the Compensation and Awards Committee and the final compensation level is based on a subjective determination by the Compensation and Awards Committee. Mr. Kiley’s compensation was determined as part of a competitive recruiting process that involved the advice of an executive search firm.

Shareholder Votes on Executive Compensation

Under the Dodd-Frank Wall Street Reform and Consumer Protection Act, we were required to include in our 2011 annual meeting proxy statement and present at the 2011 annual meeting two non-binding shareholder resolutions on executive compensation. The first resolution, also known as a say-on-pay vote, asked the shareholders to approve on

an advisory basis the compensation of our named executive officers as disclosed in last year's proxy statement. The second resolution allowed shareholders to cast an advisory vote on how often future shareholder votes on executive compensation should be held. Approximately 57 percent of the shares present at the meeting voted in favor of holding an annual vote on executive compensation. Although the shareholder vote on the frequency of future votes on executive compensation was non-binding, the Board of Directors and Compensation

and Awards Committee heeded shareholder opinion and will present an advisory vote to approve executive compensation annually. We will continue to hold annual advisory votes until the Board and Compensation and Awards Committee decide to hold the next shareholder advisory vote on the frequency of advisory votes, which must occur at least once every six years. The advisory vote to approve executive compensation will be included in the proxy statement for the 2014 annual meeting of shareholders.

Nearly 67 percent of the shares present at the 2013 annual meeting voted in favor of approving the compensation of the named executive officers as disclosed in the proxy statement. The Compensation and Awards Committee considered this vote as affirming its approach to executive compensation and used a similar approach as the prior year when it met to analyze and establish appropriate levels of 2014 executive compensation.

Compensation and Awards Committee Report

The Compensation and Awards Committee of the Board of Directors has reviewed and discussed the Compensation Discussion and Analysis contained above with management. Based on the Committee's review and the discussion with management with respect to the Compensation Discussion and Analysis, we recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Annual Report on Form 10-K.

The foregoing report is provided by the following directors, who are the members of the Compensation and Awards Committee:

Joann E. Lee (Chair)	Gary F. Faull
Robert L. Anderson	Dr. Gary F. Kohlwes
Kevin D. Padrick	Daniel L. Stevens

Compensation Policies and Risk

We believe that risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on First Financial. In addition, the Compensation and Awards Committee believes that the mix and design elements of the executive compensation package do not encourage management to assume excessive risks. As described in our Compensation Discussion and Analysis, compensation decisions are subjective, based on peer group compensation data, institutional profitability, management development, market measurements and overall corporate performance. The primary objective of the Compensation and Awards Committee is for management to be fairly compensated. We have accomplished this by maintaining base salaries in the upper tier range of published peer groups, by providing excellent employee medical and other related benefits, by granting personal days off and by offering participation in our ESOP.

Incentive compensation remains subjective and is typically determined by the Compensation and Awards Committee after their analysis of profitability, asset quality trends, peer group performance, satisfactory regulatory standing and current market conditions. Excessive risk-taking is further mitigated in that total incentive compensation reflects a percentage of net income as a basis of the bonus pool and further limitations include using a percentage of base salary as a maximum, with other restrictions in place for highly compensated individuals. This approach ensures that every employee benefits from the performance of First Financial.

Change in Pension Value and Nonqualified Deferred Compensation Earnings. This section describes the method of calculating the amounts in the “Change in Pension Value and Nonqualified Deferred Compensation Earnings” column in the table above and explains the relevance of these amounts. The values in this column represent the change in the present value from the prior year of the funds necessary to fully fund the pension and deferred compensation arrangements for the named executive officers. The calculations are dictated by accounting principles and are significantly impacted by changes in interest rates. An independent company administers the plans and calculates the actuarial present values, including the estimated interest rate used in the calculation.

In an attempt to better illustrate this topic, consider the following example: assume First Financial has an agreement in place with an executive officer that provides the officer with a retirement benefit of \$50,000 for a period of 10 years following retirement. If interest rate assumptions were not part of the equation, First Financial would need to ensure that it had \$500,000 available (\$50,000 per year times 10 years of retirement payments) to disburse to the officer over the 10 year period. In this example, First Financial would accrue for that benefit each year to ensure it will have exactly \$500,000 at the officer’s retirement date. However, because interest rates are required to be part of the equation (and rates are above zero), it is assumed that there will be interest earned on the retirement funds, both during the time of the executive officer’s employment and during the post-retirement payout period. Therefore, the amounts necessary to be set aside to fully fund the retirement obligation are lower (in some cases, significantly lower) when interest rates are part of the equation, because actual interest earned to partially fund the retirement payments is lower than those used to calculate the minimum required contribution. When interest rates fluctuate from year to year, the amount of minimum required contribution changes and can change dramatically. When rates decline during the year, more money needs to be set aside by First Financial since less interest will accrue to the funds, and when interest rates increase, lower amounts are necessary.

In the Summary Compensation Table, the leveling of the interest rate assumptions used for 2013 compared to 2012 resulted in a reduction in the change in accumulated pension benefits compared to 2012. In the case of Mr. Karpiak, the sustained higher level of interest rates resulted in the present value of accumulated benefits for his pension and Supplemental Retirement Agreement decreasing by \$247,000 for 2013 from 2012 and increasing by \$287,000 for 2012 from 2011.

All Other Compensation. The following table sets forth details of “All other compensation,” as presented above in the Summary Compensation Table. The amounts reflected constitute contributions by First Financial or First Savings Bank for 2013.

Employment Agreements. First Savings Bank entered into an amended employment agreement with Joseph W. Kiley III and an initial employment agreement with Richard P. Jacobson on December 2, 2013. Mr. Kiley's agreement is retroactive to the date of the original agreement of August 14, 2012, and Mr. Jacobson's agreement is effective as of July 9, 2013, the date he was hired. The agreements each have an initial term of three years and on each anniversary of the effective date of the agreement, the term of the agreement will be extended for an additional year, provided that within the 90 day period ending on such anniversary, First Savings Bank's Board of Directors does not inform the executive in writing that the agreement will not be extended. The agreements provide for an annual base salary of \$425,000 for Mr. Kiley and \$264,000 for Mr. Jacobson. Mr. Kiley's salary shall be reviewed by the Bank's Board of Directors each December during the term of the agreement. Under the agreements, the executives are eligible to participate in all Bank plans relating to retirement, thrift, profit-sharing, savings, group or other life insurance, hospitalization, medical and dental coverage, travel and accident insurance,

education, cash bonuses, and other retirement or employee benefits or combinations thereof in which the Bank's executive officers are eligible to participate. Mr. Kiley's agreement and Mr. Jacobson's job offer letter provide for temporary housing, relocation expenses and an automobile allowance. The employment agreements provide that compensation may be paid in connection with the termination of the executive's employment under a variety of scenarios, as described below under "Potential Payments Upon Termination."

Transition and Separation Agreements. On August 10, 2012, First Financial, First Savings Bank and First Financial Diversified entered into a transition agreement with Victor Karpiak to facilitate executive succession in connection with his proposed retirement. The agreement defined Mr. Karpiak's responsibilities and compensation during the transition period, effective with his resignation on September 17, 2012 as President and Chief Executive Officer of First Savings Bank and concluding with his retirement. Under the agreement, on September 17, 2012, Mr. Karpiak began a reduced work schedule that corresponded to his obligations under the transition agreement. Until his retirement on September 1, 2013, Mr. Karpiak's annualized salary was \$125,000 under the transition agreement. In addition, the transition agreement provided that Mr. Karpiak would continue to be compensated as a director and Chairman of First Savings Bank in compliance with the procedures for compensating directors described in "Directors' Compensation."

In connection with Mr. Karpiak's retirement, First Financial, First Savings Bank and First Financial Diversified entered into a separation agreement with him, effective September 1, 2013. Under the agreement, the employment agreement between Mr. Karpiak and the Bank and the transition agreement described above terminated as of September 1, 2013. The separation agreement provides that Mr. Karpiak receive severance compensation in an amount of \$181,106, payable until March 31, 2014, in equal amounts each payroll period in accordance with the Bank's regular payroll practices. In addition, the agreement also provides that Mr. Karpiak will receive, from September 1, 2013, until March 31, 2014, substantially the same group life insurance, hospitalization, medical, dental, prescription drug and other health benefits, and long-term disability insurance (if any) on the same terms as if he had not terminated employment. The agreement also provides that Mr. Karpiak was fully vested in the benefit under his executive supplemental retirement agreement as of September 1, 2013. Between September 1, 2013, and March 31, 2014, Mr. Karpiak has agreed to be available to First Financial, First Savings Bank and First Financial Diversified for consultation by telephone, or upon reasonable request, in person. The agreement contains customary confidentiality, non-disparagement, cooperation, and release and waiver of claims provisions.

Kari Stenslie, Vice President and Chief Financial Officer of First Financial and First Savings Bank since February 2008, separated from First Financial and First Savings Bank effective September 15, 2013 (the "separation date") as a result of a reorganization of senior executives. In connection with her departure, Ms. Stenslie entered into two separation agreements with the Bank, which provided for certain terms related to her separation from First Financial and the Bank. Under the first agreement, Ms. Stenslie received compensation based on her regular wages through the separation date, plus any accrued but unused paid time off and vacation, less all lawful and authorized deductions and withholdings on or before the next regular pay date after the separation date. Ms. Stenslie was on garden leave from August 15, 2013, until the separation date, during which time she received 50 percent of her regular salary. The first agreement also provided for continued vesting through the separation date of the restricted stock awarded to Ms. Stenslie on September 10, 2008. In addition, Ms. Stenslie was eligible to participate in the Bank's group medical/dental plan and other benefits plans and programs until the last day of September 2013. The second agreement provided that Ms. Stenslie was entitled to receive 12 weeks of salary, subject to all applicable taxes and withholdings and all authorized deductions. These amounts were paid in one lump sum to Ms. Stenslie.

(2) Pension Plan accumulated benefits are based on the present value of accumulated future payments over an anticipated post retirement life of 20 years using a 4.95 percent discount rate. Supplemental retirement agreement accumulated benefits reflect the

present value of 180 future annual payments at the eligibility date using a 2.5 percent discount rate.

First Savings Bank is a participating employer in a multiple-employer defined benefit plan (the “pension plan”), which provides a benefit upon retirement to eligible employees of First Savings Bank, First Financial and First Financial Diversified. Until March 31, 2013, all employees except those under specific agreement, who met the minimum requirements of one year of service, attainment of age 21 and completion of 1,000 hours of service in the 12 consecutive months following enrollment were eligible to participate. The Board of Directors voted to freeze all accumulated benefits as of March 31, 2013. As of that date, employees with less than one year of service, or new employees hired subsequently, may not participate in the plan and no new benefits accrued to participants after that date.

Upon completion of five years of employment with First Financial or its subsidiaries, participants are 100 percent vested. There is no provision for partial vesting. The service amounts shown in the table above represent actual years of credited service; no additional years of credited service have been granted to any named executive officer under the pension plan. Several forms of benefit payments are available under the pension plan. The pension plan offers a life annuity option, a 100 percent joint and survivor option with a ten-year certain feature, a 50

percent joint and survivor benefit option and a customized option. The benefit option must be elected by the participant before benefit payments begin. Benefits are based upon two percent for those hired prior to January 1, 2010, and one percent for those hired on or after January 1, 2010, times the number of years of service with First Financial and its subsidiaries times the average of the participant's eligible salary during the five years he or she was most highly compensated. Salary is defined as base rate of pay and does not include overtime, bonuses and other compensation. A participant's full benefit under the pension plan is payable at age 65 with at least five years of benefit service, which is considered normal retirement. Early retirement benefit payments are available under the pension plan to participants upon attainment of age 45 and completion of five years of benefit service. Annual benefits are reduced three percent for each year of payment before normal retirement based on the benefit formula described above. As of December 31, 2013, no named executive officers were eligible for early retirement benefits.

The executive supplemental retirement agreements provide benefits in addition to those provided by the pension plan. Mr. Kiley's agreement provides for an annual pension of \$28,000 if he is still employed by First Savings Bank upon attaining age 65. His benefit will commence following his separation from service, subject to a potential six-month delay to comply with federal tax laws affecting nonqualified deferred compensation plans, and will be paid in monthly installments over 15 years. In the event of Mr. Kiley's death prior to retirement but while still employed by First Savings Bank, his designated beneficiary would receive a lump sum benefit of \$200,000. As of December 31, 2013, Mr. Kiley was not eligible for retirement benefits under the agreement. Mr. Karpiak's agreement provides for an annual pension of \$78,000. Pursuant to the terms of his separation agreement, Mr. Karpiak is vested in his benefit and First Savings Bank began paying it on April 1, 2014, in monthly installments for 15 years.

Benefits earned under the agreements are paid from First Savings Bank's assets. It is management and the Board of Directors' intent to informally fund those payments with its bank-owned whole life insurance policies. The aggregate death benefit coverage from the policies is \$3.6 million. First Savings Bank is the beneficiary of these policies, and no participants will derive any personal benefits as a result of these policies.

Potential Payments Upon Termination

We have entered into agreements with the named executive officers that provide for potential payments upon disability, termination and death. These agreements are discussed in further detail following the table below. In addition, the pension plan and executive supplemental retirement agreement discussed above provide for payments upon early retirement or normal retirement. The following table shows, as of December 31, 2013, the value of potential payments and benefits following a termination of employment under a variety of scenarios.
