MMAX MEDIA, INC. AND SUSIDIARIES

(A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

AS OF JUNE 30, 2011 (UNAUDITED)

NOTE 1 ORGANIZATION, NATURE OF BUSINESS AND GOING CONCERN

(A)

Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all the information necessary for a comprehensive presentation of financial position and results of operations.

It is management's opinion however, that all material adjustments (consisting of normal recurring adjustments) have been made, which are necessary for a fair consolidated financial statements presentation. The results for the interim period are not necessarily indicative of the results to be expected for the year.

(B)

Organization

On March 16, 2011 (the Closing Date) MMAX Media, Inc. (MMAX) completed its agreement and plan of merger (the Merger Agreement) to acquire Hyperlocal Marketing, LLC, a Florida limited liability company (Hyperlocal), pursuant to which Hyperlocal merged with and into HLM Paymeon, Inc., a Florida corporation and wholly owned subsidiary of MMAX. Under the terms of the Merger Agreement, the Hyperlocal members received 20,789,395 shares of MMAX common stock, which equal approximately 50.1% of the total shares of MMAX issued and outstanding following the merger on a fully diluted basis. In accordance with ASC Topic 360-10-45-15, the transaction is accounted for as a reverse acquisition and Hyperlocal is considered the accounting acquirer and the acquiree is MMAX since the members of Hyperlocal obtained voting and management control of MMAX.

Hyperlocal Marketing, LLC was originally organized in the State of Florida on January 22, 2010. The Company has focused its efforts on organizational activities, raising capital, software development and evaluating operational opportunities.

Hyperlocal, is a development stage company, that owns and operates products aimed at the location-based marketing industry. Hyperlocal develops and markets products that provide merchants and consumers with mobile marketing services and offers, including but not limited to, mobile coupons, mobile business cards, mobile websites, use of SMS short codes and contest management. Hyperlocal has nominal revenues since its inception. Hyperlocal has also developed PayMeOn, a product designed to offer its customers income potential through the purchase and referral of coupon-style deals through its mobile and web interfaces

MMAX Media, Inc. and its wholly owned subsidiaries are herein referred to as the Company.

(C)

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of MMAX Media, Inc. from the acquisition date of March 16, 2011 to June 30, 2011 and its wholly owned subsidiaries, Hyperlocal Marketing, LLC. and HLM Paymeon, Inc. from January 22, 2010 (inception) through June 30, 2011. All intercompany accounts have been eliminated in the consolidation.

(D)

Going Concern

Since inception, the Company has incurred net operating losses and used cash in operations. As of June 30, 2011, the Company had an accumulated deficit of \$5,317,738 and used cash in operations of \$349,274 from inception and a working capital deficiency of \$8,680. Losses have principally occurred as a result of the substantial resources required for research and development and marketing of the Company's products which included the general and administrative expenses associated with its organization and product development and the impairment of goodwill and licenses in the amount of \$4,705,104 and \$1,454, respectively.

MMAX MEDIA, INC. AND SUSIDIARIES

(A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF JUNE 30, 2011 (UNAUDITED)

These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments to reflect the possible future effect on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the outcome of these uncertainties. Management believes that the actions presently being taken to obtain additional funding and implement its strategic plan provides the opportunity for the Company to continue as a going concern.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A)

Cash and Cash Equivalents

The Company considers investments that have original maturities of three months or less when purchased to be cash equivalents.

(B)

Use of Estimates in Financial Statements

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates during the period covered by these financial statements include the valuation of website costs, goodwill, stock based compensation and any beneficial conversion features on convertible debt.

(C)

Fair value measurements and Fair value of Financial Instruments

The Company adopted ASC Topic 820, Fair Value Measurements. ASC Topic 820 clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1-Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2-Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

Level 3-Inputs are unobservable inputs which reflect the reporting entity's own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The Company did not identify any assets or liabilities that are required to be presented on the balance sheets at fair value in accordance with ASC Topic 820.

Due to the short-term nature of all financial assets and liabilities, their carrying value approximates their fair value as of the balance sheet date.

(D)

Computer Equipment and Website Costs

Computer Equipment and Website Costs are capitalized at cost, net of accumulated depreciation. Depreciation is calculated by using the straight-line method over the estimated useful lives of the assets, which is three years for all categories. Repairs and maintenance are charged to expense as incurred. Expenditures for betterments and renewals are capitalized. The cost of computer equipment and the related accumulated depreciation are removed from the accounts upon retirement or disposal with any resulting gain or loss being recorded in operations.

Software maintenance costs are charged to expense as incurred. Expenditures for enhanced functionality are capitalized.

MMAX MEDIA, INC. AND SUSIDIARIES

(A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF JUNE 30, 2011 (UNAUDITED)

The Company has adopted the provisions of ASC 350-50-15, Accounting for Web Site Development Costs. Costs incurred in the planning stage of a website are expensed as research and development while costs incurred in the development stage are capitalized and amortized over the life of the asset, estimated to be three years.

(E)

Impairment of Long-Lived Assets

The Company evaluates its long-lived assets for impairment whenever events or a change in circumstances indicate that the carrying amount of such assets may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset to the future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is the excess of the carrying amount over the fair value of the asset.

(F)

Income Taxes

The Company accounts for income taxes under FASB Codification Topic 740-10-25 (ASC 740-10-25). Under ASC 740-10-25, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under ASC 740-10-25, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(G)

Revenue Recognition

The Company recognizes revenue on arrangements in accordance with FASB ASC No. 605, Revenue Recognition . In all cases, revenue is recognized only when the price is fixed and determinable, persuasive evidence of an arrangement exists, the service is performed and collectability of the resulting receivable is reasonably assured.

The Company recognizes revenue from the sale of keywords over the period the keywords are purchased for exclusive use, usually one year.

The Company recognizes revenue from setup fees in accordance with Topic 13, which requires the fees to be deferred and amortized over the term of the agreements. Revenue from the sale of bulk text messages sales are recognized at the time messages are delivered. Revenue from monthly membership fees are recorded during the month the membership is earned.

(H)

Segments

The Company operates in one segment and therefore segment information is not presented.

(I)

Loss Per Share

The basic loss per share is calculated by dividing the Company's net loss available to common shareholders by the weighted average number of common shares during the year. The diluted loss per share is calculated by dividing the Company's net loss available to common shareholders by the diluted weighted average number of shares outstanding during the period. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted for any potentially dilutive debt or equity. As of June 30, 2011 there are 277,733 preferred shares that are convertible into 2,777,330 shares of common stock, and 500,000 shares issuable upon the exercise of warrants were not included in the computation of dilutive loss per share because their inclusion is anti-dilutive. There are no dilutive securities outstanding as of June 30, 2010.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF JUNE 30, 2011 (UNAUDITED)

NOTE 3 RECENT ACCOUNTING PRONOUNCEMENTS

ASU No. 2011-02; A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring (TDR). In April, 2011, the FASB issued ASU No. 2011-02, intended to provide additional guidance to assist creditors in determining whether a restructuring of a receivable meets the criteria to be considered a troubled debt restructuring. The amendments in this ASU are effective for the first interim or annual period beginning on or after June 15, 2011, and are to be applied retrospectively to the beginning of the annual period of adoption. As a result of applying these amendments, an entity may identify receivables that are newly considered impaired. Early adoption is permitted. The Company intends to adopt the methodologies prescribed by this ASU by the date required, and is continuing to evaluate the impact of adoption of this ASU.

ASU No. 2011-03; Reconsideration of Effective Control for Repurchase Agreements. In April, 2011, the FASB issued ASU No. 2011-03. The amendments in this ASU remove from the assessment of effective control the criterion relating to the transferor's ability to repurchase or redeem financial assets on substantially the agreed terms, even in the event of default by the transferee. The amendments in this ASU also eliminate the requirement to demonstrate that the transferor possesses adequate collateral to fund substantially all the cost of purchasing replacement financial assets.

The guidance in this ASU is effective for the first interim or annual period beginning on or after December 15, 2011. The guidance should be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption is not permitted. The Company will adopt the methodologies prescribed by this ASU by the date required, and does not anticipate that the ASU will have a material effect on its financial position or results of operations.

ASU No. 2011-04; Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. In May, 2011, the FASB issued ASU No. 2011-04. The amendments in this ASU generally represent clarifications of Topic 820, but also include some instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. This ASU results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U.S. GAAP and IFRSs. The amendments in this ASU are to be applied prospectively. For public entities, the amendments are effective during interim and annual periods beginning after December 15, 2011. Early application by public entities is not permitted.

The Company will adopt the methodologies prescribed by this ASU by the date required, and does not anticipate that the ASU will have a material effect on its financial position or results of operations.

ASU No. 2011-05; Amendments to Topic 220, Comprehensive Income. In June, 2011, the FASB issued ASU No. 2011-05. Under the amendments in this ASU, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive

income. This ASU eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments in this ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income.

The amendments in this ASU should be applied retrospectively. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted, because compliance with the amendments is already permitted. The amendments do not require any transition disclosures. Due to the recency of this pronouncement, the Company is evaluating its timing of adoption of ASU 2011-05, but will adopt the ASU retrospectively by the due date.

MMAX MEDIA, INC. AND SUSIDIARIES**(A DEVELOPMENT STAGE ENTERPRISE)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)****AS OF JUNE 30, 2011 (UNAUDITED)****NOTE 4 LICENSES**

In accordance with ASC Topic 360-10-45-15, the transaction is accounted for as a reverse acquisition and Hyperlocal is considered the accounting acquirer and the acquiree is MMAX since the members of Hyperlocal obtained voting and management control of MMAX. Hyperlocal is deemed to have issued 638,602 preferred shares and 12,403,374 common shares pursuant to the reverse merger (See note 9).

The following discussion and analysis of our financial condition and results of operations should be read together with our unaudited interim consolidated condensed financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q.

Company Overview

MMAX Media, Inc. (the Company or MMAX) was formed on May 30, 2006 as Nevada Processing Solutions. On February 1, 2010, the Company entered into an assignment agreement that assigned to the Company all contractual rights previously held by three entities, one of which was a MMAX shareholder, relating to a television distribution agreement with HollywoodLaundromat.Com, Inc., a California corporation, with the intention of commercializing acquired mixed martial arts television programming (MMAX Fights) and related intellectual property rights and promoting live mixed martial arts combat events throughout Latin America and primarily in Mexico. While our distributor has secured distribution of 39 episodes (three seasons) of the MMAX Fights one hour television series on a limited basis in Puerto Rico, we do not anticipate generating any material revenues, if any, from the MMAX Fights. MMAX is presently in the development stage of its business and management can provide no assurances that the Company will be successful in developing its business.

On March 16, 2011 (the Closing Date) MMAX completed its agreement and plan of merger (the Merger Agreement) to acquire Hyperlocal Marketing, LLC, a Florida limited liability company (Hyperlocal), pursuant to which Hyperlocal merged with and into HLM Paymeon, Inc., a Florida corporation and wholly owned subsidiary of

MMAX. Pursuant to the terms of the Merger Agreement, Tommy Habeeb resigned as our chief executive officer and director and Edward Cespedes was appointed to serve as our chief executive officer and director. Under the terms of the Merger Agreement, the Hyperlocal members received 20,789,395 shares of MMAX common stock, which equal approximately 50.1% of the total shares of MMAX issued and outstanding following the merger on a fully diluted basis. In accordance with ASC Topic 360-10-45-15, Hyperlocal is considered the accounting acquirer and MMAX is considered the accounting acquiree.

Hyperlocal Business Overview

As a result of the merger, we principally engage in the operations of Hyperlocal, a development stage company that owns and operates products aimed at the location-based marketing industry. Hyperlocal develops and markets products that provide merchants and consumers with mobile marketing services and offers, including but not limited to, mobile coupons, mobile business cards, mobile websites, use of SMS short codes and contest management. Hyperlocal was organized in January 2010. Hyperlocal has nominal revenues since its inception.

Since inception, Hyperlocal has incurred net operating losses. Losses have principally occurred as a result of the substantial resources required for research and development and marketing of the Hyperlocal products which included the general and administrative expenses associated with its organization and product development. We expect operating losses to continue, mainly due to the anticipated expenses associated with the marketing of the Hyperlocal products.

Hyperlocal supports multiple text messaging services such as WAP, MMS and XHTML, runs on a commercial grade mobile marketing platform used by the National Football League, Major League Baseball and others and operates with all major mobile carriers, including AT&T, Sprint, T-Mobile and Verizon. The fully-integrated interface allows for web-based monitoring of customers. It provides access to real-time statistics for each customer's account, including incoming and outgoing messages, number of keywords, credits, account status and more.

Hyperlocal has also developed "PayMeOn™", a product designed to offer its customers social income™ potential through the purchase and referral of "coupon-style" deals through its mobile and web interfaces.

Our operations are currently conducted principally through our wholly-owned subsidiary, HLM PayMeOn, Inc.

Critical Accounting Policies and Estimates

Revenue Recognition

The Company will recognize revenue on arrangements in accordance with FASB ASC No. 605, Revenue Recognition. In all cases, revenue is recognized only when the price is fixed and determinable, persuasive evidence of an arrangement exists, the service is performed and collectability of the resulting receivable is reasonably assured.

The Company recognizes revenue from the sale of keywords over the period the keywords are purchased for exclusive use, usually one year.

The Company recognizes revenue from setup fees in accordance with Topic 13, which requires the fees to be deferred and amortized over the term of the agreements. Revenue from the sale of bulk text messages sales are recognized at the time messages are delivered. Revenue from monthly membership fees are recorded during the month the membership is earned.

Impairment of Long-Lived Assets

The Company evaluates its long-lived assets for impairment whenever events or a change in circumstances indicate that the carrying amount of such assets may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset to the future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is the excess

of the carrying amount over the fair value of the asset

Since inception, the Company has incurred net operating losses and used cash in operations. As of June 30, 2011, the Company had a net loss from inception of \$5,317,738. Losses have principally occurred as a result of the impairment of goodwill associated with the mixed martial arts television production business that was operated by the Company prior to the acquisition by Hyperlocal Marketing on March 16, 2011. The Company has also dedicated substantial resources required to research and development and marketing of the Company's products which included the general and administrative expenses associated with its organization and product development. Recent Accounting Pronouncements

ASU No. 2011-02; A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring (TDR). In April 2011, the FASB issued ASU No. 2011-02, intended to provide additional guidance to assist creditors in determining whether a restructuring of a receivable meets the criteria to be considered a troubled debt restructuring. The amendments in this ASU are effective for the first interim or annual period beginning on or after June 15, 2011, and are to be applied retrospectively to the beginning of the annual period of adoption. As a result of applying these amendments, an entity may identify receivables that are newly considered impaired. Early adoption is permitted. The Company intends to adopt the methodologies prescribed by this ASU by the date required, and is continuing to evaluate the impact of adoption of this ASU.

ASU No. 2011-03; Reconsideration of Effective Control for Repurchase Agreements. In April 2011, the FASB issued ASU No. 2011-03. The amendments in this ASU remove from the assessment of effective control the criterion relating to the transferor's ability to repurchase or redeem financial assets on substantially the agreed terms, even in the event of default by the transferee. The amendments in this ASU also eliminate the requirement to demonstrate that the transferor possesses adequate collateral to fund substantially all the cost of purchasing replacement financial assets.

The guidance in this ASU is effective for the first interim or annual period beginning on or after December 15, 2011. The guidance should be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption is not permitted. The Company will adopt the methodologies prescribed by this ASU by the date required, and does not anticipate that the ASU will have a material effect on its financial position or results of operations.

ASU No. 2011-04; Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. In May 2011, the FASB issued ASU No. 2011-04. The amendments in this ASU generally represent clarifications of Topic 820, but also include some instances where a particular principle or requirement for

measuring fair value or disclosing information about fair value measurements has changed. This ASU results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U.S. GAAP and IFRSs. The amendments in this ASU are to be applied prospectively. For public entities, the amendments are effective during interim and annual periods beginning after December 15, 2011. Early application by public entities is not permitted.

The Company will adopt the methodologies prescribed by this ASU by the date required, and does not anticipate that the ASU will have a material effect on its financial position or results of operations.

ASU No. 2011-05; Amendments to Topic 220, Comprehensive Income. In June 2011, the FASB issued ASU No. 2011-05. Under the amendments in this ASU, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both

choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. This ASU eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments in this ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income.

The amendments in this ASU should be applied retrospectively. For public entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted, because compliance with the amendments is already permitted. The amendments do not require any transition disclosures. Due to the recency of this pronouncement, the Company is evaluating its timing of adoption of ASU 2011-05, but will adopt the ASU retrospectively by the due date.

Plan of Operations

We intend on continuing our efforts towards completing development of the Company's PayMeOn products. As our development efforts come to fruition, we will focus our efforts on developing sales and distribution channels for PayMeOn. We will primarily focus our sales and distribution efforts on developing partnerships with third-party sales companies and on developing partnerships with businesses that have large databases they wish to monetize in the local, group buying or deals space. We expect to complete development of the PayMeOn product during the third quarter 2011. Current working capital is not sufficient to maintain our current operations over the next 12 months and there is no assurance that future sales and marketing efforts will be successful enough to achieve the level of revenue sufficient to provide cash to sustain operations. To the extent such revenues and corresponding cash flows do not materialize, we will attempt to fund working capital requirements through third party financing, including a private placement of our securities. We cannot provide any assurances that required capital will be obtained or that the terms of such required capital may be acceptable to us. If we are unable to obtain adequate financing, we may reduce our operating activities until sufficient funding is secured or revenues are generated to support operating activities.

ITEM 4.

CONTROLS AND PROCEDURES

Evaluation of Controls and Procedures

During our assessment of the effectiveness of internal control over financial reporting as of June 30, 2011 management identified significant deficiencies related to (i) the U.S. GAAP expertise of our internal accounting staff, (ii) the ability of our internal accounting staff to record our transactions to which we are a party which necessitates our bringing in external consultants to supplement this function, and (iii) a lack of segregation of duties within accounting functions.

Therefore, our internal controls over financial reporting were not effective as of June 30, 2011 based on the material weakness described below.

w

insufficient monitoring controls to determine the adequacy of our internal control over financial reporting and related policies and procedures;

w

lack of competent financial management personnel with appropriate accounting knowledge and training;

w

our financial staff does not hold a license such as Certified Public Accountant in the U.S., nor have they attended U.S. institutions or extended educational programs that would provide enough of the relevant education relating to U.S. GAAP, nor have any U.S. GAAP audit experience;

w

we rely on outside consultant to prepare our financial statements; and

w

insufficient controls over our period-end financial close and reporting processes.

As a result of this material weakness, our management concluded that our internal control over financial reporting was not effective as of June 30, 2011. A material weakness is a deficiency, or a combination of deficiencies, in internal

control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness; yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

Because of its inherent limitations, however, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate. In order to mitigate the foregoing material weakness, we engaged an outside accounting consultant to assist us in the preparation of our financial statements to ensure that these financial statements are prepared in conformity to U.S. GAAP. This outside accounting consultant has significant experience in the preparation of financial statements in conformity with U.S. GAAP. We believe that the engagement of this consultant will lessen the possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis, and we will continue to monitor the effectiveness of this action and make any changes that our management deems appropriate. We expect to continue to rely on this outside consulting arrangement to supplement our internal accounting staff for the foreseeable future. Until such time as we hire the proper internal accounting staff with the requisite U.S. GAAP experience, however, it is unlikely we will be able to remediate the material weakness in our internal control over financial reporting.

We believe that the foregoing steps will remediate the significant deficiencies identified above, and we will continue to monitor the effectiveness of these steps and make any changes that our management deems appropriate.

Changes in Internal Control over Financial Reporting

No change in our system of internal control over financial reporting occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
