Matters for Ratification

Item 1 (proposed by the Board of Directors)

Proposal: Please ratify the Company's report on 2008 final financial statements.

Explanation: 1. The Company's 2008 financial statements have been audited and attested by Deloitte & Touche and reviewed by the Supervisors.

2. Please ratify the financial statements (see Attachment III to this Agenda Manual for details) and the 2008 Business Report (see Attachment I to this Agenda Manual for details).

Resolution:

Item 2 (proposed by the Board of Directors)

Proposal: Please ratify the Company's 2008 proposal for earnings distribution.

Explanation: The Board of Directors has drafted the Company's 2008 proposal for surplus distribution as shown in the table below in accordance with The Company Act and the Company's Articles of Incorporation for your ratification.

Advanced Semiconductor Engineering, Inc.

2008 Surplus Distribution Proposal

Unit: NT\$

Items	Amount
Prior year retained earnings	146,323,647
Add: Current year gross profit	6,160,051,306
Subtract: Provision for 10 % statutory surplus reserve	616,005,131
Current year earnings to be distributed	5,690,369,822
Items for distribution:	
Shareholder dividends (note)	2,736,568,447
Current year retained earnings	2,953,801,375

Notes:

NT\$88,800,000 to be distributed for Director and Supervisor remuneration

NT\$554,404,000 to be distributed for employee bonuses, all in cash

President: Jason C.S. Chang

Manager: Richard H.P. Chang

Accountant Manager: Joseph Tung

Note: The shareholders' bonus distributed this time totaled NT\$2,736,568,447 and all distributed in cash at NT\$0.5 per share. With respect to the above-mentioned cash dividend rate, the calculation was based on the 5,473,136,894 shares registered in the roster of shareholders as of March 26, 2009, subtracting the treasury stock bought back by the Company. Later, if the Company's ECB holders exercise the right of conversion, or new shares issued to employees against Employee Stock Option warrant, or new shares issued by the Company for a cash capital increase, or buyback of the Company's stocks, or transfer or cancellation of the Company's treasury stocks, which affect the cash distribution rate of the shareholders' bonus, requiring adjustment, the management will request the shareholders' meeting to authorize the board of directors to handle the situation plenipotentiarily and make the adjustment accordingly.

Resolution:

Matters for Discussions

Item 1 (Proposed by the Board of Directors)

**Proposal:** To meet the requirements for larger production capacity in future the Company needs to enrich its operation capital in order to repay bank loans or the needs for other long-term development use, thereby enabling the fund-raising channels more diversified and flexible. As such, the shareholders' meeting is requested to authorize the board of directors to opt at the optimal time, depending on the market situation and the status of capital needs of the Company and in accordance with existing laws and regulations, for capital increase in cash by issuing common shares or joining the issuance of GDR (Global depository receipts) or domestic capital increase in cash or issuance of domestic or ECB to raise fund. The case is being presented for discussions.

**Explanation:** 1. The principles to authorize the board of directors to issue new common shares and GDR for capital increase in cash shall be as follows:

1.1 Issuance of common shares in the form GDR for capital increase in cash shall be limited to 500,000,000 shares only. The shareholders' meeting shall authorize the board of directors and the chairman of the board to make the adjustment by the market condition and issue the authorized GDR's all at once.

1.2 In conducting issuance of new shares in the form of GDR for capital increase in cash, the issuance price shall be by the rules set forth in the Selfdiscipline Rules Concerning Subscription and Issuance of Securities by the Issuing Company Member Underwriters Have Assisted in the Process, i.e., the issuance price shall not be lower than the closing price of the Company's common stock at the domestic open market. Take the simple arithmetic mean of the closing price of the common share on the first, third and fifth day prior to the price-setting day, minus 90% of the average stock price after gratuitous ex-rights and ex-interest, then comes the price for the new issue. However, the price-setting method may be duly adjusted if related domestic laws and regulations are updated. Since the stock price at home has often experience drastic volatility in the short run, the chairman of the board is authorized to set the actual issuance price within the above-mentioned price range, after having consulted with underwriter taking into consideration the international general practice, international capital market, domestic market price, the overall subscription status so as to make the offering price attractive to overseas investors. Consequently, the price-setting method should be reasonable. Additionally, the deciding method for the issuance price of GDR is based on the fair trading price of common shares at the domestic open market whereas the original stockholder may purchase the common shares at domestic stock exchange at the price close to the issuance price of the GDR, without bearing the exchange rate risk and liquidity risk. Moreover, the

tranche of issuance of new shares and GRD for capital increase in cash do not affect much of the shareholders' equity as the highest dilution ratio in relation to the original shareholders' equity stands only at 9.14%.

1.3 10% of common shares issued for capital increase in cash shall, according to Article 267 of The Company Act, be reserved for subscription by company employees and the remaining 90% will be fully appropriated for open issuance as the securities for GDR as the original shareholders have waived their rights for subscription in accordance with Article 28-1 of the Securities Trading Act. For the part that employees have not subscribed, the chairman of the board is authorized to contact specific party for purchase or, depending on the market requirements, list as the original securities for participation in the issuance of GDR.

1.4 The proceeds for capital increase in cash from subscription to the GDR shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, and/or spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

1.5 The board of directors is authorized to set the major contents of the capital increase in cash plan, which includes issuance price, number of shares issued, issuance conditions, source of capital, plan items, amount of fund raised, estimated progress and estimated probable effect generated as well as the issuance plan of participation in the issuance of GDR.

1.6 Once the plan for capital increase in cash is approved by the competent regulatory authority, the board of directors will be authorized to proceed with matters related to issuance of new shares.

1.7 If the agreement on issuance time, issuance condition, issuance volume, issuance amount of capital increase in cash and participation in issuance of GDR as well as other matters related to capital increase in cash and participation in issuance of GDR needs update in future due to the decision by the competent regulatory authority and on the basis of operation evaluation, or the needs of objective environment, the board of directors shall be authorized to handle at its full discretion.

1.8 In conjunction with the issuance method of common shares for capital increase in cash and participation in GDR issuance, the chairman of the board or his designated representative is authorized to represent the Company in signing all documents related to the participation in the issuance of GDR as well as handling all needed matters related to the participation in the issuance

of GDR.

1.9 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

2. The principles to authorize the board of directors to conduct capital increase in cash at home shall be as follows:

2.1 Number of new shares issued for capital increase in cash shall not be in excess of 500,000,000 shares.

2.2 The par value of the new shares for capital increase in cash shall be NT\$10 each. Actual issuance price shall be by related rules set forth in the Selfdiscipline Rules Concerning Subscription and Issuance of Securities by the Issuing Company Member Underwriters Have Assisted in the Process and the market condition at the time of issuance. The chairman of the board and the underwriter may reach an agreement on the issuance in consideration of all the conditions mentioned above, which shall be subject to the approval by the competent regulatory authority before the issuance.

2.3 The issuance method of new shares for the capital increase in cash shall be by price enquiry and selected purchase. With the exception of 10%-15% reserved for employees as required by Article 267 of The Company Act, the rest will be offered for public issuance as all original shareholders have waived their rights to subscribe according to Article 28-1 of the Securities Trading Act. In addition, if the Company's employees have not subscribed sufficiently and adequately or waived the right to subscribe, the chairman may contact specific party for purchase.

2.4 The proceeds for capital increase in cash from subscription to the GDR shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, and/or spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

2.5 The board of directors is authorized to set the major contents of the capital increase in cash plan, which includes issuance price, number of shares issued, issuance conditions, plan items, amount of fund raised, estimated progress and estimated probable effect generated as well as the issuance plan of participation in the issuance of GDR.

2.6 Once the plan for capital increase in cash is approved by the competent regulatory authority, the board of directors will be authorized to set the base date for capital increase.

2.7 With respect to the manner of issuance as mentioned in Section 2.3 above, the board of directors is authorized to make the amendment at its full discretion if amendment becomes necessary due to update of laws or regulations or the objective environment dictates the amendment.

2.8 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

3. The principles to authorize the board of directors to conduct capital increase in cash by issuance of convertible corporate bond at home and ECB overseas:

3.1 Estimated number of shares for conversion: Not to exceed the number of shares registered in the application for update of the Company's profit-seeing registration card.

3.2 Time of issuance: It depends on the capital needs by the Company and the market condition.

3.3 Interest rate: In principle, it shall be by the market interest rate then prevailing in the marketplace and reasonable, if possible.

3.4 Issuance duration: It depends on the capital needs by the Company

3.5 Issuance condition: Subject to negotiation with the lead underwriter and existing laws and regulations.

3.6 The proceeds from subscriptions to the domestic convertible corporate bond and ECB overseas shall be used for overseas procurement of materials, enrichment of operation capital, repayment of bank loans, purchase of machinery and equipment, and/or spin-off in one or multiple use and is expected to complete the implementation within 2 years after the fund is fully raised. Implementation of the said plan is expected to intensify the Company's competitiveness, enhance the benefit of the operation efficiency, producing positive benefit to shareholders.

3.7 The board of directors is authorized to set the issuance measures, amount of fund raised, plan items, estimated progress as well as estimated probable effect generated.

3.8 In conjunction with the issuance of the convertible corporate bond the chairman of the board or his designated representative is authorized to represent the Company in signing all documents related to the issuance of the convertible corporate bond as well as handling all needed matters related to the issuance of the convertible corporate bond.

3.9 For matters that are not covered herein, the board of directors may, in accordance with law, proceed at its discretion.

Advanced Semiconductor Engineering, Inc.  
Business Report

2008 was a year of intense shocks that will be hard to forget. The major shocks in all kinds of raw material prices starting in the second half of 2007 made businesses face the extreme tests of inventory and cost controls. Furthermore, a series of financial crises caused by the subprime mortgage crisis caused the global economy to freeze up. Faced with the biggest recession since the end of the World War II, the international financial system bordered on collapse. Problems such as the rapid climb of the unemployment rate, the fast drop in consumer confidence, liquidity risk, and stagflation were piled one on top of the other. The output value of the global semiconductor industry fell from US\$267 billion in 2007 to US\$256 billion in 2008. According to the statistics of the ITRI's IEK ITIS project, the 2008 packaging industry output value in Taiwan was NT\$221.7 billion, which was a 2.8% drop from 2007 and the first time in the seven years since 2001 that there was a drop in full year growth in the packaging industry. In 2008, the testing industry output in Taiwan was NT\$96.5 billion, which was a 5.7% drop from 2007. Faced with a poor outlook across the entire global economy, the Company used this time to adjust its organizational system and continue to concentrate on its industry while paying close attention to the development of the financial storm in order to properly face the myriad changes in these times. The following is our report on the company's operation for the past year:

#### Report on Operations in Fiscal 2008

##### 1. Implementation results of business plan for 2008

The Company's combined revenues for 2008 were NT\$94.4 billion, a drop of 6.7 billion from 2007, a contraction of 6.7%. After the government opened up direct investment to the mainland and the three direct links in the second half of last year, the Company took full advantage of this opportunity, actively investing in China and searching for strategic alliances with international customers to lower costs and also in expectation of creating yield with high growth. In the second half of the year, the global economy greatly contracted, and as large international companies all announced production cuts and even financial problems, the Company faced these crises by raising operational efficiency, merging product lines, and adjusting human resources. Amid the intense fluctuations of the packaging and testing industry in 2008, the industry managed to show a profit in the fourth quarter, so there was not a loss in the fourth quarter in main business area and profit in 2009. This shows the Company's ability to counter the effects of the industry cycle.

##### 2. Budget performance

No financial forecast was disclosed in 2008.

##### 3. Analysis of financial accounts and profitability

As of the end of 2008, the Company had paid-in capital of NT\$56,904,277 thousands, and shareholders equity of NT\$69,671,994 thousands, representing 56% of the Company's total assets of NT\$123,931,246 thousands. Long-term funds represented 389% of fixed assets, and the current ratio was 134%. These financial ratios were slightly down on the previous year; however, the Company's overall financial structure and solvency remained sound. Operating profit and net profit after tax fell to NT\$5,954,013 thousands and NT\$6,160,051

thousands respectively. Both overall operating results and profitability were slightly down on the previous year, due to the impact of the global economic downturn.

#### 4. R&D overview

As regards technology development and R&D, 3D SiP technology has become the technology of choice for small, lightweight semiconductor packaging. The main technologies in this area include TSV, PoP, embedded technology and IPD. The global trend is towards the leveraging of these technologies to integrate various types of active and passive component, sensors and activators. The new technologies successfully developed by the Company in 2008 included 45nm copper process technology / ultra-low-k dielectric wafer high-lead flip-chip packaging and wire bonding technology, 65nm copper process / low-k wafer lead-free flip-chip packaging and wafer-level packaging technology, TSV (Through Silicon Via) technology, Si Interposer technology, IPD passive component integration and packaging technology, new copper bonding technology, Bluetooth module technology, Wi-Fi module technology, and fan-out Map PoP technology. In the future, the Company will continue to focus on the development of both production equipment and advanced packaging technologies (such as flip-chip, BGA, CSP and 3D SiP, etc.), thereby maintaining the Company's status as a world leader in IC assembly and testing.

#### Business Plan for 2009 in summary

##### 1. Operating policy

- 1.1 Provide customer with services of "ultimate quality"
- 1.2 Create long-term and stable profits for the organization and customers
- 1.3 Create prosperity with suppliers together
- 1.4 Develop employees to be elite in respective areas
- 1.5 Treat employees "in a fair and reasonable manner"
- 1.6 Provide employees with a "harmonious, happy and open" work environment
- 1.7 Maintain flexibility in operations

##### 2. Projects sales volume and references

In light of current industry dynamics, future market demand and ASE's capacity, the projected sales volume for 2009 is as follows:

Item	Project Sales
Package	Approx. 4.2 billion chips
Test	Approx. 600 million chips

##### 3. Important production and sales policies

In recent years, development trends in packaging technology have mainly developed in the directions of electronic component high density, high I/O amount, low operating power, surface component modulization, and mixed structurability. This makes packaging technology go in the directions of high integration, multi-pin/microtechnology, slimming, multichip module packaging, and low costs. Because of the constantly growing demand by the industry for high-end packaging capacity, ASE Group's past investments

in technology and capacity have prepared it for these growing trends. In the future, we will continue to refine our processes and also strive to enhance profitability.

#### Future Development Strategy

According to the estimates of ITRI's IEK, the output value of the IC industry in Taiwan and the global semiconductor industry will fall by 26.9% and 17.9% respectively in 2009 compared to 2008. The stagnation in consumer confidence will cause demand to drop dramatically, and it is expected that this will force companies with poor organizational structures to declare bankruptcy or enter into mergers. The asset-lite strategies of European and North American IDM companies will accelerate the release of outsourcing orders later. By forming strategic alliances with large international customers to increase demand and lower costs, operating risks can be lowered after both parties become partners. The company will maintain its financial robustness and also increase its cash on the books in order to be able to take full advantage of opportunities in light of the increasingly frequent mergers in the industry.

#### Influences of external competitions, regulations and macroeconomics

After the dramatic fluctuations of the price of oil in 2008, the energy problem will receive ever-increasing attention from the market and will lead the next wave of industry growth. Under the premise of maintaining the Company's operations and ensuring the interests of its shareholders, we will protect the working rights and working opportunities of employees. In the future, when the global outlook is pessimistic, the Company will still enhance its competitiveness in expectation of being able to minimize the influence of the external environment, constantly working for the shareholders and the sustainable operation of the enterprise. When faced with challenges, we will still boldly move forward in the hope that all shareholders can work together with the Company to get through this hard time and build a better future together.

## INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders  
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying balance sheets of Advanced Semiconductor Engineering, Inc. (the "Company") as of December 31, 2008 and 2007, and the related statements of income, changes in shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2008 and 2007, and the results of its operations and its cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, the requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 3 to the accompanying financial statements, starting from January 1, 2008, the Company adopted Interpretation 96-052, "Accounting for Bonuses to Employees, Directors and Supervisors" issued by the Accounting Research and Development Foundation in March 2007.

We have also audited the consolidated financial statements of the Company and its subsidiaries as of and for the years ended December 31, 2008 and 2007, and have issued a modified unqualified opinion with an explanatory paragraph, and an unqualified opinion, respectively.

Consolidated Financial Statements for the  
Years Ended December 31, 2006, 2007 and 2008 and  
Report of Independent Registered Public Accounting Firm

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders  
Advanced Semiconductor Engineering, Inc.

We have audited the accompanying consolidated balance sheets of Advanced Semiconductor Engineering, Inc. (a corporation incorporated under the laws of the Republic of China) and its subsidiaries (collectively, the "Company") as of December 31, 2007 and 2008, and the related consolidated statements of operations, changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2008, all expressed in New Taiwan dollars. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants, auditing standards generally accepted in the Republic of China (ROC) and the Standards of the Public Company Accounting Oversight Board (United States). Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2007 and 2008, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2008, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the Republic of China.

As discussed in Note 30 to the consolidated financial statements, the Company incurred fire damage to its production line and facilities in Chung Li, Taiwan on May 1, 2005. The Company recognized an estimated loss of NT\$13,479,079 thousand for the damage to its inventories, building, machinery and equipment, net of NT\$4,641,000 thousand of insurance receivable in 2005. The Company reached a final settlement with the insurers in June 2006 with regards to the fire damage referred to above. The final settlement amount of NT\$8,068,000 thousand, less the NT\$4,641,000 thousand recorded in 2005 and the related repair and restoring expenses of NT\$1,043,132 thousand, was recorded as a gain in 2006. The Company also reversed NT\$2,190,583 thousand of previously recorded impairment charges on these fire-damaged building, machinery and equipment due to an increase in the estimated service potential of the assets. The net amount of NT\$4,574,451 thousand was recognized as a gain on insurance settlement and impairment recovery.

As discussed in Note 3 to the consolidated financial statements, starting from January 1, 2008, the Company changed its method of accounting for bonuses paid to employees, directors and supervisors upon adoption of Interpretation 96-052, "Accounting for Bonuses to Employees, Directors and Supervisors" issued by the ROC Accounting Research and Development Foundation ("ARDF") in March 2007. Besides, the Company adopted the ROC Statement of Financial Accounting Standards ("SFAS") No. 34, "Financial Instruments: Recognition and Measurement", No. 36, "Financial Instruments: Disclosure and Presentation" and other revised SFASs on January 1, 2006.

Accounting principles generally accepted in the ROC differ in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 32 to the consolidated financial statements.

Our audits also comprehended the translation of New Taiwan dollar amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of the readers.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2008, based on the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 16, 2009 expressed an unqualified opinion on the Company's internal control over financial reporting.

Article 7 Exceeding the limits set for endorsements and guarantees, and alteration of endorsements and guarantees

1. Where operational requirements make it necessary for the Company to exceed the limits specified in Article 4 above when providing endorsements or guarantees, this must be approved by the board of directors, and at least 50% of the members of the board of directors must sign a joint guarantee to make good any loss that the Company may suffer as a result; furthermore, the Operational Procedures for Endorsements and Guarantees must be revised and submitted to the Shareholders Meeting for retroactive approval. If the Shareholders Meeting does not agree to the revision, then plans must be drawn up to eliminate the excess amount within a specified time limit. If the Company has appointed Independent Directors, then full consideration should be given to the views of these Independent Directors when the matter is being discussed by the Board of Directors; whether the Independent Directors agree or disagree (and the reasons for their disagreement in the latter case) should be recorded in the minutes of the board meeting.

2. When recipients of the Company's endorsements originally meet the stipulations of Article 3 and then fail to meet them later, or when the endorsement amount exceeds the amount set in Article 4 because of a basic change in the calculated limit, this recipient's endorsement amount or the excessive portion should be fully canceled when the contract term expires or within a certain period of time in a separately agreed upon plan, and the related improvement plan should be submitted to the supervisors.

Article 9: Disclosure of endorsements and guarantees

1. The Company shall, by the 10th day of each month, make a public announcement of the total amount of endorsements and guarantees provided by the Company and its subsidiaries in the previous month

Rules of Procedure for the Shareholders' Meeting

1. The Shareholders' Meeting of the Company shall be conducted in accordance with the Rules specified herein.
2. Attending shareholders (or their proxies) shall wear attendance badges, and shall submit sign-in cards in lieu of signing in. The number of voting right shall be calculated according to the sign-in cards submitted.
3. Unless as stipulated in Article 179 of The Company Act whereas there are shares that have no voting right for shareholders of the Company, there is one vote for each share. When a shareholder is unable to attend the shareholders' meeting for whatever the reason, the shareholder may present a proxy statement printed by the Company that states the scope of authorization to entrust a proxy to attend the shareholders' meeting. With the exception of trust enterprises or stock affair agencies approved by competent securities authorities concerned, the votes that may be cast by one proxy representing two or more shareholders shall not exceed three percent of the votes of total shares issued; any votes in excess of that limit shall not be counted.
4. The venue for the shareholders' meeting shall be where the Company is located or a place convenient for shareholders to attend and suitable for convening the shareholders' meeting. The beginning time for the meeting may not be earlier than 9 a.m. or later than 3 p.m.
5. Unless otherwise provided by The Company Act, the shareholders' meeting shall be convened by the board of directors and presided by the chairperson. If the chairperson is on leave or unable to exercise the official function for whatever the reason, Article 208 Paragraph 3 of The Company Act shall govern. If the shareholders' meeting is convened by someone entitled to convene such a meeting who is not a member of the board of directors, the meeting shall be presided by the convening person. Where there are two or more persons entitled to convene the shareholders' meeting, they shall nominate among them one person to preside the meeting.

6. The Company may appoint the retained lawyers, certified public accountants or relevant personnel to attend the shareholders' meeting. The staff handling administrative affairs of the shareholders' meeting shall wear identification badges or arm-bands.
7. The Company shall record the whole course of the shareholders' meeting on audio tape or video tape, and shall keep the tapes on file for at least one year.
8. When the time comes for the shareholders' meeting to begin, the chairperson shall immediately call the meeting in session. However, if the shareholders present represent less than half of the total issued shares, the chairperson may postpone the commencement of the meeting. The meeting may be postponed up to twice, and the total duration of postponement may not exceed one hour. If after two postponements the number of shareholders present is still insufficient while the shareholders present do represent at least one third of the total issued shares, provisional resolutions may be adopted in accordance with Article 175 Paragraph 1 of the Company Act. If prior to the end of the meeting the shareholders present have represented at least half of the total issued shares, the chairperson may resubmit the provisional resolutions adopted by the meeting for a vote in accordance with Article 174 of The Company Act.
9. Where the shareholders' meeting is convened by the board of directors, the meeting agenda shall be set by the board of directors. The meeting shall proceed in accordance with the agenda, which may not be altered unless by the resolution of the shareholders' meeting.

If the shareholders' meeting is convened by someone entitled to convene such a meeting who is not a member of the board of directors, the rules of the preceding paragraph shall apply *mutatis mutandis*.

Unless by the resolution of the shareholders' meeting, the chairperson may not declare the meeting ended until all items on the agenda (including extemporaneous motions) arranged in the preceding two paragraphs have been completed.

After the meeting is declared ended, shareholders may not elect a chairperson to resume the meeting at the original location or other premises, unless such declaration by the chairperson has violated the rules of procedure, whereas one person may be elected the chairperson with the consent of one half of the votes represented by shareholders present to resume the Meeting.

10. When the shareholders' meeting is in session, the chairperson may in his/her discretion allocate and announce time for breaks.
11. Before a shareholder present at the meeting speaks, he/she shall first fill out a statement slip stating therein the main points of the statement, the shareholder's account number (or the attendance identification number) and account name, so that the chairperson may determine the order of speaking. The shareholder present at the meeting that merely submits a statement slip without speaking is considered not having spoken. If the contents of the statement do not conform to the contents of the statement slip, the contents of the statement shall govern. Unless given consent by the chairperson and the speaking shareholder, the other shareholders may not speak to interrupt when a shareholder is speaking; otherwise the chairperson shall stop the interruption.
12. Unless permitted by the chairperson, no shareholder may speak for more than twice regarding the same proposal, and shall not last for more than five minutes each time.  
  
If a shareholder violates rules under the preceding paragraph or goes beyond the scope of topics for discussion in speaking, the chairperson may stop him/her from speaking.
13. When an institutional person attends the shareholders' meeting as a proxy, the institutional person may assign only one representative to attend the meeting. When an institutional shareholder assigns two or more representatives to attend the shareholders' meeting, only one of them may speak for any single proposal.
14. After a shareholder present at the meeting speaks, the chairperson may reply in person or assign concerned personnel to reply.
15. With respect to discussions of a proposal, if the chairperson feels that a consensus has been reached where a vote can be taken on the proposal, he/she may announce that the discussions shall cease and the proposal be submitted for a vote.
16. The chairperson shall appoint monitors and ballot counters for voting on proposals. For qualifications, monitors must be shareholders. The results of each vote shall be announced on the spot and made into the minutes.

17. Unless otherwise provided by The Company Act or the Company's Articles of Incorporation, a proposal shall be approved by the consent of more than half of the votes of shares represented by shareholders present. In voting, a proposal is considered approved if the chairperson receives no dissenting opinions after requesting, which has the same effect as does voting by ballot.
18. Where there is an amendment or an alternative for a proposal, the chairperson shall determine the order in which they are to be voted on with the original proposal. If any of the proposals has been approved, the other shall be treated as rejected and not be voted on separately.
19. The chairperson may instruct the inspectors (or security personnel) to assist in maintaining order in the meeting venue. While assisting in maintaining order at the venue, the inspectors (or security personnel) shall wear arm-bands reading "Inspector."
20. All matters not provided by these Rules herein shall be handled in accordance with The Company Act, relevant laws and regulations, as well as the Company's Articles of Incorporation.
21. These Rules shall come into force given the approval of the shareholders' meeting, and so shall be the amendment.

Appendix II

Advanced Semiconductor Engineering, Inc.

Guidelines for the Election of Directors and Supervisors

- Article 1 : Elections of the Company's Directors and Supervisors, except where otherwise stipulated in the Company Act, the Securities Exchange Law, and the Company's Articles of Incorporation, shall be handled according to these guidelines.
- Article 2 : At the time of election of the Company's Directors and Supervisors, every share has the same voting rights as the number of people who should elect Directors and Supervisors, and ballots equal to the number of people who should elect Directors and Supervisors will be prepared by the Board of Directors and distributed to the shareholders.
- Article 3 : Those that receive more ballots that represent voting rights shall be elected, respectively, as the Company's independent Directors, non-independent Directors, or Supervisors, according the quota set in the Company's Articles of Incorporation. If two or more people receive the same number of voting rights and the set quota has been exceeded, the situation will be resolved by drawing lots. Those that are not present will be represented by the chairperson in drawing lots. If one natural person is simultaneously elected as a Director and a Supervisor, that person should decide for themselves if they should serve as a Director or a Supervisor. If a government or corporate shareholder or their designated representative is simultaneously elected as a Director and a Supervisor, the same applies. If after investigation of the personal information of an elected Director or Supervisor they are found to not meet the qualifications of serving as a Director or Supervisor or if their election is made invalid by the relevant laws and regulations, any open slot will be filled by the elected with the most ballots from the original election and announced at the current Shareholder's Meeting.
- Article 4 : When the election begins, all related tasks are to be executed by the ballot examiner and ballot counting personnel designated by the Chairman.
- Article 5 : If a candidate is a shareholder, the voter must clearly indicate the candidate's account name and shareholder account number in the "candidate" field on the ballot. If the candidate is not a shareholder, they should clearly indicate the candidate's name and ID number. When a candidate is a government agency or corporate shareholder, the name of the government agency or corporation should be clearly indicated in the candidate field on the ballot, and the name of the government agency's or corporation's representative must also be clearly indicated. When there is more than one representative, their names should be separately indicated.

- Article 6 : Ballots will be seen as invalid in the following circumstances:
1. Ballots that do not follow the stipulations of these Guidelines.
  2. Ballots that are not inserted in the ballot box or blank ballots that have not been filled out.
  3. Illegible ballots with unclear markings.
  4. If the candidate is a shareholder and their account name and shareholder account name do not match the Register of Shareholders; if the candidate is not a shareholder, and their name and ID number do not match after checking.
  5. Ballots with additional writing in addition to indicating the candidates's account name (or name) or shareholder account number (or ID number) and the voting rights amount.
  6. Ballots in which the candidate's account name (or name) or shareholder account number (or ID number) are not filled out.
  7. A ballot on which two or more candidates are indicated.
- Article 7 : After all of the ballots have been put into the ballot box, the ballot box is to be opened by the ballot examiner.
- Article 8 : If there is any confusion about a ballot, the ballot examiner will check to see if it is voided. Voided ballots will be stored separately, and after the ballots are counted and the number of votes and voting rights amounts are tallied, the ballot examiner will mark the voided ballots and affix an official seal.
- Article 9 : When counting and announcing the ballots, the ballot counting personnel are supervised by the ballot examiner, and the results are announced onsite by the Chairman.
- Article 10 : The Company will give certificates of election to the elected Directors and Supervisors.
- Article 11 : These Guidelines shall come into force given the approval of the shareholders' meeting, and so shall be the amendment.

- Article 14 :

If a shareholder is unable to attend the shareholders' meeting for whatever the reason, he/she may present a proxy statement printed by the Company, stating therein the scope of authorization to entrust a proxy to appear on his/her behalf. The above proxy statement shall be delivered to the Company five days in advance before the shareholders' meeting is held.

Article 15 Unless otherwise provided by The Company Act, the shareholders' meeting shall be convened by the board of directors and presided by the chairperson of the board. If the chairperson is on leave or unable to perform his/her duties for whatever the reason, Article 208 Paragraph 3 of The Company Act shall govern. If the shareholders' meeting is convened by some person entitled to convene the meeting who is not a member of the board of directors, this person shall serve as the chairperson. Where there are two or more persons entitled to convene the meeting, one shall be nominated among them to serve as the chairperson.

#### Chapter IV Directors and Supervisors

Article 16 : The Company shall have seven to nine Directors, of which there shall be two independent Directors and five to seven non-independent Directors, and also five to seven Supervisors to be elected by the shareholders' meeting from candidates with legal capacity. Each director and supervisor shall hold office for a term of three years, and may continue to serve in the office if re-elected.

At the time of election of Directors and Supervisors, it should be handled according to Article 198 of the Company Act and the relevant laws and regulations.

When handling the aforementioned election of Directors, the election of independent Directors and non-independent Directors should be held together, with the names of the elected separately calculated, and those that receive more ballots that represent voting rights will be elected as independent Directors or non-independent Directors.

Article 16(1): : The election of the Company's independent Directors uses the candidate nomination system. Shareholders and already holding 1% or more of the Company's stock and the Board of Directors shall nominate a list of candidates for independent Director. After the Board of Directors examines the qualifications of the candidate(s) for serving as an independent Director, the names are sent to the Shareholder's meeting for election. If the Shareholder's Meeting is convened by another person with the authority to convene the meeting, after the person with the authority to convene the meeting examines the qualifications of the candidate(s) for serving as an independent Director, the names are sent to the Shareholder's meeting for election. All matters regarding the acceptance method and announcement of the nomination of candidates for independent Director will be handled according to the Company Act, the Securities Exchange Law, and other relevant laws and regulations.

Article 16(2): : The remuneration of the Company's independent Directors is set at NT\$2 million per person annually. For those that do not serve a full year, it will be calculated in proportion to the number of days

#### Chapter VI Accounting

Article 22 : The Company's fiscal year shall run from January 1 to December 31 each year. At the end of each fiscal year, the board of directors shall prepare the various statements and reports as required by The Company Act and submit them to the shareholders' general meeting for ratification according to law.

Article 23 : The Company's net profits each year after the actual budget shall be distributed in the following order:  
(1) Replenishment of losses.

- (2) Allocation of 10% as the legal surplus reserve.
- (3) Allocation of a special surplus reserve in accordance with laws or regulations set forth by the authorities concerned.
- (4) For the unrealized portion of long-term investment profits calculated by the equity method that is not cash dividends, it may be listed as the special surplus reserve under the item of current profits, to be included for profit distribution after being realized.

Any remaining profits, if any, shall be distributed as follows:

(5) Allocation of 2%, inclusive, or less from the balance after the amounts mandated by Subparagraphs 1 to 4 above have been deducted as the remuneration for directors and supervisors.

(6) Allocation of 7% to 10% from the balance after the amounts mandated by Subparagraphs 1 to 4 above have been deducted as the bonuses for employees. The 7% portion is distributed to all employees in accordance with the Rules of Bonus to Employees Distribution, and the board of directors is delegated with the authority to set separate rules for distribution of the portion in excess of 7% to specific employees for their specific contributions to the Company.

(7) The board of directors shall be delegated to draw up a plan to distribute the remaining profits to shareholders pro rata according to the percentage of shares held by each S\shareholder.

Employees referred to in Subparagraph 6 of the preceding paragraph include employees of subsidiary companies that meet certain conditions, which are to be prescribed by the board of directors.

Article 24 : The Company is currently in the business growth stage. To meet the capital needs for business development now and in the future and satisfy the requirements of shareholders for cash inflow, the Company's dividend policy shall use residual dividend policy to distribute dividends, of which the cash dividend distribution rate is 0%–50% of the total dividend amount, with the remainder to be distributed as stock dividends. However, depending on factors such as the economic situation, business development, and cash position holdings, the Company shall adjust the cash dividend and stock dividend distribution rate when necessary with a surplus distribution plan made by the Board of Directors and passed by resolution of the Shareholders' Meeting.

Advanced Semiconductor Engineering, Inc.  
Information Concerning Employee Bonus and Information Remuneration for Directors and Supervisors

The Company's 2008 earnings distribution proposal was passed by resolution of the Board of Directors on April 8, 2009, and the proposed earnings distribution situation as passed by the Board of Directors is as follows:

1. Distribution of employee cash bonus of NT\$554,404,000.
2. Distribution of director and supervisor remuneration of NT\$ 88,800,000.
3. The difference between the aforementioned planned amounts to be allocated and the already expensed employee bonuses of NT\$554,404,451 and director and supervisor remuneration of NT\$110,881,090 is a total of NT\$22,081,541.

1. Reason for the difference: The expensed amounts are an estimation based on the Company's issuance in recent years. Concerning the proposed amounts passed by the Board of Directors, the board members decided to reduce the amount of director and supervisor remuneration in light of the poor economic climate, in order to share the burden and help reduce the Company's operating costs.

2. Handling of the difference: It is planned for the difference to be recognized as a change in accounting estimates, after being passed by the Shareholders' Meeting.

Summary of Corporate  
Governance Differences

COMPARISON OF NEW YORK STOCK EXCHANGE CORPORATE GOVERNANCE RULES AND OUR CORPORATE GOVERNANCE PRACTICES

As a company listed on the New York Stock Exchange (the “NYSE”), we are subject to certain corporate governance rules of the NYSE. The application of the NYSE’s corporate governance rules is limited for foreign private issuers, recognizing that they have to comply with domestic requirements. As a foreign private issuer, we must comply with the following NYSE corporate governance rules: 1) satisfy the audit committee requirements of the United States Securities and Exchange Commission (the “SEC”); 2) chief executive officer must promptly notify the NYSE in writing upon becoming aware of any material non-compliance with applicable NYSE corporate governance rules; 3) submit annual and interim affirmations to the NYSE regarding compliance with applicable NYSE corporate governance requirements; and 4) provide a brief description of any significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards. The table below sets forth the significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards.

New York Stock Exchange Corporate Governance Rules Applicable to U.S. Companies

Description of Significant Differences between Our Governance Practices and the NYSE Corporate Governance Rules Applicable to U.S. Companies

Director independence

Listed companies must have a majority of independent directors, as defined under the NYSE listing standards.

One member of our board of directors is independent as defined in Rule 10A-3 under the United States Securities Exchange Act of 1934, as amended (the “Exchange Act”). We do not assess the independence of our directors under the independence requirements of the NYSE listing standards.

Pursuant to relevant laws and regulations of the Republic of China (the “ROC”), we have two independent directors on our board of directors that were elected through the candidate nomination system at our annual general shareholders meeting on June 25, 2009.

To empower non-management directors to serve as a more effective check on management, the non-management directors of each company must meet at regularly scheduled executive sessions without management.

All of our directors attend the meetings of the board of directors. Our non-management directors do not meet at regularly scheduled executive sessions without management. The ROC Company Law does not require companies incorporated in the ROC to have their non-management directors meet at regularly scheduled executive sessions without management.

Nominating/Corporate governance committee

Listed companies must have a nominating/corporate governance committee composed entirely of independent directors and governed by a written charter that provides

nominating/corporate governance committee.

Currently, our board of directors performs the duties of a corporate governance committee and regularly reviews our corporate governance principles and practices.

The ROC Company Law requires that directors be elected by shareholders. Under ROC law and regulations, companies that have independent directors are required to adopt a candidate nomination system for the election of independent directors. Our two independent directors were elected through the candidate nomination system provided in our articles of

incorporation. All of our non-independent directors were elected directly by our shareholders at our shareholders meetings without a nomination process.

#### Compensation committee

Listed companies must have a compensation committee composed entirely of independent directors and governed by a written charter that provides for certain responsibilities of the committee set out in the NYSE listing standards.

We do not have a compensation committee. Under the ROC Company Law, companies incorporated in the ROC are not required to have a compensation committee. However, the ROC Company Law requires that the measures by which director compensation is determined either be set forth in the company's articles of incorporation or be approved at a shareholders meeting.

Our articles of incorporation currently provide that total director and supervisor remuneration shall be no more than 2% (inclusive) of our net income after payment of all income taxes, deduction of any past losses, allocation of 10% of our net income for legal reserves and allocation for special reserves.

The ROC Company Law requires the compensation of managers, including executive officers, of a company limited by shares to be approved by a resolution of the board of directors or pursuant to a higher standard specified in its articles of incorporation. Our articles of incorporation do not provide measures by which the compensation of executive officers is determined and such compensation is determined by our board of directors according to our internal compensation policies.

#### Audit committee

Listed companies must have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act.

We have an audit committee that satisfies the requirements of Rule 10A-3 under the Exchange Act. Pursuant to the ROC Securities and Exchange Law, beginning January 1, 2007, public companies shall either establish an audit committee satisfying specified

requirements or install supervisors. Under certain circumstances, public companies may be required by the Financial Supervisory Commission (the "FSC") to establish an audit committee. In addition to our Rule 10A-3 audit committee, we currently have supervisors pursuant to the ROC Securities and Exchange Law.

The audit committee must have a minimum of three members.

In addition to any requirement of Rule 10A-3(b)(1), all audit committee members must satisfy the independence requirements for independent directors set out in the NYSE listing standards.

The audit committee must have a written charter that provides for the duties and responsibilities set out in Rule 10A-3 and addresses certain other matters required by the NYSE listing standards.

We currently have one member on our audit committee. Our audit committee member satisfies the independence requirements of Rule 10A-3 under the Exchange Act. We do not assess the independence of our audit committee member under the independence requirements of the NYSE listing standards.

Our audit committee charter provides for the audit committee to assist our board of directors in its oversight of (i) the integrity of our financial statements, (ii) the qualifications, independence and performance of our independent auditor and (iii) our compliance with legal and regulatory requirements and provides for the duties and responsibilities set out in Rule 10A-3. Our audit committee charter does not address all the

matters required by the NYSE listing standards beyond the requirements of Rule 10A-3.

Because the appointment and retention of our independent auditor are the responsibility of our entire board of directors under ROC law and regulations, our audit committee charter provides that the audit committee shall make recommendations to the board of directors with respect to these matters.

Each listed company must have an internal audit function.

We have an internal audit function. Under the ROC Regulations for the Establishment of Internal Control Systems by Public Companies, a public company is required to set out its internal control systems in writing, including internal audit implementation rules, which must be approved by the board of directors.

Our entire board of directors and the Chief Executive Officer are responsible for the establishment of the internal audit functions, compliance with the internal audit implementation rules and oversight of our internal control systems, including the appointment and retention of our independent auditor.

Equity compensation plans

Shareholders must be given the opportunity to vote on all equity-compensation plans and material revisions thereto, except for employment inducement awards, certain grants, plans and amendments in the context of mergers and acquisitions, and certain specific types of plans.

We comply with the corresponding requirements of the ROC Company Law, the ROC Securities and Exchange Law, and the ROC Criteria Governing the Offering and Issuance of Securities by Securities Issuers, which require shareholders' approval for the distribution of employee bonuses, while the board of directors has authority to approve employee stock option plans by a majority vote of the board of directors at a meeting where at least two-thirds of all directors are present and to grant options to employees pursuant to such plans, subject to the approval of the Securities and Futures Bureau of the FSC, Executive Yuan, and to approve treasury stock programs and the transfer of shares to employees under such programs by a majority vote of the board of directors in a meeting where at least two-thirds of all directors are present.

Corporate governance guidelines

Listed companies must adopt and disclose corporate governance guidelines.

We currently comply with the domestic non-binding Corporate Governance Best-Practice Principles for Taiwan Stock Exchange and GreTai Stock Market Listed

Companies promulgated by the Taiwan Stock Exchange and the GreTai Stock Market, and we provide an explanation of differences between our practice and the principles, if any, in our ROC annual report.

Code of ethics for directors, officers and employees

Listed companies must adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers.

We have adopted a code of ethics that satisfies the requirements of Item 16B of Form 20-F and applies to all employees, officers, supervisors and directors of our company and our subsidiaries and will disclose any waivers of the code as required by Item 16B of Form 20-F. We have posted our code of ethics on our website.

Description of significant differences

Listed foreign private issuers must disclose any significant ways in which their corporate governance practices differ from those followed by domestic companies under NYSE listing standards.  
CEO certification

This table contains the significant differences between our corporate governance practices and those required of U.S. companies under the NYSE listing standards.

Each listed company CEO must certify to the NYSE each year that he or she is not aware of any violation by the company of NYSE corporate governance listing standards, qualifying the certification to the extent necessary.

As a foreign private issuer, we are not required to comply with this rule; however, our Chief Executive Officer provides certifications under Sections 302 and 906 of the Sarbanes-Oxley Act.

Each listed company CEO must promptly notify the NYSE in writing after any executive officer of the listed company becomes aware of any material non-compliance with any applicable provisions of Section 303A.

We intend to comply with this requirement.

Each listed company must submit an executed Written Affirmation annually to the NYSE. In addition, each listed company must submit an interim Written Affirmation each time a change occurs to the board or any of the committees subject to Section 303A. The annual and interim Written Affirmations must be in the form specified by the NYSE.

We have complied with this requirement to date and intend to continue to comply going forward.
