## Edgar Filing: DUSA PHARMACEUTICALS INC - Form 8-K

### Item 8.01 - Other Events.

DUSA Pharmaceuticals, Inc. ("DUSA") issued a press release on July 14, 2005, attached to and made a part of this report, announcing sales results for the period ended June 30, 2005 and held a conference call today to discuss the results. Dr. Shulman indicated during the call that while management cannot be certain of future results, DUSA is optimistic that when reordering of Levulan(R) Kerastick(R) units by high volume customers from 2004 converges with ordering by this year's high volume customers, quarter-to-quarter sales growth should reaccelerate. In addition, Mr. Doman noted that the potential arrangement with a group of medi-spa clinics to purchase BLU-U(R) units may also occur before the end of the year.

Except for historical information, this report and the attached press release contain certain forward-looking statements that involve known and unknown risks and uncertainties, which may cause actual results to differ materially from any future results, performance or achievements expressed or implied by the statements made. These forward-looking statements relate to beliefs concerning reasons for lower second quarter revenues of Kerastick(R) and BLU-U(R) units, impact of sales by compounding pharmacies, expectations for smoother order patterns and growth reflective of usage, reacceleration of quarter-to-quarter growth, potential sales to a group of medi-spa clinics, beliefs concerning Levulan's(R) position in the adoption curve, and expectations for the timing of the release of full financial results. Such risks and uncertainties include, but are not limited to, dependence on third-party manufacturers, DUSA's ability to integrate its new sales representatives and its new strategy, its ability to continue to penetrate the market, the litigation process, dependence on the consummation of a contract with a third-party, maintenance of its patent portfolio, and other risks identified in our SEC filings from time to time, including those contained in DUSA's Form 10-K for the year ended December 31, 2004
