Item 2.02. Results of Operations and Financial Condition.

This Current Report on Form 8-K is filed on behalf of The Hartford Financial Services Group, Inc. ( The Hartford or the Company ) to provide supplemental financial disclosure relating to the fiscal years ended December 31, 2004 and 2003; and the nine month period ended September 30, 2005.

The Hartford intends to change its reporting segments effective for the quarter ending December 31, 2005. The segment change is in accordance with the provisions of Statement of Financial Accounting Standard No. 131, and reflects the manner in which the Company is currently organized for purposes of making operating decisions and assessing performance.

The new segments and their component products are as follows:

**Life**

**Retail Products Group:** This segment will include the Company's individual annuities, retail mutual funds, 529 college savings plans, Canadian and offshore investment products. The Company intends to continue to prepare a separate income statement in its financial supplement for the individual annuity line of business.

**Retirement Plans:** This segment will include the Company's retirement plan products and services to corporations and municipalities under Section 401(k), 403(b) and 457 plans.

**Institutional Solutions Group:** This segment will include institutional liability products, including structured settlements and institutional annuities (including terminal funding cases), as well as variable private placement life insurance owned by corporations and high net worth individuals.

The Individual Life and Group Benefits segments remain unchanged from their definitions as of September 30, 2005.

**International:** This segment, which primarily has operations located in Japan, Brazil, Ireland and the UK, provides investments, retirement savings and other insurance products to individuals and groups outside the United States and Canada. The Company intends to prepare a separate income statement in its financial supplement for the Japanese operations.

Life includes in an Other category its leveraged corporate owned life insurance product line of business; corporate items not directly allocated to any of its reportable operating segments; net realized capital gains and losses on sales generated from movements in interest rates, less amortization of those gains or losses back to the reportable segments; net realized capital gains and losses generated from credit related events, less a credit risk fee charged to the reportable segments; net realized capital gains and losses from non-qualifying derivative strategies (including embedded derivatives) other than the net

---

**Table of Contents**

periodic coupon settlements on credit derivatives and the net periodic coupon settlements on the cross currency swap used to economically hedge currency and interest rate risk generated from sales of the Company's yen based fixed annuity, which are allocated to the reportable segments; the mark-to-market adjustment for the equity securities held for trading reported in net investment income and the related change in interest credited reported as a component of benefits, claims and claim adjustment expenses since these items are not considered by the Company's chief operating decision maker in evaluating the International results of operations; and intersegment eliminations.

**Property & Casualty**

Property & Casualty is organized into four reportable operating segments: The underwriting segments of Business Insurance, Personal Lines, Specialty Commercial (collectively "Ongoing Operations") and the Other Operations segment. The component products of each segment remain unchanged from September 30, 2005.

The profitability of the Business Insurance, Personal Lines and Specialty Commercial segments will continue to be evaluated primarily based on underwriting results. The Company will now allocate income and expense items not directly attributed to the underwriting segments, such as net investment income, net realized gains and losses, other expenses and income taxes, to Ongoing Operations and Other Operations, respectively. The profitability of Ongoing Operations and the Other Operations segment will now be evaluated based on net income.

Additionally, effective for the quarter ended December 31, 2005, the Company changed its method for calculating workers' compensation premium to be consistent with the method followed for the rest of the Company's property & casualty business. This change had no effect on earned premium. For all periods presented, written premium for workers' compensation business has been adjusted to reflect written premium in the period the policies incept. Previously, written premiums for most workers' compensation policies were calculated based on the period the premiums were billed.

**Corporate**

Corporate remains unchanged from its definition as of September 30, 2005.

**THE HARTFORD FINANCIAL SERVICES GROUP, INC.  
BASIS OF PRESENTATION**

**DEFINITIONS AND PRESENTATION**

All amounts are in millions, except for per share and ratio information unless otherwise stated.

Life is organized into six reportable operating segments: Retail Products Group, Retirement Plans, Institutional Solutions Group, Individual Life, Group Benefits and International. Life also includes in an Other category net realized capital gains and losses other than net periodic settlements on credit derivatives (reflected in each applicable segment) and net periodic settlements on the Japan fixed annuity cross-currency swap (reflected in the International segment); corporate items not directly allocated to any of its reportable operating segments; and intersegment eliminations.

Property & Casualty includes Ongoing Operations and Other Operations. Ongoing Operations includes the underwriting results of the Business Insurance, Personal Lines and Specialty Commercial segments. Other Operations includes the underwriting results of certain property and casualty insurance operations that have discontinued writing new business and substantially all of the Company's asbestos and environmental exposures. The profitability of the Business Insurance, Personal Lines and Specialty Commercial segments are evaluated primarily based on underwriting results. The Company allocates income and expense items not directly attributed to the underwriting segments, such as net investment income, net realized capital gains and losses, other expenses and income taxes, to Ongoing Operations and Other Operations, respectively. The profitability of Ongoing Operations and the Other Operations segment is evaluated based on net income.

Corporate primarily includes all of the Company's debt financing and related interest expense, as well as certain capital raising and certain purchase accounting adjustment activities.

Certain operating and statistical measures have been incorporated herein to provide supplemental data that indicate trends in The Hartford's current business. These measures include sales, net flows and account value.

The Hartford, along with others in the property and casualty insurance industry, uses underwriting ratios as measures of performance. The loss and loss adjustment expense ratio is the ratio of claims and claim adjustment expenses to earned premiums. The expense ratio is the ratio of underwriting expenses (amortization of deferred policy acquisition costs, as well as other underwriting expenses) to earned premiums. The policyholder dividend ratio is the ratio of policyholder dividends to earned premiums. The combined ratio is the sum of the loss and loss adjustment expense ratio, the expense ratio and the policyholder dividend ratio. These ratios are relative measurements that describe the related cost of losses and expenses for every \$100 of earned premiums. A combined ratio below 100 demonstrates underwriting profit; a combined ratio above 100 demonstrates underwriting losses. The catastrophe ratio (a component of the loss ratio) represents the ratio of catastrophe losses to earned premiums.

Assets under management is an internal performance measure used by the Company because a significant portion of the Company's revenues are based upon asset values. These revenues increase or decrease with a rise or fall, correspondingly, in the level of assets under management.

NM Not meaningful means increases or decreases greater than or equal to 200%, or changes from a net gain to a net loss position, or vice versa.

**THE HARTFORD FINANCIAL SERVICES GROUP, INC.  
BASIS OF PRESENTATION (CONTINUED)**

**DISCUSSION OF NON-GAAP AND OTHER FINANCIAL MEASURES**

The Hartford uses non-GAAP and other financial measures in this supplemental financial disclosure to assist investors in analyzing the Company's operating performance for the periods presented herein. Because The Hartford's calculation of these measures may differ from similar measures used by other companies, investors should be careful when comparing The Hartford's non-GAAP and other financial measures to those of other companies.

The Hartford uses the non-GAAP financial measure core earnings as an important measure of the Company's operating performance. Core earnings excludes the cumulative effect of accounting changes and excludes all realized capital gains and losses, except for certain gains and losses such as net periodic settlements on credit derivatives and net periodic settlements on the Japan fixed annuity cross-currency swap. The Company believes core earnings provides investors with a valuable measure of the performance of the Company's ongoing businesses. Net income is the most directly comparable GAAP measure. A reconciliation of net income to core earnings for the periods presented herein is set forth on pages C-1a and C-1b. Core earnings per share is calculated based on a non-GAAP financial measure. Net income per share is the most directly comparable GAAP measure.

The Hartford uses the non-GAAP financial measure core earnings, before tax related items, 2003 asbestos reserve addition, Bancorp litigation and severance charges, to further enhance investor understanding of the Company's ongoing businesses by eliminating the effects of the 2003 asbestos reserve addition, which relates solely to legacy businesses, and the effects of tax related items (amounts related to tax benefits from prior tax years), Bancorp litigation and severance charges because these items either are non-recurring or are highly variable from period to period. Net income is the most directly comparable GAAP measure. A reconciliation of net income (loss) to core earnings, before tax related items, 2003 asbestos reserve addition, Bancorp litigation and severance charges, for the periods presented herein is set forth at pages C-1a and C-1b. Core earnings, before tax related items, 2003 asbestos reserve addition, Bancorp litigation and severance charges, per share is calculated based on a non-GAAP financial measure. Net income per share is the most directly comparable GAAP measure.

Written premiums is a statutory accounting financial measure used by The Hartford as an important indicator of the operating performance of the Company's property-casualty operations. Because written premiums represents the amount of premium charged for policies issued during a fiscal period, The Hartford believes it is useful to investors because it reflects current trends in The Hartford's sale of property-casualty insurance products. Earned premiums, the most directly comparable GAAP measure, represents all premiums that are recognized as revenues during a fiscal period. The difference between written premiums and earned premiums is attributable to the change in unearned premium reserves.

The Company changed its method for calculating workers' compensation written premium to be consistent with the method followed for the rest of the Company's property & casualty business. This change had no effect on earned premium. For all periods presented, written premium for workers' compensation business has been adjusted to reflect written premium in the period the policies incept. Previously, written premiums for most workers' compensation policies were calculated based on the period the premiums were billed.

The profitability of the Business Insurance, Personal Lines and Specialty Commercial underwriting segments are evaluated by The Hartford's management primarily based upon underwriting results. Underwriting results is a before-tax measure that represents earned premiums less incurred claims, claim adjustment expenses and underwriting expenses. Underwriting results are influenced significantly by earned premium growth and the adequacy of The Hartford's pricing. Underwriting profitability over time is also greatly influenced by The

Hartford's underwriting discipline, which seeks to manage exposure to loss through favorable risk selection and diversification, its management of claims, its use of reinsurance and its ability to manage its expense ratio, which it accomplishes through economies of scale and its management of acquisition costs and other underwriting expenses.

A catastrophe is a severe loss, resulting from natural and manmade events, including risks such as fire, earthquake, windstorm, explosion, terrorism or other similar events. Each catastrophe has unique characteristics. Catastrophes are not predictable as to timing or loss amount in advance, and therefore their effects are not included in earnings or claims and claim adjustment reserves prior to occurrence. The Hartford believes that a discussion of the effect of catastrophes is meaningful for investors to understand the variability of periodic earnings.

[1] For the three months ended September 30, 2004 and the year ended December 31, 2004, Life includes \$190 and Property and Casualty includes \$26 of tax benefit related to prior tax years. For the year ended December 31, 2003, Life includes \$30 of tax benefit related to prior

tax years.

- [2] Includes those net realized capital gains not included in core earnings.
- [3] As a result of the antidilutive impact from the net loss for the year ended December 31, 2003, The Hartford is required by generally accepted accounting principles to use basic weighted average shares in the calculation of diluted earnings per share for the year ended December 31, 2003. In the absence of the net loss, 274.2 weighted average common shares outstanding and dilutive potential common shares would have been used in the calculation for the year ended December 31, 2003.
- [4] Calculated using weighted average common shares outstanding and

dilutive  
potential  
common shares  
of 274.2 for the  
year ended  
December 31,  
2003.

[1] With the adoption of SOP 03-1, in the first quarter of 2004 certain annuity products were required to be accounted for in the general account.

[2] Beginning in the first quarter of 2004, Group Benefits revenues includes revenues associated with a newly acquired business.

[3] These revenues will fluctuate principally due to the investment income and the mark-to-market adjustment of

the trading  
investment  
portfolio  
supporting the  
variable  
annuities  
business in the  
international  
operations,  
principally in  
Japan.

[4] Included in the  
year ended  
December 31,  
2003 is an  
expense related  
to the Bancorp  
litigation  
dispute of \$40,  
after-tax.

[5] Included in the  
three months  
ended  
September 30,  
2004 and the  
year ended  
December 31,  
2003 is a tax  
benefit of \$190  
and \$30,  
respectively,  
which primarily  
relates to the  
favorable tax  
treatment of  
certain tax  
items.

[1] With the adoption of SOP 03-1, certain annuity products were required to be accounted for in the general account. This change in accounting results in an increase in and volatility in net investment

income and  
benefits  
expense, as well  
as a decrease in  
other revenues  
beginning in the  
first quarter  
2004.

- [2] Following  
adoption of SOP  
03-1 on  
January 1, 2004,  
net investment  
income and  
benefits expense  
will fluctuate  
principally due  
to the  
investment  
income and the  
mark-to-market  
adjustment of  
the trading  
investment  
portfolio  
supporting the  
variable  
annuities  
business in the  
international  
operations,  
principally in  
Japan.

<b><u>Selected Financial Data</u></b>			
Hartford Fire adjusted statutory surplus (\$ in billions)	\$ 6.4	\$ 6.9	\$ 0.5
Hartford Fire premium to adjusted surplus ratio	1.5	1.4	(0.1)

[1] Written premium for workers compensation business has been adjusted to reflect written premium in the period the policies incept.

[2] Earned premiums for the nine months ended September 30, 2004 were reduced by \$90, reflecting a decrease in estimated earned premiums on retrospectively-rated policies. Earned premiums for the three months ended September 30, 2004 and 2005, are net of catastrophe treaty reinstatement premium of \$17 and \$60, respectively.

[3] Ongoing Operations prior year loss and loss adjustment expenses for the nine months ended September 30, 2004 included a net

reserve release of \$298 related to September 11 and an increase in reserves of \$190 for construction defects claims. Ongoing Operations prior year loss and loss adjustment expenses for the three months ended June 30, 2005 included a net reserve release of \$95, predominantly related to allocated loss adjustment expenses on auto liability claims.

- [4] During the nine months ended September 30, 2004, the Company reduced the net reinsurance recoverable asset associated with older, long-term casualty liabilities reported in the Other Operations segment by \$181. Additionally, the nine months ended September 30, 2004 included a net reserve release of \$97 related to September 11, an increase of \$130 for assumed casualty reinsurance reserves, and environmental reserve strengthening of \$75. The three months ended June 30, 2005 included assumed reinsurance reserve strengthening of \$73.

- [5] Included in both the prior year loss and loss adjustment expenses ratio and catastrophe ratio is prior accident year development on catastrophe losses including, for the nine months ended September 30, 2004, the net reserve release related to September 11.
- [6] Catastrophe losses for the nine months ended September 30, 2004 included losses from Hurricane Charley, Hurricane Frances, Hurricane Ivan and Hurricane Jeanne. Catastrophe losses for the three and nine months ended September 30, 2005 included losses from Hurricane Katrina and Hurricane Rita.
- [7] Core earnings for Property & Casualty before the impact of the \$90 decrease in estimated earned premiums on retrospectively-rated policies and prior year development is \$761 for the nine months ended September 30, 2004.
- [8] For periods prior to January 1, 2005, core earnings included the effect of periodic net coupon settlements

on non-qualifying  
derivatives, after tax.

- [1] Written premium for workers compensation business has been adjusted to reflect written premium in the period the policies incept.
- [2] Earned premiums for the nine months ended September 30, 2004 were reduced by \$90, reflecting a decrease in estimated earned premiums on retrospectively-rated policies. Earned premiums for the three months ended September 30, 2004 and 2005, are net of catastrophe treaty reinstatement premium of \$17 and \$60, respectively.
- [3] The nine months ended September 30, 2004 included a net reserve release of \$298 related to September 11 and an increase in reserves of \$190 for construction defects claims. The three months ended June 30, 2005 included a net reserve release of \$95, predominantly related to allocated loss adjustment expenses on auto liability claims.
- [4] The three months ended September 30, 2004 included catastrophe losses from Hurricane Charley, Hurricane Frances, Hurricane Ivan and Hurricane Jeanne. The three months ended September 30, 2005 included catastrophe losses from Hurricane Katrina and Hurricane Rita.
- [5] For periods prior to January 1, 2005, core earnings included the effect of periodic net coupon settlements on non-qualifying derivatives, after tax.
- [6] Tax benefit related to the audit settlement of tax years prior to 2004.

**Combined ratio before catastrophes and prior year development**

[1] Written premium for workers compensation business has been adjusted to reflect written premium in the period the policies incept.

[2] Specialty Commercial earned premiums for the nine months ended September 30, 2004 were reduced by \$90, reflecting a decrease in estimated earned premiums on retrospectively-rated policies. The nine months ended September 30, 2004 also included a net reserve release of \$116 related to September 11 and an increase in reserves of \$167 for construction defects claims. Other prior year loss development for the nine months ended September 30, 2004 included an increase in reserves of \$20. The following table shows underwriting ratios for the nine months ended September 30, 2004 before giving effect of these items:

Loss and loss adjustment expenses  
 Current year  
 Prior year

77.2

Total loss and loss adjustment expenses	77.2
Expenses	21.2
Policyholder dividends	
<b>Combined ratio</b>	<b>98.4</b>
Catastrophe ratio	6.7
<b>Combined ratio before catastrophes</b>	<b>91.8</b>
<b>Combined ratio before catastrophes and prior year development</b>	<b>91.8</b>

[3] Earned premiums for the three months ended September 30, 2004 and 2005 are net of catastrophe treaty reinstatement premium of \$4 and \$18, respectively.

[4] The three months ended September 30, 2005 included workers compensation reserve strengthening of \$70.

[5] Catastrophe losses for the three months ended September 30, 2004 included losses from Hurricane Charley, Hurricane Frances, Hurricane Ivan and Hurricane Jeanne. Catastrophe

losses for the  
three months  
ended  
September 30,  
2005 included  
losses from  
Hurricane  
Katrina and  
Hurricane Rita.

[6] Included in both  
the prior year  
loss and loss  
adjustment  
expenses ratio  
and catastrophe  
ratio is prior  
accident year  
development on  
catastrophe  
losses including,  
for the nine  
months ended  
September 30,  
2004, the net  
reserve release  
related to  
September 11.
