NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

June 30, 2007

NOTE 1 BASIS OF PRESENTATION

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements.

In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation of the results of the interim periods. Operating results for the six months ended June 30, 2007 are not indicative of the results to be expected for the full year ending December 31, 2007. These financial statements have been prepared on a basis that is substantially consistent with the accounting principles applied in our Annual Report on Form 10-K for the year ended December 31, 2006.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Organization:

Sturm, Ruger & Company, Inc. (Company) is principally engaged in the design, manufacture, and sale of firearms and investment castings. The Company's design and manufacturing operations are located in the United States. Sales for the three and six months ended June 30, 2007 were 95% domestic and 5% export. The Company's firearms are sold through a select number of independent wholesale distributors principally to the commercial sporting market. Investment castings are sold either directly or through manufacturers' representatives to companies in a wide variety of industries.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications:

Certain prior year balances may have been reclassified to conform with current year presentation.

Recent Accounting Pronouncements:

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and

Table of Contents

penalties, accounting in interim periods, disclosure, and transition. The Company adopted the provisions of FIN 48 on January 1, 2007. The impact of FIN 48 on the Company's financial position is discussed in Note 4 to the condensed financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements*, (FAS 157) and No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, (FAS 159). These Standards define fair value, establishes a framework for measuring fair value under generally accepted accounting principles and expands disclosures about fair value measurements. FAS 157 and FAS 159 are effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The adoption of FAS 157 and FAS 159 are not expected to have a material impact on the Company's financial position, results of operations and cash flows.

NOTE 3 INVENTORIES

Inventories are valued using the last-in, first-out (LIFO) method. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs existing at that time. Accordingly, interim LIFO calculations must necessarily be based on management's estimates of expected year-end inventory levels and costs. Because these are subject to many forces beyond management's control, interim results are subject to the final year-end LIFO inventory valuation.

During the three and six month periods ended June 30, 2007, inventory quantities were reduced. This reduction in inventory levels is expected to continue through year-end. This reduction will result in a liquidation of LIFO inventory quantities carried at lower costs prevailing in prior years as compared with the current cost of purchases. Although the effect of such a liquidation cannot be precisely quantified at the present time, management believes that if a LIFO liquidation continues to occur in 2007, the impact may be material to the Company's results of operations for the period but will not have a material impact on the financial position of the Company. The Company estimates that the impact of this liquidation on the results of operations for the three and six month periods ended June 30, 2007 was to reduce cost of products sold by \$6.5 and \$16.2 million, respectively.

Table of Contents

Inventories consist of the following (in thousands):

	June 30, 2007	December 31, 2006
Inventory at FIFO		
Finished products	\$ 7,670	\$ 13,117
Materials and work in process	53,191	74,360
Gross inventory	60,861	87,477
Less: LIFO reserve	(45,287)	(57,555)
Less: excess and obsolescence reserve	(4,004)	(5,516)
Net inventories	\$ 11,570	\$ 24,406

In addition to the aforementioned liquidation, the LIFO reserve was further reduced by \$1.7 million as a result of the sale of excess titanium inventory in 2007. This sale did not have an impact on the statement of income.

The LIFO impact on FIFO inventory increased from 66% at December 31, 2006 to 74% at June 30, 2007. The excess and obsolescence reserve decreased as a result of this increase.

NOTE 4 INCOME TAXES

The Company's 2007 and 2006 effective tax rate differs from the statutory tax rate due principally to state income taxes. Income tax payments totaled \$3.0 million and \$3.7 million for the three and six months ended June 30, 2007, respectively. No income tax payments were made in the three and six months ended June 30, 2006.

The Company adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, on January 1, 2007.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal and state income tax examinations by tax authorities for years before 2003. In the first quarter of 2007, the Internal Revenue Service (IRS) commenced an examination of the Company's Federal income tax return for 2005. The Company anticipates that the IRS will complete this examination by the end of 2007. The Company does not anticipate that adjustments resulting from this examination, if any, would result in a material change to its financial position or results of operations.

Upon the adoption of FIN 48, the Company commenced a review of all open tax years in all jurisdictions. The Company does not believe it has included any uncertain tax positions in its Federal income tax return or any of the state income tax returns it is currently filing. The Company has made an evaluation of the potential impact of additional state taxes being assessed by jurisdictions in which the Company does not currently consider itself liable. The Company does not anticipate that such additional taxes, if any, would result in a material change to its financial position. However, the Company anticipates that it is more likely than not that additional state tax liabilities in the range of \$0.5 to \$1.0 million exist. The Company had previously recorded \$0.7 million relating to these additional state income taxes, including approximately \$0.2 million for the payment of interest and penalties. This amount is included in income taxes payable at June 30, 2007. In connection with the adoption of FIN 48, the Company will include interest and penalties related to uncertain tax positions as a component of its provision for taxes.

NOTE 5 PENSION PLANS

The Company sponsors two defined benefit pension plans which cover substantially all employees. A third defined benefit plan is non-qualified and covers one current and two retired executive officers of the Company.

Table of Contents

The estimated cost of these plans is summarized below (in thousands):

	Three Months Ended June		Six Months Ended June	
	30, 2007	2006	30, 2007	2006
Service cost	399	\$ 406	751	\$ 811
Interest cost	822	821	1,549	1,642
Expected return on plan assets	(1,011)	(993)	(1,904)	(1,986)
Amortization of prior service cost	38	65	72	131
Recognized actuarial gains	297	256	559	512
Net periodic pension cost	\$ 545	\$ 555	\$ 1,027	\$ 1,110

The Company made contributions totaling \$0.5 million and \$1.0 million related to its defined benefit pension plans in the three and six months ended June 30, 2007. The Company expects its contributions for its defined benefit pension plans for the balance of 2007 to be approximately \$1.0 million.

NOTE 6 SHARE BASED PAYMENTS

On February 23, 2007 the Company adopted and on April 24, 2007 shareholders approved The Sturm, Ruger & Company, Inc. 2007 Stock Incentive Plan (the Plan). The Plan replaces both the Company's 1998 Stock Incentive Plan and its 2001 Stock Option Plan for Non-Employee Directors in advance of their expiration and becomes the sole plan for providing stock-based incentive compensation. All directors (including non-employee directors), officers, employees and independent contractors of the Company are eligible to participate in the Plan. The Plan provides for the issuance of up to 2,550,000 shares of the Company's common stock over the ten-year term of the Plan.

The Plan provides for the granting of non-qualified stock options to purchase up to 2,350,000 shares of the Company's common stock at a price not less than 100% of the fair market value of the stock as of the date of the grant. Incentive stock options are only available to employee participants. Each non-employee director will be granted options to purchase 20,000 shares of stock upon becoming a director. Options are exercisable for a period of up to ten years. The Plan also provides for restricted stock awards available to all eligible participants. Each non-employee director will be granted an annual award of restricted stock equal to \$25,000 on the date of grant. The Plan also provides for the granting of deferred stock awards and share appreciation rights to all eligible participants.

A summary of changes in options outstanding under the 1998 Stock Incentive Plan and 2001 Stock Option Plan for Non-Employee Directors is summarized below:

	Shares	Weighted Average Exercise Price
Outstanding at December 31, 2006	1,325,000	\$9.46
Granted		
Exercised		
Expired		
Outstanding June 30, 2007	1,325,000	\$9.46

The aggregate intrinsic value (mean market price at June 30, 2007 less the weighted average exercise price) of options outstanding under the 1998 Stock Incentive Plan and 2001 Stock Option Plan for Non-Employee Directors was approximately \$8.1 million.

A summary of changes in options outstanding under the 2007 Stock Incentive Plan is summarized below:

Table of Contents

	Shares	Weighted Average Exercise Price
Outstanding at December 31, 2006		
Granted	286,250	\$13.39
Exercised		
Expired		
Outstanding June 30, 2007	286,250	\$13.39

The aggregate intrinsic value (mean market price at June 30, 2007 less the weighted average exercise price) of options outstanding under the 2007 Stock Incentive Plan was approximately \$0.6 million.

The aggregate compensation expense for options granted in April 2007, calculated using the Black-Scholes option-pricing model, was \$0.7 million. This expense, which is a non-cash item, is being amortized in the Company's Statement of Income over the vesting periods. 171,000 of the options granted to employees vest upon the Company's attainment of certain performance objectives if achieved within three years from the date of grant. 115,000 of the options granted to employees vest over five years. Compensation costs related to share-based payments granted under all three plans recognized in the Condensed Statements of Income aggregated \$105,000 and \$181,000 for the three and six months ended June 30, 2007, respectively. For the three and six months ended June 30, 2006, compensation costs related to share-based payments recognized in the Condensed Statements of Income were \$10,000 and \$18,000, respectively.

In addition to the above options granted in the period ended June 30, 2007 under the 2007 Stock Incentive Plan, deferred stock awards totaling 29,945 shares with a fair value of \$438,000 were granted to certain executives of the Company and restricted stock shares totaling 10,920 with a fair value of \$150,000 were issued to non-employee directors of the Company in partial payment of directors' fees. The deferred shares granted to employees vested thirty days from the date of grant. The restricted shares issued to non-employee directors vest on the date of the 2008 annual meeting of stockholders. As a result of granting these awards, the Company's income before taxes and net income for both the three and six months ended June 30, 2007 were \$438,000 and \$262,000 lower, respectively.

The Company has adopted a policy to pay 25% of the annual incentive compensation in deferred stock which vests over three years. This policy applies to all officers of the Company and commences with the 2007 fiscal year and any annual incentive compensation earned for that period.

NOTE 8 BASIC AND DILUTED EARNINGS PER SHARE

Shares outstanding as of June 30, 2007 and 2006 were 22,679,585 and 26,910,720, respectively.

Diluted earnings per share reflect the impact of options outstanding using the treasury stock method, when applicable. This resulted in diluted weighted-average shares outstanding for the three and six months ended June 30, 2007 of 23,068,100 and 22,951,100 shares, respectively. Diluted weighted average of shares outstanding for both the three and six months ended June 30, 2006 were 26,912,000.

NOTE 8 CONTINGENT LIABILITIES

(The following disclosures within Note 8-Contingent Liabilities are identical to the disclosures within Firearms Litigation in Item 2-Management's Discussion and Analysis of Financial Condition and Results of Operations.)

As of June 30, 2007, the Company is a defendant in approximately 5 lawsuits involving its products and is aware of certain other such claims. These lawsuits and claims fall into two categories:

- (i) those that claim damages from the Company related to allegedly defective product design which stem from a specific incident. Pending lawsuits and claims are based principally on the theory of strict liability but also may be based on negligence, breach of warranty, and other legal theories; and

Table of Contents

- (ii) those brought by cities or other governmental entities, and individuals against firearms manufacturers, distributors and dealers seeking to recover damages allegedly arising out of the misuse of firearms by third parties in the commission of homicides, suicides and other shootings involving juveniles and adults. There are three such lawsuits presently pending: Gary, Indiana; Washington, D.C.; and New York City, all discussed further below. The complaints by municipalities seek damages, among other things, for the costs of medical care, police and emergency services, public health services, and the maintenance of courts, prisons, and other services. In certain instances, the plaintiffs seek to recover for decreases in property values and loss of business within the city due to criminal violence. In addition, nuisance abatement and/or injunctive relief is sought to change the design, manufacture, marketing and distribution practices of the various defendants. These suits allege, among other claims, strict liability or negligence in the design of products, public nuisance, negligent entrustment, negligent distribution, deceptive or fraudulent advertising, violation of consumer protection statutes and conspiracy or concert of action theories. Most of these cases do not allege a specific injury to a specific individual as a result of the misuse or use of any of the Company's products.

The Company has expended significant amounts of financial resources and management time in connection with product liability litigation. Management believes that, in every case involving firearms, the allegations are unfounded, and that the shootings and any results therefrom were due to negligence or misuse of the firearms by third-parties or the claimant, and that there should be no recovery against the Company. Defenses further exist to the suits brought by governmental entities based, among other reasons, on established state law precluding recovery for essential government services, the remoteness of the claims, the types of damages sought to be recovered, and limitations on the extraterritorial authority which may be exerted by a city, municipality, county or state under state and federal law, including State and Federal Constitutions.

The only case against the Company alleging liability for criminal shootings by third-parties to ever be permitted to go before a constitutional jury, Hamilton, et al. v. Accu-tek, et al., resulted in a defense verdict in favor of the Company on February 11, 1999. In that case, numerous firearms manufacturers and distributors had been sued, alleging damages as a result of alleged negligent sales practices and industry-wide liability. The Company and its marketing and distribution practices were exonerated from any claims of negligence in each of the seven cases decided by the jury. In subsequent proceedings involving other defendants, the New York Court of Appeals as a matter of law confirmed that 1) no legal duty existed under the circumstances to prevent or investigate criminal misuses of a manufacturer's lawfully made products; and 2) liability of firearms manufacturers could not be apportioned under a market share theory. More recently, the New York Court of Appeals on October 21, 2003 declined to hear the appeal from the decision of the New York Supreme Court, Appellate Division, affirming the dismissal of New York Attorney General Eliot Spitzer's public nuisance suit against the Company and other manufacturers and distributors of firearms. In its decision, the Appellate Division relied heavily on Hamilton in concluding that it was legally inappropriate, impractical, unrealistic and unfair to attempt to hold firearms manufacturers responsible under theories of public nuisance for the criminal acts of others.

Of the lawsuits brought by municipalities, counties or a state Attorney General, twenty have been concluded: Atlanta dismissal by intermediate Appellate Court, no further appeal; Bridgeport dismissal affirmed by Connecticut Supreme Court; County of Camden dismissal affirmed by U.S. Third Circuit Court of Appeals; Miami dismissal affirmed by intermediate appellate court, Florida Supreme Court declined review; New Orleans dismissed by Louisiana Supreme Court, United States Supreme Court declined review; Philadelphia U.S. Third Circuit Court of Appeals affirmed dismissal, no further appeal; Wilmington dismissed by trial court, no appeal; Boston voluntary dismissal with prejudice by the City at the close of fact discovery; Cincinnati voluntarily withdrawn after a unanimous vote of the city council; Detroit dismissed by Michigan Court of Appeals, no appeal; Wayne County dismissed by Michigan Court of Appeals, no appeal; New York State Court of Appeals denied plaintiff's petition for leave to appeal the Intermediate Appellate Court's dismissal, no further appeal; Newark Superior Court of New Jersey Law Division for Essex County dismissed the case with prejudice; City of Camden dismissed on July 7, 2003, not reopened; Jersey City voluntarily dismissed and not re-filed; St. Louis Missouri Supreme Court denied plaintiffs motion to appeal Missouri Appellate Court's affirmance of dismissal; Chicago

Table of Contents

Illinois Supreme Court affirmed trial court's dismissal; and Los Angeles City, Los Angeles County, San Francisco Appellate Court affirmed summary judgment in favor of defendants, no further appeal; and Cleveland dismissed on January 24, 2006 for lack of prosecution.

The dismissal of the Washington, D.C. municipal lawsuit was sustained on appeal, but individual plaintiffs were permitted to proceed to discovery and attempt to identify the manufacturers of the firearms used in their shootings as machine guns under the city's strict liability law. On April 21, 2005, the D.C. Court of Appeals, in an *en banc* hearing, unanimously dismissed all negligence and public nuisance claims, but let stand individual claims based upon a Washington, D.C. act imposing strict liability for manufacturers of machine guns. Based on present information, none of the Company's products has been identified with any of the criminal assaults which form the basis of the individual claims. The writ of certiorari to the United States Supreme Court regarding the constitutionality of the Washington, D.C. act was denied and the case was remanded to the trial court for further proceedings. The defendants subsequently moved to dismiss the case based upon the Protection of Lawful Commerce in Arms Act, which motion was granted on May 22, 2006. The individual plaintiffs and the District of Columbia, which has subrogation claims in regard to the individual plaintiffs, have appealed.

The Indiana Court of Appeals affirmed the dismissal of the Gary case by the trial court, but the Indiana Supreme Court reversed this dismissal and remanded the case for discovery proceedings on December 23, 2003. Gary is scheduled to begin trial in 2009. The defendants filed a motion to dismiss pursuant to the Protection of Lawful Commerce in Arms Act (PLCAA). The state court judge held the PLCAA unconstitutional and the defendants filed a motion with the Indiana Court of Appeals asking it to accept interlocutory appeal on the issue, which appeal was accepted on February 5, 2007.

In the previously reported New York City municipal case, the defendants moved to dismiss the suit pursuant to the Protection of Lawful Commerce in Arms Act. The trial judge found the Act to be constitutional but denied the defendants' motion to dismiss the case, stating that the Act was not applicable to the suit. The defendants were given leave to appeal and in fact have appealed the decision to the U.S. Court of Appeals for the Second Circuit. That appeal remains pending.

In the NAACP case, on May 14, 2003, an advisory jury returned a verdict rejecting the NAACP's claims. On July 21, 2003, Judge Jack B. Weinstein entered an order dismissing the NAACP lawsuit, but this order contained lengthy dicta which defendants believe are contrary to law and fact. Appeals by both sides were filed, but plaintiffs withdrew their appeal. On August 3, 2004, the United States Court of Appeals for the Second Circuit granted the NAACP's motion to dismiss the defendants' appeal of Judge Weinstein's order denying defendants' motion to strike his dicta made in his order dismissing the NAACP's case, and the defendants' motion for summary disposition was denied as moot. The ruling of the Second Circuit effectively confirmed the decision in favor of defendants and brought this matter to a conclusion.

Legislation has been passed in approximately 34 states precluding suits of the type brought by the municipalities mentioned above. On the Federal level, the Protection of Lawful Commerce in Arms Act was signed by President Bush on October 26, 2005. The Act requires dismissal of suits against manufacturers arising out of the lawful sale of their products for harm resulting from the criminal or unlawful misuse of a firearm by a third party. The Company is pursuing dismissal of each action involving such claims, including the municipal cases described above. The Company was voluntarily dismissed with prejudice on March 23, 2007 from the previously reported Arnold case. The matter was thus concluded with no payment by the Company.

Punitive damages, as well as compensatory damages, are demanded in certain of the lawsuits and claims. Aggregate claimed amounts presently exceed product liability accruals and applicable insurance coverage. For claims made after July 10, 2000, coverage is provided on an annual basis for losses exceeding \$5 million per claim, or an aggregate maximum loss of \$10 million annually, except for certain new claims which might be brought by governments or municipalities after July 10, 2000, which are excluded from coverage.

Table of Contents

Product liability claim payments are made when appropriate if, as, and when claimants and the Company reach agreement upon an amount to finally resolve all claims. Legal costs are paid as the lawsuits and claims develop, the timing of which may vary greatly from case to case. A time schedule cannot be determined in advance with any reliability concerning when payments will be made in any given case.

Provision is made for product liability claims based upon many factors related to the severity of the alleged injury and potential liability exposure, based upon prior claim experience. Because our experience in defending these lawsuits and claims is that unfavorable outcomes are typically not probable or estimable, only in rare cases is an accrual established for such costs. In most cases, an accrual is established only for estimated legal defense costs. Product liability accruals are periodically reviewed to reflect then-current estimates of possible liabilities and expenses incurred to date and reasonably anticipated in the future. Threatened product liability claims are reflected in our product liability accrual on the same basis as actual claims; i.e., an accrual is made for reasonably anticipated possible liability and claims-handling expenses on an ongoing basis.

A range of reasonably possible loss relating to unfavorable outcomes cannot be made. Currently, there are no product liability cases in which a dollar amount of damages is claimed. If there were cases with claimed damages, the amount of damages claimed would be set forth as an indication of possible maximum liability that the Company might be required to incur in these cases (regardless of the likelihood or reasonable probability of any or all of this amount being awarded to claimants) as a result of adverse judgments that are sustained on appeal.

The Company management monitors the status of known claims and the product liability accrual, which includes amounts for asserted and unasserted claims. While it is not possible to forecast the outcome of litigation or the timing of costs, in the opinion of management, after consultation with special and corporate counsel, it is not probable and is unlikely that litigation, including punitive damage claims, will have a material adverse effect on the financial position of the Company, but may have a material impact on the Company's financial results for a particular period.

The Company has reported all cases instituted against it through March 31, 2007 and the results of those cases, where terminated, to the S.E.C. on its previous Form 10-K and 10-Q reports, to which reference is hereby made.

NOTE 9 RELATED PARTY TRANSACTIONS

On March 8, 2007, the Company sold 42 parcels of non-manufacturing real property for \$7.3 million to William B. Ruger, Jr., the Company's former Chief Executive Officer and Chairman of the Board. The sales price was based upon an independent appraisal. The sale included substantially all of the Company's non-manufacturing real property assets in New Hampshire. The Company recognized a gain of \$5.2 million on the sale. Also in 2007, the Company sold several pieces of artwork to members of the Ruger family for \$0.2 million and recognized insignificant gains from these sales.

NOTE 10 OPERATING SEGMENT INFORMATION

The Company has two reportable segments: firearms and investment castings. The firearms segment manufactures and sells rifles, pistols, revolvers, and shotguns principally to a select number of independent wholesale distributors primarily located in the United States. The investment castings segment consists of one operating division that manufactures and sells steel investment castings. In July 2006, the Company announced the cessation of titanium castings operations. Production of titanium castings was completed in the first quarter of 2007. Sales of titanium castings for the remainder of 2007 will be insignificant. The Company continues to manufacture and sell steel investment castings. Selected operating segment financial information follows (in thousands):

NOTE 11 NON-RECURRING EVENT

On April 16, 2007, the Company sold a non-manufacturing facility in Arizona for \$5.0 million. This facility had not been used in the Company's operations for several years. The Company realized a gain of approximately \$1.5 million from this sale in the second quarter of 2007.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**Company Overview**

Sturm, Ruger & Company, Inc. (the Company) is principally engaged in the design, manufacture, and sale of firearms and investment castings. The Company's design and manufacturing operations are located in the United States. Sales for the six months ended June 30, 2007 were 95% domestic and 5% export. The Company's firearms are sold through a select number of independent wholesale distributors principally to the commercial sporting market.

Investment castings are manufactured from titanium and steel alloys. Investment castings are sold either directly to or through manufacturers' representatives to companies in a wide variety of industries. In July 2006, the Company announced the cessation of titanium castings operations. Production of these items was completed in the first quarter

of 2007. Sales of titanium castings for the remainder of 2007 will be insignificant. The Company consolidated its casting operations in its New Hampshire foundry during the first half of 2007. There were no significant costs associated with this consolidation. The Company continues to manufacture and sell steel investment castings.

Table of Contents

Because many of the Company's competitors are not subject to public filing requirements and industry-wide data is generally not available in a timely manner, the Company is unable to compare its performance to other companies or specific current industry trends. Instead, the Company measures itself against its own historical results.

The Company experiences differing seasonality in various firearms product lines, typically related to their end-use applications, with the overall net effect being moderately lower firearms demand in the third quarter of the year.

Results of Operations**Orders Received and Backlog**

In prior years, the Company received one cancelable annual firearms order in December from each of its distributors. Effective December 1, 2006, the Company changed the manner in which distributors order firearms, and began receiving firm, non-cancelable purchase orders on a frequent basis, with most orders for immediate delivery. The gross value of orders received and ending backlog for the periods ending June 30, 2007 and March 31, 2007 are as follows (in millions, including Federal Excise Tax):

	Three Months Ended	
	June 30, 2007	March 31, 2007
Orders Received	\$39.1	\$ 58.9
Ending Backlog	\$23.3	\$ 27.9

Because of the aforementioned change in the manner in which distributors now order firearms, comparable data for the three and six months ended June 30, 2006 is not meaningful.

Sales

Consolidated net sales were \$42.1 million for the three months ended June 30, 2007. This represents an increase of \$6.8 million or 19.4% from consolidated net sales of \$35.3 million in the comparable prior year period.

For the six months ended June 30, 2007, consolidated net sales were \$90.6 million, an increase of \$7.9 million or 9.5% over sales of \$82.7 million in the comparable 2006 period.

Firearms segment net sales were \$39.6 million for the three months ended June 30, 2007. This represents an increase of \$10.3 million or 35.4% from firearm net sales of \$29.2 million in the comparable prior year period.

For the six months ended June 30, 2007, firearms segment net sales were \$83.2 million. This represents an increase of \$13.2 million or 18.8% from 2006 firearm net sales of \$70.0 million in the comparable 2006 period.

Firearms unit shipments increased 31.8% for the three months ended June 30, 2007 when compared to the second quarter of 2006. Rifle shipments increased 49.3% from the comparable prior year period due to strong demand and product availability. Revolver shipments increased 19.8% from the comparable prior year period. Pistol shipments increased 18.8% from the comparable prior year period. Shotgun shipments increased 35.8% from the comparable prior year period.

For the six months ended June 30, 2007 firearms unit shipments increased 13.6% from the comparable 2006 period. Rifle shipments increased 25.7% from the comparable prior year period. Revolver shipments increased slightly from the 2006 period despite the 2006 shipment of 5,000 units of a discontinued single-action revolver. Eliminating the effect of this 2006 shipment, revolver sales would have increased 11.5% compared to the comparable

Table of Contents

prior year period. Shotgun shipments increased 18.5% and pistol shipments increased 9.4% from the comparable prior year period.

Production of many models has not increased as quickly as demand and safety stock levels of finished goods inventory of those models has been depleted during the six-month period ending June 30, 2007. As a result, increased firearm shipments in future periods will be dependent on the ability to increase firearm production of those models.

Casting segment net sales were \$2.5 million for the three months ended June 30, 2007. This represents a decrease of \$3.6 million or 58.0% from casting sales of \$6.1 million in the comparable prior year period.

For the six months ended June 30, 2007 casting segment net sales were \$7.3 million. This represents a decrease of \$5.4 million or 42.1% from casting sales of \$12.7 million in the comparable prior year period.

The casting sales decrease in both the three and six months ended June 30, 2007 reflects the cessation of titanium casting operations, as previously announced by the Company in July 2006. Titanium casting sales accounted for \$0.2 million or 9.3% of casting sales for the three months ended June 30, 2007 and \$2.4 million or 39.3% of total casting sales in the comparable prior year period. For the six months ended June 30, 2007 titanium casting sales were \$2.7 million or 36.8% of total casting sales compared to \$5.5 million or 43.4% in the comparable 2006 period. The Company continues to manufacture and sell steel investment castings.

Cost of Products Sold and Gross Margin

Consolidated cost of products sold was \$29.0 million for the three months ended June 30, 2007. This represents an increase of \$2.1 million or 7.8% from consolidated cost of products sold of \$26.9 million in the comparable prior year period.

For the six months ended June 30, 2007, consolidated cost of products sold was \$61.9 million. This represents a decrease of \$2.3 million or 3.6% from consolidated cost of products sold of \$64.2 million in the comparable prior year period.

Gross margin as a percent of sales was 31.2% and 31.7% for the three and six months ended June 30, 2007, respectively. This represents increases from the gross margin of 23.8% and 22.4% in the comparable prior year periods as illustrated below (in thousands):

Three Months Ended June 30,	2007		2006	
Net sales	\$ 42,107	100.0%	\$ 35,276	100.0%
Total cost of products sold, before LIFO and overhead rate adjustments to inventory and product liability	(31,479)	(74.8)%	(23,316)	(66.1)%
Performance gross margin *	10,628	25.2%	11,960	33.9%
LIFO income (expense)	6,144	14.6%	(1,686)	(4.8)%
Overhead rate adjustments to inventory	(2,827)	(6.7)%	(1,066)	(3.0)%
Product liability	(817)	(1.9)%	(823)	(2.3)%
Gross margin	\$ 13,128	31.2%	\$ 8,385	23.8%

Table of Contents

Six Months Ended June 30,	2007		2006	
Net sales	\$ 90,564	100.0%	\$ 82,703	100.0%
Total cost of products sold, before LIFO and overhead rate adjustments to inventory and product liability	(67,039)	(74.0)%	(58,794)	(71.1)%
Performance gross margin*	23,525	26.0%	23,909	28.9%
LIFO income (expense)	10,566	11.7%	(2,667)	(3.2)%
Overhead rate adjustments to inventory	(4,226)	(4.7)%	(1,234)	(1.5)%
Product liability	(1,173)	(1.3)%	(1,480)	(1.8)%
Gross margin	\$ 28,692	31.7%	\$ 18,528	22.4%

* Performance Gross Margin is Gross Margin excluding the impact of LIFO and overhead rate adjustments to inventory and product liability

Performance Gross Margin During the three and six months ended June 30, 2007 performance gross margin declined from the comparable prior year periods. The primary reasons were the significant inventory reduction experienced in 2007, resulting in the recognition of less efficient overhead incurred in prior periods, temporarily running certain production assets at lower rates than in prior periods to achieve the inventory reduction, and the expense associated with conversion of manufacturing processes (going lean). This inventory reduction effect is exacerbated in the year-over-year comparison due to the absorption of overhead during the comparable periods in 2006. The Company believes that short-term erosion in gross margin is common to companies experiencing similar significant reductions in inventory while they convert to lean manufacturing.

LIFO During the three and six months ended June 30, 2007 gross inventories were reduced by \$10.1 million and \$26.6 million, respectively, compared to a increases in gross inventories of \$7.2 million and \$4.3 million in the comparable prior year periods. Inventories are not expected to increase above the June 30 levels during the remainder of 2007. The 2007 reduction resulted in LIFO income and decreased cost of products sold of \$6.1 million and \$10.6 million for the three and six months ended June 30, 2007, respectively. LIFO expense of \$1.7 million and \$2.7 million resulted in an increase in cost of products sold in the comparable prior year periods.

Overhead Rate Change The change in inventory value as a result of a change in the overhead rate used to absorb overhead expenses into inventory remaining on the balance sheet for the three and six months ended June 30, 2007 were reductions of \$2.8 million and \$4.2, respectively, which recognized the continued progress made in lowering overhead rates. These reductions in inventory value resulted in increases to cost of products sold.

The change in inventory value as a result of a change in the overhead rate used to absorb overhead expenses into inventory remaining on the balance sheet in the three and six months ended June 30, 2006 were decreases of \$1.1 million and \$1.2 million, respectively. These reductions in inventory value resulted in increases to cost of products sold.

Product Liability During the three and six months ended June 30, 2007 and 2006, the Company incurred product liability expense of \$0.8 million and \$1.2 million, respectively, which includes the cost of outside legal fees, insurance, and other expenses incurred in the management and defense of product liability matters. For the comparable 2006 periods, product liability expenses totaled \$0.8 million and \$1.5 million, respectively.

Selling, General and Administrative Expenses

Table of Contents

Selling, general and administrative expenses were \$7.1 million and \$14.7 million for the three and six months ended June 30, 2007, respectively. This represents increases of \$0.5 million and \$0.2 million from selling, general and administrative expenses of \$6.6 million and \$14.5 million in the comparable prior year periods. The increase for the three months ended June 30, 2007 reflects increased personnel related costs, partially offset by reductions in sales promotion expenses. The increase for the six months ended June 30, 2007 reflects increased personnel-related costs, partially offset by reductions in advertising and sales promotion expenses. The increased personnel costs for the six months ended June 30, 2007 includes \$1.1 million of severance costs incurred in the first quarter of 2007 related to the previously announced reduction-in-force program, offset by the \$0.7 million expense incurred in the first quarter of 2006 related to the retirement of the Company's former Chairman and Chief Executive Officer.

Other Income

Other income-net for the three and six months ended June 30, 2007 was \$2.5 million and \$8.1 million, respectively. This represents an increase from other income-net of \$0.6 million and \$0.7 million, respectively, in the comparable prior year periods. The increases are primarily attributable to a \$5.2 million gain on the sale of non-manufacturing real property in March 2007 and a \$1.5 million gain on the sale of non-manufacturing real property in April 2007 and increased income from short-term investments as a result of increased principal invested at higher interest rates.

Income Taxes and Net Income

The effective income tax rate of 40.1% in the three and six months ended June 30, 2007 remained consistent with the income tax rate in 2006.

As a result of the foregoing factors, net income was \$5.1 million and \$13.2 million for the three and six months ended June 30, 2007, respectively. This represents increases of \$3.7 million and \$10.3 million from net income of \$1.4 million and \$2.9 million in the comparable prior year periods.

Financial Condition

Operations

At June 30, 2007, the Company had cash, cash equivalents and short-term investments of \$70.6 million. The Company's pre-LIFO working capital of \$126.0 million, less the LIFO reserve of \$45.3 million, results in working capital of \$80.7 million and a current ratio of 4.5 to 1.

Cash provided by operating activities was \$30.0 million and \$7.3 million for the six months ended June 30, 2007 and 2006, respectively. The increase in cash provided is principally a result of a decrease in inventory, improved net income and various fluctuations in operating asset and liability accounts during the first six months of 2007 compared to the first six months of 2006.

Third parties supply the Company with various raw materials for its firearms and castings, such as fabricated steel components, walnut, birch, beech, maple and laminated lumber for rifle and shotgun stocks, wax, ceramic material, metal alloys, various synthetic products and other component parts. There is a limited supply of these materials in the marketplace at any given time that can cause the purchase prices to vary based upon numerous market factors. The Company believes that it has adequate quantities of raw materials in inventory to provide ample time to locate and obtain additional items at then-current market cost without interruption of its manufacturing operations. However, if market conditions result in a significant prolonged inflation of certain prices or if adequate quantities of raw materials can not be obtained, the Company's manufacturing processes could be interrupted and the Company's financial condition or results of operations could be materially adversely affected.

Table of Contents

Investing and Financing

Capital expenditures for the six months ended June 30, 2007 totaled \$1.3 million. For the past two years capital expenditures averaged approximately \$1.1 million per quarter. The Company expects to spend approximately \$2.7 million on capital expenditures during the remainder of 2007 to purchase tooling for new product introductions and to upgrade and modernize manufacturing equipment, primarily at the Newport Firearms and Pine Tree Castings Divisions. The Company finances, and intends to continue to finance, these activities with funds provided by operations and current cash and short-term investments.

On January 26, 2007, the Company announced that its Board of Directors authorized a stock repurchase program. The program allows the Company to repurchase up to \$20 million of its common stock from time to time in the open market or through privately negotiated transactions. No shares were repurchased during the six months ended June 30, 2007.

On March 8, 2007, the Company sold 42 parcels of non-manufacturing real property for \$7.3 million to William B. Ruger, Jr., the Company's former Chief Executive Officer and Chairman of the Board. The sale included substantially all of the Company's non-manufacturing real property assets in New Hampshire. The sales price was based upon an independent appraisal, and the Company recognized a gain of \$5.2 million on the sale.

On April 16, 2007, the Company sold a non-manufacturing facility in Arizona for \$5.0 million. This facility had not been used in the Company's operations for several years. The Company realized a gain of approximately \$1.5 million and net cash of \$4.6 million from this sale.

There were no dividends paid for the six months ended June 30, 2007. The payment of future dividends depends on many factors, including consistent quarterly operating earnings, internal estimates of future performance, then-current cash and short-term investments and the Company's need for funds. The Company does not expect to pay dividends in the near term, but will reconsider a dividend from time to time.

Historically, the Company has not required external financing. Based on its unencumbered assets, the Company believes it has the ability to raise substantial amounts of cash through the issuance of short-term or long-term debt.

Firearms Legislation

The sale, purchase, ownership, and use of firearms are subject to thousands of federal, state and local governmental regulations. The basic federal laws are the National Firearms Act, the Federal Firearms Act, and the Gun Control Act of 1968. These laws generally prohibit the private ownership of fully automatic weapons and place certain restrictions on the interstate sale of firearms unless certain licenses are obtained. The Company does not manufacture fully automatic weapons, other than for the law enforcement market, and holds all necessary licenses under these federal laws. From time to time, congressional committees review proposed bills relating to the regulation of firearms. These proposed bills generally seek either to restrict or ban the sale and, in some cases, the ownership of various types of firearms. Several states currently have laws in effect similar to the aforementioned legislation.

Until November 30, 1998, the Brady Law mandated a nationwide five-day waiting period and background check prior to the purchase of a handgun. As of November 30, 1998, the National Instant Check System, which applies to both handguns and long guns, replaced the five-day waiting period. The Company believes that the Brady Law and the National Instant Check System have not had a significant effect on the Company's sales of firearms, nor does it anticipate any impact on sales in the future. On September 13, 1994, the Crime Bill banned so-called assault weapons. All the Company's then-manufactured commercially-sold long guns were exempted by name as legitimate sporting firearms. This ban expired by operation of law on September 13, 2004. The Company remains strongly opposed to laws which would restrict the rights of law-abiding citizens to lawfully acquire firearms. The Company believes that the lawful private ownership of firearms is guaranteed by the Second Amendment to the

Table of Contents

United States Constitution and that the widespread private ownership of firearms in the United States will continue. However, there can be no assurance that the regulation of firearms will not become more restrictive in the future and that any such restriction would not have a material adverse effect on the business of the Company.

Firearms Litigation

(The following disclosures within Firearms Litigation are identical to the disclosures within Note 8-Contingent Liabilities.)

As of June 30, 2007, the Company is a defendant in approximately 5 lawsuits involving its products and is aware of certain other such claims. These lawsuits and claims fall into two categories:

- (i) those that claim damages from the Company related to allegedly defective product design which stem from a specific incident. Pending lawsuits and claims are based principally on the theory of strict liability but also may be based on negligence, breach of warranty, and other legal theories; and
- (ii) those brought by cities or other governmental entities, and individuals against firearms manufacturers, distributors and dealers seeking to recover damages allegedly arising out of the misuse of firearms by third parties in the commission of homicides, suicides and other shootings involving juveniles and adults. There are three such lawsuits presently pending: Gary, Indiana; Washington, D.C.; and New York City, all discussed further below. The complaints by municipalities seek damages, among other things, for the costs of medical care, police and emergency services, public health services, and the maintenance of courts, prisons, and other services. In certain instances, the plaintiffs seek to recover for decreases in property values and loss of business within the city due to criminal violence. In addition, nuisance abatement and/or injunctive relief is sought to change the design, manufacture, marketing and distribution practices of the various defendants. These suits allege, among other claims, strict liability or negligence in the design of products, public nuisance, negligent entrustment, negligent distribution, deceptive or fraudulent advertising, violation of consumer protection statutes and conspiracy or concert of action theories. Most of these cases do not allege a specific injury to a specific individual as a result of the misuse or use of any of the Company's products.

The Company has expended significant amounts of financial resources and management time in connection with product liability litigation. Management believes that, in every case involving firearms, the allegations are unfounded, and that the shootings and any results therefrom were due to negligence or misuse of the firearms by third-parties or the claimant, and that there should be no recovery against the Company. Defenses further exist to the suits brought by governmental entities based, among other reasons, on established state law precluding recovery for essential government services, the remoteness of the claims, the types of damages sought to be recovered, and limitations on the extraterritorial authority which may be exerted by a city, municipality, county or state under state and federal law, including State and Federal Constitutions.

The only case against the Company alleging liability for criminal shootings by third-parties to ever be permitted to go before a constitutional jury, Hamilton, et al. v. Accu-tek, et al., resulted in a defense verdict in favor of the Company on February 11, 1999. In that case, numerous firearms manufacturers and distributors had been sued, alleging damages as a result of alleged negligent sales practices and industry-wide liability. The Company and its marketing and distribution practices were exonerated from any claims of negligence in each of the seven cases decided by the jury. In subsequent proceedings involving other defendants, the New York Court of Appeals as a matter of law confirmed that 1) no legal duty existed under the circumstances to prevent or investigate criminal misuses of a manufacturer's lawfully made products; and 2) liability of firearms manufacturers could not be apportioned under a market share theory. More recently, the New York Court of Appeals on October 21, 2003 declined to hear the appeal from the decision of the New York Supreme Court, Appellate Division, affirming the dismissal of New York Attorney General Eliot Spitzer's public nuisance suit against the Company and other

Table of Contents

manufacturers and distributors of firearms. In its decision, the Appellate Division relied heavily on Hamilton in concluding that it was legally inappropriate, impractical, unrealistic and unfair to attempt to hold firearms manufacturers responsible under theories of public nuisance for the criminal acts of others.

Of the lawsuits brought by municipalities, counties or a state Attorney General, twenty have been concluded: Atlanta dismissal by intermediate Appellate Court, no further appeal; Bridgeport dismissal affirmed by Connecticut Supreme Court; County of Camden dismissal affirmed by U.S. Third Circuit Court of Appeals; Miami dismissal affirmed by intermediate appellate court, Florida Supreme Court declined review; New Orleans dismissed by Louisiana Supreme Court, United States Supreme Court declined review; Philadelphia U.S. Third Circuit Court of Appeals affirmed dismissal, no further appeal; Wilmington dismissed by trial court, no appeal; Boston voluntary dismissal with prejudice by the City at the close of fact discovery; Cincinnati voluntarily withdrawn after a unanimous vote of the city council; Detroit dismissed by Michigan Court of Appeals, no appeal; Wayne County dismissed by Michigan Court of Appeals, no appeal; New York State Court of Appeals denied plaintiff's petition for leave to appeal the Intermediate Appellate Court's dismissal, no further appeal; Newark Superior Court of New Jersey Law Division for Essex County dismissed the case with prejudice; City of Camden dismissed on July 7, 2003, not reopened; Jersey City voluntarily dismissed and not re-filed; St. Louis Missouri Supreme Court denied plaintiffs motion to appeal Missouri Appellate Court's affirmance of dismissal; Chicago Illinois Supreme Court affirmed trial court's dismissal; and Los Angeles City, Los Angeles County, San Francisco Appellate Court affirmed summary judgment in favor of defendants, no further appeal; and Cleveland dismissed on January 24, 2006 for lack of prosecution.

The dismissal of the Washington, D.C. municipal lawsuit was sustained on appeal, but individual plaintiffs were permitted to proceed to discovery and attempt to identify the manufacturers of the firearms used in their shootings as machine guns under the city's strict liability law. On April 21, 2005, the D.C. Court of Appeals, in an *en banc* hearing, unanimously dismissed all negligence and public nuisance claims, but let stand individual claims based upon a Washington, D.C. act imposing strict liability for manufacturers of machine guns. Based on present information, none of the Company's products has been identified with any of the criminal assaults which form the basis of the individual claims. The writ of certiorari to the United States Supreme Court regarding the constitutionality of the Washington, D.C. act was denied and the case was remanded to the trial court for further proceedings. The defendants subsequently moved to dismiss the case based upon the Protection of Lawful Commerce in Arms Act, which motion was granted on May 22, 2006. The individual plaintiffs and the District of Columbia, which has subrogation claims in regard to the individual plaintiffs, have appealed.

The Indiana Court of Appeals affirmed the dismissal of the Gary case by the trial court, but the Indiana Supreme Court reversed this dismissal and remanded the case for discovery proceedings on December 23, 2003. Gary is scheduled to begin trial in 2009. The defendants filed a motion to dismiss pursuant to the Protection of Lawful Commerce in Arms Act (PLCAA). The state court judge held the PLCAA unconstitutional and the defendants filed a motion with the Indiana Court of Appeals asking it to accept interlocutory appeal on the issue, which appeal was accepted on February 5, 2007.

In the previously reported New York City municipal case, the defendants moved to dismiss the suit pursuant to the Protection of Lawful Commerce in Arms Act. The trial judge found the Act to be constitutional but denied the defendants' motion to dismiss the case, stating that the Act was not applicable to the suit. The defendants were given leave to appeal and in fact have appealed the decision to the U.S. Court of Appeals for the Second Circuit. That appeal remains pending.

In the NAACP case, on May 14, 2003, an advisory jury returned a verdict rejecting the NAACP's claims. On July 21, 2003, Judge Jack B. Weinstein entered an order dismissing the NAACP lawsuit, but this order contained lengthy dicta which defendants believe are contrary to law and fact. Appeals by both sides were filed, but plaintiffs withdrew their appeal. On August 3, 2004, the United States Court of Appeals for the Second Circuit granted the NAACP's motion to dismiss the defendants' appeal of Judge Weinstein's order denying defendants' motion to strike his dicta made in his order dismissing the NAACP's case, and the defendants' motion for summary

Table of Contents

disposition was denied as moot. The ruling of the Second Circuit effectively confirmed the decision in favor of defendants and brought this matter to a conclusion.

Legislation has been passed in approximately 34 states precluding suits of the type brought by the municipalities mentioned above. On the Federal level, the Protection of Lawful Commerce in Arms Act was signed by President Bush on October 26, 2005. The Act requires dismissal of suits against manufacturers arising out of the lawful sale of their products for harm resulting from the criminal or unlawful misuse of a firearm by a third party. The Company is pursuing dismissal of each action involving such claims, including the municipal cases described above. The Company was voluntarily dismissed with prejudice on March 23, 2007 from the previously reported Arnold case. The matter was thus concluded with no payment by the Company.

Punitive damages, as well as compensatory damages, are demanded in certain of the lawsuits and claims. Aggregate claimed amounts presently exceed product liability accruals and applicable insurance coverage. For claims made after July 10, 2000, coverage is provided on an annual basis for losses exceeding \$5 million per claim, or an aggregate maximum loss of \$10 million annually, except for certain new claims which might be brought by governments or municipalities after July 10, 2000, which are excluded from coverage.

Product liability claim payments are made when appropriate if, as, and when claimants and the Company reach agreement upon an amount to finally resolve all claims. Legal costs are paid as the lawsuits and claims develop, the timing of which may vary greatly from case to case. A time schedule cannot be determined in advance with any reliability concerning when payments will be made in any given case.

Provision is made for product liability claims based upon many factors related to the severity of the alleged injury and potential liability exposure, based upon prior claim experience. Because our experience in defending these lawsuits and claims is that unfavorable outcomes are typically not probable or estimable, only in rare cases is an accrual established for such costs. In most cases, an accrual is established only for estimated legal defense costs. Product liability accruals are periodically reviewed to reflect then-current estimates of possible liabilities and expenses incurred to date and reasonably anticipated in the future. Threatened product liability claims are reflected in our product liability accrual on the same basis as actual claims; i.e., an accrual is made for reasonably anticipated possible liability and claims-handling expenses on an ongoing basis.

A range of reasonably possible loss relating to unfavorable outcomes cannot be made. Currently, there are no product liability cases in which a dollar amount of damages is claimed. If there were cases with claimed damages, the amount of damages claimed would be set forth as an indication of possible maximum liability that the Company might be required to incur in these cases (regardless of the likelihood or reasonable probability of any or all of this amount being awarded to claimants) as a result of adverse judgments that are sustained on appeal.

The Company management monitors the status of known claims and the product liability accrual, which includes amounts for asserted and unasserted claims. While it is not possible to forecast the outcome of litigation or the timing of costs, in the opinion of management, after consultation with special and corporate counsel, it is not probable and is unlikely that litigation, including punitive damage claims, will have a material adverse effect on the financial position of the Company, but may have a material impact on the Company's financial results for a particular period.

The Company has reported all cases instituted against it through March 31, 2007 and the results of those cases, where terminated, to the S.E.C. on its previous Form 10K and 10Q reports, to which reference is hereby made.

Other Operational Matters

In the normal course of its manufacturing operations, the Company is subject to occasional governmental proceedings and orders pertaining to waste disposal, air emissions and water discharges into the environment. The Company believes that it is generally in compliance with applicable environmental regulations and the outcome of

Table of Contents

such proceedings and orders will not have a material adverse effect on the financial position or results of operations of the Company.

The Company self-insures a significant amount of its product liability, workers compensation, medical, and other insurance. It also carries significant deductible amounts on various insurance policies.

The valuation of the future defined benefit pension obligations at December 31, 2006 indicated that these plans were under funded by \$7.6 million and resulted in a cumulative other comprehensive loss of \$12.4 million on the Company's balance sheet at December 31, 2006.

The Company expects to realize its deferred tax assets through tax deductions against future taxable income.

Inflation's effect on the Company's operations is most immediately felt in cost of products sold because the Company values inventory on the LIFO basis. Generally under this method, the cost of products sold reported in the financial statements approximates current costs and, thus, reduces distortion in reported income that would result from the slower recognition of increased costs when other methods are used. In the three and six months ended June 30, 2007, however, a significant reduction in inventories resulted in a liquidation of LIFO inventory quantities carried at lower costs prevailing in prior years as compared with the current cost of purchases. This resulted in LIFO income and decreased cost of products sold of \$6.5 million and \$16.2 million for the three and six months ended June 30, 2007, respectively.

Adjustments to Critical Accounting Policies

The Company has not made any adjustments to its critical accounting estimates and assumptions described in the Company's 2006 Annual Report on Form 10-K filed on March 5, 2007, or the judgments affecting the application of those estimates and assumptions.

Recent Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company adopted the provisions of FIN 48 on January 1, 2007. The impact of FIN 48 on the Company's financial position is discussed in Note 4 to the condensed financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements*, (FAS 157) and No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, (FAS 159). These Standards define fair value, establishes a framework for measuring fair value under generally accepted accounting principles and expands disclosures about fair value measurements. FAS 157 and FAS 159 are effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The adoption of FAS 157 and FAS 159 are not expected to have a material impact on the Company's financial position, results of operations and cash flows.

Forward-Looking Statements and Projections

The Company may, from time to time, make forward-looking statements and projections concerning future expectations. Such statements are based on current expectations and are subject to certain qualifying risks and uncertainties, such as market demand, sales levels of firearms, anticipated castings sales and earnings, the need for external financing for operations or capital expenditures, the results of pending litigation against the Company including lawsuits filed by mayors, state attorneys general and other governmental entities and membership organizations, and the impact of future firearms control and environmental legislation, any one or more of which

Table of Contents

could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to publish revised forward-looking statements to reflect events or circumstances after the date such forward-looking statements are made or to reflect the occurrence of subsequent unanticipated events.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to changes in prevailing market interest rates affecting the return on its investments but does not consider this interest rate market risk exposure to be material to its financial condition or results of operations. The Company invests primarily in a bank-managed money market fund that invests principally in United States Treasury instruments, all maturing within one year. The carrying amount of these investments approximates fair value due to the short-term maturities. Under its current policies, the Company does not use derivative financial instruments, derivative commodity instruments or other financial instruments to manage its exposure to changes in interest rates or commodity prices.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Treasurer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (the

Disclosure Controls and Procedures), as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the June 30, 2007.

Based on the evaluation, the Company's Chief Executive Officer and Treasurer and Chief Financial Officer have concluded that, as of June 30, 2007, such disclosure controls and procedures are effective to ensure that information required to be disclosed in the Company's periodic reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission's rules and forms.

Changes in Internal Controls over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The nature of the legal proceedings against the Company is discussed at Note 8 to this Form 10-Q report, which is incorporated herein by reference.

The Company has reported all cases instituted against it through March 31, 2007, and the results of those cases, where terminated, to the S.E.C. on its previous Form 10-Q and 10-K reports, to which reference is hereby made.

Two cases were formally instituted against the Company during the three months ending June 30, 2007:

Pearce v. Company, et al (MA) in the U.S. District Court for the District of Massachusetts. The plaintiff was allegedly injured when the fork on his bicycle failed, resulting in unspecified permanent injuries and property damage. The complaint alleges that either the Pine Tree Castings Division of the Company or Wyman-Gordon

Table of Contents

Investment Castings manufactured the casting from which the fork crown, the part that allegedly failed, was manufactured. Compensatory damages and costs are demanded.

Watkins v. Company, et al (PA) in the Court of Common Pleas, Philadelphia County. The Writ alleges that a minor pointed a handgun at the minor decedent. The minor pulled the trigger and shot the decedent, resulting in his death. A Form Writ of Summons has been filed, but other details and the damages demanded are not set out.

During the three months ending June 30, 2007, no previously reported cases were settled.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from the information provided in Item 1A. Risk Factors included in our Annual Report on Form 10-K for the year ended December 31, 2006.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Not applicable

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The 2007 Annual Meeting of Stockholders of the Company was held on April 24, 2007. The table below sets forth the results of the votes taken on the 2007 Annual Meeting:

1.

	Votes For	Votes Withheld
Election of Directors		
Michael O. Fifer	20,139,485	446,008
Stephen L. Sanetti	20,191,666	393,827
James E. Service	19,530,913	1,054,580
John A. Cosentino, Jr.	20,165,373	420,120
C. Michael Jacobi	20,236,993	348,500
John M. Kingsley, Jr.	19,192,632	1,392,861
Stephen T. Merkel	20,136,227	449,266
Ronald C. Whitaker	20,243,271	342,222

2.

Ratification of McGladrey & Pullen, LLP as Auditors for 2007
