CAMBREX CORPORATION AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (dollars in thousands, except share data)

(1) BASIS OF PRESENTATION

Unless otherwise indicated by the context, "Cambrex" or the "Company" means Cambrex Corporation and subsidiaries.

The accompanying unaudited consolidated financial statements have been prepared from the records of the Company. In the opinion of management, the financial statements include all adjustments, which are of a normal and recurring nature, except as otherwise described herein, and is necessary for a fair statement of financial position and results of operations in conformity with generally accepted accounting principles ("GAAP"). These interim financial statements should be read in conjunction with the financial statements for the year ended December 31, 2007.

The results of operations for the three months ended March 31, 2008 are not necessarily indicative of the results to be expected for the full year.

In February 2007, the Company completed the sale of the businesses that comprised the Bioproducts and Biopharma segments (excluding certain liabilities) for total cash consideration of \$463,914, including working capital adjustments. As a result of this transaction, the Company reported a gain of \$235,489 in 2007 and all periods presented reflect the results of these businesses as discontinued operations. Refer to Note 12 for a more complete discussion on discontinued operations.

(2) IMPACT OF RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Fair Value Measurements

In September 2006, the Financial Accounting Standards Board ("FASB") issued FASB Statement No. 157 "Fair Value Measurements" ("FAS 157"). This statement defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. This statement will apply whenever another standard requires (or permits) assets or liabilities to be measured at fair value. The standard does not expand the use of fair value to any new circumstances. FAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Relative to FAS 157, the FASB issued FASB Staff Positions 157-2, which defers the effective date of FAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis, until fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The effect of adopting this pronouncement (related to financial assets and financial liabilities) did not have a material impact on the Company's

Edgar Filing: CAMBREX CORP - Form 10-Q

financial position or results of operations. The Company is currently evaluating the potential impact of this statement (related to nonfinancial assets and nonfinancial liabilities).

Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans

The Company adopted FASB Statement No. 158 "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 132(R)" ("FAS 158") for the year ended December 31, 2006. FAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in the balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. This statement does not impact the amounts recognized in the income statement.

FAS 158 also requires an employer to measure the funded status of a plan as of the date of the fiscal year end balance sheet. The Company's pension plans and postretirement benefits plan previously had a

5

CAMBREX CORPORATION AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (dollars in thousands, except share data)

(2) IMPACT OF RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS (CONTINUED)

September 30 measurement date. The Company will adopt this measurement requirement effective December 31, 2008. The effect of adopting this pronouncement will not have a material impact on the Company's financial position or results of operations.

Fair Value Option for Financial Assets and Financial Liabilities

The Company adopted FASB Statement No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities--Including an amendment of FASB Statement No. 115" ("FAS 159") effective January 1, 2008. This statement permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected should be reported in earnings at each subsequent reporting date. The effect of adopting this pronouncement did not have a material impact on the Company's financial position or results of operations.

Amendment of FAS 141

In December 2007, the FASB issued FASB Statement No. 141 (Revised 2007), "Business Combinations" ("FAS 141R"). Under FAS 141R, an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition date fair value with limited exceptions. FAS 141R will change the accounting treatment for certain specific items, including:

- acquisition costs will be generally expensed as incurred;
- noncontrolling interests will be valued at fair value at the acquisition date;
- acquired contingent liabilities will be recorded at fair value at the acquisition date and subsequently measured at either the

Edgar Filing: CAMBREX CORP - Form 10-Q

higher of such amount or the amount determined under existing guidance for non-acquired contingencies;

- in-process research and development will be recorded at fair value as an indefinite-lived intangible asset at the acquisition date until the completion or abandonment of the associated research and development efforts;
- restructuring costs associated with a business combination will be generally expensed subsequent to the acquisition date; and
- changes in deferred tax asset valuation allowances and income tax uncertainties after the acquisition date generally will affect income tax expense.

FAS 141R also includes a substantial number of new disclosure requirements. FAS 141R applies prospectively to business combinations (except for income taxes which applies to prior as well as future acquisitions) for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Earlier adoption is prohibited. Accordingly, the Company will adopt this statement on January 1, 2009.

6

CAMBREX CORPORATION AND SUBSIDIARIES NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (dollars in thousands, except share data)

(2) IMPACT OF RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS (CONTINUED)

Amendment of FAS 133

In March 2008, the FASB issued FASB Statement No. 161 "Disclosures about Derivative Instruments and Hedging Activities--an amendment of FASB Statement No. 133" ("FAS 161"). This statement requires enhanced disclosures about derivative and hedging activities and thereby improves the transparency of financial reporting. FAS 161 encourages, but does not require, comparative disclosures for earlier periods at initial adoption. This statement is effective for fiscal years beginning after November 15, 2008. The effect of adopting this pronouncement will not have an impact on the Company's financial position or results of operations.

(3) STOCK-BASED COMPENSATION

On March 31, 2008, the Company had seven active stock-based employee compensation plans in effect. The Company also had outstanding at March 31, 2008 restricted stock as described below.

The Company recognizes compensation costs for stock option awards to employees based on their grant-date fair value. The value of each stock option is estimated on the date of grant using the Black-Scholes option-pricing model. There were no stock options granted to employees during the three months ended March 31, 2008 and 2007.

FAS 123(R) "Share-Based Payment" requires companies to estimate the expected forfeitures for all unvested awards and record compensation costs only for those awards that are expected to vest. As of March 31, 2008, the total compensation cost related to unvested stock option awards granted to employees but not yet recognized was \$826. The cost will be amortized on a straight-line

Edgar Filing: CAMBREX CORP - Form 10-Q

basis over the remaining weighted-average vesting period of 3.0 years.

For the three months ended March 31, 2008 and 2007, the Company recorded \$76 and \$73, respectively, in selling, general and administrative expenses for stock options. In addition, the Company recorded \$185 and \$17 in strategic alternative costs and restructuring expenses, respectively, in the three months ended March 31, 2007 for stock options related to the change in control agreements and the reduction in workforce in 2007.

In addition, for the three months ended March 31, 2008, the Company recorded \$27 in strategic alternative costs for expenses associated with the stock option modification due to the special dividend paid on May 3, 2007. The modification reduced the exercise price of all stock options outstanding as of the dividend payment date by \$14.00 per share, the amount of the special dividend. As of March 31, 2008, the total compensation cost related to unvested stock option awards that were modified but not yet recognized was \$250. The cost will be amortized on a straight-line basis over the remaining weighted-average vesting period of 2.3 years.

For the three months ended March 31, 2008 and 2007, the Company recorded \$208 and \$171, respectively, in selling, general and administrative expenses for restricted stock awarded to senior executives and certain employees. In addition, the Company recorded \$1,303 and \$70 in strategic alternative costs and restructuring expenses, respectively, in the three months ended March 31, 2007. As of March 31, 2008 the total compensation cost related to unvested restricted stock granted but not yet recognized was \$1,967. The cost will be amortized on a straight-line basis over the remaining weighted-average vesting period of 2.3 years.

	=====		=====	

8

CAMBREX CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(dollars in thousands, except share data)

(4) GOODWILL

The change in the carrying amount of goodwill for the three months ended March 31, 2008, is as follows:

Balance as of January 1, 2008	\$35,552
Acquisition of business	1,406
Translation effect	2,173

Balance as of March 31, 2008	\$39,131
	=====

(5) INCOME TAXES

The Company recorded tax expense of \$2,701 in the three months ended March 31, 2008 compared to a benefit of \$2,363 in the three months ended March 31, 2007. This change is due to the change in geographic mix of pre-tax earnings, as well as the recognition of a tax benefit in continuing operations as a result of the sale of the businesses that comprised the Bioproducts and Biopharma segments in February 2007.

The Company maintains a full valuation allowance against its domestic, and

Edgar Filing: CAMBREX CORP - Form 10-Q

certain foreign, net deferred tax assets and will continue to do so until an appropriate level of profitability is sustained or tax strategies can be developed that would enable the Company to conclude that it is more likely than not that a portion of these net deferred assets would be realized. As such, improvements in domestic, and certain foreign, pre-tax income in the future may result in these tax benefits ultimately being realized. However, there is no assurance that such improvements will be achieved.

The Company adopted the provisions of FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes--an interpretation of FASB Statement No. 109" as of January 1, 2007. As of January 1, 2008 the Company had approximately \$5,116 of unrecognized tax benefits. The total balance of unrecognized benefits at March 31, 2008 of \$4,971, if recognized, would affect the effective tax rate. However, of this total, \$2,600 related to U.S. tax attributes may be subject to an application of a valuation allowance which would offset the positive effect associated with the recognition of such benefits.

In the next twelve months the Company may decrease its reserve for unrecognized tax benefits for intercompany transactions by approximately \$450 mainly due to the expiration of a statute of limitation period. Additionally, it may decrease this reserve by approximately \$937 due to a potential favorable court decision regarding taxability of dividends and statute expiration. These items would impact the income tax provision. Gross interest and penalties of \$422 related to the above unrecognized tax benefits are not included in the balance. Consistent with prior periods, the Company recognized interest and penalties within its income tax provision.

In 2007, the Company finalized an IRS examination for the period 2001-2003. Although not currently under investigation by the IRS, the Company is subject to examination for the years 2004 through 2007. It is also subject to exams in its significant non-U.S. jurisdictions for 2003 and 2005 forward.

The Company is also subject to audits in various states for various years in which it has filed income tax returns. Recently finalized state audits have not resulted in material adjustments. Open years for the majority of states where the Company files are 2004 and forward.

9

CAMBREX CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(dollars in thousands, except share data)

(6) NET INVENTORIES

Inventories are stated at the lower of cost, determined on a first-in, first-out basis, or market.

Net inventories at March 31, 2008 and December 31, 2007 consist of the following:

	March 31, 2008 -----	December 31, 2007 -----
Finished goods	\$30,308	\$25,646
Work in process	28,336	21,301

Edgar Filing: CAMBREX CORP - Form 10-Q

Raw materials	13,049	11,058
Supplies	3,749	3,435
	-----	-----
Total	\$75,442	\$61,440
	=====	=====

(7) LONG-TERM DEBT

In February 2007, proceeds from the sale of the businesses that comprised the Bioproducts and Biopharma segments, as discussed in Note 12, were used to repay all outstanding debt under a prior credit facility. Due to this repayment, \$841 was recorded in interest expense in 2007 related to the acceleration of unamortized origination fees. In April 2007, the Company entered into a \$200,000 five-year Syndicated Senior Revolving Credit Facility which expires in April 2012. The Company pays interest on this credit facility at LIBOR plus 1.25% - 2.00% based upon certain measurements of the Company's financial performance. The credit facility also includes financial covenants regarding interest coverage and leverage ratios. The Company was in compliance with all financial covenants at March 31, 2008. As of March 31, 2008 and December 31, 2007 there was \$119,600 and \$101,600, respectively, outstanding under this credit facility.

(8) STRATEGIC ALTERNATIVE COSTS AND RESTRUCTURING EXPENSES

Strategic Alternative Costs

Strategic alternative costs include costs that the Company has incurred related to the decision to sell the businesses that comprised the Bioproducts and Biopharma segments in February 2007. These costs are not considered part of the restructuring program or a part of discontinued operations under current accounting guidance.

Total strategic alternative costs for the three months ended March 31, 2008 and 2007 were \$177 and \$23,130 respectively. Included in the three months ended March 31, 2008 are charges of \$57 related to certain benefits which became payable under change in control agreements between the Company and four of its current or former executives due to the sale of the Bioproducts and Biopharma segments. These costs totaled \$18,188 in the three months ended March 31, 2007. Also included in strategic alternative costs for the three months ended March 31, 2008 and 2007 are retention bonuses of \$0 and \$4,489, respectively; this includes amounts paid to certain current employees for continued employment, generally through September 30, 2007 and December 31, 2007, costs associated with the modification of employee stock options due to the payment of the special dividend in connection with the divestiture of \$27 and \$0, respectively, and external advisor costs of \$93 and \$453, respectively. The Company may recognize additional expense in future quarters as the potential for changes in estimates exists. Substantially all of these charges have been or will be paid in cash. The exact timing of the payments is uncertain at this time but the majority is expected to be in 2008 with the remainder in 2009.

(8) STRATEGIC ALTERNATIVE COSTS AND RESTRUCTURING CHARGES EXPENSES (CONTINUED)

Corporate Office Restructuring

Edgar Filing: CAMBREX CORP - Form 10-Q

The Company announced plans to eliminate approximately 30 employee positions at the corporate office upon completion of the sale of the businesses that comprised the Bioproducts and Biopharma segments in February 2007. This plan included certain one-time benefits for employees terminated and was substantially completed as of December 31, 2007. For the three months ended March 31, 2008, the Company recognized expense of \$73, all of which will be paid in cash. For the three months ended March 31, 2007, the Company recognized expense of \$1,682.

The following table reflects the activity related to the severance reserve through March 31, 2008:

	December 31, 2007	2008 Activity		March 31, 2008
	Reserve Balance	Expense	Cash Payments	Reserve Balance
	-----	-----	-----	-----
Employee termination costs	\$812	\$73	\$(509)	\$376
	----	---	-----	----
	\$812	\$73	\$(509)	\$376
	=====	===	=====	=====

Consolidation of Domestic Research and Development Activities

In November 2007, the Company announced that it would consolidate its United States research and development ("R&D") activities and small scale active pharmaceutical ingredient ("API") production with its facility in Charles City, Iowa. As a result of the consolidation, the Company's New Jersey R&D facility was substantially closed as of December 31, 2007. Due to the closure eighteen employee positions have been eliminated as of March 31, 2008.

The restructuring reserve at December 31, 2007 consisted of the present value of the remaining lease payments under the Company's current operating lease at the New Jersey R&D facility (reduced by estimated sublease income) of \$998 and severance of \$356. Costs related to this plan are recorded as restructuring expenses on the income statement. The operating lease expires in December 2010. In accordance with accounting guidance, the severance and retention charges are being recognized ratably over the remaining service period. An additional charge of \$561 was recognized in the three months ended March 31, 2008. This charge consists of \$341 in rent and related costs, severance of \$115 and \$105 in clean-up costs. Lease payments are approximately \$1,400 per year. As a result of closing this facility, cost savings going forward amounts to approximately \$2,100 per year related to personnel costs which will be offset by continued lease expense.

The following table reflects the activity related to the restructuring reserve through March 31, 2008:

	December 31, 2007	2008 Activity		March 31, 2008
	Reserve Balance	Expense	Cash Payments	Reserve Balance
	-----	-----	-----	-----
Employee termination costs	\$ 356	\$115	\$(329)	\$ 142

Edgar Filing: CAMBREX CORP - Form 10-Q

Present value of lease payments	998	1	(95)	904

(9) COMPREHENSIVE INCOME

The following table reflects the components of comprehensive income for the three months ended March 31, 2008 and 2007:

	Three months ended March 31,	
	2008	2007
	-----	-----
Net income	\$ 4,246	\$205,216
Foreign currency translation	13,809	229
Reclassification adjustment for gain on disposition of business on foreign currency translation included in net income	--	(483)
Unrealized (loss)/gain on hedging contracts, net of tax	(1,768)	77
Unrealized loss on available-for-sale securities, net of tax	--	(447)
Reclassification adjustment for net realized gain on available- for-sale securities included in net income	--	(734)
Pension, net of tax	132	399
Reclassification adjustment for loss on disposition of business - pension, included in net income	--	1,320
	-----	-----
Total	\$ 16,419	\$205,577
	=====	=====

In the three months ended March 31, 2007 the Company sold an available-for-sale security. For purposes of computing gains or losses, cost is identified on a specific identification basis. The Company recorded a gain of \$734 to other income at the actual sale date.

(10) RETIREMENT PLANS AND OTHER POSTRETIREMENT BENEFITS

Domestic Pension Plans

The Company maintains two U.S. defined-benefit pension plans which cover all eligible employees: the Nepera Hourly Pension Plan which covers the union employees at the previously-owned Harriman, New York plant, and the Cambrex Pension Plan which covers all other eligible employees.

(10) RETIREMENT PLANS AND OTHER POSTRETIREMENT BENEFITS (CONTINUED)

The components of net periodic pension cost for the Company's domestic plans for the three months ended March 31, 2008 and 2007 are as follows:

	March 31, 2008	March 31, 2007
	-----	-----
COMPONENTS OF NET PERIODIC BENEFIT COST		
Service cost	\$ --	\$ 335
Interest cost	878	898
Expected return on plan assets	(1,021)	(921)
Amortization of prior service costs	109	5
Recognized actuarial loss	24	52
Curtailments	--	337
	-----	-----
Net periodic benefit cost	\$ (10)	\$ 706
	=====	=====

The sale of the businesses that comprised the Bioproducts and Biopharma segments in February 2007 required the Company to recognize a curtailment charge of \$337 for the pension plans in 2007 which is recorded in discontinued operations. Effective August 31, 2007, the domestic pension plans were suspended.

The Company has a Supplemental Executive Retirement Plan ("SERP") for key executives. This plan is non-qualified and unfunded.

The components of net periodic benefit cost for the Company's SERP Plan for the three months ended March 31, 2008 and 2007 is as follows:

	March 31, 2008	March 31, 2007
	-----	-----
COMPONENTS OF NET PERIODIC BENEFIT COST		
Service cost	\$--	\$ 38
Interest cost	76	74

	----	----
Net periodic benefit cost	\$386	\$252
	====	====

Other Postretirement Benefits

Cambrex provides postretirement health and life insurance benefits ("postretirement benefits") to all eligible retired employees. Employees who retire at or after age 55 with fifteen years of service are eligible to participate in the postretirement benefit plans. Certain subsidiaries and all employees hired after December 31, 2002 (excluding those covered by collective bargaining) are not eligible for these benefits. The Company's responsibility for such premiums for each plan participant is based upon years of service. Such plans are self-insured and are not funded. Effective January 1, 2006, the Cambrex Retiree Medical Plan no longer provides prescription coverage to retirees or dependents age 65 or older.

The components of net periodic postretirement benefit cost for the three months ended March 31, 2008 and 2007 are as follows:

	March 31, 2008	March 31, 2007
	-----	-----

---------------------------	------------------------	-------------------------

(11) CONTINGENCIES

The Company is subject to various investigations, claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. The Company continually assesses all known facts and circumstances as they pertain to all legal and environmental matters and evaluates the need for reserves and disclosures as deemed necessary based on these facts and circumstances and as such facts and circumstances develop. These matters, either individually or in the aggregate, could have a material

14

CAMBREX CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(dollars in thousands, except share data)

(11) CONTINGENCIES (CONTINUED)

adverse effect on the Company's financial condition, operating results and cash flows in a future reporting period.

Environmental

In connection with laws and regulations pertaining to the protection of the environment, the Company and its subsidiaries are a party to several environmental proceedings and remediation investigations and cleanups and, along with other companies, have been named potentially responsible parties ("PRP") for certain waste disposal sites ("Superfund sites"). Additionally, as discussed in the "Sale of Rutherford Chemicals" section of this Note, the Company has retained the liability for certain environmental proceedings, associated with the Rutherford Chemicals business.

Each of these matters is subject to various uncertainties, and it is possible that some of these matters will be decided unfavorably against the Company. The resolution of such matters often spans several years and frequently involves regulatory oversight or adjudication. Additionally, many remediation requirements are not fixed and are likely to be affected by future technological, site, and regulatory developments. Consequently, the ultimate extent of liabilities with respect to such matters, as well as the timing of cash disbursements cannot be determined with certainty.

In matters where the Company has been able to reasonably estimate its liability, the Company has accrued for the estimated costs associated with the study and remediation of Superfund sites not owned by the Company and the Company's current and former operating sites. These accruals were \$7,097 and \$6,905 at March 31, 2008 and December 31, 2007, respectively. The increase in the accrual includes adjustment to a reserve of \$134 and the impact of currency of \$137 partially offset by payments of \$79. Based upon currently available information and analysis, the Company's current accrual represents management's best estimate of the probable and estimable costs associated with environmental proceedings including amounts for investigation fees where remediation costs may not be estimable at the reporting date.

CasChem ISRA

Edgar Filing: CAMBREX CORP - Form 10-Q

As a result of the sale of the Bayonne, New Jersey facility (see "Sale of Rutherford Chemicals" section of this Note), the Company became obligated to investigate site conditions and conduct required remediation under the New Jersey Industrial Site Recovery Act ("ISRA"). The Company completed a preliminary assessment of the site and submitted the preliminary assessment to the New Jersey Department of Environmental Protection ("NJDEP"). The preliminary assessment identified potential areas of concern based on historical operations and sampling of such areas commenced. The Company has completed a second phase of sampling and determined that a third phase of sampling is necessary to determine the extent of contamination and any necessary remediation. The results of the completed and proposed sampling, and any additional sampling deemed necessary, will be used to develop an estimate of the Company's future liability for remediation costs, if any. The Company submitted its plan for the third phase of sampling to the NJDEP during the fourth quarter of 2005. The sampling will commence upon approval of the sampling plan.

Cosan

The Company's Cosan subsidiary conducted manufacturing operations in Clifton, New Jersey from 1968 until 1979. Prior to the acquisition of Cosan by the Company, the operations were moved to another location and thereafter Cambrex purchased the business. In 1997, Cosan entered into an Administrative

15

CAMBREX CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(dollars in thousands, except share data)

(11) CONTINGENCIES (CONTINUED)

Consent Order with the NJDEP. Under the Administrative Consent Order, Cosan was required to complete an investigation of the extent of the contamination related to the Clifton site and conduct remediation as may be necessary. During the third quarter of 2005, the Company completed the investigation related to the Clifton site, which extends to adjacent properties. The results of the investigation caused the Company to increase its related reserves by \$1,300 in 2005 based on the proposed remedial action plan. The Company submitted the results of the investigation and proposed remedial action plan to the NJDEP. In late 2006, the NJDEP requested that an additional investigation be conducted at the site. The Company estimated that the additional work will cost approximately \$240, and as such, increased the related reserve in the first quarter of 2007. The Company submitted its plan for additional work to the NJDEP in April 2007. In August 2007 the NJDEP approved the Company's work plan and the additional investigation has commenced. As of March 31, 2008, the reserve was \$1,399. The results of the additional investigation may impact the remediation plan and costs.

Additionally, there is a reserve of \$1,098 as of March 31, 2008 for the Cosan Carlstadt, N.J. site related to an Administrative Consent Order with the NJDEP entered into in 1985 in connection with the acquisition of Cosan. In September 2004, the reserve was increased based on the investigations completed to date and the proposed Remedial Action Work Plan ("RAW") submitted to the NJDEP for their approval. The NJDEP subsequently rejected the RAW and required the Company to perform additional investigative work prior to approval of a new RAW. The Company's reserves were increased to cover the additional investigative work. The results of this additional investigative work may impact the RAW and costs.

Edgar Filing: CAMBREX CORP - Form 10-Q

Berry's Creek

In March 2006, the Company received notice from the United States Environmental Protection Agency ("USEPA") that two former operating subsidiaries are considered PRPs at the Berry's Creek Superfund Site, Bergen County, New Jersey. The operating companies are among many other PRPs that were listed in the notice. Pursuant to the notice, the PRPs have been asked to perform a remedial investigation and feasibility study of the Berry's Creek Site. The Company has met with the other PRPs. Both operating companies joined the group of PRPs and filed a joint response to the USEPA agreeing to jointly negotiate to conduct or fund (along with other PRPs) an appropriate remedial investigation and feasibility study of the Berry's Creek Site. The PRPs have engaged technical and allocation consultants to evaluate investigation and remedial alternatives and develop a method to allocate related costs among the PRPs. In December 2007 the PRPs reached a tentative agreement on the allocation of the site investigation costs and at March 31, 2008 the Company's reserve was \$537. The investigation is expected to take several years and at this time it is too early to predict the extent of any additional liabilities.

Nepera, Inc. - Maybrook and Harriman Sites

In 1987, Nepera, Inc. ("Nepera") was named a PRP along with certain prior owners of the Maybrook Site in Hamptonburgh, New York by the USEPA in connection with the disposition, under appropriate permits, of wastewater at that site prior to Cambrex's acquisition of Nepera in 1986. The Maybrook Site is on the USEPA's National Priorities List for remedial work. A prior owner of the Nepera facility has participated with Nepera in the performance of a remedial investigation and feasibility study for the Maybrook Site. In September 2007, the USEPA issued the Record of Decision ("ROD") which describes the remedial plan for the Maybrook Site. The USEPA also issued the Company and the prior owner a Notice of Potential Liability, requesting that the recipients sign a Consent Decree to complete the ROD and pay the USEPA certain past oversight costs, which the Company and the prior owner are negotiating with the USEPA.

16

CAMBREX CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(dollars in thousands, except share data)

(11) CONTINGENCIES (CONTINUED)

In 1987, Nepera was also named as a responsible party along with certain prior owners of the Harriman, New York production facility by the New York State Department of Environmental Conservation in connection with contamination at the Harriman Site. A prior owner of the Nepera facility has participated with Nepera in the performance of the remedial investigation and feasibility study for the Harriman Site. In 1997, a final ROD was issued which describes the remediation plan for the site. Nepera and the prior owner have been implementing the ROD since 1997.

Until 1997, reserves were assessed and established based on the information available. In November 1997, a settlement was reached between Nepera, Inc., the former owner mentioned above, and the original owner of the Harriman operations, pertaining to past and future costs of remediating the Maybrook and Harriman Sites ("the Sites"). Under the terms of the settlement, the original site owner paid approximately \$13,000 to provide for past and future remediation costs at the two sites in exchange for a release from the requirement to clean up the two

Edgar Filing: CAMBREX CORP - Form 10-Q

sites, and the settlement funds were placed in a trust for the benefit of remediating the two sites on behalf of Nepera and the other former site owner. Nepera and the prior owner were reimbursed their past costs from the trust. Nepera had believed that the remaining funds available in the trust would be sufficient to provide for the future remediation costs for the Sites. Accordingly, the estimated range of liability for the Sites was offset against the settlement funds.

Based on currently available information, Nepera believed that the current trust balance would not cover the remaining work to be completed at Harriman and under the final Maybrook ROD issued in September 2007. As such the Company increased its reserve by \$1,000 during 2007, which was recorded in discontinued operations, for its expected share of the shortfall based on currently available information. As of March 31, 2008, the reserve recorded on the books was \$1,200. The foregoing matters were retained by Nepera under the 2003 Purchase Agreement as well as the settlement reached in the Rutherford matter (see "Sale of Rutherford Chemicals" section of this Note).

The Company is involved in other matters where the range of liability is not reasonably estimable at this time and it is not determinable when information will become available to provide a basis for adjusting or recording an accrual, should an accrual ultimately be required.

Solvent Recoveries Superfund Site

In 1992, the USEPA notified Humphrey Chemical Co., Inc. ("Humphrey") of its possible involvement as one of approximately 1,300 PRPs at a Superfund site ("the site") in Southington, Connecticut, once operated by Solvent Recoveries, Inc. Humphrey joined the PRP group, which has agreed with the USEPA to perform a Remedial Investigation/Feasibility Study ("RIFS"). The RIFS has been completed and the USEPA has proposed remediation of the Site. Humphrey anticipates exposure of approximately \$315 in the coming years. The Company has increased reserves to cover Humphrey's anticipated exposure.

Litigation and Other Matters

Mylan Laboratories

In 1998 the Company and its subsidiary Profarmaco S.r.l. (currently known as Cambrex Profarmaco Milano S.r.l.) ("Profarmaco") were named as defendants (along with Mylan Laboratories, Inc. ("Mylan") and Gyma Laboratories of America, Inc., ("Gyma") Profarmaco's distributor in the United States) in a proceeding instituted by the Federal Trade Commission ("FTC") in the United States District Court for the District of Columbia (the "District Court"). Suits were also commenced by several State Attorneys'

CAMBREX CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(dollars in thousands, except share data)

(11) CONTINGENCIES (CONTINUED)

General. The suits alleged violations of the Federal Trade Commission Act arising from exclusive license agreements between Profarmaco and Mylan covering two APIs. The FTC and Attorneys' General suits were settled in February 2001, with Mylan (on its own behalf and on behalf of Profarmaco and Cambrex) agreeing to pay over \$140,000 and with Mylan, Profarmaco and Cambrex agreeing to monitor

Edgar Filing: CAMBREX CORP - Form 10-Q

certain future conduct.

The same parties including the Company and Profarmaco have also been named in purported class action complaints brought by private plaintiffs in various state courts on behalf of purchasers of the APIs in generic form, making allegations similar to those raised in the FTC's complaint and seeking various forms of relief including treble damages.

In April 2003, Cambrex reached an agreement with Mylan under which Cambrex would contribute \$12,415 to the settlement of litigation brought by a class of direct purchasers. In exchange, Cambrex and Profarmaco received from Mylan a release and full indemnity against future costs or liabilities in related litigation brought by purchasers, as well as potential future claims related to this matter. Cambrex recorded an \$11,342 charge (discounted to the present value due to the five year pay-out) in the first quarter of 2003 as a result of this settlement. In accordance with the agreement \$10,815 has been paid through March 31, 2008 and the remaining \$1,600 was paid in April 2008.

In February 2008 the District Court, in an action brought by three health care insurers, entered judgment after trial against Mylan, Gyma and Cambrex in the amount of \$8,355, payable jointly and severally, and also a punitive damage award against each of Mylan, Gyma and Cambrex in the amount of \$16,709. The parties will appeal the awards. Cambrex expects any payment of the judgment against it to be made by Mylan under the indemnity described above.

Vitamin B-3

In May 1998, Nepera, which manufactured and sold niacinamide ("Vitamin B-3"), received a Federal Grand Jury subpoena for the production of documents relating to the pricing and possible customer allocation with regard to that product. In 2000, Nepera reached an agreement with the government as to its alleged role in Vitamin B-3 violations from 1992 to 1995. The Canadian government claimed similar violations. All government suits in the U.S. and Canada have been concluded.

Nepera has been named as a defendant, along with several other companies, in a number of private civil actions brought on behalf of alleged purchasers of Vitamin B-3. The actions seek injunctive relief and unspecified but substantial damages. All cases have been settled within established reserve amounts.

Settlement documents are expected to be finalized and payments are expected to be made during the next several months. The balance of the reserves recorded within accrued liabilities related to this matter was \$1,577 as of March 31, 2008.

Sale of Rutherford Chemicals

The Company completed the sale of its Rutherford Chemicals business in November 2003. Under the agreement for the sale ("Purchase Agreement"), the Company provided standard representations and warranties and included various covenants concerning the business, operations, liabilities and financial condition of the Rutherford Chemicals business ("Rutherford Business") and provided certain indemnities.

Edgar Filing: CAMBREX CORP - Form 10-Q

(11) CONTINGENCIES (CONTINUED)

The Company also retained certain liabilities. Under the Purchase Agreement, the Company also retained the responsibility for certain matters including: (i) certain existing matters including violations and off-site liabilities; (ii) completing the on-going remediation at the New York facility under a Record of Decision ("ROD"); and (iii) completing the obligation to investigate site conditions and conduct required remediation under the provisions of the ISRA. The Company accrued for exposures which are deemed probable and estimable related to the retained matters.

In April 2006, the Company received a summons and complaint (the "Complaint") from the Buyers, which was filed in the Supreme Court of the State of New York, County of New York. In the Complaint, the Buyers sought indemnification, declaratory and injunctive relief for alleged (i) breaches of various representations, warranties and covenants, related to structures, buildings and equipment at each of the purchased facilities and, in addition, was responsible for a related third party claim; and (ii) was obligated to conduct certain environmental remediation at four of the five Rutherford Business facilities. The Company denied the allegations, filed counterclaims and has been vigorously defending the matter.

In July 2007 the Company entered into a Settlement Agreement and Release (the "Settlement Agreement") and a related Environmental Escrow Agreement (the "Escrow Agreement") settling litigation which had been commenced by the Buyers by the filing of the Complaint in April 2006.

Under the Settlement Agreement:

- In the third quarter of 2007 (i) the Company paid the Buyers the sum of \$636 in reimbursement for past remediation expenses at the Rutherford Business facilities; and (ii) the Buyers paid the Company (pound)400 (approximately \$813) for reimbursement of certain tax refunds received from United Kingdom taxing authorities.
- The Buyers also agreed to pay to an account (the "Escrow Account") created under the Escrow Agreement the sum of \$3,149 plus interest subsequent to September 30, 2007, representing the amount owed on a Subordinated Promissory Note issued as consideration under the Purchase Agreement. The Buyers paid \$1,000 of such amount in September 2007 and \$2,193 in November 2007.
- The Company also agreed to make payment to the Escrow Account within 30 days after the Buyers' Final Note Payment. The Company paid \$4,421 in January 2008.

The Escrow Account can be used only for costs arising from the remediation of environmental contamination at the Rutherford Business facilities. The Company has the right to object to any use of the funds in the Escrow Account for non-remediation purposes, pursuant to an accelerated dispute resolution process involving the parties' appointment of a Special Master.

Under the Settlement Agreement, the parties waive and extinguish all rights under the Purchase Agreement to seek damages or any other remedy for any other obligation contained in the Purchase Agreement as they relate to environmental liabilities, including damages related to pre-closing ownership or operation of the Rutherford Business facilities, compliance with environmental laws, and all remediation at the Rutherford Business facilities, except for certain matters which the Company specifically retained, namely (i) the off-site treatment,

Edgar Filing: CAMBREX CORP - Form 10-Q

storage and disposal of hazardous materials occurring before the November 10, 2003 closing of the Purchase Agreement, (ii) liability arising from the pre-closing sales of products, (iii)

19

CAMBREX CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(dollars in thousands, except share data)

(11) CONTINGENCIES (CONTINUED)

the completion of on-going remediation at the Nepera facility under a ROD, and (iv) completion of on-going remediation at the Bayonne facility under ISRA. The Buyers, however, retain its contractual obligation not to engage in any conduct that materially increases the Company's costs of completing the remediation under the ROD at the Nepera facility and the ISRA process at the Bayonne facility. The obligations specifically retained by the Company are consistent with its remediation obligations under the Purchase Agreement. The Company has previously accrued for exposures deemed probable and reasonable related to any specifically retained matters.

Further, under the Settlement Agreement, the Buyers and the Company release each other from all claims and counterclaims asserted in the litigation, with the exception of the Company's possible claim that the Buyers' activities have increased the Company's remediation costs at the Nepera facility, which claim the Company will dismiss without prejudice to its right to reassert the claim in the future. The Buyers and the Company also waive all rights and obligations under the Purchase Agreement related to any claims for additional payments under the Purchase Agreement, including the Company's claims for the return of tax refunds, the payment of the Subordinated Note, and any payments under the earn-out provision.

Under the Settlement Agreement, the Company indemnifies and holds harmless the Buyers for damages related to the obligations the Company specifically retained. The Buyers indemnify and hold harmless the Company for certain liabilities, including without limitation those arising from the presence of hazardous materials at any of the Rutherford Business facilities, except for the matters specifically retained by the Company.

Class Action Matter

In October 2003, the Company was notified of a securities class action lawsuit filed against Cambrex and five former Company officers. Five class action suits were filed with the New Jersey Federal District Court (the "Court"). In January 2004, the Court consolidated the cases, designated the lead plaintiff and selected counsel to represent the class. An amended complaint was filed in March 2004. The lawsuit has been brought as a class action in the names of purchasers of the Company's common stock from October 21, 1998 through July 25, 2003. The complaint alleges that the Company failed to disclose in a timely fashion the January 2003 accounting restatement and subsequent SEC investigation, as well as the loss of a significant contract at the Baltimore facility.

The Company filed a Motion to Dismiss in May 2004. Thereafter, the plaintiff filed a reply brief and in October 2005, the Court denied the Company's Motion to Dismiss. The Company continues to believe that the complaints are without merit and will vigorously defend against them. As such,

Edgar Filing: CAMBREX CORP - Form 10-Q

the Company has recorded no reserves related to this matter. The Company has reached its deductible under its insurance policy and further costs, expenses and any settlement are expected to be paid by the Company's insurers.

In late 2007 the Company entered into a Memorandum of Understanding regarding the settlement of all claims in this matter. The settlement includes a payment to class members of an amount which is well within the policy limits of, and is expected to be paid by, the Company's insurance. As a result, it is not expected to impact the Company's operating results. Cambrex continues to deny liability in the matter. The settlement is subject to final approval by the Court and entry of an agreed upon Final Judgment. Class members will have the opportunity to either object to the terms of the settlement or to opt out of the class.

20

CAMBREX CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
(dollars in thousands, except share data)

(11) CONTINGENCIES (CONTINUED)

Baltimore Litigation

In 2001, the Company acquired the biopharmaceutical manufacturing business in Baltimore (the "Baltimore Business"). The sellers of the Baltimore Business filed suit against the Company alleging that the Company made false representations during the negotiations on which the sellers relied in deciding to sell the business and that the Company breached its obligation to pay additional consideration as provided in the purchase agreement which was contingent on the performance of the Baltimore Business.

In August 2007 the United States District Court, Southern District of New York, granted the Company's pending Motion for Summary Judgment in the Baltimore Litigation. The Company's Motion had been pending since late 2006. The Sellers have filed a notice of appeal. Management continues to believe the matter to be without merit and continues its defense of this matter. Appellate briefs have been exchanged and the parties are awaiting a date for oral arguments to be scheduled.

Other

The Company has commitments incident to the ordinary course of business including corporate guarantees of certain subsidiary obligations to the Company's lenders related to financial assurance obligations under certain environmental laws for remediation, closure and third party liability requirements of certain of its subsidiaries and a former operating location; contract provisions for indemnification protecting its customers and suppliers against third party liability for manufacture and sale of Company products that fail to meet product warranties and contract provisions for indemnification protecting licensees against intellectual property infringement related to licensed Company technology or processes.

Additionally, as permitted under Delaware law, the Company indemnifies its officers and directors for certain events or occurrences while the officer or director is, or was, serving at the Company's request in such capacity. The term of the indemnification period is for the officer's or director's lifetime. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company

Edgar Filing: CAMBREX CORP - Form 10-Q

has a Director and Officer insurance policy that covers a portion of any potential exposure. The Company currently believes the estimated fair value of its indemnification agreements is not significant based on currently available information, and as such, the Company has no liabilities recorded for these agreements as of March 31, 2008.

In addition to the matters identified above, Cambrex's subsidiaries are party to a number of other proceedings that are not considered material at this time.

(12) DISCONTINUED OPERATIONS

In February 2007, the Company completed the sale of the businesses that comprised the Bioproducts and Biopharma segments (excluding certain liabilities) for cash consideration of \$463,914, including working capital adjustments. As a result of the transaction, the Company recorded a gain of \$235,489 in 2007 and all periods presented reflect the results of these businesses as discontinued operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

EXECUTIVE OVERVIEW

The following significant events occurred during the first quarter of 2008 which affected reported operating profit:

- A charge of \$634 recorded within operating expenses for restructuring expenses.
- A charge of \$177 recorded within operating expenses for strategic alternative costs.

RESULTS OF OPERATIONS

COMPARISON OF FIRST QUARTER 2008 VERSUS FIRST QUARTER 2007

Gross sales in the first quarter 2008 of \$61,706 were \$3,291 or 5.1% below the first quarter 2007. Gross sales were favorably impacted 6.3% due to exchange rates reflecting a weaker U.S. dollar. This decrease is primarily due to lower sales of a gastrointestinal active pharmaceutical ingredient, lower custom development revenues and lower volumes of fine chemicals and feed additives, partially offset by higher demand for controlled substances.

Gross margins decreased to 35.5% in the first quarter 2008 from 37.5% in the first quarter 2007. Excluding the impact of foreign currency, gross margins were 36.9% in the first quarter 2008. This decrease is primarily due to lower pricing and higher costs associated with the start-up of the finishing facility at the Milan facility partially offset by favorable product mix.

The following table reflects sales by geographic area for the three months ended March 31, 2008 and 2007:

	2008	2007
	-----	-----
North America	\$21,286	\$22,473
Europe	34,736	38,567
Asia	3,571	2,007
Other	2,113	1,950
	-----	-----
Total Gross Sales	\$61,706	\$64,997
	=====	=====

Selling, general and administrative expenses of \$11,334 or 18.4% of gross sales in the first quarter 2008 decreased from \$15,347, or 23.6% in the first quarter 2007. The decrease in expense is due mainly to significantly lower costs due to the restructuring of the corporate office and unusually high litigation expense in the first quarter of 2007, as well as reductions in spending at all operating sites partially offset by an unfavorable impact from foreign currency exchange.

In November 2007 the Company announced that it would consolidate its United States research and development ("R&D") activities and small scale active pharmaceutical ingredient ("API") production with its facility in Charles City,

Edgar Filing: CAMBREX CORP - Form 10-Q

Iowa. This consolidation was substantially completed at December 31, 2007. All costs, net of expected sublease income, related to the existing operating lease at the New Jersey R&D facility will be recorded as restructuring expenses in the income statement. During the first quarter of 2008, the Company recorded \$634 in restructuring expenses. This charge consists of \$341 in rent and related costs, severance of \$115 and \$105 in clean-up costs at the New Jersey R&D facility. Also included in restructuring expenses is approximately \$73 in severance costs at the corporate office. During the first

23

RESULTS OF OPERATIONS (CONTINUED)

COMPARISON OF FIRST QUARTER 2008 VERSUS FIRST QUARTER 2007 (CONTINUED)

quarter of 2007 the Company recorded \$1,682 in restructuring expenses primarily consisting of severance and retention bonuses related to the restructuring of the corporate office.

Strategic alternative costs of \$177 in the first quarter of 2008 include expenses related to change-in-control liabilities, severance and a project to streamline our legal structure to improve cash flow and reduce the Company's consolidated effective tax rate. In the first quarter of 2007, strategic alternative costs include costs that the Company has incurred related to the decision to sell the Bioproducts and Biopharma segments in February 2007. These charges of \$18,188 related to certain benefits which became payable under change in control agreements between the Company and four of its current or former executives due to the sale of the Bioproducts and Biopharma segments.

Also included in strategic alternative costs in the first quarter of 2007 is \$4,489 of retention bonuses that were paid in connection with the sale of the Bio Businesses as well as for continued employment. Additional costs including those associated with the payment of the special dividend in connection with the divestiture amounted to approximately \$453 during the first quarter of 2007.

Research and development expenses of \$2,256 were 3.7% of gross sales in the first quarter 2008, compared to \$2,600 or 4.0% of gross sales in the first quarter 2007. The decrease is primarily due to lower costs at the recently closed New Jersey R&D facility. The impact of foreign currency exchange was negligible.

Operating profit in the first quarter of 2008 was \$7,528 compared to a loss of \$18,364 in the first quarter of 2007. The results reflect lower operating expenses due to strategic alternative costs and restructuring expenses and lower corporate spending partially offset by lower gross margins as discussed above.

Net interest expense was \$706 in the first quarter of 2008 compared to net interest income of \$1,539 in the first quarter of 2007. These results primarily reflect higher average debt partially offset by lower interest rates. Interest income was also considerably higher in the first quarter of 2007 compared to 2008 due to interest earned on the proceeds from the sale of the Bioproducts and Biopharma segments. The first quarter of 2007 also includes the acceleration of unamortized origination fees related to the repayment of the credit facility of \$841. The average interest rate on debt was 5.3% in the first quarter of 2008 versus 6.1% in the first quarter of 2007.

The effective tax rate for the first quarter 2008 was 38.9% compared to a 14.1% benefit in the first quarter 2007. The tax provision in the first quarter 2008 was \$2,701 compared to a benefit of \$2,363 in the first quarter of 2007.

Edgar Filing: CAMBREX CORP - Form 10-Q

This change is due to the geographic mix of pre-tax earnings, as well as the recognition of a tax benefit in continuing operations as a result of the sale of the businesses that comprised the Bioproducts and Biopharma segments in the first quarter of 2007. The Company maintains a full valuation allowance against its domestic, and certain foreign, net deferred tax assets and will continue to do so until an appropriate level of profitability is sustained or tax strategies can be developed that would enable the Company to conclude that it is more likely than not that a portion of these net deferred assets would be realized. As such, improvements in domestic, and certain foreign, pre-tax income in the future may result in these tax benefits ultimately being realized. However, there is no assurance that such improvements will be achieved.

Income from continuing operations in the first quarter of 2008 was \$4,246, or \$0.15, per diluted share versus a loss of \$14,443, or \$0.51 per diluted share in the same period a year ago.

24

RESULTS OF OPERATIONS (CONTINUED)

COMPARISON OF FIRST QUARTER 2008 VERSUS FIRST QUARTER 2007 (CONTINUED)

LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents increased \$1,513 in the first three months of 2008. During the three months ended March 31, 2008, cash used in operations was \$11,612 versus cash provided by operations of \$1,013 in the same period a year ago. The decrease in cash flows from operations in the first three months of 2008 versus the first three months of 2007 is due primarily to the pay down of several year end accruals, including the Rutherford settlement and change in control payments and an increase in inventories based on expected timing of shipments.

Cash flows used in investing activities in the first three months of 2008 of \$6,406 primarily reflects capital expenditures of \$5,176 compared to \$5,478 in 2007. Part of the funds in 2008 were used for a new mid-scale Pharma manufacturing facility in Karlskoga, Sweden, an API purification facility in Milan, Italy and capital improvements to existing facilities.

Cash flows provided by financing activities in the first three months of 2008 of \$17,951 primarily represents net borrowings of \$17,983. In the first three months of 2007 financing activities include a net pay down of debt of \$158,586 and dividends paid of \$833 partially offset by proceeds from stock options exercised of \$15,962.

During the first three months of 2007, the Company paid cash dividends of \$0.03 per share.

IMPACT OF RECENT ACCOUNTING PRONOUNCEMENTS

Fair Value Measurements

In September 2006, the Financial Accounting Standards Board ("FASB") issued FASB Statement No. 157 "Fair Value Measurements" ("FAS 157"). This statement defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. This statement will apply whenever another standard requires (or permits) assets or liabilities to be measured at fair value. The standard does not expand the use of fair value to any new circumstances. FAS 157 is effective for financial statements issued for

Edgar Filing: CAMBREX CORP - Form 10-Q

fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Relative to FAS 157, the FASB issued FASB Staff Positions 157-2, which defers the effective date of FAS 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis, until fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. The effect of adopting this pronouncement (related to financial assets and financial liabilities) did not have a material impact on the Company's financial position or results of operations. The Company is currently evaluating the potential impact of this statement (related to nonfinancial assets and nonfinancial liabilities).

Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans

The Company adopted FASB Statement No. 158 "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 132(R)" ("FAS 158") for the year ended December 31, 2006. FAS 158 requires an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in the balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. This statement does not impact the amounts recognized in the income statement.

25

RESULTS OF OPERATIONS (CONTINUED)

COMPARISON OF FIRST QUARTER 2008 VERSUS FIRST QUARTER 2007 (CONTINUED)

FAS 158 also requires an employer to measure the funded status of a plan as of the date of the fiscal year end balance sheet. The Company's pension plans and postretirement benefits plan previously had a September 30 measurement date. The Company will adopt this measurement requirement effective December 31, 2008. The effect of adopting this pronouncement will not have a material impact on the Company's financial position or results of operations.

Fair Value Option for Financial Assets and Financial Liabilities

The Company adopted FASB Statement No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities--Including an amendment of FASB Statement No. 115" ("FAS 159") effective January 1, 2008. This statement permits entities to choose to measure many financial instruments and certain other items at fair value. Unrealized gains and losses on items for which the fair value option has been elected should be reported in earnings at each subsequent reporting date. The effect of adopting this pronouncement did not have a material impact on the Company's financial position or results of operations.

Amendment of FAS 141

In December 2007, the FASB issued FASB Statement No. 141 (Revised 2007), "Business Combinations" ("FAS 141R"). Under FAS 141R, an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition date fair value with limited exceptions. FAS 141R will change the accounting treatment for certain specific items, including:

- acquisition costs will be generally expensed as incurred;
- noncontrolling interests will be valued at fair value at the

Edgar Filing: CAMBREX CORP - Form 10-Q

acquisition date;

- acquired contingent liabilities will be recorded at fair value at the acquisition date and subsequently measured at either the higher of such amount or the amount determined under existing guidance for non-acquired contingencies;
- in-process research and development will be recorded at fair value as an indefinite-lived intangible asset at the acquisition date until the completion or abandonment of the associated research and development efforts;
- restructuring costs associated with a business combination will be generally expensed subsequent to the acquisition date; and
- changes in deferred tax asset valuation allowances and income tax uncertainties after the acquisition date generally will affect income tax expense.

FAS 141R also includes a substantial number of new disclosure requirements. FAS 141R applies prospectively to business combinations (except for income taxes which applies to prior as well as future acquisitions) for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Earlier adoption is prohibited. Accordingly, the Company will adopt this statement on January 1, 2009.

26

RESULTS OF OPERATIONS (CONTINUED)

COMPARISON OF FIRST QUARTER 2008 VERSUS FIRST QUARTER 2007 (CONTINUED)

Amendment of FAS 133

In March 2008, the FASB issued FASB Statement No. 161 "Disclosures about Derivative Instruments and Hedging Activities--an amendment of FASB Statement No. 133" ("FAS 161"). This statement requires enhanced disclosures about derivative and hedging activities and thereby improves the transparency of financial reporting. FAS 161 encourages, but does not require, comparative disclosures for earlier periods at initial adoption. This statement is effective for fiscal years beginning after November 15, 2008. The effect of adopting this pronouncement will not have an impact on the Company's financial position or results of operations.

FORWARD-LOOKING STATEMENTS

This document may contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and Rule 3b-6 under The Securities Exchange Act of 1934, as amended, including, without limitation, statements regarding expected performance, especially expectations with respect to sales, research and development expenditures, earnings per share, capital expenditures, acquisitions, divestitures, collaborations, or other expansion opportunities. These statements may be identified by the fact that they use words such as "expects," "anticipates," "intends," "estimates," "believes" or similar expressions are used in connection with any discussion of future financial and operating performance. Any forward-looking statements are qualified in their entirety by reference to the factors discussed throughout this Form 10-Q. Any forward-looking statements contained herein are based on current plans and expectations and involve risks and uncertainties that could

Edgar Filing: CAMBREX CORP - Form 10-Q

cause actual outcomes and results to differ materially from current expectations including, but not limited to, global economic trends, pharmaceutical outsourcing trends, competitive pricing or product developments, government legislation and regulations (particularly environmental issues), tax rate, interest rate, technology, manufacturing and legal issues, including the outcome of outstanding litigation disclosed in the Company's public filings, changes in foreign exchange rates, uncollectible receivables, loss on disposition of assets, cancellation or delays in renewal of contracts, lack of suitable raw materials or packaging materials, the Company's ability to receive regulatory approvals for its products and the accuracy of the Company's current estimates with respect to its earnings and profits for tax purposes in 2007. Any forward-looking statement speaks only as of the date on which it is made, and the Company undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise. New factors emerge from time to time and it is not possible for us to predict which will arise. In addition, the Company cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

For further details and a discussion of these and other risks and uncertainties, investors are cautioned to review the Cambrex 2007 Annual Report on Form 10-K, including the Forward-Looking Statement section therein, and other filings with the U.S. Securities and Exchange Commission. The Company undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise.

27

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There has been no significant change in our exposure to market risk during the first three months of 2008. For a discussion of the Company's exposure to market risk, refer to Part II, Item 7A, "Quantitative and Qualitative Disclosures about Market Risk," contained in the Company's Annual Report on Form 10-K for the period ended December 31, 2007.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

The Company maintains a system of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls are also designed to reasonably assure that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Disclosure controls include components of internal control over financial reporting, which consists of control processes designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles in the United States.

We have carried out an evaluation under the supervision of, and with the participation of, our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2008. The Company's

Edgar Filing: CAMBREX CORP - Form 10-Q

management has concluded that the financial statements included in this Form 10-Q are a fair presentation in all material respects the Company's financial position, results of operations and cash flows for the periods presented in conformity with generally accepted accounting principles.

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING.

There were no significant changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting during the quarter ended March 31, 2008.

28
