QUESTIONS AND ANSWERS ABOUT VOTING

Q: Why did you send me this proxy statement?

A: This proxy statement is being sent to you because our Board of Directors is soliciting your proxy to vote at the 2010 Annual Meeting of Stockholders. This proxy statement includes information required to be disclosed to you in connection with our solicitation of proxies in connection with the annual meeting. Stockholders of record as of the close of business on March 17, 2010 are entitled to vote. This proxy statement and the related proxy card are first being sent on or about April 2, 2010 to those persons who are entitled to vote at the annual meeting.

Q: How many votes do I have?

A: Each share of our common stock that you own entitles you to one vote.

Q: How do I vote?

A: You can vote on matters presented at the annual meeting in three ways:

You can vote by filling out, signing and dating your proxy card and returning it in the enclosed envelope, OR

You can vote over the internet or by telephone, OR

You can attend the annual meeting and vote in person.

Q: How do I vote by proxy?

A: If you properly fill out your proxy card and send it to us in time to vote, your shares will be voted as you have directed. If you do not specify a choice on your proxy card, the shares represented by your proxy card will be voted for the election of all nominees named in this proxy statement and for the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the 2010 fiscal year.

Whether or not you plan to attend the annual meeting, we urge you to complete, sign, date and return your proxy card in the enclosed envelope. Returning the proxy card will not affect your right to attend the annual meeting and vote in person.

Q: How do I vote in person?

A: If you attend the annual meeting, we will give you a ballot when you arrive.

Q: Who can attend the meeting?

A: All stockholders as of the record date, or their duly appointed proxies, may attend the meeting upon presentation of proper identification. Registration and seating will begin at 12:30 p.m., Eastern Time. Cameras, recording devices and other electronic devices will not be permitted at the meeting. You may obtain directions to the meeting place by calling our corporate offices at (614) 289-5360.

Please note that if you hold your shares in street name (that is, through a broker or other nominee), you will need to bring a copy of your voting instruction card or a brokerage statement reflecting your stock ownership as of the record date and check in at the registration desk at the meeting.

Q: If my shares are held in street name by my broker, will my broker vote my shares for me?

A: Your broker will vote your shares only if you provide instructions on how to vote. You should follow the directions provided by your broker regarding instructions to vote your shares.

Q: Can I change my vote or revoke my proxy after I have mailed my proxy card?

A: You can change your vote at any time before your proxy is voted at the annual meeting. You can do this in one of three ways. First, you can send a written notice to the Chief Financial Officer at our headquarters stating that you would like to revoke your proxy. Second, you can complete and submit a new proxy card. Third, you can attend the annual meeting and vote in person. Simply attending a meeting, however, will not revoke your proxy. If you have instructed a broker to vote your shares, you must follow the directions you received from your broker to change your vote.

Q: Will there be any matters voted upon at the annual meeting other than those specified in the Notice of Annual Meeting?

A: Our Board of Directors does not know of any matters other than those discussed in this proxy statement that will be presented at the annual meeting. If other matters are properly brought before the meeting and we do not have notice of these matters within a reasonable time prior to the annual meeting, all proxies will be voted in accordance with the recommendations of our Board of Directors.

Q: How are votes counted?

A: Stockholders of record of our common stock as of the close of business on March 17, 2010 are entitled to vote at the annual meeting. As of March 17, 2010, there were 23,882,165 shares of common stock outstanding. The presence in person or by proxy of a majority of the outstanding shares of common stock will constitute a quorum for the transaction of business. Each share of common stock is entitled to one vote on each matter to come before the annual meeting.

Under Delaware law, if you have returned a valid proxy or attend the meeting in person, but abstain from voting, your stock will nevertheless be treated as present and entitled to vote. Your stock, therefore, will be counted in determining the existence of a quorum and, even though you have abstained from voting, will have the effect of a vote against any matter requiring the affirmative vote of a majority of the shares present and entitled to vote at the annual meeting, such as the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the 2010 fiscal year.

Under Delaware law, broker non-votes are also counted for purposes of determining whether a quorum is present, but are not counted in determining whether a matter requiring a majority of the shares present and entitled to vote has been approved or whether a plurality of the vote of the shares present and entitled to vote has been cast.

Q: How are proxies being solicited and who pays for the solicitation of proxies?

A: Initially, we will solicit proxies by mail. Our directors, officers and employees may also solicit proxies in person or by telephone without additional compensation. We will pay all expenses of solicitation of proxies.

Q: Can I access this proxy statement and CVG's 2009 Annual Report on Form 10-K electronically?

A: The proxy statement and our Annual Report on Form 10-K are available on our website at www.cvgrp.com/proxy.

PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors (the Board) of Commercial Vehicle Group, Inc., a Delaware corporation (CVG), of proxies for use in voting at the Annual Meeting of Stockholders scheduled to be held on May 13, 2010 and at any postponement or adjournment thereof. This Proxy Statement and the related proxy card are being mailed to holders of our common stock, commencing on or about April 2, 2010. References in this Proxy Statement to Company, we, our, or us refer to CVG, unless otherwise noted.

Voting and Revocability of Proxies

When proxies are properly dated, executed and returned, the shares they represent will be voted as directed by the stockholder on all matters properly coming before the annual meeting.

Where specific choices are not indicated on a valid proxy, the shares represented by such proxies received will be voted:

1. FOR the nominees for directors named in this Proxy Statement; and
2. FOR the ratification of the appointment of Deloitte & Touche LLP as independent registered public accounting firm for 2010 in accordance with the best judgment of the persons named in the enclosed proxy, or their substitutes.

In addition, if other matters come before the annual meeting, the persons named in the accompanying form of proxy will vote in accordance with their best judgment with respect to such matters.

Returning your completed proxy will not prevent you from voting in person at the annual meeting should you be present and desire to do so. In addition, the proxy may be revoked at any time prior to its exercise either by giving written notice to our Chief Financial Officer prior to the annual meeting or by submission of a later-dated proxy.

At the annual meeting, inspectors of election shall determine the presence of a quorum and shall tabulate the results of the stockholders' voting. The presence of a quorum is required to transact the business proposed to be transacted at the annual meeting. The presence in person or by proxy of holders of a majority of the outstanding shares of common stock entitled to vote will constitute the necessary quorum for any business to be transacted at the annual meeting. In accordance with the General Corporation Law of the State of Delaware (the DGCL), properly executed proxies marked abstain as well as proxies held in street name by brokers that are not voted on all proposals to come before the annual meeting (broker non-votes), will be considered present for the purposes of determining whether a quorum has been achieved at the annual meeting.

The three nominees for director receiving the greatest number of votes cast at the annual meeting in person or by proxy shall be elected. Consequently, any shares of common stock present in person or by proxy at the annual meeting but not voted for any reason have no impact in the election of directors, except to the extent that the failure to vote for an individual may result in another individual receiving a larger number of votes. Stockholders have no right to cumulative voting as to any matter, including the election of directors. All other matters to be considered at the annual meeting require the favorable vote of a majority of the shares entitled to vote at the meeting either in person or by proxy. If any proposal at the annual meeting must receive a specific percentage of favorable votes for approval, abstentions in respect of such proposal are treated as present and entitled to vote under the DGCL and, therefore, have the effect of a vote against such proposal. Broker non-votes in respect of any proposal are not counted for purposes of

determining whether such proposal has received the requisite approval under the DGCL.

Record Date and Share Ownership

Only stockholders of record of the common stock on our books at the close of business on March 17, 2010 will be entitled to vote at the annual meeting. On that date, we had 23,882,165 shares of common stock outstanding. A list of our stockholders will be open to the examination of any stockholders, for any purpose germane to the meeting, at our headquarters for a period of ten (10) days prior to the meeting. Each share of common stock entitles the holder thereof to one vote on all matters submitted to stockholders.

Corporate Governance

Independent Directors and Leadership Structure

The Board has determined that Messrs. Arves, Bovee, Griffin, Johnson, Kessler, Rued and Snell are independent directors, as independence is defined in Rule 5605(a)(2) of the NASDAQ Stock Market LLC (NASDAQ) marketplace rules. The Board has not adopted categorical standards in making its determination of independence and instead relies on standards set forth in the NASDAQ marketplace rules. In making this determination, the Board considered all provisions of the definition in the standards set forth in the NASDAQ marketplace rules, and in Mr. Rued's case, that Mr. Rued is Chairman of the Board of Group Transportation Services Holdings, Inc. (GTS) and Managing Partner of the controlling shareholder of GTS. GTS is a third party logistics and freight management company that manages a portion of our freight and logistics program and administers our payments to additional third-party service providers. For the year ended December 31, 2009, we made payments to GTS of approximately \$11.6 million, which consisted primarily of payments from us for other third-party service providers, and the balance of which consisted of approximately \$0.6 million of fees for GTS's services. These fees represented less than 2% of GTS's revenues for 2009. Accordingly, the Board determined that this was not a material business relationship between Mr. Rued and CVG and determined that Mr. Rued is an independent director. Each member of the Audit Committee of the Board meets the heightened independence standards required for audit committee members under the NASDAQ marketplace rules and Rule 10A-3 under the Securities Exchange Act of 1934, as amended.

Our Board structure provides for an independent, non-executive chairman whose principal responsibility for our Company is leading the Board, thereby allowing our chief executive officer to focus on running our Company. We are

confident that this structure is optimal at this time as it allows the chief executive officer to devote his full attention and energy to the challenges of managing the business while the chairman facilitates board activities and the flow of information between management and directors.

Our Board has seven independent members and only one non-independent member, the chief executive officer. Collectively, these individuals offer decades of relevant industry expertise, executive management experience and

Table of Contents

governance expertise. A number of our independent board members also serve, or have served, as members of senior management or as directors of other public companies. We have three board committees consisting entirely of independent directors, each of which is chaired by a different director. We believe the independence and background of the individuals who comprise our Board, along with the oversight of a non-executive chairman, offers our company and our shareholders diverse leadership and governance experience across various business sectors, including manufacturing, transportation, logistics, finance and retail.

Our independent directors hold regularly scheduled meetings in executive session, at which only independent directors are present. As provided in our Nominating and Corporate Governance Committee charter, the Chairman of the Nominating and Corporate Governance Committee, Mr. Griffin, serves as chairman of the meetings of the independent directors in executive session. Stockholders and third parties may communicate with our independent directors through the Chairman of the Nominating and Corporate Governance Committee, c/o Chad M. Utrup, Chief Financial Officer, 7800 Walton Parkway, New Albany, Ohio 43054. During 2009, our independent directors met in executive session three times. Since fiscal year end, our independent directors have met in executive session one time.

We will continue to review and examine our corporate governance policies and leadership structure on an annual basis in light of our changing needs.

The Role of the Board of Directors in Risk Oversight

As provided in our Audit Committee Charter, the Audit Committee is primarily responsible for overseeing our risk management processes on behalf of the full Board. The Audit Committee reviews and evaluates our risk management policies with respect to our business strategy, capital strength and overall risk tolerance. On a periodic basis, the Audit Committee evaluates and discusses with management our risk assessment and risk management policies, including the internal system to review operational risks, procedures for investment and trading and safeguards to ensure compliance with procedures. The Audit Committee reports regularly to the full Board about these matters. The Audit Committee and the full Board consider our risk profile and focus on the most significant risk factors facing us to ensure that all material risks are identified and appropriate risk mitigation measures are implemented. The Audit Committee and the full Board work directly with management to oversee the day-to-day application of risk management policies and protocols, including controls over cash and investments, currency exposures and interest rate and commodities risks.

Meetings of the Board and its Committees

The Board held eight meetings during fiscal 2009. The Board currently has three standing committees: the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee. Each director is expected to attend each meeting of the Board and those committees on which he serves. In addition to meetings, the Board and its committees review and act upon matters through written consent procedures. Each of the directors attended 75% or more of the total number of meetings of the Board and the total number of meetings held by all committees for which they served, except Mr. Kessler was unable to attend two of the five meetings of the compensation committee held in 2009 and one of the two Nominating and Corporate Governance Committee meetings held in 2009.

The Board has a policy that members of the Board are encouraged to attend the annual meetings of stockholders. All of the directors who were then serving on the Board attended the 2009 Annual Meeting of Stockholders.

the independent registered public accounting firm and taking, or recommending that our Board take, appropriate action to oversee their independence; (3) approving, in advance, all audit and non-audit services to be performed by the independent registered public accounting firm; (4) overseeing our accounting and financial reporting processes and the audits of our financial statements; (5) establishing procedures for the receipt, retention and treatment of complaints received by us regarding accounting, internal control or auditing matters and the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters; (6) engaging independent counsel and other advisors as the Audit Committee deems necessary; (7) determining compensation of the independent registered public accounting firm, compensation of advisors hired by the Audit Committee and ordinary administrative expenses; (8) reviewing and assessing the adequacy of our formal written charter on an annual basis; and (9) handling such other matters that are specifically delegated to the audit committee by our Board from time to time. Our Board adopted a written charter for our Audit Committee, which is posted on our web site at www.cvgrp.com. Deloitte & Touche LLP currently serves as our independent registered public accounting firm. The Audit Committee met nine times during fiscal 2009.

Compensation Committee

Our Compensation Committee is comprised of Messrs. Arves, Johnson, Kessler and Snell (Chairman), of whom, all are independent, as independence is defined by Rule 5605(a)(2) of the NASDAQ marketplace rules. The Compensation Committee is responsible for: (1) determining, or recommending to our Board for determination, the compensation and benefits of all of our executive officers; (2) reviewing our compensation and benefit plans to ensure that they meet corporate objectives; (3) administering our stock plans and other incentive compensation plans; and (4) such other matters that are specifically delegated to the Compensation Committee by our Board from time to time. Our Board adopted a written charter for our Compensation Committee, which is posted on our web site at www.cvgrp.com. The Compensation Committee met five times during fiscal 2009.

Compensation Committee Interaction with Compensation Consultants

During 2007, the Compensation Committee engaged Pearl Meyer & Partners (PM&P) to assist with its review of the compensation programs for our executive officers and the preparation of various aspects of this proxy statement. The Compensation Committee continues to retain PM&P in an advisory capacity relating to executive compensation, including the preparation of this proxy statement. Although the Compensation Committee retains PM&P, PM&P interacts directly with our executive officers when necessary and appropriate.

Compensation Committee Interaction With Management

Certain of our executive officers, including the Chief Executive Officer, Chief Financial Officer and Vice President of Corporate Human Resources, may from time to time attend Compensation Committee meetings when executive compensation, company performance, team performance and individual performance are discussed and evaluated by Compensation Committee members. The executive officers are asked for their insights, ideas and recommendations on executive compensation matters during these meetings or at other times, and also provide updates on financial performance, mergers and acquisitions, industry status and other factors that may impact executive compensation.

The Board Chairman met with the Chief Executive Officer in the first quarter of 2010 to review his performance for 2009 based on a performance appraisal completed in December 2009 by all of the non-management Board members.

Nominating and Corporate Governance Committee

Our Nominating and Corporate Governance Committee consists of Messrs. Griffin (Chairman), Johnson and Kessler, of whom, all are independent, as independence is defined by Rule 5605(a)(2) of the NASDAQ marketplace rules. The

Nominating and Corporate Governance Committee is responsible for: (1) selecting, or recommending to our Board for selection, nominees for election to our Board; (2) making recommendations to our Board regarding the size and composition of the Board, committee structure and makeup and retirement procedures affecting Board members; (3) monitoring our performance in meeting our obligations of fairness in internal and external matters and

our principles of corporate governance; and (4) such other matters that are specifically delegated to the Nominating and Corporate Governance Committee by our Board from time to time. Our Board adopted a written charter for our Nominating and Corporate Governance Committee, which is posted on our web site at www.cvgrp.com. The Nominating and Corporate Governance Committee met two times during fiscal 2009.

The Nominating and Corporate Governance Committee will consider as potential nominees individuals properly recommended by stockholders. Recommendations concerning individuals proposed for consideration should be addressed to the Nominating and Corporate Governance Committee, c/o Chad M. Utrup, Chief Financial Officer, Commercial Vehicle Group, Inc., 7800 Walton Parkway, New Albany, OH 43054. Each recommendation should include a personal biography of the suggested nominee, an indication of the background or experience that qualifies the person for consideration, and a statement that the person has agreed to serve if nominated and elected. Stockholders who themselves wish to effectively nominate a person for election to the Board, as contrasted with recommending a potential nominee to the Nominating and Corporate Governance Committee for its consideration, are required to comply with the advance notice and other requirements set forth in our by-laws.

The Nominating and Corporate Governance Committee has used, to date, an informal process to identify potential candidates for nomination as directors. Candidates for nomination have been recommended by an executive officer or director, and considered by the Nominating and Corporate Governance Committee and the Board. Generally, candidates have significant industry experience and have been known to one or more of the Board members. As noted above, the Nominating and Corporate Governance Committee considers properly submitted stockholder recommendations for candidates for the Board. The Nominating and Corporate Governance Committee has established criteria that identify desirable experience for prospective Board members, including experience as a senior officer in a public or substantial private company, breadth of knowledge about issues affecting CVG or our industry and expertise in finance, logistics, manufacturing or marketing, as well as geographic, cultural and other forms of diversity. While the Nominating and Corporate Governance Committee does not have a formal diversity policy with respect to nominees, the Nominating and Corporate Governance Committee shares our commitment to an inclusive culture and endorses equal opportunity principles and practices that support these values. Accordingly, the Nominating and Corporate Governance Committee may consider whether a potential nominee, if elected, assists in achieving a mix of board members that represent a diversity of background and experience. The Nominating and Corporate Governance Committee believes that the backgrounds and qualifications of its directors, as a group, should provide a broad mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities. The Nominating and Corporate Governance Committee is committed to nondiscrimination in its selection practices and makes decisions solely on the basis of skills, qualifications and experience. Desired personal attributes for prospective Board members include integrity and sound ethical character, absence of legal or regulatory impediments, absence of conflicts of interest, demonstrated track record of achievement, ability to act in an oversight capacity, appreciation for the issues confronting a public company, adequate time to devote to the Board and its committees and willingness to assume broad/fiduciary responsibilities on behalf of all stockholders. The Nominating and Corporate Governance Committee does not evaluate potential nominees for director differently based on whether they are recommended to the Nominating and Corporate Governance Committee by officers or directors of CVG or by a stockholder. The Nominating and Corporate Governance Committee considers a director's past attendance record, participation and contribution to the Board in considering whether to recommend the reelection of such director.

Compensation Policies and Practices

Our philosophy behind our compensation structure for incentive eligible employees does not create risks that are likely to have a material adverse effect on the Company. Specific goals and objectives are tied to new product development, revenue growth and strategic initiatives to encourage assertiveness and ingenuity. Incentive payment eligibility is primarily triggered by EBITDA, defined as earnings before interest, taxes, depreciation and amortization, as adjusted, which inhibits unnecessary risk taking.

Communication with the Board of Directors

Stockholders and other interested parties may communicate with the Board, including the independent directors, by sending written communications to the directors c/o Chad M. Utrup, Chief Financial Officer,

If we waive any provision of our Code of Ethics or change the Code of Ethics, we will disclose that fact on our website within four business days.

Insider Trading Policy

In connection with our initial public offering, we adopted a corporate policy regarding insider trading and Section 16 reporting that applies to our directors, executive officers and employees. This policy prohibits trading in our common stock under certain circumstances, including while in possession of material, non-public information about us.

THE BOARD RECOMMENDS A VOTE FOR THE ELECTION OF THE NOMINEES NAMED ABOVE.

Vote Required

The three persons receiving the highest number of FOR votes represented by shares present in person or represented by proxy at the annual meeting will be elected.

PROPOSAL NO. 2 RATIFICATION OF APPOINTMENT OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has reappointed Deloitte & Touche LLP as the independent registered public accounting firm to audit our financial statements for the fiscal year ending December 31, 2010. In making the decision to reappoint the independent registered public accounting firm, the Audit Committee has considered whether the provision of the non-audit services rendered by Deloitte & Touche LLP is incompatible with maintaining that firm's independence.

Stockholder ratification of the selection of Deloitte & Touche LLP as our independent registered public accounting firm is not required by our by-laws or other applicable legal requirement. However, the Board is submitting the selection of Deloitte & Touche LLP to the stockholders for ratification as a matter of good corporate practice. If the appointment of Deloitte & Touche LLP is not ratified, the Audit Committee will evaluate the basis for the stockholders' vote when determining whether to continue the firm's engagement, but may ultimately determine to continue the engagement of the firm or another audit firm without re-submitting the matter to stockholders. Even if the appointment of Deloitte & Touche LLP is ratified, the Audit Committee may in its sole discretion terminate the engagement of the firm and direct the appointment of another independent auditor at any time during the year if it determines that such an appointment would be in the best interests of us and our stockholders. It is expected that a representative of Deloitte & Touche LLP will be present at the annual meeting, with the opportunity to make a statement if he so desires, and will be available to answer appropriate questions.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Summary

Our compensation programs are designed to promote the achievement of both short and long term business goals in addition to supporting the need to recruit, retain and motivate the critical talent we depend on for future growth and long term success, which benefits our company and our stockholders.

A portion of our business is driven by worldwide demand for heavy trucks. Since 2007, demand has been negatively impacted by a combination of U.S. emissions standards and the general and worldwide economic downturn. In response, we changed our executive compensation practices in 2009.

In light of the global economic crisis and the continued downturn in our end markets, the Compensation Committee (for purposes of this Compensation Discussion and Analysis, the Committee) took the following compensation actions for 2009:

Management recommended, and the Committee agreed, that there would be no merit increases in base salary for executives in 2009;

Management further volunteered a 10% salary reduction, which was implemented in February and continued for the remainder of 2009;

The Committee elected not to adopt a 2009 Bonus Plan or pay any discretionary bonuses in 2009 due to the volatility in the current economic environment and our end markets;

The Committee approved specific measurable performance objectives for 2009 for the named executive offers; and

The Committee approved an increase in the value of restricted shares awarded in 2009 given the full year performance of the stock to support our goal of aligning compensation to our long-term growth and success, and to shift a portion of total compensation from short-term cash to long-term equity compensation.

Compensation Philosophy, Objectives and Process

Compensation Philosophy and Objectives

Our executive compensation program is designed to align total compensation with our overall performance, while at the same time serving to attract and retain key executive officers who have a significant strategic impact on our success. Each executive officer has a significant portion of total compensation which is at-risk in any given year and each executive officer receives equity grants which serve to align their interests with those of stockholders.

The specific objectives of our executive compensation program are to:

Attract and retain qualified executives who will contribute to our long-term success;

Link executive compensation to the achievement of our operational, financial and strategic objectives; and

Link executive compensation with each executive's individual performance and level of responsibility.

Our Compensation Committee has structured executive compensation based on these objectives, while also considering current economic and business conditions. Our executive compensation program generally includes annual and long-term incentive programs and provides for cash and equity-based awards, as well as salary and benefit programs that are competitive within our industry.

We typically set performance targets under our annual cash incentive compensation program so that executive officers receive their targeted annual compensation if our pre-determined performance targets are achieved. When performance exceeds the pre-determined performance targets, then total executive compensation will be above this targeted compensation, and when performance is below the pre-determined performance targets, then total executive compensation will be below the targeted compensation. We did not have an annual bonus plan in

Table of Contents

2009, as part of our efforts to reduce costs during the ongoing worldwide recession and continued downturn in the commercial vehicle market.

Compensation Process

The Committee is responsible for:

Reviewing the performance of the Chief Executive Officer on an annual basis;

Reviewing and approving the compensation of the Chief Executive Officer and all other executive officers;

Reviewing our compensation policies and programs to ensure they are aligned with corporate objectives;

Overseeing the design and administration of our equity-based and incentive compensation plans, including the Third Amended and Restated Equity Incentive Plan (the *Equity Plan*) and the Management Stock Option Plan (the *2004 Stock Option Plan*);

Reviewing and approving this report on executive compensation for inclusion in our annual proxy statement; and

Other matters, from time to time, as designated by the Committee charter or our Board.

The Committee considers the following factors, listed in order of importance, as part of the process by which it makes executive compensation determinations:

Our actual versus targeted EBITDA, defined as earnings before interest, taxes, depreciation and amortization, as adjusted, which the Committee believes is a key factor in creating stockholder value;

Achievement of certain financial and operational outcomes which, in the judgment of the Committee, contributed to our overall success for the particular year in question;

An overall evaluation of the success of the named executive officers as a team, reflecting a key cultural consideration in how we are managed, as discussed in more detail below; and

The competitiveness of executive compensation as compared to compensation surveys compiled by Pearl Meyer & Partners (*PM&P*), an independent executive compensation firm. This analysis is performed on a periodic basis by *PM&P*, with the last analysis completed in 2007, based on general manufacturing companies of comparable size.

Compensation Structure

Compensation Levels and Benchmarking

The Committee has engaged *PM&P* to assist with a review and analysis of compensation data for comparable positions in similarly sized general manufacturing companies, as published in executive compensation surveys. The 2007 analysis prepared by *PM&P* includes data from five executive compensation surveys, each of which includes several hundred companies. The examination and comparison of this data is an important component of the Committee's review but does not serve as the sole basis for compensation decisions.

In light of the fact that no base salary adjustments or bonus payments were planned for 2009, the Committee agreed to forego the expense of an updated analysis by PM&P. While the Committee considered the compensation data from the compensation surveys, they did not rely on it in making compensation decisions for 2009. The Committee expects to update this analysis in 2010.

Notwithstanding the economic conditions that prevailed in 2009, the Committee maintains a compensation philosophy that targets overall compensation for key executives between the 50th and 75th percentile of overall compensation paid to similarly situated executive officers in general manufacturing companies of comparable size as necessary to attract and retain high caliber executives in a highly competitive industry, with a long term equity-based compensation formula aligned with financial and stock price performance that links directly to stockholder interests.

Table of Contents*Compensation Elements Overview*

The three principal compensation components for our named executive officers are:

Salary

Annual Incentive Compensation

Long-term Incentive Compensation

In addition, certain executive officers are party to Change-in-Control & Non-Competition Agreements that provide payments to executives upon certain termination events. We have provided these agreements for the executive officers to encourage retention and continuity in the event of a Change-in-Control. We also have a program of executive perquisites, described in the accompanying tables and narrative disclosures to this Compensation Discussion and Analysis, and retirement benefits discussed below. The Committee believes the use of perquisites provides an important retention element in a competitive market for the named executive officers, primarily based on the programs of similar companies.

Compensation Mix

We use the principal components of compensation described above to provide at-risk compensation, retention value and an equity interest to match stockholder interests. Our policy for allocating between fixed and incentive compensation and between cash and equity-based awards is based on the following general principles:

The more senior the executive officer, the larger the proportion of the executive officer's total compensation will be in the form of incentive compensation. This concept is consistent with our belief that such executive officers have a greater influence on our financial and stock price performance.

Each executive officer has a significant proportion of total compensation in the form of long-term compensation.

Achieving a balance between annual and long-term equity compensation in relation to total compensation.

Our executive officers' compensation is structured to be weighted heavily towards incentive compensation programs that provide for compensation based on our annual and long-term performance. The Committee believes that this weighting motivates executive officers to undertake tasks and achieve results that support the creation of long-term stockholder value.

For 2009, the compensation mix for each named executive officer was as follows:

Executive	Title	Salary as % of Total Compensation	Equity-Based Awards as % of Total Compensation
Mervin Dunn	President and Chief Executive Officer	53%	47%
Chad M. Utrup	Chief Financial Officer	52%	48%

Edgar Filing: Commercial Vehicle Group, Inc. - Form DEF 14A

Gerald L. Armstrong	President and General Manager of Cab Systems	59%	41%
W. Gordon Boyd	President of Seating Systems	66%	34%
Kevin R.L. Frailey	Executive Vice President and General Manager of Electrical Systems	52%	48%

Note: Equity-based award percentages are based on the actual grant date fair value of the shares of restricted stock granted on November 19, 2009. These amounts are shown on the 2009 Summary Compensation Table and the 2009 Grants of Plan-Based Awards Table on page 25 for each named executive officer.

The value of equity-based awards increased in 2009, both as a percentage of total compensation and as a dollar amount for each of the executive officers. Our stock price increased in 2009 as compared to 2008, which resulted in restricted stock grants in 2009 with a grant value of \$5.25 per share (the closing price per share of our common stock

Table of Contents

on the NASDAQ Global Select Market on the grant date), compared to restricted stock grants in 2008 with a grant date value of \$1.17 per share (the closing stock price per share of our common stock on the NASDAQ Global Select market on the grant date). The Committee awarded restricted stock with a total value greater than the value of the awards in 2008, in part because the Committee had elected not to adopt a 2009 Bonus Plan.

The relationship of base salary to long-term incentive compensation varies depending upon each executive officer's prior experience and time in the industry. Mr. Boyd's salary is significantly above median salaries of similarly situated officers as shown in the compensation surveys and is set based on his employment agreement which we assumed upon acquisition of his prior company.

Compensation Elements Programs

Salary

We provide a salary to our executive officers to compensate them for their services during the year. Salaries are designed primarily to promote retention of existing executive officers, and in the case of a new hire, to attract new executive talent. The Committee sets salaries based on the executive officer's roles and responsibilities, experience, expertise and individual performance during their tenure. Salaries are reviewed annually by the Committee and adjustments are based on the factors noted above as well as input from the Chief Executive Officer and data from the compensation surveys discussed in detail above. However, there is no specific formula applied to the factors noted above and new salaries are set based on the Committee's discretion and judgment.

With the support of the Committee, our executive officers agreed to forego merit increases for 2009 and further volunteered to reduce their base salaries by 10% as of February 23, 2009 as part of our ongoing efforts to align costs with the expected decline in our end markets. Mr. Frailey, while subject to the same merit increase freeze and salary reduction, did receive a promotional increase of \$23,400 in January 2009 in connection with his promotion to Executive Vice President and General Manager of Electrical Systems.

At its meeting on November 19, 2009, the Committee reviewed the executive officers' salaries and decided to reinstate the executive officers' base salaries as of January 2010 to the levels prior to the 10% reduction taken in February 2009. The Committee further decided that there would be no salary increases for executive officers beginning in January 2010.

Mr. Boyd's salary is paid in British pound sterling and the salary we report for him in U.S. dollars is impacted by currency exchange rates.

With the exception of Mr. Boyd, the Committee believes the senior executive salaries are consistent with the salaries paid to similarly situated executive officers in the competitive market in the aggregate, based on compensation surveys of general manufacturing companies, in accordance with our compensation philosophy. Mr. Boyd's salary is higher than the targeted market level, but his overall target compensation level is consistent with that of our other executive officers.

The base salaries for each named executive officer as in effect on January 1, 2009 were as follows:

Mervin Dunn \$649,002

Chad M. Utrup \$329,909

Gerald L. Armstrong \$346,091

W. Gordon Boyd \$444,614

Kevin R.L. Frailey \$257,400

After the 10% reduction in base salaries in effect from February 23, 2009 to December 31, 2009, the base salaries for each named executive officer were as follows:

Mervin Dunn \$584,102

Chad M. Utrup \$296,918

Table of Contents

Gerald L. Armstrong \$311,482

W. Gordon Boyd \$400,153

Kevin R.L. Frailey \$231,660

Annual Incentive Compensation

Annual incentive compensation is designed to reward executive officers for our annual financial performance and for achieving certain individual performance goals. Annual target incentive payments are determined initially as a percentage of each executive officer's salary for the fiscal year, and the payment of target incentive amounts depends on the achievement of pre-determined financial performance targets and individual performance goals. Individual performance goals may, from time to time, at the Committee's discretion, have an impact on incentive payments, based on input from the Chief Executive Officer.

On March 10, 2009, the Committee elected not to adopt a 2009 Bonus Plan as a result of the volatility in the current economic environment and our end markets. At the time, the Committee indicated they might consider a discretionary bonus for 2009 if deemed appropriate based on our overall performance and individual performance for the year ended December 31, 2009. On March 8, 2010, management recommended and the Committee agreed, to forego discretionary bonuses for 2009, but adopted the Commercial Vehicle Group 2010 Bonus Plan (2010 Plan). The 2010 Plan is based on achieving certain financial targets and specific individual goals and objectives. Each of our executive officers is eligible to participate in the 2010 Plan. The target incentive bonus opportunity under the 2010 Plan for Mr. Dunn was set at 75% of his base salary. The target incentive bonus opportunity for Messrs. Utrup, Armstrong and Frailey was set at 50% of their respective base salaries. The target incentive bonus opportunity for Mr. Boyd was set at 20% of his base salary. These target bonus incentive opportunities are consistent with the target incentive bonus opportunity levels for the named executive officers in years prior to 2009.

Long-Term Incentives

The Equity Plan is designed to focus and reward executive officers' efforts towards the long-term growth and future success of the Company. The Equity Plan permits grants of various types of equity-based awards, including stock options, stock-settled stock appreciation rights, restricted stock, restricted stock units, performance shares and units, and other equity-based and cash awards, at the discretion of the Committee. The range of equity awards provides the Committee flexibility to grant an appropriate type of award under different circumstances, depending on our needs and the relative importance of compensation objectives as they change year after year.

Historically, we awarded stock options to executive officers as our sole form of equity compensation. Since 2005 we have granted only equity-based awards in the form of time-based restricted stock, which vests ratably over three years. This change reduced the level of dilution incurred by us as a result of granting only stock options.

The Committee continues to believe restricted stock is the most appropriate form of equity compensation because it serves as a retention incentive for the current management team. The Committee also believes granting restricted stock aligns the executive officers' interests with those of stockholders, as the executive officers will realize greater or lesser value based on stock price changes during the vesting period which will parallel those of stockholders over the same time period.

On November 19, 2009, the Committee awarded restricted stock to the named executive officers with a grant date value greater than the grant date value of restricted stock awards made in 2008 and more consistent with the intended

levels for equity-based compensation expressed in our executive compensation philosophy. This outcome was caused by the increase in our stock price from 2008, which resulted in restricted stock grants in 2009 with a grant date value of \$5.25 per share (the closing price per share of our common stock on the NASDAQ Global Select Market on the grant date), compared to restricted stock grants in 2008 with a grant date value of \$1.17 per share (the closing price per share of our common stock on the NASDAQ Global Select Market on the grant date). The Committee believes the grants were appropriate in light of the performance of the stock and the voluntary base salary reductions and lack of bonus for 2009.

Conclusion

Total compensation for 2009 in the aggregate for the named executive officers was below the 25th percentile of the competitive data derived from the compensation surveys discussed above. This is significantly below our targeted compensation level between the 50th and 75th percentile of the competitive data derived from the compensation surveys. These outcomes were the result of not having an annual bonus plan for 2009 and decreases in salaries, offset by the increase in the value of our restricted stock awards. The Committee believed this overall pay outcome was appropriate given our financial and stock price performance in 2009.

The overall compensation outcomes for 2009 are listed below:

The named executive officers' total compensation (the total of salary, annual incentive payments and the grant date value of long-term incentives awarded) increased on average by approximately 9% from 2008 to 2009, following a decrease on average of approximately 24% from 2007 to 2008.

Total incentive payments (the total of annual and long-term incentives) increased by approximately 54%, offset by the voluntary salary concessions as detailed above.

Cash compensation (the total of salaries plus annual incentives) decreased by approximately 29% in 2009 (reflecting lower salaries and no annual cash incentives), while equity compensation increased by approximately 250%, primarily as a result of significant improvement in our stock price.

These outcomes were driven primarily by the substantial improvement in stock price performance in 2009 and were deemed appropriate by the Committee in the context of our financial and stock price performance.

Timing of Equity Grants

We did not grant any stock options or stock appreciation rights during 2009. We do not have a program in place at this time related to the timing and pricing of stock options in coordination with the release of material non-public information.

The Committee approved grants of restricted stock on November 19, 2009. For purposes of accounting, the restricted stock grants were valued at the closing share price that day of \$5.25. Our Chief Executive Officer and the other executive officers did not play a role in the Committee's decision on the timing of the 2009 restricted stock grants. Following Committee approval of the grants, our Human Resources and Finance Departments administered the grants made under the Equity Incentive Plan.

Adjustment or Recovery of Awards

We do not maintain any specific plans or policies that provide for the adjustment or recovery of awards if certain performance levels are restated.

Consideration of Prior Amounts Realized

The Committee does not consider prior stock compensation gains in setting future compensation levels. The Committee believes this outcome works to further our philosophy of providing future opportunities to executive officers in exchange for our future financial and stockholder return performance.

Post-Termination Payments

Change-in-Control and Severance Payments

Each of the named executive officers is party to a Change-in-Control & Non-Competition Agreement (a Change-in-Control Agreement), which specifies severance payments in the event of certain terminations both before and following a Change-in-Control of the Company. We entered into amendments to the Change-in-Control

Table of Contents

Agreements with each of the named executive officers, to comply with the requirements of Section 409A of the Internal Revenue Code. The Change-in-Control Agreements generally provide the following:

Mr. Dunn

Termination without Cause in absence of Change-in-Control: Continued payment of base salary in accordance with CVG's payroll practices in effect at the time of the employment separation for 24 months following such termination.

Termination without Cause or for Good Reason within 13 months of a Change-in-Control: (1) A lump sum amount equal to two times the sum of the executive's base salary, which for this purpose includes car allowance, plus average three-year annual incentive, (2) earned but unpaid incentive compensation, (3) immediate vesting of all stock options and restricted stock and (4) continued employee benefits (including medical benefits) for a 24-month period.

Non-compete and non-solicitation provisions that continue for 24 months following termination of employment.

Tax gross up payments, if any, made by us to the executive officer in connection with a Change-in-Control are subject to an excise tax.

Messrs. Armstrong, Boyd, Frailey and Utrup

Termination without Cause in absence of Change-in-Control: Continued payment of base salary in accordance with CVG's payroll practices in effect at the time of the employment separation for 12 months following such termination.

Termination without Cause or for Good Reason within 13 months of a Change-in-Control: (1) A lump sum amount equal to one times the sum of the executive's base salary, which for this purpose includes car allowance, plus average three-year annual incentive, (2) earned but unpaid incentive compensation, (3) immediate vesting of all stock options and restricted stock and (4) continued employee benefits (including medical benefits) for a 12-month period.

Non-compete and non-solicitation provisions that continue for 12 months following termination of employment.

Tax gross up payments, if any, made by us to the executive officer in connection with a Change-in-Control are subject to an excise tax.

Payments under the Change-in-Control Agreements are subject to applicable delay periods for benefits that constitute nonqualified deferred compensation under Section 409A of the Internal Revenue Code.

As defined in the Change-in-Control Agreements,

Cause generally means (1) dishonesty in carrying out company business; (2) engaging in acts injurious to us; (3) willful failure to follow Board directives; (4) illegal conduct or gross misconduct; (5) breach of the Change-in-Control Agreement; (6) violation of code of business ethics; or (7) a felony or certain misdemeanors.

Good Reason means (1) a material change in duties and responsibilities; (2) reduction in base salary or failure to increase salary following a change-in-control; (3) relocation outside the Columbus, Ohio metropolitan area; (4) material reduction of incentive opportunities; (5) failure to provide substantially similar benefits following a Change-in-Control; (6) failure of successor to assume the Agreement; (7) request that executive engage in illegal conduct; or (8) breach of Agreement.

Change-in-Control means (1) change in more than 50% of beneficial ownership of CVG; (2) change in more than a majority of voting shares following any transaction; (3) change in more than half of the Board over a two-year period; or (4) sale of substantially all of our assets.

The amounts that result from these various events are set forth below in the section entitled Potential Payments upon Termination or Change-in-Control. The Committee believes the use of these agreements provides

Table of Contents

an important retention incentive for the named executive officers primarily in the context of potential corporate transactions. The Committee also believes the provisions of the Change-in-Control Agreements are comparable to standard provisions of such agreements for executive officers in the competitive market, based primarily on their experiences at similar companies.

Retirement Plans

We sponsor a number of tax-qualified employee savings and retirement plans, (collectively the 401(k) Plan) that cover most employees who satisfy certain eligibility requirements relating to minimum age and length of service. Under the 401(k) Plan, eligible employees, including all of the named executive officers with the exception of Mr. Boyd, who is a resident of the United Kingdom, currently may elect to contribute between 1% and 6% of their annual compensation and receive a Company matching contribution of 50% of the employee contribution. The Company match is discretionary and the employee contributions and the Company match are subject to certain statutory limitations. As part of our cost savings initiatives, we suspended the Company match on the 401(k) Plan in March 2009. The matches received by the named executive officers, other than Mr. Boyd, in 2009 are set forth below in the All Other Compensation column of the Summary Compensation Table. The 401(k) Plan and the non-qualified Deferred Compensation Plan represent the only sources of retirement income provided by us for the named executive officers other than Mr. Boyd. The Company match on the 401(k) Plan was subsequently restored in January 2010.

Mr. Boyd was a participant in two pension plans during 2009. These plans include the Commercial Vehicle Group, Inc. Pension Plan for Mayflower Vehicle Systems Salaried Employees (the Mayflower Plan), which was frozen as of March 31, 2006. The Mayflower Plan is a defined-benefit plan from which Mr. Boyd is not eligible for payments until July 1, 2012. Such payments will be made based on compensation and years of service.

In addition, Mr. Boyd enrolled in the KAB Seating 2003 Group Personal Pension Plan (the KAB Seating Plan) on April 1, 2006. The KAB Seating Plan is a defined-contribution plan in which Mr. Boyd will become eligible for payouts at the normal retirement age of 65 (June 21, 2012). He is also eligible for early retirement payouts from age 50 although the benefits, which are determined by the amount of money accumulated in the participant's fund, will be significantly lower on early retirement.

Detailed present value amounts under each of the above named pension plans in which Mr. Boyd participates are set forth below in the Pension Benefits Table, with changes in year-end lump sum values carried forward to the Summary Compensation Table.

Deferred Compensation Plan

We implemented the Deferred Compensation Plan (the Deferred Plan) in 2006 for certain executive officers and employees primarily for the purpose of retention and recruitment. The Deferred Plan allows for pre-tax deferrals of compensation and provides for the assets to accumulate on a tax-deferred basis for the purpose of supplementing retirement income. Eligible participants may defer up to 80% of their base salary and/or up to 100% of their eligible bonus as well as amounts equal to any refund they receive from the tax-qualified 401(k) Plan due to discrimination testing. Election deferrals must be made annually and before the compensation is earned. Participants make elections on the length of the deferral period at the same time they make the deferral election. Participants make investment choices from a selection of investment options similar to the 401(k) Plan. We match deferrals at the rate of 50% on the first 6% of the participant's total cash compensation. Our match vests based on years of service with 33% vesting after one year, 66% after two years, and 100% after three years. Distributions may be made as a lump sum or annual installments over periods of up to 15 years as determined at the time of deferral by the participant. Additional distribution events are termination of employment, disability, death, unforeseeable emergency, or a change-in-control.

Stock Ownership Guidelines and Hedging Policies

We encourage our executive officers to own shares by providing significant annual equity opportunities as described above.

Table of Contents

We maintain a policy that prohibits executive officers from holding our securities in a margin account or pledging our securities as collateral for a loan. An executive officer may seek prior approval from us to pledge securities as collateral for a loan (but not for margin accounts) if the executive officer can demonstrate the financial capacity to repay the loan without resorting to the pledged securities.

Impact of Tax and Accounting Considerations

In general, the Committee takes into account the various tax and accounting implications of the components of our compensation program.

Section 162(m) of the Internal Revenue Code generally prohibits any publicly held corporation from taking a federal income tax deduction for compensation paid in excess of \$1 million in any taxable year to certain executive officers. Exceptions are made for qualified performance-based compensation, among other things. It is the Committee's policy to maximize the effectiveness of our executive compensation plans in this regard.

The components of compensation, including salaries, annual incentives, exercised stock options and vested restricted stock are tax deductible to the extent that they are less than \$1 million for each named executive officer in a given year. Compensation associated with exercising of the 2004 stock options issued is excluded from this limitation since these options were issued pursuant to a compensation plan that existed prior to CVG being publicly held. CVG did not receive a tax deduction for compensation amounts that totaled more than \$1 million per officer in 2009.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management, and based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in the Company's 2009 Annual Report on Form 10-K and this Proxy Statement.

(1) Amounts for this plan were calculated using an exchange rate of \$1.5631 to £1.00, the average exchange rate during the year ended December 31, 2009.

The Mayflower Plan was frozen on March 31, 2006 for new participants and future benefit accruals. Mr. Boyd had met the conditions of eligibility of one year of service and attaining age 21. The vesting requirement is five years of service. Mr. Boyd became 100% vested in the benefit when the Mayflower Plan was frozen on March 31, 2006 even though he did not yet meet the vesting requirement, per federal regulations.

Mr. Boyd's monthly retirement benefit is based on his frozen accrued benefit. The retirement benefit formula is equal to the sum of:

1. 1.25% of the participant's average monthly compensation up to \$833.33, multiplied by the participant's total number of periods of service; plus
2. 1.75% of such average monthly compensation in excess of \$833.33;
3. Multiplied by the participant's total number of periods of service, computed to the nearest cent.

Periods of service are calculated to the nearest 1/10th of a year and shall not exceed 30 years. Normal retirement date is the first of the month after the participant turns age 65. A participant may elect an early retirement but the benefit will be actuarially reduced. The retirement benefit calculated above is converted to a current present value for the purposes of the Pension Benefit Table.

We make annual contributions to the Mayflower Plan to fund the cost as required by federal regulations. We are required to make certain actuarial assumptions to calculate the obligations and expenses of the Mayflower Plan, including assumptions on the discount rate and expected long-term rate of return on plan assets. The assumptions are summarized in Note 15 in the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. The assumptions are determined based on current market conditions, historical information, and consultation with and input from our actuaries.

Mr. Boyd joined the KAB Seating Plan on April 1, 2006. Mr. Boyd contributes 4% of his monthly salary into this plan and this amount is matched, up to 4% by us. As part of our cost savings initiatives, we froze the Company match on the KAB Seating Plan in March 2009. In 2009, we matched \$10,448 of Mr. Boyd's contributions, which is reflected in the present value of accumulated benefit in the table above. There are no vesting requirements in this plan and Mr. Boyd can take early retirement under the rules of the plan from age 50, using the money contained in his fund to purchase a pension at the time of his retirement. Normal retirement age for this plan is at age 65. The Company match on the KAB Seating Plan was subsequently reinstated in January 2010.

Table of Contents

(2) In the event of a Change-in-Control and termination within thirteen months, the named executive officers are entitled to earned but unpaid portion of incentive compensation. Typically, this amount would be the target bonus, rather than actual bonus, because the actual bonus amounts would not have been determined as of December 31st of each year. For 2009, the amount shown as estimated Severance Payments does not include any incentive compensation because there was no Bonus Plan for 2009. The unpaid earned compensation is payable within 15 days after termination of employment, but if the named executive officer is deemed to be a specified employee (within the meaning of Section 409A of the Internal Revenue Code) on the date of termination of his employment, any severance payments that are considered deferred compensation subject to the requirements of Section 409A will be made on the earlier of (A) six months from the date of the named executive officer's separation from service, and (B) the date of his death (the delay period). Upon the expiration of the delay period, all payments that would have been paid in the absence of such delay shall be paid to the named executive officer in a lump sum, and any remaining payments and benefits shall be paid or provided in accordance with his Change-in-Control Agreement.

For Messrs. Utrup, Armstrong, Boyd and Frailey, the salary termination benefit is equal to the amount of their current annual compensation, which is defined as the total of the base salary in effect at the time of termination, plus the average annual performance incentive award actually received by the executive over the last three fiscal years. For Messrs. Dunn, Utrup, Armstrong and Frailey, the salary termination benefit includes a car allowance. The current annual compensation does not include the value of any stock options granted or exercised, restricted stock awards granted or vested, or contributions to 401(k) or other qualified plans. One-half of the salary termination benefit is payable as a lump sum payment within 30 days of termination and one-half of the salary termination benefit is payable as severance pay in equal monthly payments commencing 30 days after termination of employment and ending

Upon the expiration of the delay period, all payments that would have been paid in the absence of such delay shall be paid to the named executive officer in a lump sum, and any remaining payments and benefits shall be paid or provided in accordance with his Change-in-Control Agreement.

- (6) Represents any health, dental and vision insurance coverage provided at the time of termination of employment for a period of 24 months for Mr. Dunn and 12 months for Messrs. Utrup, Armstrong, Boyd and Frailey. The value is based upon the type of insurance coverage we carried for each named executive officer as of December 31, 2009 and is valued at the premiums in effect on January 1, 2010.
- (7) Represents maximum amount reimbursable for legal expenses in connection with enforcement of the Change-in-Control Agreement in the event of a dispute following a Change-in-Control.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Our management monitors related party transactions for potential conflicts of interest situations on an ongoing basis. Although we have not historically had formal policies and procedures regarding the review and approval of related party transactions, these transactions are generally reviewed and approved by the Board. Under the NASDAQ marketplace rules, we are required to conduct an appropriate review of all related party transactions for potential conflict of interest situations on an ongoing basis, and all such transactions must be approved by our Audit Committee or another independent body of the Board. In accordance with the charter of the Audit Committee, the Audit Committee must review and approve all related party transactions. Our Code of Ethics provides that no director or executive officer may represent the interests of any party other than us (including personal interests) in any material transaction in which we and another party are involved.

Registration Agreement

Certain of our existing stockholders, including two of our directors, are party to a registration agreement. This agreement confers upon the parties thereto, who hold the majority of such stockholders' shares of our common stock, the right to request up to five registrations of all or any part of their common stock on Form S-1 or any similar long-form registration statement or, if available, an unlimited number of registrations on Form S-2 or S-3 or any similar short-form registration statement, each at our expense.

In the event that the holders of these securities make such a demand registration request, all other parties to the registration agreement will be entitled to participate in such registration, subject to certain limitations. The registration agreement also grants to the parties thereto piggyback registration rights with respect to all other registrations by us and provides that we will pay all expenses related to such piggyback registrations.

Freight Services Arrangement with Group Transportation Services

In May 2008, we entered into a freight services arrangement with Group Transportation Services Holdings, Inc. (GTS), a third party logistics and freight management company. logistics program as well as administer its payments to additional third party freight service providers. Scott D. Rued, a member of the Company's Board of Directors, is Chairman of the Board of GTS and Managing Partner of Thayer Hidden Creek, the controlling shareholder of GTS, and Richard A. Snell, a member of our Board of Directors, is an Operating Partner of Thayer Hidden Creek. For the year ended December 31, 2009 and 2008, we made payments to GTS of approximately \$11.6 million and approximately \$9.5 million, which consisted primarily of payments from us for other third-party service providers, and the balance of which consisted of approximately \$0.6 million and approximately \$0.3 million of fees for GTS's services, respectively. These fees represented less than 2.0% and less than 1.0% of GTS's revenues for 2009 and 2008, respectively.

Employment of Related Persons

We employ the brother-in-law of Mervin Dunn, our President and Chief Executive Officer and a director. Phil May, Mr. Dunn's brother-in-law, serves as our Chief Acoustics Engineer and was paid compensation equal to \$118,615 in 2009, consisting of a base salary and car allowance, along with other employment benefits that are standard for employees at that management level. Mr. May's compensation was established by us in accordance with our compensation practices applicable to employees with equivalent qualifications and responsibilities.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our officers, directors and persons who beneficially own more than ten percent of our common stock to file reports of securities ownership and changes in such ownership with the Securities and Exchange Commission (SEC). Officers, directors and greater than ten percent beneficial owners also are required by rules promulgated by the SEC to furnish us with copies of all Section 16(a) forms they file.

Based on a review of such reports, we believe that during our last fiscal year, all Section 16(a) filing requirements applicable to our officers, directors and greater than ten percent beneficial owners were complied with, except that W. Gordon Boyd filed a late Form 4 on October 28, 2009 to report the withholding of shares to satisfy a tax withholding obligation upon the vesting of restricted stock.
