ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For fiscal year ended December 31, 2007

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE EXCHANGE ACT
OF 1934

For the transition period from _____ to _____

Commission file number 000-23550

FENTURA FINANCIAL, INC.

(Exact name of registrant as specified in its charter)

Michigan

38-2806518

(State or other jurisdiction of
incorporation or organization)

(IRS Employer Identification No.)

175 North Leroy, Fenton, Michigan

48430-0725

(Address of Principal Executive Offices)

(Zip Code)

Registrant's telephone number, including area code (810) 750-8725

Securities registered under Section 12(b) of the Exchange Act: None

Securities registered under Section 12(g) of the Exchange Act: Common Stock

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers in response to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one);

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

State the aggregate market value of the voting and nonvoting common equity held by nonaffiliates of the registrant computed by reference to the price at which the common equity was sold, or the average bid and

asked prices of such common equity, as of the last business day of the registrant's most recently completed second quarter.

Aggregate Market Value as of June 30, 2007: \$68,167,544

State the number of shares outstanding of each of issuer's classes of common equity, as of the latest practicable date. **2,168,007 shares of Common Stock as of March 1, 2008.**

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Fentura Financial, Inc. Proxy Statement for its annual meeting of shareholders to be held April 22, 2008 and its Rule 14a-3 annual report are incorporated by reference into Parts II and III.

PART I

ITEM 1. DESCRIPTION OF BUSINESS

The Company

Fentura Financial, Inc. (the Company or Fentura) is a bank holding company headquartered in Fenton, Michigan that owns three subsidiary banks (see The Banks below). All information in this Item 1 is as of December 31, 2007. The Company's subsidiary banks operate 17 community banking offices offering a full range of banking services principally to individuals, small businesses, and government entities throughout mid-Michigan and western Michigan. At the close of business on December 31, 2007, the Company had assets of \$628 million, deposits of \$545 million, and shareholders' equity of \$49 million. Trust assets under management totaled \$164 million.

Fentura was incorporated in 1987 to serve as the holding company of its sole subsidiary bank, The State Bank (TSB or one of the Banks). TSB traces its origins to its predecessor, The Commercial Savings Bank of Fenton, which was incorporated in 1898. See The Banks below. On March 13, 2000 a second bank subsidiary, Davison State Bank (DSB or one of the Banks) commenced operation. On March 15, 2004, Fentura acquired West Michigan Community Bank (WMCB or one of the Banks).

The Company's principal executive offices are located at 175 North Leroy, Fenton, Michigan 48430-0725, and its telephone number is (810) 750-8725.

The Banks

TSB's original predecessor was incorporated as a state banking corporation under the laws of Michigan on September 16, 1898 under the name The Commercial Savings Bank of Fenton. In 1931, it changed its name to State Savings Bank of Fenton, and in 1988 became The State Bank. For over 100 years, TSB has been engaged in the general banking business in the Fenton, Michigan area. TSB is headquartered in Fenton and considers its primary service area to be portions of Genesee, Oakland, and Livingston counties in Michigan. As of December 31, 2007, TSB operated four offices and an operations center in the City of Fenton, Michigan, one office in the City of Linden, Michigan, one office in the Village of Holly, Michigan, three offices in the Township of Grand Blanc, Michigan, and one office in Brighton, Michigan. Its main office is located in downtown Fenton.

DSB commenced operations on March 13, 2000, and is engaged in the general banking business in the Davison, Michigan area. DSB is headquartered in Davison and considers its primary service area to be portions of Genesee and Lapeer Counties. As of December 31, 2007, DSB operated two offices in the City of Davison, Michigan.

Fentura acquired West Michigan Community Bank on March 15, 2004. WMCB is engaged in the general banking business in Hudsonville, Michigan, and other portions of Ottawa County and western Kent County, Michigan. WMCB is headquartered in Hudsonville and considers its primary service areas to be portions of Kent and Ottawa counties. As of December 31, 2007, WMCB operated two offices in the City of Hudsonville, Michigan, one office in the City of Jenison, Michigan, and two offices in the City of Holland, Michigan.

All of the Banks are community-oriented providers of financial services engaged in the business of general commercial banking. Their activities include investing in state and federal securities, accepting demand deposits, savings and other time deposits, extending retail, commercial, consumer and real estate loans to individuals and businesses, providing safe deposit boxes and credit card services, transmitting funds and providing other services generally associated with full service commercial banking. Lending is focused on individuals and small businesses in the local markets served by the Banks. In addition, TSB and WMCB operate trust departments offering a full range of fiduciary services.

Table of Contents

All three banks are state banks, chartered under the Michigan Banking Code. None are members of the Federal Reserve, but the deposits of each are insured by the Federal Deposit Insurance Corporation (the FDIC). See Supervision and Regulation below.

As of December 31, 2007, TSB employed 116 full time personnel, including 49 officers, and an additional 45 part time employees; DSB employed 12 full time personnel, including 4 officers, and an additional 8 part time employees; WMCB employed 41 full time personnel, including 17 officers, and an additional 14 part time employees. All Banks consider their employee relations to be excellent.

Competition

The financial services industry is highly competitive. The Banks compete with other commercial banks, many of which are subsidiaries of bank holding companies, for loans, deposits, trust accounts, and other business on the basis of interest rates, fees, convenience and quality of service. The Banks also compete with a variety of other financial services organizations including savings and loan associations, finance companies, mortgage banking companies, brokerage firms, credit unions and other financial organizations. Many of the Banks competitors have substantially greater resources than the Banks.

Supervision and Regulation

The following is a summary of certain statutes and regulations affecting the Company and the Banks. This summary is qualified in its entirety by such statutes and regulations. A change in applicable laws or regulations may have a material effect on the Company, the Banks and the business of the Company and the Banks.

General

Financial institutions and their holding companies are extensively regulated under federal and state law. Consequently, the growth and earnings performance of the Company and the Banks can be affected not only by management decisions and general economic conditions, but also by the statutes administered by, and the regulations and policies of, various governmental regulatory authorities. Those authorities include, but are not limited to, the Board of Governors of the Federal Reserve System (the Federal Reserve Board), the FDIC, the Commissioner of the Michigan Office of Financial and Insurance Services (Commissioner), the Internal Revenue Service, and state taxing authorities. The effect of such statutes, regulations and policies can be significant, and cannot be predicted with a high degree of certainty.

Federal and state laws and regulations generally applicable to financial institutions and their holding companies regulate, among other things, the scope of business, investments, reserves against deposits, capital levels relative to operations, lending activities and practices, the nature and amount of collateral for loans, the establishment of branches, mergers, consolidations and dividends. The system of supervision and regulation applicable to the Company and the Banks establishes a comprehensive framework for their respective operations and is intended primarily for the protection of the FDIC's deposit insurance funds, the depositors of the Banks, and the public, rather than shareholders of the Banks or the Company.

Federal law and regulations establish supervisory standards applicable to the lending activities of the Banks, including internal controls, credit underwriting, loan documentation and loan-to-value ratios for loans secured by real property.

Table of Contents

The Company's common stock is registered under the Securities Exchange Act of 1934, as amended (the Exchange Act). It is therefore subject to the information, proxy solicitation, insider trading and other restrictions and requirements of the SEC under the Exchange Act. On July 30, 2002, President Bush signed into law the Sarbanes-Oxley Act of 2002. The Sarbanes-Oxley Act provided for numerous changes to the reporting, accounting, corporate governance and business practices of companies as well as financial and other professionals who have involvement with the U.S. public markets.

The Company

General. The Company, as the sole shareholder of the Banks, is a bank holding company and is registered with, and subject to regulation by, the Federal Reserve Board under the Bank Holding Company Act, as amended (the BHCA). Under the BHCA, the Company is subject to periodic examination by the Federal Reserve Board, and is required to file with the Federal Reserve Board periodic reports of its operations and such additional information as the Federal Reserve Board may require.

In accordance with Federal Reserve Board policy, the Company is expected to act as a source of financial strength to the Banks and to commit resources to support the Banks in circumstances where the Company might not do so absent such policy. In addition, if the Commissioner deems a Bank's capital to be impaired, the Commissioner may require the Bank to restore its capital by a special assessment upon the Company as the Bank's sole shareholder. If the Company were to fail to pay any such assessment, the directors of the Bank would be required, under Michigan law, to sell the shares of the Bank's stock owned by the Company to the highest bidder at either a public or private auction and use the proceeds of the sale to restore the Bank's capital.

Investments and Activities. Under the BHCA, a bank holding company must obtain Federal Reserve approval before: (i) acquiring, directly or indirectly, ownership or control of any voting shares of another bank or bank holding company if, after such acquisition, it would own or control more than 5% of such shares (unless it already owns or controls the majority of such shares); (ii) acquiring all or substantially all of the assets of another bank or bank holding company; or (iii) merging or consolidating with another bank holding company. The Federal Reserve may allow a bank holding company to acquire banks located in any state of the United States without regard to geographic restrictions or reciprocity requirements imposed by state law, but subject to certain conditions, including limitations on the aggregate amount of deposits that may be held by the acquiring holding company and all of its insured depository institution affiliates.

The merger or consolidation of an existing bank subsidiary of the Company with another bank, or the acquisition by such a subsidiary of assets of another bank, or the assumption of liability by such a subsidiary to pay any deposits in another bank, will require the prior written approval of the responsible Federal depository institution regulatory agency under the Bank Merger Act. In addition, in certain such cases an application to, and the prior approval of, the Federal Reserve Board under the BHCA and/or the Commissioner under the Michigan Banking Code, may be required.

With certain limited exceptions, the BHCA prohibits any bank holding company from engaging, either directly or indirectly through a subsidiary, in any activity other than managing or controlling banks unless the proposed non-banking activity is one that the Federal Reserve Board has determined to be so closely related to banking or managing or controlling banks as to be a proper incident thereto. Under current Federal Reserve Board regulations, such permissible non-banking activities include such things as mortgage banking, equipment leasing, securities brokerage, and consumer and commercial finance company operations. Well-capitalized and well-managed bank holding companies may engage *de novo* in certain types of non-banking activities without prior notice to, or approval of, the Federal Reserve Board, provided that written notice of the new activity is given to the Federal Reserve Board within 10 business days after the activity is commenced. If a bank holding company wishes to engage in a non-banking activity by acquiring a going concern, prior notice and/or prior approval will be required, depending upon the activities in which the company to be acquired is engaged, the size of the company to be acquired and the financial and managerial condition of the acquiring bank holding company.

Table of Contents

A bank holding company whose subsidiary depository institutions all are well-capitalized and well-managed and who have Community Reinvestment Act ratings of at least satisfactory may elect to become a financial holding company. A financial holding company is permitted to engage in a broader range of activities than are permitted to bank holding companies.

Those expanded activities include any activity which the Federal Reserve (in certain instances in consultation with the Department of the Treasury) determines, by order or regulation, to be financial in nature or incidental to such financial activity, or to be complementary to a financial activity and not to pose a substantial risk to the safety or soundness of depository institutions or the financial system generally. Such expanded activities include, among others: insuring, guaranteeing, or indemnifying against loss, harm, damage, illness, disability or death, or issuing annuities, and acting as principal, agent, or broker for such purposes; providing financial, investment, or economic advisory services, including advising a mutual fund; and underwriting, dealing in, or making a market in securities.

The BHCA generally does not place territorial restrictions on the domestic activities of non-bank subsidiaries of bank or financial holding companies.

Federal legislation also prohibits the acquisition of control of a bank holding company, such as the Company, by a person or a group of persons acting in concert, without prior notice to the Federal Reserve. Control is defined in certain cases as the acquisition of 10% of the outstanding shares of a bank holding company.

Year-end securities were as follows (in thousands):

Available for Sale

Capital Requirements. The Federal Reserve Board uses capital adequacy guidelines in its examination and regulation of bank holding companies. If capital falls below minimum guidelines, a bank holding company may, among other things, be denied approval to acquire or establish additional banks or non-bank businesses. These capital guidelines are comparable to those established by the regulatory authorities for the Banks discussed below.

Dividends. The Company is a corporation separate and distinct from the Banks. Most of the Company's revenues are received by it in the form of dividends paid by the Banks. Thus, the Company's ability to pay dividends to its shareholders is indirectly limited by statutory restrictions on the Banks' ability to pay dividends described below. Further, in a policy statement, the Federal Reserve Board has expressed its view that a bank holding company experiencing earnings weaknesses should not pay cash dividends exceeding its net income or which can only be funded in ways that weaken the bank holding company's financial health, such as by borrowing. Additionally, the Federal Reserve Board possesses enforcement powers over bank holding companies and their non-bank subsidiaries to prevent or remedy actions that represent unsafe or unsound practices or violations of applicable statutes and regulations. Among these powers is the ability to proscribe the payment of dividends by banks and bank holding companies. Similar enforcement powers over the Banks are possessed by the FDIC. The prompt corrective action provisions of federal law and regulation authorizes the Federal Reserve Board to restrict the payment of dividends by the Company for an insured bank which fails to meet specified capital levels.

In addition to the restrictions on dividends imposed by the Federal Reserve Board, the Michigan Business Corporation Act provides that dividends may be legally declared or paid only if after the distribution a corporation, such as the Company, can pay its debts as they come due in the usual course of business and its total assets equal or exceed the sum of its liabilities plus the amount that would be needed to satisfy the preferential rights upon dissolution of any holders of preferred stock whose preferential rights are superior to those receiving the distribution.

The Banks

General. The Banks are Michigan banking corporations, and their deposit accounts are insured by the deposit insurance fund of the FDIC. As FDIC-insured Michigan chartered banks, the Banks are subject to the examination, supervision, reporting and enforcement requirements of the Commissioner, as the chartering authority for Michigan banks, and the FDIC, as administrator of the deposit insurance fund. These agencies and the federal and state laws

applicable to the Banks and their operations, extensively regulate various aspects of the banking business including, among other things, permissible types and amounts of loans, investments and other activities, capital adequacy, branching, interest rates on loans and on deposits, the maintenance of non-interest bearing reserves on deposit accounts, and the safety and soundness of banking practices.

Table of Contents

Deposit Insurance. As FDIC-insured institutions, the Banks are required to pay deposit insurance premium assessments to the FDIC. Following the adoption of the Federal Deposit Insurance Reform Act of 2005, the FDIC has the opportunity, through its rulemaking authority, to better price deposit insurance for risk than was previously authorized. The FDIC adopted regulations effective January 1, 2007 that create a new system of risk-based assessments. Under the new regulations there are four risk categories, and each insured institution will be assigned to a risk category based on capital levels and supervisory ratings. Well-capitalized institutions with CAMELS composite ratings of 1 or 2 will be placed in Risk Category I while other institutions will be placed in Risk Categories II, III or IV depending on their capital levels and CAMELS composite ratings. The assessment rates may be changed by the FDIC as necessary to maintain the insurance fund at the reserve ratio designated by the FDIC, which currently is 1.25% of insured deposits. The FDIC may set the reserve ratio annually at between 1.15% and 1.50% of insured deposits. The current assessment rates established by the FDIC provide that the highest rated institutions, those in Risk Category I, will pay premiums of between .05% and .07% of deposits and the lowest rated institutions, those in Risk Category IV, will pay premiums of .43% of deposits. Deposit insurance assessments will be collected for a quarter at the end of the next quarter. Assessments will be based on deposit balances at the end of the quarter, except for institutions with \$1 billion or more in assets and any institutions that become insured on or after January 1, 2007 which will have their assessment base determined using average daily balances of insured deposits.

FICO Assessments. The Banks are subject to assessments to cover the payments on outstanding obligations of the Financing Corporation (FICO). FICO was created to finance the recapitalization of the Federal Savings and Loan Insurance Corporation, during the thrift crisis in the 1980s. From now until the maturity of the outstanding FICO obligations in 2019, insured institutions will share the cost of the interest on the FICO bonds on a *pro rata* basis.

Commissioner Assessments. Michigan banks are required to pay supervisory fees to the Commissioner to fund the operations of the Commissioner. The amount of supervisory fees paid by a bank is based upon the bank's total assets, as reported to the Commissioner.

Capital Requirements. The FDIC has established the following minimum capital standards for state-chartered, FDIC insured non-member banks, such as the Banks: a leverage requirement consisting of a minimum ratio of Tier 1 capital to total average assets of 3% for the most highly-rated banks with minimum requirements of 4% to 5% for all others, and a risk-based capital requirement consisting of a minimum ratio of total capital to total risk-weighted assets of 8%, at least one-half of which must be Tier 1 capital. Tier 1 capital consists principally of shareholders' equity. These capital requirements are minimum requirements. Higher capital levels will be required if warranted by the particular circumstances or risk profiles of individual institutions.

Table of Contents

Prompt Corrective Regulatory Action. Federal law provides the federal banking regulators with broad power to take prompt corrective action to resolve the problems of undercapitalized institutions. The extent of the regulators powers depends on whether the institution in question is well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, or critically undercapitalized. Federal regulations define these capital categories as follows:

| | Total Risk-Based Capital Ratio | Tier 1 Risk-Based Capital Ratio | Leverage Ratio |
|--------------------------------|--------------------------------------|---------------------------------------|--|
| Well capitalized | 10% or above | 6% or above | 5% or above |
| Adequately capitalized | 8% or above | 4% or above | 4% or above |
| Undercapitalized | Less than 8% | Less than 4% | Less than 4% |
| Significantly undercapitalized | Less than 6% | Less than 3% | Less than 3% |
| Critically undercapitalized | | | A ratio of tangible equity to total assets of 2% or less |

As of December 31, 2007, each of the Banks ratios exceeded minimum requirements for the well capitalized category.

Depending upon the capital category to which an institution is assigned, the regulators corrective powers include: requiring the submission of a capital restoration plan; placing limits on asset growth and restrictions on activities; requiring the institution to issue additional capital stock (including additional voting stock) or to be acquired; restricting transactions with affiliates; restricting the interest rate the institution may pay on deposits; ordering a new election of directors of the institution; requiring that senior executive officers or directors be dismissed; prohibiting the institution from accepting deposits from correspondent banks; requiring the institution to divest certain subsidiaries; prohibiting the payment of principal or interest on subordinated debt; and ultimately, appointing a receiver for the institution.

In general, a depository institution may be reclassified to a lower category than is indicated by its capital levels if the appropriate federal depository institution regulatory agency determines the institution to be otherwise in an unsafe or unsound condition or to be engaged in an unsafe or unsound practice. This could include a failure by the institution, following receipt of a less-than-satisfactory rating on its most recent examination report, to correct the deficiency.

Dividends. Under Michigan law, the Banks are restricted as to the maximum amount of dividends they may pay on their common stock. The Banks may not pay dividends except out of net income after deducting their losses and bad debts. A Michigan state bank may not declare or pay a dividend unless the bank will have surplus amounting to at least 20% of its capital after the payment of the dividend.

Federal law generally prohibits a depository institution from making any capital distribution (including payment of a dividend) or paying any management fee to its holding company if the depository institution would thereafter be undercapitalized. The FDIC may prevent an insured bank from paying dividends if the bank is in default of payment of any assessment due to the FDIC. In addition, the FDIC may prohibit the payment of dividends by an insured bank, if such payment is determined, by reason of the financial condition of the bank, to be an unsafe and unsound banking practice.

Insider Transactions. The Banks are subject to certain restrictions imposed by the Federal Reserve Act on any extensions of credit to the Company or its subsidiaries, on investments in the stock or other securities of the Company or its subsidiaries and the acceptance of the stock or other securities of the Company or its subsidiaries as collateral for loans. Certain limitations and reporting requirements are also placed on extensions of credit by the Banks to their directors and officers, to directors and officers of the Company and its subsidiaries, to principal shareholders of the Company, and to related interests of

Table of Contents

such directors, officers and principal shareholders. In addition, federal law and regulations may affect the terms upon which any person becoming a director or officer of the Company or one of its subsidiaries or a principal shareholder of the Company may obtain credit from banks with which the Banks maintain a correspondent relationship.

Safety and Soundness Standards. The FDIC has adopted guidelines to promote the safety and soundness of federally insured depository institutions. These guidelines establish standards for internal controls, information systems, internal audit systems, loan documentation, credit underwriting, interest rate exposure, asset growth, compensation, fees and benefits, asset quality and earnings.

Investments and Other Activities. Under federal law and FDIC regulations, FDIC -insured state banks are prohibited, subject to certain exceptions, from making or retaining equity investments of a type, or in an amount, that are not permissible for a national bank. Federal law, as implemented by FDIC regulations, also prohibits FDIC insured state banks and their subsidiaries, subject to certain exceptions, from engaging as principal in any activity that is not permitted for a national bank or its subsidiary, respectively, unless the bank meets, and continues to meet, its minimum regulatory capital requirements and the FDIC determines the activity would not pose a significant risk to the deposit insurance fund. Impermissible investments and activities must be divested or discontinued within certain time frames set by the FDIC in accordance with federal law. These restrictions are not currently expected to have a material impact on the operations of the Banks.

Federal law also authorizes insured state banks to engage in financial activities, through subsidiaries, similar to the activities permitted for financial holding companies. If a state bank wants to establish a subsidiary engaged in financial activities, it must meet certain criteria, including that it and all of its affiliated insured depository institutions are well-capitalized and have a Community Reinvestment Act rating of at least satisfactory and that it is well-managed. There are capital deduction and financial statement requirements and financial and operational safeguards that apply to subsidiaries engaged in financial activities. Such a subsidiary is considered to be an affiliate of the bank and there are limitations on certain transactions between a bank and a subsidiary engaged in financial activities of the same type that apply to transactions with a bank's holding company and its subsidiaries.

Consumer Protection Laws. The Banks' businesses include making a variety of types of loans to individuals. In making these loans, the Banks are subject to State usury and regulatory laws and to various federal statutes, including the privacy of consumer financial information provisions of the Gramm-Leach-Bliley Act and regulations promulgated thereunder, the Equal Credit Opportunity Act, the Fair Credit Reporting Act, the Truth in Lending Act, the Real Estate Settlement Procedures Act, and the Home Mortgage Disclosure Act, and the regulations promulgated thereunder, which prohibit discrimination, specify disclosures to be made to borrowers regarding credit and settlement costs, and regulate the mortgage loan servicing activities of the Banks, including the maintenance and operation of escrow accounts and the transfer of mortgage loan servicing. In receiving deposits, the Banks are subject to extensive regulation under State and federal law and regulations, including the Truth in Savings Act, the Expedited Funds Availability Act, the Bank Secrecy Act, the Electronic Funds Transfer Act, and the Federal Deposit Insurance Act. Violation of these laws could result in the imposition of significant damages and fines upon the Bank and its directors and officers.

Branching Authority. Michigan banks, such as the Banks, have the authority under Michigan law to establish branches in any state, including Michigan, the District of Columbia, a territory or protectorate of the United States or a foreign country, subject to receipt of all required regulatory approvals. Under federal law banks may establish interstate branch networks through merger or consolidation with other banks without regard to whether such activity is contrary to state law. The establishment of de novo interstate branches or the acquisition of individual branches of a bank in another state (rather than the merger or consolidation with an out-of-state bank) is allowed only if specifically authorized by the law of the state where the branch will be established or acquired.

Michigan law permits both U.S. and non-U.S. banks to establish branch offices in Michigan. The Michigan Banking Code permits, in appropriate circumstances and with the approval of the

Table of Contents

Commissioner, (1) sale by a Michigan bank of branches to an FDIC-insured bank, savings bank or savings and loan association located in a state in which a Michigan bank could purchase branches of the purchasing entity, (2) consolidation of Michigan banks and FDIC-insured banks, savings banks or savings and loan associations located in other states having laws which permit such a consolidation, (3) establishment of branches in Michigan by FDIC-insured banks located in other states, the District of Columbia or U.S. territories or protectorates having laws permitting a Michigan bank to establish a branch in such jurisdiction, and (4) establishment by foreign banks of branches located in Michigan.

ITEM 1A. Risk Factors.

You should carefully consider the following risk factors, together with the other information provided in this Annual Report on Form 10-K.

The Company may need additional capital in the future and adequate financing may not be available to it on acceptable terms, or at all.

On March 15, 2004, the Company completed its acquisition of West Michigan Community Bank. At the time it was acquired, West Michigan Community Bank was operating under a Memorandum of Understanding (MOU) with the FDIC and the Michigan Office of Financial and Insurance Services. The MOU was lifted in July 2004, and the bank is no longer under special scrutiny by the FDIC or OFIS and is considered well capitalized under federal banking regulations. However, projections for West Michigan Community Bank indicate that it could require capital infusions in the near term to remain a well capitalized bank. The Company raised some capital in 2005 through an offering of its common stock to Michigan residents (resulting in approximately \$758,000 of gross proceeds to the Company) and the issuance of \$2 million aggregate principal amount of floating rate preferred securities through the Company's newly-formed, wholly-owned trust, Fentura Financial Capital Trust II. However, additional capital may be required in the future, which may not be available to the Company on acceptable terms or at all. If the Company is unable to obtain the funding it needs, it may be unable to develop its products and services, take advantage of future opportunities, or respond to competitive pressures, which could have a material adverse effect on its financial condition and profitability.

The Company has credit risk inherent in its asset portfolio, and its allowance for loan losses may not be sufficient to cover actual loan losses.

The Banks' loan customers may not repay their loans according to their respective terms, and any collateral securing the payment of these loans may be insufficient to assure repayment. As a result, the Banks may experience significant credit losses which could have a material adverse effect on the Company's operating results.

To offset this risk, the Company makes various assumptions and judgments about the collectibility of the loan portfolios of the Banks, including the creditworthiness of borrowers and the value of the real estate and other assets that may serve as collateral for the repayment of loans. In determining the size of the allowance for loan losses, the Company relies on its experience and its evaluation of current economic conditions. If its assumptions prove to be incorrect, its current allowance for loan losses may not be sufficient to cover any loan losses inherent in its loan portfolio and adjustments may be necessary to allow for different economic conditions or adverse developments in its loan portfolio. Material additions to the allowance would materially decrease net income.

In the near term, the Company's strategy is to continue to expand commercial lending activities in the markets in which its Banks are currently operating. The Company may also pursue opportunities to expand into new markets outside its traditional markets by establishing offices staffed by commercial loan officers who come from other commercial banks in these new markets. The Company cannot be sure that its loan loss experience with any new borrowers in these newer markets will be consistent with its loan loss experience in its traditional markets. Its actual loan loss experience in these markets may cause the Company to increase its reserves.

Table of Contents

The allowance for loan losses is based upon ranges of estimates and is not intended to imply either limitations on the usage of the allowance or precision of the specific amounts. The Company does not view the allowance for loan losses as being divisible among the various categories of loans. The entire allowance is available to absorb any future losses without regard to the category or categories in which the charged-off loans are classified. In addition, federal and state regulators periodically review the Company's allowance for loan losses and may require it to increase the provision for loan losses or recognize additional loan charge-offs. Any increase in the allowance for loan losses or loan charge-offs required by these regulatory agencies could have a material adverse effect on the results of operations and financial condition of the Company.

The Company has credit risk inherent in its securities portfolio.

The Company maintains diversified securities portfolios, which include obligations of the U.S. Treasury and government-sponsored agencies as well as securities issued by states and political subdivisions, corporate securities, and mortgage-backed securities. The Company may also invest in capital securities, which include preferred stocks and trust preferred securities. At December 31, 2007, the Company owned (stated at fair value) approximately \$6 million of common stock in other entities, which primarily represents its minority investments in five Michigan banks and a 24.99% investment in an Arizona bank.

The Company seeks to limit credit losses in its securities portfolios by generally purchasing only highly rated securities (rated A or higher by a major debt rating agency) or by conducting significant due diligence on the issuer for unrated securities. However, the Company may, in the future, experience losses in its securities portfolio which may be other than temporary in nature and result in charges that could materially adversely affect its results of operations.

The Company's mortgage-banking revenues are susceptible to substantial variations dependent largely upon factors that the Company does not control, such as market interest rates.

The Company's mortgage-banking revenues are earned in the form of gains on the sale of real estate mortgage loans. The amount of gains realized by the Company primarily depends on the volume of loans the Company sells, which depends on the Company's ability to originate real estate mortgage loans and the demand for fixed-rate obligations and other loans that are outside of its established interest-rate risk parameters. Net gains on real estate mortgage loans are also dependent upon economic and competitive factors, which are largely outside of the Company's control, as well as the Company's ability to effectively manage exposure to changes in interest rates and can often be a volatile part of its overall revenues.

Fluctuations in interest rates and economic conditions could reduce the Company's profitability and negatively affect its capital and liquidity.

The Company realizes income primarily from the difference between interest earned on loans and investments and the interest paid on deposits and borrowings. The Company's interest income and interest expense are affected by general economic conditions and by the policies of regulatory authorities. While the Company has taken measures intended to manage the risks of operating in a changing interest rate environment, there can be no assurance that these measures will be effective in avoiding undue interest rate risk. The Company expects that it will periodically experience gaps in the interest rate sensitivities of its assets and liabilities, meaning that either its interest-bearing liabilities will be more sensitive to changes in market interest rates than its interest-earning assets, or vice versa. In either event, if market interest rates should move contrary to its position, this gap will work against it, and its earnings may be negatively affected.

Table of Contents

The Company is unable to predict fluctuations of market interest rates, which are affected by, among other factors, changes in the following:

inflation or deflation rates;

levels of business activity;

recession;

unemployment levels;

money supply;

domestic or foreign events; and

instability in domestic and foreign financial markets.

In addition, substantially all of its loans are to businesses and individuals in mid-Michigan and West Michigan, and any decline in the economy of either of these areas could adversely affect it.

The Company's operations may be adversely affected if the Company is unable to secure adequate funding. The Company's use of wholesale funding sources exposes it to liquidity risk and potential earnings volatility.

The Company relies on wholesale funding to a modest extent, including its revolving credit facility, Federal Home Loan Bank borrowings, and brokered deposits, to augment its core deposits to fund its business. Because wholesale funding sources are affected by general market conditions, the availability of funding from wholesale lenders may be dependent on the confidence these investors have in the Company's commercial and consumer finance operations. The continued availability to the Company of these funding sources is uncertain, and it may be difficult to retain or replace brokered deposits at attractive rates as they mature. The Company's liquidity will be constrained if it is unable to renew its wholesale funding sources or if adequate financing is not available in the future at acceptable rates of interest or at all. The Company may not have sufficient liquidity to continue to fund new loans, and the Company may need to liquidate loans or other assets unexpectedly in order to repay obligations as they mature.

The Company relies heavily on its management team, and the unexpected loss of key managers may adversely affect its operations.

The Company's success to date has been influenced strongly by its ability to attract and to retain senior management experienced in banking and financial services. The ability to retain executive officers and the current management teams of each of its lines of business will continue to be important to successful implementation of its strategies. The Company does not have employment or non-compete agreements with any of these key employees, except that the Company entered into non-compete agreements with each of the directors of West Michigan Financial Corp. in connection with the Company's acquisition of West Michigan Financial Corp. and its subsidiaries (including West Michigan Community Bank). The unexpected loss of services of any key management personnel, or the inability to recruit and retain qualified personnel in the future, could have an adverse effect on the Company's business and financial results.

Competition with other financial institutions could adversely affect the Company's profitability.

The Company faces vigorous competition from banks and other financial institutions, including savings and loan associations, savings banks, finance companies, mortgage banking companies, credit unions, and other financial organizations. A number of these banks and other financial institutions have substantially greater resources and lending limits, larger branch systems, and a wider array of banking services. To a limited extent, the Company also competes with other providers of financial services, such as money market mutual funds, brokerage firms, consumer finance companies, and insurance companies, which are not subject to the same degree of regulation as that imposed on the Banks. As a result, these non-bank competitors may have an advantage over the Company in providing certain

Table of Contents

services, and this competition may reduce or limit the Company's margins on banking services, reduce its market share, and adversely affect its results of operations and financial condition.

Changes in economic conditions could adversely affect the Company's loan portfolio.

The Company's success depends to a great extent upon general economic conditions. The Company has in general experienced a slowing economy in Michigan since 2001. Unlike larger banks that are more geographically diversified, the Company provides banking services to customers primarily in mid-Michigan and, with the March 2004 acquisition of West Michigan Community Bank, in West Michigan. The Company's loan portfolio, the ability of the borrowers to repay these loans, and the value of the collateral securing these loans will be impacted by local economic conditions.

An economic slowdown could have many adverse consequences, including the following:

Loan delinquencies may increase;

Problem assets and foreclosures may increase;

Demand for the Company's products and services may decline; and

Collateral for the Company's loans may decline in value, in turn reducing customers' borrowing power and reducing the value of assets and collateral associated with existing loans.

In addition to local economic conditions in Michigan, the Company's success will also depend in part upon the state of the national economy. A general downturn in the local or national economy may impact the Company's operations. In addition, the effect of possible future terrorist attacks or war on the Company or the local or national economy cannot be known or predicted.

The Company may be unable to maintain its historical growth rate, which may adversely impact its results of operations and financial condition.

To achieve its growth, the Company has opened additional branches and acquired other financial institutions and branches. The Company may be unable to sustain its historical rate of growth or may not even be able to grow at all, and the Company may encounter difficulties obtaining the funding necessary to support its growth. Various factors, such as economic conditions, competition, and regulatory considerations, may impede or prohibit the opening of new branch offices. In addition, the Company may have difficulty identifying suitable financial institutions and other non-banking entities that the Company desires to acquire that are available for sale. Further, its inability to attract and retain experienced bankers may adversely affect its internal growth. A significant decrease in its historical rate of growth may adversely impact its results of operations and financial condition.

The Company operates in a highly regulated environment and may be adversely affected by changes in federal and local laws and regulations.

The Company is subject to extensive regulation, supervision, and examination by federal and state banking authorities. Any change in applicable regulations or federal or state legislation could have a substantial impact on it and its Banks and their operations. Additional legislation and regulations may be enacted or adopted in the future that could significantly affect its powers, authority, and operations, which could increase its costs of doing business and, as a result, give an advantage to its competitors who may not be subject to similar legislative and regulatory requirements. Further, regulators have significant discretion and power to prevent or remedy unsafe or unsound practices or violations of laws by banks and bank holding companies in the performance of their supervisory and enforcement duties. The exercise of regulatory power may have a negative impact on the Company's results of operations and financial condition. The effect of this regulation can be significant and cannot be predicted with a high degree of certainty.

Table of Contents

The Company may face challenges in managing its operational risks as the Company grows.

Like other financial services companies, the Company faces a number of operational risks, including the potential for processing errors, internal or external fraud, failure of computer systems, and external events beyond its control such as natural disasters. Acts of fraud are difficult to detect and deter, and the Company cannot assure investors that its risk management procedures and controls will prevent losses from fraudulent activity. The Company's growth may strain its existing managerial resources and internal monitoring, accounting, and reporting systems.

Table of Contents

The Company's ability to pay dividends on its common stock is limited not only by its profitability, but also by bank regulation.

Most of the Company's revenues are received in the form of dividends paid to it by its subsidiary Banks. Thus, its ability to pay dividends to the holders of its common stock is indirectly limited by statutory restrictions on the ability of its subsidiary Banks to pay dividends to it. Further, in a policy statement, the Federal Reserve Board has expressed its view that a bank holding company experiencing earnings weaknesses should not pay cash dividends exceeding its net income or that can only be funded in ways that weaken the bank holding company's financial health, such as by borrowing. In addition, the Federal Reserve Board possesses enforcement powers over bank holding companies and their non-bank subsidiaries to prevent or remedy actions that represent unsafe or unsound practices or violations of applicable statutes and regulations. Among these powers is the ability to proscribe the payment of dividends by banks and bank holding companies. The FDIC has similar enforcement powers over the Company's subsidiary Banks. Federal law has prompt corrective action provisions that authorize the Federal Reserve Board to restrict its payment of dividends for an insured bank that fails to meet specified capital levels.

In addition to the restrictions on dividends imposed by federal banking regulation, the Michigan Business Corporation Act provides that dividends may be legally declared or paid only if, after the distribution, the Company is able to pay its debts as they become due in the usual course of business and its total assets equal or exceed the sum of its total liabilities plus the amount that would be needed to satisfy the preferential rights upon dissolution of any holders of preferred stock whose preferential rights are superior to those receiving the dividend.

In addition, under Michigan banking laws, the Company's Banks may not pay dividends except out of net income after deducting their losses and bad debts. Each Bank may not declare or pay a dividend unless it will have surplus amounting to at least 20% of its capital after the payment of the dividend.

There is only a limited trading market for the Company's common stock.

The Company's common stock is reported on the OTC Bulletin Board under the symbol FETM. The development and maintenance of an active trading market depends, however, upon the existence of willing buyers and sellers, the presence of which is beyond the Company's control or the control of any market maker. Although the Company is publicly traded and files reports with the SEC, the volume of trading activity in its stock is relatively limited. Even if a more active market develops, there can be no assurance that such a market will continue.

ITEM 1B. Unresolved Staff Comments.

Not applicable.

Table of Contents

ITEM 2. PROPERTIES

The Company's executive offices are located at 175 North Leroy Street, Fenton, Michigan, which is also the main office of The State Bank. The State Bank also has the following community offices (all of which are in Michigan):

Branch 15095 Silver Parkway, Fenton (*owned*)

Branch 18005 Silver Parkway, Fenton (*leased*)

Loan Extension Office 101 North Leroy Street, Fenton (*owned*)

Branch 107 Main Street, Linden (*owned*)

Branch 4043 Grange Hall Road, Holly (*leased*)

Branch 7606 S Saginaw, Grand Blanc (*owned*)

Branch 8185 Holly Road, Grand Blanc (*leased*)

Branch 1401 E. Hill Road, Grand Blanc (*owned*)

Branch 315 E. Grand River Ave, Brighton (*leased*)

Branch 134 N. First St, Brighton (*owned*)

Operations Center 3202 Owen Road, Fenton (*owned*)

Davison State Bank is headquartered in Davison, Michigan, at 625 S. State Street. Davison State Bank also has the following community office (which is in Michigan):

Branch 8503 Davison Road, Davison (*leased*)

West Michigan Community Bank is headquartered in Hudsonville, Michigan, at 5367 School Avenue. West Michigan Community Bank also has the following community offices (all of which are in Michigan):

Branch 3467 Kelly Street, Hudsonville (*owned*)

Branch 81 E. 8 Street, Holland (*leased*)

Branch 3493 W. Shore Dr, Holland (*owned*)

Branch 437 Baldwin Road, Jenison (*owned*)

The Company owns the headquarters of each of its three Banks and many of the other bank offices (as noted above). The balance of the bank offices are leased from third parties. All properties have maintenance contracts and are maintained in good condition.

ITEM 3. LEGAL PROCEEDINGS

From time to time, the Company and its subsidiaries are parties to various legal proceedings incident to their business. At December 31, 2007, there were no legal proceedings which management anticipates would have a material adverse effect on the Company.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted during the fourth quarter of 2007 to a vote of security holders through the solicitation of proxies or otherwise.

Table of Contents

ADDITIONAL ITEM EXECUTIVE OFFICERS OF REGISTRANT

The following information concerning executive officers of the Company has been omitted from the Registrant's proxy statement pursuant to Instruction 3 to Regulation S-K, Item 401(b).

Officers of the Company are appointed annually by the Board of Directors of the Company and serve at the pleasure of the Board of Directors. Certain of the officers named below are appointed annually by the Board of Directors of one or the other of the Banks and serve at the pleasure of the Board of the Bank that appointed them. The Bank officers are included in the listing of executive officers of the Company because of the nature of the office they hold. Information concerning these executive officers is given below:

Donald L. Grill (age 60) serves as President and Chief Executive Officer of the Company and Chief Executive Officer of The State Bank since 1996. From 1983 to 1996, Mr. Grill was employed by First of America Bank Corporation and served as President and Chief Executive Officer of First of America Bank - Frankenmuth.

Robert E. Sewick (age 58) was appointed President and CEO of West Michigan Community Bank on March 15, 2004, and was appointed Senior Vice President of the Company on December 1, 2004. Prior to the appointment, Mr. Sewick was Senior Vice President and Senior Lender of The State Bank. Prior to joining The State Bank in June of 1999, he was Senior Vice President and Regional Credit officer for Huntington National Bank for Western Michigan. Mr. Sewick has over 30 years of banking experience.

Ronald L. Justice (age 43) is the CEO and President of Davison State Bank and the Secretary and Senior Vice President of the Company. Prior to holding these positions, he served as the CFO of the Company and its subsidiary Banks. Prior to that, Mr. Justice held other positions with The State Bank.

Dennis E. Leyder (age 54) was appointed Senior Vice President of the Company on December 1, 2004 and was promoted to President and Chief Operating Officer of The State Bank in December 2006. In his new capacity at The State Bank, he is responsible for all retail banking, marketing, trust and investment management. Mr. Leyder has over 24 years of banking experience, all in Genesee County.

Holly J Pingatore (age 50) was named Senior Vice President of the Company on December 1, 2004. Her responsibilities include data processing, bank operations, product support, and network services. Prior to such appointment, she was Senior Vice President of The State Bank. Prior to joining The State Bank in 1999, Ms. Pingatore served in various capacities at a large Michigan based regional bank.

Douglas J. Kelley (age 39) was appointed Chief Financial Officer of the Company in 2003 and was appointed Senior Vice President of the Company on December 1, 2004. Prior to being named Chief Financial Officer, he served as Controller and CFO of The State Bank and Davison State Bank since 2001. Prior to joining the Banks, Mr. Kelley was an Assistant Vice President and Accounting Officer with Citizens Bank. Mr. Kelley has over 17 years of banking experience.

Table of Contents**PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

The market, dividend, and holders of record information required by this item appears under the caption Fentura Financial, Inc. Common Stock and Table 16 on page 58 under the title MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS, of the Company's 2007 Rule 14a-3 annual report, and is incorporated herein by reference. The performance graph is incorporated by reference from page 60 of the Company's 2007 Rule 14a-3 annual report.

The following table summarizes the repurchase activity of the Corporation's common stock during the quarter ended December 31, 2007:

| | Total Number of Share Purchased | Average Price Paid per Share | Total Number of Purchased as Publicly Announced Plans or Programs | Maximum Number of Shares that May Yet be Purchased Under the Program |
|------------------------|--|--|---|--|
| October 1-October 31 | 0 | \$ 0.00 | 0 | 32,816 |
| November 1-November 30 | 0 | \$ 0.00 | 0 | 32,816 |
| December 1-December 31 | 0 | \$ 0.00 | 0 | 32,816 |
| Total | 0 | \$ 0.00 | 0 | 32,816 |

The stock was repurchased pursuant to authorization granted by the Corporation's Board of Directors on March 28, 2007. The authorization allowed the purchase of up to 50,000 shares of the Corporation's stock until March 28, 2008.

ITEM 6. SELECTED FINANCIAL DATA

The information required by this item appears under the title MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS SELECTED FINANCIAL DATA, appearing in Table 1 on page 37 of the Company's 2007 Rule 14a-3 annual report, and is incorporated herein by reference.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information required by this item appears under the title MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS, appearing on pages 37 through 59 of the Company's 2007 Rule 14a-3 annual report, and is incorporated herein by reference.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information required by this item appears under the headings Liquidity and Interest Rate Risk Management on pages 51 and 52, Quantitative and Qualitative Disclosure About Market Risk on page 54 and 55 and Interest Rate Sensitivity Management on pages 55 and 56 under the title MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS of the Company's 2007 Rule 14a-3 annual report, and is incorporated herein by reference.

Table of Contents

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The consolidated financial statements of the Company including the notes thereto and Report of Crowe Chizek and Company LLC, Independent Registered Public Accounting Firm, appear on pages 1 through 36 of the Financial Statements portion of the Company's 2007 Rule 14a-3 annual report, and are incorporated herein by reference. The supplementary data required by this item is contained in Note 15 thereto.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None

ITEM 9A(T) CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures.

The Company's Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15(d)-15(e)) as of the end of the period covered by this Form 10-K Annual Report, have concluded that the Company's disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company would be made known to them by others within the Company, particularly during the period in which this Form 10-K Annual Report was being prepared.

Internal Control over Financial Reporting.

Management's Annual Report on Internal Control over Financial Reporting.

The management of Fentura Financial Inc. is responsible for establishing and maintaining adequate internal control over financial reporting. Fentura Financial Inc.'s internal control over financial reporting is a process designed under the supervision of the Corporation's Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Corporation's financial statements for external reporting purposes in accordance with United States generally accepted accounting principles. Fentura Financial Inc.'s management assessed the effectiveness of the Corporation's internal control over financial reporting as of December 31, 2007 based on criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework. Based on that assessment, management determined that, as of December 31, 2007, the Corporation's internal control over financial reporting is effective, based on those criteria.

There was no change in the Corporation's internal control over financial reporting that occurred during the Corporation's fiscal quarter ended December 31, 2007, that materially affected, or is reasonably likely to affect, the Corporation's internal control over financial reporting.

This annual report does not include an attestation report of the Corporation's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Corporation's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the company to provide only management's report in this annual report.

ITEM 9B OTHER INFORMATION

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The Company's executive officers are identified under Additional Item in Part I of this Report on Form 10-K. The other information required by this item appears under the captions 2008 Election of Directors, The Corporation's Board of Directors, Code of Ethics, Committees of the Corporation Board, and Compliance with Section 16 Reporting on pages 3, 4, 5, 6, 7, 8, 9, 10 and 21, respectively, of the Company's 2008 Notice of Annual Shareholders Meeting and Proxy Statement, and is incorporated herein by reference.

The Board of Directors of the Company has determined that Kenneth R. Elston, a director and member of the Audit Committee, qualifies as an Audit Committee financial expert as defined in rules adopted by the Securities and Exchange Commission pursuant to the Sarbanes-Oxley Act of 2002 and is independent pursuant to NASDAQ listing standards.

The Board of Directors of the Company has adopted a Code of Ethics, which details principles and responsibilities governing ethical conduct for all Company directors and executive officers. The Code of Ethics is filed as an Exhibit to this Annual Report on Form 10-K.

ITEM 11. EXECUTIVE COMPENSATION

The information required by this item appears under the captions Director Compensation, Report of Compensation/ESOP Committee, Executive Compensation, Payments upon Termination/Change in Control and Compensation/ESOP Committee Interlocks, on pages 9 through 21 of the Company's 2008 Notice of Annual Shareholders Meeting and Proxy Statement, and is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this item appears under the caption Stock Ownership of Directors, Executive Officers and Certain Major Shareholders on pages 6 and 7 of the Company's 2008 Notice of Annual Shareholders Meeting and Proxy Statement, and is incorporated herein by reference.

Securities Authorized for Issuance Under Equity Compensation Plans. The Company had the following equity compensation plans at December 31, 2007:

Table of Contents**EQUITY COMPENSATION PLAN INFORMATION**

| Plan Category | Number of securities to be issued upon exercise of outstanding options (1) | Weighted-average exercise price of outstanding options (2) | Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (1)) (3) |
|--|--|--|---|
| Equity compensation plans approved by security holders | 40,228 | \$ 29.74 | 120,400 |
| Equity compensation plans not approved by security holders | 0 | 0 | 0 |
| Total | 40,228 | \$ 29.74 | 120,400 |

These equity compensation plans are more fully described in Note 11 to the Consolidated Financial Statements.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this item appears under the captions Independence of Directors and Attendance at Meetings and Other Information Transactions with Certain Interested Parties on pages 8 and 22 and 23 respectively, of the Company's 2008 Notice of Annual Shareholders Meeting and Proxy Statement, and is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required by this item appears under the caption Relationship with Independent Public Accountants on pages 21 and 22 of the Company's 2008 Notice of Annual Shareholders Meeting and Proxy Statement and is incorporated herein by reference.

PART IV**ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES**
