In addition, in accordance with the rules and regulations of the Securities and Exchange Commission, the following table sets forth the hypothetical gains or option spreads that would exist for the options. The rates do not represent Qualstar's estimate or projection of future common stock prices, and no assurance can be given that any appreciation will occur or that the rates of annual compound stock appreciation assumed for the purposes of the following table will be achieved.

In January 2000 each of our four non-employee directors purchased 54,000 shares of restricted stock pursuant to our 1998 Stock Incentive Plan at a price of \$2.78 per share, which was the fair market value of our stock on the date of grant as determined by our board of directors. Each director paid for his shares with a full-recourse promissory note in the amount of \$150,000, secured by a pledge of the purchased shares. Payments of principal on the notes were due in four equal annual installments commencing on the second anniversary of the date of the note. Interest on the notes accrued at the rate of 6.21% per annum. As of June 30, 2004, all of these promissory notes had been repaid in full, except for \$3,860.25 in interest owed by one director.
