**NEWFIELD EXPLORATION COMPANY**

**UNAUDITED PRO FORMA COMBINED CONDENSED FINANCIAL INFORMATION**

On August 27, 2004, Newfield Exploration Company acquired Inland Resources Inc. for \$575 million. The purchase was funded through concurrent offerings of Newfield common stock and debt. Newfield issued 5.4 million shares of its common stock at a price to the public of \$52.85 per share and \$325 million of its 6 % senior subordinated notes due 2014.

The following summary unaudited pro forma combined condensed financial information combines the historical consolidated balance sheets and income statements of Newfield and Inland and gives effect to the issuance of the common stock and the notes and to the acquisition using the purchase method of accounting.

The unaudited pro forma combined condensed financial information is based on the following assumptions and adjustments:

the income statement data assume that the issuance of the common stock and the notes and the acquisition were effected on January 1, 2003;

the balance sheet data assume that the issuance of the common stock and the notes and the acquisition were effected on June 30, 2004;

the balance sheet and income statement data reflect Newfield's use of the net proceeds from the issuance of the common stock and the notes to acquire Inland and to pay transaction costs; and

the historical financial statements of Inland have been adjusted to conform to the accounting policies of Newfield.

The historical income statement information for the year ended December 31, 2003 is derived from the audited financial statements of Inland and Newfield. The historical income statement information for the six-month period ended June 30, 2004 and the historical balance sheet information as of June 30, 2004 are derived from the unaudited financial statements of Inland and Newfield. The unaudited pro forma combined condensed financial information should be read together with the historical financial statements and related notes of Newfield and Inland.

The unaudited pro forma combined condensed financial information is presented for illustrative purposes only. The financial results may have been different if the companies had always been combined or if the transactions had occurred as of the dates indicated above. They do not purport to indicate the future results that Newfield will experience. Further, the unaudited pro forma combined condensed financial information does not reflect the effect of restructuring charges that will be incurred to fully integrate and operate the combined organization more efficiently or anticipated synergies resulting from the acquisition. The restructuring activities to integrate the companies may result in asset rationalization and other activities.
