**Table of Contents****Item 8.01. Other Events.**

On August 30, 2007, the Compensation and Management Development Committee (the Compensation Committee ) of the Board of Directors of Starbucks Corporation (the Company ) approved stock ownership guidelines for executive officers of the Company with a title of executive vice president or above, effective September 4, 2007. The purpose of the guidelines is to ensure that executives have a long-term equity stake in Starbucks. The guidelines require executives to have made a minimum investment in Starbucks stock within five years. Minimum investment levels for each job title are:

<b>Job Title</b>	<b>Minimum Investment (\$)</b>
president and chief executive officer	5,000,000
chairman	5,000,000
chief operating officer	2,000,000
president (U.S. and International business units)	2,000,000
executive vice president	750,000

The unrealized value of vested, in-the-money stock options counts for up to 25% of the required minimum investment. Unrealized value is measured as the difference between aggregate exercise price and aggregate market value of underlying shares, calculated as of any measurement date made for the purpose of calculating compliance with the guidelines. Shares held prior to the effective date of the guidelines also count toward satisfying the investment requirement, and are valued at the closing market price of the shares on September 4, 2007. The committee will monitor each executive's progress toward the minimum investment on an annual basis. If an executive is promoted to a position with a higher minimum investment requirement, he or she must still make the initial required investment within five years and the Compensation Committee will determine the appropriate amount of additional time to make the incremental investment.
