The returns shown in this report do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. Performance of share classes will vary due to differences in sales charges and expenses. Average annual total return with sales charges includes payment of the maximum sales charge of 4.75 percent for Class A shares, a contingent deferred sales charge of 4.00 percent for Class B shares (in years one and two and declining to zero after year five), a contingent deferred sales charge of 1.00 percent for Class C shares in year one and combined Rule 12b-1 fees and service fees of up to 0.25 percent for Class A shares and 1.00 percent for Class B and C shares. The since inception and 10-year returns for Class B shares reflect the conversion of Class B shares into Class A shares six years after purchase. The since inception returns for Class C shares reflect the conversion of Class C shares into Class A shares 10 years after purchase. See footnote 3 in the Notes to Financial Statements for additional information. Figures shown above assume reinvestment of all dividends and capital gains. SEC yield is a calculation for determining the amount of portfolio income, excluding non-income items as

prescribed by the SEC. Yields are subject to change.

Fund Report

FOR THE 12-MONTH PERIOD ENDED AUGUST 31, 2004

Van Kampen High Income Corporate Bond Fund is managed by the Adviser's Taxable Fixed Income team. Members of the team include Sheila A. Finnerty, Managing Director of the Adviser; Gordon Loery, Executive Director of the Adviser; and Joshua Givelber and Chad Liu, Vice Presidents of the Adviser.(1)

MARKET CONDITIONS

The 12 months ended August 31, 2004 incorporated two distinct periods of performance for the high-yield bond market. From September 2003 through the end of January 2004, high-yield continued to stage a tremendous rally, fueled by solid U.S. economic data, positive earnings by high-yield companies and a declining default rate for high-yield bonds. The market was also buoyed by strong demand for yield and by investors' willingness to assume additional credit risk.

Beginning in February 2004, however, the market's technical situation changed. Though fundamental factors such as strong earnings and lower default rates remained as strong as they had been during the prior 15-month rally, demand receded as market participants grew concerned over the lack of job creation in the U.S. economy. Investors began to take profits and became more risk-averse. Then in early April, significant interest-rate increases caused even greater outflows of money from income-oriented mutual funds and the fixed-income markets in general. In addition, because of the long-term rally that had previously taken place, many high-yield bonds were priced above par (at a premium). In a sense, the high-yield market had run out of room to rally. At the same time, the high-yield market's new-issue calendar continued to be robust, which had a negative impact on the market's technical (i.e., supply/demand) situation. Despite all the difficulties in its technical environment, high-yield bonds managed to post solid performance for the period based on favorable fundamentals such as a reduction in the default rate. In August 2004, the 12-month default rate for high-yield bond issuers was 2.3 percent, down from 6 percent in August 2003.

PERFORMANCE ANALYSIS

For the 12-months ended August 31, 2004, the fund's Class A shares returned 14.02 percent (unadjusted for sales charges), outperforming its benchmarks, the J.P. Morgan Global High Yield Index and the Lipper High Yield Bond Fund Index. (See table below.)

During the period, three strategic decisions helped the fund's performance. First, the fund enjoyed favorable security selection within the housing sector.

Edgar Filing: VAN KAMPEN HIGH INCOME CORPORATE BOND FUND - Form N-CSR

Going back to late 2003, the portfolio had held several homebuilding issues that had performed well, while building products companies had lagged. The homebuilding bonds subsequently became overpriced, and based on our analyst's recommendation, we sold those bonds and selected several building products issues that performed extremely well over the remainder of the period. Two examples of top-performing building-products holdings were Nortek and Associated Materials. Both issues were purchased at low cost and both companies posted solid earnings after their purchase. Second, two metals companies that we held during the period performed well for the fund. One such company was Doe Run, a metals firm that despite its need to restructure, posted gains based on rising commodity prices. Third, the fund benefited from its lack of participation in airlines issues. Airlines were the worst-performing sector within the high-yield market during the 12-month period.

Two holdings that detracted from performance over the period were Pegasus, a satellite TV company that was forced to restructure based on disappointing financial performance (and is no longer held in the portfolio), and cable TV provider Charter Communications, which posted results below analysts' expectations.

On an ongoing basis, we generally seek to maintain a balanced and well-diversified portfolio. The fund's portfolio consists of approximately 150 issuers. This diversifies the fund's credit risk, yet it also allows for sufficient average security size for strategic overweightings. We continue to maintain an average credit quality of high single B, which is very close to that of the benchmarks. Late in 2003, we reduced the fund's allocation in BBB and BB credits. Many of these higher-rated credits had performed well as interest rates declined and Treasury bonds and other fixed-income issues rallied. Because BBB and BB bonds are more highly correlated with Treasury performance, we sold several of

14.02%	12.79%	12.98%	13.81%	12.76%

The performance for the three share classes varies because each has different expenses. The fund's total return figures assume the reinvestment of all distributions, but do not reflect the deduction of any applicable sales charges. Such costs would lower performance. these bonds as interest rates spiked and Treasuries were negatively affected. In their place, we purchased lower-quality credits, which historically have performed better than BBB- and BB-rated bonds in a rising interest-rate environment. In terms of issuer size, we focus on larger companies because of their financial flexibility, their ability to withstand less-favorable financial markets and their superior access to capital markets.

As we've stated, the fundamentals of the high-yield market remain positive, with

Edgar Filing: VAN KAMPEN HIGH INCOME CORPORATE BOND FUND - Form N-CSR

favorable earnings, lower default rates and modestly tightening high-yield credit spreads. Many of these positive factors have already been priced into the market during the past two years, however, and high-yield bonds currently appear to us to be fairly valued. As has been the case since last February, high-yield returns should continue to be driven primarily by coupon income rather than price appreciation. We look for the fund's holdings to earn their coupon in the coming months and for market fundamentals to remain favorable through the end of 2005. We believe that the fund remains a suitable vehicle for investors seeking high current income from an actively managed, well-diversified portfolio.

Expense Example

As a shareholder of the Fund, you incur ongoing costs, including management fees; distribution and service (12b-1) fees; and other Fund expenses. This example is intended to help you understand your ongoing cost (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period 3/1/04 - 8/31/04.

ACTUAL EXPENSE

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line of the table below provides information about hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing cost of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only. Therefore, the second line of the table is useful in comparing ongoing costs, and will not help you determine the relative total costs of owning different funds that have transactional costs, such as sales charges (loads), and redemption fees, or exchange fees.

(a) As required, effective September 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premium on fixed income securities and presenting paydown gains and losses on mortgage- and asset-backed securities as interest income. The effect of these changes for the period ended August 31, 2002 was to decrease the ratio of net investment income to average net assets from 10.49% to 10.39%. Net investment income per share and net realized gains and losses per share were unaffected by the adjustments. Per share, ratios and supplemental data for periods prior to August 31, 2002 have not been restated to reflect this change in presentation.

(b) Assumes reinvestment of all distributions for the period and does not include payment of the maximum sales charge of 4.75% or contingent deferred sales charge (CDSC). On purchases of \$1 million or more, a CDSC of 1% may be imposed on certain redemptions made within one year of purchase. If the sales charges were included, total returns would be lower. These returns include Rule 12b-1 fees and service fees of up to .25% and do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

VAN KAMPEN HIGH INCOME CORPORATE BOND FUND

NOTES TO FINANCIAL STATEMENTS -- AUGUST 31, 2004

1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen High Income Corporate Bond Fund (the "Fund") is organized as a Delaware statutory trust, and is registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. The Fund's primary investment objective is to seek to maximize current income. Capital appreciation is a secondary objective which is sought only when consistent with the Fund's primary investment objective. The

Edgar Filing: VAN KAMPEN HIGH INCOME CORPORATE BOND FUND - Form N-CSR

Fund commenced investment operations on October 2, 1978. The distribution of the Fund's Class B and Class C Shares commenced on July 2, 1992 and July 6, 1993, respectively.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Fixed income investments and preferred stock are stated at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their sale price as of the close of such securities exchange. Equity securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Unlisted securities and listed securities for which the last sales price is not available are valued at the mean of the last reported bid and asked price. For those securities where quotations or prices are not available, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value. Forward foreign currency contracts are valued using quoted foreign exchange rates.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At August 31, 2004, there were no when-issued or delayed delivery purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements. Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make payment for such securities only upon physical delivery or evidence of book entry transfer to

the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

C. INCOME AND EXPENSES Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. Discounts on debt securities are accreted and premiums are amortized over the expected life of each applicable security. Income and expenses of the Fund are allocated on a pro

Edgar Filing: VAN KAMPEN HIGH INCOME CORPORATE BOND FUND - Form N-CSR

rata basis to each class of shares, except for distribution and service fees and transfer agency costs which are unique to each class of shares.

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Fund intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset such losses against any future realized capital gains. At August 31, 2004, the Fund had an accumulated capital loss carryforward for tax purposes of \$361,788,463, which will expire between August 31, 2007 and August 31, 2012.

At August 31, 2004, the cost and related gross unrealized appreciation and depreciation are as follows:

Cost of investments for tax purposes.....	\$584,316,100
	=====
Gross tax unrealized appreciation.....	\$ 35,413,995
Gross tax unrealized depreciation.....	(48,502,683)

Net tax unrealized depreciation on investments.....	\$(13,088,688)
	=====

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares daily and pays monthly dividends from net investment income. Net realized gains, if any, are distributed annually. Distributions from net realized gains for book purposes may include short-term capital gains which are included in ordinary income for tax purposes.

The tax character of distributions paid during the years ended August 31, 2004 and 2003 was as follows:

Due to inherent differences in the recognition of income, expenses, and realized gains/losses under U.S. generally accepted accounting principles and federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. A permanent book

and tax difference relating to return of capital distributions totaling \$1,338,926 has been reclassified from accumulated undistributed net investment income to capital. Permanent book and tax differences of \$372,887 related to the recognition of net realized losses on foreign currency transactions have been reclassified from accumulated net realized loss to accumulated undistributed net investment income. A permanent book and tax difference related to the portion of capital loss carry-forward expiring in the current year totaling \$9,539,272 has been reclassified from accumulated net realized loss to capital. Additionally, permanent book and tax differences of \$4,486 relating to the Fund's investment in other regulated investment companies, \$6,605 relating to paydowns on mortgage-backed securities, \$335,030 relating to fee income received on tender offers and \$1,226,345 relating to book to tax amortization differences have been reclassified from accumulated undistributed net investment income to accumulated net realized loss.

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of post October losses which are not realized for tax purposes until the first day of the following fiscal year and the deferral of losses relating to wash sales transactions.

F. EXPENSE REDUCTIONS During the year ended August 31, 2004, the Fund's custody fee was reduced by \$9,415 as a result of credits earned on cash balances.

G. FOREIGN CURRENCY TRANSLATION Asset and liabilities denominated in foreign currencies and commitments under forward foreign currency contracts are translated into U.S. dollars at the mean of the quoted bid and ask prices of such currencies against the U.S. dollar. Purchases and sales of portfolio securities are translated at the rate of exchange prevailing when such securities were acquired or sold. Realized gain and loss on foreign currency transactions on the Statement of Operations includes the net realized amount from the sale of foreign currency and the amount realized between trade date and settlement date on securities transactions. Income and expenses are translated at rates prevailing when accrued.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

AVERAGE DAILY NET ASSETS	% PER ANNUM
First \$150 million.....	.625%
Next \$150 million.....	.550%
Over \$300 million.....	.500%

For the year ended August 31, 2004, the Fund recognized expenses of approximately \$26,200 representing legal services provided by Skadden, Arps, Slate, Meagher & Flom LLP, counsel to the Fund, of which a trustee of the Fund is an affiliated person.

Under an Accounting Services Agreement, the Adviser provides accounting services to the Fund. The Adviser allocates the cost of such services to each fund. For the year ended August 31, 2004, the Fund recognized expenses of approximately \$35,600 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting services to the Fund which are reported as part of "Other" expenses in the Statement of Operations.

Van Kampen Investor Services Inc. (VKIS), an affiliate of the Adviser, serves as the shareholder servicing agent for the Fund. For the year ended August 31, 2004, the Fund recognized expenses of approximately \$962,700 representing transfer agency fees paid to VKIS. Transfer agency fees are determined through negotiations with the Fund's Board of Trustees.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation. Amounts deferred are retained by the Fund and to the extent permitted by the 1940 Act, as amended, may be invested in the common shares of those funds selected by the trustees. Investments in such funds of \$120,805 are included in "Other" assets on the Statement of Assets and Liabilities at August 31, 2004. Appreciation/depreciation and distributions received from these investments are recorded with an offsetting increase/decrease in the deferred compensation obligation and do not affect the net asset value of the Fund. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

4. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$504,091,772 and \$573,326,164, respectively.

5. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Fund has a variety of reasons to use derivative instruments, such as to attempt to protect the Fund against possible changes in the market value of its portfolio, manage the Fund's effective yield, foreign currency exposure, maturity and duration or generate potential gain. All of the Fund's holdings, including derivative instruments, are marked to market each day with the change in value reflected in unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a forward commitment. In this instance, the recognition of gain or loss is postponed until the disposal of the security underlying the forward commitment.

Purchasing securities on a forward commitment involves a risk that the market value at the time of delivery may be lower than the agreed upon purchase price resulting in an unrealized loss. Selling securities on a forward commitment involves different risks and can result in losses more significant than those arising from the purchase of such securities. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. Upon the

Edgar Filing: VAN KAMPEN HIGH INCOME CORPORATE BOND FUND - Form N-CSR

settlement of the contract, a realized gain or loss is recognized and is included as a component of realized gain/loss on forward foreign currency contracts. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

6. DISTRIBUTION AND SERVICE PLANS

With respect to its Class A Shares, Class B Shares and Class C Shares, the Fund and its shareholders have adopted a distribution plan pursuant to Rule 12b-1 under the 1940 Act, as amended, and a service plan (collectively the "Plans"). The Plans govern payments for: the distribution of the Fund's Class A Shares, Class B Shares and Class C Shares; the provision of ongoing shareholder services with respect to such classes of shares; and maintenance of shareholder accounts with respect to such classes of shares.

Annual fees under the Plans of up to .25% of Class A average daily net assets and 1.00% each for Class B and Class C average daily net assets are accrued daily. The annual fees for Class A Shares are paid quarterly and the annual fees for Class C Shares are paid monthly. For Class B Shares, 75% of the annual fees are paid monthly, while 25% of the annual fees are paid quarterly. The amount of distribution expenses incurred by Van Kampen and not yet reimbursed ("unreimbursed receivable") was approximately \$4,118,600 and \$-0- for Class B and Class C Shares, respectively. These amounts may be recovered from future payments under the distribution plan or CDSC. To the extent the unreimbursed receivable has been fully recovered, any excess 12b-1 fees will be refunded to the Fund on a quarterly basis.

Included in the fees for the year ended August 31, 2004 are payments retained by Van Kampen of approximately \$1,356,200 and payments made to Morgan Stanley DW Inc., an affiliate of the Adviser, of approximately \$148,600.

7. INDEMNIFICATIONS

The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

8. LEGAL MATTERS

The Adviser, certain affiliates of the Adviser, certain officers of such affiliates and certain investment companies advised by the Adviser or its affiliates, including the Fund, are named

30

VAN KAMPEN HIGH INCOME CORPORATE BOND FUND

NOTES TO FINANCIAL STATEMENTS -- AUGUST 31, 2004 continued

as defendants in a number of similar class action complaints which were recently consolidated. This consolidated action also names as defendants certain individual Trustees and Directors of the named investment companies advised by affiliates of the Adviser; the complaint does not, however, name the individual Trustees of any Van Kampen funds. The consolidated amended complaint generally alleges that defendants violated their statutory disclosure obligations and fiduciary duties by failing properly to disclose (i) that the Adviser and certain affiliates of the Adviser allegedly offered economic incentives to brokers and others to recommend the funds advised by the Adviser or its affiliates to investors rather than funds managed by other companies, and (ii) that the funds advised by the Adviser or its affiliates, including the Fund, allegedly paid excessive commissions to brokers in return for their efforts to recommend these funds to investors. The complaint seeks, among other things, unspecified compensatory damages, rescissionary damages, fees and costs.

The Adviser, certain affiliates of the Adviser and certain investment companies advised by the Adviser or its affiliates are also named as defendants in a derivative suit which additionally names as defendants certain individual Trustees of the Van Kampen funds; the funds, including the Fund, are also named as nominal defendants. The complaint in the derivative action alleges that defendants gave a proprietary sales force economic incentives to promote the sale of proprietary mutual funds and that they improperly failed to disclose these economic incentives. The complaint also alleges that the Van Kampen funds paid excessive commissions to Morgan Stanley DW Inc. in connection with the sales of the funds. The complaint seeks, among other things, the removal of the current Trustees of the Van Kampen funds, rescission of the management contracts for the Van Kampen funds, disgorgement of profits by Morgan Stanley and monetary damages. This complaint has been coordinated with the consolidated complaint.

The defendants have moved to dismiss these actions and intend to otherwise vigorously defend them. While the Fund believes that it has meritorious defenses, the ultimate outcome of these matters is not presently determinable at this early stage of the litigation, and no provision has been made in the Fund's financial statements for the effect, if any, of these matters.

(e) (1) The audit committee's pre-approval policies and procedures are as follows:

JOINT AUDIT COMMITTEE
AUDIT AND NON-AUDIT SERVICES
PRE-APPROVAL POLICY AND PROCEDURES
OF THE
VAN KAMPEN FUNDS

AS ADOPTED JULY 23, 2003(1)

1. STATEMENT OF PRINCIPLES

The Audit Committee of the Board is required to review and, in its sole discretion, pre-approve all Covered Services to be provided by the Independent Auditors to the Fund and Covered Entities in order to assure that services performed by the Independent Auditors do not impair the auditor's independence from the Fund.(2)

The SEC has issued rules specifying the types of services that an independent auditor may not provide to its audit client, as well as the audit committee's administration of the engagement of the independent auditor. The SEC's rules establish two different approaches to pre-approving services, which the SEC considers to be equally valid. Proposed services either: may be pre-approved without consideration of specific case-by-case services by the Audit Committee ("general pre-approval"); or require the specific pre-approval of the Audit Committee ("specific pre-approval"). The Audit Committee believes that the combination of these two approaches in this Policy will result in an effective and efficient procedure to pre-approve services performed by the Independent Auditors. As set forth in this Policy, unless a type of service has received general pre-approval, it will require specific pre-approval by the Audit Committee (or by any member of the Audit Committee to which pre-approval authority has been delegated) if it is to be provided by the Independent Auditors. Any proposed services exceeding pre-approved cost levels or budgeted amounts will also require specific pre-approval by the Audit Committee.

For both types of pre-approval, the Audit Committee will consider whether such services are consistent with the SEC's rules on auditor independence. The Audit Committee will also consider whether the Independent Auditors are best positioned to provide the most effective and efficient services, for reasons such as its familiarity with the Fund's business, people, culture, accounting systems, risk profile and other factors, and whether the service might enhance the Fund's ability to manage or control risk or improve audit quality. All such factors will be considered as a whole, and no one factor should necessarily be determinative.

The Audit Committee is also mindful of the relationship between fees for audit and non-audit services in deciding whether to pre-approve any such services and may determine for each fiscal year, the appropriate ratio between the total amount of fees for Audit, Audit-related and Tax services for the Fund (including any Audit-related or Tax service fees for Covered Entities that were subject to pre-approval), and the total amount of fees for certain permissible non-audit services classified as All Other services for the Fund (including any such services for Covered Entities subject to pre-approval).

(1) This Joint Audit Committee Audit and Non-Audit Services Pre-Approval Policy and Procedures (the "Policy"), adopted as of the date above, supercedes and replaces all prior versions that may have been adopted from time to time.

(2) Terms used in this Policy and not otherwise defined herein shall have the meanings as defined in the Joint Audit Committee Charter.

The appendices to this Policy describe the Audit, Audit-related, Tax and All Other services that have the general pre-approval of the Audit Committee. The term of any general pre-approval is 12 months from the date of pre-approval, unless the Audit Committee considers and provides a different period and states otherwise. The Audit Committee will annually review and pre-approve the services that may be provided by the Independent Auditors without obtaining specific pre-approval from the Audit Committee. The Audit Committee will add to or subtract from the list of general pre-approved services from time to time, based on subsequent determinations.

The purpose of this Policy is to set forth the policy and procedures by which the Audit Committee intends to fulfill its responsibilities. It does not delegate the Audit Committee's responsibilities to pre-approve services performed by the Independent Auditors to management.

The Fund's Independent Auditors have reviewed this Policy and believes that implementation of the Policy will not adversely affect the Independent Auditors' independence.

2. DELEGATION

As provided in the Act and the SEC's rules, the Audit Committee may delegate either type of pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

3. AUDIT SERVICES

The annual Audit services engagement terms and fees are subject to the specific pre-approval of the Audit Committee. Audit services include the annual financial statement audit and other procedures required to be performed by the Independent Auditors to be able to form an opinion on the Fund's financial statements. These other procedures include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit. The Audit Committee will monitor the Audit services engagement as necessary, but no less than on a quarterly basis, and will also approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Fund structure or other items.

In addition to the annual Audit services engagement approved by the Audit Committee, the Audit Committee may grant general pre-approval to other

Edgar Filing: VAN KAMPEN HIGH INCOME CORPORATE BOND FUND - Form N-CSR

Audit services, which are those services that only the Independent Auditors reasonably can provide. Other Audit services may include statutory audits and services associated with SEC registration statements (on Forms N-1A, N-2, N-3, N-4, etc.), periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings.

The Audit Committee has pre-approved the following Audit services. All other Audit services not listed below must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated):

- o Statutory audits or financial audits for the Fund
- o Services associated with SEC registration statements (including new funds), periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings (e.g., comfort letters for closed-end fund offerings, consents), and assistance in responding to SEC comment letters
- o Consultations by the Fund's management as to the accounting or disclosure treatment of transactions or events and/or the actual or potential impact of final or proposed rules, standards or interpretations by the SEC, FASB, or other regulatory or standard setting

bodies (Note: Under SEC rules, some consultations may be "audit related" services rather than "audit" services)

4. AUDIT-RELATED SERVICES

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Fund's financial statements or, to the extent they are Covered Services, the Covered Entities' financial statements, or that are traditionally performed by the Independent Auditors. Because the Audit Committee believes that the provision of Audit-related services does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence, the Audit Committee may grant general pre-approval to Audit-related services. Audit-related services include, among others, accounting consultations related to accounting, financial reporting or disclosure matters not classified as "Audit services"; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; agreed-upon or expanded audit procedures related to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements under Forms N-SAR and/or N-CSR.

The Audit Committee has pre-approved the following Audit-related services. All other Audit-related services not listed below must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated):

- o Attest procedures not required by statute or regulation (including agreed upon procedures related to the Closed-End Fund asset coverage tests required by the rating agencies and/or lenders)
- o Due diligence services pertaining to potential fund mergers
- o Issuance of SAS-70 reports on internal controls of Morgan Stanley Trust Co. and MSIM Trade Operations
- o Consultations by the Fund's management as to the accounting or disclosure treatment of transactions or events and/or the actual or potential impact of final or proposed rules, standards or

interpretations by the SEC, FASB, or other regulatory or standard-setting bodies (Note: Under SEC rules, some consultations may be "audit" services rather than "audit-related" services)

- o Information systems reviews not performed in connection with the audit (e.g., application data center and technical reviews)
- o General assistance with implementation of the requirements of SEC rules or listing standards promulgated pursuant to the Sarbanes-Oxley Act
- o Audit of record keeping services performed by Morgan Stanley Trust Fund related to the New Jersey State Retirement Plan

5. TAX SERVICES

The Audit Committee believes that the Independent Auditors can provide Tax services to the Fund and, to the extent they are Covered Services, the Covered Entities, such as tax compliance, tax planning and tax advice without impairing the auditor's independence, and the SEC has stated that the Independent Auditors may provide such services. Hence, the Audit Committee believes it may grant general pre-approval to those Tax services that have historically been provided by the Independent Auditors, that the Audit Committee has reviewed and believes would not impair the independence of the Independent Auditors, and that are consistent with the SEC's rules on auditor independence. The Audit Committee will not permit the retention of the Independent Auditors in connection with a transaction initially recommended by the Independent Auditors, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Audit

Committee will consult with Director of Tax or outside counsel to determine that the tax planning and reporting positions are consistent with this policy.

Pursuant to the preceding paragraph, the Audit Committee has pre-approved the following Tax Services. All Tax services involving large and complex transactions not listed below must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated), including tax services proposed to be provided by the Independent Auditors to any executive officer or trustee/director/managing general partner of the Fund, in his or her individual capacity, where such services are paid for by the Fund (generally applicable only to internally managed investment companies):

- o U.S. federal, state and local tax planning and advice
- o U.S. federal, state and local tax compliance
- o International tax planning and advice
- o International tax compliance
- o Review of federal, state, local and international income, franchise, and other tax returns
- o Identification of Passive Foreign Investment Companies
- o Review of closed-end funds pro rata allocation of taxable income and capital gains to common and preferred shares.
- o Domestic and foreign tax planning, compliance, and advice
- o Assistance with tax audits and appeals before the IRS and similar state, local and foreign agencies
- o Tax advice and assistance regarding statutory, regulatory or administrative developments (e.g., excise tax reviews, evaluation of Fund's tax compliance function)
- o Review the calculations of taxable income from corporate actions including reorganizations related to bankruptcy filings and provide guidance related to the foregoing

Edgar Filing: VAN KAMPEN HIGH INCOME CORPORATE BOND FUND - Form N-CSR

6. ALL OTHER SERVICES

The Audit Committee believes, based on the SEC's rules prohibiting the Independent Auditors from providing specific non-audit services, that other types of non-audit services are permitted. Accordingly, the Audit Committee believes it may grant general pre-approval to those permissible non-audit services classified as All Other services that it believes are routine and recurring services, would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence.

The Audit Committee has pre-approved the following All Other services. Permissible All Other services not listed below must be specifically pre-approved by the Audit Committee (or by any member of the Audit Committee to which pre-approval has been delegated):

- o Risk management advisory services, e.g., assessment and testing of security infrastructure controls

The following is a list of the SEC's prohibited non-audit services. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these services and the applicability of exceptions to certain of the prohibitions:

- o Bookkeeping or other services related to the accounting records or financial statements of the audit client
- o Financial information systems design and implementation
- o Appraisal or valuation services, fairness opinions or contribution-in-kind reports
- o Actuarial services
- o Internal audit outsourcing services
- o Management functions
- o Human resources
- o Broker-dealer, investment adviser or investment banking services

- o Legal services
- o Expert services unrelated to the audit

7. PRE-APPROVAL FEE LEVELS OR BUDGETED AMOUNTS

Pre-approval fee levels or budgeted amounts for all services to be provided by the Independent Auditors will be established annually by the Audit Committee. Any proposed services exceeding these levels or amounts will require specific pre-approval by the Audit Committee. The Audit Committee is mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Audit Committee may determine the appropriate ratio between the total amount of fees for Audit, Audit-related, and Tax services for the Fund (including any Audit-related or Tax services fees for Covered Entities subject to pre-approval), and the total amount of fees for certain permissible non-audit services classified as All Other services for the Fund (including any such services for Covered Entities subject to pre-approval).

8. PROCEDURES

All requests or applications for services to be provided by the Independent Auditors that do not require specific approval by the Audit Committee will be submitted to the Fund's Chief Financial Officer and must include a detailed description of the services to be rendered. The Fund's Chief

Edgar Filing: VAN KAMPEN HIGH INCOME CORPORATE BOND FUND - Form N-CSR

Financial Officer will determine whether such services are included within the list of services that have received the general pre-approval of the Audit Committee. The Audit Committee will be informed on a timely basis of any such services rendered by the Independent Auditors. Requests or applications to provide services that require specific approval by the Audit Committee will be submitted to the Audit Committee by both the Independent Auditors and the Fund's Chief Financial Officer, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence.

The Audit Committee has designated the Fund's Chief Financial Officer to monitor the performance of all services provided by the Independent Auditors and to determine whether such services are in compliance with this Policy. The Fund's Chief Financial Officer will report to the Audit Committee on a periodic basis on the results of its monitoring. Both the Fund's Chief Financial Officer and management will immediately report to the chairman of the Audit Committee any breach of this Policy that comes to the attention of the Fund's Chief Financial Officer or any member of management.

9. ADDITIONAL REQUIREMENTS

The Audit Committee has determined to take additional measures on an annual basis to meet its responsibility to oversee the work of the Independent Auditors and to assure the auditor's independence from the Fund, such as reviewing a formal written statement from the Independent Auditors delineating all relationships between the Independent Auditors and the Fund, consistent with Independence Standards Board No. 1, and discussing with the Independent Auditors its methods and procedures for ensuring independence.

10. COVERED ENTITIES

Covered Entities include the Fund's investment adviser(s) and any entity controlling, controlled by or under common control with the Fund's investment adviser(s) that provides ongoing services to the Fund(s). Beginning with non-audit service contracts entered into on or after May 6, 2003, the Fund's audit committee must pre-approve non-audit services provided not

only to the Fund but also to the Covered Entities if the engagements relate directly to the operations and financial reporting of the Fund. This list of Covered Entities would include:

- o Van Kampen Investments, Inc.
- o Van Kampen Investment Advisory Corporation
