Depreciation and amortization	149.8	145.0
<b>EBITDA</b>	<b>\$ 379.1</b>	<b>\$ 457.6</b>

Dole's management evaluates and monitors performance for Dole and each of its operating segments primarily through earnings before interest expense and income taxes ( EBIT ). In addition, EBITDA is presented because management believes it is frequently used by securities analysts, investors and others in the evaluation of companies, and because certain debt covenants on Dole's outstanding debt are tied to EBITDA. EBIT is calculated by adding income taxes and interest expense to net income. In 2005, EBIT is calculated by adding income taxes, interest expense, and income from discontinued operations, net of income tax expense, to net income. EBITDA is calculated by adding income taxes, interest expense and depreciation and amortization to net income. EBIT and EBITDA are not defined under accounting principles generally accepted in the United States of America ( GAAP ) and should not be considered in isolation or as a substitute for net income and other consolidated income statement data prepared in accordance with GAAP or as a measure of Dole's profitability. Additionally, Dole's computation of EBIT and EBITDA may not be comparable to other similarly titled measures computed by other companies, because not all companies calculate EBIT and EBITDA in the same fashion. A reconciliation of net income to EBIT and EBITDA is provided in the table above.

**Revenues**

For the year ended December 31, 2005, revenues increased 10% to \$5.9 billion from \$5.3 billion in the prior year. The most significant revenue drivers were the acquisitions of Coastal Berry Company, LLC (renamed Dole Berry Company, LLC) during the fourth quarter of 2004 and Wood Holdings, Inc. (renamed Dole Packaged Frozen Foods, Inc) during the second quarter of 2004. These acquisitions increased 2005 revenues by approximately \$130 million and \$76 million, respectively, over revenues reported in 2004. Revenues also benefited from higher worldwide sales of fresh fruit, primarily for bananas and pineapples. Sales of fresh fruit also increased due to higher revenues in the Company's European ripening and distribution operations. In addition, revenues benefited from higher sales of

packaged salads and packaged foods products, primarily for FRUIT BOWLS<sup>®</sup>, canned pineapple and fruit in

*Subsequent Event:* In the first quarter of 2006, the commercial relationship substantially ended between Dole's wholly owned subsidiary, Saba Trading AB (Saba), and Saba's largest customer. Saba is a leading importer and distributor of fruit, vegetables and flowers in Scandinavia. Saba's financial results are included in Dole's fresh fruit reporting segment. Other than the expected charges described below, the loss of this customer's business is not expected to be material to Dole's ongoing earnings. In connection with this recent event, Dole plans on restructuring certain lines of Saba's business and expects to incur related charges, both in the first quarter of 2006 and in subsequent fiscal quarters. These charges are currently estimated at approximately \$18 million in the aggregate. However, the timing and exact amount of the charges are yet to be determined.
