INVESTMENT RETURNS AND PRINCIPAL VALUE WILL FLUCTUATE AND FUND SHARES, WHEN REDEEMED, MAY BE WORTH MORE OR LESS THAN THEIR ORIGINAL COST.

The returns shown in this report do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. Performance of share classes will vary due to differences in sales charges and expenses. As a result of recent market activity, current performance may vary from the figures shown. Average annual total return with sales charges includes payment of the maximum sales charge of 4.75 percent for Class A shares, a contingent deferred sales charge of 4.00 percent for Class B shares (in years one and two and declining to zero after year five), a contingent deferred sales charge of 1.00 percent for Class C shares in year one and combined Rule 12b-1 fees and service fees of up to 0.25 percent for Class A shares and up to 1.00

percent for Class B and C shares. The since inception and ten-year returns for Class B shares reflect the conversion of Class B shares into Class A shares six years after purchase. The since inception returns for Class C shares reflect the conversion of Class C shares into Class A shares ten years after purchase. Figures shown above assume reinvestment of all dividends and capital gains. Class I shares are available for purchase exclusively by investors through (i) tax-exempt retirement plans with assets of at least \$1 million (including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase plans, defined benefit plans and non-qualified deferred compensation plans), (ii) fee-based investment programs with assets of at least \$1 million and (iii) institutional clients with assets of at least \$1 million. Class I shares are offered without any sales charges on purchases or sales and do not include combined 12b-1 fees and service fees. Figures shown above assume reinvestment of all dividends and capital gains. SEC yield is a calculation for determining the amount of portfolio income, excluding non-income items as prescribed by the SEC. Yields are subject to change.

JP Morgan Global High Yield Index is a broad-based index that reflects the general performance of the global high-yield corporate debt market. Lipper High Yield Bond Fund Index is an index of funds with similar return objectives as this fund. Indexes do not include any expenses, fees or sales charges, which would lower performance. Indexes are unmanaged and should not be considered an investment. Source for index performance: Lipper Inc.

### Fund Report

FOR THE SIX-MONTH PERIOD ENDED FEBRUARY 28, 2006

### MARKET CONDITIONS

As the reporting period opened, investors confronted the possibility that Gulf Coast hurricane damage could result in a slowdown in economic growth and increased inflation. An unfavorable supply-demand outlook (large outflows from high yield mutual funds and a robust high yield bond issuance calendar), a high-profile default by auto parts manufacturer Delphi and an accounting scandal at Refco added to investors' concerns. Against this backdrop, the prices of high yield bonds moved lower in September and October. The market regained a degree of traction in November and December, however. Although a declining appetite for corporate credit risk and a rising federal funds target rate weighed on sentiment, good economic growth and an improved equity market provided support. Reflecting investors' heightened apprehension, single B rated bonds demonstrated the greatest resiliency and the lower-rated segment of the high yield market struggled most during the final months of 2005.

The high yield market started 2006 on a very positive note. Investors were increasingly heartened by economic growth data and a briskly rising equity market. In addition, investors' rekindled interest in moving further up the risk/reward spectrum provided further support to the high yield market. This improved sentiment offset less positive factors elsewhere, including a very heavy new issue calendar, rising yields in the Treasury market, rising oil prices and outflows from mutual funds. In a reversal of the trends of the final months of 2005, the riskiest segment of the high-yield market garnered the most favor with investors, as securities rated CCC and below led.

Industry returns varied across sectors, and were often influenced significantly by individual companies. Within the JP Morgan Global High Yield Index, leading sectors included telecommunications, wireless communications and services. The auto and auto-related areas of the market struggled most, as an ongoing deterioration in fundamentals exacted an extended toll. Other lagging sectors

## Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

included cable and financials.

### PERFORMANCE ANALYSIS

The fund returned 1.36 percent for the six months ended February 28, 2006 (Class A shares, unadjusted for sales charges). In comparison, the fund's benchmarks, the JP Morgan Global High Yield Index and the Lipper High Yield Bond Fund Index, returned 2.16 percent and 2.49 percent for the period, respectively.

TOTAL RETURN FOR THE SIX-MONTH PERIOD ENDED FEBRUARY 28, 2006

| CLASS A | CLASS B | CLASS C | CLASS I | JP MORGAN<br>GLOBAL<br>HIGH YIELD<br>INDEX | LIPPER HIGH<br>YIELD<br>BOND FUND<br>INDEX |
|---------|---------|---------|---------|--------------------------------------------|--------------------------------------------|
| 1.36%   | 0.97%   | 1.29%   | 1.50%   | 2.16%                                      | 2.49%                                      |

The performance for the four share classes varies because each has different expenses. The fund's total return figures assume the reinvestment of all distributions, but do not reflect the deduction of any applicable sales charges. Such costs would lower performance. Past performance is no guarantee of future results. See Performance Summary for standardized performance information and index definitions.

The fund's performance versus the JP Morgan Global High Yield Index benefited from its underweighting to the transportation sector, particularly the troubled auto and auto-related industries. In addition, good security selection in transportation, cable and chemicals also added to relative performance. In contrast, security selection in financials, forest products and building materials detracted from relative returns. Additionally, as investors' appetite for risk increased in 2006, the fund's more defensive emphasis on the upper tiers of the high yield market tempered performance.

As of the close of the reporting period, the fund's portfolio included overweightings relative to the JP Morgan Global High Yield Index in the chemicals, energy, food/tobacco and wireless communications sectors. The fund's major sector underweights included utilities, information technology, metals, housing and financials. In regards to overall credit risk, the fund is positioned defensively versus its JP Morgan benchmark. Also reflecting a defensive bias, we reduced some of the riskier positions in the fund throughout the period.

There is no guarantee that any sectors mentioned will continue to perform as discussed herein or that securities in such sectors will be held by the fund in the future.

### Expense Example

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments of Class A Shares and contingent deferred sales charge on redemptions of Class B and C Shares; and (2) ongoing costs, including management fees; distribution and service (12b-1)

6

## Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

fees; and other Fund expenses. This example is intended to help you understand your ongoing cost (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period 9/1/05 - 2/28/06.

### ACTUAL EXPENSE

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

### HYPOTHETICAL EXAMPLE FOR COMPARISON PURPOSES

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing cost of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads) or contingent deferred sales charges. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

(a) As required, effective September 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing premium on fixed income securities and presenting paydown gains and losses on mortgage- and asset-backed securities as interest income. The effect of these changes for the period ended August 31, 2002 was to decrease the ratio of net investment income to average net assets from 10.49% to 10.39%. Net investment income per share and net realized gains and losses per share were unaffected by the adjustments. Per share, ratios and supplemental data for periods prior to August 31, 2002 have not been restated to reflect this change in presentation.

(b) Based on average shares outstanding.

(c) Assumes reinvestment of all distributions for the period and does not include payment of the maximum sales charge of 4.75% or contingent deferred sales charge (CDSC). On purchases of \$1 million or more, a CDSC of 1% may be imposed on certain redemptions made within eighteen months of purchase. If the sales charges were included, total returns would be lower. These returns include Rule 12b-1 fees and service fees of up to .25% and do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

(d) The Ratio of Expenses to Average Net Assets does not reflect credits earned on cash balances. If these credits were reflected as a reduction of expenses, the ratio would decrease by .01% for the six months ended February 28, 2006.

(a) Based on average shares outstanding.

(b) Assumes reinvestment of all distributions for the period. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

(c) The Ratio of Expenses to Average Net Assets does not reflect credits earned on cash balances. If these credits were reflected as a reduction of expenses, the ratio would decrease by .01% for the six months ended February 28, 2006.

## VAN KAMPEN HIGH YIELD FUND

## NOTES TO FINANCIAL STATEMENTS -- FEBRUARY 28, 2006 (UNAUDITED)

## 1. SIGNIFICANT ACCOUNTING POLICIES

Van Kampen High Yield Fund (the "Fund"), formerly Van Kampen High Income Corporate Bond Fund, is organized as a Delaware statutory trust, and is registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (the "1940 Act"), as amended. The Fund's primary investment objective is to seek to maximize current income. Capital appreciation is a secondary objective which is sought only when consistent with the Fund's primary investment objective. The Fund commenced investment operations on October 2, 1978. The Fund offers Class A Shares, Class B Shares, Class C Shares and Class I Shares. Each class of shares differs by its initial sales load, contingent deferred sales charges, the allocation of class-specific expenses and voting rights on matters affecting a single class.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

A. SECURITY VALUATION Fixed income investments and preferred stock are stated at value using market quotations or indications of value obtained from an independent pricing service. Investments in securities listed on a securities exchange are valued at their last sale price as of the close of such securities exchange. Equity securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Unlisted securities and listed securities for which the last sales price is not available are valued at the mean of the last reported bid and asked price. For those securities where quotations or prices are not available, valuations are determined in accordance with procedures established in good faith by the Board of Trustees. Short-term securities with remaining maturities of 60 days or less are valued at amortized cost, which approximates market value. Forward foreign currency contracts are valued using quoted foreign exchange rates.

B. SECURITY TRANSACTIONS Security transactions are recorded on a trade date basis. Realized gains and losses are determined on an identified cost basis. The Fund may purchase and sell securities on a "when-issued" or "delayed delivery" basis, with settlement to occur at a later date. The value of the security so purchased is subject to market fluctuations during this period. The Fund will segregate assets with the custodian having an aggregate value at least equal to the amount of the when-issued or delayed delivery purchase commitments until payment is made. At February 28, 2006, the Fund had \$849,975 of when-issued, delayed delivery, or forward purchase commitments.

The Fund may invest in repurchase agreements, which are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. The Fund may invest independently in repurchase agreements, or transfer uninvested cash balances into a pooled cash account along with other investment companies advised by Van Kampen Asset Management (the "Adviser") or its affiliates, the daily aggregate of which is invested in repurchase agreements.

## Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make

payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

C. INCOME AND EXPENSES Interest income is recorded on an accrual basis and dividend income is recorded on the ex-dividend date. Discounts on debt securities are accreted and premiums are amortized over the expected life of each applicable security. Income and expenses of the Fund are allocated on a pro rata basis to each class of shares, except for distribution and service fees and incremental transfer agency costs which are unique to each class of shares.

D. FEDERAL INCOME TAXES It is the Fund's policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes is required.

The Fund intends to utilize provisions of the federal income tax laws which allow it to carry a realized capital loss forward for eight years following the year of the loss and offset such losses against any future realized capital gains. At August 31, 2005, the Fund had an accumulated capital loss carryforward for tax purposes of \$560,990,126 which will expire according to the following schedule:

| AMOUNT            | EXPIRATION      |
|-------------------|-----------------|
| \$ 6,411,333..... | August 31, 2006 |
| 15,213,979.....   | August 31, 2007 |

| 117,018,188.....  | August 31, 2012 |
| 32,804,299.....   | August 31, 2013 |

Part of the capital loss carryforward above was acquired due to a merger with another regulated investment company. Please see Footnote 3 for details.

At February 28, 2006, the cost and related gross unrealized appreciation and depreciation are as follows:

|                                                     |                |

| Net tax unrealized depreciation on investments..... | \$(34,754,813) |

=====

E. DISTRIBUTION OF INCOME AND GAINS The Fund declares daily and pays monthly dividends from net investment income. Net realized gains, if any, are distributed annually. Distributions from net realized gains for book purposes may include short-term capital gains which are included in ordinary income for tax purposes.

VAN KAMPEN HIGH YIELD FUND

NOTES TO FINANCIAL STATEMENTS -- FEBRUARY 28, 2006 (UNAUDITED) continued

The tax character of distributions paid during the year ended August 31, 2005 was as follows:

|                             |              |
|-----------------------------|--------------|
| Distributions paid from:    |              |
| Ordinary income.....        | \$50,502,624 |
| Long-term capital gain..... | -0-          |
| Return of capital.....      | -0-          |
|                             | -----        |
|                             | \$50,502,624 |
|                             | =====        |

As of August 31, 2005, the components of distributable earnings on a tax basis were as follows:

|                                    |             |
|------------------------------------|-------------|
| Undistributed ordinary income..... | \$3,564,658 |
|------------------------------------|-------------|

Net realized gains or losses may differ for financial reporting and tax purposes primarily as a result of the deferral of losses relating to wash sales transactions.

F. EXPENSE REDUCTIONS During the six months ended February 28, 2006, the Fund's custody fee was reduced by \$37,022 as a result of credits earned on cash balances.

G. FOREIGN CURRENCY TRANSLATION Assets and liabilities denominated in foreign currencies and commitments under forward foreign currency contracts are translated into U.S. dollars at the mean of the quoted bid and ask prices of such currencies against the U.S. dollar. Purchases and sales of portfolio securities are translated at the rate of exchange prevailing when such securities were acquired or sold. Realized gain and loss on foreign currency transactions on the Statement of Operations includes the net realized amount from the sale of foreign currency and the amount realized between trade date and settlement date on securities transactions. Income and expenses are translated at rates prevailing when accrued.

2. INVESTMENT ADVISORY AGREEMENT AND OTHER TRANSACTIONS WITH AFFILIATES

Under the terms of the Fund's Investment Advisory Agreement, the Adviser will provide investment advice and facilities to the Fund for an annual fee payable monthly as follows:

## Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

| AVERAGE DAILY NET ASSETS | % PER ANNUM |
|--------------------------|-------------|
| First \$500 million..... | .420%       |
| Next \$250 million.....  | .345        |
| Next \$250 million.....  | .295        |
| Next \$1 billion.....    | .270        |

compliance services to the Fund. The costs of these services are allocated to each fund. For the six months ended February 28, 2006, the Fund recognized expenses of approximately \$23,400 representing Van Kampen Investments Inc.'s or its affiliates' (collectively "Van Kampen") cost of providing accounting services to the Fund, as well as, the salary, benefits and related costs of the CCO and related support staff paid by Van Kampen. Services provided pursuant to the Accounting Services and CCO Employment agreement are reported as part of "Other" expenses on the Statement of Operations.

Van Kampen Investor Services Inc. (VKIS), an affiliate of the Adviser, serves as the shareholder servicing agent for the Fund. For the six months ended February 28, 2006, the Fund recognized expenses of approximately \$649,900 representing transfer agency fees paid to VKIS. Transfer agency fees are determined through negotiations with the Fund's Board of Trustees.

Certain officers and trustees of the Fund are also officers and directors of Van Kampen. The Fund does not compensate its officers or trustees who are also officers of Van Kampen.

The Fund provides deferred compensation and retirement plans for its trustees who are not officers of Van Kampen. Under the deferred compensation plan, trustees may elect to defer all or a portion of their compensation. Amounts deferred are retained by the Fund and to the extent permitted by the 1940 Act, as amended, may be invested in the common shares of those funds selected by the trustees. Investments in such funds of \$260,814 are included in "Other" assets on the Statement of Assets and Liabilities at February 28, 2006. Appreciation/depreciation and distributions received from these investments are recorded with an offsetting increase/decrease in the deferred compensation obligation and do not affect the net asset value of the Fund. Benefits under the retirement plan are payable upon retirement for a ten-year period and are based upon each trustee's years of service to the Fund. The maximum annual benefit per trustee under the plan is \$2,500.

## Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

For the six months ended February 28, 2006, Van Kampen, as Distributor for the Fund, received net commissions on sales of the Fund's Class A Shares of approximately \$51,300 and CDSC on redeemed shares of approximately \$144,900. Sales charges do not represent expenses to the Fund.

On December 17, 2004, the Fund acquired all of the assets and liabilities of the Van Kampen High Yield Fund ("High Yield") through a tax free reorganization approved by High Yield shareholders on December 7, 2004. The Fund issued 49,903,883, 21,224,359 and 7,028,101 shares of Classes A, B and C valued at \$186,141,484, \$79,591,347 and \$26,074,256, respectively, in exchange for High Yield's net assets. The shares of High Yield were converted into Fund shares at a ratio 1 to 1.515, 1 to 1.514 and 1 to 1.529 for Classes A, B and C, respectively. Net unrealized appreciation of High Yield as of December 17, 2004 was \$3,802,196. The Fund assumed High Yield's book to tax amortization differences, which resulted in a \$660,296 decrease to accumulated undistributed

net investment income and a corresponding increase to net unrealized appreciation. Shares issued in connection with this reorganization are included in proceeds from shares sold for the year ended August 31, 2005. Combined net assets of both funds on the day of reorganization were \$893,763,227. Included in these net assets was a capital loss carryforward of \$166,397,364, deferred compensation of \$155,071, the deferral of losses related to wash sale transactions of \$290,140, non-accrual interest income of \$864,492 and marked to market of \$821,478, all carried forward from the High Yield Fund.

#### 4. REDEMPTION FEE

Effective September 26, 2005, the Fund assesses a 2% redemption fee on the proceeds of Fund shares that are redeemed (either by sales or exchange) within 30 days of purchase. The redemption fee is paid directly to the Fund. For the six months ended February 28, 2006, the Fund received redemption fees of approximately \$8,000, which are reported as part of "Cost of Shares Repurchased" in the Statement of Changes in Net Assets.

#### 5. INVESTMENT TRANSACTIONS

During the period, the cost of purchases and proceeds from sales of investments, excluding short-term investments, were \$178,843,632 and \$277,727,378, respectively.

#### 6. DERIVATIVE FINANCIAL INSTRUMENTS

A derivative financial instrument in very general terms refers to a security whose value is "derived" from the value of an underlying asset, reference rate or index.

The Fund has a variety of reasons to use derivative instruments, such as to attempt to protect the Fund against possible changes in the market value of its portfolio, manage the Fund's effective yield, foreign currency exposure, maturity and duration or generate potential gain. All of the Fund's holdings, including derivative instruments, are marked to market each day with the change in value reflected in unrealized appreciation/depreciation. Upon disposition, a realized gain or loss is recognized accordingly, except when taking delivery of a security underlying a forward commitment. In this instance, the recognition of gain or loss is postponed until the disposal of the security underlying the forward commitment.

Purchasing securities or foreign currency on a forward commitment involves a risk that the market value at the time of delivery may be lower than the agreed upon purchase price resulting in an unrealized loss. Selling securities or foreign currency on a forward commitment involves different risks and can result in losses more significant than those arising from the purchase of such securities. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts.

A. FORWARD FOREIGN CURRENCY CONTRACTS A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. Upon the settlement of the contract, a realized gain or loss is recognized and is included as a component of realized gain/loss on forward foreign currency contracts. Risks may arise as a result of the potential inability of the counterparties to meet the terms of their contracts. Risks may

also arise from the unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

B. CREDIT DEFAULT SWAPS The Fund may enter into credit default swap contracts for hedging purposes or to gain exposure to a credit in which the Fund may otherwise invest. A credit default swap is an agreement between two parties to exchange the credit risk of an issuer. A buyer of a credit default swap is said to buy protection by paying periodic fees in return for a contingent payment from the seller if the issuer has a credit event such as bankruptcy, a failure to pay outstanding obligations or deteriorating credit while the swap is outstanding. A seller of a credit default swap is said to sell protection and thus collects the periodic fees and profits if the credit of the issuer remains stable or improves while the swap is outstanding but the seller in a credit default swap contract would be required to pay an agreed-upon amount,

29

VAN KAMPEN HIGH YIELD FUND

NOTES TO FINANCIAL STATEMENTS -- FEBRUARY 28, 2006 (UNAUDITED) continued

which approximates the notional amount of the swap, to the buyer in the event of an adverse credit event of the issuer. The Fund accrues for the periodic fees on swap contracts on a daily basis with the net amount accrued recorded within unrealized appreciation/depreciation of swap contracts. Upon cash settlement of the periodic fees, the net amount is recorded as realized gain/loss on swap contracts on the Statement of Operations.

Credit default swaps may involve greater risks than if a Fund had invested in the issuer directly. Credit default swaps are subject to general market risk, counterparty risk and credit risk. If there is a default by the counterparty, the Fund will have contractual remedies pursuant to the agreements related to the transaction.

### 7. DISTRIBUTION AND SERVICE PLANS

Shares of the Fund are distributed by Van Kampen Funds Inc. (the "Distributor"), an affiliate of the Adviser. The Fund has adopted a distribution plan pursuant to Rule 12b-1 under the 1940 Act, as amended, and a service plan (collectively, the "Plans") for Class A Shares, Class B Shares and Class C Shares to compensate the Distributor for the distribution, shareholder servicing and maintenance of shareholder accounts for these shares. Under the Plans, the Fund will incur annual fees of up to .25% of Class A average daily net assets and up to 1.00% each of Class B and Class C average daily net assets. These fees are accrued daily and paid to the Distributor monthly.

The amount of distribution expenses incurred by the Distributor and not yet reimbursed ("unreimbursed receivable") was approximately \$2,691,000 and \$0 for Class B and Class C Shares, respectively. These amounts may be recovered from future payments under the distribution plan or CDSC. To the extent the unreimbursed receivable has been fully recovered, the distribution fee is reduced.

### 8. LEGAL MATTERS

The Adviser, certain affiliates of the Adviser, and certain investment companies advised by the Adviser or its affiliates, including the Fund, are named as defendants in a number of similar class action complaints which were consolidated. The consolidated action also names as defendants certain individual Trustees and Directors of certain investment companies advised by affiliates of the Adviser; the complaint does not, however, name the individual

## Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

Trustees of any Van Kampen funds. The consolidated amended complaint generally alleges that defendants violated their statutory disclosure obligations and fiduciary duties by failing properly to disclose (i) that the Adviser and certain affiliates of the Adviser allegedly offered economic incentives to brokers and others to steer investors to the funds advised by the Adviser or its affiliates rather than funds managed by other companies, and (ii) that the funds advised by the Adviser or its affiliates, including the Fund, allegedly paid excessive commissions to brokers in return for their alleged efforts to steer investors to these funds. The complaint seeks, among other things, unspecified compensatory damages, rescissionary damages, fees and costs. Plaintiffs have filed a Motion for Leave to file a Supplemental Pleading that would, among other things, expand the allegations and alleged class.

The defendants have moved to dismiss this action and otherwise intend to defend it vigorously.

The Adviser and certain affiliates of the Adviser are also named as defendants in a derivative suit which additionally names as defendants certain individual Trustees of certain Van Kampen funds; the named investment companies, including the Fund, are listed as

30

nominal defendants. The complaint alleges that defendants caused the Van Kampen funds to pay economic incentives to a proprietary sales force to promote the sale of proprietary mutual funds. The complaint also alleges that the Van Kampen funds paid excessive commissions to Morgan Stanley and its affiliates in connection with the sales of the funds. The complaint seeks, among other things, the removal of the current Trustees of the funds, rescission of the management contracts for the funds, disgorgement of profits by Morgan Stanley and its affiliates and monetary damages. This complaint has been coordinated with the consolidated complaint described in the preceding paragraph. Defendants moved to dismiss the complaint and intend otherwise to vigorously defend it. Plaintiff sought leave to file a second amended derivative complaint that alleges that the Adviser permitted or recklessly disregarded market timing and late trading in its proprietary mutual funds in order to increase assets under management and fees. However, pursuant to an agreement between the parties, the plaintiff's proposed second amended derivative complaint was withdrawn and the allegations regarding market timing and late trading asserted therein were filed in a separate complaint and coordinated with other cases related to market timing that have been centralized in a federal court. The defendants moved to dismiss this matter, which motion was granted in part and denied in part. Defendants moved for reconsideration of those claims that were denied. Plaintiff subsequently dismissed the trustee defendants from the action, in exchange for the execution of a tolling agreement by the trustees permitting plaintiff to bring the same claims against the trustees at a later date should plaintiff deem necessary.

While the defendants believe that they have meritorious defenses, the ultimate outcome of these matters is not presently determinable, and no provision has been made in the Fund's financial statements for the effect, if any, of these matters.

### 9. INDEMNIFICATIONS

The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the

## Edgar Filing: VAN KAMPEN HIGH YIELD FUND - Form N-CSRS

Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.
