Chairman's  
LETTER TO SHAREHOLDERS

i Robert P. Bremner      ii Chairman of the Board

Dear Shareholders,

I write this letter in a time of continued uncertainty about the current state of the U.S. financial system and pessimism about the future of the global economy. Many have observed that the conditions that led to the crisis have built up over time and will complicate and extend the course of recovery. At the same time, government officials in the U.S. and abroad have implemented a wide range of programs to restore stability to the financial system and encourage economic recovery. History teaches us that these efforts will moderate the extent of the downturn and hasten the inevitable recovery, even though it is hard to envision that outcome in the current environment.

As you will read in this report, the continuing financial and economic problems are weighing heavily on the values of equities, real estate and fixed-income assets, and unfortunately the performance of your Nuveen Fund has been similarly affected. In addition to the financial statements, I hope that you will carefully review the Portfolio Managers Comments, the Common Share Distribution and Share Price Information and the Performance Overview sections of this report. These comments highlight the managers' pursuit of investment strategies that depend on thoroughly researched securities, diversified portfolio holdings and well established investment disciplines to achieve your Fund's investment goals. The Fund Board believes that a consistent focus on long-term investment goals provides the basis for successful investment over time and we monitor your Fund with that objective in mind.

Nuveen continues to work on resolving the auction rate preferred shares situation, but the unsettled conditions in the credit markets have slowed progress. Nuveen is actively pursuing a number of solutions, all with the goal of providing liquidity for preferred shareholders while preserving the potential benefits of leverage for common shareholders. We appreciate the patience you have shown as we have worked through the many issues involved. Please consult the Nuveen website: [www.nuveen.com](http://www.nuveen.com), for the most recent information.

On behalf of myself and the other members of your Fund's Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner  
Chairman of the Board

Portfolio Managers COMMENTS

**Nuveen Investments Closed-End Funds**

JTP, JPS, JHP

*The Nuveen Quality Preferred Income Funds are sub-advised by a team of specialists at Spectrum Asset Management, Inc., an affiliate of Principal Capital<sup>sm</sup>. Mark Lieb, Bernie Sussman and Phil Jacoby, who have more than 75 years of combined experience in the preferred securities markets, lead the team. Here Mark, Bernie and Phil talk about their management strategy and the performance of each Fund for the twelve-month period ended December 31, 2008.*

**WHAT WERE THE GENERAL ECONOMIC CONDITIONS AND MARKET TRENDS DURING THE TWELVE-MONTH PERIOD ENDED DECEMBER 31, 2008?**

The period was dominated by fears of an economic recession, triggered or exacerbated by several significant developments. The cascading effects of sub-prime mortgage defaults, constrained liquidity in the capital markets and limited lending by many financial institutions caused many investors to seek refuge in U.S. Treasury securities. These events forced some financial firms to merge, restructure or go out of business. At the same time, the U.S. government essentially took over Fannie Mae and Freddie Mac, and also intervened on behalf of the giant insurer AIG. By the end of 2008, the U.S. Treasury had disbursed approximately \$350 billion of capital to financial institutions and others under the Troubled Assets Relief Program, with indications that a like amount would be distributed in 2009.

Another indicator of economic weakness was the U.S. unemployment rate, which soared to 7.2% as of December 31, 2008, compared with 4.9% one year earlier. Practically all segments of the economy showed signs of slowing by the end of the period. During the third quarter of 2008, gross domestic product contracted to an annual rate of 0.5%, the biggest decrease since 2001. Preliminary reports for the fourth quarter showed a contraction of 3.8%, the worst showing in more than 25 years. This was mainly the result of the first decline in consumer spending since 1991 and an 18% drop in residential investment. Fortunately, inflation was not a significant factor as the Consumer Price Index rose just 0.1% in 2008. The Federal Reserve cut the widely followed short-term fed funds rate seven times during 2008, lowering the rate from 4.25% to 0-0.25% as of year end.

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

The financial services sector volatility caused by the sub-prime mortgage crisis and the subsequent liquidity crisis and credit concerns severely impacted the preferred securities market over this period. Over 70% of preferred securities come from issuers in the financial services sector, and many of these issues experienced rapid and unprecedented price declines, especially in the second half of the year. There was a significant discrepancy in performance between the \$25 par preferred sector and the \$1,000 par hybrid sector during the year. While the Merrill Lynch \$25 par Preferred Stock, Hybrid Securities index returned -9.0% during the twelve-month period ended December 31, 2008, the Barclays Capital \$1,000 par USD Capital Securities index returned -18.6%. Interestingly, after the first nine months of the year, the total return of the \$25 par and \$1,000 par indices were only 200 basis points apart. It was during the fourth quarter that the \$25 par sector outperformed significantly. The difference, in our opinion, was due primarily to liquidity concerns. While the \$25 par preferred securities universe is exchange-traded, the \$1,000 par universe is exclusively traded over-the-counter. As investors gained confidence in the financial services sector, and specifically comfortable with subordination risk in financial services, the bias was to acquire exposure through the more liquid \$25 par exchange-traded structure.

**WHAT KEY STRATEGIES WERE USED TO MANAGE THE FUNDS DURING THIS REPORTING PERIOD?**

As noted, the volatility caused by the sub-prime mortgage crisis and general illiquidity in the credit markets severely impacted preferred securities during this period. As a result, our main focus was to moderate concentration risk, and therefore we reduced credit exposure to the brokerage, regional bank and monoline insurance sectors. Although new issuance was heavy, market liquidity was extremely limited which also put downward pressure on the secondary market prices. Nonetheless, we did find a few opportunities to sell some holdings and reinvest the proceeds into deeper discount or better structured capital securities. We sold Bank of America, JPMorgan and Wells Fargo \$25 par preferreds that were currently callable and trading above \$24, and replaced them with deeper discount issues that had higher yields and, we believed, had better long-term potential. We also we were able to reduce the Funds' exposure to Countrywide by 22% when prices improved after Bank of America acquisition.

While we could not shelter the Funds' holdings from the steep valuation declines experienced by all preferred securities during this period, we did employ several risk management techniques in an effort to protect Fund shareholders from extreme market moves and the impact of leveraging within each Fund. For example, we invested in highly liquid securities such as U.S. Treasuries when the capital risk of being invested 100% in preferred securities became temporarily intolerable.

**HOW DID THE FUNDS PERFORM OVER THIS TWELVE-MONTH PERIOD?**

The performance of JTP, JPS and JHP, as well as a comparative index and benchmark, is presented in the accompanying table.

Average Annual Total Returns on Common Share Net Asset Value  
For the twelve-month period ended 12/31/2008

Past performance does not guarantee future results. Current performance may be higher or lower than the data shown.

Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares. For additional information, see the individual Performance Overview for your Fund in this report.

	<b>1-Year</b>	<b>5-Year</b>
JTP	-46.97%	-11.81%
JPS	-47.58%	-11.76%
JHP	-48.00%	-12.25%
Barclays Capital Aggregate Bond Index <sup>1</sup>	5.24%	4.65%
Comparative Benchmark <sup>2</sup>	-20.86%	-4.65%

The past calendar year proved to be a poor time to own preferred securities, as can be seen by comparing the performance of the Funds and their benchmark with the Barclays Capital Aggregate Bond Index. The Barclays Capital index often is used as one measure of bond market performance, and it covers a much more varied and comprehensive group of securities than the specific types in which these Funds invest. The Funds do not attempt to track the performance of this index, which is shown as a general reference only.

1. The Barclays Capital Aggregate Bond Index is an unmanaged index that includes all investment-grade, publicly issued, fixed-rate, dollar denominated, nonconvertible debt issues and commercial mortgage backed securities with maturities of at least one year and outstanding par values of \$150 million or more. Index returns do not include the effects of any sales charges or management fees. It is not possible to invest directly in an index.

2. Comparative benchmark performance is a blended return consisting of: 1) 55% of the Merrill Lynch Preferred Stock Hybrid Securities Index, an unmanaged index of investment-grade, exchange traded preferred stocks with outstanding market values of at least \$30 million and at least one year to maturity; and 2) 45% of the Barclays Capital Tier 1 Capital Securities Index, an unmanaged index that includes securities that can generally be viewed as hybrid fixed-income securities that either receive regulatory capital treatment or a degree of equity credit from a rating agency.

The Funds also significantly underperformed their unmanaged, unleveraged benchmark. There were several reasons for these relatively poor returns. First, most of the relative underperformance, compared to the benchmark, was due to the Funds use of financial leverage (see below).

Additionally, the Funds returns also were negatively impacted by the sale of securities in a very weak and challenging market environment in order to accommodate the redemption of a portion of each Fund s auction rate preferred securities. This decision to redeem some auction rate preferred shares and replace them with borrowings, which the Funds adviser believed was in the best long-term interests of both common and preferred shareholders, led the Funds to sell holdings that could attract buyers despite the adverse market conditions. After these sales, the Funds remaining

securities were likely to have a greater tendency to react negatively in the continued volatile market conditions.

Sector and security selection also hurt the Funds' relative performance. All three Funds held high concentrations of preferred securities issued by commercial banks, insurance companies and others in the financial services sector. Generally, these issues performed poorly over the period. The Funds owned small positions in Fannie Mae and Freddie Mac when these entities went into federal conservatorship. We were able to reduce our Washington Mutual position, but continued to own some securities issued by that institution when it went into receivership. We also owned a small position of Lehman Brothers securities when that firm went into bankruptcy. All of these small positions, while reduced from their size at the beginning of 2008, contributed to each Fund's relatively poor performance.

Not all the news was negative. On the positive side, we avoided Bear Stearns completely and were able to reduce positions in Capital One, Pulte Homes, National City Bank, Royal Bank of Scotland, Merrill Lynch, and Morgan Stanley, thereby avoiding some of the losses experienced by the securities issued by each of these firms.

#### **IMPACT OF THE FUNDS CAPITAL STRUCTURES AND LEVERAGE STRATEGIES ON PERFORMANCE**

In this generally unfavorable investment environment, the most significant factor impacting the returns of the Funds relative to the comparative benchmark was the Funds' use of financial

leverage. The Funds use leverage because their adviser believes that, over time, leveraging provides opportunities for additional income and total return for common shareholders. However, the use of leverage also can expose common shareholders to additional risk especially when market conditions are as unfavorable as they were during this period. As the prices of most securities held by the Funds declined during the year, the negative impact of these valuation changes on common share net asset value and common shareholder total return was magnified by the use of leverage.

#### **RECENT DEVELOPMENTS IN THE AUCTION RATE PREFERRED SECURITIES MARKETS**

As noted in the last shareholder report, beginning in February 2008, more shares were submitted for sale in the regularly scheduled auctions for the auction rate preferred shares issued by these Funds than there were offers to buy. This meant that these auctions failed to clear, and that many or all of the Funds auction rate preferred shareholders who wanted to sell their shares in these auctions were unable to do so. This decline in liquidity in auction rate preferred shares did not lower the credit quality of these shares, and auction rate preferred shareholders unable to sell their shares received distributions at the maximum rate applicable to failed auctions, as calculated in accordance with the pre-established terms of the auction rate preferred shares.

These developments generally have not affected the portfolio management or investment policies of these Funds. However, one continuing implication for common shareholders of these auction failures is that the Funds cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds future common share earnings may be lower than they otherwise might have been.

As noted in the last shareholder report, the Funds Board of Trustees has authorized a program to redeem portions of each Fund's FundPreferred shares and replace those shares in each Fund's capital structure with borrowings.

As of December 31, 2008, JTP, JPS and JHP had redeemed and/or noticed for redemption \$375,125,000, \$670,000,000 and \$147,900,000, respectively, FundPreferred shares, (85.3%, 83.8% and 89.1%, respectively, of their original outstanding FundPreferred shares of \$440,000,000, \$800,000,000 and \$166,000,000, respectively), and had \$64,875,000, \$130,000,000 and \$18,100,000, respectively, FundPreferred shares still outstanding. While the Funds Board and management continue to work to resolve this situation, the Funds cannot provide any assurance on when the remaining outstanding FundPreferred shares might be redeemed.

Common Share  
Distribution and Share Price

INFORMATION

The information below regarding your Fund's distributions is current as of December 31, 2008, and likely will vary over time based on each Fund's investment activities and portfolio investment value changes.

All three Funds reduced their monthly distributions to common shareholders three times over the course of 2008. Some of the factors affecting these distributions are summarized below.

The Funds employed financial leverage through the issuance of Fund Preferred shares and borrowings. Financial leverage provides the potential for higher earnings (net investment income), total returns and distributions over time, but as noted earlier also increases the variability of common shareholders' net asset value per share in response to changing market conditions. Over the reporting period, the impact of financial leverage on the Funds' net asset value per share contributed positively to the income return and detracted from the price return. The overall impact of financial leverage detracted from the Funds' total return.

During certain periods, the Funds may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Funds during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of earnings, the excess constitutes negative UNII that is likewise reflected in a Fund's NAV. As of December 31, 2008, JTP had a positive UNII balance for financial statement purposes and a zero balance for tax purposes. JPS had positive UNII balances for both financial statement and tax purposes. JHP had a negative UNII balance for financial statement purposes and a zero balance for tax purposes.

The following table provides information regarding each Fund's common share distributions and total return performance for the fiscal year ended December 31, 2008. This information is intended to help you better understand whether the Funds' returns for the specified time period were sufficient to meet each Fund's distributions.

**The Board of Trustees and Shareholders  
Nuveen Quality Preferred Income Fund  
Nuveen Quality Preferred Income Fund 2  
Nuveen Quality Preferred Income Fund 3**

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen Quality Preferred Income Fund, Nuveen Quality Preferred Income Fund 2 and Nuveen Quality Preferred Income Fund 3 (the Funds ) as of December 31, 2008, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2008, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen Quality Preferred Income Fund, Nuveen Quality Preferred Income Fund 2 and Nuveen Quality Preferred Income Fund 3 at December 31, 2008, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended and the financial highlights for each of the periods indicated therein in conformity with US generally accepted accounting principles.

Notes to  
FINANCIAL STATEMENTS

**1. General Information and Significant Accounting Policies**

The funds covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen Quality Preferred Income Fund (JTP), Nuveen Quality Preferred Income Fund 2 (JPS) and Nuveen Quality Preferred Income Fund 3 (JHP) (collectively, the Funds). The Funds are registered under the Investment Company Act of 1940, as amended, as non-diversified, closed-end management investment companies.

Each Fund seeks to provide high current income consistent with capital preservation by investing primarily in a portfolio of preferred securities, debt securities, including convertible debt securities, and convertible preferred securities.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with US generally accepted accounting principles.

*Investment Valuation*

Exchange-listed securities are generally valued at the last sales price on the securities exchange on which such securities are primarily traded. Securities traded on a securities exchange for which there are no transactions on a given day or securities not listed on a securities exchange are valued at the mean of the closing bid and asked prices. Securities traded on NASDAQ are valued at the NASDAQ Official Closing Price. Futures contracts are valued using the closing settlement price or, in the absence of such a price, at the mean of the bid and asked prices. The prices of fixed-income securities and interest rate swap contracts are generally provided by an independent pricing service approved by the Funds Board of Trustees. When market price quotes are not readily available, the pricing service or, in the absence of a pricing service for a particular investment or derivative instrument, the Board of Trustees of the Funds, or its designee, may establish fair value using a wide variety of market data including yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. Short-term investments are valued at amortized cost, which approximates value.

*Investment Transactions*

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At December 31, 2008, there were no such outstanding purchase commitments in any of the Funds.

*Investment Income*

Dividend income is recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also includes paydown gains and losses, if any.

*Income Taxes*

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Further, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

*Dividends and Distributions to Common Shareholders*

Dividends to Common shareholders are declared monthly. Net realized capital gains from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal corporate income tax regulations, which may differ from US generally accepted accounting principles.

*FundPreferred Shares*

The Funds have issued and outstanding FundPreferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's FundPreferred shares are issued in more than one Series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. As of December 31, 2008, the number of FundPreferred shares outstanding, by Series and in total, for each Fund is as follows:

	<b>Quality Preferred Income (JTP)</b>	<b>Quality Preferred Income 2 (JPS)</b>	<b>Quality Preferred Income 3 (JHP)</b>
Number of shares:			
Series M	519	780	362
Series T	519	780	
Series T2		650	
Series W	519	780	
Series TH	519	780	362
Series TH2		650	
Series F	519	780	
Total	2,595	5,200	724

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the FundPreferred shares issued by the Funds than there were offers to buy. This meant that these auctions failed to clear, and that many FundPreferred shareholders who wanted to sell their shares in these auctions were unable to do so. FundPreferred shareholders unable to sell their shares received distributions at the maximum rate applicable to failed auctions as calculated in accordance with the pre-established terms of the FundPreferred shares.

These developments have generally not affected the portfolio management or investment policies of the Funds. However, one implication of these auction failures for Common shareholders is that the Funds' cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future Common share earnings may be lower than they otherwise would have been.

As of December 31, 2008, Quality Preferred Income (JTP), Quality Preferred Income 2 (JPS) and Quality Preferred Income 3 (JHP) have redeemed and/or noticed for redemption \$375,125,000, \$670,000,000 and \$147,900,000 of their outstanding FundPreferred shares at liquidation value, respectively.

*Foreign Currency Transactions*

Each Fund is authorized to engage in foreign currency exchange transactions, including foreign currency forward, futures options and swap contracts. To the extent that a Fund invests in securities and/or contracts that are denominated in a currency other than U.S. dollars, the Fund will be subject to currency risk, which is the risk that an increase in the U.S. dollar relative to the foreign currency will reduce returns or portfolio value. Generally, when the U.S. dollar rises in value against a foreign currency, the Fund's investments denominated in that currency will lose

value because its currency is worth fewer U.S. dollars; the opposite effect occurs if the U.S. dollar falls in relative value. Investments and other assets and liabilities denominated in foreign currencies are converted into U.S. dollars on a spot (i.e. cash) basis at the spot rate prevailing in the foreign currency exchange market at the time of valuation. Purchases and sales of investments and dividend and interest income denominated in foreign currencies are translated into U.S. dollars on the respective dates of such transactions.

The books and records of the Funds are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at 4:00 p.m. Eastern time. Investments and income and expenses are translated on the respective dates of such transactions. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date of the transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of a Fund and the amounts actually received.

Notes to  
FINANCIAL STATEMENTS (continued)

The realized and unrealized gains or losses resulting from changes in foreign exchange rates are included in Net realized gain (loss) from investments and foreign currency and Change in net unrealized appreciation (depreciation) of investments and foreign currency on the Statement of Operations.

*Futures Contracts*

Each Fund is authorized to invest in futures contracts. Upon entering into a futures contract, a Fund is required to deposit with the broker an amount of cash or liquid securities equal to a specified percentage of the contract amount. This is known as the initial margin. Subsequent payments (variation margin) are made or received by a Fund each day, depending on the daily fluctuation of the value of the contract.

During the period the futures contract is open, changes in the value of the contract are recognized as an unrealized gain or loss by marking-to-market on a daily basis to reflect the changes in market value of the contract. When the contract is closed or expired, a Fund records a realized gain or loss equal to the difference between the value of the contract on the closing date and the value of the contract when originally entered into. Cash held by the broker to cover initial margin requirements on open futures contracts, if any, is recognized on the Statement of Assets and Liabilities. Additionally, the Statement of Assets and Liabilities reflects a receivable or payable for the variation margin when applicable. During the fiscal year ended December 31, 2008, each Fund invested in futures contracts. As of December 31, 2008, there were no outstanding futures contracts in any of the Funds.

Risks of investments in futures contracts include the possible adverse movement of the securities or indices underlying the contracts, the possibility that there may not be a liquid secondary market for the contracts and/or that a change in the value of the contract may not correlate with a change in the value of the underlying securities or indices.

*Interest Rate Swap Transactions*

Each Fund is authorized to invest in interest rate swap transactions. Each Fund's use of interest rate swap transactions is intended to mitigate the negative impact that an increase in short-term interest rates could have on Common share net earnings as a result of leverage. Interest rate swap transactions involve each Fund's agreement with the counterparty to pay or receive a fixed rate payment in exchange for the counterparty receiving or paying a variable rate payment that is intended to approximate each Fund's variable rate payment obligation on Fund Preferred shares or any variable rate borrowing. The payment obligation is based on the notional amount of the interest rate swap contract. Interest rate swaps do not involve the delivery of securities or other underlying assets or principal. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the net amount of interest payments that each Fund is to receive. Interest rate swap positions are valued daily.

*Market and Credit Risk*

In the normal course of business the Funds invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (credit risk). Similar to credit risk, the Funds may be exposed to counterparty risk, or the risk that an institution or other entity with which the Funds have unsettled or open transactions will default. The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose the Funds to credit risk, consist principally of cash due from counterparties on forward, option and swap transactions. The extent of the Funds' exposure to credit and counterparty risks in respect to these financial assets

approximates their carrying value as recorded on the Statement of Assets and Liabilities.

The Funds help manage credit risk by entering into agreements only with counterparties Nuveen Asset Management (the Adviser ), a wholly-owned subsidiary of Nuveen Investments Inc. ( Nuveen ), believes have the financial resources to honor their obligations and by having the Adviser continually monitor the financial stability of the counterparties. Additionally, all counterparties are required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of the Funds with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when the Funds have an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the predetermined threshold amount.

*Repurchase Agreements*

In connection with transactions in repurchase agreements, it is the Funds policy that its custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including

accrued interest, at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral may be delayed or limited.

*Custodian Fee Credit*

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

*Indemnifications*

Under the Funds' organizational documents, their Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

*Use of Estimates*

The preparation of financial statements in conformity with US generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

**2. Fair Value Measurements**

During the current fiscal period, the Funds adopted the provisions of Statement of Financial Accounting Standards No. 157 (SFAS No. 157) Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosure about fair value measurements. In determining the value of the Funds' investments various inputs are used. These inputs are summarized in the three broad levels listed below:

- Level 1 Quoted prices in active markets for identical securities.
- Level 2 Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of each Fund's fair value measurements as of December 31, 2008:

**3. Fund Shares**

*Common Shares*

On July 30, 2008, the Funds' Board of Trustees approved an open-market share repurchase program under which each Fund may repurchase an aggregate of up to approximately 10% of their outstanding Common shares. The Funds did not repurchase any of their Common shares during the fiscal year ended December 31, 2008.

**5. Income Tax Information**

The following information is presented on an income tax basis based on the information currently available to the Funds. Differences between amounts for financial statement and federal income tax purposes are primarily due to recognition of premium amortization, recognition of income on REIT investments, timing differences in the recognition of income and timing differences in recognizing certain gains and losses on investment transactions. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At December 31, 2008, the cost of investments was as follows:

	<b>Quality Preferred Income (JTP)</b>	<b>Quality Preferred Income 2 (JPS)</b>	<b>Quality Preferred Income 3 (JHP)</b>
Cost of investments	\$805,226,852	\$1,596,851,133	\$286,251,694

Gross unrealized appreciation and gross unrealized depreciation of investments at December 31, 2008, were as follows:

	<b>Quality Preferred Income (JTP)</b>	<b>Quality Preferred Income 2 (JPS)</b>	<b>Quality Preferred Income 3 (JHP)</b>
Gross unrealized:			
Appreciation	\$ 834,170	\$ 823,174	\$ 103,944

The tax components of undistributed net ordinary income and net long-term capital gains at July 31, 2008, the Funds last tax year end, were as follows:

	<b>Quality Preferred Income (JTP)</b>	<b>Quality Preferred Income 2 (JPS)</b>	<b>Quality Preferred Income 3 (JHP)</b>
Undistributed net ordinary income *	\$	\$ 4,383,008	\$
Undistributed net long-term capital gains			

\* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any. Undistributed net ordinary income (on a tax basis) has not been reduced for the dividend declared July 1, 2008 and paid August 1, 2008.

Notes to  
FINANCIAL STATEMENTS (continued)

The tax character of distributions paid during the Funds' tax years ended July 31, 2008 and July 31, 2007, was designated for purposes of the dividends paid deduction as follows:

	<b>Quality Preferred Income (JTP)</b>	<b>Quality Preferred Income 2 (JPS)</b>	<b>Quality Preferred Income 3 (JHP)</b>
<b>July 31, 2008</b>			
Distributions from net ordinary income *	\$81,814,496	\$157,748,595	\$30,899,873

Distributions from net long-term capital gains		6,399,646	
Tax return of capital	6,091,299	4,179,641	2,322,309

\* Net ordinary income consists of net taxable income derived from dividends, interest and net short-term capital gains, if any.

At July 31, 2008, the Funds' last tax year end, the Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

	<b>Quality Preferred Income (JTP)</b>	<b>Quality Preferred Income 2 (JPS)</b>	<b>Quality Preferred Income 3 (JHP)</b>
Expiration:			
July 31, 2011	\$16,197,046	\$	\$

July 31, 2016	14,951,415	19,410,408	8,151,820
<b>Total</b>	<b>\$32,149,242</b>	<b>\$ 19,410,408</b>	<b>\$9,206,457</b>

The Funds have elected to defer net realized losses from investments incurred from November 1, 2007 through July 31, 2008, the Funds' last tax year end, ( post-October losses ) in accordance with federal income tax regulations. Post-October losses are treated as having arisen on the first day of the following fiscal year:

	<b>Quality Preferred Income (JTP)</b>	<b>Quality Preferred Income 2 (JPS)</b>	<b>Quality Preferred Income 3 (JHP)</b>
Post-October capital losses	\$31,450,620	\$37,015,747	\$23,098,200

Calculation of certain of the amounts presented above (namely, undistributed net ordinary income for tax purposes) involves the application of complex aspects of the Internal Revenue Code to certain securities held by the Funds. In calculating the amount of taxable income derived from these securities, management made assumptions as to the correct tax treatment of certain of those securities and made estimates about the tax characteristics of income received from those securities, based on information currently available to the Funds. The use of these assumptions and estimates will not affect the qualification of the Funds as regulated investment companies under Subchapter M of the Internal Revenue Code, nor is it expected that these assumptions and estimates will be used in computing taxable income for purposes of preparing the federal and state income and excise tax returns.

#### **6. Management Fees and Other Transactions with Affiliates**

Each Fund's management fee is separated into two components – a complex-level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund-level component, based only on the amount of assets within each individual Fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily Managed Assets of each Fund as follows:

<b>Average Daily Managed Assets</b>	<b>Fund-Level Fee Rate</b>
For the first \$500 million	.7000%
For the next \$500 million	.6750
For the next \$500 million	.6500
For the next \$500 million	.6250
For Managed Assets over \$2 billion	.6000

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the following table. As of December 31, 2008, the complex-level fee rate was .2000%.

The complex-level fee schedule is as follows:

<b>Complex-Level Asset Breakpoint Level <sup>(1)</sup></b>	<b>Effective Rate at Breakpoint Level</b>
\$55 billion	.2000%
\$56 billion	.1996
\$57 billion	.1989
\$60 billion	.1961
\$63 billion	.1931
\$66 billion	.1900
\$71 billion	.1851
\$76 billion	.1806
\$80 billion	.1773
\$91 billion	.1691
\$125 billion	.1599
\$200 billion	.1505
\$250 billion	.1469
\$300 billion	.1445

- (1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate daily net assets of all Nuveen funds, with such daily net assets to include assets attributable to preferred stock issued by or borrowings such funds ( Managed Assets ) but to exclude assets attributable to investments in other Nuveen funds.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into Sub-Advisory Agreements with Spectrum Asset Management, Inc. ( Spectrum ), under which Spectrum manages the investment portfolios of the Funds. Spectrum is compensated for its services to the Funds from the management fees paid to the Adviser. Spectrum also receives compensation on certain portfolio transactions for providing brokerage services to the Funds.

The Funds pay no compensation directly to those of its Trustees who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of

Edgar Filing: NUVEEN QUALITY PREFERRED INCOME FUND 2 - Form N-CSR

Trustees has adopted a deferred compensation plan for independent Trustees that enables Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised funds.

For the first eight years of Quality Preferred Income s (JTP) operations, the Adviser has agreed to reimburse the Fund, as a percentage of average daily Managed Assets, for fees and expenses in the amounts and for the time periods set forth below:

## 7. Borrowing Arrangements

The Funds entered into the borrowing arrangements described below to redeem, along with available cash, its outstanding FundPreferred shares at liquidation value.

*Quality Preferred Income (JTP)*

On August 15, 2008, Quality Preferred Income (JTP) drew \$200 million of its \$225 million prime brokerage facility with Credit Suisse Securities (USA) ( Credit Suisse ). On November 5, 2008 the Fund paid down the entire borrowing. For the period August 15, 2008 through November 5, 2008 the average daily balance outstanding and average interest rate on this borrowing arrangement were \$88,030,723 and 3.90%, respectively. Interest was charged at LIBOR (London Inter-bank Offered Rate) plus an agreed upon spread. In addition to interest, the Fund also paid a .25% one time arrangement fee of the total borrowing limit which was fully amortized and expensed as of December 31, 2008.

On December 16, 2008, the Fund drew \$100 million of its \$155 million committed facility agreement with BNP Paribas Prime Brokerage, Inc. ( BNP). As of December 31, 2008, the outstanding balance on this facility was \$86,500,000. For the period December 16, 2008 through December 31, 2008, the average daily balance outstanding and average interest rate on this borrowing arrangement were \$97,468,750 and 2.47%, respectively. Interest is charged at LIBOR plus an agreed upon spread on the amount borrowed and .60% on the undrawn balance. In addition to interest, the Fund also paid a .15% one time arrangement fee of the total borrowing limit which will be fully amortized and expensed as of May 30, 2009.

*Quality Preferred Income 2 (JPS)*

On August 15, 2008, Quality Preferred Income 2 (JPS) drew the maximum \$430 million of its prime brokerage facility with Credit Suisse. On December 9, 2008 the Fund paid down the entire borrowing. For the period August 15, 2008 through December 9, 2008, the average daily balance outstanding and average interest rate on this borrowing arrangement were \$154,559,795 and 3.43%, respectively. Interest was charged at LIBOR plus an agreed upon spread. In addition to interest, the Fund also paid a .25% one time arrangement fee of the total borrowing limit which was fully amortized and expensed as of December 31, 2008.

On December 16, 2008, the Fund drew \$190 million of its \$230 million committed facility agreement with BNP. As of December 31, 2008, the outstanding balance of this facility was \$165,200,000. For the period December 16, 2008 through December 31, 2008, the average daily balance outstanding and average interest rate on this borrowing arrangement were \$185,350,000 and 2.47%, respectively. Interest is charged at LIBOR plus an agreed upon spread on the amount borrowed and .60% on the undrawn balance. In addition to interest, the Fund also paid a .15% one time arrangement fee of the total borrowing limit which will be fully amortized and expensed as of May 30, 2009.

*Quality Preferred Income 3 (JHP)*

On August 15, 2008, Quality Preferred Income 3 (JHP) drew \$50 million of its \$75 million prime brokerage facility with Credit Suisse. On October 14, 2008 the Fund paid down the entire borrowing. During the period August 15, 2008 through October 14, 2008 the average daily balance outstanding and average interest rate on this borrowing arrangement were \$25,926,667 and 3.84%, respectively. Interest was charged at LIBOR plus an agreed upon spread. In addition to interest, the Fund also paid a .25% one time arrangement fee of the total borrowing limit which was fully amortized and expensed as of December 31, 2008.

On December 16, 2008, the Fund drew \$35 million of its \$55 million committed facility agreement with BNP. As of December 31, 2008, the outstanding balance of this facility was \$33 million. For the period December 16, 2008 through December 31, 2008, the average daily balance outstanding and average interest rate on this borrowing arrangement were \$34,625,000 and 2.47%, respectively. Interest is charged at LIBOR plus an agreed upon spread on the amount borrowed and .60% on the undrawn balance. In addition to interest, the Fund also paid a .15% one time arrangement fee of the total borrowing limit which will be fully amortized and expensed as of May 30, 2009.

In order to maintain these borrowing facilities, the Funds must meet certain collateral, asset coverage and other requirements. Borrowings outstanding are fully secured by securities held in the Funds' Portfolios of Investments.

Interest expense incurred on each Fund's drawn and undrawn balances and the one time arrangement fees are recognized as Interest expense on borrowings and amortization of borrowing costs on the Statement of Operations.

**8. New Accounting Pronouncement**

*Financial Accounting Standards Board Statement of Financial Accounting Standards No. 161 (SFAS No. 161)*

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities. This standard is intended to enhance financial statement disclosures for derivative instruments and hedging activities and enable investors to understand: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. As of December 31, 2008, management does not believe the adoption of SFAS No. 161 will impact the financial statement amounts; however, additional footnote disclosures may be required about the use of derivative instruments and hedging items.

\* Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

\*\* After custodian fee credit and expense reimbursement, where applicable.

\*\*\* Annualized.

The amounts shown are based on Common share equivalents.

Ratios do not reflect the effect of dividend payments to FundPreferred shareholders.

Income ratios reflect income earned on assets attributable to FundPreferred shares and borrowings, where applicable.

Each ratio includes the effect of the interest expense paid on borrowings as follows:

- (1) Board Members serve three year terms, except for two board members who are elected by the holders of Preferred Shares. The Board of Trustees is divided into three classes, Class I, Class II, and Class III, with each being elected to serve until the third succeeding annual shareholders meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed, except two board members are elected by the holders of Preferred Shares to serve until the next annual shareholders meeting subsequent to its election or thereafter in each case when its respective successors are duly elected or appointed. The first year elected or appointed represents the year in which the board member was first elected or appointed to any fund in the Nuveen Complex.
- (2) Mr. Amboian is an interested trustee because of his position with Nuveen Investments, Inc. and certain of its subsidiaries, which are affiliates of the Nuveen Funds.
- (3) Nuveen Advisory Corp. and Nuveen Institutional Advisory Corp. were reorganized into Nuveen Asset Management, effective January 1, 2005.
- (4) Officers serve one year terms through July of each year. The year first elected or appointed represents the year in which the Officer was first elected or appointed to any fund in the Nuveen Complex.

Reinvest Automatically  
EASILY and CONVENIENTLY

**Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.**

#### **Nuveen Closed-End Funds Dividend Reinvestment Plan**

Your Nuveen Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional Fund shares.

By choosing to reinvest, you will be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

#### **Easy and convenient**

To make recordkeeping easy and convenient, each month you will receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

#### **How shares are purchased**

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

**Flexible**

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

**Call today to start reinvesting dividends and/or distributions**

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Glossary of  
TERMS USED in this REPORT

- n ***Average Annual Total Return:*** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
- n ***Current Distribution Rate (also known as Market Yield, Dividend Yield or Current Yield):*** Current distribution rate is based on the Fund's current annualized monthly distribution divided by the Fund's current market price. The Fund's monthly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Fund's cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a tax return of capital.
- n ***Net Asset Value (NAV):*** A Fund's NAV per common share is calculated by subtracting the liabilities of the Fund (including any Preferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of common shares outstanding. Fund NAVs are calculated at the end of each business day.

**ITEM 2. CODE OF ETHICS.**

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at [www.nuveen.com/CEF/Info/Shareholder/](http://www.nuveen.com/CEF/Info/Shareholder/). (To view the code, click on Fund Governance and then click on Code of Conduct.)

**ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.**

The registrant's Board of Directors or Trustees determined that the registrant has at least one audit committee financial expert (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, Chairman of the Audit Committee, who is independent for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser (SCI). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the CFO) and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

**ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.****NUVEEN QUALITY PREFERRED INCOME FUND 2**

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the pre-approval exception). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

1     Audit Fees are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.

2     Audit Related Fees are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under Audit Fees.

3     Tax Fees are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.

4     All Other Fees are the aggregate fees

billed for products and services for agreed upon procedures engagements performed for leveraged funds.

**SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS**

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management ( "NAM" or the "Adviser" ), and any entity controlling, controlled by or under common control with NAM ( "Control Affiliate" ) that provides ongoing services to the Fund ( "Affiliated Fund Service Provider" ), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

## NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. The Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the de minimis exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

Fiscal Year Ended	Total Non-Audit Fees Billed to Fund	Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (engagements related directly to the operations and financial reporting of the Fund)		Total Non-Audit Fees billed to Adviser and Affiliated Fund Service Providers (all other engagements)	Total
December 31, 2008	\$ 7,100	\$ 0	\$ 0	\$ 0	\$7,100
December 31, 2007	\$ 5,300	\$ 0	\$ 0	\$ 0	\$5,300

Non-Audit Fees billed to Adviser for both fiscal year ends represent Tax Fees billed to Adviser in their respective amounts from the previous table.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

## ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board of Directors or Trustees has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Jack B. Evans, David J. Kundert and William J. Schneider.

## ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The Adviser has engaged Spectrum Asset Management, Inc. (Spectrum) (the Sub-Adviser) as Sub-Adviser to provide discretionary investment advisory services. As part of these services, the Adviser has also delegated to the

Sub-Adviser the full responsibility for proxy voting and related duties in accordance with the Sub-Adviser's policies and procedures. The Adviser periodically will monitor the Sub-Adviser's voting to ensure that they are carrying out their duties. The Sub-Adviser's proxy voting policies and procedures are summarized as follows:

#### SPECTRUM

Spectrum has adopted a Policy on Proxy Voting for Investment Advisory Clients (the "Voting Policy"), which provides that Spectrum aims to ensure that, when delegated proxy voting authority by a client, Spectrum act (1) solely in the interest of the client in providing for ultimate long-term stockholder value, and (2) without undue influence from individuals or groups who may have an economic interest in the outcome of a proxy vote. Spectrum relies on the custodian bank to deliver proxies to Spectrum for voting.

Spectrum has selected Risk Metrics Group (formerly Institutional Shareholder Services, Inc.) ("RMG") to assist with Spectrum's proxy voting responsibilities. Spectrum generally follows RMG standard proxy voting guidelines which embody the positions and factors Spectrum considers important in casting proxy votes. In connection with each proxy vote, RMG prepares a written analysis and recommendation based on its guidelines. In order to avoid any conflict of interest for RMG, the CCO will require RMG to deliver additional information or certify that RMG has adopted policies and procedures to detect and mitigate such conflicts of interest in issuing voting recommendations. Spectrum also may obtain voting recommendations from two proxy voting services as an additional check on the independence of RMG's voting recommendations.

Spectrum may, on any particular proxy vote, diverge from RMG's guidelines or recommendations. In such a case, Spectrum's Voting Policy requires that: (i) the requesting party document the reason for the request; (ii) the approval of the Chief Investment Officer; (iii) notification to appropriate compliance personnel; (iv) a determination that the decision is not influenced by any conflict of interest; and (v) a written record of the process.

When Spectrum determines not to follow RMG's guidelines or recommendations, Spectrum classifies proxy voting issues into three broad categories: (1) Routine Administrative Items; (2) Special Interest Issues; and (3) Issues having the Potential for Significant Economic Impact, and casts proxy votes in accordance with the philosophy and decision guidelines developed for that category in the Voting Policy.

**Routine Administrative Items.** Spectrum is willing to defer to management on matters a routine administrative nature. Examples of issues on which Spectrum will normally defer to management's recommendation include selection of auditors, increasing the authorized number of common shares and the election of unopposed directors.

**Special Interest Issues.** In general, Spectrum will abstain from voting on shareholder social, political, environmental proposals because their long-term impact on share value cannot be calculated with any reasonable degree of confidence.

**Issues Having the Potential for Significant Economic Impact.** Spectrum is not willing to defer to management on proposals which have the potential for major economic impact on the corporation and value of its shares and believes such issues should be carefully analyzed and decided by shareholders. Examples of such issues are classification of board of directors' cumulative voting and supermajority provisions, defensive strategies (e.g., greenmail prevention), business combinations and restructurings and executive and director compensation.

**Conflicts of Interest.** There may be a material conflict of interest when Spectrum votes, on behalf of a client, a proxy that is solicited by an affiliated person of Spectrum or another Spectrum client. To avoid such conflicts, Spectrum has established procedures under its Voting Policy to seek to ensure that voting decisions are based on a client's best interests and are not the product of a material conflict. In addition to employee monitoring for potential conflicts, the CCO reviews Spectrum's and its affiliates' material business relationships and personal and financial relationships of senior personnel of Spectrum and its affiliates to monitor for conflicts of interest.

If a conflict of interest is identified, Spectrum considers both financial and non-financial materiality to determine if a conflict of interest is material. If a material conflict of interest is found to exist, the CCO discloses the conflict to affected clients and obtains consent from each client in the manner in which Spectrum proposed to vote.

Spectrum clients can obtain a copy of the Voting Policy or information on how Spectrum voted their proxies by calling Spectrum's Compliance Department at (203) 322-0189.
