Report of Independent Registered Public Accounting Firm

To the Participants and Administrator
of the Flowers Foods, Inc.
401(k) Retirement Savings Plan

In our opinion, the accompanying statement of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Flowers Foods, Inc. 401(k) Retirement Savings Plan at December 31, 2003 and 2002, and the changes in net assets available for benefits for each of the three years in the period ended December 31, 2003, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of Assets Held for Investment Purposes is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Flowers Foods, Inc.
401(k) Retirement Savings Plan
Notes to Financial Statements
December 31, 2003 and 2002

1. Description of the Plan

The following description of the Flowers Foods, Inc. 401(k) Retirement Savings Plan (the Plan) provides general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Effective April 1, 1995, Flowers Industries, Inc. and subsidiaries established the Plan. The Plan is a defined contribution plan covering all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On March 26, 2001, the Flowers Industries, Inc. (FII) shareholders approved a transaction that resulted in the spin-off of Flowers Foods, Inc. (the Company) and the merger of FII with a wholly-owned subsidiary of the Kellogg Company (Kellogg). In the transaction, FII transferred the stock of its two wholly-owned subsidiaries, Flowers Bakeries, Inc. (Flowers Bakeries) and Mrs. Smith's Bakeries, Inc. (Mrs. Smith's Bakeries), and all other assets and liabilities directly held by FII (except for its majority interest in Keebler Foods Company (Keebler) and certain debt, other liabilities and transaction costs) to the Company. The Company distributed all of its outstanding shares of common stock to existing shareholders such that the Company's shareholders received one share of the Company's stock for every five shares of FII's stock they owned. Additionally, each shareholder received \$12.50 for every share of FII's stock they owned. On March 26, 2001, the Plan owned 210,006 of common stock, which was replaced by approximately 43,801 shares of the Company's common stock. FII, which consisted solely of its majority interest in Keebler and the aforementioned liabilities, was simultaneously merged with a wholly-owned subsidiary of Kellogg.

On March 26, 2001, Flowers Foods, Inc. assumed the Plan and became the Plan's sponsor as a result of the transaction mentioned above. Additionally, the Plan's name changed from Flowers Industries, Inc. 401(k) Retirement Savings Plan to Flowers Foods, Inc. 401(k) Retirement Savings Plan.

On November 1, 2002, the plan administrator and trustee changed to Putnam Investments. The previous plan administrator and trustee were Towers Perrin and State Street Corporation, respectively.

Eligibility for Participation

Prior to April 1, 2001, an employee was eligible to participate in the Plan on the first day of the calendar month following completion of twelve consecutive months of employment during which the employee completed at least 1,000 hours of service. Upon attaining eligibility status, participation in the Plan is voluntary.

Effective April 1, 2001, employees are identified as eligible or ineligible to participate in the Plan depending on the length of the employee's employment with the Company as tracked in the system by eligibility hours. Employees are eligible to participate in the Plan starting the first pay period following a 90-day waiting period. Those employees that had already attained the requisite 90 days of continuous employment at April 1, 2001 were automatically eligible to participate in the Plan.

Contributions

Effective January 1, 2002, allowable employee contributions was increased to 100 percent of the participant's available pay, up to the IRS maximum amounts.

The Company provides matching contributions which generally are equal to 25-50% of the participant's elective contributions and provides basic contributions for eligible employees of the company at specified locations as described within the plan documents. Basic contribution amounts are typically 2% of an employee's compensation. Contribution percentages vary based on the Flowers Foods, Inc. subsidiary for which an employee works.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company contributions and an allocation of Plan earnings. Plan earnings are allocated based on each participant's account balance.

The Plan accepts rollovers from other tax-qualified and tax-advantaged plans.

Vesting

Participants vest immediately in their contributions plus allocated earnings thereon. Effective January 1, 2002, the vesting period for the company match on elective contributions was changed from five to three years of service. Basic contributions made by the company for all eligible employees vest after five years of service. This change in the vesting schedule applies only to the company match portion of the plan applicable to the participant's elective contributions. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account. Participants are immediately vested in their participant account upon death, total disability or upon reaching the normal retirement age of 65.

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. Loan terms range from 1-5 years or up to 15 years for a home loan. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the interest rate charged by persons in the business of lending money for loans which would be made under similar circumstances. For purposes of this Plan, the Wall Street Journal's Prime Interest Rate plus two percentage points is used. Principal and interest is paid ratably through payroll deductions.

Administrative Expenses

Administrative expenses of the Plan are paid by the Company.

Distribution of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive the value of the participant's vested interest in his or her account as a lump sum distribution.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements for the Plan are prepared using the accrual basis of accounting.

Investment Valuation and Income Recognition

Plan investments are stated at year-end quoted market prices. Cash equivalents, which consist primarily of highly liquid money market instruments, are stated at cost, which approximates market value.

Purchases and sales of investments including gains or losses are recorded on a trade date basis. Interest and dividend income is recorded when earned.

Contributions

Participant and Company contributions are recorded in the period during which the Company makes payroll deductions from the Plan participants' earnings.

Distributions

Distributions to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.
