**Proxy Statement**

**Annual Meeting of Shareholders  
To Be Held May 19, 2006**

**INFORMATION CONCERNING SOLICITATION AND VOTING**

**Shareholders Meeting**

This Proxy Statement and the enclosed proxy card ( Proxy ) are furnished on behalf of the Board of Directors of Manhattan Associates, Inc., a Georgia corporation (the Company, our or we ), to solicit proxies for use at the Annual Meeting of Shareholders to be held on Friday, May 19, 2006, at 9:00 a.m., Atlanta, Georgia time (the Annual Meeting ), or at any adjournment or postponement thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting. The Annual Meeting will be held at 2300 Windy Ridge Parkway, Atlanta, Georgia 30339. The Company intends to mail this Proxy Statement and the accompanying Proxy on or about April 18, 2006, to all shareholders entitled to vote at the Annual Meeting.

**Shareholders Entitled to Vote**

Only holders of record of the Company s \$.01 par value per share common stock (the Common Stock ) at the close of business on March 31, 2006 will be entitled to notice of and to vote at the Annual Meeting. At the close of business on March 31, 2006, the Company had outstanding and entitled to vote 27,424,971 shares of Common Stock. Each holder of record of Common Stock on such date will be entitled to one vote for each share held on all matters to be voted upon at the Annual Meeting. Any shareholder who signs and returns a Proxy has the power to revoke it at any time before it is voted at the Annual Meeting by providing written notice of revocation to the Secretary of the Company, by filing with the Secretary of the Company a Proxy bearing a later date, or by voting through the Internet or in person at the Annual Meeting. The holders of a majority of the total shares of Common Stock outstanding on the record date, whether present at the Annual Meeting in person, voting though the Internet or represented by Proxy, will constitute a quorum for the transaction of business at the Annual Meeting. The shares held by each shareholder who signs and returns the enclosed Proxy will be counted for the purposes of determining the presence of a quorum at the meeting, whether or not the shareholder abstains on all or any matter to be acted on at the meeting. Abstentions and broker non-votes both will be counted toward fulfillment of quorum requirements. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that proposal and has not received instructions from the beneficial owner.

**Counting of Votes**

The purpose of the Annual Meeting is to consider and act upon the matters that are listed in the accompanying Notice of Annual Meeting and set forth in this Proxy Statement. The enclosed Proxy provides a means for a shareholder to vote upon each of the matters listed in the accompanying Notice of Annual Meeting and described in the Proxy Statement, including a means for a shareholder to vote for all of the nominees for Director listed thereon or to withhold authority to vote for one or more of such nominees. The Company s Bylaws provide that Directors are elected by a plurality of the votes cast. Plurality means that the nominees who receive the most votes for the available directorships will be elected as Directors. Accordingly, the withholding of authority by a

**Table of Contents**

shareholder will not be counted in computing a plurality and thus will have no effect on the results of the election of such nominees.

The accompanying Proxy also provides a means for a shareholder to vote for, against or abstain from voting on the other matters to be acted upon at the Annual Meeting. Each Proxy will be voted in accordance with the shareholder's directions. Ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2006 and approval of any other matters as may properly come before the meeting will require the affirmative vote of a majority of the shares of Common Stock present in person or represented by a Proxy and entitled to vote at the meeting. Abstentions with respect to such proposals will have the same effect as a vote against the proposals. With respect to broker non-votes, the shares will not be considered present at the meeting for the proposal to which authority was withheld. Consequently, broker non-votes will not be counted with regard to such proposals, but they will have the effect of reducing the number of affirmative votes required to approve the proposals, because they reduce the number of shares present or represented from which a majority is calculated.

**Proxies**

When the enclosed Proxy is properly signed and returned, the shares that it represents will be voted at the Annual Meeting in accordance with the instructions noted thereon. In the absence of such instructions, the shares represented by a signed Proxy will be voted in favor of the nominees for election to the Board of Directors and in favor of the ratification of the appointment of our independent registered public accounting firm.

**Proxy Solicitation Costs**

The Company will bear the entire cost of soliciting proxies to be voted at the Annual Meeting, including the preparation, printing and mailing of proxy materials. In addition to the solicitation of proxies by mail, solicitation may be made by certain directors, officers and other employees of the Company by personal interview, telephone, telegram or facsimile. No additional compensation will be paid to such persons for such solicitation. The Company will reimburse brokers, banks and other nominees for their reasonable out-of-pocket expenses for forwarding the proxy materials to their customers who are beneficial owners.

**Board of Directors Meetings, Committees and Compensation**

The Board of Directors currently consists of seven members, four of whom (Messrs. Huntz, Cassidy, Goodwin and Noonan) have been determined by the Board of Directors to be independent as that term is defined under the corporate governance rules of The Nasdaq Stock Market, Inc. In compliance with the NASDAQ corporate governance rules, the independent Directors of the Company conduct regularly scheduled meetings without the presence of non-independent directors or management.

During the fiscal year ended December 31, 2005, the Board of Directors held four meetings. All of the incumbent directors attended at least 75% of the aggregate total number of meetings of the Board of Directors and meetings of committees of the Board of Directors on which they served. Because we schedule our spring Board meeting in conjunction with the annual meeting of shareholders, our Directors are invited to the annual meeting of shareholders, and two Directors attended our 2005 annual meeting.

The non-employee Chairman of the Board of Directors receives an annual retainer of \$150,000, payable on the first business day of each quarter. Non-employee members of the Board of Directors receive an annual retainer of \$35,000 payable on the first business day of each quarter. All non-employee members of the Board of Directors received \$1,500 for each board meeting attended in 2005 and \$1,500 for each committee meeting held independently of a board meeting. In 2005, we granted to each non-employee director stock options to purchase 5,000 shares of Common Stock at the beginning of each quarter during which they served as a director. All of these options have an exercise price equal to the fair market value of the Common Stock on the date of grant, are exercisable immediately and have a term of ten years. Any non-employee director who joins the Board of Directors in the future will be entitled to a one time grant of \$30,000 of restricted stock, vesting in equal installments over the remainder of the director's initial elected term.

The Board of Directors has established three permanent committees that have certain responsibilities for our governance and management. They include the Audit Committee, the Compensation Committee and the Nomination and Governance Committee. Charters for the Audit Committee, Compensation Committee and Nomination and Governance Committee can be found in the Investor Relations section of our web site at [www.manh.com](http://www.manh.com).

*Audit Committee.* During 2005, the Audit Committee consisted of Messrs. Huntz, Goodwin and Noonan. Mr. Huntz serves as Chairman of the Audit Committee. The Board of Directors has determined that each member of

the Audit Committee meets the independence and experience requirements applicable to members of the Audit Committee of a NASDAQ-traded company, as well as the Audit Committee independence standards established by the Securities and Exchange Commission. Further, the Board has determined that Messrs. Huntz, Goodwin and Noonan are audit committee financial experts, as defined by the rules of the Commission. The Audit Committee recommends the selection of our independent registered public accounting firm, reviews the scope of the audit to be conducted by them, as well as the results of their audit, reviews the scope of our internal system of controls, appraises our financial reporting activities (including our proxy statement and annual report) and the accounting standards and principles followed. The Audit Committee also reviews and discusses with management and our independent registered public accounting firm various topics and events that may have significant financial impact on the Company, and reviews and discusses with management major financial risk exposure and steps management has taken to monitor and control such exposure. Additionally, the Audit Committee reviews the adequacy and effectiveness of our internal controls, internal audit procedures, and disclosure controls and procedures, and management reports thereon. The Chairman of the Audit Committee is to be contacted by the Chief Financial Officer or the independent registered public accounting firm to review items of a sensitive nature that can impact the accuracy of financial reporting, and to discuss significant issues relative to overall Board responsibility that have been communicated to management, but may warrant follow up to the Audit Committee. During the fiscal year ended December 31, 2005, the Audit Committee met five times.

*Compensation Committee.* During 2005, the Compensation Committee consisted of Messrs. Noonan, Huntz and Cassidy. Mr. Noonan serves as Chairman of the Compensation Committee. The Board of Directors has determined that all members of the Compensation Committee meet the independence requirements of the NASDAQ corporate governance rules. The Compensation Committee approves the compensation and benefits of all of our executive officers, reviews general policies relating to compensation and benefits of our employees and makes recommendations concerning certain of these matters to the Board of Directors. The Compensation Committee also administers our stock option plans and establishes the terms and conditions of all stock options granted under these plans. During the fiscal year ended December 31, 2005, the Compensation Committee met four times.

*Nomination and Governance Committee.* Established on July 17, 2003, our Nomination and Governance Committee (the Nominating Committee) consists of Messrs. Goodwin, Cassidy and Huntz. Mr. Goodwin serves as Chairman of the Nominating Committee. The Board of Directors has determined that all members of the Nominating Committee meet the independence requirements of the NASDAQ corporate governance rules. The Nominating Committee is appointed by the Board of Directors to identify and assist in recruiting outstanding individuals who qualify to serve as Board members and to recommend that the Board select a slate of director nominees for election by our shareholders at each annual meeting of our shareholders in accordance with our Articles of Incorporation, Bylaws and Georgia law; to recommend directors for appointment to each Board committee; to review the performance of the Board and its committees and make appropriate recommendations; and to oversee our corporate governance guidelines and periodically re-evaluate such corporate governance guidelines for the purpose of suggesting changes if appropriate.

As appropriate, the Nominating Committee actively seeks, interviews and evaluates individuals qualified to become Board members for recommendation to the Board of Directors, has the power to hire legal, accounting, financial or other advisors as it may deem necessary in its judgment, has the sole authority to retain and terminate any search firm to be used to identify director candidates and has sole authority to approve the search firm's fees and other retention terms. In addition, the Nominating Committee periodically reviews the independence of each director, as such term is interpreted under the applicable provisions of the Securities Exchange Act of 1934 and the applicable rules of The Nasdaq National Market, periodically reviews and assesses the performance of the Board and its committees and reports such assessment, including any recommendations for proposed changes, to the Board, periodically reviews and reassesses the adequacy of our corporate governance guidelines and recommends any proposed changes to the Board, periodically makes reports to the Board regarding the committee's evaluation of the Board members, its committees and members thereof and the corporate governance guidelines, and periodically reviews and reassesses the adequacy of the Nominating Committee Charter and recommends any proposed changes to the Board of Directors. During the fiscal year ended December 31, 2005, the Nominating Committee met once.

In accordance with the provisions of our Articles of Incorporation and Bylaws, shareholders may directly nominate prospective director candidates by delivering to our Corporate Secretary certain information about the nominee (reflecting the disclosure requirements of the SEC's proxy rules concerning nominees for directorships) no

less than 90 days and no more than 120 days in advance of the first anniversary of the prior year's annual meeting. The Nominating Committee has not adopted a formal policy with regard to consideration of any director candidate nominated by shareholders. The Nominating Committee believes that such a policy is not necessary or appropriate because of the shareholders' ability to directly nominate director candidates for the Board.

In identifying qualified individuals to become members of the Board of Directors, the Nominating Committee selects candidates whose attributes it believes would be most beneficial to the Company. The Nominating Committee evaluates each individual's experience, integrity, competence, diversity, skills and dedication in the context of the needs of the Board of Directors. The Committee generally identifies director nominees through the personal, business and organizational contacts of existing directors and management. However, the Committee may use a variety of sources to identify director nominees, including third-party search firms, counsel, advisors and stockholder recommendations.

**Code of Ethics**

Our Board of Directors has adopted a Code of Business Conduct and Ethics that is applicable to all members of our Board of Directors, our executive officers and our employees. We have posted the Code of Business Conduct and Ethics policy in the Investor Relations section of our web site at [www.manh.com](http://www.manh.com). If, in the future, we amend, modify or waive a provision in the Code of Business Conduct and Ethics, we may, rather than filing a Form 8-K, satisfy the disclosure requirement under Item 5.05 of Form 8-K by posting such information on our web site as necessary.

- (1) Amounts represent hypothetical gains that could be achieved for the respective options if exercised at the end of the option term. These gains are based on the fair

market value per share on the date of grant and assumed rates of stock price appreciation of 5% and 10% compounded annually from the date the respective options were granted to their expiration date. These assumptions are mandated by the rules of the Securities and Exchange Commission and are not intended to forecast future appreciation of the Company's stock price. The potential realizable value computation is net of the applicable exercise price, but does not take into account federal or state income tax consequences and other expenses of option exercises or sales of appreciated stock. Actual gains, if any, are dependent upon the timing of such exercise and the future

performance of the Common Stock. There can be no assurance that the rates of appreciation in this table can be achieved. This table does not take into account any appreciation in the price of the Common Stock to date.

#### Aggregated Option Exercises in Last Fiscal Year and Year-End Option Values

The following table summarizes the number of shares and value realized by each of the Named Executive Officers upon the exercise of options during the fiscal year ended December 31, 2005 and the value of the outstanding options held by the Named Executive Officers at December 31, 2005:

Name	Shares Acquired on Exercise	Value Realized (1)	Number of Securities Underlying Unexercised		Value of Unexercised In-the-Money Options	
			Options at Fiscal Year End Exercisable	Unexercisable	at Fiscal Year-End (2) Exercisable	Unexercisable
Peter F. Sinisgalli			193,750	356,250	\$	\$
Steven Norton				192,500		
Jeffrey W. Baum			109,999	91,000	137,193	
Jeff Cashman			23,438	119,062		
Jeffrey S. Mitchell			236,334	210,666	264,475	49,400

(1) Amounts disclosed in this column do not reflect amounts actually received by the Named Executive Officers but are calculated based on the difference between the fair market value on the date of exercise of the options and the exercise price of the options. The

Named Executive Officers will receive cash only if and when they sell the Common Stock issued upon exercise of the options, and the net amount of cash received by such individuals is dependent on the price of the Common Stock at the time of such sale, as well as federal and state income taxes and other expenses of option exercises and sales of stock.

- (2) Based on the fair market value of the Common Stock as of December 31, 2005 of \$20.48 per share as reported on The Nasdaq National Market, Inc. less the exercise price payable upon exercise of such options.

The exact stock prices and effective dates may not be set forth in the applicable table, in which case:

If the stock price is between two stock price amounts in the applicable table or the effective date is between two dates in the applicable table, the make-whole shares issued upon conversion of the applicable notes will be determined by straight-line interpolation between the number of make-whole shares set forth for the higher and lower stock price amounts and the two dates, as applicable, based on a 365-day year;

If the stock price is in excess of \$200.00 per share of common stock (subject to adjustment), no make-whole shares will be issued upon conversion of the notes; and

If the stock price is less than \$71.93 per share of common stock (subject to adjustment), no make-whole shares will be issued upon conversion of the notes.

The adjustments described in this section are subject to the limitations described above under General.

## Edgar Filing: MANHATTAN ASSOCIATES INC - Form DEF 14A

Our obligation to deliver the make-whole shares could be considered a penalty, in which case the enforceability thereof would be subject to general principles of reasonableness of economic remedies.

### *Conversion After a Public Acquirer Change in Control*

Notwithstanding the provisions described above under Adjustment to Conversion Rate Upon a Change in Control, in the case of a change in control constituting a public acquirer change in control (as defined below), we may, in lieu of issuing additional shares upon conversion, elect to adjust the conversion rate and the related

S-18

conversion obligation such that from and after the effective date of such public acquirer change in control, holders of the notes will be entitled to convert their notes (subject to the satisfaction of the conditions to conversion described under Conversion Rights ) into a number of shares of public acquirer common stock (as defined below), still subject to the arrangements for payment upon conversion otherwise applicable, by multiplying the conversion rate in effect immediately before the public acquirer change in control by a fraction:

the numerator of which will be (i) in the case of a share exchange, consideration, merger or binding share exchange pursuant to which our common stock is converted into cash, securities or other property, the average value of all cash and any other consideration (as determined by our board of directors) paid or payable per share of common stock or (ii) in the case of any other public acquirer change in control, the average of the last reported sale prices of our common stock for the five consecutive trading days prior to but excluding the effective date of such public acquirer change in control, and

the denominator of which will be the average of the last reported sale prices of the public acquirer common stock for the five consecutive trading days commencing on the trading day next succeeding the effective date of such public acquirer change in control.

A public acquirer change in control means a change in control in which the acquirer has a class of common stock traded on a U.S. national securities exchange or quoted on The Nasdaq National Market or which will be so traded or quoted when issued or exchanged in connection with such change in control (the public acquirer common stock ). If an acquirer does not itself have a class of common stock satisfying the foregoing requirement, it will be deemed to have public acquirer common stock if a corporation that directly or indirectly owns at least a majority of the acquirer has a class of common stock satisfying the foregoing requirement, in such case, all references to public acquirer common stock shall refer to such class of common stock. Majority owned for these purposes means having beneficial ownership (as defined in Rule 13d-3 under the Exchange Act) of more than 50% of the total voting power of all shares of the respective entity s capital stock that are entitled to vote generally in the election of directors.

Upon a public acquirer change in control, if we so elect, holders may convert their notes (subject to the satisfaction of the conditions to conversion described under Conversion Rights above) at the adjusted conversion rate described in the second preceding paragraph but will not be entitled to receive additional shares upon conversion as described above. We are required to notify holders of our election in our notice to holders of such change in control as set forth below under Change in Control Permits Purchase of notes by Amgen at the Option of the Holder. In addition, upon a public acquirer change in control, in lieu of converting notes, the holder can, subject to certain conditions, require us to repurchase all or a portion of its notes as described below.

**Change in Control Permits Purchase of Notes by Amgen at the Option of the Holder**

In the event of any change in control, each holder will have the right, at the holder s option, subject to the terms and conditions of the applicable indenture, to require us to purchase for cash all or any portion of the holder s notes in integral multiples of \$1,000 principal amount at a price equal to 100% of the principal amount of the notes to be purchased, plus accrued and unpaid interest to the change in control purchase date (the change in control purchase price ). Upon a valid exercise of such an option, we will be required to purchase the notes as of the date that is no later than 35 business days after the occurrence of such change in control (a change in control purchase date ).

As promptly as practicable following the date we publicly announce such transaction but in no event less than 15 days prior to the anticipated effective date of a change in control, we are obligated to mail to the trustee and to all holders of notes at their addresses shown in the register of the registrar, and to beneficial owners as required by applicable law, a notice regarding the change in control, which notice shall state, among other things, as applicable:

the events causing a change in control;

the date of such change in control;

**Table of Contents**

whether such change in control will also constitute a public acquirer change in control and the conversion rights available to the holders in connection with such public acquirer change in control, including the period of conversion, if any, and any adjustments to the applicable conversion rate;

the last date on which the purchase right may be exercised;

the change in control purchase price;

the change in control purchase date;

the name and address of the paying agent and the conversion agent;

the applicable conversion rate and any adjustments to the applicable conversion rate;

that notes with respect to which a change in control purchase notice is given by the holder may be converted only if the change in control purchase notice has been withdrawn in accordance with the terms of the applicable indenture; and

the procedures that holders must follow to exercise these rights.

To exercise this right, the holder must deliver a written notice to the paying agent prior to the close of business on the change in control purchase date. The required purchase notice upon a change in control shall state:

the certificate numbers of the notes to be delivered by the holder;

the portion of the principal amount of notes to be purchased, which portion must be \$1,000 or an integral multiple of \$1,000; and

that we are to purchase such notes pursuant to the applicable provisions of the notes.

A holder may withdraw any change in control purchase notice by delivering to the paying agent a written notice of withdrawal prior to the close of business on the change in control purchase date. The notice of withdrawal shall state:

the principal amount being withdrawn;

the certificate numbers of the notes being withdrawn; and

the principal amount, if any, of the notes that remain subject to a change in control purchase notice.

Our obligation to pay the change in control purchase price for a note for which a change in control purchase notice has been delivered and not validly withdrawn is conditioned upon delivery of the note, together with all necessary endorsements and compliance by the holder with all DTC procedures, as applicable, to the paying agent at any time after the delivery of such change in control purchase notice. Payment of the change in

## Edgar Filing: MANHATTAN ASSOCIATES INC - Form DEF 14A

control purchase price for such note will be made on the third business day following the later of the change in control purchase date or the time of delivery of such note.

If the paying agent holds money sufficient to pay the change in control purchase price of the note on the third business day following the change in control purchase date in accordance with the terms of the applicable indenture, then, immediately after the change in control purchase date, interest on such note will cease to accrue, whether or not the note is delivered to the paying agent, and all other rights of the holder shall terminate, other than the right to receive the change in control purchase price upon delivery of the note.

A change in control means the following events:

any person or group, other than Amgen, its subsidiaries or any employee benefit plan of Amgen or its subsidiaries, files a Schedule 13D or Schedule TO (or any successor schedule, form or report) pursuant to the Exchange Act disclosing that such person has become the beneficial owner of 50% or more of the voting power of our common stock then outstanding or other capital stock into which our common stock is reclassified or changed, with certain exceptions; or

Amgen consolidates with or merges with or into another person (other than a subsidiary of Amgen), or sells, conveys, transfers or leases all or substantially all of its properties and assets to any person (other than a subsidiary of Amgen), or any person (other than a subsidiary of Amgen) consolidates with or merges with or into Amgen, and the outstanding voting common stock of Amgen is reclassified into, converted for or converted into the right to receive any property or security, provided that none of these circumstances will be a change in control if the persons that beneficially own the voting stock of Amgen immediately prior to the transaction own, directly or indirectly, shares with a majority of the total voting power of all outstanding voting securities of the surviving or transferee person that are entitled to vote generally in the election of that person's board of directors, managers or trustees immediately after the transaction.

For purposes of defining a change in control:

the term person and the term group have the meanings given by Section 13(d) and 14(d) of the Exchange Act or any successor provisions;

the term group includes any group acting for the purpose of acquiring, holding or disposing of securities within the meaning of Rule 13d-5(b)(1) under the Exchange Act or any successor provision; and

the term beneficial owner is determined in accordance with Rules 13d-3 and 13d-5 under the Exchange Act or any successor provisions, except that a person will be deemed to have beneficial ownership of all shares that person has the right to acquire irrespective of whether that right is exercisable immediately or only after the passage of time.

Notwithstanding the foregoing, it will not constitute a change in control if 100% of the consideration for our common stock (excluding cash payments for fractional shares and cash payments made in respect of dissenters' appraisal rights and cash payment of the required cash payment, if any) in the transaction or transactions constituting the change in control consists of common stock traded on a United States national securities exchange or quoted on the Nasdaq National Market, or which will be so traded or quoted when issued or exchanged in connection with the change in control, and as a result of such transaction or transactions the notes become convertible solely into such common stock.

In connection with any purchase offer in the event of a change in control, to the extent required by applicable law, we will:

comply with the provisions of Rule 13e-4, Rule 14e-1 and any other tender offer rules under the Exchange Act which may then be applicable; and

otherwise comply with all federal and state securities laws as necessary under the applicable indenture to effect a change in control purchase of notes by us at the option of a holder.

We could, in the future, enter into certain transactions, including certain recapitalizations, that would not constitute a change in control with respect to the change in control purchase feature of the notes, but that would increase the amount of our outstanding indebtedness or the outstanding indebtedness of our subsidiaries.

Edgar Filing: MANHATTAN ASSOCIATES INC - Form DEF 14A

No notes may be purchased by us at the option of holders upon a change in control if there has occurred and is continuing an event of default with respect to the notes, other than a default in the payment of the change in control purchase price with respect to the notes.

S-21

## **Table of Contents**

### **Events of Default and Acceleration**

The following are events of default under each indenture:

default in payment of the principal amount or change in control purchase price with respect to any note when such becomes due and payable;

default in payment of any interest due on the notes, which default continues for 30 days;

our failure to comply with any of our other agreements in the notes or the applicable indenture upon receipt by us of notice of such default by the trustee or by holders of not less than 25% in aggregate principal amount of the 2011 notes or 2013 notes, as applicable, then outstanding and our failure to cure (or obtain a waiver of) such default within 60 days after we receive such notice;

(A) our failure to make any payment by the end of any applicable grace period after maturity of indebtedness, which term as used in the applicable indenture means obligations (other than nonrecourse obligations) of Amgen for borrowed money or evidenced by bonds, notes or similar instruments ( *Indebtedness* ) in an amount in excess of \$50.0 million and continuance of such failure, or (B) the acceleration of *Indebtedness* in an amount in excess of \$50.0 million because of a default with respect to such *Indebtedness* without such *Indebtedness* having been discharged or such acceleration having been cured, waived, rescinded or annulled in case of (A) above, for a period of 30 days after written notice to us by the trustee or to us and the trustee by the holders of not less than 25% in aggregate principal amount of the 2011 notes or 2013 notes, as applicable, then outstanding. However, if any such failure or acceleration referred to in (A) or (B) above shall cease or be cured, waived, rescinded or annulled, then the event of default by reason thereof shall be deemed not to have occurred; or

certain events of bankruptcy or insolvency affecting us or any of our *significant subsidiaries* (as such term is defined under Regulation S-X under the Securities Act).

If an event of default shall have happened and be continuing, either the trustee or the holders of not less than 25% in aggregate principal amount of the 2011 notes or 2013 notes, as applicable, then outstanding may declare the principal amount of the 2011 notes or 2013 notes, as applicable, and any accrued and unpaid interest through the date of such declaration, to be immediately due and payable. In the case of certain events of bankruptcy or insolvency, the principal amount of the notes and any unpaid interest accrued thereon through the occurrence of such event shall automatically become and be immediately due and payable.

### **Mergers and Sales of Assets**

The indentures provide that we may consolidate with or merge into any person or convey, transfer or lease our properties and assets substantially as an entirety to another person, provided that:

the resulting, surviving or transferee person (if other than Amgen) is organized and existing under the laws of the United States, any state thereof or the District of Columbia,

such corporation assumes all our obligations under the notes and the applicable indenture;

Amgen or such successor is not immediately thereafter in default under the applicable indenture; and

## Edgar Filing: MANHATTAN ASSOCIATES INC - Form DEF 14A

other conditions described in the applicable indenture are met.

Upon the assumption of our obligations by such person in such circumstances, subject to certain exceptions, we shall be discharged from all obligations under the notes and the indentures. Although such transactions are permitted under the indentures, certain of the foregoing transactions occurring could constitute a change in control, permitting each holder to require us to purchase the notes of such holder as described above.

S-22

### **Modification**

We and the trustee may enter into supplemental indentures that add, change or eliminate provisions of the applicable indenture or modify the rights of the holders of the 2011 notes or 2013 notes, as applicable, with the consent of the holders of at least a majority in principal amount of the 2011 notes or 2013 notes, as applicable, then outstanding. However, without the consent of each holder affected thereby, no supplemental indenture may:

reduce the principal amount of, change in control purchase price with respect to or any premium or interest (including additional interest) on any note;

make any note payable in money or securities other than that stated in the note;

change the stated maturity of any note;

make any change that adversely affects the right of a holder to convert any note;

make any change that adversely affects the right to require us to purchase a note;

impair the right to convert or receive payment with respect to the notes or the right to institute suit for the enforcement of any payment with respect to, or conversion of, the notes; or

change the provisions in the applicable indenture that relate to modifying or amending the applicable indenture.

Without the consent of any holder of 2011 notes or 2013 notes, as applicable, we and the trustee may enter into supplemental indentures for any of the following purposes:

to cure any ambiguity, omission, defect or inconsistency in the applicable indenture;

to evidence a successor to us and the assumption by that successor of our obligations under the applicable indenture and the 2011 notes or 2013 notes, as applicable;

to secure our obligations in respect of the 2011 notes or 2013 notes, as applicable, and the applicable indenture;

to add to our covenants for the benefit of the holders of the 2011 notes or 2013 notes, as applicable, or to surrender any right or power conferred upon us;

to make any changes to comply with the Trust Indenture Act, or any amendment thereto, or to comply with any requirement of the SEC in connection with the qualification of the applicable indenture under the Trust Indenture Act; and

## Edgar Filing: MANHATTAN ASSOCIATES INC - Form DEF 14A

to make any change that does not adversely affect the rights of any holder of the notes.

No amendment to cure any ambiguity, defect or inconsistency in the indentures made solely to conform the indentures to the description of notes contained in the offering memorandum for the original private sale of the notes will be deemed to adversely affect the interests of the holders of the notes.

The holders of a majority in principal amount of the outstanding 2011 notes or 2013 notes, as applicable, may, on behalf of the holders of such notes waive any existing or past default under the applicable indenture and its consequences, except a default in the payment of the principal amount, accrued and unpaid interest or change in control purchase price or in respect of any provision which under the applicable indenture cannot be modified or amended without the consent of the holder of each outstanding note affected.

### **Discharge of the Indentures**

We may satisfy and discharge our obligations under the applicable indenture by delivering to the trustee for cancellation all outstanding 2011 notes or 2013 notes, as applicable, or by depositing with the trustee, the paying agent or the conversion agent, if applicable after the 2011 notes or 2013 notes, as applicable, have become due and payable, whether at stated maturity, or a change in control purchase date, or upon conversion or otherwise, cash, shares of common stock (solely to satisfy outstanding conversions, if applicable) or government obligations (in each case pursuant to the terms of the indentures) sufficient to pay all of the outstanding notes and paying all other sums payable under the indentures by us.

### **Calculations in Respect of Notes**

We are responsible for making all calculations called for under the notes. These calculations include, but are not limited to, conversion value, the conversion date, the volume weighted average price, the conversion reference period, the trading prices of the notes, the closing price, the conversion price, the required cash amount, the applicable conversion rate and the number of shares of common stock, if any, to be issued upon conversion of the notes. We make all these calculations in good faith and, absent manifest error, our calculations are final and binding on holders of notes. We will provide a schedule of our calculations to the trustee, and the trustee is entitled to rely upon the accuracy of our calculations without independent verification.

### **Information Concerning the Trustee**

JPMorgan Chase Bank, N.A. is the initial trustee, registrar, paying agent and conversion agent under the indentures. We may maintain deposit accounts and conduct other banking transactions with the trustee in the normal course of business.

### **Governing Law**

The indentures and the notes are governed by, and shall be construed in accordance with, the law of the State of New York.

### **Global Notes; Book-Entry; Form**

We initially issued the notes in the form of global securities. The global securities were deposited with the trustee as custodian for DTC and registered in the name of a nominee of DTC. Except as set forth below, each global security may be transferred, in whole and not in part, only to DTC or another nominee of DTC. You will hold your beneficial interests in the global securities directly through DTC if you have an account with DTC or indirectly through organizations that have accounts with DTC. Notes in definitive certificated form (called "certificated securities") will be issued only in limited circumstances described below.

DTC has advised us that it is:

a limited purpose trust company organized under the laws of the State of New York;

a member of the Federal Reserve System;

a clearing corporation within the meaning of the New York Uniform Commercial Code; and

a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act.

DTC was created to hold securities of institutions that have accounts with DTC (called "participants") and to facilitate the clearance and settlement of securities transactions among its participants in such securities through electronic book-entry changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers, which may include the initial purchasers, banks, trust companies, clearing corporations and certain other organizations. Access to DTC's book-entry system is also available to others such as banks, brokers, dealers and trust companies (called, the "indirect participants") that clear through or maintain a

custodial relationship with a participant, whether directly or indirectly.

S-24

## **Table of Contents**

We expect that pursuant to procedures established by DTC upon the deposit of the global securities with DTC, DTC will continue to credit, on its book-entry registration and transfer system, the principal amount of notes represented by such global securities to the accounts of participants. The accounts to be credited were designated by the initial purchasers. Ownership of beneficial interests in the global securities will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in the global securities will be shown on, and the transfer of those beneficial interests will be effected only through, records maintained by DTC (with respect to participants' interests), the participants and the indirect participants.

The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. These limits and laws may impair the ability to transfer or pledge beneficial interests in the global securities.

Owners of beneficial interests in global securities who desire to convert their interests into common stock should contact their brokers or other participants or indirect participants through whom they hold such beneficial interests to obtain information on procedures, including proper forms and cut-off times, for submitting requests for conversion. So long as DTC, or its nominee, is the registered owner or holder of a global security, DTC or its nominee, as the case may be, will be considered the sole owner or holder of the notes represented by the applicable global security for all purposes under the applicable indenture and the 2011 notes or 2013 notes, as applicable. In addition, no owner of a beneficial interest in a global security will be able to transfer that interest except in accordance with the applicable procedures of DTC.

Except as set forth below, as an owner of a beneficial interest in a global security, you will not be entitled to have the notes represented by a global security registered in your name, will not receive or be entitled to receive physical delivery of certificated securities and will not be considered to be the owner or holder of any notes under a global security. We understand that under existing industry practice, if an owner of a beneficial interest in a global security desires to take action that DTC, as the holder of the global securities, is entitled to take, DTC would authorize the participants to take such action. Additionally, in such case, the participants would authorize beneficial owners through such participants to take such action or would otherwise act upon the instructions of beneficial owners owning through them.

We will make payments of principal of, premium, if any, and interest (including any additional interest) on the notes represented by the global securities registered in the name of and held by DTC or its nominee to DTC or its nominee, as the case may be, as the registered owner and holder of the global securities. Neither we, the trustee nor any paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial interests in the global securities or for maintaining, supervising or reviewing any records relating to such beneficial interests.

We expect that DTC or its nominee, upon receipt of any payment of principal of, premium, if any, or interest (including additional interest) of a global security, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global securities as shown on the records of DTC or its nominee. We also expect that payments by participants or indirect participants to owners of beneficial interests in a global security held through such participants or indirect participants will be governed by standing instructions and customary practices and will be the responsibility of such participants or indirect participants. We will not have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial interests in the global securities for any note or for maintaining, supervising or reviewing any records relating to such beneficial interests or for any other aspect of the relationship between DTC and its participants or indirect participants or the relationship between such participants or indirect participants and the owners of beneficial interests in the global securities owning through such participants.

Transfers between participants in DTC will be effected in the ordinary way in accordance with DTC rules and will be settled in same-day funds.

## **Table of Contents**

DTC has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more participants to whose account the DTC interests in the applicable global security is credited and only in respect of such portion of the aggregate principal amount of 2011 notes or 2013 notes, as applicable, as to which such participant or participants has or have given such direction. However, if DTC notifies us that it is unwilling to be a depository for the global securities or ceases to be a clearing agency or there is an event of default under the notes, DTC will exchange the global securities for certificated securities which it will distribute to its participants. Although DTC is expected to follow the foregoing procedures in order to facilitate transfers of interests in the global securities among participants of DTC, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. Neither we nor the trustee will have any responsibility, or liability for the performance by DTC or the participants or indirect participants of their respective obligations under the rules and procedures governing their respective operations.

## **Registration Rights**

We have entered into a registration rights agreement with the initial purchasers. Pursuant to the registration rights agreement, we agreed to file, at our expense, a shelf registration statement on such form as we deem appropriate covering resales by holders of all notes and the common stock issuable upon conversion of the notes. We filed the shelf registration statement of which this prospectus supplement and the accompanying prospectus are a part pursuant to such registration rights agreement. We will use our reasonable efforts to keep the shelf registration statement effective until February 17, 2008 or until the earlier of (1) the sale or transfer pursuant to the shelf registration statement of the notes and the common stock issuable upon conversion of the notes, and (2) the date when holders, other than holders that are our affiliates, of the notes and the common stock issuable upon conversion of the notes are able to sell all such securities immediately without restriction pursuant to the volume limitation provisions of Rule 144 under the Securities Act or any successor Rule thereto or otherwise.

Upon receipt of a completed selling security holder questionnaire (a form of which is available upon request to Amgen), together with such other information as we may reasonably request from a holder of such notes, we will use our reasonable efforts to file such amendments to the shelf registration statement or supplements to this prospectus supplement as are necessary to permit such holder to deliver this prospectus supplement and the accompanying prospectus to purchasers of the notes, subject to our right to suspend the use of the prospectus as discussed below; provided, however, that we will not be required to file an amendment or supplement until we have received questionnaires with respect to at least \$100 million aggregate principal amount of notes; provided, further, however, that we will not be required to file an amendment or supplement more than one time in any calendar quarter for all such holders. Any holder that does not complete and deliver a questionnaire or provide such other information will not be named as a selling security holder in this prospectus supplement and therefore will not be permitted to sell any notes pursuant to the shelf registration statement.

We will be permitted to suspend the use of the prospectus that is part of the shelf registration statement under certain circumstances relating to pending corporate developments, public filings with the SEC and similar events for a period not to exceed 90 consecutive days or an aggregate of 120 days in any twelve-month period. We need not specify the nature of the event giving rise to a suspension in any notice of a suspension provided to the holders.

This summary of registration rights agreement is not complete. This summary is subject to, and is qualified in its entirety by reference to, all of the provisions of the registration rights agreement filed as an exhibit to our current report on Form 8-K filed with the SEC on February 21, 2006, incorporated herein by reference.

**Table of Contents****SELLING SECURITY HOLDERS**

The notes were originally issued by us and sold by the initial purchasers of the notes in a transaction exempt from the registration requirements of the Securities Act to qualified institutional buyers in reliance on Rule 144A under the Securities Act. Selling security holders, including their transferees, pledgees or donees or their successors, may from time to time offer and sell pursuant to this prospectus any or all of the notes and shares of common stock into which the notes are convertible.

The following table sets forth information as of October 27, 2006 with respect to the selling security holders and the principal amounts of notes beneficially owned by each selling security holder that may be offered pursuant to this prospectus supplement and the accompanying prospectus. The information is based on information provided by or on behalf of the selling security holders. The selling security holders may offer all, some or none of the notes or the common stock into which the notes are convertible. Because the selling security holders may offer all or some portion of the notes or the common stock, we cannot estimate the amount of the notes or the common stock that will be held by the selling security holders upon termination of any of these sales. In addition, the selling security holders identified below may have sold, transferred or otherwise disposed of all or a portion of their notes since the date on which they provided the information regarding their notes in transactions exempt from the registration requirements of the Securities Act.

The conversion rate, and therefore, the number of shares of common stock issuable upon conversion of the notes, is subject to adjustment under certain circumstances. Accordingly, the aggregate principal amount of notes and the number of shares of common stock into which the notes are convertible may increase or decrease.

**PLAN OF DISTRIBUTION**

The notes and common stock issuable upon conversion of the notes may be sold from time to time directly by the selling security holders or alternatively, through underwriters, broker-dealers or agents. If the notes and common stock issuable upon conversion of the notes are sold through underwriters or broker-dealers, the applicable selling security holder will be responsible for underwriting discounts or commissions or agent's commissions and their professional fees. Such notes and common stock issuable upon conversion of the notes may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of sale, at varying prices determined at the time of sale, or at negotiated prices. Such sales may be effected in transactions (which may involve block transactions) (i) on any national securities exchange or quotation service on which the notes may be listed or quoted at the time of sale, (ii) in the over-the-counter market or (iii) in transactions otherwise than on such exchanges or services or in the over-the-counter market. Each selling security holder may pledge or grant a security interest in some or all of the notes and common stock issuable upon conversion of the notes owned by it and if it defaults, in the performance of its secured obligations, the pledges or secured parties may offer and sell the notes from time to time pursuant to this prospectus supplement and the accompanying prospectus. Each selling security holder also may transfer and donate notes in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling security holder for purposes of this prospectus supplement and the accompanying prospectus. This description supplements the Plan of Distribution in the accompanying prospectus and the selling security holders may also distribute the notes and common stock issuable upon conversion of the notes in any manner described therein.

The aggregate proceeds to the selling security holders from the sale of the notes or common stock issuable upon conversion of the notes offered by them will be the purchase price of the notes or common stock less discounts and commissions, if any. Each of the selling security holders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of notes or common stock to be made directly or through agents. We will not receive any of the proceeds from this offering.

Our outstanding common stock is listed for trading on the Nasdaq National Market under the symbol AMGN. We have no plans to list the notes on a securities exchange and can give no assurance about the development of any trading market for the notes. See Risk Factors Risks Related to the Notes An active trading market for the notes may not develop .

In order to comply with the securities laws of some states, if applicable, the notes and common stock issuable upon conversion of the notes may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the notes and common stock issuable upon conversion of the notes may not be sold unless they have been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

We entered into a registration rights agreement for the benefit of holders of the notes to register their notes and common stock issuable upon conversion of their notes under applicable federal and state securities laws under specific circumstances and at specific times. The registration rights agreement provides for cross-indemnification of the selling security holders and us and our respective directors, officers and controlling persons against specific liabilities in connection with the offer and sale of the notes and the common stock, including liabilities under the Securities Act. We will pay substantially all of the expenses incurred by the selling security holders incident to the offering and sale of the notes and the common stock issuable upon conversion of the notes.

Under the registration rights agreement, we are obligated to use our reasonable efforts to keep the registration statement of which this prospectus supplement and the accompanying prospectus are a part effective until February 17, 2008 or until the earlier of:

the sale or transfer pursuant to the shelf registration statement of the notes and all of the shares of common stock issuable upon conversion of the notes, and

the date when the holders, other than the holders that are our affiliates, of the notes and the common stock issuable upon conversion of the notes are able to sell all such securities immediately without restriction pursuant to the volume limitation provisions of Rule 144 under the Securities Act or any successor rule thereto or otherwise.

**CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS**

The following is a summary of certain material U.S. federal income tax considerations of the purchase, ownership and disposition of notes and the shares of common stock into which the notes may be converted. This summary is based upon provisions of the Code, applicable regulations, administrative rulings and judicial decisions in effect as of the date hereof, any of which may subsequently be changed, possibly retroactively, so as to result in U.S. federal income tax consequences different from those discussed below. Except where noted, this summary deals only with a note or share of common stock held as a capital asset. This summary does not address all aspects of U.S. federal income taxes and does not deal with all tax consequences that may be relevant to holders in light of their personal circumstances or particular situations, such as:

tax consequences to holders who may be subject to special tax treatment, including dealers in securities or currencies, financial institutions, regulated investment companies, real estate investment trusts, tax-exempt entities, insurance companies, or traders in securities that elect to use a mark-to-market method of accounting for their securities;

tax consequences to persons holding notes or common stock as a part of a hedging, integrated, conversion or constructive sale transaction or a straddle;

tax consequences to U.S. holders (as defined below) of notes or shares of common stock whose functional currency is not the U.S. dollar;

tax consequences to investors in pass-through entities;

alternative minimum tax consequences, if any;

any state, local or foreign tax consequences; and

estate or gift taxes consequences, if any.

If a partnership holds notes or shares of common stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner in a partnership holding the notes or shares of common stock, you should consult your tax advisors.

**If you are considering the purchase of notes, you should consult your tax advisors concerning the U.S. federal income tax consequences to you in light of your own specific situation, as well as consequences arising under the laws of any other taxing jurisdiction.**

As used herein, the term "U.S. holder" means a beneficial owner of notes or shares of common stock received upon conversion of the notes that is, for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

## Edgar Filing: MANHATTAN ASSOCIATES INC - Form DEF 14A

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust, if it (i) is subject to the primary supervision of a court within the U.S. and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (ii) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

A non-U.S. holder is a beneficial owner (other than a partnership) of notes or shares of common stock received upon conversion of the notes that is not a U.S. holder. Special rules may apply to certain non-U.S. holders such as controlled foreign corporations, passive foreign investment companies, corporations that accumulate earnings to avoid federal income tax or, in certain circumstances, individuals who are U.S. expatriates. Consequently, non-U.S. holders should consult their tax advisors to determine the U.S. federal, state, local and other tax consequences that may be relevant to them.

## **Table of Contents**

### **Consequences to U.S. Holders**

#### ***Payment of Interest***

Interest on a note will generally be taxable to a U.S. holder as ordinary income at the time it is paid or accrued in accordance with the U.S. holder's usual method of accounting for tax purposes.

#### ***Additional Payments***

We may be required to pay additional amounts to a U.S. holder in certain circumstances described above under the heading "Description of Notes Registration Rights." Because we believe the likelihood that we will be obligated to make any such additional payments on the notes is remote, we are taking the position (and this discussion assumes) that the notes will not be treated as contingent payment debt instruments. Assuming our position is respected, a U.S. holder would be required to include in income such additional amounts at the time payments are received or accrued, in accordance with such U.S. holder's method of accounting for U.S. federal income tax purposes. Our determination that the notes are not contingent payment debt instruments is binding on U.S. holders unless they disclose their contrary positions to the IRS in the manner that is required by applicable U.S. Treasury regulations.

Our determination that the notes are not contingent payment debt instruments is not binding on the Internal Revenue Service (the "IRS"). If the IRS were successfully to challenge our determination and the notes were treated as contingent payment debt instruments, U.S. holders would be required, among other things, to accrue interest income at a rate higher than the stated interest rate on the notes, treat as ordinary income, rather than capital gain, any gain recognized on a sale, exchange or redemption of a note, and treat the entire amount of recognized gain upon a conversion of notes as taxable.

#### ***Market Discount***

If a U.S. holder acquires a note at a cost less than the stated redemption price at maturity of the note, the amount of such difference is treated as market discount, unless such difference is less than 0.25% of the stated redemption price at maturity multiplied by the number of complete years from the date of acquisition to maturity of the note. In general, market discount will be treated as accruing on a straight line basis over the remaining term of the note or, at the U.S. holder's election, under a constant yield method. If such an election is made, it will apply only to the note with respect to which it is made and may not be revoked.

A U.S. holder may elect to include market discount in income over the remaining term of the note. Once made, this election applies to all market discount obligations acquired by such U.S. holder on or after the first taxable year to which the election applies and may not be revoked without the consent of the IRS. If a U.S. holder acquires a note at a market discount and does not elect to include accrued market discount in income over the remaining term of the note, such U.S. holder may be required to defer the deduction of a portion of the interest on any indebtedness incurred or maintained to purchase or carry the note until maturity or until a taxable disposition of the note.

If a U.S. holder acquires a note at a market discount, such U.S. holder will be required to treat any gain recognized on the disposition of the note as ordinary income to the extent of accrued market discount not previously included in income with respect to the note. If a U.S. holder disposes of a note with market discount in one of certain otherwise non-taxable transactions, such U.S. holder must include accrued market discount in income as ordinary income as if such U.S. holder had sold the note at its then fair market value.

#### ***Amortizable Bond Premium***

If a U.S. holder acquires a note at a cost greater than the sum of all amounts payable on the note after the acquisition date, other than payments of qualified stated interest, such U.S. holder generally will be considered to have acquired the note with amortizable bond premium, except to the extent such excess is attributable to the note's conversion feature. The amount attributable to the conversion feature of a note may be determined under any reasonable method, including by comparing the note's purchase price to the market price of a similar note without a conversion feature.

---

**Table of Contents**

A U.S. holder generally may elect to amortize bond premium from the acquisition date to the note's maturity date under a constant yield method. Once made, this election applies to all debt obligations held or subsequently acquired by such U.S. holder on or after the first day of the first taxable year to which the election applies and may not be revoked without the consent of the IRS. The amount amortized in any taxable year generally is treated as an offset to interest income on the note and not as a separate deduction.

***Sale, Redemption or Other Taxable Disposition of Notes***

Except as provided below under *Consequences to U.S. Holders Conversion of Notes*, a U.S. holder will generally recognize gain or loss upon the sale, redemption or other taxable disposition of a note equal to the difference between the amount realized (less accrued interest which will be taxable as such) upon the sale, redemption or other taxable disposition and such U.S. holder's adjusted tax basis in the note. A U.S. holder's tax basis in a note will generally be equal to the amount that the U.S. holder paid for the note, increased by any market discount previously included in income with respect to the note, and reduced by any premium previously deducted (or used to offset interest income) with respect to the note. Except as set forth above under *Consequences to U.S. Holders Market Discount*, any gain or loss recognized on a taxable disposition of the note will be capital gain or loss. If, at the time of the sale, redemption or other taxable disposition of the note, a U.S. holder is treated as holding the note for more than one year, such gain or loss will be a long-term capital gain or loss. Otherwise, such gain or loss will be a short-term capital gain or loss. In the case of certain non-corporate U.S. holders (including individuals), long-term capital gain generally will be subject to a maximum U.S. federal income tax rate of 15%, which maximum tax rate currently is scheduled to increase to 20% for dispositions occurring during the taxable years beginning on or after January 1, 2011. A U.S. holder's ability to deduct capital losses may be limited.

***Conversion of Notes***

If a U.S. holder receives solely cash in exchange for notes upon conversion, the U.S. holder's gain or loss will be determined in the same manner as if the U.S. holder disposed of the notes in a taxable disposition (as described above under *Consequences to U.S. Holders Sale, Redemption or Other Taxable Disposition of Notes*). The tax treatment of a conversion of a note into cash and common stock is uncertain, and U.S. holders should consult their tax advisors regarding the consequences of such a conversion.

*Treatment as a Recapitalization.* If a combination of cash and stock is received in exchange for notes upon conversion, we intend to take the position that the notes are securities for U.S. federal income tax purposes and that, as a result, the exchange would be treated as a recapitalization. In such case, gain, but not loss, would be recognized. The gain would be equal to the excess of the fair market value of the common stock and cash received (other than amounts attributable to accrued interest, which will be treated as such, and cash in lieu of a fractional share) over a U.S. holder's adjusted tax basis in the notes (excluding the portion of the tax basis that is allocable to any fractional share), but in no event should the gain required to be recognized exceed the amount of cash received. The amount of gain or loss recognized on the receipt of cash in lieu of a fractional share would be equal to the difference between the amount of cash a U.S. holder receives in respect of the fractional share and the portion of the U.S. holder's adjusted tax basis in the note that is allocable to the fractional share.

The tax basis of the shares of common stock received upon a conversion (other than common stock attributable to accrued interest, the tax basis of which would equal the amount of accrued interest with respect to which the common stock was received) would equal the adjusted tax basis of the note that was converted (excluding the portion of the tax basis that is allocable to any fractional share), reduced by the amount of any cash received (other than cash received in lieu of a fractional share or cash attributable to accrued interest), and increased by the amount of gain, if any, recognized (other than with respect to a fractional share). A U.S. holder's holding period for shares of common stock would include the period during which the U.S. holder held the notes, except that the holding period of any common stock received with respect to accrued interest would commence on the day after the date of receipt.

---

## **Table of Contents**

*Alternative Treatment as Part Conversion and Part Redemption.* If the conversion of a note into cash and common stock were not treated as a recapitalization, the cash payment received would generally be treated as proceeds from the sale of a portion of the note and taxed in the manner described under *Consequences to U.S. Holders Sale, Redemption or Other Taxable Disposition of Notes* above (or in the case of cash received in lieu of a fractional share, taxed as a disposition of a fractional share), and the common stock received would be treated as received upon a conversion of the note, which generally would not be taxable to a U.S. holder except to the extent of any common stock received with respect to accrued interest. In that case, the U.S. holder's tax basis in the note would generally be allocated pro rata among the common stock received, the fractional share that is sold for cash and the portion of the note that is treated as sold for cash. The holding period for the common stock received in the conversion would include the holding period for the note being converted.

### ***Distributions***

Distributions, if any, made on our common stock generally will be included in a U.S. holder's income as ordinary dividend income to the extent of our current and accumulated earnings and profits. However, with respect to dividends received by individuals, for taxable years beginning before January 1, 2011, such dividends are generally taxed at the lower applicable long-term capital gains rates, provided certain holding period requirements are satisfied. Distributions in excess of our current and accumulated earnings and profits will be treated as a return of capital to the extent of a U.S. holder's adjusted tax basis in the common stock and thereafter as capital gain from the sale or exchange of such common stock. Dividends received by a corporation may be eligible for a dividends received deduction, subject to applicable limitations.

### ***Constructive Distributions***

The conversion rate of the notes will be adjusted in certain circumstances. Adjustments (or failures to make adjustments) that have the effect of increasing a U.S. holder's proportionate interest in our assets or earnings may in some circumstances result in a deemed distribution to a U.S. holder for U.S. federal income tax purposes. Adjustments to the conversion rate made pursuant to a bona fide reasonable adjustment formula that has the effect of preventing the dilution of the interest of the holders of the notes, however, will generally not be considered to result in a deemed distribution to a U.S. holder. Certain of the possible conversion rate adjustments provided in the notes (including, without limitation, adjustments in respect of taxable dividends to holders of our common stock) will not qualify as being pursuant to a bona fide reasonable adjustment formula. If such adjustments are made, a U.S. holder will be deemed to have received a distribution even though the U.S. holder has not received any cash or property as a result of such adjustments. Any deemed distributions will be taxable as a dividend, return of capital, or capital gain in accordance with the earnings and profits rules under the Code. It is not clear whether a constructive dividend deemed paid to a U.S. holder would be eligible for the preferential rates of U.S. federal income tax applicable in respect of certain dividends received. It is also unclear whether corporate holders would be entitled to claim the dividends received deduction with respect to any such constructive dividends. Because a constructive dividend deemed received by a U.S. holder would not give rise to any cash from which any applicable withholding tax could be satisfied, if we pay backup withholding taxes on behalf of a U.S. holder (because such U.S. holder failed to establish an exemption from backup withholding), we may, at our option, set-off any such payment against payments of cash and common stock payable on the notes (or, in certain circumstances, against any payments on the common stock).

### ***Sale, Certain Redemptions or Other Taxable Dispositions of Common Stock***

Upon the sale, certain redemptions or other taxable dispositions of our common stock, a U.S. holder generally will recognize capital gain or loss equal to the difference between (i) the amount of cash and the fair market value of any property received upon such taxable disposition and (ii) the U.S. holder's adjusted tax basis in the common stock. Such capital gain or loss will be long-term capital gain or loss if a U.S. holder's holding period in the common stock is more than one year at the time of the taxable disposition. Long-term capital gains recognized by certain non-corporate U.S. holders (including individuals) will generally be subject to a maximum U.S. federal income tax rate of 15%, which maximum is currently scheduled to increase to 20% for dispositions occurring during taxable years beginning on or after January 1, 2011. The deductibility of capital losses is subject to limitations.

## **Table of Contents**

### ***Possible Effect of the Change in Conversion After a Public Acquirer Change in Control***

In certain situations, we may provide for the conversion of the notes into shares of an acquirer (as described above under *Description of Notes* *Adjustment To Conversion Rate* *Conversion After a Public Acquirer Change in Control* ). Depending on the circumstances, such adjustments could result in a deemed taxable exchange to a holder and the modified note could be treated as newly issued at that time, potentially resulting in the recognition of taxable gain or loss.

### ***Information Reporting and Backup Withholding***

Information reporting requirements generally will apply to payments of interest on the notes and dividends on shares of common stock and to the proceeds of a sale of a note or share of common stock paid to a U.S. holder unless the U.S. holder is an exempt recipient such as a corporation. Backup withholding will apply to those payments if the U.S. holder fails to provide its correct taxpayer identification number, or certification of exempt status, or if the U.S. holder is notified by the IRS that it has failed to report in full payments of interest and dividend income. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a U.S. holder's U.S. federal income tax liability provided the required information is furnished timely to the IRS.

### **Consequences to Non-U.S. Holders**

#### ***Payments of Interest***

The 30% U.S. federal withholding tax will not be applied to any payment of interest to a non-U.S. holder provided that:

the non-U.S. holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock that are entitled to vote within the meaning of section 871(h)(3) of the Code;

the non-U.S. holder is not a controlled foreign corporation that is related to us (actually or constructively) through stock ownership;

the non-U.S. holder is not a bank whose receipt of interest on a note is described in section 881(c)(3)(A) of the Code; and

(a) the non-U.S. holder provides its name and address, and certifies, under penalties of perjury, that it is not a U.S. person (which certification may be made on an IRS Form W-8BEN (or other applicable form)) or (b) the non-U.S. holder holds the notes through certain foreign intermediaries or certain foreign partnerships, and the non-U.S. holder and the foreign intermediary or foreign partnership satisfies the certification requirements of applicable Treasury regulations.

Special certification rules apply to non-U.S. holders that are pass-through entities.

If a non-U.S. holder cannot satisfy the requirements described above, payments of interest will be subject to the 30% U.S. federal withholding tax, unless the non-U.S. holder provides us with a properly executed (1) IRS Form W-8BEN (or other applicable form) claiming an exemption from or reduction in withholding under the benefit of an applicable income tax treaty or (2) IRS Form W-8ECI (or other applicable form) stating that interest paid on the notes is not subject to withholding tax because it is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States. If a non-U.S. holder is engaged in a trade or business in the United States and interest on the notes is effectively connected with the conduct of that trade or business and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment, then (although the non-U.S. holder will be exempt from the 30% withholding tax provided the certification requirements discussed above are satisfied) the non-U.S. holder will be subject to U.S. federal income tax on that interest on a net income basis in the same manner as if the non-U.S. holder were a U.S. holder. In addition, if a non-U.S. holder is a foreign corporation, it may be subject to a branch profits tax equal to 30% (or lesser rate under an applicable income tax treaty) of its earnings and profits for the taxable year, subject to adjustments, that are effectively connected with its conduct of a trade or business in the United States.

---

**Table of Contents**

Payments of additional interest, if any, may be subject to U.S. withholding tax. We intend to withhold tax at a rate of 30% on any payment of such interest made to a non-U.S. holder unless we receive certain certifications from the non-U.S. holder claiming that such payments are subject to reduction or elimination of withholding under an applicable treaty or that such payments are effectively connected with such holder's conduct of a trade or business in the United States, each as described above. If we withhold tax from any payment of additional interest made to a non-U.S. holder and such payment were determined not to be subject to U.S. federal tax, a non-U.S. holder would be entitled to a refund of any tax withheld.

***Dividends and Constructive Distributions***

Any dividends paid to a non-U.S. holder with respect to the shares of common stock (and any deemed dividends resulting from certain adjustments, or failure to make adjustments, to the conversion rate, see *Consequences to U.S. Holders Constructive Distributions* above) will be subject to withholding tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. However, dividends that are effectively connected with the conduct of a trade or business within the United States and, where a tax treaty applies, are attributable to a U.S. permanent establishment, are not subject to the withholding tax, but instead are subject to U.S. federal income tax on a net income basis at applicable graduated individual or corporate rates. Certain certification requirements and disclosure requirements must be complied with in order for effectively connected income to be exempt from withholding. Any such effectively connected income received by a foreign corporation may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. Because a constructive dividend deemed received by a non-U.S. holder would not give rise to any cash from which any applicable withholding tax could be satisfied, if we pay withholding taxes on behalf of a non-U.S. holder, we may, at our option, set-off any such payment against payments of cash and common stock payable on the notes (or, in certain circumstances, against any payments on the common stock).

A non-U.S. holder of shares of common stock who wishes to claim the benefit of an applicable treaty rate is required to satisfy applicable certification and other requirements. If a non-U.S. holder is eligible for a reduced rate of U.S. withholding tax pursuant to an income tax treaty, it may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS.

***Sale, Certain Redemptions, Conversion or Other Taxable Dispositions of Notes or Shares of Common Stock***

Gain realized by a non-U.S. holder on the sale, certain redemptions or other taxable disposition of a note or common stock, as well as upon the conversion of a note into cash or into a combination of cash and stock, will not be subject to U.S. federal income tax unless:

that gain is effectively connected with a non-U.S. holder's conduct of a trade or business in the United States (and, if required by an applicable income treaty, is attributable to a U.S. permanent establishment);

the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or

we are or have been a U.S. real property holding corporation (a USRPHC) for U.S. federal income tax purposes during the shorter of the non-U.S. holder's holding period or the 5-year period ending on the date of disposition of the notes or common stock, as the case may be.

If a non-U.S. holder is an individual described in the first bullet point above, it will be subject to tax on the net gain derived from the sale, redemption, conversion or other taxable disposition of a note or common stock under regular graduated U.S. federal income tax rates. If a non-U.S. holder is an individual described in the second bullet point above, such holder will be subject to a flat 30% tax on the gain recognized on the sale, redemption, conversion or other taxable disposition of a note or common stock, which gain may be offset by U.S. source capital losses, even though such holder is not considered a resident of the United States. If a non-U.S. holder is a foreign corporation

## **Table of Contents**

that falls under the first bullet point above, it will be subject to tax on its net gain generally in the same manner as if it were a U.S. person as defined under the Code and, in addition, it may be subject to the branch profits tax equal to 30% of its effectively connected earnings and profits, or at such lower rate as may be specified by an applicable income tax treaty. Any common stock which a non-U.S. holder receives on the conversion of a note which is attributable to accrued interest will be subject to U.S. federal income tax in accordance with the rules for taxation of interest described above under *Consequences to Non-U.S. Holders Payments of Interest*. We believe that we are not and we do not anticipate becoming a USRPHC for U.S. federal income tax purposes.

### ***Information Reporting and Backup Withholding***

Generally, we must report annually to the IRS and to non-U.S. holders the amount of interest and dividends paid to non-U.S. holders and the amount of tax, if any, withheld with respect to those payments. Copies of the information returns reporting such interest, dividends and withholding may also be made available to the tax authorities in the country in which a non-U.S. holder resides under the provisions of an applicable income tax treaty.

In general, a non-U.S. holder will not be subject to backup withholding with respect to payments of interest or dividends that we make, provided the statement described above in the last bullet point under *Consequences to Non-U.S. Holders Payments of Interest* has been received (and we do not have actual knowledge or reason to know that the holder is a U.S. person, as defined under the Code, that is not an exempt recipient). In addition, a non-U.S. holder will be subject to information reporting and, depending on the circumstances, backup withholding with respect to payments of the proceeds of the sale of a note or share of common stock within the United States or conducted through certain U.S.-related financial intermediaries, unless the statement described above has been received (and we do not have actual knowledge or reason to know that a holder is a U.S. person, as defined under the Code, that is not an exempt recipient) or the non-U.S. holder otherwise establishes an exemption. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a non-U.S. holder's U.S. federal income tax liability provided the required information is furnished timely to the IRS.

**RISK FACTORS**

Before you invest in any of our securities, in addition to the other information in this prospectus and the applicable prospectus supplement, you should carefully consider the risk factors under the heading **Factors That May Affect Amgen** (or similar heading) in our current report on Form 8-K filed with the SEC on February 13, 2006, which is incorporated by reference into this prospectus and the applicable prospectus supplement, as the same may be updated from time to time by our future filings under the Securities Exchange Act.

**USE OF PROCEEDS**

We are filing the registration statement of which this prospectus is a part to permit the holders of our securities described in the section entitled **Selling Security Holders** of the applicable accompanying prospectus supplement to resell such securities. We will not receive any of the proceeds from the resale of the securities from time to time by such holders.

**DIVIDEND POLICY**

Subject to preferences that may be applicable to any outstanding preferred stock, the holders of common stock are entitled ratably to receive dividends, if any, declared by our board of directors out of funds legally available for the payment of dividends. We have not paid cash dividends to date and do not expect to pay any cash dividends in the foreseeable future.

**RATIO OF EARNINGS TO FIXED CHARGES**

	<b>Year Ended December 31,</b>				
	<b>2001</b>	<b>2002</b>	<b>2003</b>	<b>2004</b>	<b>2005</b>
Ratio of earnings to fixed charges	46.3x	(1)	44.8x	42.1x	32.0x

(1) Earnings were approximately \$716 million lower than the amount needed to cover fixed charges in this year, as earnings were impacted by a write-off of acquired in-process research and development of approximately \$3.0 billion related to the acquisition of Immunex Corporation.

For these ratios, earnings is computed by adding income before income taxes and fixed charges (excluding capitalized interest) and excluding Amgen's share of income/losses in its equity method affiliates. Fixed charges consist of interest expense, including capitalized interest, amortized premiums, discounts and capitalized expenses related to indebtedness and estimated interest included in rental expense.

In February 2006, we raised \$5.0 billion of cash proceeds by issuing convertible notes at par in a private placement. Of the \$5.0 billion convertible notes, \$2.5 billion pay interest at 0.125 percent and are due in 2011 and \$2.5 billion pay interest at 0.375 percent and are due in 2013. The notes are convertible into cash, and under certain terms and conditions, shares of our common stock.

**SELLING SECURITY HOLDERS**

The selling security holders are persons or entities who have acquired or will acquire from us from time to time common stock, preferred stock, debt securities and/or warrants in one or more unregistered private offerings. Such selling security holders are or will be parties to registration rights agreements with us, or we otherwise have agreed or will agree to register their securities for resale. Selling security holders, including their transferees, pledgees, donees or successors, may from time to time offer and sell the securities pursuant to this prospectus or any applicable prospectus supplement.

The selling security holders may offer all or some portion of the securities they hold. To the extent that any of the selling security holders are broker-dealers, they are deemed to be, under interpretations of the SEC, underwriters within the meaning of the Securities Act of 1933, as amended.

The applicable prospectus supplement will set forth the name of each selling security holder and the number and type of our securities beneficially owned by such selling security holder that are covered by such prospectus supplement. The applicable prospectus supplement will also disclose whether any selling security holder has held any position or office with, has been employed by or otherwise has had a material relationship with us during the three years prior to the date of the prospectus supplement.

**PLAN OF DISTRIBUTION**

We are registering the securities to provide the selling security holders with freely tradable securities, but the registration of these securities does not necessarily mean that any of these securities will be offered or sold by the holders.

We will not receive any proceeds from the sale of the securities by the selling security holders, but we have agreed, in certain cases, to pay the following expenses of the registration of such securities:

all registration and filing fees;

fees and expenses for complying with securities or blue sky laws, including reasonable fees and disbursements of counsel in connection with blue sky qualifications; and

the fees and expenses incurred in connection with listing the securities on each securities exchange on which similar issued securities are then listed.

We have no obligation to pay any underwriting fees, discounts or commissions attributable to the resale of the securities by the selling security holders. We also have no obligation to pay any out-of-pocket expenses of the selling security holders, or the agents who manage their accounts, or any transfer taxes relating to the registration or sale of the securities contemplated hereby.

The selling security holders may from time to time sell the securities covered by this prospectus and any accompanying prospectus directly to purchasers. Alternatively, the selling security holders may from time to time offer such securities through dealers or agents, who may receive compensation in the form of commissions from the selling security holders and for the purchasers of such securities for whom they may act as agent. The securities may be sold in one or more transactions at fixed prices, at prevailing market prices, at prices related to the prevailing market prices, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in cross, block or other types of transactions:

on any national securities exchange or U.S. inter-dealer system of a registered national securities association on which the securities may be listed or quoted at the time of sale;

in the over-the-counter market;

in transactions otherwise than on these exchanges or systems or in the over-the-counter market;

**Table of Contents**

through the writing of options, whether the options are listed on an options exchange or otherwise;

through the settlement of short sales; or

through any other legally available means.

In addition, any securities covered by this prospectus that qualify for sale pursuant to Rule 144 or Rule 144A of the Securities Act may be sold under Rule 144 or Rule 144A rather than pursuant to this prospectus.

The selling security holders and any dealers or agents that participate in the distribution of such securities may be deemed to be underwriters within the meaning of the Securities Act and any profit on the resale of the securities by them and any commissions received by any of these dealers or agents might be deemed to be underwriting commissions under the Securities Act.

In connection with distribution of the securities covered by this prospectus:

the selling security holders may enter into hedging transactions with broker-dealers;

the broker-dealers may engage in short sales of the securities in the course of hedging the positions they assume with the selling security holders;

the selling security holders may sell the securities short and deliver the securities to close out these short positions;

the selling security holders may enter into option or other transactions with broker-dealers that involve the delivery of the securities to the broker-dealers, who may then resell or otherwise transfer the securities; and

the selling security holders may loan or pledge the securities to a broker-dealer or other person or entity and the broker-dealer or other person or entity may sell the securities so loaned or upon a default may sell or otherwise transfer the pledged securities.

Persons participating in the distribution of the securities offered by this prospectus may engage in transactions that stabilize the price of the securities. The anti-manipulation rules of Regulation M under the Securities Exchange Act may apply to sales of the securities in the market and to the activities of the selling security holders.

To the extent required, the securities to be sold, the names of the selling security holders, the respective purchase prices and public offering prices, the names of any agent, dealer or underwriter, and any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement of which this prospectus is a part.
