THE COMPANY

Our Business

We are the third largest retail drugstore chain in the United States based on revenues and number of stores. We operate our drugstores in 28 states

Edgar Filing: RITE AID CORP - Form S-8

across the country and in the District of Columbia. As of February 26, 2005, we operated 3,356 stores.

In our stores, we sell prescription drugs and a wide assortment of other merchandise, which we call "front-end" products. In fiscal 2005, prescription drug sales accounted for 63.6% of our total sales. We believe that our pharmacy operations will continue to represent a significant part of our business due to our on-going program of purchasing prescription files from independent pharmacies and favorable industry trends, including an aging population, increased life expectancy, a new federally funded prescription drug benefit to begin in calendar 2006, which is part of the Medicare Prescription Drug Improvement and Modernization Act of 2003, and the discovery of new and better drug therapies. We offer approximately 24,000 front-end products, which accounted for the remaining 36.4% of our total sales in fiscal 2005. Front-end products include over-the-counter medications, health and beauty aids, personal care items, cosmetics, household items, beverages, convenience foods, greeting cards, seasonal merchandise and numerous other everyday and convenience products, as well as photo processing. We distinguish our stores from other national chain drugstores, in part, through our private brands and our strategic alliance with General Nutrition Companies, Inc. ("GNC"), a leading retailer of vitamin and mineral supplements. We offer approximately 2,400 products under the Rite Aid private brand, which contributed approximately 11.5% of our front-end sales in the categories where private brands were offered in fiscal 2005.

Our stores range in size from approximately 5,000 to 40,000 square feet. The overall average size of each store in our chain is approximately 12,750 feet. The larger stores are concentrated in the western United States. Approximately 54% of our stores are freestanding; 39% of our stores include a drive-thru pharmacy; 75% include one-hour photo shops; and 31% include a GNC store within Rite-Aid store.

Our headquarters are located at 30 Hunter Lane, Camp Hill, Pennsylvania 17011, and our telephone number is (717) 761-2633. Our common stock is listed on the New York Stock Exchange and the Pacific Exchange under the symbol "RAD". We were incorporated in 1968 and are a Delaware Corporation.

4

RISK FACTORS

Prospective investors should carefully review the following factors together with the other information contained in this reoffer prospectus prior to making an investment decision.

Risks Related to Our Financial Condition

We are highly leveraged. Our substantial indebtedness could limit cash flow available for our operations and could adversely affect our ability to service debt or obtain additional financing if necessary.

We had, as of February 26, 2005, \$3.3 billion of outstanding indebtedness (not including obligations under the receivables securitization agreement) and stockholders' equity of \$322.9 million. We also had additional borrowing capacity under our revolving credit facility of \$835.9 million at that time, net of outstanding letters of credit of \$114.1 million. Our debt obligations adversely affect our operations in a number of ways and while we

Edgar Filing: RITE AID CORP - Form S-8

believe we have adequate sources of liquidity to meet our anticipated requirements for working capital, debt service and capital expenditures through fiscal year 2006, there can be no assurance that our cash flow from operations will be sufficient to service our debt, which may require us to borrow additional funds for that purpose, restructure or otherwise refinance our debt. Our ratio of earnings to fixed charges for fiscal 2005 was 1:15. Our earnings were insufficient to cover our fixed charges for fiscal 2004 by \$2.6 million and considerably higher amounts prior to fiscal 2004.

Our high level of indebtedness will continue to restrict our operations. Among other things, our indebtedness will:

- o limit our ability to obtain additional financing;
- o limit our flexibility in planning for, or reacting to, changes in the markets in which we compete;
- o place us at a competitive disadvantage relative to our competitors with less indebtedness;
- o render us more vulnerable to general adverse economic and industry conditions; and
- o require us to dedicate a substantial portion of our cash flow to service our debt.

Our ability to make payments on our debt depends upon our ability to substantially improve our operating performance, which is subject to general economic and competitive conditions and to financial, business and other factors, many of which we cannot control. If our cash flow from our operating activities is insufficient, we may take certain actions, including delaying or reducing capital or other expenditures, attempting to restructure or refinance our debt, selling assets or operations or seeking additional equity capital. We may be unable to take any of these actions on satisfactory terms or in a timely manner. Further, any of these actions may not be sufficient to allow us to service our debt obligations or may have an adverse impact on our business. Our existing debt agreements limit our ability to take certain of these actions. Our failure to earn enough to pay our debts or to successfully undertake any of these actions could have a material adverse effect on us.

5

Borrowings under our senior credit facility and expenses related to the sale of our accounts receivable under our receivables securitization agreements are based upon variable rates of interest, which could result in higher expense in the event of increases in interest rates.

Approximately \$448.9 million of our outstanding indebtedness as of February 26, 2005 bears an interest rate that varies depending upon LIBOR. If we borrow additional amounts under our senior credit facility, the interest rate on those borrowings will also vary depending upon LIBOR. Further, we pay on-going program fees under our receivables securitization agreements that vary depending upon LIBOR. If LIBOR rises, the interest rates on outstanding debt and the program fees under our receivables securitization program will increase. Therefore an increase in LIBOR would increase our interest payment obligations under these outstanding loans, increase our receivables securitization program fee payments and have a negative effect on our cash flow and financial condition. We currently do not maintain any hedging contracts that would limit our exposure to variable rates of interest.

Edgar Filing: RITE AID CORP - Form S-8

The covenants in our outstanding indebtedness impose restrictions that may limit our operating and financial flexibility.

The covenants in the instruments that govern our outstanding indebtedness restrict our ability to:

- o incur liens and debt;
- o pay dividends;
- o make redemptions and repurchases of capital stock;
- o make loans and investments;
- o prepay, redeem or repurchase debt;
- o engage in mergers, consolidations, assets dispositions, sale-leaseback transactions and affiliate transactions;
- o change our business;
- o amend some of our debt and other material agreements;
- o issue and sell capital stock of subsidiaries;
- o restrict distributions from subsidiaries; and
- o grant negative pledges to other creditors.

In addition, if we have less than \$300.0 million available under our revolving credit facility, we will be subject to certain financial covenant ratios. If we are unable to meet the terms of the financial covenant ratios or if we breach any of these covenants, a default could result under one or more of these agreements. A default, if not waived by our lenders, could result in the acceleration of our outstanding indebtedness and cause our debt to become immediately due and payable. If acceleration occurs, we would not be able to repay our debt and it is unlikely that we would be able to borrow sufficient additional funds to refinance such debt. Even if new financing is made available to us, it may not be available on terms acceptable to us.

6

If we obtain modifications of our agreements or are required to obtain waivers of defaults, we may incur significant fees and transaction costs. In fiscal 2005 and the previous four fiscal years, we modified certain covenants contained in our then existing senior credit facility and loan agreements. In connection with obtaining these modifications, we paid significant fees and transaction costs.

Risks Related to our Operations

We need to continue to improve our operations in order to improve our financial condition, but our operations will not improve if we cannot continue to effectively implement our business strategy or if our strategy is negatively affected by general economic conditions.

We have not yet achieved the sales productivity level of our major competitors. We believe that improving the sales of existing stores is

Edgar Filing: RITE AID CORP - Form S-8

important to achieving profitability and continuing to improve operating cash flow. If we are not successful in implementing our strategy, or if our strategy is not effective, we may not be able to continue to improve our operations. In addition, any adverse change in general economic conditions can adversely affect consumer buying practices and reduce our sales of front-end products, which are our higher margin products, and cause a proportionately greater decrease in our profitability. Failure to continue to improve operations or a decline in general economic conditions would adversely affect our results of operations, financial condition and cash flows and our ability to make principal or interest payments on our debt.

Our new store and store relocation development program requires entering into construction and development commitments and occasionally purchasing land that will not be utilized for several years which may limit our financial flexibility.

We will enter into significant construction and development commitments as part of our new store and store relocation development program. Also, we will occasionally make capital expenditures to acquire land that may not be used for several years. Even if there are significant negative economic or competitive developments in our industry, financial condition or the regions where we have made these commitments, we are obligated to fulfill these commitments. Further, if we subsequently dispose of property that we acquire, we may receive less than our purchase price or the net book value of such property, which may result in financial loss.

We are dependent on our management team and the loss of their services could have a material adverse effect on our business and the results of our operations or financial condition.

The success of our business is materially dependent upon the continued services of our executive management team. The loss of key personnel could have a material adverse effect on the results of our operations, financial condition and cash flows. Additionally, we cannot assure you that we will be able to attract or retain other skilled personnel in the future.

There are currently pending both civil and criminal investigations by the United States Attorney. In addition to any fines or damages that we might have to pay, any criminal conviction against us may result in the loss of licenses and contracts that are material to the conduct of our business, which would have a negative effect on our results of operations, financial condition and cash flows.

There are currently pending both civil and criminal governmental investigations by the United States Attorney involving matters related to prior management's business practices. Settlement discussions have begun with the United States Attorney of the Middle District of Pennsylvania, who has proposed that the government would not institute any criminal proceeding against us if we enter into a consent judgment providing for a civil penalty payable over a period of years. The amount of the civil

penalty has not been agreed to and there can be no assurance that a settlement will be reached or that the amount of such penalty will not have a material adverse effect on our financial condition and results of operations. We recorded an accrual of \$20.0 million in fiscal 2003 in connection with the resolution of these matters; however, we may incur charges in excess of that amount and we are unable to estimate the possible range of loss. We will

Edgar Filing: RITE AID CORP - Form S-8

continue to evaluate our estimate and to the extent that additional information arises or our strategy changes, we will adjust our accrual accordingly.

If we were convicted of any crime, certain licenses and government contracts, such as Medicaid plan reimbursement agreements, that are material to our operations may be revoked, which would have a material adverse effect on our results of operations and financial condition. In addition, substantial penalties, damages, or other monetary remedies assessed against us could also have a material adverse effect on our results of operations, financial condition and cash flows.

Given the size and nature of our business, we are subject from time to time to various lawsuits which, depending on their outcome, may have a negative impact on our results of operations, financial condition and cash flows.

We are substantially dependent on a single supplier of pharmaceutical products to sell products to us on satisfactory terms. A disruption in this relationship would have a negative effect on our results of operations, financial condition and cash flow.

We obtain approximately 93% of our pharmaceutical products from a single supplier, McKesson Corp. (or McKesson), pursuant to a contract that runs until March 2009. Pharmacy sales represented approximately 63.6% of our total sales in fiscal 2005, and, therefore, our relationship with McKesson is important to us. Any significant disruptions in our relationship with McKesson would make it difficult for us to continue to operate our business until we executed a replacement strategy. There can be no assurance that we would be able to find a replacement supplier on a timely basis or that such supplier would be able to fulfill our demands on similar terms, which could have a material adverse effect on our results of operations, financial condition and cash flows.

Risks Related to Our Industry

The markets in which we operate are very competitive and further increases in competition could adversely affect us.

We face intense competition with local, regional and national companies, including other drugstore chains, independently owned drugstores, supermarkets, mass merchandisers, discount stores, dollar stores and mail order pharmacies. Our industry also faces growing competition from companies who import drugs directly from other countries, such as Canada. We may not be able to effectively compete against them because our existing or potential competitors may have financial and other resources that are superior to ours. In addition, we may be at a competitive disadvantage because we are more highly leveraged than our competitors. The ability of our stores to achieve profitability depends on their ability to achieve a critical mass of customers. We believe that the continued consolidation of the drugstore industry will further increase competitive pressures, in the industry. As competition increases, a significant increase in general pricing pressures could occur which would require us to increase our sales volume and to sell higher margin products and services in order to remain competitive. We cannot assure you that we will be able to continue to compete effectively in our markets or increase our sales volume in response to further increased competition.

Another adverse trend for drugstore retailing has been initiatives to contain rising healthcare costs leading to the rapid growth in mail-order prescription processors. These prescription distribution methods

have grown in market share relative to drugstores as a result of the rapid rise in drug costs experienced in recent years and are predicted to continue to rise. Mail-order prescription distribution methods are perceived by employers and insurers as being less costly than traditional distribution methods and are being encouraged, and, in some cases, required, by third party pharmacy benefit managers, employers and unions that administer benefits. As a result, some labor unions and employers are requiring, and others may encourage or require, that their members or employees obtain medications from mail-order pharmacies which offer drug prescriptions at prices lower than we are able to offer. For example, when we announced our fourth-quarter earnings for fiscal 2005, we disclosed that our sales continued to be negatively impacted by mandatory mail prescription programs, including the United Auto Workers' program. Mail-order prescription distribution has negatively affected sales for traditional chain drug retailers, including us, in the last few years and we expect such negative effect to continue in the future. There can be no assurance that our efforts to offset the affects of mail order will be successful.

Changes in third-party reimbursement levels for prescription drugs could reduce our margins and have a material adverse effect on our business.

Sales of prescription drugs, as a percentage of sales, and the percentage of prescription sales reimbursed by third parties have been increasing and we expect them to continue to increase. In fiscal 2005, sales of prescription drugs represented 63.6% of our sales and 93.5% of all the prescription drugs that we sold were with third-party payors. During fiscal 2005, the top five third-party payors accounted for approximately 31.6% of our total sales, the largest of which was approximately 10.4% of our total sales. Any significant loss of third-party provider business could have a material adverse effect on our business and results of operations. Also, these third-party payors could reduce the levels at which they will reimburse us for the prescription drugs that we provide to their members. Furthermore, the passing in December 2003 of the Medicare Prescription Drug, Improvement and Modernization Act will grant a prescription drug benefit to participants. As a result of this benefit, we may be reimbursed for some prescription drugs at prices lower than our current reimbursement levels. In fiscal 2005, approximately 12.4% of our revenues were from state sponsored Medicaid agencies. There have been a number of recent proposals and enactments by various states to reduce Medicaid reimbursement levels in response to budget problems, some of which propose to reduce reimbursement levels in the applicable states significantly, and we expect other similar proposals in the future. If third-party payors reduce their reimbursement levels or if Medicare or state Medicaid programs cover prescription drugs at lower reimbursement levels, our margins on these sales would be reduced, and the profitability of our business and our results of operations, financial condition or cash flows could be adversely affected.

We are subject to governmental regulations, procedures and requirements; our noncompliance or a significant regulatory change could adversely affect our business, the results of our operations or our financial condition.

Our pharmacy business is subject to federal, state and local regulation. These include local registrations of pharmacies in the states where our pharmacies are located, applicable Medicare and Medicaid regulations, and prohibitions against paid referrals of patients. Failure to properly adhere to these and other applicable regulations could result in the imposition of civil and criminal penalties including suspension of payments from government

Edgar Filing: RITE AID CORP - Form S-8

programs; loss of required government certifications; loss of authorizations to participate in or exclusion from government reimbursement programs, such as the Medicare and Medicaid programs; loss of licenses; significant fines or monetary penalties for anti-kickback law violations, submission of false claims or other failures to meet reimbursement program requirements and could adversely affect the continued operation of our business. Furthermore, our pharmacies could be affected by federal and state reform programs, such as healthcare reform initiatives, the passing of which could, in turn, negatively affect our business. The passing of these initiatives or any

9

new federal or state programs could adversely affect our results of operations, financial condition and cash flows.

Our pharmacy business is subject to patient privacy and other obligations, including corporate, pharmacy and associate responsibility, imposed by the Health Insurance Portability and Accountability Act. As a covered entity, we are required to implement privacy standards, train our associates on the permitted uses and disclosures of protected health information, provide a notice of privacy practice to our pharmacy customers and permit pharmacy customers to access and amend their records and receive an accounting of disclosures of protected health information. Failure to properly adhere to these requirements could result in the imposition of civil as well as criminal penalties.

Certain risks are inherent in providing pharmacy services; our insurance may not be adequate to cover any claims against us.

Pharmacies are exposed to risks inherent in the packaging and distribution of pharmaceuticals and other healthcare products, such as with respect to improper filling of prescriptions, labeling of prescriptions, adequacy of warnings and unintentional distribution of counterfeit drugs. In addition, federal and state laws that require our pharmacists to offer counseling, without additional charge, to their customers about medication, dosage, delivery systems, common side effects and other information the pharmacists deem significant can impact our business. Our pharmacists may also have a duty to warn customers regarding any potential negative effects of a prescription drug if the warning could reduce or negate these effects. Although we maintain professional liability and errors and omissions liability insurance, from time to time, claims result in the payment of significant amounts, some portions of which are not funded by insurance. We cannot assure you that the coverage limits under our insurance programs will be adequate to protect us against future claims, or that we will be able to maintain this insurance on acceptable terms in the future. Our results of operations, financial condition or cash flows may be adversely affected if in the future our insurance coverage proves to be inadequate or unavailable or there is an increase in liability for which we self-insure or we suffer reputational harm as a result of an error or omission.

We will not be able to compete effectively if we are unable to attract, hire and retain qualified pharmacists.

There is a nationwide shortage of qualified pharmacists. In response to this challenge, we have implemented improved competitive benefits and training programs in order to attract, hire and retain qualified pharmacists. We have also expanded our pharmacist recruiting efforts, through an increase in the number of recruiters, a successful pharmacist intern program and improved relations with pharmacy schools. However, we may not be able to

Edgar Filing: RITE AID CORP - Form S-8

attract, hire and retain enough qualified pharmacists. This could adversely affect our operations.

We may be subject to significant liability should the consumption of any of our products cause injury, illness or death.

Products that we sell could become subject to contamination, product tampering, mislabeling or other damage requiring us to recall our private label products. In addition, errors in the dispensing and packaging of pharmaceuticals could lead to serious injury or death. Product liability claims may be asserted against us with respect to any of the products or pharmaceuticals we sell and we may be obligated to recall our private label products. A product liability judgment against us or a product recall could have a material, adverse effect on our business, financial condition or results of operations.

Risks Related to Our Common Stock

You may not be able to sell your common stock when you want to and, if you do, you may not be able to receive the price that you want.

Although our common stock has been actively traded on the New York Stock Exchange and the Pacific Exchange, we do not know if an active trading market for the common stock will continue or, if it does, at what prices the common stock may trade. Since the beginning of fiscal 2001, the reported closing prices for our common stock have ranged from a high of \$9.74 to a low of \$1.75. In addition, the stock markets in general, including the New York Stock Exchange, have experienced extreme price and trading volume fluctuations. These fluctuations have resulted in volatility in the market prices of securities that has often been unrelated or disproportionate to changes in operating performance. These broad market fluctuations may adversely affect the market prices of our common stock. Further, expected and possible issuances described below, will significantly increase the number of shares of our common stock outstanding, and could result in a decline in the market price of our common stock. Therefore, you may not be able to sell our common stock when you want and, if you do, you may not receive the price you want.

Various planned issuances of stock will be, and our continuing debt restructuring efforts may be dilutive to holders of our common stock.

As of April 23, 2005, 520,946,894 shares of our common stock were outstanding and an additional 196,994,792 shares of our common stock were issuable related to outstanding stock options (1,404,488 of which are included as part of this reoffer prospectus), convertible notes and convertible preferred stock. We will also issue additional shares of common stock pursuant to outstanding options granted pursuant to our other various stock option plans. In addition, we may undertake additional transactions to simplify and restructure our capital structure, which may include, as part of these efforts, additional issuances of equity securities in exchange for our indebtedness. The issuance of additional shares of common stock may be dilutive to the holders of our common stock. We cannot predict the extent to which the dilution, the availability of a large amount of shares for sale, and the possibility of additional issuances and sales of our common stock will negatively affect the trading price of our common stock or the liquidity of our common stock.

(1) The number of shares beneficially owned by the selling stockholders includes restricted stock and options to purchase shares of our common stock under our employee benefit plans, whether or not exercisable as of, or within 60 days of, the date of this prospectus, as well as shares of common stock beneficially owned by the selling stockholder.

Any selling stockholder may from time to time sell under this prospectus any or all of the shares of common stock owned by it. Because the selling stockholder is not obligated to sell any or all of the shares of common stock held by it, we cannot estimate the number of shares of common stock that the selling stockholder will beneficially own after this offering.

PLAN OF DISTRIBUTION

The shares of common stock covered by this reoffer prospectus are being registered by us for the account of the selling stockholders.

The shares of common stock offered hereby may be sold from time to time directly by or on behalf of the selling stockholder in or one more transactions on the New York Stock Exchange, Pacific Exchange or on any stock exchange on which the common stock may be listed at the time of sale, in privately negotiated transactions, or through a combination of such methods, at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at fixed prices (which may be changed) or at negotiated prices. The selling stockholder may sell shares through one or more agents, brokers or dealers or directly to purchasers. Such brokers or dealers may receive compensation in the form of commissions, discounts or concessions from the selling stockholders and/or purchasers of the shares or both. Such compensation as to a particular broker or dealer may be in excess of customary commissions.

In connection with their sales, a selling stockholder and any participating broker or dealer may be deemed to be "underwriters" within the meaning of the Securities Act, and any commissions they receive and the proceeds of any sale of shares may be deemed to be underwriting discounts and commissions under the Securities Act.

We are bearing all costs relating to the registration of the shares

Edgar Filing: RITE AID CORP - Form S-8

of common stock. Any commissions or other fees payable to broker-dealers in connection with any sale of the shares will be borne by the selling stockholder or other party selling such shares. In order to comply with certain states' securities laws, if applicable, the shares may be sold in such jurisdictions only through registered or licensed brokers or dealers. In certain states, the shares may not be sold unless the shares have been registered or qualified for sale in such state, or unless an exemption from registration or qualification is available and is obtained or complied with. Sales of the shares must also be made by the selling stockholders in compliance with all other applicable state securities laws and regulations.

In addition to any shares sold hereunder, selling stockholders may sell shares of common stock in compliance with Rule 144. There is no assurance that the selling stockholders will sell all or a portion of the common stock offered hereby.

The selling stockholders may agree to indemnify any broker-dealer or agent that participates in transactions involving sales of the shares against certain liabilities in connection with the offering of the shares arising under the Securities Act of 1933.

We have notified the selling stockholders of the need to deliver a copy of this prospectus in connection with any sale of the shares.

LEGAL MATTERS

The validity of the shares of common stock which are originally offered under the Registration Statement of which this prospectus forms a part will be passed upon for us by Robert B. Sari, our Senior Vice President, General Counsel and Secretary.

Item 5. Interests of Named Experts and Counsel.

Robert B. Sari, our Senior Vice President and General Counsel owns shares of our common stock and holds options to purchase shares of our common stock.

Item 6. Indemnification of Directors and Officers.

Under Section 145 of the Delaware General Corporation Law ("DGCL"), a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he or she is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a

director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding (i) if such person acted in good faith and in a manner that person reasonably believed to be in or not opposed to the best interests of the corporation and (ii) with respect to any criminal action or proceeding, if he or she had no reasonable cause to believe such conduct was unlawful. In actions brought by or in the right of the corporation, a corporation may indemnify such person against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action or suit if such person acted in good faith and in a manner that person reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification may be made in respect of any claim, issue or matter as to which that person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery of the State of Delaware or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all circumstances of the case, such person is fairly and reasonably entitled to indemnification for such expenses which the Court of Chancery or other such court shall deem proper. To the extent that such person has been successful on the merits or otherwise in defending any such action, suit or proceeding referred to above or any claim, issue or matter therein, he or she is entitled to indemnification for expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith. The indemnification and advancement of expenses provided for or granted pursuant to Section 145 is not exclusive of any other rights of indemnification or advancement of expenses to which those seeking indemnification or advancement of expenses may be entitled, and a corporation may purchase and maintain insurance against liabilities asserted against any former or current, director, officer, employee or agent of the corporation, or a person who is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, whether or not the power to indemnify is provided by the statute.

Article Tenth of our Certificate of Incorporation and Article VIII of our By-laws provide for the indemnification of our directors and officers as authorized by Section 145 of the DGCL.

The directors and officers of us and our subsidiaries are insured

(subject to certain exceptions and deductions) against liabilities which they may incur in their capacity as such, including liabilities under the Securities Act, under liability insurance policies carried by us.

Item 7. Exemption from Registration Claimed.

The securities that are to be reoffered or resold pursuant to this registration statement were issued pursuant to one of our employee benefit plans (2004 Omnibus Equity Plan, 2000 Omnibus Equity Plan or our 1999 Stock Option Plan), in transactions that were exempt from registration pursuant to Section 4(2) under the Securities Act.

Item 9. Undertakings.

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to the registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraph (a) (1) (i) and (a) (1) (ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Sections 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Edgar Filing: RITE AID CORP - Form S-8

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Sections 13(a) or 15(d)

of the Securities Exchange Act of 1934, (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
