BASIC TECHNOLOGIES, INC.  
Notes to Condensed Financial Statements

(Unaudited)

Note 1: Basis of presentation

The financial statements presented herein have been prepared by the Company in accordance with the accounting policies in its Form 10-KSB dated June 30, 2002, and should be read in conjunction with the notes thereto.

The financial information furnished herein has not been audited by an independent accountant; however, in the opinion of management, all adjustments (consisting only of normal recurring adjustments) which are necessary to provide a fair presentation of operating results for the interim period presented have been made. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the year.

Note 2: Income taxes

The Company records its income taxes in accordance with SFAS No. 109, "Accounting for Income Taxes." The Company incurred net operating losses during the three months ended September 30, 2002 resulting in a deferred tax asset, which was fully allowed for; therefore, the net benefit and expense resulted in \$-0- income taxes.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis covers material changes in the financial condition of Basic Technologies, Inc. ("Company" or "us") since June 30, 2002 and material changes in our results of operations for the three months ended September 30, 2002, as compared to the same period in 2001. This discussion and analysis should be read in

conjunction with "Management's Discussion and Analysis" included in the Company's Annual Report on Form 10K-SB for the year ended June 30, 2002, including audited financial statements contained therein, as filed with the Securities and Exchange Commission.

Special note regarding forward-looking statements

This report contains forward-looking statements within the meaning of federal securities laws. These statements plan for or anticipate the future. Forward-looking statements include statements about our future business plans and strategies, statements about our need for working capital, future revenues, results of operations and most other statements that are not historical in nature. In this Report, forward-looking statements are generally identified by the words "intend", "plan", "believe", "expect", "estimate", and the like. Investors are cautioned not to put undue reliance on forward-looking statements. Except as otherwise required by applicable securities statutes or regulations, the Company disclaims any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise. Because forward-looking statements involve future risks and uncertainties, these are factors that could cause actual results to differ materially from those expressed or implied.

Results of Operations

Three Months Ended September 30, 2002, Versus Nine Three Ended September 30, 2001

We incurred a net loss of \$51,032 for the three months ended September 30, 2002, as compared to a net loss of \$184,147 for the three months ended September 30, 2001 primarily due to the reorganization of our business to an Internet Services Provider. In the year earlier period, we provided remediation services, oil field services and high speed internet access.

Sales revenue increased approximately 15% from \$93,924 for the three months ended September 30, 2001, to \$107,632 for the three months ended September 30, 2002 primarily due to the reorganization of our business. We expect to report weak sales until such time as general economic trends improve.

General and administrative expenses decreased approximately 59%, from \$209,130 for the three months ended September 30, 2001, to \$87,455 for the three months ended September 30, 2002 due to office staff reductions and our reorganization.

Interest income decreased from \$1,262 during the three months ended September 30, 2001 to \$-0- for the three months ended September 30, 2002 because we have disposed of our interest bearing investments.

Interest expense decreased from \$24,408 during the three months ended September 30, 2001 to \$-0- for the three months ended September 30, 2002 because we have extinguished our debt.

Financial Condition and Liquidity

The source of our liquidity has been from sales revenue and cash injections in the form of loans and equity investments from interested shareholders. We have current assets of \$52,088 compared with current liabilities \$213,800 as of September 30, 2002.

We continue to suffer from a working capital deficit and have insufficient capital to meet our immediate needs or expand into new areas of business activity. In order to continue as a going concern, it will be necessary for us to raise additional working capital either in the form of debt or equity financings, neither of which can be assured. As of the present time, there exist no plans, understanding or arrangement pursuant to which we expect to receive additional capital infusion. Our working capital requirements have been met on a day-to-day basis by bridge loans from our principal shareholder.

Our strategy includes a plan to expand into new areas of wireless broadband technology. In order to achieve this goal, we will require substantial additional capital, which will in all likelihood result in additional material dilution to our current shareholders. We cannot predict the terms on which conditional financing will be obtained, if at all.
