New facility with approx. 21000 sq. meter of production floor space.

Bonso new manufacturing complex at Xinxing (Guangdong Province, China) has a land area of approximately 130,000 sq. meter. The first phase of construction has been completed which consists of a production facility, a warehouse and three dormitories. The production facility consists of three stories with approximately 21000 sq. meter of production floor space can increase our production capacity.

Anthony So, the Chairman of Bonso, stated, "We are extremely excited about the opening of our new manufacturing facility. The additional production capacity will provide Bonso with the opportunity to expand its business even further. In early 2013, we will begin our second phase construction which will bring a modern and stylish office building to the site."

About Bonso Electronics

Bonso Electronics designs, develops, manufactures, assembles and markets a comprehensive line of electronic scales, weighing instruments, health care products and telecommunications products. Bonso products are manufactured in the People's Republic of China for customers primarily located in North America and Europe. Company services include product design and prototyping, production tooling, procurement of components, total quality management, and just-in-time delivery. Bonso also independently designs and develops electronic products for private label markets. For further information, visit the company's web site at <http://www.bonso.com>.
