REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Employee Benefit Committee of
PG&E Corporation and Participants of
PG&E Corporation Retirement Savings Plan

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of the PG&E Corporation Retirement Savings Plan (the Plan) as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes and supplemental schedule of assets held as of December 31, 2017 (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Information

The supplemental schedule of assets held as of December 31, 2017 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and

Edgar Filing: PG&E Corp - Form 11-K

Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Morris Davis Chan & Tan LLP

We have served as the Plan's auditor since 2008.

PG&E CORPORATION
RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF THE PLAN

General

The following is an overview of the PG&E Corporation Retirement Savings Plan (“Plan” or “RSP”). The Plan document provides a more complete description of the Plan’s provisions.

The Plan is a defined contribution plan covering all non-represented employees of PG&E Corporation and all companies owned by PG&E Corporation (collectively “PG&E Corporation Group”), as designated by PG&E Corporation. The Employee Benefit Committee (“EBC”) of PG&E Corporation has oversight over the administration and financial management of affiliated company employee benefit plans, including this Plan. The EBC retains Fidelity Management Trust Company as the Trustee of the Plan (“Trustee”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The PG&E Corporation Retirement Savings Plan Master Trust (“Master Trust”) holds the investment assets of both the Plan and the PG&E Corporation Retirement Savings Plan for Union-Represented Employees (“Union RSP”). The accompanying financial statements present the assets and liabilities of the Plan only.

Eligibility

In general, all management and administration & technical employees of participating employers within the PG&E Corporation Group are eligible to participate in the Plan, excluding independent contractors, leased employees, and individuals who have a written contract or agreement that excludes participation in the Plan.

Contributions

Participants may elect to contribute any amount in 1 percent increments from 1 to 50 percent of their eligible compensation on a pre-tax basis, on an after-tax basis, or a combination of both. Participants may also contribute amounts representing distributions from other qualified plans into the Plan. Such “rollover” contributions are not subject to federal or state income taxes until withdrawn or distributed from the Plan.

As provided by the Internal Revenue Code (“Code”), the following table provides the dollar limitations under a 401(k) retirement plan for 2017 and 2016. Section 415 of the Code requires the limits to be adjusted annually for cost-of-living increases.

Contribution Type	2017 Limits	2016 Limits
Annual compensation ⁽¹⁾	\$270,000	\$265,000
Defined contribution limits ⁽²⁾	\$54,000	\$53,000
Elective deferral ⁽³⁾	\$18,000	\$18,000
Catch-up contributions ⁽⁴⁾	\$6,000	\$6,000

⁽¹⁾ Annual compensation is eligible compensation for the purposes of the Plan and is limited by the Code.

⁽²⁾ All Plan contributions, including pre-tax and after-tax participant contributions and all employer contributions, may not exceed the lesser of 100 percent of the participant’s eligible compensation or Code limits.

⁽³⁾ Participant pre-tax contributions are considered elective deferrals and are limited by the Code.

⁽⁴⁾ Participants age 50 and older are permitted to make additional pre-tax contributions (catch-up contributions) according to the Code.

All participants hired or rehired on or after January 1, 2013, are eligible for a matching employer contribution of 75 percent of their elective employee contributions up to 8 percent of eligible compensation.

5

All other participating employees hired before January 1, 2013 who elected to contribute to the Plan are eligible for a matching employer contribution of 75 percent of their elective employee contributions up to 6 percent of eligible compensation. In December 2013, these participants were given a one-time opportunity to continue participating in the Final Average Pay Pension under the Retirement Plan or elect, beginning in 2014, to participate in the Cash Balance Pension feature of the Retirement Plan. Participants who elected to participate in the Cash Balance Pension will receive a matching employer contribution of 75 percent of their elective employee contributions up to 8 percent of eligible compensation beginning January 1, 2014.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each account is credited with the participant's elective contributions through payroll deductions, monthly employer contributions, and an allocation of the net investment gains (losses) and certain investment management fees of the Master Trust. Allocations of net investment gains (losses) and fees are based on participant account balances as defined in the Plan Document.

Vesting

Employer and participant elective contributions and their related accumulated earnings and losses are 100 percent vested at all times.

Investment Options

The EBC is responsible for the selection of the Plan's investment fund managers and the selection of the range of investment options. Neither the EBC nor any of the companies within the PG&E Corporation Group is involved in the investment funds' day-to-day investment operations. Individual participants may select from a suite of target date funds, core funds, and a self-directed brokerage account. Approximately every 5 years, a new target date fund is added to maintain a complete target date horizon. Target date funds with target retirement dates that have passed will merge into the retirement income fund. Individual participants designate the way in which their contributions are invested and may generally change their investment designation at any time. Employer matching contributions are initially invested in the PG&E Corporation Stock Fund, and participants may reallocate the employer contributions to other investment options once it has been credited to their account.

The Plan also contains an Employee Stock Ownership Plan. This enables the Plan to pay any dividends directly to participants when declared on the PG&E Corporation common stock held in the PG&E Corporation Stock Fund. Participants may elect to receive their dividends earned from this fund in cash, reinvest their dividends earned from this fund back into the fund, or a combination of both.

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of the market value of the participant's account balance. Loans for general purposes have terms ranging up to 5 years and loans for the purchase of a primary residence have terms ranging up to 15 years. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate plus 1 percent, as determined by the Trustee, for the month in which the loan is requested. The rate is set when participants apply for a loan and remains fixed throughout the duration of the loan term. Principal and interest are paid primarily through payroll deductions and are returned to the participant's account. Participants pay a one-time origination fee and quarterly maintenance fees for each loan. Participants may have up to 3 outstanding loans at any time.

Payment of Benefits

Upon termination of service from all employers within the PG&E Corporation Group, a participant with an account balance greater than \$5,000 may elect to leave the assets in the Plan, take a lump-sum or partial distribution in cash, or roll the entire or partial balance to an Individual Retirement Account ("IRA") or other tax-qualified plan. If the account balance is \$1,000 or less and the participant does not make an active election to take a lump-sum cash distribution or rollover the account balance to an IRA or another tax-qualified plan, the account balance will be automatically distributed in cash (subject to applicable taxes and penalties). If the account balance is greater than \$1,000 but less than \$5,000 and the participant does not make an active election to take a lump-sum cash distribution or rollover the account balance to an IRA or another tax-qualified plan, the distribution will be automatically rolled over to a Fidelity IRA and invested in the Fidelity Cash Reserve Fund. In the event of a participant's death, the participant's beneficiaries will receive the value of the participant's account balance in a lump-sum payment or may roll the Plan balance over directly into an inherited IRA. Participants must begin taking minimum distributions from the Plan by April 1 of the calendar year following the year in which they reach the age 70-1/2. Additionally, hardship withdrawals and certain in-service withdrawals are permitted subject to Plan provisions.

Administrative Expenses

Certain costs of administering the Plan, including recordkeeping fees and certain expenses of the Trustee, are paid by the participating companies of the PG&E Corporation Group. Investment management fees, used to cover the expenses related to running an investment fund, are paid by participants and are netted against investment returns. Expenses associated with the individual participant brokerage accounts and professional financial advisory services are paid by the participants enrolled in these services. Loan origination and maintenance fees are also paid by participants.

Voting Rights

Each participant is entitled to exercise voting rights based on the equivalent number of PG&E Corporation Stock Fund shares allocated to the participant's account. Each participant is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to exercise voting rights for any share without instructions from the participant. However, the Trustee is required to vote any unallocated shares on behalf of the collective best interest of the Plan participants and beneficiaries.

Plan Termination

PG&E Corporation, acting through the Board of Directors or any duly authorized Committee of the Board, reserves the right to amend, freeze or terminate the Plan at any time subject to the provisions of ERISA. In the event the Plan is terminated, net assets of the Plan will be distributed to participants. Participants will receive full payment of the balance in their accounts.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP").

Use of Estimates

The preparation of financial statements, in conformity with GAAP, requires Plan management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingencies. Actual results could differ from these estimates.

Fair Value Measurements

The Plan's management determines the fair value of certain assets and liabilities based on assumptions that market participants would use in pricing the assets or liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, or the "exit price." The Plan's management utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and give precedence to observable inputs in determining fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement.

Investment Valuation and Income Recognition

A participant's interest in the investment funds is represented by participation units allocated on the basis of contributions and assigned a unit value on the basis of the total value of each fund.

Interest income, dividends, investment management fees where appropriate, and the net appreciation or depreciation in the fair value of the investments held by the Plan are allocated to the participant's account each day based upon the account's proportional share of the fund balance.

Interest income is recognized as it is earned. Dividends are recorded on the ex-dividend date, the date before which a participant must hold the underlying investment in order to be entitled to dividends. Net appreciation or depreciation in the fair value of the Plan's investments consists of: (1) the net change in unrealized appreciation or depreciation on investments held during the year, and (2) the realized gain or loss recognized on the sale of investments during the year.

Purchases and sales of securities are recorded on a trade date basis. Realized gains and losses from security transactions are reported on the average cost basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon default.

Derivative Investments

Subject to certain guidelines, the EBC allows the plan investment managers to use derivative instruments to achieve investment objectives. During the years ended December 31, 2017 and 2016 the Master Trust held no direct investments in derivative instruments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Accounting Standards Issued but not yet Adopted

Employee Benefit Plan Master Trust Reporting

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-06, Plan Accounting—Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (A Consensus of the Emerging Issues Task Force). ASU 2017-06 amends the presentation and disclosure requirements relating to master trusts in accordance with GAAP. The amendments are effective for all plan years beginning after December 15, 2018, and are to be applied retrospectively. Earlier adoption is permitted. PG&E Corporation is currently evaluating the impact the guidance will have on the Plan's financial statements.

NOTE 3: MASTER TRUST INVESTMENTS

The Plan's investment funds are managed by the Trustee or an investment manager, who has discretionary investment authority over the funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits. The following table presents the net assets of the Master Trust and the Plan's total share of the net assets as of December 31, 2017 and 2016:

(in thousands)	As of December 31,	
	2017	2016
Equity Funds	\$2,625,894	\$2,142,090
Target Date Funds	1,387,576	1,125,857
PG&E Corporation Stock Fund	742,872	1,098,163
Brokerage Link Accounts	691,466	615,617
Fixed Income Funds	630,853	619,064
Money Market Fund	432,868	472,882
Total Master Trust investments	\$6,511,529	\$6,073,673

Total Master Trust investments by plan:

RSP	\$3,209,201	\$2,991,552
Union RSP	3,302,328	3,082,121
Net assets available for benefits	\$6,511,529	\$6,073,673

The following table presents the changes in net assets of the Master Trust for the years ended December 31, 2017 and 2016:

(in thousands)	Year Ended December 31,	
	2017	2016
Net appreciation in fair value investments	\$476,001	\$461,983
Dividends and interest	67,987	48,451
Net investment income	543,988	510,434
Net transfers	(101,264)	(110,224)
Administrative expenses	(4,868)	(4,574)
Increase in net assets	437,856	395,636
Net assets:		
Beginning of year	6,073,673	5,678,037
End of year	\$6,511,529	\$6,073,673

NOTE 4: FAIR VALUE MEASUREMENTS

The Master Trust measures certain assets at fair value. A three-tier fair value hierarchy is established as a basis for considering fair value assumptions and for inputs used in the valuation methodologies in measuring fair value:

Level 1 – Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – Other inputs that are directly or indirectly observable in the marketplace.

Level 3 – Unobservable inputs which are supported by little or no market activities.

The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Investments measured at fair value on a recurring basis for the Master Trust are summarized below.

(in thousands)	Fair Value Measurements as of December 31, 2017		
	Level 1	Level 2	Total
Master Trust investments:			
Brokerage Link Account	\$691,466	\$—	\$691,466
Money Market Fund	432,868	—	432,868
Equity Funds	—	2,625,894	2,625,894
Target Date Funds	—	1,387,576	1,387,576
Fixed Income Funds	—	630,853	630,853
PG&E Corporation Stock Fund measured at NAV	—	—	742,872
Total Master Trust investments, at fair value	\$1,124,334	\$4,644,323	\$6,511,529

(in thousands)	Fair Value Measurements as of December 31, 2016		
	Level 1	Level 2	Total
Master Trust investments:			
Brokerage Link Account	\$615,617	\$—	\$615,617
Money Market Fund	472,882	—	472,882
Equity Funds	—	2,142,090	2,142,090
Target Date Funds	—	1,125,857	1,125,857
Fixed Income Funds	—	619,064	619,064
PG&E Corporation Stock Fund measured at NAV	—	—	1,098,163
Total Master Trust investments, at fair value	\$1,088,499	\$3,887,011	\$6,073,673

The fair value measurements incorporate various factors, such as the credit standing of the counterparties involved, the applicable exit market, and specific risks inherent in the financial instrument. As of December 31, 2017 and 2016 the following is a description of the valuation methodologies used for the financial instruments at fair value:

Mutual funds offered to participants either through the Brokerage link account or as direct investment options are valued based on unadjusted prices in active markets for identical transactions. These investments are actively traded on a public exchange and are therefore considered Level 1 assets.

- The money market fund is a commingled fund of U.S. government short-term securities that are valued using unadjusted prices in an active market for identical assets and are therefore considered Level 1 assets.

The equity funds, target date funds, and fixed income funds are stated at estimated fair value as determined by the issuer based on the unit values of the funds. Unit values are determined by dividing the fund's net assets, which represent the unadjusted prices in active markets of the underlying investments, by the number of units outstanding at the valuation date. Equity funds, target date funds, and fixed income funds are maintained by investment companies for large institutional investors and are not publicly traded. They are comprised primarily of underlying securities represented by a variety of asset classes that are publicly traded on exchanges or over-the-counter, and price quotes for the assets held by these funds are readily observable and available. As of December 31, 2017 and 2016 the target date funds, equity funds, and fixed income funds are categorized as Level 2.

The target date funds, equity funds, and fixed income funds are reported using net asset value as an estimate of fair value. The target date funds invest in US and international common stock, marketable fixed income securities, and other publicly traded securities with an asset allocation that is suitable for a participant with a retirement date in the fund's specified target year. The equity funds invest in common stock and securities convertible into common stock from companies of various sizes and geography, with each fund seeking to match the performance of a specified index. The fixed income funds invest in diversified portfolios of bonds, with each fund seeking to match the performance of a specified index. Each of these funds is able to be purchased or redeemed daily based on the unit value determined on the respective transaction date. These funds have no unfunded commitments, required notice period for redemption, or other redemption restriction.

Investments Measured at NAV

In accordance with FASB ASU No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent), investments that are measured at fair value using the NAV per share practical expedient have not been classified in the fair value hierarchy table above. The fair value amounts are included in the table above in order to reconcile to the amounts presented in the Statement of Net Assets Available for Benefits. These investments include the PG&E Corporation stock fund which invests in PG&E stock. There are no restrictions on the terms and conditions upon which the investments may be redeemed.

Transfers Between Levels

The Master Trust recognizes any transfers between levels in the fair value hierarchy as of the end of the reporting period. There were no transfers between levels for the year ended December 31, 2017 and 2016

Level 3 Rollforward

There were no assets classified as Level 3 in the fair value hierarchy for the years ended December 31, 2017 and 2016.

NOTE 5: RELATED PARTY TRANSACTIONS

Certain Plan investments in the Master Trust are shares of funds managed by the Trustee. The Plan also invests in PG&E Corporation common stock. These transactions qualify as party-in-interest transactions under ERISA.

The party-in-interest transactions for the Plan comprised the following investments:

	As of December 31,	
(in thousands)	2017	2016
PG&E Corporation Stock Fund	\$315,543	\$468,466
Fidelity managed funds	175,580	150,974
Total party-in-interest investments	\$491,123	\$619,440

NOTE 6: FEDERAL INCOME TAX STATUS

The Plan has received a determination letter from the IRS dated January 22, 2016, stating that the Plan is qualified under Section 401(a) and Section 401(k) of the Code, and therefore the related trust is exempt from taxation. PG&E Corporation believes that the Plan is designed and continues to operate in accordance with the applicable requirements of the Code and no provision for federal income taxes has been recorded in the Plan's financial statements.

Furthermore, participating employees are not liable for federal income tax on amounts allocated to their accounts attributable to: (1) pre-tax participant contributions, (2) reinvested dividends, earnings, and interest income on either pre-tax and after-tax contributions, or (3) employer contributions, until the time that they withdraw such amounts from

the Plan.

NOTE 7: SUBSEQUENT EVENTS

In preparing the financial statements, subsequent transactions and events were evaluated for potential recognition. Plan management determined that there are no subsequent transactions and events that require disclosure to or adjustment in the financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Employee Benefit Committee of
PG&E Corporation and Participants of
PG&E Corporation Retirement Savings Plan for Union-Represented Employees

Opinion on the Financial Statements

We have audited the accompanying statements of net assets available for benefits of the PG&E Corporation Retirement Savings Plan for Union-Represented Employees (the Plan) as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes and supplemental schedule of assets held as of December 31, 2017 (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on the Plan's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Information

The supplemental schedule of assets held as of December 31, 2017 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and

content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Morris Davis Chan & Tan LLP

We have served as the Plan's auditor since 2008.

PG&E CORPORATION
 RETIREMENT SAVINGS PLAN
 FOR UNION-REPRESENTED EMPLOYEES

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF PLAN

General

The following is an overview of the PG&E Corporation Retirement Savings Plan for Union-Represented Employees (“Plan” or Union RSP). The Plan document provides a more complete description of the Plan’s provisions.

The Plan is a defined contribution plan covering all non-represented employees of PG&E Corporation and all companies owned by PG&E Corporation (collectively “PG&E Corporation Group”), as designated by PG&E Corporation. The Employee Benefit Committee (“EBC”) of PG&E Corporation has oversight over the administration and financial management of affiliated company employee benefit plans, including this Plan. The EBC retains Fidelity Management Trust Company as the Trustee of the Plan (“Trustee”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The PG&E Corporation Retirement Savings Plan Master Trust (“Master Trust”) holds the investment assets of both the Plan and the PG&E Corporation Retirement Savings Plan (“RSP”). The accompanying financial statements present the assets and liabilities of the Plan only.

Eligibility

In general, all union employees of participating employers within the PG&E Corporation are eligible to participate in the Plan, excluding independent contractors, leased employees, and individuals who have a written contract or agreement that excludes participation in the Plan.

Contributions

Participants may elect to contribute any amount in 1 percent increments from 1 to 20 percent of their eligible compensation on a pre-tax basis, on an after-tax basis, or a combination of both. Participants may also contribute amounts representing distributions from other qualified plans into the Plan. Such “rollover” contributions are not subject to federal or state income taxes until withdrawn or distributed from the Plan.

As provided by the Internal Revenue Code (“Code”), the following table provides the dollar limitations under a 401(k) retirement plan for 2017 and 2016. Section 415 of the Code requires the limits to be adjusted annually for cost-of-living increases.

Contribution Type	2017 Limits	2016 Limits
Annual compensation ⁽¹⁾	\$270,000	\$265,000
Defined contribution limits ⁽²⁾	\$54,000	\$53,000
Elective deferral ⁽³⁾	\$18,000	\$18,000
Catch-up contributions ⁽⁴⁾	\$6,000	\$6,000

⁽¹⁾ Annual compensation is eligible compensation for the purposes of the Plan and is limited by the Code.

⁽²⁾ All Plan contributions, including pre-tax and after-tax participant contributions and all employer contributions, may not exceed the lesser of 100 percent of the participant’s eligible compensation or Code limits.

- (3) Participant pre-tax contributions are considered elective deferrals and are limited by the Code.
- (4) Participants age 50 and older are permitted to make additional pre-tax contributions (catch-up contributions) according to the Code.

All participants hired or rehired on or after January 1, 2013 are eligible for a matching employer contribution of 75 percent of their elective employee contributions up to 8 percent of eligible compensation upon completing one year of service.

All other participating employees hired before January 1, 2013 are eligible for a matching employer contribution according to the following years of service:

Length of Service	Matching Employer Contribution
-------------------	--------------------------------

Less than 1 year of service	None
-----------------------------	------

1 to 3 years of service	60 percent of the participant's pre-tax and/or after-tax contributions that do not exceed 3 percent of the employee's eligible compensation
-------------------------	---

3 years of service or more	60 percent of the participant's pre-tax and/or after-tax contributions that do not exceed 6 percent of the employee's eligible compensation
----------------------------	---

In December 2013, these participants were given a one-time opportunity to continue participating in the Final Average Pay Pension under the Retirement Plan or elect, beginning in 2014, to participate in the Cash Balance Pension feature of the Retirement Plan. Participants who elected to participate in the Cash Balance Pension will receive a matching employer contribution of 75 percent of their elective employee contributions up to 8 percent of eligible compensation beginning January 1, 2014.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each account is credited with the participant's elective contributions through payroll deductions, monthly employer contributions, and an allocation of the net investment gains (losses) and certain investment management fees of the Master Trust. Allocations of net investment gains (losses) and fees are based on participant account balances as defined in the Plan Document.

Vesting

Employer and participant elective contributions and their related accumulated earnings and losses are 100 percent vested at all times.

Investment Options

The EBC is responsible for the selection of the Plan's investment fund managers and the selection of the range of investment options. Neither the EBC nor any of the companies within the PG&E Corporation Group is involved in the investment funds' day-to-day investment operations. Individual participants may select from a suite of target date funds, core funds, and a self-directed brokerage account. Approximately every 5 years, a new target date fund is added to maintain a complete target date horizon. Target date funds with target retirement dates that have passed will merge into the retirement income fund. Individual participants designate the way in which their contributions are invested and may generally change their investment designation at any time. Employer matching contributions are initially invested in the PG&E Corporation Stock Fund, and participants may reallocate the employer contributions to other investment options once it has been credited to their account.

The Plan also contains an Employee Stock Ownership Plan. This enables the Plan to pay any dividends directly to participants when declared on the PG&E Corporation common stock held in the PG&E Corporation Stock Fund. Participants may elect to receive their dividends earned from this fund in cash, reinvest their dividends earned from this fund back into the fund, or a combination of both.

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of the market value of the participant's account balance. Loans for general purposes have terms ranging up to 5 years and loans for the purchase of a primary residence have terms ranging up to 15 years. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate plus 1 percent, as determined by the Trustee, for the month in which the loan is requested. The rate is set when participants apply for a loan and remains fixed throughout the duration of the loan term. Principal and interest are paid primarily through payroll deductions and are returned to the participant's account. Participants pay a one-time origination fee and quarterly maintenance fees for each loan. Participants may have up to 3 outstanding loans at any time.

Payment of Benefits

Upon termination of service from all employers within the PG&E Corporation Group, a participant with an account balance greater than \$5,000 may elect to leave the assets in the Plan, take a lump-sum or partial distribution in cash, or roll the entire or partial balance to an Individual Retirement Account ("IRA") or other tax-qualified plan. If the account balance is \$1,000 or less and the participant does not make an active election to take a lump-sum cash distribution or rollover the account balance to an IRA or another tax-qualified plan, the account balance will be automatically distributed in cash (subject to applicable taxes and penalties). If the account balance is greater than \$1,000 but less than \$5,000 and the participant does not make an active election to take a lump-sum cash distribution or rollover the account balance to an IRA or another tax-qualified plan, the distribution will be automatically rolled over to a Fidelity IRA and invested in the Fidelity Cash Reserve Fund. In the event of a participant's death, the participant's beneficiaries will receive the value of the participant's account balance in a lump-sum payment or may roll the Plan balance over directly into an inherited IRA. Participants must begin taking minimum distributions from the Plan by April 1 of the calendar year following the year in which they reach the age 70-1/2. Additionally, hardship withdrawals and certain in-service withdrawals are permitted subject to Plan provisions.

Administrative Expenses

Certain costs of administering the Plan, including recordkeeping fees and certain expenses of the Trustee, are paid by the participating companies of the PG&E Corporation Group. Investment management fees, used to cover the expenses related to running an investment fund, are paid by participants and are netted against investment returns. Expenses associated with the individual participant brokerage accounts and professional financial advisory services are paid by the participants enrolled in these services. Loan origination and maintenance fees are also paid by participants.

Voting Rights

Each participant is entitled to exercise voting rights based on the equivalent number of PG&E Corporation Stock Fund shares allocated to the participant's account. Each participant is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to exercise voting rights for any share without instructions from the participant. However, the Trustee is required to vote any unallocated shares on behalf of the collective best interest of the Plan participants and beneficiaries.

Plan Termination

PG&E Corporation, acting through the Board of Directors or any duly authorized Committee of the Board, reserves the right to amend, freeze or terminate the Plan at any time subject to the provisions of ERISA. In the event the Plan is terminated, net assets of the Plan will be distributed to participants. Participants will receive full payment of the balance in their accounts.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP").

Use of Estimates

The preparation of financial statements, in conformity with GAAP, requires Plan management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingencies. Actual results could differ from these estimates.

7

Fair Value Measurements

The Plan's management determines the fair value of certain assets and liabilities based on assumptions that market participants would use in pricing the assets or liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, or the "exit price." The Plan's management utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and give precedence to observable inputs in determining fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement.

Investment Valuation and Income Recognition

A participant's interest in the investment funds is represented by participation units allocated on the basis of contributions and assigned a unit value on the basis of the total value of each fund.

Interest income, dividends, investment management fees where appropriate, and the net appreciation or depreciation in the fair value of the investments held by the Plan are allocated to the participant's account each day based upon the account's proportional share of the fund balance.

Interest income is recognized as it is earned. Dividends are recorded on the ex-dividend date, the date before which a participant must hold the underlying investment in order to be entitled to dividends. Net appreciation or depreciation in the fair value of the Plan's investments consists of: (1) the net change in unrealized appreciation or depreciation on investments held during the year, and (2) the realized gain or loss recognized on the sale of investments during the year.

Purchases and sales of securities are recorded on a trade date basis. Realized gains and losses from security transactions are reported on the average cost basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon default.

Derivative Investments

Subject to certain guidelines, the EBC allows the plan investment managers to use derivative instruments to achieve investment objectives. During the years ended December 31, 2017 and 2016, the Plan and the Master Trust held no direct investments in derivative instruments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Accounting Standards Issued but not yet Adopted

Employee Benefit Plan Master Trust Reporting

In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-06, Plan Accounting—Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (A Consensus of the Emerging Issues Task Force). ASU 2017-06 amends the presentation and disclosure requirements relating to master trusts in accordance with GAAP. The amendments are effective for all plan years beginning after December 15, 2018, and are to be applied retrospectively. Earlier adoption is permitted. PG&E Corporation is currently evaluating the impact the guidance will have on the Plan's financial statements.

NOTE 3: MASTER TRUST INVESTMENTS

The Plan's investment funds are managed by the Trustee or an investment manager, who has discretionary investment authority over the funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits. The following table presents the net assets of the Master Trust and the Plan's total share of the net assets as of December 31, 2017 and 2016:

(in thousands)	As of December 31,	
	2017	2016
Equity Funds	\$2,625,894	\$2,142,090
Target Date Funds	1,387,576	1,125,857
PG&E Corporation Stock Fund	742,872	1,098,163
Brokerage Link Accounts	691,466	615,617
Fixed Income Funds	630,853	619,064
Money Market Fund	432,868	472,882
Total Master Trust investments	\$6,511,529	\$6,073,673

Total Master Trust investments by plan:

RSP	\$3,209,201	\$2,991,552
Union RSP	3,302,328	3,082,121
Net assets available for benefits	\$6,511,529	\$6,073,673

The following table presents the changes in net assets of the Master Trust for the years ended December 31, 2017 and 2016:

(in thousands)	Year Ended December 31,	
	2017	2016
Net appreciation in fair value investments	\$476,001	\$461,983
Dividends and interest	67,987	48,451
Net investment income	543,988	510,434
Net transfers	(101,264)	(110,224)
Administrative expenses	(4,868)	(4,574)
Increase in net assets	437,856	395,636
Net assets:		
Beginning of year	6,073,673	5,678,037
End of year	\$6,511,529	\$6,073,673

NOTE 4: FAIR VALUE MEASUREMENTS

The Master Trust measures certain assets at fair value. A three-tier fair value hierarchy is established as a basis for considering fair value assumptions and for inputs used in the valuation methodologies in measuring fair value:

Level 1 – Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – Other inputs that are directly or indirectly observable in the marketplace.

Level 3 – Unobservable inputs which are supported by little or no market activities.

9

The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Investments measured at fair value on a recurring basis for the Master Trust are summarized below.

(in thousands)	Fair Value Measurements as of		
	Level 1	Level 2	Total
Master Trust investments:			
Brokerage Link Account	\$691,466	\$—	\$691,466
Money Market Fund	432,868	—	432,868
Equity Funds	—	2,625,894	2,625,894
Target Date Funds	—	1,387,576	1,387,576
Fixed Income Funds	—	630,853	630,853
PG&E Corporation Stock Fund measured at NAV	—	—	742,872
Total Master Trust investments, at fair value	\$1,124,334	\$4,644,323	\$6,511,529

(in thousands)	Fair Value Measurements as of		
	Level 1	Level 2	Total
Master Trust investments:			
Brokerage Link Account	\$615,617	\$—	\$615,617
Money Market Fund	472,882	—	472,882
Equity Funds	—	2,142,090	2,142,090
Target Date Funds	—	1,125,857	1,125,857
Fixed Income Funds	—	619,064	619,064
PG&E Corporation Stock Fund measured at NAV	—	—	1,098,163
Total Master Trust investments, at fair value	\$1,088,499	\$3,887,011	\$6,073,673

The fair value measurements incorporate various factors, such as the credit standing of the counterparties involved, the applicable exit market, and specific risks inherent in the financial instrument. As of December 31, 2017 and 2016, the following is a description of the valuation methodologies used for the financial instruments at fair value:

Mutual funds offered to participants either through the Brokerage link account or as direct investment options are valued based on unadjusted prices in active markets for identical transactions. These investments are actively traded on a public exchange and are therefore considered Level 1 assets.

- The money market fund is a commingled fund of U.S. government short-term securities that are valued using unadjusted prices in an active market for identical assets and are therefore considered Level 1 assets.

The equity funds, target date funds, and fixed income funds are stated at estimated fair value as determined by the issuer based on the unit values of the funds. Unit values are determined by dividing the fund's net assets, which represent the unadjusted prices in active markets of the underlying investments, by the number of units outstanding at the valuation date. Equity funds, target date funds, and fixed income funds are maintained by investment companies for large institutional investors and are not publicly traded. They are comprised primarily of underlying securities represented by a variety of asset classes that are publicly traded on exchanges or over-the-counter, and price quotes for the assets held by these funds are readily observable and available. As of December 31, 2017 and 2016, the target date funds, equity funds, and fixed income funds are categorized as Level 2.

The target date funds, equity funds, and fixed income funds are reported using net asset value as an estimate of fair value. The target date funds invest in US and international common stock, marketable fixed income securities, and other publicly traded securities with an asset allocation that is suitable for a participant with a retirement date in the fund's specified target year. The equity funds invest in common stock and securities convertible into common stock from companies of various sizes and geography, with each fund seeking to match the performance of a specified index. The fixed income funds invest in diversified portfolios of bonds, with each fund seeking to match the performance of a specified index. Each of these funds is able to be purchased or redeemed daily based on the unit value determined on the respective transaction date. These funds have no unfunded commitments, required notice period for redemption, or other redemption restriction.

Investments Measured at NAV

In accordance with FASB ASU No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent), investments that are measured at fair value using the NAV per share practical expedient have not been classified in the fair value hierarchy table above. The fair value amounts are included in the table above in order to reconcile to the amounts presented in the Statement of Net Assets Available for Benefits. These investments include the PG&E Corporation stock fund which invests in PG&E stock. There are no restrictions on the terms and conditions upon which the investments may be redeemed.

Transfers Between Levels

The Master Trust recognizes any transfers between levels in the fair value hierarchy as of the end of the reporting period. There were no transfers between levels for the year ended December 31, 2017 and 2016.

Level 3 Rollforward

There were no assets classified as Level 3 in the fair value hierarchy for the years ended December 31, 2017 and 2016.

NOTE 5: RELATED PARTY TRANSACTIONS

Certain Plan investments, including investments held in the Master Trust, are shares of funds managed by the Trustee. The Plan also invests in PG&E Corporation common stock. These transactions qualify as party-in-interest transactions under ERISA.

The party-in-interest transactions for the Plan comprised the following investments:

(in thousands)	As of December 31,	
	2017	2016
PG&E Corporation Stock Fund	\$427,330	\$629,697
Fidelity managed funds	132,388	113,821
Total party-in-interest investments	\$559,718	\$743,518

NOTE 6: FEDERAL INCOME TAX STATUS

The Plan has received a determination letter from the IRS dated January 22, 2016, stating that the Plan is qualified under Section 401(a) and Section 401(k) of the Code, and therefore the related trust is exempt from taxation. PG&E Corporation believes that the Plan is designed and continues to operate in accordance with the applicable requirements of the Code and no provision for federal income taxes has been recorded in the Plan's financial statements. Furthermore, participating employees are not liable for federal income tax on amounts allocated to their accounts

attributable to: (1) pre-tax participant contributions, (2) reinvested dividends, earnings, and interest income on either pre-tax and after-tax contributions, or (3) employer contributions, until the time that they withdraw such amounts from the Plan.

NOTE 7: SUBSEQUENT EVENTS

In preparing the financial statements, subsequent transactions and events were evaluated for potential recognition. Plan management determined that there are no subsequent transactions and events that require disclosure to or adjustment in the financial statements.
