Item 5: Other Information:

Simtek Corporation released the following press release dated May 15, 2003,  
titled "Simtek Announces First Quarter 2003 Financial Results":

SIMTEK REPORTS FIRST QUARTER 2003 FINANCIAL RESULTS

REVENUE UP SEQUENTIALLY AND COMPARABLE TO YEAR-AGO FIRST QUARTER;  
CASH BALANCE INCREASES TO \$3.4 MILLION;  
R&D IMPACTS BOTTOM LINE BUT SETS STAGE FOR MID-YEAR PRODUCT INTRODUCTION

## Edgar Filing: SIMTEK CORP - Form 8-K

COLORADO SPRINGS, Colorado - May 15, 2003 -- Simtek Corporation (OTCBB: SRAM), a global provider of advanced nonvolatile semiconductor memory products, today reported financial results for its first quarter ended March 31, 2003.

The Company reported revenue of \$3.9 million, up sequentially from \$3.7 million in the fourth quarter of 2002 and equal to the \$3.9 million in revenue reported for the first quarter of 2002. Gross margin improved to 36.8% from 35.7% for the comparable quarters and the net loss for the quarter was \$558,000, or one cent per share, as compared with a net loss of \$256,000, or less than one cent per share, for the same quarter last year.

The increase in net loss was primarily attributable to increased design, research and development expense - from \$993,000 to \$1,258,000 - associated with ongoing development of the Company's 0.25 micron nonvolatile process and its 1 Mbit nvSRAM product family. This development effort is nearing completion, and the resulting 1 Mbit product is expected to be introduced at mid-year with initial revenue coming on stream in the second half and accelerating into 2004.

Revenue for the quarter continued to reflect a mix of market trends. Commercial memory sales for the first quarter decreased 8% to \$2.6 million while high-end industrial and military memory sales increased 63% to \$614,000. Logic product sales decreased 27% to \$216,000 while government research and development revenue increased 6% to \$510,000. These results reflect continued sluggishness in traditional commercial market segments but strength in military and other specialty areas.

Simtek continues to maintain a strong cash balance with over \$3.4 million in cash and cash equivalents, up from \$3.1 million at year-end.

"While the overall semiconductor industry remained sluggish in the first quarter, we foresee a recovery commencing in the second half of the year," said Douglas Mitchell, president and CEO. "Meanwhile, we continue to provide our customers with traditional products and services while maintaining a tight focus on new product development efforts that are expected to drive Simtek's future growth. Our first new product offering, the high-speed, high-capacity 1 Mbit nvSRAM, will support next-generation developments in mass storage systems, office automation equipment, industrial control systems and military applications. Current and prospective customers have shown strong interest in this new product family and we are looking forward to providing them with samples in the mid-year time frame."

Simtek Corporation produces fast, re-programmable, nonvolatile semiconductor memory products. Information on Simtek products can be obtained from its web page: [www.simtek.com](http://www.simtek.com); email: [info@simtek.com](mailto:info@simtek.com); by calling (719) 531-9444; or fax (719) 531-9481. The company is headquartered in Colorado Springs, Colorado, with international sales and marketing channels. Simtek is listed under the symbol SRAM on the OTC Electronic Bulletin Board.

## Edgar Filing: SIMTEK CORP - Form 8-K

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements by Mr. Mitchell predicting the Company's future growth. Such statements involve risks and uncertainties, and actual results could differ materially from the results anticipated in such forward-looking statements as a result of a number of factors, including, but not limited to, the risk of delays in the availability of new products due to technological, market or financial factors including the availability of necessary working capital, or the other factors described in the Company's most recent Form 10-KSB and Form 10-QSB filed with the Securities and Exchange Commission.
