Daxor Corporation

Schedule of Investments (Continued)

September 30, 2014 (Unaudited)

The Company utilizes various methods to measure the fair value of most of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities that the Company has the ability to access.

Level 2 – Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Company's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Investments in securities traded on national securities exchanges are valued at the last reported sales price on the last day of the reporting period. Securities traded on the over the counter market and listed securities for which no sale was

reported on that date are valued at the mean between the last reported bid and ask prices.

The following tables summarize the inputs used as of September 30, 2014 for the Corporation's assets and liabilities measured at fair value:

Assets *	Level 1	Level 2	Level 3	Total
Common Stocks	\$35,654,320	\$ —	\$ —	\$35,654,320
Preferred Stocks	1,709,149	—	—	1,709,149
Investment in Operating Division	—	—	3,416,974	3,416,974
Total	\$37,363,469	\$ —	\$3,416,974	\$40,780,443

Liabilities	Level 1	Level 2	Level 3	Total
Margin Loans	\$19,711,561	\$ —	\$ —	\$19,711,561
Call and Put Options	\$224,435	\$ —	\$ —	\$224,435

The Company's Level 3 assets consist of its investment in its Operating Division. Since it's inception, the Operating Division has not generated significant revenue and has incurred substantial operating losses. Due to these substantial losses, the Operating Division has been completely dependent on funding from the Company to sustain its operations.

As such, the Company has determined that the value of the Operating Division approximates the net book value of certain property and equipment reduced by the remaining mortgage balance on such property and equipment. The property and equipment consist of land, buildings and laboratory equipment located in Oak Ridge, Tennessee.

* Refer to the Schedule of Investments for industry classifications for common and preferred stock.

(a) Non-income producing investment.

(b) Restricted cash held by Company's brokers to satisfy margin requirements.

(c) Short-Term debt due to brokers secured by the Company's investments in marketable securities.

Securities valuation policies and other investment related disclosures will be incorporated by reference to the semi-annual and annual reports to be filed with the Securities and Exchange Commission on Form N-CSR.

ITEM 2. CONTROLS AND PROCEDURES

(a) The Chief Executive Officer and the Chief Financial Officer have concluded that the registrant's disclosure controls and procedures are effective based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the Investment Company Act of 1940 and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934 as of a date within 90 days of the filing of this report.

(b) There were no changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 3. EXHIBITS

Certifications required pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 and Section 302 of the Sarbanes-Oxley Act of 2002 are filed herewith as Exhibit A.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
