VALERO ENERGY CORPORATION
PROXY STATEMENT
ANNUAL MEETING OF STOCKHOLDERS

Our Board is soliciting proxies to be voted at the Annual Meeting of Stockholders on May 2, 2013 (the “Annual Meeting”). The accompanying notice describes the time, place, and purposes of the Annual Meeting. Action may be taken at the Annual Meeting or on any date to which the meeting may be adjourned. Unless otherwise indicated the terms “Valero,” “we,” “our,” and “us” are used in this proxy statement to refer to Valero Energy Corporation, to one or more of our consolidated subsidiaries, or to all of them taken as a whole. “Board” means our board of directors.

We are mailing our Notice of Internet Availability of Proxy Materials (“Notice”) to stockholders on or about March 22, 2013. On this date, you will be able to access all of our proxy materials on the website referenced in the Notice.

Record Date, Shares Outstanding, Quorum

Holders of record of our common stock, \$0.01 par value (“Common Stock”), at the close of business on March 5, 2013 (the “record date”) are entitled to vote on the matters presented at the Annual Meeting. On the record date, 554,118,699 shares of Common Stock were issued and outstanding and entitled to one vote per share. Stockholders representing a majority of voting power, present in person or represented by properly executed proxy, will constitute a quorum.

Voting in Person at the Meeting, Revocability of Proxies

If you want to vote in person at the Annual Meeting, we will give you a ballot at the meeting. If your shares are registered in your name, you are considered the stockholder “of record” and you have the right to vote the shares in person at the meeting. If, however, your shares are held in the name of your broker or other nominee, you are considered the beneficial owner of shares held in street name. As a beneficial owner, if you wish to vote at the meeting, you will need to bring to the meeting a legal proxy from the stockholder of record (e.g., your broker) authorizing you to vote the shares.

You may revoke your proxy at any time before it is voted at the Annual Meeting by (i) submitting a written revocation to Valero, (ii) returning a subsequently dated proxy to Valero, or (iii) attending the Annual Meeting requesting that your proxy be revoked and voting in person at the Annual Meeting. If instructions to the contrary are not provided, shares will be voted as indicated on the proxy card.

Broker Non-Votes

Brokers holding shares must vote according to specific instructions they receive from the beneficial owners of the stock. If the broker does not receive specific instructions, in some cases the broker may vote the shares in the broker’s discretion. However, the New York Stock Exchange (the “NYSE”) precludes brokers from exercising voting discretion on certain proposals without specific instructions from the beneficial owner. This results in a “broker non-vote” on the proposal. A broker non-vote is treated as “present” for purposes of determining a quorum, has the effect of a negative vote when a majority of the voting power of the issued and outstanding shares is required for approval of a particular proposal, and has no effect when a majority of the voting power of the shares present in person or by proxy and entitled to vote or a plurality or majority of the votes cast is required for approval.

The ratification of the appointment of KPMG LLP as our independent auditor (Proposal No. 2) is deemed to be a routine matter under NYSE rules. A broker or other nominee generally may vote uninstructed shares on routine matters, and therefore no broker non-votes are expected to occur with Proposal No. 2. Proposals 1, 3, and 4 are considered non-routine under applicable rules. Because a broker or other nominee cannot vote without instructions on non-routine matters, we expect an undetermined number of broker non-votes to occur on these proposals.

Solicitation of Proxies

Valero pays for the cost of soliciting proxies and the Annual Meeting. In addition to solicitation by mail, proxies may be solicited by personal interview, telephone, and similar means by directors, officers, or employees of Valero, none of whom will be specially compensated for such activities. Valero also intends to request that brokers, banks, and other nominees solicit proxies from their principals and will pay such brokers, banks, and other nominees certain expenses incurred by them for such activities. Valero retained Georgeson Inc., a proxy soliciting firm, to assist in the solicitation of proxies, for an estimated fee of \$15,000, plus reimbursement of certain out-of-pocket expenses. For participants in our qualified 401(k) plan ("Thrift Plan"), the proxy card will represent (in addition to any shares held individually of record by the participant) the number of shares allocated to the participant's account in the Thrift Plan. For shares held by the Thrift Plan, the proxy card will constitute an instruction to the trustee of the plan on how to vote those shares. Shares for which instructions are not received may be voted by the trustee per the terms of the plan.

INFORMATION REGARDING THE BOARD OF DIRECTORS

Valero's business is managed under the direction of our Board. Our Board conducts its business through meetings of its members and its committees. During 2012, our Board held six meetings and the standing Board committees held 16 meetings in the aggregate. No member of the Board attended less than 75 percent of the meetings of the Board and committees of which he or she was a member. All Board members are expected to attend the Annual Meeting. All Board members attended the 2012 annual meeting.

INDEPENDENT DIRECTORS

The Board presently has one member from our management, William R. Klesse (our Chief Executive Officer), and 12 non-management directors; each served on the Board during 2012. The Board determined that each of the non-management directors who served at any time during 2012 met the independence requirements of the NYSE listing standards. Those independent directors were Ronald K. Calgaard, Jerry D. Choate, Ruben M. Escobedo, Deborah P. Majoras, Bob Marbut, Donald L. Nickles, Philip J. Pfeiffer, Robert A. Profusek, Susan Kaufman Purcell, Stephen M. Waters, Randall J. Weisenburger, and Rayford Wilkins, Jr. As a member of management, Mr. Klesse is not an independent director under the NYSE's listing standards.

The Board's Audit Committee, Compensation Committee, and Nominating/Governance and Public Policy Committee are composed entirely of directors who meet the independence requirements of the NYSE. Each member of the Audit Committee also meets the additional independence standards for Audit Committee members required by the SEC.

Independence Determinations

Under the NYSE's listing standards, no director qualifies as independent unless the Board affirmatively determines that he or she has no material relationship with Valero. Based upon information provided by our directors concerning their background, employment, and affiliations, including commercial, banking, consulting, legal, accounting, charitable, and familial relationships, the Board has determined that, other than being a director and/or stockholder of Valero, each of the independent directors named above has either no relationship with Valero, either directly or as a partner, stockholder, or officer of an organization that has a relationship with Valero, or has only immaterial relationships with Valero, and is independent under the NYSE's listing standards.

In accordance with NYSE listing standards, the Board has adopted categorical standards or guidelines to assist the Board in making its independence determinations regarding its directors. These standards are published in Article I of our Corporate Governance Guidelines. Under the NYSE's listing standards, immaterial relationships that fall within the guidelines are not required to be disclosed in this proxy statement. An immaterial relationship falls within the guidelines if it:

- is not a relationship that would preclude a determination of independence under Section 303A.02(b) of the NYSE Listed Company Manual;
- consists of charitable contributions by Valero to an organization in which a director is an executive officer and does not exceed the greater of \$1 million or two percent of the organization's gross revenue in any of the last three years;
- consists of charitable contributions to any organization with which a director, or any member of a director's immediate family, is affiliated as an officer, director, or trustee pursuant to a matching gift program of Valero and made on terms applicable to employees and directors; or is in amounts that do not exceed \$1 million per year; and
- is not required to be, and it is not otherwise, disclosed in this proxy statement.

COMMITTEES OF THE BOARD

Valero had four standing committees of the Board in 2012.

- Audit Committee,
- Compensation Committee,
- Executive Committee, and
- Nominating/Governance and Public Policy Committee.

Committee charters are available on our website at www.valero.com under the "Corporate Governance" tab in the "Investor Relations" section.

Audit Committee

The Audit Committee reviews and reports to the Board on auditing and accounting matters, including the quality, objectivity, and performance of our internal and external accountants and auditors, the adequacy of our financial controls, and the reliability of our public financial information. Members of the Audit Committee in 2012 were Ruben M. Escobedo (Chair), Ronald K. Calgaard, Susan Kaufman Purcell, Stephen M. Waters, and Randall J. Weisenburger. The Audit Committee met five times in 2012. The "Report of the Audit Committee for Fiscal Year 2012" appears in this proxy statement following disclosures for Proposal No. 2.

The Board has determined that Ruben M. Escobedo is an “audit committee financial expert” (as defined by the SEC) and that he is “independent” as independence for audit committee members is defined in the NYSE listing standards. For more information regarding Mr. Escobedo’s experience, see “Proposal No. 1 Election of Directors – Information Concerning Nominees and Directors.”

Compensation Committee

The Compensation Committee reviews and reports to the Board on matters related to compensation strategies, policies, and programs, management development, management succession, and benefit programs. The Committee also approves and administers our equity compensation plans and incentive bonus plan. The Compensation Committee’s duties are further described in “Compensation Discussion and Analysis” below. The Compensation Committee has, for administrative convenience, delegated authority to our Chief Executive Officer to make non-material amendments to Valero’s benefit plans and to make limited grants of stock options and restricted stock to new hires who are not executive officers.

During 2012, members of the Compensation Committee were Jerry D. Choate (Chair), Bob Marbut, Robert A. Profusek, Stephen M. Waters, Randall J. Weisenburger, and Rayford Wilkins, Jr. In 2012, the Compensation Committee met six times. The “Compensation Committee Report” for fiscal year 2012 appears in this proxy statement immediately preceding “Compensation Discussion and Analysis.”

Compensation Committee Interlocks and Insider Participation

There are no compensation committee interlocks. None of the members of the Compensation Committee has served as an officer or employee of Valero or had any relationship requiring disclosure by Valero under Item 404 of the SEC’s Regulation S-K, which addresses related-person transactions.

Nominating/Governance and Public Policy Committee

The Nominating/Governance and Public Policy Committee evaluates policies on the size and composition of the Board and criteria and procedures for director nominations, and considers and recommends candidates for election to the Board. The committee also evaluates, recommends, and monitors corporate governance guidelines, policies, and procedures, including our codes of business conduct and ethics. The committee also (i) assists the Board in identifying, evaluating, and monitoring public policy trends and social and political issues that could impact our business activities and performance, and (ii) considers and makes recommendations for our strategies relating to corporate responsibility, contributions, and reputation management. During 2012, the members of the Nominating/Governance Committee were Robert A. Profusek (Chair), Jerry D. Choate, Deborah P. Majoras, Donald L. Nickles, and Phillip J. Pfeiffer. The committee met four times in 2012.

The Nominating/Governance and Public Policy Committee recommended to the Board each director listed in this proxy statement under “Information Concerning Nominees and Directors – Nominees” as nominees for election as directors at the Annual Meeting. The committee also considered and recommended the appointment of a lead director to preside at meetings of the independent directors without management, and recommended assignments for the Board’s committees. The full Board approved the recommendations of the committee and adopted resolutions approving the slate of director nominees to stand for election at the Annual Meeting, the appointment of a lead director, and Board committee assignments.

Executive Committee

The Executive Committee exercises the Board's authority during intervals between meetings of the Board. With limited exceptions specified in our bylaws and under Delaware law, actions taken by the Executive Committee do not require Board ratification. Members of the Executive Committee are William R. Klesse (Chair), Jerry D. Choate, Ruben M. Escobedo, and Robert A. Profusek. The committee did not meet in 2012.

SELECTION OF DIRECTOR NOMINEES

The Nominating/Governance and Public Policy Committee solicits recommendations for Board candidates from a number of sources, including our directors, our officers, individuals personally known to the members of the Board, and third-party research. In addition, the Committee will consider candidates submitted by stockholders when submitted in accordance with the procedures described in this proxy statement under the caption "Miscellaneous – Stockholder Communications, Nominations, and Proposals." The Committee will consider all candidates identified through the processes described above and will evaluate each of them on the same basis. The level of consideration the Committee will extend to a stockholder's candidate will be commensurate with the quality and quantity of information about the candidate that the nominating stockholder makes available to the Committee.

Evaluation of Director Candidates

The Nominating/Governance and Public Policy Committee is charged with assessing the skills and characteristics that candidates for election to the Board should possess and with determining the composition of the Board as a whole. The assessments include qualifications under applicable independence standards and other standards applicable to the Board and its committees, as well as consideration of skills and expertise in the context of the needs of the Board.

Each candidate must meet certain minimum qualifications, including:

- independence of thought and judgment;
- the ability to dedicate sufficient time, energy, and attention to the performance of her or his duties, taking into consideration the candidate's service on other public company boards; and
- skills and expertise complementary to those of the existing Board members; in this regard, the Board will consider its need for operational, managerial, financial, governmental affairs, or other expertise.

The Committee also considers diversity concepts such as race, gender, and national origin, as well as the ability of a prospective candidate to work with the then-existing interpersonal dynamics of the Board and the candidate's ability to contribute to the collaborative culture among Board members.

Based on this initial evaluation, the Committee will determine whether to interview a proposed candidate and, if warranted, will recommend that one or more of its members, other members of the Board, or senior management, as appropriate, interview the candidate. After completing this process, the Committee ultimately determines its list of nominees and submits the list to the full Board for consideration and approval.

Following these procedures, the Committee identified, interviewed, and recommended to the Board that Deborah P. Majoras be elected as a director. She was elected as a director at the meeting of the Board held July 26, 2012.

LEADERSHIP STRUCTURE OF THE BOARD

Our bylaws provide that the Chairman of the Board has the power to preside at all meetings of the Board. William R. Klesse, our Chief Executive Officer, serves as the Chairman of our Board of Directors. Although the Board believes that the combination of the Chairman and Chief Executive Officer roles is appropriate in current circumstances, Valero's Corporate Governance Guidelines do not establish this approach as a policy, and in fact, the Chairman and Chief Executive Officer roles were separate from 2005 to 2007.

The Chief Executive Officer is appointed by the Board to manage Valero's daily affairs and operations. We believe that Mr. Klesse's extensive industry experience and direct involvement in Valero's operations make him best suited to serve as Chairman in order to:

• lead the Board in productive, strategic planning;

• determine necessary and appropriate agenda items for meetings of the Board with input from the Lead Director and Board committee chairs; and

• determine and manage the amount of time and information devoted to discussion of agenda items and other matters that may come before the Board.

Our Board structure also fosters strong oversight by independent directors. Mr. Klesse is the only member of management (past or present) who serves on the Board, and all of our other directors are independent. Each of the Board's committees (except for the Executive Committee, which meets infrequently) is chaired by an independent director.

LEAD DIRECTOR AND MEETINGS OF NON-MANAGEMENT DIRECTORS

Our Board appoints a "Lead Director" whose responsibilities include leading the meetings of our non-management directors outside the presence of management. Our Board regularly meets in executive session outside the presence of management, generally at each Board and committee meeting. Following the recommendation of the Nominating/Governance and Public Policy Committee, the Board selected Robert A. Profusek to serve as Lead Director during 2013. He also served as Lead Director in 2012.

The Lead Director, working with the committee chairs, sets agendas and leads the discussion of regular meetings of the Board outside the presence of management, provides feedback regarding these meetings to the Chairman, and otherwise serves as liaison between the independent directors and the Chairman. The Lead Director is also responsible for receiving, reviewing, and acting upon communications from stock-holders or other interested parties when those interests should be addressed by a person independent of management. The Board believes that this approach appropriately and effectively complements Valero's combined Chief Executive Officer/Chairman structure.

RISK OVERSIGHT

The Board considers oversight of Valero's risk management efforts to be a responsibility of the full board. The Board's role in risk oversight includes receiving regular reports from members of senior management on areas of material risk to Valero, or to the success of a particular project or endeavor under consideration, including operational, financial, legal, regulatory, strategic, and reputational risks. The full Board (or the appropriate Board committee) receives reports from management to enable the Board (or committee) to assess Valero's risk identification, risk management, and risk mitigation strategies. When a report is vetted at the committee level, the chair of that committee thereafter reports on the matter to the full Board. This enables to the Board and its committees to coordinate the Board's risk oversight role. The Board also believes

that risk management is an integral part of Valero's annual strategic planning process, which addresses, among other things, the risks and opportunities facing Valero.

One of the Audit Committee's responsibilities is to discuss with management our major financial risk exposures and the steps we have taken to monitor and control those exposures, including our risk assessment and risk management policies. In this regard, our chief audit officer prepares a comprehensive risk assessment report and reviews that report with the Audit Committee. This report identifies material business risks for Valero and identifies Valero's internal controls that respond to and mitigate those risks. Valero's management regularly evaluates these controls, and the Audit Committee is provided regular updates regarding the effectiveness of the controls. Our Nominating/Governance and Public Policy Committee reviews our policies and performance in areas of employee and contractor safety, environmental compliance, and legal matters generally.

IDENTIFICATION OF EXECUTIVE OFFICERS

The following are Valero's executive officers. There is no arrangement or understanding between any executive officer listed below or any other person under which the executive officer was or is to be selected as an officer.

	Officer Since	Age as of 12/31/12
William R. Klesse, Chief Executive Officer and President	2001	66
Joseph W. Gorder, President and Chief Operating Officer	2003	55
Michael S. Ciskowski, Executive Vice President and Chief Financial Officer	1998	55
S. Eugene Edwards, Executive Vice President - Chief Development Officer and Optimization	1998	56
Kimberly S. Bowers, Executive Vice President - Retail Marketing	2003	48

Mr. Klesse. Mr. Klesse's biographical information is stated below under the caption "Information Concerning Nominees and Directors."

Mr. Gorder was elected President and Chief Operating Officer in November 2012. He previously served as Executive Vice President and Chief Commercial Officer beginning in January 2011, and formerly led our European operations from our London office. He previously served as Executive Vice President – Marketing and Supply beginning in December 2005. Prior to that, he held several positions with Valero and Ultramar Diamond Shamrock Corporation with responsibilities for corporate development and marketing.

Mr. Ciskowski was elected Executive Vice President and Chief Financial Officer in August 2003. Before that, he served as Executive Vice President – Corporate Development since April 2003, and Senior Vice President in charge of business and corporate development since 2001.

Mr. Edwards was elected Executive Vice President – Chief Development Officer and Optimization in November 2012. He previously served as Executive Vice President and Chief Development Officer beginning in January 2011, and Executive Vice President – Corporate Development and Strategic Planning beginning in December 2005. He has held several positions in the company with responsibility for product supply, trading, wholesale marketing, planning and economics, business development, and risk management.

Ms. Bowers was elected Executive Vice President – Retail Marketing in November 2012. She also serves as Chief Executive Officer and President of Valero's wholly owned subsidiary, CST Brands, Inc. She previously served as Valero's Executive Vice President and General Counsel beginning in October 2008, and served as Senior Vice President and General Counsel beginning in April 2006. Before that, she was Valero's Vice President – Legal Services from 2003 to 2006. She also serves on the board of directors of WPX Energy, Inc.

PROPOSAL NO. 1 – ELECTION OF DIRECTORS

(Item 1 on the Proxy Card)

All of Valero’s directors are subject to election each year at the annual meeting of stockholders. If elected at the 2013 Annual Meeting, all of the nominees for director listed below will serve a one-year term expiring at the 2014 annual meeting of stockholders. The persons named on the proxy card intend to vote for the election of each of these nominees unless you direct otherwise on your proxy card.

The Board recommends a vote “FOR” all nominees.

Under our bylaws, each director to be elected under this proposal will be elected by the vote of the majority of the votes cast at the Annual Meeting if a quorum is present. For this purpose, a “majority of the votes cast” means that the number of shares voted “for” a director’s election exceeds 50 percent of the number of votes cast with respect to that director’s election. With respect to each nominee, votes “cast” exclude abstentions. If any nominee is unavailable as a candidate at the time of the Annual Meeting, either the number of directors constituting the full Board will be reduced to eliminate the resulting vacancy, or the persons named as proxies will use their best judgment in voting for any available nominee.

INFORMATION CONCERNING NOMINEES AND DIRECTORS

Our directors are listed in the following table. Each is a nominee for election as a director at the Annual Meeting, except for Dr. Calgaard who is retiring from the Board on the date of the Annual Meeting. There is no family relationship among any of the executive officers or nominees for director. There is no arrangement or understanding between any director or any other person pursuant to which the director was or is to be selected a director or nominee.

Directors	Executive Officer or Director Since (1)	Age as of 12/31/12
Ronald K. Calgaard, Director (2)	1996	75
Jerry D. Choate, Director	1999	74
Ruben M. Escobedo, Director	1994	75
William R. Klesse, Chairman of the Board and Chief Executive Officer	2001	66
Deborah P. Majoras, Director	2012	49
Bob Marbut, Director	2001	77
Donald L. Nickles, Director	2005	64
Philip J. Pfeiffer, Director	2012	65
Robert A. Profusek, Director	2005	62
Susan Kaufman Purcell, Director	1994	70
Stephen M. Waters, Director	2008	66
Randall J. Weisenburger, Director	2011	54
Rayford Wilkins, Jr., Director	2011	61

(1) The reported service dates include, when applicable, service on the board of Valero’s former parent prior to Valero’s separation from that company in 1997.

(2) Dr. Calgaard will retire from our Board on the date of the Annual Meeting, and is therefore not a nominee for election at the Annual Meeting.

Nominees.

Mr. Choate retired from Allstate Corporation at the end of 1998 where he had served as Chairman of the Board and Chief Executive Officer since 1995. He previously served as a director of H&R Block, Inc. from 2006 to 2007 and as a director of Amgen, Inc. from 1998 to 2011. Mr. Choate also serves as a director of Invesco Van Kampen Mutual Funds. He has served on Valero's Board since 1999. Mr. Choate's pertinent experience, qualifications, attributes, and skills include financial literacy and managerial experience attained through his service as Chief Executive Officer and Chairman of Allstate Corporation, the knowledge and experience he has attained through service on the board of other public companies, and the knowledge and experience he has attained through his service on Valero's Board since 1999. Mr. Escobedo is a Certified Public Accountant. He owned and operated his public accounting firm, Ruben Escobedo & Company, CPAs, in San Antonio, Texas since its formation in 1977 through 2007. Mr. Escobedo also serves as a director of Cullen/Frost Bankers, Inc. He has served as a director of Valero or its former parent company since 1994. Mr. Escobedo's pertinent experience, qualifications, attributes, and skills include public accounting and financial reporting expertise (including extensive experience as a CPA), managerial experience attained from serving as chief executive of his own accounting firm, the knowledge and experience he has attained from service on another public company board, and the knowledge and experience he has attained from his service on Valero's Board since 1994. Mr. Klesse is Valero's Chairman of the Board and Chief Executive Officer. He was elected Chairman in January 2007, and served as President from January 2008 to November 2012. He has been Valero's Chief Executive Officer since the end of 2005. He previously served as Valero's Executive Vice President and Chief Operating Officer from 2003 through 2005, and as Executive Vice President—Refining and Commercial Operations since Valero's acquisition of Ultramar Diamond Shamrock Corporation (UDS) in 2001. Mr. Klesse's pertinent experience, qualifications, attributes, and skills include his experience in virtually every aspect of the refining industry during his 44 years of service with UDS and Valero, and the knowledge and experience he has attained through his service on Valero's Board since 2005 (and as its Chairman since 2007).

Ms. Majoras is Chief Legal Officer and Secretary of The Procter & Gamble Company (P&G). She joined P&G in 2008 as Senior Vice President and General Counsel. Previously she served as Chairman of the Federal Trade Commission from 2004 until 2008. From 2001 to 2004, Ms. Majoras was Deputy Assistant Attorney General in the U.S. Department of Justice, Antitrust Division. Ms. Majoras joined the law firm of Jones Day in 1991, where she became a partner in 1999. Ms. Majoras is a member of the boards of trustees of the Cincinnati USA Regional Chamber and the Cincinnati Legal Aid Society. (1) Includes shares allocated under the Thrift Plan and shares of restricted stock. Restricted stock may not be sold or transferred until vested. This column does not include shares that could be acquired under options, which are reported in the column captioned "Shares Under Options."

(2) Represents shares of Common Stock that may be acquired under outstanding stock options currently exercisable and that are exercisable within 60 days from February 1, 2013. Shares subject to options may not be voted unless the options are exercised. Options that may become exercisable within such 60-day period only in the event of a change of control of Valero are excluded.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS

The following table describes each person, or group of affiliated persons, known to be a beneficial owner of more than five percent of our Common Stock as of February 1, 2013. The information is based on reports filed by such persons with the SEC.

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class
BlackRock, Inc. 40 East 52nd Street New York NY 10022	35,343,735 (1)	6.39 %

BlackRock, Inc. filed with the SEC an amended Schedule 13G on February 5, 2013, reporting that it or certain of (1)its affiliates beneficially owned in the aggregate 35,343,735 shares, for which it had sole voting power and sole dispositive power.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our executive officers, directors, and greater than 10 percent stockholders to file with the SEC certain reports of ownership and changes in ownership of our Common Stock. Based on a review of the copies of such forms received and written representations from certain reporting persons, we believe that all Section 16(a) reports applicable to our executive officers, directors, and greater than 10 percent stockholders were timely filed in 2012.

RISK ASSESSMENT OF COMPENSATION PROGRAMS

We believe that our incentive compensation programs effectively balance risk and reward. When assessing risk, we consider both the annual incentive bonus plan for management as well as long-term incentives that are awarded under our stock incentive plan. We also consider the mix of award opportunities (i.e., short- versus long-term), performance targets and metrics, the target-setting process, and the administration and governance associated with the plans.

Features of our compensation programs that we believe mitigate excessive risk taking include:

- the mix between fixed and variable, annual and long-term, and cash and equity compensation, designed to encourage strategies and actions that are in Valero's long-term best interests;
- determination of incentive awards based on a variety of indicators of performance, thus diversifying the risk associated with a single indicator of performance;
- incorporation of relative total stockholder return into our incentive program, calibrating pay and performance relationships to companies facing the same or similar market forces as Valero;
- multi-year vesting periods for equity incentive awards, which encourage focus on sustained growth and earnings; and
- our compensation-related policies, including the executive compensation "clawback" policy and stock retention guidelines (discussed below under the caption "Compensation Discussion and Analysis – Compensation Related Policies").

COMPENSATION CONSULTANT DISCLOSURES

The Compensation Committee retained Exequity LLP and Pay Governance LLC as independent compensation consultants in 2012. In their roles as advisers to the Compensation Committee, Pay Governance and Exequity were retained directly by the Committee, which, in its sole discretion, has the authority to select, retain, and terminate its relationship with the firms. In 2012, Pay Governance and Exequity provided the Committee with objective and expert analyses, independent advice, and information with respect to executive and director compensation. For 2012 executive and director compensation services rendered to the Committee, Pay Governance and Exequity earned professional fees of \$125,675 and \$522,102, respectively. Pay Governance and Exequity did not provide other consulting services to the Committee, to Valero, or to any senior executives of Valero in 2012. The consultants were deemed to be independent compensation advisers, and thus their work did not raise any conflict of interest.

During 2012, the consultants' executive and director compensation consulting services included:

- assistance with the determination of appropriate peer and comparator companies for bench-marking executive pay and monitoring Valero's performance;
- assistance with the determination of our overall executive compensation philosophy in light of Valero's business strategy and market considerations;
- competitive pay assessment of target and actual total direct compensation for executives, with separate analyses of base salary, annual incentive, and long-term incentive compensation;
- competitive pay assessment of director compensation;
- assessment of, and recommendation of enhancements to, our annual incentive bonus program with respect to both financial and operational performance metrics;
- assessment of, and recommendation of enhancements to, our long-term incentive program strategy, including the appropriate mix of equity incentive vehicles, performance measures and measurement techniques, and determination of competitive equity grant guidelines consistent with our overall pay philosophy;
- updates on trends and developments in executive compensation, new regulatory issues, and best practices; and
- assistance with proxy statement disclosures.

The following Compensation Committee Report is not “soliciting material,” is not deemed filed with the SEC, and is not to be incorporated by reference into any of Valero’s filings under the Securities Act of 1933, as amended (the “Securities Act”), or the Exchange Act, respectively, whether made before or after the date of this proxy statement and irrespective of any general incorporation language therein.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the following Compensation Discussion and Analysis with management. Based on the foregoing review and discussions and such other matters the Compensation Committee deemed relevant and appropriate, the Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement.

Members of the Compensation Committee:

Jerry D. Choate, Chairman

Bob Marbut

Robert A. Profusek

Stephen M. Waters

Randall J. Weisenburger

Rayford Wilkins, Jr.

COMPENSATION DISCUSSION AND ANALYSIS

VALERO’S 2012 ACCOMPLISHMENTS

The following are highlights of Valero’s important operational and strategic achievements in 2012.

• We increased our earnings per share (EPS) to \$5.59 in 2012 (excluding noncash asset impairment losses of \$1.77 per share and severance expense of \$0.07 per share) from \$3.68 in 2011.

• We increased our regular quarterly cash dividend from \$0.15 per share to \$0.175 per share.

• We continued to maintain our investment-grade credit rating.

• We significantly exceeded our \$100 million cost savings goal.

• We significantly exceeded our overall health, safety, and environmental target.

• We successfully completed a significant hydrocracker expansion project at our Port Arthur refinery.

TIGHT LINK BETWEEN PERFORMANCE AND EXECUTIVE PAY

The compensation opportunities of our executives are closely tied to the performance of Valero. Our pay-for-performance philosophy is supported by the following elements of our 2012 executive compensation program.

In 2012, long-term incentives represented the single largest component of targeted pay for our named executive officers (as used in this proxy statement, our “named executive officers” are the five executives listed in the Summary Compensation Table), ranging from 57 percent of total targeted pay for our executive vice presidents to 70 percent of total targeted pay for our CEO.

• All long-term incentives awarded in 2012 are aligned with stock price performance, linking executives’ pay directly with the creation of stockholder value.

Fifty-five percent of our total shares targeted for our named executive officers in 2012 were composed of performance shares and performance stock options. The performance share awards require that Valero’s TSR meet or exceed the median TSR of the peers in order to reach or exceed

targeted payout levels. As such, our executives are motivated to cause Valero's results to exceed those of our peers. The performance stock options require a minimum 25 percent stock price improvement above grant price to be exercisable. As such, no value can be realized by an executive unless there is a significant increase in the market price of Valero's common stock. Our performance share and performance stock options awards are described in Compensation Discussion and Analysis under the caption "Elements of Executive Compensation – Long-Term Incentive Awards – Performance Shares" and "– Performance Stock Options and Restricted Stock."

Restricted stock awards were also a component of the long-term incentive portfolio in 2012. These awards motivate both the creation of stockholder value through stock price gains and the retention of critical talent.

Our annual incentive bonus pool for named executive officers is funded using quantitative company performance measures in two areas that correspond to our business priorities: Adjusted Net Cash Provided by Operating Activities (ANC) and Earnings before Interest, Taxes, Depreciation, and Amortization (EBITDA). Our annual incentive bonus program is discussed below under the caption "Elements of Executive Compensation – Annual Incentive Bonus." Our annual performance goals included challenging requirements across an array of financial, strategic, and operating objectives. The 2012 objectives included EPS, return on investment (measured on a relative basis against our peers' performance), mechanical availability, cost management, and pre-established goals relating to health, safety, and environmental concerns.

These annual performance goals are measured primarily on an absolute basis, requiring performance that exceeds goals established in the first quarter of the year. By balancing these absolute goals with the relative total shareholder return (TSR) requirements under our performance share incentives, we motivate a dual focus on both Valero's performance versus our operating plan and Valero's performance compared to our peers.

ADOPTION OF BEST PRACTICES

Valero takes pride in maintaining executive pay arrangements that are commonly recognized as "best practices" within the area of executive compensation. Our executive pay program includes these leading practices.

Incentive compensation (annual bonus and long-term incentives) represents the majority (ranging from 76 percent to 88 percent) of the targeted direct compensation of our named executive officers.

We employ multiple performance metrics to motivate achievements that complement one another and that contribute to the long-term creation of stockholder value.

Executive incentives are balanced between absolute performance goals (rewarding the achievement of pre-established goals) and relative measures (linking the incentives to surpassing the performance of our peers).

We impose maximum payout ceilings on both our annual bonus opportunities and our performance shares.

Dividends are not paid on unvested performance shares.

Valero's revenues are above the median revenues of the peer group of companies within our industry against which we benchmark our executives' pay.

We eliminated all change-in-control gross ups for potential parachute excise taxes and maintain a policy against the implementation of change-in-control arrangements that contain gross-ups.

- All long-term incentives granted in 2011 and 2012 have a “double trigger” vesting provision, such that a change-in-control transaction alone will not cause immediate vesting of the awards.
- Our long-term incentive program mandates that stock options cannot be re-priced without stockholder approval.
- Our executives and directors are subject to meaningful share ownership guidelines.
- Our executives and directors are prohibited from pledging shares of Common Stock as collateral or security for indebtedness, and may not purchase, sell, or write calls, puts, or other options or derivative instruments on shares of Common Stock.
- We have a “clawback” policy requiring the return of incentive payments in certain restatement situations.
- We engage in a stockholder outreach program to solicit the input of stockholders to our pay programs.
- Our executive pay programs include design features that mitigate against the risk of inappropriate behaviors.
- Our Compensation Committee is composed entirely of directors who meet the independence requirements of the SEC and NYSE as well as pertinent tax requirements for preserving the deductibility of executive pay.
- Our Compensation Committee retains the services of independent executive compensation consultants who provide services directly to the Committee.
- We conduct an annual say-on-pay vote as recommended by our stockholders.
- We have a declassified board of directors.
- We maintain a political contributions disclosure policy.
- We eliminated our “poison pill” stockholder rights plan.

ROBUST DIALOGUE WITH STOCKHOLDERS ON EXECUTIVE PAY

Valero’s strong corporate governance principles, implemented under the guidance of the Board, are a major driving force in encouraging constructive dialogue with stockholders and other stakeholders. Valero’s senior management team actively reaches out to stockholders for dialogue concerning our compensation programs. We believe that our stockholder outreach efforts have been constructive and have provided management with insight on executive compensation issues that are important to our stockholders. These discussions also provided management with the opportunity to review our executive compensation practices and explain the principles on which they were designed.

RECENT CHANGES TO EXECUTIVE PAY ARRANGEMENTS AND PRACTICES

We continue to evaluate the effectiveness and appropriateness of our executive pay programs. This evaluation process, together with stockholder and institutional feedback we have received and our desire to simplify certain executive pay practices, led us to approve the following changes in our executive pay arrangements and practices:

- eliminated the excise tax gross-up benefit formerly provided in executive pay arrangements;
- implemented a policy to prohibit the pledging of Common Stock by directors and officers to complement our existing prohibition against hedging and other speculation in our stock;

- reduced the number of peer groups used for executive and directors comparison from four to three with one for pay benchmarking and two for evaluation of company performance as part of our simplification efforts;
- implemented an annual incentive bonus plan for named executive officers that establishes a maximum pool of awards and satisfies the requirements of a performance plan under Section 162(m) of the Internal Revenue Code, thereby preserving full deductibility of awards;
- for performance share vesting, we reduced the minimum payout of earned shares from 50 percent to 25 percent;
- for our 2012 grants of restricted stock, we eliminated the accelerator feature which provided for early vesting of awards upon achievement of certain stock price performance criteria;
- reduced the long-term incentive pay benchmark and the annual incentive bonus benchmark from 65th percentile of peer group to median;
- increased the mix of long-term incentive awards so that 55 percent of shares targeted contain a performance measure;
- and
- introduced performance-based stock options in lieu of traditional stock option awards.

ADMINISTRATION OF EXECUTIVE COMPENSATION PROGRAMS

Our executive compensation programs are administered by our Board's Compensation Committee. The Compensation Committee comprises six independent directors who are not participants in our executive compensation programs. Policies adopted by the Compensation Committee are implemented by our compensation and benefits staff. The duties and responsibilities of the Compensation Committee are further described in this proxy statement under the caption "Information Regarding the Board of Directors – Committees of the Board – Compensation Committee." In 2012, the Compensation Committee retained Exequity LLP and Pay Governance LLC as independent compensation consultants for executive and director compensation matters. The nature and scope of the consultants' services are described above under the caption "Compensation Consultant Disclosures."

We believe that a significant portion of the compensation paid to our named executive officers should be incentive-based and determined by both company and individual performance. Our executive compensation program is designed to accomplish the following long-term objectives:

- to provide compensation that mirrors the relative results of Valero as measured by both internal and external metrics;
- and
- to attract and retain the best executive talent in our industry.

To motivate superior performance from our executives, Valero targets pay opportunities that are tied to Valero's performance. We believe that an executive's earn-out of his or her full compensation opportunities should be contingent on achieving performance results that exceed pre-established goals and outperform our industry peers.

Benchmarking Data

The Compensation Committee uses peer group compensation data in assessing benchmark rates of base salary, annual incentive compensation, and long-term incentive compensation. The Compensation Comparator Group (described below) is used to benchmark compensation for our named executive officers. This reference is sometimes referred to in this proxy statement as "compensation survey data" or "competitive survey data."

Compensation Comparator Group

The Compensation Comparator Group comprises the following companies that engage in the U.S. domestic oil and gas industry:

BP p.l.c.

Chevron Corporation

Exxon Mobil Corporation

Hess Corporation

HollyFrontier Corporation

Marathon Oil Corporation

Marathon Petroleum Corporation

Murphy Oil Corporation

Royal Dutch Shell plc

Tesoro Corporation

We believe that the Compensation Comparator Group is relevant to our business because each member of the group had significant downstream refining and marketing operations within its overall business or was recently involved in the oil refining and marketing industry. We compete with these companies for talent at every level from entry-level employees to senior executives. Understanding this group's compensation programs and levels is important in order to remain competitive in this market for employees. We believe that given the size and complexity of our business, Valero employees at all levels would be qualified candidates for similar jobs at any one of the companies included in this group.

Recommendations for base salary, bonuses, and other compensation arrangements are developed under the supervision of the Compensation Committee by our compensation and benefits staff using the compensation survey data with assistance from Exequity. Use of the data is consistent with our philosophy of providing executive compensation and benefits that are competitive with companies competing with us for executive talent. In addition, the use of competitive compensation survey data and analyses assists the Compensation Committee in gauging our pay levels and targets relative to companies in the Compensation Comparator Group. See "Elements of Executive Compensation – Targets" below.

Performance Peer Groups

We also use peer groups to measure Valero's (i) return-on-investment (ROI) metric, a component used in our annual incentive bonus program, and (ii) total stockholder return (TSR) metric, used in our performance shares incentive program. The companies were selected for these peer groups because they engage in U.S. domestic refining and marketing operations.

Our use of different peer groups for compensation and performance is based on the following. While job candidacy can transcend company size, we believe that when measuring business performance, companies with a similar business model should be included. That being said, comparing the performance of Valero's generally non-integrated operations with those of integrated oil companies results in anomalies due to the mismatch in how similar industry-specific events can impact companies with these varying business models. In addition, there are relatively few companies in our business against which clear comparisons can be drawn, rendering a peer group composition more challenging than in most industries.

In the first quarter of 2012, the Compensation Committee established the peer group for ROI evaluation in the annual incentive bonus (for the ROI measurement period ending in 2012) which comprised the following companies.

Alon USA Energy, Inc.	HollyFrontier Corporation
Chevron Corporation	Marathon Petroleum Corporation
CVR Energy Inc.	Tesoro Corporation
Exxon Mobil Corporation	Western Refining Inc.
Hess Corporation	

In November of 2012, based on our updated evaluation of the refining industry, the Compensation Committee established a peer group for TSR measurement applicable to the 2012 awards of performance shares (with TSR measurement periods ending in 2013). The peer group is composed of the following entities.

Alon USA Energy, Inc.	Marathon Petroleum Corporation
BP p.l.c.	Phillips 66
CVR Energy Inc.	Royal Dutch Shell plc
Hess Corporation	Tesoro Corporation
HollyFrontier Corporation	Western Refining Inc.

Process and Timing of Compensation Decisions

The Compensation Committee reviews and approves all compensation targets and payments for the named executive officers. The Chief Executive Officer evaluates the performance of the other four named executive officers and develops individual recommendations based upon the competitive survey data. Both the Chief Executive Officer and the Committee may make adjustments to the recommended compensation based upon an assessment of an individual's performance and contributions to the Company. The compensation for the Chief Executive Officer is reviewed by the Compensation Committee and recommended to the full Board for approval. This assessment is based on the competitive survey data and other factors described in this Compensation Discussion and Analysis, and adjustments may be made based upon the non-employee directors' independent evaluation of the Chief Executive Officer's performance and contributions.

The Compensation Committee establishes the target levels of annual incentive and long-term incentive compensation for the current fiscal year based upon its review of competitive market data provided by Exequity. The Compensation Committee also reviews competitive market data for annual salary rates for executive officer positions for the next fiscal year and recommends new salary rates to become effective the next fiscal year. The Compensation Committee may, however, review salaries or grant long-term incentive awards at other times during the year because of new appointments or promotions during the year.

ELEMENTS OF EXECUTIVE COMPENSATION

Our executive compensation programs include the following material elements:

- base salary;
- annual incentive bonus;
- long-term equity-based incentives, including performance shares, performance stock options, and restricted stock;
- medical and other insurance benefits; and
- retirement benefits.

We chose these elements to foster the potential for both current and long-term payouts and to remain competitive in attracting and retaining executive talent. We believe that variable pay (i.e., annual incentive bonus and long-term equity-based incentives that do not become a permanent part of base salary), delivered through the appropriate incentives, is ultimately the best way to drive total compensation among our executive officers. We evaluate the total compensation opportunity offered to each executive officer at least once annually and have conducted compensation assessments on several occasions during the course of the year.

Our annual incentive program rewards:

- Valero's attainment of key financial performance measures;
- Valero's success in key operational and strategic measures;
- safe operations;
- environmental responsibility;
- reliable operations; and
- cost management.

Our long-term equity incentive awards are designed to tie the executive's financial reward opportunities with rewards to stockholders as measured by:

- long-term stock price performance;
- payment of regular dividends; and
- increased stockholders' return-on-investment.

Base salary is designed to provide a fixed level of competitive pay that reflects the executive officer's primary duties and responsibilities, and to provide a base upon which incentive opportunities and benefit levels are established. In this proxy statement, the term "Total Direct Compensation" refers to the sum of an executive's base salary, targeted incentive bonus, and targeted long-term incentive awards.

The long-term incentive awards in our compensation program include performance shares, performance stock options, and restricted stock. We believe that incentives that drive stockholder value should also drive executive officer pay. We believe that performance shares and performance stock options when issued do not accrue value to the executive officer unless and until stockholder value is created through both company performance and TSR. We also believe that executive officers should hold an equity stake in the company to further motivate the creation of stockholder value, which is why we include awards of restricted stock in our long-term incentive program coupled with stock retention guidelines.

Targets

Our Compensation Committee benchmarks base salaries for our named executive officers at or near the 50th percentile (median) of competitive survey data and may make decisions to pay above or below this target based on individual circumstances (e.g., performance of the executive, internal parity, and management succession planning).

We benchmark annual bonus and long-term incentive targets (expressed as a percentage of base salary) for each executive position based upon the 50th percentile (median) benchmark of the Compensation Comparator Group, and may make decisions to award above or below this target based on individual circumstances (e.g., performance of the executive, internal parity, and management succession planning). The performance peer groups to which Valero's business results are compared contain companies that operate in segments of the energy business – primarily exploration and production – that have traditionally provided higher returns than those available to Valero's downstream business segment. We face unique challenges in our peer group because we are a downstream-only company. Accordingly, we believe that preserving flexibility to target incentive opportunities above or below the median peer levels helps tailor the incentives to the executive and the role, resulting in a more customized match of competitive pay opportunities and pay-for-performance design attributes.

In addition to benchmarking competitive pay levels to establish compensation levels and targets, we also consider the relative importance of a particular management position in comparison to other management positions in the organization. In this regard, when setting the level and targets for compensation for a particular position, we evaluate that position's scope and nature of responsibilities, size of business unit, complexity of duties and responsibilities, as well as that position's relationship to managerial authorities throughout the management ranks of Valero.

Relative Size of Major Compensation Elements

When setting executive compensation, the Compensation Committee considers the amount and form of compensation payable to an executive officer. The Committee seeks to achieve an appropriate balance between immediate cash rewards for the achievement of company and personal objectives and long-term incentives that align the interests of our officers with those of our stockholders. The size of each element is based on the assessment of competitive market practices as well as company and individual performance.

The Compensation Committee analyzes total compensation from a market competitive perspective, and then evaluates each component relative to its market reference. The Committee believes that making a significant portion of an executive officer's incentive compensation contingent on long-term stock price performance more closely aligns the executive officer's interests with those of our stockholders.

Because we place a large amount of the total compensation opportunity at risk in the form of variable pay (annual bonus and long-term incentives), the Committee generally does not adjust current compensation based upon realized gains or losses from prior incentive awards, prior compensation, or current stock holdings. For example, we normally will not change the size of a target long-term incentive grant in a particular year solely because of Valero's stock price performance during the immediately preceding years, although this may be taken into account in other compensation decisions. The Compensation Committee recognizes that refining and marketing is a volatile industry and strives to maintain a measure of predictability consistent with a substantial reliance on variable compensation structures in furtherance of a fundamental pay-for-performance philosophy.

An executive officer's total direct compensation is structured so that realizing the targeted amount is highly contingent on performance of the company due to the executive's level of at-risk pay. The following charts summarize the relative size of base salary and target incentive compensation for 2012 for our named executive officers.

Individual Performance and Personal Objectives

The Compensation Committee evaluates the individual performance of, and performance objectives for, our named executive officers. Performance and compensation for our Chief Executive Officer are reviewed and approved by the Compensation Committee and the Board's independent directors. For officers other than the Chief Executive Officer, individual performance and compensation are evaluated by the Compensation Committee with recommendations from our Chief Executive Officer. Individual performance and objectives are specific to each officer position.

The criteria used to measure an individual's performance may include assessment of objective criteria (e.g., execution of projects within budget parameters, improving an operating unit's profitability, or timely completing an acquisition or divestiture) as well as qualitative factors such as the executive's ability to lead, ability to communicate, and successful adherence to Valero's stated core values (i.e., commitment to environment and safety, acting with integrity, showing work commitment, communicating effectively, and respecting others). There are no specific weights assigned to these various elements of performance.

Base Salaries

Base salaries for our named executive officers are approved by the Compensation Committee after taking into consideration median practices for comparable roles among the peer companies. The Compensation Committee also considers the recommendations of the Chief Executive Officer with regard to officers other than the Chief Executive Officer. The base salary and all other compensation of the Chief Executive Officer are reviewed and approved by the independent directors of the Board.

Base salaries are reviewed annually and may be adjusted to reflect promotions, the assignment of additional responsibilities, individual performance, or the performance of Valero. Salaries are also periodically adjusted to remain competitive with companies within the compensation survey data. An executive's compensation typically increases in relation to his or her responsibilities within Valero.

Annual Incentive Bonus

To fund the annual incentive bonus program for our named executive officers, the Compensation Committee sets quantitative company performance measures during the first quarter of the year. Valero's performance vis-à-vis these measures will establish the maximum bonus amounts that can be paid under our program. In 2012, the Committee established measures that correspond to two of our business priorities: Adjusted Net Cash Provided by Operating Activities ("ANC") and Earnings Before Interest, Taxes, Depreciation, and Amortization ("EBITDA"). These measures establish the maximum level of funding for the bonus program. The program is funded at an amount equal to the greater of (i) ANC multiplied by 0.80 percent, or (ii) EBITDA multiplied by 0.65 percent.

Once the maximum pool is calculated, the funded pool is allocated to each executive officer using the following percentages: 50 percent for the Chief Executive Officer (the highest paid officer), 20 percent for the second highest paid officer, and 10 percent each for the third, fourth, and fifth highest paid officers. Notwithstanding this allocation, the maximum bonus that can be paid to any named executive officer is \$20 million.

After these maximum funded amounts are calculated, the Compensation Committee considers the following performance goals for the completed fiscal year to determine the minimum earned bonuses of the named executive officers (at amounts that may not exceed the funded levels):

- quantitative financial performance goals (Financial Performance Goals), operational performance goals (Operational Performance Goals), and qualitative goals and objectives (Strategic Company Performance Goals);
- the position of the named executive officer, which is used to determine a targeted percentage of base salary that may be awarded as incentive bonus; and
- a qualitative evaluation of the individual's performance.

Thus, the amount of the bonus ultimately paid to a named executive officer takes into consideration (i) Valero's achievement of the performance objectives established and approved by the Compensation Committee in the first quarter of the performance year (i.e., ANC and EBITDA) in order to fund the bonus program, and (ii) the Compensation Committee's assessment of Valero's and each executive's performance in relation to the pre-established performance goals more fully described below (which provides for potential application of downward discretion by the Compensation Committee to reduce payouts below the funded pool amounts).

Financial Performance Goals

The Financial Performance Goals considered for our annual incentive bonuses are EPS and ROI. The Compensation Committee establishes minimum, target, and maximum levels for these measures in the first quarter of the performance year. We believe that these measures appropriately reflect our business planning process and corporate philosophy regarding financial performance measurement. We believe that the bonus program should consider both the quantity of earnings and the quality of earnings. The quantity of earnings is typically measured by EPS and the quality of earnings is measured by ROI, providing an indication of management's ability to generate a reasonable rate of return on the capital investment in the business. Valero's performance score for 2012 for this category was 43.16 percent (versus a target score of 40.00 percent).

Operational Performance Goals

The Operational Performance Goals considered for our annual incentive bonuses, as established and approved by the Compensation Committee in the first quarter of the performance year, are measured against:

- Valero's achievements in health, safety, and environmental concerns;
- Valero's achievements in improving refining competitiveness through improved mechanical availability; and
- Valero's achievements in cost management and expense control.

We believe that these measures appropriately reflect key business objectives of Valero. After completion of the fiscal year, each of the Operational Performance Goals is measured against Valero's actual performance in these areas and the minimum, target, and maximum levels established by the Compensation Committee. Valero's performance score for 2012 for this category was 76.69 percent (versus a target score of 40.00 percent)

Strategic Company Performance Goals

Valero's Strategic Company Performance Goals are established in the first quarter of the performance year by the Chief Executive Officer. After completion of the fiscal year, the Strategic Company Performance Goals are evaluated as a whole. Significant achievements in this area for 2012 include, (i) the successful transitioning of the Aruba refinery into a crude oil and refined products terminal, (ii) the creation of long-term stockholder value through a quarterly cash dividend increase from \$0.15 per share to \$0.175 per share, and (iii) the successful completion and safe start-up of a new hydrocracker unit at our Port Arthur, Texas refinery. Valero's performance score for 2012 for this category was 20.00 percent (target was 20.00 percent).

Valero's Achievement of Performance Goals for 2012

The following table details the performance targets and final results of Valero's 2012 achievement for each of the sub-components of the bonus program's Financial Performance Goals, Operational Performance Goals, and Strategic Company Performance Goals.

Annual Incentive Bonus Performance Goals

Component (with target percent weighting)	Minimum	Target	Maximum	Achieved in 2012	Minimum Bonus Percent Earned (1)

(2) Consists of 22 separately weighted health, safety, and environmental metrics across four business units.

(3) Using the most recent Mechanical Availability scoring from the industry-standard Solomon Associates survey in which performance "achieved" represents the upper half of second quartile performance.

(4) As described above under "Strategic Company Performance Goals."

As a result of Valero's 2012 ANC performance, the maximum bonus pool was funded at \$45.68 million. The final 2012 bonus amounts paid to our named executive officers were determined as a function of: (i) Valero's performance and maximum bonus pool funding based on ANC performance, (ii) Valero's performance as measured against the financial, operational, and strategic performance goals described above and, (iii) the Committee's assessment of the named executive officers' individual performance in 2012. Based on these considerations, the Compensation Committee determined that final 2012 bonus amounts for the named executive officers should fall between the maximum amounts established under the funded bonus pool and the minimum amounts derived by measuring performance against the financial, operational, and strategic goals described above.

The following table summarizes the 2012 bonus amounts paid to our named executive officers:

	Klesse	Gorder	Ciskowski	Edwards	Bowers	
Base salary	\$1,500,000	\$775,000	\$775,000	\$550,000	\$550,000	
Bonus target percentage (1)	150%	110%	110%	80%	80%	
Bonus target amount (2)	\$2,250,000	\$852,500	\$852,500	\$440,000	\$440,000	
Minimum bonus percentage achieved (3)	139.85%	139.85	% 139.85	% 139.85	% 139.85	%
Minimum incentive bonus earned (4)	\$3,146,625	\$1,192,221	\$1,192,221	\$615,340	\$615,340	
Bonus amount paid (5)	\$3,735,000	\$1,278,800	\$1,278,800	\$660,000	\$660,000	

Footnotes:

(1) Bonus target as a percentage of base salary.

(2) Determined by multiplying “bonus target percentage” times “Base salary.”

(3) Valero’s “Minimum bonus percentage earned” was 139.85% based on results of the Annual Incentive Bonus Performance Goals detailed in the previous table.

(4) Determined by multiplying “Bonus target amount” times “Minimum bonus percentage achieved.”

As disclosed in the Summary Compensation Table. The amount was determined based on the Compensation Committee’s evaluation of: (i) Valero’s performance and maximum bonus pool funding using ANC, (ii) Valero’s performance as measured against financial, operational, and strategic goals, and (iii) the Committee’s assessment of the named executive officers’ individual performance in 2012. The Compensation Committee determined that

(5) Valero’s exceptional ANC performance, together with the named executive officers’ individual contributions to Valero’s overall performance merited earned bonus amounts for 2012 that exceeded the minimum bonus amounts (detailed in the above table) by just over 7% to approximately 19%. Based on superior ANC results, the maximum bonus funding is significantly greater than the final earned amounts; accordingly, the final bonus earnings represent the application of the Compensation Committee’s downward discretion from the maximum bonus award funding.

Long-Term Incentive Awards

We provide stock-based, long-term compensation to our executive officers through our stockholder-approved equity plans. The plans provide for a variety of stock and stock-based awards, including stock options and restricted stock, each of which vests over a period determined by the Compensation Committee, as well as performance shares that vest (become non-forfeitable) upon Valero’s achievement of an objective performance goal. The Compensation Committee presently expects to make awards of performance shares, performance stock options, and restricted stock annually. We believe that these awards create a powerful link between the creation of stockholder value and executive pay delivered. In addition, we believe that the balance between absolute performance alignment through performance stock options and restricted shares, and the relative performance objectives underscored by the relative TSR performance shares, is appropriate. In order for executives to fully realize their targeted opportunities, Valero must both perform well and beat the stock price performance of its peers.

For each officer, a target amount of long-term incentives is established and is expressed as a percentage of base salary. In establishing award sizes, the Compensation Committee makes primary reference to median peer company grant levels and makes individualized determinations of award sizes based on additional factors such as: each executive’s experience and contribution to company success, internal parity, and management succession. In addition, an executive’s targeted award may be adjusted based upon the Compensation Committee’s determination of the officer’s individual performance, which (for officers other than the Chief Executive Officer) takes into consideration the recommendation of the Chief Executive Officer.

The mix of target awards for the named executive officers' long-term incentive compensation for fiscal year 2012 consisted of 30 percent performance shares, 25 percent performance stock options, and 45 percent restricted stock on a per share count basis.

Mix of Long-Term Incentive Awards

Performance Shares

For 2012, performance share targets represent 30 percent of each executive officer's long-term incentive target on a share-count basis. Performance shares are payable in shares of Common Stock on the vesting dates of the performance shares. Shares of Common Stock are earned with respect to vesting performance shares only upon Valero's achievement of challenging TSR objectives (measured in relation to the TSR of our peers). For the performance shares awarded in 2012, shares not earned in a given performance period expire and are forfeited.

The performance shares awarded in 2012 are subject to vesting in three annual increments, based upon our TSR compared to our peer group during one-year, two-year, and three-year performance periods. Performance periods measure TSR based on the average closing stock prices for the 30 days of December 2 to December 31 at the beginning and end of the performance periods, including dividends. At the end of each performance period, our TSR for the period is compared to the TSR of our peer group. Consistent with typical relative TSR design conventions, shares of Common Stock are awarded based on Valero's TSR performance versus the peers' TSR as follows:

Percentile TSR Rank	% of Performance Shares Awarded as Common Shares
below 25th%	0%
25th% (1)	25%
50th% (1)	100%
75th% or above	200%

(1) TSR performances between the 25th and 75th percentiles generate payouts determined by interpolation.

Performance Stock Options and Restricted Stock

Our 2012 target long-term incentive awards included awards weighted 25 percent in the form of performance stock options and 45 percent in the form of restricted stock, each on a share-count basis. We believe that this mix provides an appropriate balance between the pay-for-performance attributes of performance stock options and the equity alignment and retentive qualities of restricted shares. In addition, this mix aligns with market practices, and thus supports recruitment and retention of top-quality executive talent.

Performance stock options granted in 2012 require a 25 percent stock price improvement over the grant-date stock price during the life of the grant before options are exercisable. Performance stock options vest in equal annual installments over a period of three years and expire in ten years. We believe that performance stock options link executives' incentive opportunities tightly with stockholder returns, and thereby support our pay-for-performance design. Because the price of Valero common stock must increase by 25 percent over the fair market value on the date of grant, performance stock options will provide a benefit to the executive only to the extent that there is appreciation in the market price of our Common Stock. Performance stock options and restricted stock are subject to forfeiture if an executive terminates his or her employment prior to vesting.

The Compensation Committee considers and grants performance stock options and restricted stock to our officers and certain other employees annually, typically during the fourth quarter in conjunction with the last regularly scheduled meeting of the Compensation Committee for the year. The performance stock option and restricted stock components of our executive officers' 2012 long-term incentive awards were granted in November 2012.

As required by our equity incentive plans, the exercise price for performance stock options cannot be less than the mean of the highest and lowest sales prices per share of our Common Stock as reported on the NYSE on the grant date. All awards of performance stock options described in the Summary Compensation table and Grants of Plan-Based Awards table of this proxy statement were reviewed and approved by the Compensation Committee. All of these performance stock options have a grant date that is equal to the date on which the options were approved by the Compensation Committee or our independent directors.

Perquisites and Other Benefits

Consistent with our goal of providing total compensation and benefit opportunities that are aligned with market practices among our peers, officers are eligible to receive reimbursement for club dues, personal excess liability insurance, federal income tax preparation, life insurance policy premiums with respect to cash value life insurance, and an annual health examination. In addition, officers are sometimes provided with tickets to sporting and other entertainment events in a de minimis amount. We do not provide executive officers with automobiles or automobile allowances or supplemental executive medical benefits or coverage.

We provide other benefits, including medical, life, dental, and disability insurance in line with competitive market conditions. Our named executive officers are eligible for the same benefit plans provided to our other employees, including our Thrift Plan and insurance and supplemental plans chosen and paid for by employees who desire additional coverage.

Consistent with typical practices among our peers, executive officers and other employees whose compensation exceeds certain limits are eligible to participate in non-qualified excess benefit programs whereby those individuals can choose to make larger contributions than allowed under the qualified plan rules and receive correspondingly higher benefits. These plans are described below.

Post-Employment Benefits

Pension Plans

We have noncontributory defined benefit Pension Plan in which most of our employees, including our named executive officers, are eligible to participate and under which contributions by individual participants are neither required nor permitted. We also have a noncontributory, non-qualified Excess Pension Plan and a non-qualified Supplemental Executive Retirement Plan, or SERP, which provide supplemental pension

benefits to certain highly compensated employees. Our named executive officers are participants in the SERP. The SERP is offered to align with competitive practices among our peers, and to thus support recruitment and retention of critical executive talent. The Excess Pension Plan and the SERP provide eligible employees with additional retirement savings opportunities that cannot be achieved with tax-qualified plans due to Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”), limits on (i) annual compensation that can be taken into account under qualified plans, or (ii) annual benefits that can be provided under qualified plans.

Nonqualified Deferred Compensation Plans

Deferred Compensation Plan. Our named executive officers are eligible to participate in our Deferred Compensation Plan (“DC Plan”). The DC Plan is offered in order to align with competitive practices among our peers, and thereby support recruitment and retention of critical executive talent. The DC Plan permits eligible employees to defer a portion of their salary and/or bonus until separation (i.e., retirement or termination of employment). Under the DC Plan, each year eligible employees are permitted to elect to defer up to 30 percent of their salary and/or 50 percent of their cash bonuses to be earned for services performed during the following year.

We have made no discretionary contributions to participants’ accounts, and currently we have no plans to make any discretionary contributions to participants’ accounts. We would likely only consider such contributions in the event of a significant, catastrophic economic event (or series of events) that materially impairs the value of participants’ accounts.

All amounts credited under the DC Plan (other than discretionary credits) are immediately 100 percent vested. Any discretionary credits will vest in accordance with the vesting schedule determined at the time of the grant of discretionary credits. Participant accounts are credited with earnings (or losses) based on investment fund choices made by the participants among available funds selected by Valero’s Benefits Plans Administrative Committee.

Excess Thrift Plan. Our Excess Thrift Plan provides benefits to participants in our Thrift Plan whose annual additions to the Thrift Plan are subject to the limitations on annual additions as provided under Section 415 of the Internal Revenue Code, and/or who are constrained from making maximum contributions under the Thrift Plan by Section 401(a)(17) of the Internal Revenue Code, which limits the amount of an employee’s annual compensation which may be taken into account under that plan. Two separate components comprise the Excess Thrift Plan: (i) an “excess benefit plan” as defined under Section 3(36) of ERISA; and (ii) a plan that is unfunded and maintained primarily for the purpose of providing deferred compensation for a select group of management or highly compensated employees.

Additional information about these plans and contributions made by Valero and each of our named executive officers under non-qualified defined contribution and other deferred compensation plans are presented in this proxy statement under the caption “Executive Compensation – Nonqualified Deferred Compensation.”

Severance Arrangements

We have entered into change of control severance agreements with each of our named executive officers. The agreements are intended to assure the continued objectivity and availability of the officers in the event of any merger or acquisition transaction that would likely threaten the job security of many top executives. These arrangements are intended to maintain executive focus and productivity in a period of uncertainty. If a change of control occurs during the term of an agreement, then the agreement becomes operative for a fixed three-year period. The agreements provide generally that the officers’ terms and conditions of employment will not be adversely changed during the three-year period after a change of control. In 2012

the company eliminated all parachute excise tax gross-up provisions from existing agreements. For information regarding payments that may be made under these agreements, see the disclosures in this proxy statement under the caption “Executive Compensation – Potential Payments upon Termination or Change of Control.”

IMPACT OF ACCOUNTING AND TAX TREATMENTS

Accounting Treatment

Compensation expense for our stock-based compensation plans is based on the fair value of the awards granted and is recognized in income on a straight-line basis over the requisite service period of each award. For new grants that have retirement-eligibility provisions, we use the non-substantive vesting period approach, under which compensation cost is recognized immediately for awards granted to retirement-eligible employees or over the period from the grant date to the date retirement eligibility is achieved if that date is expected to occur during the nominal vesting period.

Specific components of our stock-based compensation programs are discussed in Note 15 of Notes to Consolidated Financial Statements in Valero’s Annual Report on Form 10-K for the year ended December 31, 2012.

Tax Treatment

Under Section 162(m) of the Internal Revenue Code, publicly held corporations may not take a tax deduction for compensation in excess of \$1 million paid to the Chief Executive Officer or the other four most highly compensated executive officers unless that compensation meets the Internal Revenue Code’s definition of “performance based” compensation. Section 162(m) allows a deduction for compensation that exceeds \$1 million if it is paid (i) solely upon attainment of one or more performance goals, (ii) pursuant to a qualifying performance-based compensation plan adopted by the Compensation Committee, and (iii) the material terms, including the performance goals, of such plan are approved by the stockholders before payment of the compensation.

The Compensation Committee considers deductibility under Section 162(m) when designing compensation arrangements for executive officers. The Committee believes that it is in our best interests for the Committee to retain its flexibility and discretion to make compensation awards to foster achievement of performance goals established by the Committee and other goals the Committee deems important to our success, such as encouraging employee retention, rewarding achievement of non-quantifiable goals, and achieving progress with specific projects. We believe that the 2012 annual incentive bonus payments, performance stock options, and performance share grants qualify as performance-based compensation and are not subject to any deductibility limitations under Section 162(m). Grants of restricted stock or other equity-based awards that are not subject to specific quantitative performance measures will likely not qualify as “performance based” compensation and, in such event, would be subject to Section 162(m) deduction restrictions.

COMPENSATION-RELATED POLICIES

Executive Compensation Clawback Policy

Under our executive compensation “clawback” policy, in the event of a material restatement of Valero’s financial results, the Board, or the appropriate committee thereof, will review all bonuses and other incentive and equity compensation awarded to our executive officers. The policy provides that if the bonuses and other incentive and equity compensation would have been lower had they been calculated based on such restated results, the Board (or committee), will, to the extent permitted by governing law and as appropriate under the circumstances, seek to recover for the benefit of Valero all or a portion of the specified compensation awarded to executive officers whose fraud or misconduct caused or partially caused such restatement, as determined by the Board (or committee). In determining whether to seek recovery, the policy states that the

Board (or committee) shall take into account such considerations as it deems appropriate, including governing law and whether the assertion of a claim may prejudice the interests of Valero in any related proceeding or investigation. The policy is available on our website at www.valero.com under the “Corporate Governance” tab in the “Investor Relations” section.

Compensation Consultant Disclosure Policy

Per the terms of our compensation consultant disclosure policy, Valero will make certain disclosures pertaining to compensation consultants in our proxy statements for annual meetings of stockholders. For any compensation consultant retained by the Compensation Committee to provide compensation advice with respect to the compensation disclosed in the Summary Compensation Table in the proxy statement, we will disclose (i) the total fees paid annually to the consultant for compensation-related services and non-compensation-related services, (ii) a description of any non-compensation-related services provided by the consultant, and (iii) any services that the consultant has provided to senior executives of Valero and the nature of those services. The full text of the policy is available on our website at www.valero.com under the “Corporate Governance” tab in the “Investor Relations” section.

Stock Ownership Guidelines and Prohibition Against Hedging and Pledging

Our stock ownership and retention guidelines require that nonemployee directors acquire and hold during their service shares of common stock equal in value to at least three times their annual cash retainer. Our officers are required to meet the applicable guideline stated below.

Officer Position	Value of Shares Owned
Chief Executive Officer	5x Base Salary
President	3x Base Salary
Executive Vice Presidents	2x Base Salary
Senior Vice Presidents	1x Base Salary
Vice Presidents	1x Base Salary

Officers and non-employee directors have five years to meet the requisite ownership threshold and, once attained, are expected to continuously own sufficient shares to meet that threshold.

In addition, our directors and officers may not purchase, sell, or write calls, puts, or other options or derivative instruments on shares of Common Stock, and our directors and officers are prohibited from pledging shares of Common Stock as collateral or security for indebtedness. Compliance with the guidelines is monitored by the Compensation Committee. The full text of our stock ownership and retention guidelines is included in our Corporate Governance Guidelines (as Article IX), available on our website at www.valero.com under the “Corporate Governance” tab in the “Investor Relations” section.

Insider Trading and Speculation in Valero Stock

Our officers, directors, and employees are prohibited from purchasing or selling Valero securities while in possession of material, nonpublic information, or otherwise using such information for their personal benefit or in any manner that would violate applicable laws and regulations. In addition, our policies prohibit our employees from speculating in our stock, which includes short selling (profiting if the market price of our stock decreases), buying or selling publicly traded options (including writing covered calls), hedging, or any other type of derivative arrangement that has a similar economic effect. Our Compensation Committee does not time the grants of long-term incentive awards around Valero’s release of undisclosed material information.

EQUITY COMPENSATION PLAN INFORMATION

The following table presents information regarding our equity compensation plans as of December 31, 2012.

- (2) This plan was assumed by Valero on September 1, 2005, upon our acquisition of Premcor Inc.
- (3) Officers and directors of Valero are not eligible to receive grants under this plan.

For additional information on these plans, see Note 15 of Notes to Consolidated Financial Statements for the fiscal year ended December 31, 2012, included in Valero's Annual Report on Form 10-K.

EXECUTIVE COMPENSATION

The tables in the following sections of this proxy statement provide information required by the SEC regarding compensation paid to or earned by our named executive officers for the year ended December 31, 2012. We use captions and headings in these tables that correspond to the SEC regulations requiring these disclosures. The footnotes to these tables provide important information to explain the values presented in the tables, and are an important part of our disclosures.

SUMMARY COMPENSATION TABLE

This table summarizes the compensation paid to our named executive officers for the fiscal years ended December 31, 2012, 2011, and 2010. The elements of compensation listed in the table are described in the “Compensation Discussion and Analysis” section of this proxy statement and in the table’s footnotes.

Footnotes to Summary Compensation Table:

(1) In accordance with SEC rules, the persons listed in the table are referred to as our “named executive officers” in this proxy statement.

(2) The amounts shown represent the grant date fair value of awards for each of the fiscal years shown computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation-Stock Compensation (FASB ASC Topic 718).

(3)

See the Grants of Plan-Based Awards table for more information regarding shares of restricted stock and performance shares awarded in 2012. Additional information about the restricted stock and performance shares awarded in 2012 is disclosed in Note 15 (“Stock-Based Compensation”) of Notes to Consolidated Financial Statements in Valero’s Annual Report on Form 10-K for the year ended December 31, 2012.

(4) See the Grants of Plan-Based Awards table for more information on stock options granted in 2012. For information about valuation assumptions for the 2012 stock option grants, refer to Note 15 (“Stock-Based Compensation”) of Notes to Consolidated Financial Statements in Valero’s Annual Report on Form 10-K for the year ended December 31, 2012.

(5) Represents amounts earned under our annual incentive bonus plan, as described in “Compensation Discussion and Analysis – Elements of Executive Compensation – Annual Incentive Bonus.”

(6) This column represents the sum of the change in pension value and non-qualified deferred compensation earnings for each of the named executive officers. See the Pension Benefits table for the present value assumptions used for these calculations. The amount of above-market or preferential earnings on non-tax-qualified deferred compensation included in the amounts presented above is zero.

(7) The amounts listed as “All Other Compensation” for 2012 are composed of these items:

Footnotes:

(1) The exercise price is the mean of the high and low reported sales price per share on the NYSE of our Common Stock on the date of grant. Under Valero's 2011 Omnibus Incentive Plan, the exercise price for all options granted under the plan cannot be less than the mean of the high and low reported sales price per share on the NYSE of our Common Stock on the date of grant.

(2) The reported grant date fair value of stock and option awards was determined in compliance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 718.

Footnotes to Grants of Plan-Based Awards table (cont.):

- Represents potential awards under our annual incentive bonus program for named executive officers. Actual amounts earned by our named executive officers for 2012 are reported in the Summary Compensation Table under the column “Non-Equity Incentive Plan Compensation.” The “target” amounts listed in the Grants of Plan-Based Awards table are computed by multiplying base salary by 150%, 110%, 110%, 80%, and 80% for Mr. Klesse, Mr. Gorder, Mr. Ciskowski, Mr. Edwards, and Ms. Bowers, respectively. The amounts listed as “maximum” are determined by multiplying the maximum funded bonus pool amount under the program (as a result of Valero’s ANC or EBITDA performance for the year, i.e., \$45.68 million for 2012) by 50%, 20%, 10%, 10%, and 10% for Mr. Klesse, Mr. Gorder, Mr. Ciskowski, Mr. Edwards, and Ms. Bowers, respectively (subject to a maximum of \$20 million for any officer). Our annual incentive bonus program for named executive officers is described in “Compensation Discussion and Analysis – Elements of Executive Compensation – Annual Incentive Bonus.”
- (3) Represents an award of shares of restricted stock. The shares vest (become nonforfeitable) annually in equal one-third increments beginning in 2013. Dividends on restricted stock are paid as and when dividends are declared and paid on our outstanding Common Stock. Restricted stock awards are more fully described in “Compensation Discussion and Analysis – Elements of Executive Compensation – Long-Term Incentive Awards.”
- (4) Represents an award of performance shares. Per the awards’ terms, on a normal vesting date officers can earn, in shares of Common Stock, from 0% to 200% of the number of performance shares that are vesting, based upon Valero’s achievement of objective performance measures during the performance periods prescribed by our Compensation Committee. See “Compensation Discussion and Analysis – Long-Term Incentive Awards – Performance Shares.” The amounts listed above represent an award of performance shares in three tranches. The performance shares will vest annually in one-third increments in January 2014, January 2015, and January 2016. The first tranche will vest in January 2014, with any resulting payout at that time conditioned upon Valero’s performance during the performance period ending in December 2013. Under FASB ASC Topic 718 (“Topic 718”), each tranche is deemed to be a separate grant for fair value purposes. The first tranche was deemed to be granted (under Topic 718) in 2012, and is deemed to have an expected conversion rate (probable outcome) of 75% with a fair value per share of \$28.53 (as reported in Note 15 “Stock-Based Compensation” of Notes to Consolidated Financial Statements in Valero’s Annual Report on Form 10-K for the year ended December 31, 2012). When assuming achievement of the highest level of possible performance conditions (per SEC Regulation S-K, Instruction 3 to Item 402(c)(2)(v)), the calculation produces assumed values for this tranche’s shares of \$2,105,518; \$801,352; \$694,650; \$320,335; and \$320,335, for Mr. Klesse, Mr. Gorder, Mr. Ciskowski, Mr. Edwards, and Ms. Bowers, respectively. The grant date (per Topic 718) for the second tranche of these performance shares is expected to occur in either the fourth quarter of 2013 or in January 2014, depending on actions to be taken by our Compensation Committee. Similarly, the grant date for the third tranche is expected to occur in either the fourth quarter of 2014 or in January 2015, depending on actions to be taken by our Compensation Committee. The expected conversion rates and fair values of the second and third tranches will be determined on their respective Topic 718 grant dates.
- (5) For performance shares awarded in 2011, the grant date (per Topic 718) for the second tranche occurred in the fourth quarter of 2012. The performance shares in the second tranche were deemed to have an expected conversion rate (probable outcome) of 50% and fair value per share of \$28.53, resulting in grant date fair values of \$1,203,255; \$237,769; \$399,421; \$190,210; and \$190,210, for Mr. Klesse, Mr. Gorder, Mr. Ciskowski, Mr. Edwards, and Ms. Bowers, respectively. The grant date (per Topic 718) for the third tranche is expected to occur in either the fourth quarter of 2013 or in January 2014, depending on actions to be taken by our Compensation Committee. The expected conversion rate and fair value of the third tranche will be determined on its Topic 718 grant date.
- For performance shares awarded in 2010, the grant date (per Topic 718) for the third tranche occurred in the fourth quarter of 2012. The performance shares in the third tranche were deemed to have an expected conversion rate (probable outcome) of 100% and fair value per share of \$28.53, resulting in grant date fair values of \$2,847,755; \$380,391; \$570,601; \$380,391; and \$380,391, for Mr. Klesse, Mr. Gorder, Mr. Ciskowski, Mr. Edwards, and Ms. Bowers, respectively.

(6) Represents a grant of options to purchase Common Stock. The options vest (become nonforfeitable) in equal annual installments over a period of three years beginning in 2013. The options are known as “performance stock options” because the options were to become exercisable after their vesting dates, if at all, only if the reported market price per share of Valero’s common stock on the NYSE reaches, since the date of grant, a price that equals or exceeds a price that is 25 percent greater than the options’ exercise price. (This performance milestone was met in early 2013.) The options will expire 10 years from their date of grant.

For information about valuation assumptions for the 2013 grants, refer to Note 15 (“Stock-Based Compensation”) of Notes to Consolidated Financial Statements in Valero’s Annual Report on Form 10-K for the year ended December 31, 2012. For financial reporting purposes, the fair value of stock options must be determined using an option-pricing model such as Black-Scholes or a binomial model taking into consideration the following:

- the exercise price of the option;
- the expected life of the option;
- the current price of the underlying stock;
- the expected volatility of the underlying stock;
- the expected dividends on the underlying stock; and
- the risk-free interest rate for the expected life of the option.

Footnotes to Outstanding Equity Awards table:

- (1) Our equity plans provide that the exercise price for all stock options must not be less than the mean of the Common Stock's high and low NYSE reported sales price per share on the date of grant.
The assumed market values were determined using the closing market price of our Common Stock on 12/31/2012 (\$34.12 per share). For a further discussion of the vesting of performance share awards (as noted in the following footnotes), see "Compensation Discussion and Analysis – Elements of Executive Compensation – Long-Term Incentive Awards – Performance Shares." For performance shares that vested in January 2013, the payout value used for this column was their actual performance share vesting percentages on 01/22/2013 (i.e., 100% for performance shares granted in 2010, and 50% for performance shares granted in 2011).
- (2) The unvested portion of this award will vest on 11/17/2013.
- (3) The unvested portion of this award will vest in equal installments on 10/28/2013 and 10/28/2014.
- (4) The unvested portion of this award will vest in equal installments on 11/09/2013, 11/09/2014, and 11/09/2015.

Footnotes to Outstanding Equity Awards table (cont.):

The unvested portion of this award is scheduled to vest on 10/16/2013. These restricted shares were granted with an acceleration feature. That is, 50% of the shares are eligible (the “Eligible Shares”) for performance-accelerated vesting. Accordingly, notwithstanding the restricted shares’ regular vesting schedule, to the extent any Eligible (6) Shares have not yet vested per their regular vesting schedule, and to the extent the Eligible Shares have not been forfeited or otherwise canceled, all unvested Eligible Shares will vest automatically at the close of business on the last date of the period when the NYSE-reported closing price per share of Common Stock is \$60.00 or higher for five consecutive trading days.

The unvested portion of this award is scheduled to vest in equal installments on 10/15/2013 and 10/15/2014. These (7) restricted shares were granted with an acceleration feature. That is, 50% of the shares of restricted stock represented by this award were eligible for accelerated vesting as described in the preceding footnote (but substituting “\$40.00” for the “\$60.00” stated therein). This performance milestone was met on February 4, 2013.

The unvested portion of this award is scheduled to vest on 11/17/2013; 50% of the shares of restricted stock (8) represented by this award were eligible for accelerated vesting as described in footnote (7) above. This performance milestone was met on February 4, 2013.

The unvested portion of this award is scheduled to vest in equal installments on 10/28/2013 and 10/28/2014; 50% (9) of the shares of restricted stock represented by this award are eligible for accelerated vesting as described in footnote (7) above. This performance milestone was met on February 4, 2013.

The unvested portion of this award is scheduled to vest in equal installments on 11/09/2013, 11/09/2014, and (10) 11/09/2015. These shares are not eligible for accelerated vesting.

Two-thirds of these performance shares vested on 01/22/2013 at 100%, the final one-third is scheduled to vest in (11) January 2014. The value shown in the column, “Equity Incentive Plan Awards: Market or Payout Value of Unearned Shares, Units or Other Rights That Have Not Vested,” represents the market value of 100% of the performance shares at the closing price of Valero’s Common Stock on 12/31/2012.

One-third of these performance shares vested on 01/22/2013 at 50% of target; one-third is scheduled to vest in (12) January 2014, and the final one-third is scheduled to vest in January 2015. The value shown in the column, “Equity Incentive Plan Awards: Market or Payout Value of Unearned Shares, Units or Other Rights That Have Not Vested,” represents, for the performance shares that vested in January 2013, the market value of 50% (the actual payout amount) of the closing price of Valero’s Common Stock on 12/31/2012, and for the remaining two-thirds, the market value of 100% (assumed) of the closing price of Valero’s Common Stock on 12/31/2012.

These performance shares are scheduled to vest in one-third increments in each of January 2014, January 2015, (13) and January 2016. The value shown in the column, “Equity Incentive Plan Awards: Market or Payout Value of Unearned Shares, Units or Other Rights That Have Not Vested,” represents the market value of 100% of the performance shares at the closing price of Valero’s Common Stock on 12/31/2012.

OPTION EXERCISES AND STOCK VESTED
DURING THE FISCAL YEAR ENDED DECEMBER 31, 2012

The following table provides information regarding (i) option exercises by our named executive officers, and (ii) the vesting of restricted stock held by our named executive officers during 2012 on an aggregated basis.

Name	Option Awards		Stock Awards (1)	
	No. of Shares Acquired on Exercise #(2)	Value Realized on Exercise \$(3)	No. of Shares Acquired on Vesting (#)(4)	Value Realized on Vesting \$(5)
William R. Klesse	108,000	2,552,813	111,644	2,428,044
Joseph W. Gorder	70,575	1,104,225	16,984	385,707
Michael S. Ciskowski	110,000	1,657,790	53,856	1,568,711
S. Eugene Edwards	—	—	33,122	942,959
Kimberly S. Bowers	169,134	2,611,602	24,398	713,348

Footnotes to Option Exercises and Stock Vested table:

(1) Represents shares of Common Stock from the vesting of restricted shares. In 2012, no shares of Common Stock were issued with respect to vested performance shares because Valero's performance score on 01/23/2012 was 0%.

(2) Represents the gross number of shares received by the named executive officer before deducting any shares withheld from an option's exercise to pay the exercise price and/or tax obligation.

(3) The reported value is determined by multiplying (i) the number of option shares, times (ii) the difference between the market price of the Common Stock on the date of exercise and the exercise price of the stock option. The value is stated before payment of applicable taxes.

(4) For Mr. Gorder and Mr. Ciskowski (who became "retirement eligible" in 2012), the number of shares listed represents the number of shares received on vesting dates occurring in 2012 less the number of shares withheld (mandatory) from the vesting of restricted stock to pay the tax obligation relating to "retirement eligible" status. For Ms. Bowers (who is not "retirement eligible"), the number of shares listed represents the gross number of shares received before deducting shares withheld (elective) from the vesting of restricted stock to pay the resulting tax obligation. For our officers who were "retirement eligible" prior to 2012 (i.e., Mr. Klesse and Mr. Edwards), the number of shares listed represents the gross number of shares received by the named executive officer on vesting dates occurring in 2012 (as all shares necessary to satisfy tax obligations were withheld in prior years).

(5) The reported value is determined by multiplying number of vested shares by the market value of the shares on the vesting date.

POST-EMPLOYMENT COMPENSATION

PENSION BENEFITS

The following table provides information regarding the accumulated benefits of our named executive officers under Valero's tax-qualified defined benefit plan and supplemental retirement plans during the year ended December 31, 2012.

Footnotes to Pension Benefits table:

The 25.92 years of service stated for Mr. Klesse for the Pension Plan represent the sum of Mr. Klesse's participation in (a) the Valero Pension Plan since the date of Valero's acquisition of UDS in 2001 (11 years), and (b) the qualified pension plan of UDS prior to the date of Valero's acquisition of UDS (14.92 years). In addition, (1) Mr. Klesse has approximately 18 years of service in a pension plan sponsored by an entity unaffiliated with Valero or UDS that was spun-off from a predecessor of UDS. The 11 years of service stated for Mr. Klesse for the Excess Pension Plan and SERP represent his participation in these plans since the date of Valero's acquisition of UDS in 2001.

The 25.25 years of service stated for Mr. Gorder for the Pension Plan represent the sum of his participation in (a) the Valero Pension Plan since 2002 (10.67 years), (b) the qualified pension plan of UDS (11.5 years), and (c) a pension plan sponsored by an entity unaffiliated with Valero or UDS that was spun-off from a predecessor of UDS (3.08 years). In 2001, Mr. Gorder received a lump sum settlement relating to prior years of service. The Pension (2) Plan amount stated above reflects the effect of offsetting Mr. Gorder's accrued benefit under the Valero Pension Plan (using 25.25 years of credited service) by the value of his lump sum settlement in 2001. The 10.67 years of service stated for Mr. Gorder for the Excess Pension Plan and SERP represent his participation in these plans since the date of his commencement of employment with Valero.

Present values stated in the table above were calculated using the same interest rate and mortality table we use for our financial reporting. Present values at December 31, 2012 were determined using a 4.27 percent discount rate and the plans' earliest unreduced retirement age (i.e., age 62). The present values reflect postretirement mortality rates based on the 2013 Pension Protection Act Static Annuitant Mortality Table. No decrements were included for pre-retirement termination, mortality, or disability. When applicable, lump sums were determined based on a 4.27 percent interest rate and the mortality table prescribed by the IRS in Rev. Ruling 2007-67 and updated by IRS Notice 2008-85 for distributions in the years 2009-2013.

Under our Pension Plan, an eligible employee may elect to retire prior to the normal retirement age of 65, provided the individual is between the ages of 55 and 65 and has completed at least five years of vesting service. Under the plan's early retirement provisions, an employee may elect to commence a benefit upon retirement or delay payments to a later date. Pension payments that begin after age 55 and before age 62 are reduced by four percent for each full year between the benefit start date and the individual's 62nd birthday. The four-percent reduction is prorated for a partial year. The formula used to calculate the benefit and the optional forms of payment are otherwise the same as for normal retirement. Mr. Gorder, Mr. Ciskowski, and Mr. Edwards are eligible for early retirement benefits. Mr. Klesse is eligible for normal retirement benefits.

For employees hired prior to January 1, 2010, the Pension Plan (supplemented, as necessary, by the Excess Pension Plan) provides a monthly pension at normal retirement equal to 1.6 percent of the participant's average monthly compensation (based upon the participant's earnings during the three consecutive calendar years during the last 10 years of the participant's credited service affording the highest such average) times the participant's years of credited service. Each of our named executive officers was hired prior to January 1, 2010.

For employees hired on or after January 1, 2010, the Pension Plan (supplemented, as necessary, by the Excess Pension Plan) is a cash balance benefit that provides a monthly pension at normal retirement based on annual employer contributions that are based on years of service, eligible compensation and pay credits. After a one-year waiting period, pay credits are retroactive to the participant's date of hire and are based on years of service and eligible compensation.

Years of Service	Pay Credits
Under 10 years	5%
10 to 19 years	6%
20 years and over	7%

In addition to pay credits, participants will also be eligible for monthly interest credits based on the 10-Year treasury note rate with a minimum of 3 percent.

On February 15, 2013, we announced changes to certain of our U.S. qualified pension plans that cover the majority of our U.S. employees who work in our refining segment and corporate operations. Benefits under our primary pension plan will change from a final average pay formula to a cash balance formula with staged effective dates from July 1, 2013 through January 1, 2015, depending on the age and service of the affected employees. All final average pay benefits will be frozen as of December 31, 2014, with all future benefits to be earned under the new cash balance formula.

The Excess Pension Plan provides benefits to those employees whose pension benefits under the defined benefit Pension Plan are subject to limitations under the Internal Revenue Code, or are otherwise indirectly constrained by the Code from realizing the maximum benefit available to them under the terms of Pension Plan. The Excess Pension Plan is designed as an "excess benefit plan" as defined under §3(36) of ERISA, for those benefits provided in excess of section 415 of the Code. The Excess Pension Plan is not intended to be either a qualified plan under the provisions of Section 401(a) of the Code, or a funded plan subject to the funding requirements of ERISA. Subject to other terms of the plan, the benefit payable under the Excess Pension Plan is generally an amount equal to "x" minus "y", where "x" is equal to 1.6 percent of a participant's final average monthly earnings (as determined under the plan) multiplied by the participant's number of years of credited service, and "y" is equal to the participant's benefit that is payable under the Pension Plan.

A participant's benefits under the Excess Pension Plan will vest concurrently with the vesting of the participant's benefits under the Pension Plan.

The SERP provides an additional benefit equal to 0.35 percent times the product of the participant's years of credited service (maximum 35 years) multiplied by the excess of the participant's average monthly compensation over the lesser of 1.25 times the monthly average (without indexing) of the social security wage bases for the 35-year period ending with the year the participant attains social security retirement age, or the monthly average of the social security wage base in effect for the year that the participant retires. The participant's most highly compensated consecutive 36 months of service are considered. The SERP benefit payment is made in a lump sum. A participant in the SERP will vest in the SERP benefit when he or she reaches age 55 (and has completed at least five years of credited service). An executive will become a participant in the SERP as of the date he or she is selected and named in the minutes of the Compensation Committee for inclusion as a participant in the SERP. Compensation for purposes of the Pension Plan, Excess Pension Plan, and SERP includes salary and bonus.

NONQUALIFIED DEFERRED COMPENSATION

The following table describes contributions by Valero and each named executive officer under our non-qualified defined contribution and other deferred compensation plans during 2012. The table also presents each named executive officer's earnings, withdrawals (if any), and year-end balances in these plans.

Footnotes to Nonqualified Deferred Compensation table:

(1) All of the amounts included in this column are included within the amounts reported as "All Other Compensation" for 2012 in the Summary Compensation Table.

(2) Valero assumed the Diamond Shamrock Excess ESOP, UDS Non-qualified 401(k) Plan, and Diamond Shamrock Deferred Compensation Plan when we acquired UDS in 2001. These plans are frozen. Only Mr. Klesse has balances in these plans.

Our Deferred Compensation Plan and Excess Thrift Plan are described in “Compensation Discussion and Analysis – Elements of Executive Compensation – Post-Employment Benefits.” The following terms also apply to these plans.

Under the Deferred Compensation Plan (DC Plan), participants may elect when and over what period of time their deferrals will be distributed based on plan provisions. Participants may elect to have their accounts distributed in a lump sum on a specified date, at least five years after the year of the deferral election. Effective January 1, 2010, the five year period changed to three years after the year of the deferral election for 2010 deferrals and after. Even if a participant has elected a specified distribution date, the participant’s DC Plan account will be distributed upon the participant’s death, retirement, or other termination of employment. Participants may, at the time of their deferral elections, choose to have their accounts distributed as soon as reasonably practical following retirement or other termination, or on the first day of January following the date of retirement or termination.

Participants may also elect to have their accounts distributed in one lump sum payment or in 5, 10, or 15 year installments upon retirement, and in a lump sum or five annual installments upon other termination. Participants may also elect to have their accounts distributed in one lump-sum payment or in two- to 15-year installments upon retirement. Upon a participant’s death, the participant’s beneficiary will receive the participant’s DC Plan account in one lump-sum payment within 90 days following the participant’s death. Upon a change in control of Valero, all DC Plan accounts are immediately vested in full. However, distributions are not accelerated and, instead, are made in accordance with the DC Plan’s normal distribution provisions.

The Excess Thrift Plan provides benefits to participants of our qualified thrift plan whose accounts would not otherwise be credited with company matching contributions due to certain IRS limits on contributions and/or compensation. The Excess Thrift Plan is neither a qualified plan for federal tax purposes nor a funded plan subject to ERISA. Two separate components comprise the Excess Thrift Plan: (i) an “excess benefit plan” as defined under Section 3(36) of ERISA; and (ii) a plan that is unfunded and maintained primarily for the purpose of providing deferred compensation for a select group of management or highly compensated employees.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

Our named executive officers have change-of-control severance agreements with Valero. The agreements seek to assure the continued availability of the officers in the event of a change of control of Valero. When determining the amounts and benefits payable under the agreements, the Compensation Committee and Valero sought to secure compensation that is competitive in our market to recruit and retain executive talent. Consideration was given to the principal economic terms found in written employment and change of control agreements of other publicly traded companies. When a change of control occurs, the agreements become operative for a fixed three-year period. The agreements provide generally that the officers' terms of employment will not be changed adversely during the three-year period after a change of control. In addition, outstanding stock options held by the officers will vest, restrictions on outstanding restricted stock will lapse, and unvested performance shares will vest and become payable at 200 percent of target.

Pursuant to action taken by our Board in 2012, the agreements for all of our officers were amended in January 2013 to eliminate the gross-up benefit that formerly entitled the officers to receive a payment to make them whole for any excise tax on excess parachute payments imposed under Section 4999 of the Internal Revenue Code. (Valero has adopted a policy that this benefit may not be included in any future change of control agreements.) Each agreement subjects the officer to obligations of confidentiality, both during the term and after termination, for information relating to Valero that the officer acquired during his or her employment.

For purposes of the agreements, "change of control" means any of the following (subject to additional particulars as stated in the agreements):

- the acquisition by an individual, entity or group of beneficial ownership of 20 percent or more of our outstanding Common Stock;
- the ouster from the Board of a majority of the incumbent directors;
- consummation of a business combination (e.g., merger, share exchange); or
- approval by stockholders of the liquidation or dissolution of Valero.

In the agreements, "cause" is defined to mean, generally, the willful and continued failure of the officer to perform substantially the officer's duties, or illegal or gross misconduct by the officer that is materially and demonstrably injurious to Valero. "Good reason" is defined to mean, generally:

- a diminution in the executive officer's position, authority, duties and responsibilities;
- relocation of the executive;
- increased travel requirements; or
- failure of Valero's successor to assume and perform under the agreement.

The following tables disclose potential payments to our named executive officers in connection with his or her termination or a change of control of Valero. The potential payments were calculated in accordance with SEC regulations. Values in the tables assume that a change of control occurred on December 31, 2012, and that the executive officer's employment was terminated on that date.

Under the change of control agreements, if an officer's employment is terminated for "cause," the officer will not receive any benefits or compensation other than any accrued salary or vacation pay that remained unpaid through the date of termination, and, therefore, there is no presentation of termination for "cause" in the following tables.

Footnotes for Payments Under Change of Control Severance Agreements tables:

If the company terminates the officer's employment (other than for "cause," death or "disability," as defined in the agreement) or if the officer terminates his or her employment for "good reason," the officer is generally entitled to receive the following: (a) a lump sum cash payment equal to the sum of (i) accrued and unpaid compensation through the date of termination, including a pro-rata annual bonus (for this table, we assumed that the officers' bonuses for the year of termination were paid at year end), (ii) three times the sum of the officer's annual base (1) salary (two times for Ms. Bowers) plus the officer's highest annual bonus from the past three years, (iii) the actuarial present value of the pension benefits (qualified and nonqualified) the officer would have received for an additional three years of service (two years for Ms. Bowers), and (iv) the equivalent of three years (two years for Ms. Bowers) of employer contributions under Valero's tax-qualified and supplemental defined contribution plans; (b) continued welfare benefits for three years (two years for Ms. Bowers); and (c) up to \$25,000 of outplacement services.

Per SEC regulation, we assumed each officer's compensation at the time of each triggering event to be as stated below. The listed salary is the executive officer's actual rate of pay as of December 31, 2012. The listed bonus (2) amount represents the highest bonus earned by the executive in any of fiscal years 2010, 2011, or 2012 (the three years prior to the assumed change of control):

Name	Salary	Bonus
William R. Klesse	\$1,500,000	\$3,735,000
Joseph W. Gorder	\$775,000	\$1,278,800
Michael S. Ciskowski	\$775,000	\$1,368,000
S. Eugene Edwards	\$550,000	\$710,000
Kimberly S. Bowers	\$550,000	\$710,000

(3) The executive is entitled to coverage under welfare benefit plans (e.g., health, dental, etc.) for three years (two years for Ms. Bowers) following the date of termination.

The amounts stated in the table represent the assumed cash value of the accelerated options derived by multiplying (4)(a) the difference between \$34.12 (the closing price of Common Stock on the NYSE on December 31, 2012), and the options' exercise prices, times (b) the number of option shares.

(5) The amounts stated in the table represent the product of (a) the number of shares whose restrictions lapsed because of the change of control, and (b) \$34.12 (the closing price of Common Stock on the NYSE on December 31, 2012).

(6) The amounts stated in the table represent the product of (a) the number of performance shares whose vesting was accelerated because of the change of control, times 200%, times (b) \$34.12 (the closing price of Common Stock on the NYSE on December 31, 2012).

If employment is terminated by reason of death or disability, then the officer's estate will be entitled to receive a lump sum cash payment equal to any accrued and unpaid salary and vacation pay plus a bonus equal to the highest (7) bonus earned by the officer in the prior three years (prorated to the date of termination; in this example, we assumed that the officers' bonuses for the year of termination were paid at year end). In the case of disability, the officer would be entitled to disability and related benefits at least as favorable as those provided by Valero under its programs during the 120 days prior to the officer's termination of employment.

If the officer voluntarily terminates employment other than for "good reason," he or she will be entitled to a lump sum cash payment equal to any accrued and unpaid salary and vacation pay plus a bonus equal to the highest bonus (8) earned by the officer in the prior three years (prorated to the date of termination; in this example, we assumed that the officers' bonuses for the year of termination were paid at year end).

The agreements provide for a three-year term of employment following a change of control, and generally provide (9) that the officer will continue to enjoy compensation and benefits on terms at least as favorable as in effect prior to the change of control. In addition, all outstanding equity incentive awards will vest on the date of the change of control.

DIRECTOR COMPENSATION

Footnotes to Director Compensation table:

The amounts shown represent the grant date fair value of awards granted in 2012, computed in accordance with FASB ASC Topic 718. In 2012, each of our non-employee directors who was serving on the Board on May 3, 2012, received a grant of 6,736 shares of restricted Common Stock. Mr. Pfeiffer also received a grant of 5,567 shares of restricted Common Stock upon joining the Board in February 2012. Ms. Majoras received a grant of (1)9,261 shares of restricted Common Stock upon joining the Board in July 2012. Valero did not grant stock options to any director in 2012. The following table presents for each non-employee director as of December 31, 2012 (i) the shares of Common Stock that were subject to outstanding stock options (vested and unvested), and (ii) the number of unvested restricted shares of Common Stock held. Mr. Klesse's balances are stated in the "Outstanding Equity Awards" table elsewhere in this proxy statement.

(2) In 2012, William R. Klesse served as Valero's Chairman of the Board and Chief Executive Officer. In 2012, he did not receive any compensation for his service as a director. Mr. Klesse's compensation for service as Chief Executive Officer is presented earlier in this proxy statement in the compensation tables for our named executive officers.

Our non-employee directors received a cash retainer of \$115,000 in 2012. The annual retainer is paid in lieu of payments for separate meeting or committee fees. In addition to the retainer, directors who chair the Audit, Compensation, and Nominating/Governance and Public Policy Committees, and the director serving as the designated lead director, receive an additional \$20,000 annually. Directors are reimbursed for expenses of meeting attendance. Directors who are employees of Valero do not receive compensation (other than reimbursement of expenses) for serving as directors.

Grants of equity awards supplement the cash compensation paid to our non-employee directors and serve to increase our directors' identification with the interests of our stockholders through ownership of Common Stock. On the date of each annual stockholders meeting, each non-employee director will receive a grant of restricted shares of Common Stock valued at \$160,000, with vesting occurring in equal one-third increments over three years. Upon a non-employee director's initial election to the Board, the director receives a grant of 4,000 restricted shares of Common Stock that vest in equal one-third increments over three years.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS REVIEW

We have a conflict of interest policy to address instances in which an employee or director's private interests may conflict with the interests of Valero. The policy is published on our intranet website. We have a Conflicts of Interest Committee ("COI Committee") to help administer our conflicts policy and to determine whether any employee or director's private interests may interfere with the interests of Valero. The COI Committee is composed of representatives from our legal, internal audit, and Sarbanes-Oxley compliance departments. Conflicts of interest are also addressed in our Code of Business Conduct and Ethics. Any waiver of any provision of this code for executive officers or directors may be made only by the Board, and will be promptly disclosed as required by law or NYSE rule. Management also makes it a practice to inform the Board and/or its committees regarding any potential "related person" transaction (within the meaning of Item 404(a) of the SEC's Regulation S-K) of which management is aware. We also solicit information from our directors and executive officers annually in connection with the preparation of disclosures in our proxy statement. These questionnaires specifically seek information pertaining to any "related person" transaction.

TRANSACTIONS WITH MANAGEMENT AND OTHERS

To date we have been working toward the separation of our retail business under a separate company named CST Brands, Inc. ("CST"). CST is presently a wholly owned subsidiary of Valero. The separation is planned to occur by way of a pro rata distribution of 80 percent of the outstanding shares of CST common stock to Valero stockholders. We anticipate that this transaction will close in the second quarter of 2012. The distribution does not require stockholder approval, and we are not seeking your proxy in connection with the distribution. Details of the proposed separation and distribution are provided in filings with the SEC by CST.

Effective as of the distribution date, Ms. Bowers (who presently serves as Executive Vice President–Retail Marketing of Valero) and Mr. Clayton E. Killinger (who serves as Senior Vice President of Valero) will terminate their employment with Valero. Ms. Bowers will thereafter serve as Chief Executive Officer and President of CST and Mr. Killinger will serve as Senior Vice President and Chief Financial Officer of CST. In consideration for Ms. Bowers and Mr. Killinger terminating their employment with Valero and agreeing to serve as executive officers of CST, Valero has agreed to make cash severance payments to Ms. Bowers and Mr. Killinger in the amounts of \$536,510 and \$322,650, respectively. The payments will be made by Valero immediately following the distribution.

In addition, prior to the distribution, Valero will vest the outstanding, unvested restricted shares of Common Stock held by Ms. Bowers and Mr. Killinger. The number of shares subject to accelerated vesting, the approximate related expense to be recognized by Valero, and the approximate dollar value of the related-persons' interests in the transaction are as follows:

Name	No. of Shares of Valero Restricted Stock Held as of March 12, 2013	Amount of Expense	Approximate Dollar Value of Shares (a)
Kimberly S. Bowers	47,936	\$1,288,643	\$2,183,485
Clayton E. Killinger	25,468	687,139	1,160,067

(a) Determined by multiplying the number of shares times \$45.55, the closing price of Valero's common stock as reported on the NYSE on March 12, 2013.

David Wiechmann, a Valero employee, is deemed to be a "related person" under Item 404(a) of the SEC's Regulation S-K because he is married to the daughter of Ruben M. Escobedo, a director of Valero. Mr. Wiechmann is not an officer of Valero, does not attend Board or Audit Committee meetings, and does not prepare reports that are presented to the Board or to the Audit Committee. The aggregate value of salary, bonus, and other benefits paid by Valero to Mr. Wiechmann in 2012 was less than \$275,000 (including the dollar amount recognized for his equity awards for financial statement reporting purposes). There were no material differences in the compensation paid to any other employees who held analogous positions to Mr. Wiechmann and the compensation paid to Mr. Wiechmann.

**PROPOSAL NO. 2 –
RATIFICATION OF APPOINTMENT OF
INDEPENDENT AUDITOR**

(Item 2 on the Proxy Card)

The Audit Committee of the Board determined on February 27, 2013, to engage KPMG LLP ("KPMG") as Valero's independent registered public accounting firm for the fiscal year ending December 31, 2013. KPMG also served as Valero's independent registered public accounting firm for fiscal years ended December 31, 2004 and following.

The Board requests stockholder approval of the following resolution adopted by the Audit Committee and the Board. "RESOLVED, that the appointment of the firm of KPMG LLP as Valero's independent registered public accounting firm for the purpose of conducting an audit of the consolidated financial statements and the effectiveness of internal control over financial reporting of Valero and its subsidiaries for the fiscal year ending December 31, 2013 is hereby approved and ratified."

The Board recommends that the stockholders vote "FOR" the proposal to ratify the appointment of KPMG LLP as Valero's independent registered public accounting firm for 2013.

The affirmative vote of a majority of the voting power of the shares present in person or by proxy and entitled to vote is required for adoption of this proposal. If the appointment is not approved, the adverse vote will be considered as an indication to the Board that it should select another independent registered public accounting firm for the following year. Because of the difficulty and expense of making any substitution of public accountants so long after the beginning of the current year, it is contemplated that the appointment for 2013 will be permitted to stand unless the Audit Committee finds other good reason for making a change.

Representatives of KPMG are expected to be present at the Annual Meeting to respond to appropriate questions raised at the Annual Meeting or submitted to them in writing prior to the Annual Meeting. The representatives may also make a statement if they desire to do so.

KPMG FEES FOR FISCAL YEAR 2012

Audit Fees. The aggregate fees for fiscal year 2012 for professional services rendered by KPMG for the audit of the annual financial statements for the year ended December 31, 2012 included in Valero's Form 10-K, review of Valero's interim financial statements included in Valero's 2012 Forms 10-Q, the audit of the effectiveness of Valero's internal control over financial reporting, and services that are normally provided by the principal auditor (e.g., comfort letters, statutory audits, attest services, consents and assistance with and review of documents filed with the SEC) were \$10,097,068.

Audit-Related Fees. The aggregate fees for fiscal year 2012 for assurance and related services rendered by KPMG that are reasonably related to the performance of the audit or review of Valero's financial statements and not reported under the preceding caption were \$232,000. These fees related to the audit of Valero's benefit plans.

Tax Fees. The aggregate fees for fiscal year 2012 for professional services rendered by KPMG for tax compliance, tax advice and tax planning were \$56,200. These fees were for state and local tax services (\$45,000) and assistance with a statutory tax filing in the United Kingdom (\$11,200).

All Other Fees. The aggregate fees for fiscal year 2012 for services provided by KPMG, other than the services reported under the preceding captions, were \$46,175 for advisory services relating to compliance with The Dodd-Frank Wall Street Reform and Consumer Protection Act.

KPMG FEES FOR FISCAL YEAR 2011

Audit Fees. The aggregate fees for fiscal year 2011 for professional services rendered by KPMG for the audit of the annual financial statements for the year ended December 31, 2011 included in Valero's Form 10-K, review of Valero's interim financial statements included in Valero's 2011 Forms 10-Q, the audit of the effectiveness of Valero's internal control over financial reporting, and services that are normally provided by the principal auditor (e.g., comfort letters, statutory audits, attest services, consents and assistance with and review of documents filed with the SEC) were \$6,142,053.

Audit-Related Fees. The aggregate fees for fiscal year 2011 for assurance and related services rendered by KPMG that are reasonably related to the performance of the audit or review of Valero's financial statements and not reported under the preceding caption were \$216,500. These fees related to the audit of Valero's benefit plans.

Tax Fees. The aggregate fees for fiscal year 2011 for professional services rendered by KPMG for tax compliance, tax advice and tax planning were \$9,263. These fees were for assistance with a subsidiary tax return (\$900) and review of U.S. net operating losses (\$8,363).

All Other Fees. The aggregate fees for fiscal year 2011 for services provided by KPMG, other than the services reported under the preceding captions, were \$0.

AUDIT COMMITTEE PRE-APPROVAL POLICY

The Audit Committee adopted a pre-approval policy to address the pre-approval of certain services rendered to Valero by its independent auditor. The text of that policy appears in Exhibit 99.01 to Valero's Annual Report on Form 10-K for the year ended December 31, 2012.

All of the services rendered by KPMG to Valero for 2012 were pre-approved specifically by the Audit Committee or pursuant to our pre-approval policy. None of the services provided by KPMG were approved by the Audit Committee under the pre-approval waiver provisions of paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

REPORT OF THE AUDIT COMMITTEE FOR FISCAL YEAR 2012

Management is responsible for Valero's internal controls and financial reporting process. KPMG LLP, Valero's independent registered public accounting firm for the fiscal year ended December 31, 2012, is responsible for performing an independent audit of Valero's consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board ("PCAOB"), and an audit of the effectiveness of Valero's internal control over financial reporting in accordance with the standards of the PCAOB, and to issue its reports thereon. The Audit Committee monitors and oversees these processes. The Audit Committee approves the selection and appointment of Valero's independent registered public accounting firm and recommends the ratification of such selection and appointment to our Board.

The Audit Committee has reviewed and discussed Valero's audited financial statements with management and KPMG. The committee has discussed with KPMG the matters required to be discussed by the statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1. AU section 380 "Communication with Audit Committees"), as adopted by the PCAOB in Rule 3200T. The committee has received the written disclosures and the letter from KPMG required by applicable requirements of the PCAOB regarding the independent accountant's communications with the audit committee concerning independence, and has discussed with KPMG that firm's independence.

Based on the foregoing review and discussions and such other matters the Audit Committee deemed relevant and appropriate, the committee recommended to the Board that the audited financial statements of Valero be included in its Annual Report on Form 10-K for the year ended December 31, 2012, for filing with the SEC.

Members of the Audit Committee for fiscal year 2012:

Ruben M. Escobedo, Chairman

Ronald K. Calgaard

Susan Kaufman Purcell

Stephen M. Waters

Randall J. Weisenburger

* The material in this Report of the Audit Committee is not "soliciting material," is not deemed filed with the SEC, and is not to be incorporated by reference in any of Valero's filings under the Securities Act or the Exchange Act, respectively, whether made before or after the date of this proxy statement and irrespective of any general incorporation language therein.

PROPOSAL NO. 3 –
APPROVE, BY NONBINDING VOTE,
COMPENSATION OF NAMED EXECUTIVE OFFICERS
(Item 3 on the Proxy Card)

In 2011, the SEC began to require issuers to provide a stockholder advisory vote to approve the compensation of the issuers' named executive officers at least once every three years. At the 2011 annual meeting of stockholders, our stockholders followed our Board's recommendation to hold an advisory vote on executive compensation ("say-on-pay") every year.

Accordingly, we are asking stockholders to vote to approve the compensation of our named executive officers as such compensation is disclosed pursuant to Item 402 of the SEC's Regulation S-K, including the Compensation Discussion and Analysis, the compensation tables, and other narrative compensation disclosures required by Item 402. This proxy statement contains all of these required disclosures.

We request the stockholders to approve the following resolution:

"RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby approved."

Because the vote on this proposal is advisory in nature, it will not affect any compensation already paid or awarded to any named executive officer and will not be binding on Valero, the Board or the Compensation Committee. The Board and Compensation Committee, however, will review the voting results and take into account the outcome in determining future annual compensation for the named executive officers.

The Board recommends that the stockholders vote "FOR" this proposal. Proxies will be voted for approval of the proposal unless otherwise specified.

STOCKHOLDER PROPOSAL

We expect the following proposal to be presented by stockholders at the Annual Meeting. Following SEC rules, except for minor formatting changes, we have reprinted the proposal and its supporting statement as it was submitted by the sponsors of the proposal. We assume no responsibility for the statements made by the sponsors in connection with the proposal. After review, our management and the Board have concluded that they do not support the proposal, and the Board recommends that you vote AGAINST the proposal for the reasons explained below.

PROPOSAL NO. 4 – STOCKHOLDER PROPOSAL – “DISCLOSURE OF POLITICAL CONTRIBUTIONS”

(Item 4 on the Proxy Card)

The affirmative vote of a majority of the voting power of the shares present in person or by proxy and entitled to vote is required for adoption of this proposal. This proposal is co-sponsored by The Nathan Cummings Foundation and the St. Joseph Family Center. The address and number of voting securities held by each co-sponsor will be provided to any stockholder upon request.

RESOLVED, that shareholders of Valero Energy (“Valero”) urge the Board of Directors to amend Valero’s Political Contributions Policy (the “Policy”) to provide that Valero will disclose, on an annual basis, all payments to tax-exempt organizations (other than charitable organizations not permitted to engage in lobbying as a substantial part of their activities) used (a) to fund lobbying or grassroots lobbying communications or (b) to make political contributions, in each case including (x) the recipient of the payment from Valero and (y) the amount of the payment.

For purposes of this proposal, “lobbying” includes efforts at the federal, state and local levels. “Political contributions” are payments used, directly or indirectly, to (a) participate or intervene in any political campaign on behalf of or in opposition to any candidate for public office, or (b) influence the general public, or any segment thereof, with respect to an election or referendum. A “grassroots lobbying communication” is a communication directed to the general public that (x) refers to specific legislation or regulation, (y) reflects a view on it and (z) encourages the recipient to take action with respect to it.

Stockholder Supporting Statement:

As long-term shareholders, we believe it is important that Valero publicly disclose all direct and indirect political and lobbying expenditures. Without that information, shareholders cannot assess whether funds are used to promote value creation, or to pursue private managerial preferences or activities that create risks for Valero. We are concerned that corporate funds may be used to support positions or activities that are misaligned with Valero’s business strategy or values, harming Valero’s reputation and financial prospects.

The risk of such misalignment is heightened when funds are contributed to an organization that a company does not control, such as a trade association or other tax-exempt organization. Valero’s Policy does provide for disclosure of certain direct political contributions and prohibits some types of payments. In our view, however, the Policy falls short in the disclosure it requires regarding Valero’s participation in the political process through tax-exempt organizations.

Although the Policy states that, with respect to trade associations and coalitions, Valero “inquires and makes reasonable effort to obtain from the organizations what portion of Valero’s dues or payments were used for lobbying expenditures,” this information is not disclosed to shareholders. Furthermore, Valero is silent on whether it makes non-dues payments to trade associations that are in turn used to fund political contributions.

Similarly, Valero's Policy does not state whether Valero makes payments to tax-exempt organizations other than trade associations that are in turn used to make political contributions. Both types of payments should be disclosed.

We urge shareholders to vote for this proposal.

END OF STOCKHOLDER PROPOSAL

* * * * *

BOARD RECOMMENDATION:

The Board recommends that you vote "AGAINST" this proposal for the following reasons:

Similar proposals, in each case sponsored by The Nathan Cummings Foundation, were considered by Valero stockholders at the 2012 and 2011 annual meetings. Each of these proposals failed to receive the support of a majority of stockholders voting on it.

In 2009, the Board adopted our Political Contributions Disclosures policy. Our policy, and our disclosures under that policy, are available on our website (www.valero.com) under the "Corporate Governance" tab in the "Investor Relations" section. These disclosures are updated every six months and provide detailed, itemized information regarding political contributions, categorized by state, candidate or committee, and amount. We also disclose payments to trade associations that are attributable to lobbying activities in our federal lobbying reports, which can be found on the web site of the U.S. Senate at www.senate.gov (search for "Valero Energy Corporation" as registrant name).

When adopting the Political Contributions Disclosures policy, the Board determined that it would be in the best interest of Valero and its stockholders to refrain from disclosing contributions or payments to trade associations and other tax-exempt organizations. Valero's primary purpose in joining such groups, like the American Fuel & Petrochemical Manufacturers (formerly the National Petrochemical and Refiners Association), is for the business, technical, and industry expertise that these organizations provide, not political purposes. The Board continues to believe that our membership in trade associations that may engage in political activity is not necessarily representative of the corporate positions of Valero. We do monitor the appropriateness and effectiveness of the political activities that the most significant trade associations to which we belong undertake, but our corporate positions do not align with all positions taken by trade associations. In addition, as clearly stated in our Political Contributions Disclosures policy, "Valero's policy is that it does not use corporate funds to make contributions to political candidates, political parties, political committees, or other political entities organized and operating under Section 527 of the Internal Revenue Code." Accordingly, although some of the trade associations and other tax-exempt organizations to which we belong may make political contributions, our policy prohibits Valero from making political contributions through an intermediary.

As a result, we believe that the additional reporting requirement sought by the proponent, by way of an amendment to the carefully considered policy that we have already implemented regarding disclosure of political contributions, would be burdensome, would result in unnecessary expense, could lead to misleading representations of our political positions, and would not provide any additional meaningful benefits to Valero's stockholders.

Therefore, the Board recommends that you vote AGAINST this proposal.

MISCELLANEOUS

GOVERNANCE DOCUMENTS AND CODES OF ETHICS

We adopted a Code of Ethics for Senior Financial Officers that applies to our principal executive officer, principal financial officer, and controller. The code charges these officers with responsibilities regarding honest and ethical conduct, the preparation and quality of the disclosures in documents and reports we file with the SEC, and compliance with applicable laws, rules, and regulations. We also adopted a Code of Business Conduct and Ethics which applies to all of our employees and directors.

We post the following documents on our website at www.valero.com under the “Corporate Governance” tab in the “Investor Relations” section. A printed copy of any of these documents is available to any stockholder upon request. Requests for documents must be in writing and directed to Valero’s Secretary at the address indicated on the cover page of this proxy statement.

STOCKHOLDER COMMUNICATIONS, NOMINATIONS, AND PROPOSALS

Stockholders and other interested parties may communicate with the Board, its non-management directors, or the Lead Director by sending a written communication addressed to “Board of Directors,” “Non-Management Directors,” or “Lead Director” in care of Valero’s Secretary at the address indicated on the cover page of this proxy statement.

If you wish to submit a stockholder proposal to be included in our proxy statement for the 2014 annual meeting of stockholders pursuant to Rule 14a-8 of the Securities Exchange Act of 1934, we must receive your written proposal on or before November 22, 2013. The proposal must comply with Rule 14a-8, which lists the requirements for the inclusion of stockholder proposals in company-sponsored proxy materials.

If you wish to present a stockholder proposal at the 2014 annual meeting of stockholders that is not the subject of a proposal pursuant to Rule 14a-8 of the Exchange Act, or if you wish to recommend to the Board’s Nominating/Governance and Public Policy Committee the nomination of a person for election to the Board, you must follow the procedures outlined in Article I, Section 9 (or Section 10, as applicable) of our bylaws. These procedures include the requirement that your proposal must be delivered to Valero’s Secretary not later than the close of business on the 60th day or earlier than the close of business on the 90th day prior to the first anniversary of the preceding year’s annual meeting. If the date of the annual meeting is more than 30 days before or more than 60 days after such anniversary date, your notice must be delivered not earlier than the close of business on the 90th day prior to such annual meeting and not later than the close of business on the later of the 60th day prior to such annual meeting or the 10th day following the day we publicly announce the date of the 2014 annual meeting of stockholders. Our bylaws are available on our website at

www.valero.com under the “Corporate Governance” tab in the “Investor Relations” section. Stockholders are urged to review all applicable rules and consult legal counsel before submitting a nomination or proposal to Valero.

OTHER BUSINESS

If any matters not referred to in this proxy statement properly come before the Annual Meeting or any adjournments or postponements thereof, the enclosed proxies will be deemed to confer discretionary authority on the individuals named as proxies to vote the shares represented by proxy in accordance with their best judgments. The Board is not currently aware of any other matters that may be presented for action at the Annual Meeting.

FINANCIAL STATEMENTS

Consolidated financial statements and related information for Valero, including audited financial statements for the fiscal year ended December 31, 2012, are contained in Valero’s Annual Report on Form 10-K. We have filed our Annual Report on Form 10-K with the SEC. You may review this report on the internet as indicated in the Notice and through our website (www.valero.com in the “Investor Relations” section under “Financial Reports, Filings & Statements”).

HOUSEHOLDING

The SEC’s rules allow companies to send a single Notice or single copy of annual reports, proxy statements, prospectuses, and other disclosure documents to two or more stockholders sharing the same address, subject to certain conditions. These “householding” rules are intended to provide greater convenience for stockholders, and cost savings for companies, by reducing the number of duplicate documents that stockholders receive. If your shares are held by an intermediary broker, dealer, or bank in “street name,” your consent to householding may be sought, or may already have been sought, by or on behalf of the intermediary. If you wish to revoke a consent to householding obtained by a broker, dealer, or bank which holds shares for your account, you may do so by calling (800) 542-1061, or you may contact your broker.
