ITEM 1. MANAGEMENT REPORT ON THE INTERIM FINANCIAL RESULTS
AS OF JUNE 30, 2012
(UNAUDITED)

The following discussion should be read in connection with the disclosure contained in the consolidated financial statements as of December 31, 2011, which includes a study about risks and uncertainties that can influence the Group's operational results or financial position.

1. OPERATING PERFORMANCE FOR THE THREE- AND THE SIX-MONTH PERIODS ENDED JUNE 30, 2012

During the course of the second quarter of 2012, the Group's growth trend continued. In a more challenging macroeconomic environment, the Group achieved positive results in the majority of the geographic areas in which it operates, with excellent performance in North America, Australia and all emerging countries.

Net sales for the quarter were Euro 1882.2 million, and increased by 15.2% (+7.0% at constant exchange rates¹), from Euro 1,633.5 million in the same period of 2011. Net income increased by 20.6% to Euro 195.5 million from Euro 162.1 million in the same quarter of 2011.

During the half-year ended June 30, 2012, net sales grew by 15.1% (+9.0% current exchange rates) to Euro 3,670.4 million (Euro 3,189.6 million during the same period in 2011).

EBITDA in the second quarter of 2012 rose by 18.1% over the same period in 2011, going from Euro 352.2 million in 2011 to Euro 415.9 million in the same period of 2012. Additionally, adjusted EBITDA² in the first half of 2012 increased by 20.2 percent to Euro 761.2 million from Euro 635.1 million in the same period of 2011.

Operating income for the second quarter of 2012 amounted to Euro 332.6 million (Euro 276.8 million during the same period of the previous year) and increased by +20.2%, as compared to the same period in 2011. The Group's operating margin grew even further rising from 16.9% in the second quarter of 2011 to 17.7% in the current quarter.

During the first six months of 2012, adjusted operating income³ amounted to Euro 590.6 million, up by 22.0% as compared to Euro 484.2 million in the same period of 2011. The Group's adjusted operating margin⁴ therefore rose from 15.2% during the first six months of 2011 to 16.1% in the same period of 2012.

In the second quarter of 2012, net income attributable to Luxottica Stockholders was Euro 195.5 million (Euro 162.1 million in the same period of 2011). In the second quarter 2012 earnings

per share ("EPS") was Euro 0.42 and EPS expressed in USD was 0.54 (at an average exchange rate of Euro/USD of 1.2814).

By carefully controlling working capital, the Group generated positive free cash flow⁵ in both the first six months of the year (Euro 216 million) and the second quarter (Euro 180 million). After the payment of dividends of approximately Euro 227 million, net debt as of June 30, 2012 was Euro 2,164 million (Euro 2,032 million at the end of 2011), with the ratio of net debt to adjusted EBITDA⁶ of 1.7x, unchanged compared to December 31, 2011.

2. SIGNIFICANT EVENTS DURING THE SIX MONTHS ENDED JUNE 30, 2012

January

On January 20, 2012, the Group successfully completed the acquisition of 80% of share capital of the Brazilian entity Grupo Tecnol Ltd. The remaining 20% will be acquired evenly (five percent per year) starting from 2013 over a four year period. The consideration paid for the 80% was approximately 143.7 million Brazilian Reais (approximately Euro 59.4 million); additionally the Group assumed Tecnol's net debt amounting to approximately Euro 31.5 million. The acquisition furthers the Group's strategy of continued expansion of its wholesale business and acquiring a manufacturing facility in South America.

On January 24, 2012, the Board of Directors of Luxottica Group S.p.A. (hereinafter, also the "Company") approved the reorganization of the retail business in Australia. As a result of the reorganization, the Group will close approximately 10% of its Australian and New Zealand stores, redirecting resources into its market-leading OPSM brand.

March

On March 19, 2012, the Company closed an offering in Europe to institutional investors of Euro 500 million of senior unsecured guaranteed notes due March 19, 2019. The notes are listed on the Luxembourg Stock Exchange under ISIN XS0758640279. Interest on the Notes accrues at 3.625% per annum. The Notes are guaranteed on a senior unsecured basis by Luxottica U.S. Holdings Corp. ("U.S. Holdings") and Luxottica S.r.l., both of which are wholly-owned subsidiaries. On March 19, 2012, the notes were assigned a BBB+ credit rating by Standard & Poor's.

April

At the Stockholders' Meeting on April 27, 2012, the stockholders approved the Statutory Financial Statements as of December 31, 2011, as proposed by the Board of Directors and the distribution of a cash dividend of Euro 0.49 per ordinary share, reflecting a year-over-year 11.4 percent increase. The aggregate dividend amount of Euro 227.0 million was fully paid in May 2012.

May

On May 17, 2012, the Company entered into an agreement pursuant to which it will acquire approximately 120 Sun Planet stores in Spain and Portugal. Over time, the stores will be rebranded under the Sunglass Hut brand. In 2011, net sales of the chain totaled approximately Euro 22 million.

June

On June 8, 2012, Armani Group and the Company signed an exclusive license agreement for the design, manufacture and worldwide distribution of sun and prescription eyewear under the Giorgio Armani, Emporio Armani and A/X Armani Exchange brands. The 10-year license agreement,

incorporating market conditions, will begin on January 1, 2013. The first collection will be presented during 2013.

3. FINANCIAL RESULTS

We are a global leader in the design, manufacture and distribution of fashion, luxury and sport eyewear, with net sales reaching Euro 6.2 billion in 2011, over 65,000 employees and a strong global presence. We operate in two industry segments: (i) manufacturing and wholesale distribution; and (ii) retail distribution. See Note 5 to the Condensed Consolidated Half Year Financial Report as of June 30, 2012 (unaudited) for additional disclosures about our operating segments. Through our manufacturing and wholesale distribution segment, we are engaged in the design, manufacture, wholesale distribution and marketing of house and designer lines of mid- to premium-priced prescription frames and sunglasses. We operate our retail distribution segment principally through our retail brands, which include, among others, LensCrafters, Sunglass Hut, Pearle Vision, OPSM, Laubman & Pank, Bright Eyes, Oakley "O" Stores and Vaults, David Clulow, Multipticas and our Licensed Brands (Sears Optical and Target Optical).

As a result of our numerous acquisitions and the subsequent expansion of our business activities in the United States through these acquisitions, our results of operations, which are reported in Euro, are susceptible to currency rate fluctuations between the Euro and the U.S. dollar. The Euro/U.S. dollar exchange rate has fluctuated from an average exchange rate of Euro 1.00 = U.S. \$1.2965 in the first six months of 2012 to Euro 1.00 = U.S. \$1.4032 in the same period of 2011. With the acquisition of OPSM and Bright Eyes (acquired through Oakley), our results of operations have also been rendered susceptible to currency fluctuations between the Euro and the Australian dollar. Additionally, we incur part of our manufacturing costs in Chinese Yuan; therefore, the fluctuation of the Chinese Yuan relative to other currencies in which we receive revenues could impact the demand of our products or the profitability in consolidation. Although we engage in certain foreign currency hedging activities to mitigate the impact of these fluctuations, they have impacted our reported revenues and expenses during the periods discussed herein. This discussion should be read in conjunction with the risk factor discussion in Note 10 of the Management Report of the 2011 Consolidated Financial Statements.

Net Sales. Net sales increased by Euro 480.8 million, or 15.1 percent, to Euro 3,670.4 million in the first six months of 2012 from Euro 3,189.6 million in the same period of 2011. Euro 169.9 million of such increase was attributable to the increased sales in the manufacturing and wholesale distribution segment in the first six months of 2012 as compared to the same period in 2011 and to increased sales in the retail distribution segment of Euro 310.9 million for the same period.

Net sales for the retail distribution segment increased by Euro 310.9 million, or 16.9 percent, to Euro 2,155.4 million in the first six months of 2012 from Euro 1,844.5 million in the same period in 2011. The increase in net sales for the period was partially attributable to a 6.1 percent improvement in

comparable store sales⁸. In particular, we saw a 6.4 percent increase in comparable store sales for the North American retail operations, and an increase for the Australian/New Zealand retail operations of 5.3 percent. The effects from currency fluctuations between the Euro (which is our reporting currency) and other currencies in which we conduct business, in particular the strengthening of the U.S. dollar and Australian dollar compared to the Euro, increased net sales in the retail distribution segment by Euro 159.8 million during the period.

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 169.9 million, or 12.6 percent, to Euro 1,515.0 million in the first six months of 2012 from Euro 1,345.1 million in the same period in 2011. This increase was mainly attributable to increased sales of most of our house brands, in particular Ray-Ban, Oakley and Persol, and of some designer brands such as Chanel, Prada, Polo, Tiffany and the recently launched Coach line. These sales volume increases occurred in most of the geographic markets in which the Group operates. These positive effects were partially confirmed by positive currency fluctuations, in particular the strengthening of the U.S. dollar and other minor currencies, including but not limited to the Japanese Yen and Canadian Dollar, despite the weaknesses of the Brazilian Real and Turkish Lira, the total effect of which was to increase net sales to third parties in the manufacturing and wholesale distribution segment by Euro 34.7 million.

In the first six months of 2012, net sales in the retail distribution segment accounted for approximately 58.7 percent of total net sales, as compared to approximately 57.8 percent of total net sales for the same period in 2011. This increase in sales for the retail distribution segment as a percentage of total net sales was primarily attributable to a 16.9 percent increase in net sales to third parties in our retail distribution segment for the first six months of 2012 as compared to the same period of 2011, which exceeded a 12.6 percent increase in net sales for the manufacturing and wholesale distribution segment for the first six months of 2012 as compared to the same period of 2011.

In the first six months of 2012, net sales in our retail distribution segment in the United States and Canada comprised 79.3 percent of our total net sales in this segment as compared to 81.8 percent of our total net sales in the same period of 2011. In U.S. dollars, retail net sales in the United States and Canada increased by 4.7 percent to U.S. \$2,214.9 million in the first six months of 2012 from U.S. \$2,116.2 million for the same period in 2011, due to sales volume increases. During the first six months of 2012, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 20.7 percent of our total net sales in the retail distribution segment and increased by 32.8 percent to Euro 446.9 million in the first six months of 2012 from Euro 336.5 million, or 18.2 percent of our total net sales in the retail distribution segment for the same period in 2011, mainly due to a general increase in consumer demand and to recent acquisitions in Latin America.

In the first six months of 2012, net sales to third parties in our manufacturing and wholesale distribution segment in Europe were Euro 691.5 million, comprising 45.6 percent of our total net sales in this segment, compared to Euro 682.0 million, or 50.7 percent of total net sales in the segment, for the same period in 2011. The increase in net sales in Europe of Euro 9.5 million in the first six months of 2012 as compared to the same period of 2011 constituted a 1.4 percent increase in net sales to third parties, due to a general increase in consumer demand. Net sales to third parties in our manufacturing and wholesale distribution segment in the United States and Canada were U.S. \$511.0 million and comprised 26.0 percent of our total net sales in this segment for the first six months of 2012, compared to U.S. \$422.5 million, or 22.4 percent of total net sales in the segment, for the same period of 2011. The increase in net sales in the United States and Canada was primarily due to a general increase in consumer demand. In the first six months of 2012, net sales to third parties in our manufacturing and wholesale distribution segment in the rest of the world were Euro 429.4 million, comprising 28.3 percent

Comparable store sales reflects the change in sales from one period to another that, for comparison purposes, includes in the calculation only stores open in the more recent period that also were open during the comparable prior period in the same geographic area, and applies to both periods the average exchange rate for the prior period.

of our total net sales in this segment, compared to Euro 362.0 million, or 26.9 percent of our net sales in this segment, in the same period of 2011. The increase of Euro 67.4 million, or 18.6 percent, in the first six months of 2012 as compared to the same period of 2011, was due to the positive effect of currency fluctuations as well as an increase in consumer demand.

Cost of Sales. Cost of sales increased by Euro 131.9 million, or 12.0 percent, to Euro 1,229.0 million in the first six months of 2012 from Euro 1,097.1 million in the same period of 2011. As a percentage of net sales, cost of sales decreased to 33.5 percent in the first six months of 2012 as compared to 34.4 percent in the same period of 2011 due to efficiencies achieved in the production cycle. In the first six months of 2012, the average number of frames produced daily in our facilities increased to approximately 271,000 as compared to approximately 266,000 in the same period of 2011, which was attributable to increased production in all manufacturing facilities in response to an overall increase in demand.

Gross Profit. Our gross profit increased by Euro 348.8 million, or 16.7 percent, to Euro 2,441.3 million in the first six months of 2012 from Euro 2,092.5 million for the same period of 2011. As a percentage of net sales, gross profit increased to 66.5 percent in the first six months of 2012 as compared to 65.6 percent for the same period of 2011, due to the factors noted above.

Operating Expenses. Total operating expenses increased by Euro 263.9 million, or 16.4 percent, to Euro 1,872.2 million in the first six months of 2012 from Euro 1,608.3 million in the same period of 2011. As a percentage of net sales, operating expenses increased to 51.0 percent in the first six months of 2012, from 50.4 percent in the same period of 2011.

Adjusted operating expenses⁹, excluding the non-recurring expenses related to the reorganization of the Retail business in Australia amounting to approximately Euro 20.1 million, increased by Euro 243.8 million, or 15.2 percent, to Euro 1,852.1 million in the first six months of 2012 from Euro 1,608.3 million in the same period of 2011. As a percentage of net sales, operating expenses are in line with last year at 50.5 percent in the first six months of 2012, and 50.4 percent in the same period of 2011.

Selling and advertising expenses (including royalty expenses) increased by Euro 186.8 million, or 15.1 percent, to Euro 1,427.9 million in the first six months of 2012 from Euro 1,241.1 million in the same period of 2011. Selling expenses increased by Euro 154.1 million, or 15.7 percent. Advertising expenses increased by Euro 21.7 million, or 10.7 percent. Royalties increased by Euro 11.1 million, or 19.4 percent. As a percentage of net sales, selling and advertising expenses were 38.9 percent in the first six months of 2012 and 2011.

Adjusted selling expenses¹⁰, excluding the non-recurring expenses related to the reorganization of the Retail business in Australia amounting to approximately Euro 17.1 million, increased by Euro 137.0 million, or 14.0 percent to Euro 1,117.3 million from Euro 980.4 million in the same period of 2011.

General and administrative expenses, including intangible asset amortization increased by Euro 77.0 million, or 21.0 percent, to Euro 444.2 million in the first six months of 2012 as compared to Euro 367.2 million in the same period of 2011. As a percentage of net sales, general and administrative expenses were 12.1 percent in the first six months of 2012 as compared to 11.5 percent in the same period of 2011.

⁹ For a further discussion of adjusted operating expenses, see page 15 "Non-IFRS Measures."

¹⁰ For a further discussion of adjusted selling expenses, see page 15 "Non-IFRS Measures."

As a percentage of net sales, adjusted general and administrative expenses were 12.0 percent in the first six months of 2012 as compared to 11.5 percent in the same period of 2011.

Net interest expense was Euro 61.1 million in the first six months of 2012 as compared to Euro 53.2 million in the same period of 2011. The increase was mainly due to the acquisition of TecnoI and to the arrangement of a new long term loan in the second quarter of 2012.

Net Sales. Net sales increased by Euro 248.7 million, or 15.2 percent, to Euro 1,882.2 million in the three-month period ended June 30, 2012 from Euro 1,633.5 million in the same period of 2011. Euro 84.2 million of such increase was attributable to the increased sales in the manufacturing and wholesale distribution segment in the three-month period ended June 30, 2012 as compared to the same period in 2011 and to the increased sales in the retail distribution segment of Euro 164.4 million for the same period.

Net sales for the retail distribution segment decreased by Euro 164.4 million, or 17.7 percent, to Euro 1,094.0 million in the three-month period ended June 30, 2012 from Euro 929.6 million in the same period in 2011. The segment experienced a 5.1 percent improvement in comparable store sales¹⁶. In particular, there was a 5.6 percent increase in comparable store sales for the North American retail operations, and 4.6 percent increase for the Australian/New Zealand retail operations. The effects from currency fluctuations between the Euro (which is our reporting currency) and other currencies in which we conduct business, in particular the strengthening of the U.S. dollar and Australian Dollar,

increased net sales in the retail distribution segment by Euro 109.6 million during the period.

Comparable store sales reflects the change in sales from one period to another that, for comparison purposes, includes in the calculation only stores open in the more recent period that also were open during the comparable prior period in the same geographic area, and applies to both periods the average exchange rate for the prior period.

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 84.2 million, or 12.0 percent, to Euro 788.2 million in the three-month period ended June 30, 2012 from Euro 704.0 million in the same period in 2011. This increase was mainly attributable to increased sales of most of our house brands, in particular Ray-Ban, Oakley and Persol and of some designer brands such as Chanel, Polo, Prada, Tiffany and the recently launched Coach line. These sales volume increases occurred in most of the geographic markets in which the Group operates. These positive effects were partially decreased by negative currency fluctuations, in particular a strengthening of the U.S. dollar and other minor currencies, including but not limited to the Canadian dollar and the Japanese Yen, which increased net sales to third parties in the manufacturing and wholesale distribution segment by Euro 25.4 million, notwithstanding the weaknesses of the Brazilian Real and Turkish Lira.

During the three-month period ended June 30, 2012, net sales in the retail distribution segment accounted for approximately 58.1 percent of total net sales, as compared to approximately 56.9 percent of total net sales for the same period in 2011. This increase in sales for the retail distribution segment as a percentage of total net sales was primarily attributable to a 17.7 percent increase in net sales to third parties in our retail distribution segment for the three-month period ended June 30, 2012 from the same period of 2011, as compared to a 12.0 percent decrease in net sales in the manufacturing and wholesale distribution segment for the three-month period ended June 30, 2012 from the same period of 2011.

During the three-month period ended June 30, 2012, net sales to third parties in our manufacturing and wholesale distribution segment in Europe were Euro 362.5 million, comprising 46.0 percent of our total net sales in this segment, compared to Euro 370.2 million, or 52.6 percent of total net sales in the segment, for the same period in 2011. The decrease in net sales in Europe of Euro (7.7) million in the three-month period ended June 30, 2012 as compared to the same period of 2011 constituted a (2.1) percent decrease in net sales to third parties, due to a general decrease in consumer demand. Euro 22.8 million, investments of Euro 0.2 million and partially offset by decreases of other assets of Euro 11.1 million and of deferred tax assets of Euro 2.8 million.

The increase in intangible assets was primarily due to the positive effects of foreign currency fluctuations from December 2011 to June 2012 of Euro 97.3 million, the software additions of Euro 63.1 and Euro 119.0 related to the acquisition that occurred in the first six months of 2012 and partially offset by the amortization for the period of Euro 67.3 million.

The increase in property, plant and equipment was primarily due to positive currency fluctuation effects of Euro 22.2 million, the additions of Euro 109.6 million, including financial leases of Euro 18.2 million and Euro 10.2 million related to the acquisition made in the first six months of 2012, and partially offset by the depreciation for the period of Euro 103.4 and decreases of the period of Euro 18.7 million.

As of June 30, 2012, as compared to December 31, 2011:

Accounts receivable increased by Euro 248.8 million, mainly due to the increase in net sales during the first six months of 2012;

Accounts payable increased by Euro 20.2 million mainly due to exchange currency fluctuations of Euro 8.3 million and the acquisitions in the period of Euro 6.8 million;

Current taxes increased by Euro 39.4 million mainly due to the timing of tax payments made by the Group in the different jurisdictions;

Current liabilities increased by Euro 32.8 million mainly due to the increase of sales tax payables which are in line with the Group's sales growth and to the acquisitions in the period of Euro 10 million;

Employee benefits increased by Euro 27.2 million mainly due to a decrease in the discount rates applied to the actuarial calculations of employee pension liabilities.

6. 2011 OUTLOOK

Management believes that the results obtained in the first six months of 2012 are an excellent basis for the second half of 2012. Management looks to the year optimistically, relying on the strength of the Group's brands and aware of the need to deliver on its plans with impeccable execution.

Table of Contents**NON-IFRS MEASURES***Adjusted measures*

We use in this Management Report certain performance measures that are not in accordance with IFRS. Such non-IFRS measures are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding our operational performance.

Such measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors. Such non-IFRS measures are explained in detail and reconciled to their most comparable IFRS measures below.

In order to provide a supplemental comparison of current period results of operations to prior periods, we have adjusted for certain non-recurring transactions or events.

We have made such adjustments to the following measures: operating income and operating margin, EBITDA, EBITDA margin and net income by excluding non-recurring costs related to the reorganization of the retail business in Australia of Euro 21.4 million

The Group believes that these adjusted measures are useful to both management and investors in evaluating the Group's operating performance compared with that of other companies in its industry because they exclude the impact of non-recurring items that are not relevant to the Group's operating performance.

The adjusted measures referenced above are not measures of performance in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS). We include these adjusted comparisons in this presentation in order to provide a supplemental view of operations that excludes items that are unusual, infrequent or unrelated to our ongoing core operations. See the tables below for a reconciliation of the adjusted measures discussed above to their most directly comparable IFRS financial measure or, in the case of adjusted EBITDA, to EBITDA, which is also a non-IFRS measure. For reconciliation of EBITDA to its most directly comparable IFRS measure, see the pages following the tables below:

EBITDA and EBITDA margin

EBITDA represents net income attributable to Luxottica Group stockholders, before non-controlling interest, provision for income taxes, other income/expense, depreciation and amortization. EBITDA margin means EBITDA divided by net sales. We believe that EBITDA is useful to both management and investors in evaluating our operating performance compared with that of other companies in our industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business.

EBITDA and EBITDA margin are not measures of performance under IFRS. We include them in this Management Report in order to:

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

improve transparency for investors;

assist investors in their assessment of the Group's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;

assist investors in their assessment of the Group's cost of debt;

ensure that these measures are fully understood in light of how the Group evaluates its operating results and leverage;

properly define the metrics used and confirm their calculation; and

share these measures with all investors at the same time.

EBITDA and EBITDA margin are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, these non-IFRS measures should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group.

The Group cautions that these measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculating EBITDA may differ from methods used by other companies. We recognize that the usefulness of EBITDA has certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and expense may have material limitations;

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss.

We compensate for the foregoing limitations by using EBITDA as a comparative tool, together with IFRS measurements, to assist in the evaluation of our operating performance and leverage. The

- (a) an extraordinary gain of approximately €19 million related to the acquisition, in 2009, of a 40% stake in Multiópticas Internacional;
- (b) non-recurring costs related to Luxottica's 50th anniversary celebrations of approximately €12 million, including the adjustment relating to the grant of treasury shares to Group employees;
- (c) non-recurring restructuring and start-up costs in the Retail Division of approximately €11 million; and
- (d) non-recurring OPSM re-organization costs for approximately €9.5 million in 2011 and €21.4 million in 2012.

Free Cash Flow

Free cash flow represents net income before noncontrolling interests, taxes, other income/expense, depreciation and amortization (i.e., EBITDA) plus or minus the decrease/(increase) in working capital over the prior period, less capital expenditures, plus or minus interest income/(expense) and extraordinary items, minus taxes paid. We believe that free cash flow is useful to both management and investors in evaluating our operating performance compared with other companies in our industry. In particular, our calculation of free cash flow provides a clearer picture of our ability to generate net cash from operations, which is used for mandatory debt service requirements, to fund discretionary investments, pay dividends or pursue other strategic opportunities.

Free cash flow is not a measure of performance under IFRS. We include it in this Management Report in order to:

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Improve transparency for investors;

Assist investors in their assessment of our operating performance and our ability to generate cash from operations in excess of our cash expenses;

Ensure that this measure is fully understood in light of how we evaluate our operating results;

Properly define the metrics used and confirm their calculation; and

Share this measure with all investors at the same time.

Free cash flow is not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IFRS. Rather, this non-IFRS measure should be used as a supplement to IFRS results to assist the reader in better understanding the operational performance of the Group.

The Group cautions that this measure is not a defined term under IFRS and its definition should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculation of free cash flow may differ from methods used by other companies. We recognize that the usefulness of free cash flow as an evaluative tool may have certain limitations, including:

The manner in which we calculate free cash flow may differ from that of other companies, which limits its usefulness as a comparative measure;

Free cash flow does not represent the total increase or decrease in the net debt balance for the period since it excludes, among other things, cash used for funding discretionary investments and to pursue strategic opportunities during the period and any impact of the exchange rate changes; and

Free cash flow can be subject to adjustment at our discretion if we take steps or adopt policies that increase or diminish our current liabilities and/or changes to working capital.

We compensate for the foregoing limitations by using free cash flow as one of several comparative tools, together with IFRS measurements, to assist in the evaluation of our operating performance.

The following table provides a reconciliation of free cash flow to EBITDA and the table above provides a reconciliation of EBITDA to net income, which is the most directly comparable IFRS financial measure:

Net debt to EBITDA ratio

Net debt means the sum of bank overdrafts, current portion of long-term debt and long-term debt, less cash. EBITDA represents net income before non-controlling interest, taxes, other income/expense, depreciation and amortization. The Group believes that EBITDA is useful to both management and investors in evaluating the Group's operating performance compared with that of other companies in its industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business. The ratio of net debt to EBITDA is a measure used by management to assess the Group's level of leverage, which affects our ability to refinance our debt as it matures and incur additional indebtedness to invest in new business opportunities. The ratio also allows management to assess the cost of existing debt since it affects the interest rates charged by the Company's lenders.

EBITDA and ratio of net debt to EBITDA are not measures of performance under International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS).

We include them in this Management Report in order to:

improve transparency for investors;

assist investors in their assessment of the Group's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;

assist investors in their assessment of the Group's cost of debt;

ensure that these measures are fully understood in light of how the Group evaluates its operating results and leverage;

properly define the metrics used and confirm their calculation; and

share these measures with all investors at the same time.

The Group cautions that these measures are not defined terms under IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that Luxottica Group's method of calculating EBITDA and the ratio of net debt to EBITDA may differ from methods used by other companies.

The Group recognizes that the usefulness of EBITDA and the ratio of net debt to EBITDA as evaluative tools may have certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and expense may have material limitations;

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss; and

The ratio of net debt to EBITDA is net of cash and cash equivalents, restricted cash and short-term investments, thereby reducing our debt position.

Because we may not be able to use our cash to reduce our debt on a dollar-for-dollar basis, this measure may have material limitations. We compensate for the foregoing limitations by using EBITDA and the ratio of net debt to EBITDA as two of several comparative tools, together with IFRS measurements, to assist in the evaluation of our operating performance and leverage.

See the table below for a reconciliation of net debt to long-term debt, which is the most directly comparable IFRS financial measure, as well as the calculation of the ratio of net debt to EBITDA. For a reconciliation of EBITDA to its most directly comparable IFRS measure, see the table on the earlier page.

1. BACKGROUND

Luxottica Group S.p.A. (hereinafter the "Company" or together with its consolidated subsidiaries, the "Group") is a company listed on Borsa Italiana and the New York Stock Exchange with its registered office located at Via C. Cantù 2, Milan (Italy), organized under the laws of the Republic of Italy.

The Company is controlled by Delfin S.à r.l., based in Luxembourg. The chairman of the Board of Directors of the Company, Leonardo Del Vecchio, controls Delfin S.à r.l.

The Company's Board of Directors, at its meeting on July 26, 2012, approved the Group's interim condensed consolidated financial statements as of June 30, 2012 (hereinafter referred to as the "Financial Report") for publication.

The financial statements included in this Financial Report are unaudited.

2. BASIS OF PREPARATION

This Financial Report has been prepared in accordance with article 154-ter of the Legislative Decree No. 58 of February 24, 1998 and subsequent modifications and in accordance with the CONSOB Issuers Regulation in compliance with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and endorsed by the European Union in accordance with the regulation (CE) n. 1606/2002 of the European Parliament and of the Council of July 19, 2002. Furthermore, this financial report has been prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting*, and of the provisions which implement Article 9 of Legislative Decree no. 38/2005.

This unaudited Financial Report should be read in connection with the consolidated financial statements as of December 31, 2011, which were prepared in accordance with IFRS.

In accordance with IAS 34, the Group has chosen to publish a set of condensed financial statements in its financial report as of June 30, 2012.

The principles and standards used in the preparation of this unaudited Financial Report are consistent with those used in preparing the audited consolidated financial statements as of December 31, 2011, except as described in Note 3 "New Accounting Principles", and taxes on income which are accrued using the tax rate that would be applicable to expected total annual profit.

In particular, this Financial Report has been prepared on a going concern basis. Management believes that there are no indicators that may cast significant doubt upon the Group's ability to continue as a going concern.

The consolidated financial statements in this Financial Report are composed of the consolidated statements of financial position, the consolidated statements of income, the consolidated statements of comprehensive income, the consolidated statements of stockholders' equity, the consolidated statements of cash flows and these Notes to the Interim Consolidated Financial Statements as of June 30, 2012.

2. BASIS OF PREPARATION (Continued)

The Group also applied the CONSOB resolution n. 15519 of July 19, 2006 and the CONSOB communication n. 6064293 of July 28, 2006.

In order to provide the reader of this Financial Report with a meaningful comparison of the information included in the consolidated financial statements as of June 30, 2012, the Group implemented certain changes reflected in the Consolidated Statement of Financial Position. Certain prior year comparative information in the financial statements and notes has been reclassified to conform to the current year presentation.

The preparation of an interim report requires management to use estimates and assumptions that affect the reported amounts of revenue, costs, assets and liabilities, as well as disclosures relating to contingent assets and liabilities at the reporting date. Results published on the basis of such estimates and assumptions could vary from actual results that may be realized in the future.

These measurement processes and, in particular, those that are more complex, such as the calculation of impairment losses on non-current assets, and the actuarial calculations necessary to calculate certain employee benefits liabilities, are generally carried out only when the audited consolidated financial statements for the fiscal year are prepared, unless there are indicators which require updates to estimates.

3. NEW ACCOUNTING PRINCIPLES

New and amended accounting standards and interpretations must be adopted in the first interim financial statements issued after the applicable effective date. There are no new IFRSs or IFRICs (International Financial Reporting Interpretations Committee) that are effective for the first time for this interim period that would be expected to have a material impact on the Group.

In addition to the new accounting principles indicated in Note 3 "New Accounting Principles" of the notes to the consolidated financial statements as of December 31, 2011, on May 17, 2012 the IASB issued the Improvements to IFRS, which are summarized below. The amendments have not yet been endorsed by the European Union as of the date this Financial Report was authorized for issuance. The amendments are applicable to reporting periods beginning on or after January 1, 2013. Early adoption is permitted, however the Group has not elected to early adopt any of the following:

Amendment to IFRS 1 "First time adoption of IFRS." The amendment clarifies that an entity may apply IFRS 1 more than once under certain circumstances. An entity that previously applied IFRS but then stopped is permitted but not required to apply IFRS 1 when it recommences applying IFRS;

Amendment to IFRS 1 "First time adoption of IFRS." The amendment clarifies that an entity can choose to adopt IAS 23, "Borrowing costs", either from its date of transition or from an earlier date;

Amendment to IAS 1 "Presentation of Financial Statements." The amendment clarifies the disclosure requirements for comparative information when an entity provides a third balance sheet either as required by IAS 8, "Accounting policies, changes in accounting estimates and errors" or voluntarily;

3. NEW ACCOUNTING PRINCIPLES (Continued)

Amendment to IFRS 1 as a result of the above *amendment to IAS 1* The consequential amendment clarifies that a first-time adopter should provide the supporting notes for all statements presented;

Amendment to IAS 16 "Property, Plant and Equipment." The amendment clarifies that spare parts and servicing equipment are classified as property, plant and equipment rather than inventory when they are used for longer than one period;

Amendment to IAS 32 "Financial Instruments Presentation." The amendment clarifies the treatment of income tax relating to distributions and transaction costs. Income taxes related to distributions are to be recognized in the income statement, and income taxes related to the costs of equity transactions are to be recognized in equity;

Amendment to IAS 34 "Interim Financial Reporting." The amendment clarifies that a measure of total assets and liabilities is required for an operating segment in interim financial statements if such information is regularly provided to the Chief Operating Decision Maker and there has been a material change in those measures since the most recent annual financial statements.

Amendment to IAS 19 "Employee Benefits." The European Union has published a Commission Regulation endorsing the amendment to IAS 19 "Employee Benefits" published by the IASB on June 16, 2011. The amendment to IAS 19 is applicable from January 1, 2013 and requires retrospective application in accordance with IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors." The amendment requires that actuarial gains and losses on defined benefit plans (e.g. TFR) be recognized in other comprehensive income, eliminating the other options previously permitted, including the possibility for recognition directly within the income statement. In addition, interest costs and expected return on plan assets will be replaced with a net interest amount that is calculated by applying the discount rate to the net defined benefit liability (asset) that is classified as finance expense or income. The Group has yet to assess the full impact of these amendments.

4. BUSINESS COMBINATIONS

On January 20, 2012, the Group successfully completed the acquisition of 80% of share capital of the Brazilian entity Grupo TecnoL Ltd ("TecnoL"). The remaining 20% will be acquired evenly (five percent per year) starting from 2013 over a four year period. The consideration paid for the 80% was approximately 143.7 million Brazilian Reais (approximately Euro 59.4 million). Additionally the Group assumed TecnoL net debt amounting to approximately Euro 31.5 million. The acquisition furthers the Group's strategy of continued expansion of its wholesale business and acquiring a manufacturing facility in South America.

The Company uses various methods to calculate the fair value of the TecnoL assets acquired and the liabilities assumed. TecnoL assets and liabilities have been calculated on an estimated basis, since, as of the date of this Financial Report was authorized for issuance; certain valuation processes have not been concluded. In accordance with IFRS 3, the fair value of the net assets and liabilities assumed will be defined within 12 months from the acquisition date.

5. SEGMENT REPORTING

In accordance with IFRS 8 *Operating Segments* the segment reporting schedules are provided below using a reporting format which includes two market segments: the first relates to Manufacturing and Wholesale Distribution ("Wholesale"), while the second relates to Retail Distribution ("Retail").

5. SEGMENT REPORTING (Continued)

The following table provides information by business segment, which management considers necessary to assess the Group's performance and to make future determinations relating to the allocation of resources.

| Depreciation and amortization | 41,523 | 69,313 | 40,069 | 150,906 |

(a) Net sales of both the Manufacturing and Wholesale Distribution segment and the Retail Distribution segment include sales to third-party customers only.

(b) Income from operations of the Manufacturing and Wholesale Distribution segment is related to net sales to third-party customers only, excluding the "manufacturing profit" generated on the inter-company sales to the Retail Distribution segment. Income from operations of the Retail Distribution segment is related to retail sales, considering the cost of goods acquired from the Manufacturing and Wholesale Distribution segment at manufacturing cost, thus including the relevant "manufacturing profit" attributable to those sales.

(c) Inter-segment transactions and corporate adjustments include corporate costs not allocated to a specific segment and amortization of acquired intangible assets.

¹ Capital expenditures in 2012 include capital leases of the Retail Division of Euro 18.2 million. Capital expenditures excluding the above-mentioned additions were Euro 145.7 million.

EURIBOR rate and US dollar-denominated loans based on the corresponding LIBOR rate, both plus a margin between 0.20 percent and 0.40 percent based on the "Net Debt/EBITDA" ratio, as defined in the agreement. The interest rate on June 30, 2012 was 0.492 percent for Tranche B. The Company cancelled Tranche C effective April 27, 2012. The credit facility contains certain financial and operating covenants. The Group was in compliance with those covenants as of June 30, 2012. Under this credit facility, Euro 226.34 million was borrowed as of June 30, 2012.

During the third quarter of 2007, the Group entered into 13 interest rate swap transactions with an aggregate initial notional amount of U.S. \$325.0 million with various banks ("Tranche B Swaps"). These swaps have expired on March 10, 2012. The Tranche B Swaps were entered into as a cash flow hedge on Tranche B of the credit facility discussed above. The Tranche B Swaps swap the LIBOR floating rate for an average fixed rate of 4.634 percent per annum. The ineffectiveness of cash flow hedges was tested at the inception date and at least every three months.

(d) On November 14, 2007, the Group completed the merger with Oakley for a total purchase price of approximately U.S. \$2.1 billion. In order to finance the acquisition of Oakley, on October 12, 2007, the Company and US Holdings entered into two credit facilities with a group of banks providing for certain term loans and a short-term bridge loan (with an original principal balance of \$500 million which was repaid and cancelled as of December 31, 2011) for an aggregate principal amount of U.S. \$2.0 billion. The term loan facility is a term loan of U.S. \$1.5 billion, with a five-year term, with options to extend the maturity on two occasions for one year each time. The term loan facility is divided into two facilities, Facility D and Facility E. Facility D is a U.S. \$1.0 billion amortizing term loan requiring repayments of U.S. \$50.0 million on a quarterly basis starting from October 2009, made available to U.S. Holdings, and Facility E consists of a bullet term loan in an aggregate amount of U.S. \$500.0 million, made available to the Company. Interest accrues on the term loan at LIBOR plus 20 to 40 basis points based on "Net Debt to EBITDA" ratio, as defined in the facility agreement (0.830 percent for Facility D and 0.724 percent for Facility E on June 30, 2012). In September 2008, the Company exercised an option included in the agreement to extend the maturity date of Facilities D and E to October 12, 2013. These credit facilities contain certain financial and operating covenants. The Group was in compliance with those covenants as of June 30, 2011. U.S. \$900 million was borrowed under this credit facility as of June 30, 2012.

During the third quarter of 2007, the Group entered into ten interest rate swap transactions with an aggregate initial notional amount of U.S. \$500.0 million with various banks ("Tranche E Swaps"). These swaps will expire on October 12, 2012. The Tranche E Swaps were entered into as a cash flow hedge on Facility E of the credit facility discussed above. The Tranche E Swaps exchange the floating rate of LIBOR for an average fixed rate of 4.260 percent per annum. The ineffectiveness of cash flow hedges was tested at the inception date and at least every three months. The results of the tests indicated that the cash flow hedges are highly effective.

During the fourth quarter of 2008 and the first quarter of 2009, U.S. Holdings entered into 14 interest rate swap transactions with an aggregate initial notional amount of U.S. \$700.0 million with various banks ("Tranche D Swaps"), which began decreasing by U.S. \$50.0 million every three months on April 12, 2011. The final maturity of these swaps will be October 12, 2012. The Tranche D Swaps were entered into as a cash flow hedge on Facility D of the credit facility discussed above. The Tranche D Swaps exchange the floating rate of LIBOR for an average fixed rate of 2.896 percent per annum. The ineffectiveness of

French Competition Authority Investigation

Our French subsidiary Luxottica France S.A.S., together with other major competitors in the French eyewear industry, has been the subject of an anti-competition investigation conducted by the French Competition Authority relating to pricing practices in such industry. The investigation is ongoing, and, to date, no formal action has yet been taken by the French Competition Authority. As a consequence, it is not possible to estimate or provide a range of potential liability that may be involved in this matter. The outcome of any such action, which the Group intends to vigorously defend, is inherently uncertain, and there can be no assurance that such action, if adversely determined, will not have a material adverse effect on our business, results of operations and financial condition.

Other proceedings

The Group is a defendant in various other lawsuits arising in the ordinary course of business. It is the opinion of the management of the Company that it has meritorious defenses against all such outstanding claims, which the Company will vigorously pursue, and that the outcome of such claims, individually or in the aggregate, will not have a material adverse effect on the Group's consolidated financial position or results of operations.
