Oshkosh Corporation

December 14, 2012

Dear Fellow Oshkosh Corporation Shareholder:

We would like to extend a personal invitation for you to join us at our Annual Meeting of Shareholders on Tuesday, January 29, 2013 at 8:00 a.m. (Central Standard Time) at the EAA Aviation Center, 3000 Poberezny Road, Oshkosh, Wisconsin 54902.

Your Board of Directors is recommending a highly qualified, experienced and diverse slate of director nominees for election to our Board of Directors at the Annual Meeting. At the Annual Meeting, we will ask you to: (1) elect thirteen directors; (2) ratify the appointment of Deloitte & Touche LLP, an independent registered public accounting firm, as our independent auditors for the fiscal year ending September 30, 2013; (3) consider an advisory vote on the compensation of our named executive officers; (4) vote on a shareholder proposal, if properly presented at the Annual Meeting; and (5) take action upon any other business as may properly come before the Annual Meeting.

Your management team will further elaborate at the Annual Meeting on our MOVE strategy, including the results it delivered in fiscal 2012 and our target of approximately doubling adjusted earnings per share from continuing operations to \$4.00 - \$4.50 by fiscal 2015 through the continued execution of the MOVE strategy. We also will answer your questions.

The accompanying materials include the Notice of Annual Meeting of Shareholders and Proxy Statement. The Proxy Statement describes the business that we will conduct at the Annual Meeting. It also provides information about us that you should consider when you vote your shares.

Whether or not you will be able to attend the Annual Meeting, it is very important that your shares be represented. We urge you to read the accompanying Proxy Statement carefully and to use the enclosed white proxy card to vote for the Board's nominees, and in accordance with the Board's recommendations on the other proposals, as soon as possible. You may vote your shares by signing and dating the enclosed white proxy card and returning it in the postage-paid envelope provided, whether or not you plan to attend the Annual Meeting. For your convenience, you may also vote your shares via the Internet or by a toll-free telephone number by following the instructions on the enclosed white proxy card.

If you have any questions, please contact our proxy solicitor assisting us with this Annual Meeting, Innisfree M&A Incorporated. Shareholders may call toll-free at (877) 750-9499. Thank you for your support and continued interest in Oshkosh Corporation.

Sincerely,

Richard M. Donnelly
Chairman of the Board

Charles L. Szews
Chief Executive Officer

NOTICE OF ANNUAL MEETING OF SHAREHOLDERS

December 14, 2012

The 2013 Annual Meeting of Shareholders of Oshkosh Corporation will be held at the EAA Aviation Center, 3000 Poberezny Road, Oshkosh, Wisconsin 54902, on Tuesday, January 29, 2013 at 8:00 a.m. (Central Standard Time) for the following purposes:

1. To elect thirteen directors;
2. To ratify the appointment of Deloitte & Touche LLP, an independent registered public accounting firm, as our independent auditors for the fiscal year ending September 30, 2013;
3. To consider an advisory vote on the compensation of our named executive officers;
4. To vote on a shareholder proposal, if properly presented at the Annual Meeting; and
5. To consider and act upon such other business as may properly come before the Annual Meeting or any postponement or adjournment thereof.

Only Oshkosh shareholders of record at the close of business on November 30, 2012 are entitled to vote at the Annual Meeting.

Your vote is very important. Even if you plan to attend the annual meeting, we request that you read the accompanying Proxy Statement and vote your shares by either: (i) signing and dating the enclosed white proxy card and returning it in the postage-paid envelope provided; or (ii) voting via the Internet or a toll-free telephone number by following the instructions provided on the enclosed white proxy card.

By Order of the Board of Directors,

Bryan J. Blankfield
Executive Vice President, General Counsel and Secretary
Oshkosh Corporation
2307 Oregon Street
Oshkosh, WI 54903-2566

General Information About the Annual Meeting and Voting

Q&A Annual Meeting and Voting Procedures

Q:
Why am I receiving these materials?

A:
We are furnishing this Proxy Statement in connection with the solicitation by our Board of Directors of proxies to be voted at the 2013 Annual Meeting of Shareholders for the purposes set forth in the accompanying Notice, and at any adjournments or postponements of the Annual Meeting. We are sending this Proxy Statement to all Oshkosh shareholders of record as of the close of business on November 30, 2012 for use at the Annual Meeting. This Proxy Statement, the enclosed white proxy card and our 2012 Annual Report to our shareholders are being first mailed or made available to our shareholders on or about December 14, 2012. We will hold the Annual Meeting on Tuesday, January 29, 2013 at 8:00 a.m. (Central Standard Time) at the EAA Aviation Center, 3000 Pobereznzy Road, Oshkosh, Wisconsin 54902.

Q:
What proposals are to be presented at the Annual Meeting?

A:
The purpose of the Annual Meeting is to (1) elect thirteen directors; (2) ratify the appointment of Deloitte & Touche LLP, an independent registered public accounting firm, as our independent auditors for the fiscal year ending September 30, 2013; (3) consider an advisory vote on the compensation of our named executive officers; (4) vote on a shareholder proposal, if properly presented at the Annual Meeting; and (5) take action upon any other business as may properly come before the Annual Meeting or any postponement or adjournment thereof.

Q:
Who can attend the Annual Meeting?

A:
Only our shareholders and invited guests may attend the Annual Meeting. We may require shareholders to present proof of ownership of our Common Stock, along with personal identification (such as driver's license or passport), prior to admitting them to the Annual Meeting. You may vote shares that you hold in your name as the shareholder of record in person at the Annual Meeting. You may vote shares that you hold beneficially in street name in person at the Annual Meeting only if you obtain a legal proxy from the broker or other agent that holds your shares giving you the right to vote the shares and bring such proxy to the Annual Meeting.

Q:
Who is entitled to vote?

A:

Edgar Filing: OSHKOSH CORP - Form DEF 14A

All shareholders of record of our Common Stock at the close of business on November 30, 2012, the record date for voting at the Annual Meeting, are entitled to vote at the Annual Meeting. On the record date, 91,107, 265 shares of Common Stock were entitled to vote. Each share of Common Stock is entitled to one vote on each matter properly brought before the Annual Meeting. At the close of business on December 12, 2012, as a result of company share repurchases, there were 89,506,948 shares of Common Stock outstanding.

Table of Contents

Q: **How do I determine the number of votes I have?**

A: The enclosed white proxy card indicates the number of shares of Common Stock that you own in the specific account to which the enclosed card relates. Each share of Common Stock has one vote.

Q: **What constitutes a quorum for the Annual Meeting?**

A: To carry on the business of the Annual Meeting, a minimum number of shares of Common Stock, constituting a quorum, must be present. The quorum for the Annual Meeting is a majority of the votes represented by the outstanding shares of our Common Stock. This majority may be present in person or by proxy. Abstentions and "broker non-votes" (when a broker has delivered a proxy but it does not have authority to vote on the proposal in question) are counted as present in determining whether or not there is a quorum.

Q: **How many votes are required to pass each of the proposals?**

A: *Proposal 1: Election of Directors.* The thirteen nominees for director who receive the most votes of all votes cast for directors will be elected. Abstentions, votes withheld and broker non-votes will not constitute "votes cast." Pursuant to our By-Laws, the provisions of our By-Laws relating to majority voting for directors will not apply to the Annual Meeting because, in accordance with our By-Laws, our Chairman of the Board determined that the election at the Annual Meeting is a contested election within the meaning of our By-Laws. He made this determination because, as of November 16, 2012 (the date that our By-Laws specify), a notice of nomination from a shareholder relating to alternative candidates for director resulted in more persons nominated to serve as a director than Board seats available. As of the date of this Proxy Statement, the shareholder has not formally withdrawn its notice. However, subsequent to November 16, 2012, the shareholder publicly stated that its pursuit of a proxy contest was conditioned upon the shareholder receiving tenders of at least 25% of the shares of Common Stock in the shareholder's related tender offer. The shareholder did not receive tenders in that amount, and therefore, the shareholder allowed its tender offer to expire. Accordingly, on that basis, and noting that the shareholder has disclosed that it has since sold over 3.7 million shares of Common Stock, we now believe that the shareholder does not intend to seek the election of any alternative director nominees to our Board at the Annual Meeting.

Proposal 2: Ratification of the appointment of Deloitte & Touche LLP. The votes cast "for" must exceed the votes cast "against" to approve the ratification of the appointment of Deloitte & Touche LLP, an independent registered public accounting firm, as our independent auditors for the fiscal year ending September 30, 2013. Abstentions do not constitute a vote "for" or "against" the proposal and will be disregarded in the calculation of "votes cast."

Table of Contents

Proposal 3: Advisory vote on executive compensation. The votes cast "for" this proposal must exceed the votes cast "against" to approve the advisory vote on the compensation of our named executive officers as disclosed in the Compensation Discussion and Analysis section and accompanying compensation tables contained in this Proxy Statement. Abstentions and broker non-votes do not constitute a vote "for" or "against" the proposal and will be disregarded in the calculation of "votes cast."

Proposal 4: Shareholder Proposal. The votes cast "for" the proposal must exceed the votes cast "against" the proposal for the shareholder proposal to pass. Abstentions and broker non-votes do not constitute a vote "for" or "against" the proposal and will be disregarded in the calculation of "votes cast."

Q:
Who is soliciting my vote?

A:
In this Proxy Statement, our Board is soliciting your vote for matters being submitted for shareholder approval at the Annual Meeting. Giving us your proxy means that you authorize the proxy holders identified on the white proxy card to vote your shares at the meeting in the manner you direct. You may vote for all, some or none of our director nominees. You may also abstain from voting. If you sign and return the enclosed white proxy card but do not specify how your shares are to be voted, your shares will be voted in accordance with the recommendations of our Board, including in favor of our Board's nominees for election to the Board. If any other matters are properly presented at the Annual Meeting for consideration, the persons named as proxies in the enclosed white proxy card will vote as recommended by our Board or, if no recommendation is given, in their own discretion.

Q:
How does our Board recommend shareholders vote?

A:
Our Board unanimously recommends that you vote using the white proxy card:

FOR the election of the following thirteen individuals nominated by our Board for election as directors: Richard M. Donnelly, Michael W. Grebe, Peter B. Hamilton, Kathleen J. Hempel, Leslie F. Kenne, J. Peter Mosling, Jr., Stephen D. Newlin, Craig P. Omtvedt, Duncan J. Palmer, John S. Shiely, Richard G. Sim, Charles L. Szews and William S. Wallace;

FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for fiscal 2013;

FOR the proposal to approve the compensation of our named executive officers; and

AGAINST the shareholder proposal.

Table of Contents

Q:
Will my shares be voted if I do nothing?

A:
If you are a shareholder of record, you must sign and return a proxy card, submit your proxy by telephone or Internet, or attend the Annual Meeting in person for your shares to be voted. If you are a beneficial owner of shares and your shares are held in "street name," your bank, broker, trustee or nominee will not be able to vote your shares at the Annual Meeting on "non-routine matters," as defined by the New York Stock Exchange, unless you instruct them as to how you want your shares to be voted. The New York Stock Exchange currently considers only the ratification of the appointment of Deloitte & Touche LLP as our company's independent registered public accounting firm for 2013 to be a routine matter.

If your shares are held in street name, your broker, bank or nominee has enclosed a white voting instruction form with this proxy statement. We strongly encourage you to vote your shares by following the instructions provided on the white voting instruction form to ensure that your shares are represented and voted at the meeting.

To vote in accordance with our Board's recommendations, please sign, date and mail the enclosed white proxy card to vote FOR the election of the thirteen director nominees nominated by our Board. You may also vote over the Internet using the Internet address on the white proxy card or by telephone using the toll-free number on the white proxy card. If your shares are held in street name, you should follow the instructions on your white voting instruction form and provide specific instructions to your bank, broker, trustee or nominee to vote as described above.

Q:
What is the difference between a shareholder of record and a beneficial owner of shares?

A:
If your Common Stock is held directly in your name with our transfer agent, Computershare Shareowner Services, you are considered a "shareholder of record" with respect to those shares. If this is the case, the proxy materials have been sent or provided directly to you.

If your Common Stock is held in a stock brokerage account or by a bank or other nominee, you are considered the "beneficial holder" of the shares held for you in what is known as "street name." If this is the case, the proxy materials should have been forwarded to you by your brokerage firm, bank or other nominee, or their agent, which is considered the shareholder of record with respect to these shares. As a beneficial holder, you have the right to direct your bank, broker, trustee or nominee on how to vote the shares.

Table of Contents

Q:

How do I vote?

A:

Proxies are solicited to give all shareholders who are entitled to vote on the matters that come before the meeting the opportunity to vote their shares whether or not they attend the meeting in person. You can vote in one of the following ways:

By Mail Shareholders of record who have received a paper copy of a white proxy card by mail may submit proxies by completing, signing and dating their white proxy card and mailing it in the accompanying pre-addressed envelope. Proxy cards submitted by mail must be received by the time of the Annual Meeting for your shares to be voted. Shareholders who are beneficial owners who have received a white voting instruction form from their bank, broker, trustee or nominee may return the white voting instruction form by mail as set forth on the form.

Via the Internet Shareholders can simplify their voting by voting their shares via the Internet as instructed on the enclosed white proxy card or in the white voting instruction form sent to them by their bank, broker, trustee or nominee. The Internet procedures are designed to authenticate a shareholder's identity to allow shareholders to vote their shares and confirm that their instructions have been properly recorded. Internet voting facilities for shareholders of record are available 24 hours a day. Voting via the Internet authorizes the named proxies to vote your shares in the same manner as if you had submitted a validly executed proxy card.

By Telephone Shareholders can vote their shares by a toll-free telephone number by following the instructions provided on the enclosed white proxy card or in the white voting instruction form sent to them by their bank, broker, trustee or nominee. The telephone voting procedures are designed to authenticate a shareholder's identity to allow shareholders to vote their shares and confirm that their instructions have been properly recorded. Voting by telephone authorizes the named proxies to vote your shares in the same manner as if you had submitted a validly executed proxy card.

In Person Shares held in your name as the shareholder of record may be voted by you in person at the Annual Meeting. Shares held beneficially in street name may be voted by you in person at the Annual Meeting only if you obtain a legal proxy from the broker or other agent that holds your shares giving you the right to vote the shares and bring such proxy to the Annual Meeting. If you vote by proxy and also attend the Annual Meeting, you do not need to vote again at the Annual Meeting unless you wish to change your vote. Even if you plan to attend the Annual Meeting, we strongly urge you to vote in advance by proxy by signing and dating the enclosed white proxy card and returning it in the postage-paid envelope provided or by voting via the Internet or by telephone by following the instructions provided on the enclosed white proxy card. Directions to the Annual Meeting are available at: www.eproxyaccess.com/osk.

Edgar Filing: OSHKOSH CORP - Form DEF 14A

Shareholders are encouraged to vote their proxies by Internet, telephone or completing, signing, dating and returning a white proxy card. If you vote by more than one method, or vote multiple times using the same method, only the last-dated vote that is received by the inspector of election will be counted, and each previous vote will be disregarded.

Table of Contents

If you receive more than one set of proxy materials or more than one white proxy card or voting instruction form, it may mean that you hold shares of Oshkosh Common Stock in more than one account. To vote in accordance with the Board's recommendations, you must return a white proxy card or voting instruction form or vote using one of the methods described above for EACH account in which you own shares.

If you vote by mailing a proxy card, via the Internet or by telephone, we will vote your shares as you direct. For the election of directors, you can specify whether your shares should be voted for all, some or none of the nominees for director listed. Our Board urges you to use the enclosed white proxy card and vote FOR ALL of our Board's nominees for director listed. With respect to the other items being submitted for a shareholder vote, you may vote "for" or "against" any proposal or you may abstain from voting on any proposal.

If you submit a white proxy card by mailing a proxy card, via the Internet or by telephone without indicating instructions with respect to specific proposals, we will vote your shares consistent with the recommendations of our Board of Directors as stated in this Proxy Statement, specifically in favor of our Board's nominees for directors, in favor of the ratification of the appointment of Deloitte & Touche LLP as our independent auditors, in favor of the advisory vote on the compensation of our named executive officers, and against the shareholder proposal, if it is properly presented at the Annual Meeting. If any other matters are properly presented at the Annual Meeting for consideration, then the persons named on your proxy may have discretion to vote for you on those matters. As of the date of the Notice of Annual Meeting of Shareholders, we knew of no other matters to be presented at the Annual Meeting.

Q:
How can I revoke my proxy?

A:
If you are a shareholder of record, you can change your vote or revoke your proxy at any time before it is exercised at the Annual Meeting by doing any of the following: (1) you can execute and deliver a valid proxy with a later date; (2) you can vote by telephone or Internet at a later date; (3) you can notify our Secretary in writing at Secretary, Oshkosh Corporation, 2307 Oregon Street, P.O. Box 2566, Oshkosh, Wisconsin 54903-2566 that you have revoked your proxy; or (4) you can vote in person by written ballot at the Annual Meeting.

If you are a beneficial owner of your shares and you vote by proxy, you may change your vote by submitting new voting instructions to your bank, broker, trustee or nominee in accordance with that entity's procedures, or you can vote in person at the Annual Meeting with a legal proxy form from the entity that holds your shares giving you the right to vote the shares. If you vote the same shares by more than one method or vote multiple times with respect to the same shares using the same method, only the last-dated vote that is received will be counted, and each previous vote will be disregarded.

Table of Contents

Q: How do I vote if I am an employee participating in the Oshkosh Corporation Employee Stock Purchase Plan?

A: If you are an employee of Oshkosh Corporation or one of our subsidiaries and participate in our Employee Stock Purchase Plan, the white proxy card you receive with respect to the Plan indicates the aggregate number of shares of Common Stock credited to your account under that Plan as of November 30, 2012, the record date for voting at the Annual Meeting. If you timely submit a proxy by mailing a proxy card, via the Internet or by telephone, your shares will be voted as you have directed.

Q: Who counts the votes?

A: The inspectors of election will tabulate the votes cast at the Annual Meeting.

Q: Who should I call if I have questions about the Annual Meeting or need assistance voting?

A: If you have any questions or need any assistance in voting your shares, please contact our proxy solicitor, whose information is listed below:

Innisfree M&A Incorporated

New York, NY 10022
Shareholders May Call Toll-Free (877) 750-9499
Banks and Brokers May Call Collect at (212) 750-5833

Background to Expired Tender Offer and Potential Proxy Solicitation

On June 30, 2011, Carl C. Icahn and certain of his affiliates (collectively, the "Icahn Group") filed a Schedule 13D with the SEC reporting a 9.51% ownership stake in the Company and indicating that the Icahn Group intended to have conversations with the Company's management to discuss enhancing shareholder value. On November 4, 2011, the Icahn Group delivered notice of an intent to nominate six candidates for election to the Company's thirteen-member Board at the Company's 2012 annual meeting of shareholders. The Company's shareholders did not elect any of the Icahn Group's six nominees to the Board at the annual meeting of shareholders on January 27, 2012.

On October 11, 2012, the Icahn Group publicly announced its intention to commence a tender offer for shares of Common Stock at a price of \$32.50 per share and to nominate a slate of directors for election at the upcoming Annual Meeting. On October 17, 2012, the Icahn Group commenced the tender offer, and on October 25, 2012, the Icahn Group notified the Company of its intention to propose thirteen alternative director nominees for election at the 2013 Annual Meeting. The tender offer was conditioned on, among other things, the election of the entire slate of the Icahn Group's nominees at the Annual Meeting.

Table of Contents

The tender offer was scheduled to expire on December 3, 2012, unless extended by the Icahn Group. On November 29, 2012, the Icahn Group pledged to shareholders in a press release that "if we do not receive tenders of at least 25% of the outstanding shares by the expiration of the offer on December 3rd, we will respect the shareholders' wishes, drop our tender offer and proxy fight and move on to other endeavors." On December 4, 2012, the Icahn Group publicly announced that only 22% of the shares were tendered as of midnight on December 3, 2012. The Icahn Group stated that the tender offer had expired, no shares were purchased, and all shares that were previously tendered would be promptly returned. The Icahn Group has disclosed that, since the expiration of the tender offer, it has sold over 3.7 million shares of Common Stock. On the basis of the Icahn Group's November 29, 2012 statement and the results of the tender offer, and noting the Icahn Group's disclosure regarding sales of shares of Common Stock, the Company believes that the Icahn Group does not intend to seek the election of any alternative director nominees to our Board of Directors at the Annual Meeting.

Additional Information Regarding the Annual Meeting

Additional Matters to Come Before the Annual Meeting

Pursuant to our By-Laws, written notice by shareholders of qualifying nominations for election to our Board of Directors must have been received by our Secretary by October 28, 2012. We did not receive any such nominations other than the nominations from the Icahn Group, and no other nominations for election to our Board may be made by shareholders at the Annual Meeting. Management knows of no matters other than those stated that are likely to be brought before the Annual Meeting. However, in the event that any other matter properly shall come before the meeting, it is the intention of the persons named in the forms of proxy to vote the shares represented by each such proxy in accordance with their judgment on such matters.

Shareholders Intending to Present Business at the 2014 Annual Meeting

Shareholder Proposals

All shareholder proposals pursuant to Rule 14a-8 under the Securities Exchange Act of 1934 ("Rule 14a-8") for presentation at the 2014 Annual Meeting must be received at our offices located at P.O. Box 2566, Oshkosh, Wisconsin 54903-2566, by August 16, 2013 for inclusion in the proxy statement for our 2014 Annual Meeting.

Shareholder Director Nominations; Other Business

A shareholder who intends to present business, other than a shareholder's proposal pursuant to Rule 14a-8, or nominate a director at the 2014 Annual Meeting must comply with the requirements set forth in our By-Laws. Among other things, a shareholder must give written notice to our Secretary not less than 45 days and not more than 70 days prior to the first anniversary of the date on which we first made the proxy materials for our 2013 Annual Meeting available to shareholders. Therefore, since we anticipate making this Proxy Statement available on December 14, 2012, we must receive notice of a shareholder's intent to present business, other than pursuant to Rule 14a-8, or nominate a director at the 2014 Annual Meeting no sooner than October 5, 2013, and no later than October 30, 2013.

If the notice is received after October 30, 2013, then we are not required to present such proposal at the 2014 Annual Meeting because the notice will be considered untimely. If our Board of

Directors chooses to present such a shareholder's proposal submitted after October 30, 2013 at the 2014 Annual Meeting, then the persons named in proxies solicited by our Board of Directors for the 2014 Annual Meeting may exercise discretionary voting power with respect to such proposal.

The Governance Committee will consider individuals recommended by shareholders for nomination as a director for available seats on our Board if the shareholder complies with the additional procedures for recommendations described under "Governance of the Company Governance Committee."

Delivery of Proxy Materials

Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting to be Held on January 29, 2013.

The Notice of Annual Meeting of Shareholders, this Proxy Statement and our 2012 Annual Report are also available online at www.eproxyaccess.com/osk.

Pursuant to the rules of the SEC, services that deliver our communications to shareholders that hold their stock through a bank, broker or other holder of record may deliver to multiple shareholders sharing the same address a single copy of our Annual Report to Shareholders and Proxy Statement. Upon written or oral request, we will promptly deliver a separate copy of the Annual Report to Shareholders and/or Proxy Statement to any shareholder at a shared address to which a single copy of each document was delivered. Shareholders may notify us of their requests by calling or writing Ms. Margaret Wacholtz, Oshkosh Corporation, P.O. Box 2566, Oshkosh, Wisconsin 54903-2566, (920) 235-9151 ext. 22889.

Proxy Solicitation Matters

We will bear the cost of soliciting proxies, including preparing, printing and mailing this Proxy Statement. Proxies may be solicited personally, by email, by mail or by telephone by certain of our directors, officers, regular employees or representatives. Directors, officers and employees will not be paid any additional compensation for soliciting proxies. We will reimburse brokerage houses, banks, custodians and other nominees and fiduciaries for out-of-pocket expenses incurred in forwarding our proxy solicitation materials to, and obtaining instructions relating to such materials from, beneficial owners of Oshkosh's Common Stock. Additionally, we have retained Innisfree M&A Incorporated, a proxy solicitation firm, to assist us in connection with soliciting proxies for the Annual Meeting and in connection with our communications with our shareholders, at a fee not to exceed \$650,000, plus reimbursement of out of pocket expenses.

To assist you in reviewing the proposals to be acted upon, including the election of directors and the non-binding advisory vote to approve named executive officer compensation, we call your attention to the following information about our fiscal 2012 financial performance and key executive compensation actions and decisions. The following description is only a summary. For more complete information about these topics, please review our 2012 Annual Report and the complete Proxy Statement.

Business Highlights

Our MOVE Strategy

Last year, we first introduced the Company's MOVE strategy to shareholders. This strategy is the culmination of a strategic planning process supported by a globally recognized consulting firm to develop a roadmap to lead the Company from a deep recession in its markets and through an upcoming U.S. defense spending downturn and still target delivery of outstanding value for shareholders. This process also included a comprehensive review of all strategic alternatives available to the Company, which the Company has regularly updated since the development of the MOVE strategy. Our Board believes, and third parties have recognized, that operation of the Company pursuant to the MOVE strategy will deliver substantial value for all the Company's shareholders.

Table of Contents

At its recent Analyst Day held on September 14, 2012, the Company outlined a detailed roadmap for achieving the Company's target of approximately doubling adjusted earnings per share from continuing operations to \$4.00 \$4.50 by fiscal 2015 compared to fiscal 2012 expectations through the continued execution of the MOVE strategy. The four key components of the MOVE strategy include:

Market Recovery and Growth. The Company expects to continue to capture market share and benefit in a market recovery. The recovery from a deep economic downturn is evident in the Company's non-defense businesses and is expected to significantly overcome the expected downturn in the Company's defense business. The Company is estimating a 10% compound annual growth rate in non-defense revenue from fiscal 2012 through fiscal 2015 assuming just a modest recovery. More importantly, the Company believes that even this modest market recovery expectation from fiscal 2012 to fiscal 2015 represents a \$220 million operating income opportunity in its non-defense businesses. It is also notable that the Company's growth targets assume a baseline amount of defense sales (i.e., existing contracts and programs), and any new defense contracts won by the Company would offer additional upside to these estimates.

Optimize Cost and Capital Structure. The Company is aggressively attacking its costs and targeting 250 basis points of incremental consolidated operating income margin by fiscal 2015 compared to fiscal 2011. The Company expects to achieve this increase in consolidated operating income margin solely through product, process and overhead cost reductions. The Company's targeted increase in consolidated operating income margin is not dependent on sales volume increases, and the Company intends to realize this increase without negatively affecting the Company's customers or brands. In addition, the Company has recently announced substantial changes to its employee benefit plans to reduce cash flow and expense volatility, including transitioning from defined benefit to defined contribution savings plans for salaried employees, reducing supplemental executive retirement plan benefits by more than 30% and eliminating post-employment health benefits for current salaried employees.

Value Innovation. The Company seeks to expand sales and margins by leading its core markets in the introduction of new or improved products and new technologies. The Company expects value innovation to drive approximately \$350 million of incremental annual revenue by fiscal 2015 compared to fiscal 2012.

Emerging Market Expansion. Sales outside of the United States rose to 22% of the Company's sales in fiscal 2012, up from 17% in fiscal 2011. The Company is aiming to derive greater than 25% of its revenues from outside of the United States by fiscal 2015, and 30% by fiscal 2016. The Company expects these goals to be achieved through, among other things, expanding sales, service and manufacturing operations; forward deploying business development professionals for the Company's defense segment; developing products for global markets; and leveraging international facilities across the Company's business segments.

Table of Contents

Our Company Made Remarkable Progress with the MOVE Strategy in Fiscal 2012

The Company raised its fiscal 2012 performance outlook several times during fiscal 2012 as its execution of the MOVE strategy delivered tangible results. In fact, the Company beat Wall Street consensus earnings estimates in each quarter of fiscal 2012. In the fourth quarter of fiscal 2012, the Company delivered adjusted consolidated operating income of \$110.4 million and adjusted earnings per share of \$0.65, compared to adjusted operating income of \$87.4 million and adjusted earnings per share of \$0.50 in the fourth quarter of fiscal 2011. The results from the fourth quarter of fiscal 2012 reflect improved operating income margins in each of the Company's segments. In addition, the Company now expects an annualized 62 basis point benefit to operating income margin for fiscal 2013 from optimizing cost initiative ("O" of MOVE) actions implemented in fiscal 2012. This represents an increase from the Company's estimate of 60 basis points on September 14, 2012. In fiscal 2012, the MOVE strategy also delivered results in:

Capturing Access Equipment Market Recovery. The Company's access equipment segment net sales increased 42.3% to \$2.92 billion in fiscal 2012 compared to fiscal 2011. Sales to external customers totaled \$2.79 billion in fiscal 2012, a 43.7% increase compared to fiscal 2011. The segment realized double-digit sales increases in all regions of the world and across all product lines, generally as a result of replacement of aged equipment in North America and parts of Europe, as well as economic growth and increased product adoption in emerging markets. Access equipment operating income margins increased from 3.2% in fiscal 2011 to 7.9% in fiscal 2012.

Responding to Business Environment, Exiting Underperforming Businesses and Improving Profitability. Management is proactively addressing the Company's business environment. The Company is executing its plan to address lower expected defense spending. As part of this plan, in October 2012, the Company announced the layoff of 450 employees and 40 contractors in January 2013. The Company was awarded a Joint Light Tactical Vehicle Engineering and Manufacturing Development Award in August 2012. The Company remains focused on exiting underperforming non-core businesses, including the recent decisions to exit the ambulance and mobile medical businesses. The Company's FMTV program was profitable throughout fiscal 2012. The Company modified many of its benefit plans as described above. Results reflect these and other proactive steps as adjusted operating income margins improved in each of the Company's segments in the fourth quarter of fiscal 2012.

Increasing International Sales. The Company's international sales increased 38% in fiscal 2012 compared to fiscal 2011. Importantly, the Company added business development, sales and service professionals in multiple global markets in fiscal 2012 to attain its global expansion targets. The Company announced a contract to produce 750 M-ATVs for the United Arab Emirates for sale and delivery in fiscal 2013 as a result of these actions.

Accelerating Oshkosh Operating System Deployment. The Company is accelerating its launch of the Oshkosh Operating System, a customer-centric, lean business system that provides the employee training and processes for the Company to effectively serve its external and internal customers, while creating and sustaining a lean cost structure. Oshkosh has fully embraced "strategy deployment," a methodology for developing breakthrough objectives and action plans, with rigorous monthly assessment of scorecards to measure progress and timely implement countermeasures to assure a higher probability of achieving its breakthrough MOVE objectives.

Table of Contents

Exercising Prudent Capital Allocation. The Company maintains a responsible leverage ratio and commenced a prudent approach to share repurchases in fiscal 2012, acquiring approximately 550,000 shares after reinstating a share repurchase plan in August 2012. The Company's strategy of maintaining a solid balance sheet will allow it to be opportunistic as it evaluates future capital allocation alternatives to enhance shareholder value, including reinvesting in the core business, taking advantage of potential external growth opportunities, and/or further return of capital to shareholders. A recent example of this strategy was our November 16, 2012 announcement of our plans to repurchase up to \$300 million of shares of our common stock over the next 12 to 18 months, with at least \$75 million to be repurchased over the three months after the announcement. In conjunction with the \$300 million targeted share repurchases, the Board of Directors increased the number of shares authorized for repurchase to 11 million, or approximately 12% of the Company's outstanding shares as of September 30, 2012. We expect to fund these planned share repurchases through a combination of cash on hand and expected cash flow from operations. Following the announcement through December 12, 2012, the Company had spent an aggregate of approximately \$62 million to repurchase 2,090,879 shares.

Compensation Highlights

We believe that our existing compensation programs have been effective at motivating our key executives, including our executive officers, to achieve superior performance and results for our company, effectively aligning compensation with performance results, giving our executives an ownership interest in our Company so their interests are aligned with our shareholders, and enabling us to attract and retain talented executives whose services are in key demand in our industry and market sectors. Fiscal year 2012 performance is an example of meeting these needs: overachieving on an aggressive operating income target and continuing to build and retain a talented executive team.

With our core compensation principles in mind, the compensation actions that the Human Resources Committee of the Board of Directors took in fiscal year 2012 included the following:

structuring our annual cash incentive awards for fiscal year 2012 with aggressive operating income targets that supported MOVE earnings per share targets;

accepting management's recommendation to approve no base salary increase for the Chief Executive Officer for fiscal year 2012, to defer base salary increases for other executive officers until January 2012 and to implement base salary increases for executive officers (other than the CEO) effective at that time due to the executive team's performance, but to limit those increases to 2% (compared to 3% average increases among companies included in the executive compensation database that we use) due to the difficult market and cost pressure conditions that existed for our company;

modifying the mix of equity compensation awards to emphasize restricted stock to increase the shareholdings of our executives;

accepting the recommendation of our Chief Executive Officer to decline long-term equity awards in September 2012 for the third straight year (September 2010, September 2011 and September 2012) so that we could provide retention awards to key

Edgar Filing: OSHKOSH CORP - Form DEF 14A

executives and senior managers in September 2010 and September 2012 and make prudent awards in recognition of performance to our named executive officers (other than Mr. Szews) and other officers in all three years to support higher returns for our shareholders;

Table of Contents

maintaining the structure of our long-term incentive equity awards generally with the objective of providing compensation around the 50th percentile;

for many salaried employees, freezing benefits under both our qualified and non-qualified defined benefit retirement plans effective December 31, 2012 and in the future providing benefits to impacted employees under new, qualified and non-qualified defined contribution plans;

eliminating post-employment healthcare benefits for our current salaried employees;

continuing to significantly limit the payout amount under new severance agreements that we enter into with our executive officers;

continuing to limit the number and value of perquisites; and

implementing new health care plan options to mitigate escalating medical expenses.

Compensation actions like those described above evidence our philosophy of aligning executive compensation with our Company's performance and increasing long-term shareholder value. We will continue to design and implement our executive compensation programs and policies in line with this philosophy to promote superior performance and results and generate greater value for our shareholders. The MOVE objectives will continue to influence these decisions.

This Proxy Statement contains statements that the Company believes to be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including, without limitation, statements regarding the Company's future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations, are forward-looking statements. When used in this Proxy Statement, words such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "should," "project" or "plan" or their negative or variations or similar terms are generally intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond the Company's control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These factors include the cyclical nature of the Company's access equipment, commercial and fire & emergency markets; the expected level and timing of the U.S. Department of Defense (DoD) procurement of products and services and funding thereof; risks related to reductions in government expenditures in light of U.S. defense budget pressures and an uncertain DoD tactical wheeled vehicle strategy; increasing raw material costs; risks related to facilities consolidation and alignment; the duration of the ongoing global economic weakness; the potential for the U.S. government to competitively bid the Company's DoD contracts; risks associated with international operations and sales; risks related to actions of activist shareholders; and the Company's ability to successfully execute on its strategic road map and meet its long-term financial goals. Additional information concerning these and other factors is contained in the Company's filings with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this Proxy Statement. The Company assumes no obligation, and disclaims any

obligation, to update information contained in this Proxy Statement.

Proposal 1: Election of Directors

Background to Board's Recommendation for Director Nominees

Our Board of Directors has nominated thirteen directors for election at the Annual Meeting to hold office until the next annual meeting and the election of their successors. Each nominee has agreed to be named in this Proxy Statement and to serve on our Board of Directors if elected. All nominees are expected to attend the Annual Meeting this year. All nominees then serving as directors attended the Annual Meeting last year.

The selection of nominees to stand for election to our Board is the result of a robust process that is guided by our Board's commitment to the long-term strategy of continually strengthening the skill, experience and diversity of our Board. Our Board recognizes that it must have the skills and experience needed to meet the challenges that our diverse business presents. During fiscal 2012, our Board reached out to shareholders to get their suggestions for ways to improve our Board. Specifically, our Board sought shareholder opinions on what skill sets they consider key for members of our Board. Our Board considered the responses as it conducted searches for directors. The candidates that our Board has nominated this year bring significant relevant experience, developed in varied environments utilizing the skills and expertise that have made them successful business leaders. As a result, our Board's director nominees have demonstrated that they are prepared to contribute to our Board and represent the interests of our shareholders.

Since 2008, we have bolstered our Board with the addition of six new independent directors who have brought valuable and varied experience in distinct and critical areas of our businesses, providing a fresh perspective on our Board. We added three of these new independent directors in the past eighteen months. In 2008, we strengthened our Board's finance experience by adding Mr. Craig P. Omtvedt, Chief Financial Officer of Fortune Brands, Inc., a leading consumer products company (now known as Beam Inc.). In 2010 and 2011, we enhanced our Board's defense industry expertise by selecting Gen. (Ret.) William S. Wallace and Lt. Gen. (Ret.) Leslie F. Kenne, who are retired generals in the United States Army and Air Force, respectively. In 2011, we added Messrs. Peter B. Hamilton and Duncan J. Palmer, each of whom currently serves as Chief Financial Officer of a publicly traded company and brings an extensive financial background to our Board. In 2012, after seeking the input of several of our significant shareholders, our Board nominated and our shareholders elected Mr. John S. Shiely, the former Chairman and Chief Executive Officer of Briggs & Stratton Corporation, at the 2012 Annual Meeting. Mr. Shiely brings extensive public company leadership experience as well as legal and administrative experience to our Board. A complete description of the skills, experience, backgrounds and attributes of these outstanding professionals is set forth on pages 18 - 32 of this Proxy Statement.

This year, your Board is proposing another new nominee for election at the Annual Meeting who will be the seventh new independent director since 2008, Stephen D. Newlin. Mr. Newlin is Chairman, President and Chief Executive Officer of PolyOne Corporation, a premier provider of specialized polymer materials, services and solutions, with operations in specialty polymer formulations, color and additive systems, polymer distribution and specialty vinyl resins. It is also a highly specialized developer and manufacturer of performance enhancing additives, liquid colorants, and fluoropolymer and silicone colorants. It is NYSE-listed, and its 2011 revenues approached \$3 billion. After joining PolyOne in 2006, Mr. Newlin led PolyOne in a comprehensive transformation that changed the company from a low-margin commodity compounder into a thriving specialty formulator that generates profitable growth

Table of Contents

through innovative customer solutions. Mr. Newlin fundamentally improved the corporation through a series of divestitures, strategic acquisitions, operational efficiencies, commercial investments and global expansion. Mr. Newlin is a Board nominee in the place of Harvey N. Medvin who is retiring from our Board at the Annual Meeting after having served as a director since 2004. SpencerStuart recommended Mr. Newlin to the Governance Committee as a well-qualified and credentialed candidate to serve on our Board following a national search. The Governance Committee recommended Mr. Newlin for election to the Board following its review of his qualifications in light of the criteria in our Corporate Governance Guidelines, the minimum qualifications that the Board and Governance Committee have established and personal interviews with Mr. Newlin. In addition, SpencerStuart completed thorough reference checks on Mr. Newlin, and we completed thorough background checks on Mr. Newlin through Kroll, a third party employment background screening firm.

Director Criteria, Background and Experience

Our Board defines the personal and professional qualifications that nominees to our Board must demonstrate to be nominated to serve on our Board. These criteria are described in detail on the Investors page of our website (select Corporate Governance on the Investors page and then selecting Governance Committee). We are not including the information contained on our website as part of, or incorporating it by reference into, this Proxy Statement.

The Governance Committee is tasked with evaluating all current directors and conducting a robust search to identify those potential additional nominees with the skills and qualifications needed to ensure that the long-term strategy for the composition of our Board is met. Each potential candidate for nomination is thoroughly vetted against the skills and qualifications that all nominees must possess, with attention to particular competencies recommended to ensure that we will continue to have a board able to serve the interests of the shareholders of a global company with a diverse product line and customer base. Following the biographical summaries for each director is a chart that shows some of the skills and qualifications our Board considers when identifying potential nominees for election to our Board.

The candidates that our Board has nominated this year each exceed the minimum qualifications established by our Board and Governance Committee. The professional experience of our Board's nominees is relevant to our business operations and strategy. Our Board's nominees offer the wisdom, leadership and continuity that our company needs at this critical time and into the future. Our Board's nominees have exhibited high personal and professional ethics, integrity and values; vision and long-term strategic perspective; experience in our industries or similar industries; experience with regulatory and government processes; practical judgment and excellent decision-making skills; all of which are necessary for a high functioning board of directors. Their experience is diverse as are their backgrounds and education. Importantly, each has confirmed that he or she has the ability to devote the significant time needed to serve on our Board and its committees and to work in a collaborative manner with our other Board members. Finally, each of our Board's nominees has demonstrated a commitment to represent the long-term interests of all our shareholders.

Our Board's nominees are: Richard M. Donnelly, Michael W. Grebe, Peter B. Hamilton, Kathleen J. Hempel, Leslie F. Kenne, J. Peter Mosling, Jr., Stephen D. Newlin, Craig P. Omtvedt, Duncan J. Palmer, John S. Shiely, Richard G. Sim, Charles L. Szews and William S. Wallace. Their biographical information is set forth on pages 18 – 32 of this Proxy Statement.

Table of Contents

If for some reason any of our Board's nominees is unable to serve, or for good cause will not serve if elected, the persons named as proxies may vote for a substitute nominee recommended by our Board and, unless you indicate otherwise on the white proxy card, your shares will be voted in favor of our Board's remaining nominees. If any substitute nominees are designated by our Board, we will file supplemental proxy materials that, as applicable, identify the substitute nominees, disclose that such nominees have consented to being named in the supplemental proxy materials and to serve if elected, and include certain biographical and other information about such nominees required by SEC rules.

Pursuant to our By-Laws, written notice by shareholders of qualifying nominations for election to our Board of Directors must have been received by our Secretary by October 28, 2012. We did not receive any such notice of nominations other than the notice of nominations from the Icahn Group, and shareholders may not make other nominations for election to our Board at the Annual Meeting.

Board Recommendation

Our Board recommends that our shareholders vote **FOR** the election of the thirteen nominees listed above. The recommendation of our Board is based on its carefully considered judgment that the skills, experience, backgrounds and attributes of our Board's nominees make them the best candidates to serve on our Board.

The name, age, principal occupation and length of service of each of our Board's nominees for election to our Board of Directors, together with certain other biographical information and information regarding attributes, qualifications, experience and knowledge that led our Board of Directors to conclude that the nominee should serve or continue to serve as a director of our company, are set forth below.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE BOARD'S THIRTEEN NOMINEES FOR DIRECTOR LISTED ABOVE ON THE ENCLOSED WHITE PROXY CARD.

Lt. Gen. (Ret.) Kenne is retired from the United States Air Force where she served as the Deputy Chief of Staff, Warfighting Integration at the Pentagon from 2002 until her retirement in 2003. Lt. Gen. (Ret.) Kenne currently acts as an independent consultant to various organizations and businesses serving the U.S. Department of Defense. While in the Air Force, she served as Commander, Electronic Systems Center at Hanscom Air Force Base from 1999 to 2002 and as the Deputy Director and later Director of the Joint Strike Fighter Program at the Pentagon from 1996 to 1999. During her 32-year career in the U.S. Air Force, Lt. Gen. (Ret.) Kenne served in three Pentagon staff positions and directed three major programs: the Low Altitude Navigation and Targeting Infrared System for Night Systems Program, the F-16 System Program and the Joint Strike Fighter Program. Lt. Gen. (Ret.) Kenne currently serves as a director of Harris Corporation and as a director of Unisys Corporation. She also serves as a director of SRI International, an independent, non-profit research institute in California.

Lt. Gen. (Ret.) Kenne's distinguished military service, extensive experience in managing U.S. Department of Defense acquisition programs and knowledge of military project development programs bring our Board knowledge and insight into issues our company faces in dealing with key domestic and international customers in the defense industry, which is currently the largest single market sector our company serves.

Skills and Qualifications

Executive Leadership Lieutenant General leading major programs for the U.S. Air Force and Deputy Chief of Staff at the Pentagon. Self employment as a consultant with defense department and defense supplier clients.

Industry Experience U.S. defense department procurement expert including management of complex supply chains.

Corporate Governance Director and member of governance committees of global, publicly traded companies and a director of a non-profit research institute.

Technology and Innovation Director for independent research institution and corporate director for global technology company. Oversaw design and development of large technology systems integration projects in the U.S. Air Force.

Relations Experience is important in attracting, developing and retaining talent, relations with our union workforce and oversight of HR processes for compensation and performance evaluation.

Public Affairs and

Government Relations

is important for guiding communication strategies with the public, our customers and regulators.

Table of Contents

The Board of Directors

Our Board of Directors is currently comprised of thirteen directors, the maximum number of directors currently authorized by our Board of Directors to serve on our Board. Twelve of our current directors are among our Board's nominees for election to our Board at the Annual Meeting. Due to the retirement of Harvey N. Medvin from our Board at the Annual Meeting, one of our Board's nominees for election to our Board, Stephen D. Newlin, has not previously served as one of our directors. None of our current directors and none of our Board's nominees for election to our Board at the Annual Meeting are employees of our company, other than Charles L. Szews, our current Chief Executive Officer.

Board of Directors Independence

Our Board of Directors has determined that each of our twelve current non-employee directors and each of our Board's twelve non-employee nominees for election to our Board at the Annual Meeting does not have a material relationship with us and is independent under New York Stock Exchange ("NYSE") listing standards and applicable SEC rules. Our Board of Directors has adopted standards to assist in determining the independence of directors. Under these standards, the following relationships that currently exist or that have existed, including during the preceding three years, will not be considered to be material relationships that would impair a director's independence:

1. A family member of the director is or was an employee (other than an executive officer) of our company.
2. A director, or a family member of the director, receives or received less than \$120,000 during any twelve-month period in direct compensation from us, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided that such compensation is not contingent in any way on continued service with us). Compensation received by (a) a director for former service as an interim Chairperson or Chief Executive Officer or other executive officer of our company or (b) a family member of the director for service as a non-executive employee of our company need not be considered.
3. A director, or a family member of the director, is a former partner or employee of our internal or external auditor but did not personally work on our audit within the last three years; or a family member of a director is employed by an internal or external auditor of our company but does not participate in such auditor's audit, assurance or tax compliance practice.
4. A director, or a family member of the director, is or was an employee, other than an executive officer, of another company where any of our present executives serve on that company's compensation committee.
5. A director is or was an executive officer, employee or director of, or has or had any other relationship (including through a family member) with, another company that makes payments (other than contributions to tax exempt organizations) to, or receives payments from, us for property or services in an amount which, in any single fiscal year, does not exceed the greater of \$1 million or 2% of such other company's consolidated gross revenues. Both the payments and the consolidated gross revenues to be measured are those reported in the last completed fiscal year.

Table of Contents

6. A director is or was an executive officer, employee or director of, or has or had any other relationship (including through a family member) with, a tax exempt organization to which our company's and its foundation's contributions in any single fiscal year do not exceed the greater of \$1 million or 2% of such organization's consolidated gross revenues.
7. A director is one of our shareholders.
8. A director has a relationship that currently exists or that has existed (including through a family member) with a company that has a relationship with us, but the director's relationship with the other company is through the ownership of the stock or other equity interests of that company that constitutes less than 10% of the outstanding stock or other equity interests of that company.
9. A family member of the director, other than his or her spouse, is an employee of a company that has a relationship with us but the family member is not an executive officer of that company.
10. A family member of the director has a relationship with us but the family member is not an immediate family member of the director. An "immediate family member" includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-laws, and anyone (other than domestic employees) who shares such person's home.
11. Any relationship that a director (or an immediate family member of the director) previously had that constituted an automatic bar to independence under NYSE listing standards after such relationship no longer constitutes an automatic bar to independence in accordance with NYSE listing standards.

None of our directors or executive officers has any family relationship with any other director or executive officer.

Meetings of the Board of Directors

Our Board of Directors met ten times during fiscal 2012. Each of our Board's director nominees attended at least 75% of the meetings of our Board and committees on which he or she served during fiscal 2012 that were held when he or she was a director. Our Board has a policy that directors should attend our Annual Meeting of Shareholders. All who were directors at that time attended our 2012 Annual Meeting of Shareholders.

Our non-management directors, all of whom are independent directors, met in executive session, without the presence of our officers, on four occasions during fiscal 2012. Richard M. Donnelly, our independent Chairman of the Board, presided over all executive meetings of the non-management directors.

Communicating with the Board of Directors

Edgar Filing: OSHKOSH CORP - Form DEF 14A

If a shareholder or other interested party wishes to communicate with our Board, the shareholder or other interested party may send correspondence to the Secretary, Oshkosh Corporation,

Table of Contents

2307 Oregon Street, P.O. Box 2566, Oshkosh, Wisconsin 54903-2566. Our Secretary will submit the shareholder's correspondence to our Board or the appropriate Committee as applicable.

Under our By-Laws and Corporate Governance Guidelines, the Chairman of the Board must be a director that our Board has determined to be independent in accordance with the listing standards of the NYSE and one who has not previously served as one of our executive officers. Richard M. Donnelly, an independent director, is our Chairman of the Board. Shareholders or other interested parties may communicate directly with the Chairman of the Board by sending correspondence to Chairman, Board of Directors, c/o Secretary, Oshkosh Corporation, 2307 Oregon Street, P.O. Box 2566, Oshkosh, Wisconsin 54903-2566.

Committees of the Board of Directors

Our Board of Directors has three standing committees: the Audit Committee, the Governance Committee and the Human Resources Committee. The members and responsibilities of these Committees as of the date of the Notice of Annual Meeting of Shareholders are set forth below.

Committee Membership (*Indicates Chair)

Audit Committee

Peter B. Hamilton
Harvey N. Medvin (retiring at the Annual Meeting)
Craig P. Omtvedt*
Duncan J. Palmer
Richard G. Sim

Human Resources Committee

Richard M. Donnelly*
Peter B. Hamilton
Kathleen J. Hempel
William S. Wallace

Governance Committee

Michael W. Grebe
Leslie F. Kenne*
J. Peter Mosling, Jr.
John S. Shiely

Audit Committee

The Audit Committee oversees the fulfillment by management of its financial reporting and disclosure responsibilities and its maintenance of an appropriate internal control system. It assists Board oversight of the integrity of our financial statements, our compliance with legal and regulatory requirements and our independent registered public accounting firm's qualifications and independence. The Audit Committee is responsible for the appointment, compensation, retention and oversight of the work of our independent registered public accounting firm, which reports directly to the Audit Committee. It oversees the activities of our internal audit function, which currently is provided under contract by Ernst & Young, LLP. The Audit Committee has a charter that specifies its responsibilities and the Audit Committee believes it fulfills its charter. All members of the Audit Committee are independent directors as defined under NYSE listing standards and SEC rules. All members of the Audit Committee are financially literate under the applicable NYSE listing standards. Our Board of Directors has

Table of Contents

determined that Peter B. Hamilton, Harvey N. Medvin, Craig P. Omtvedt, Duncan J. Palmer and Richard G. Sim are "audit committee financial experts" as defined under SEC rules.

The Audit Committee met eight times during fiscal 2012. Our independent registered public accounting firm and internal auditors met with the Audit Committee with and without representatives of management present. See "Ratification of the Appointment of Independent Registered Public Accounting Firm Report of the Audit Committee."

Governance Committee

The Governance Committee identifies individuals qualified to become Board members and recommends nominees to our Board for election as directors with the assistance of Mr. Richard M. Donnelly, our independent Chairman of the Board. It also oversees the evaluation of the performance of our Board, makes recommendations to our Board regarding Board and Committee structure, Committee charters and corporate governance, and is responsible for conducting an annual Board self-evaluation. The Governance Committee has developed, and our Board adopted, a set of corporate governance guidelines applicable to our company. The Governance Committee met eight times during fiscal 2012. All members of the Governance Committee are independent directors as defined under NYSE listing standards and SEC rules.

Selection of Nominees for Election to the Board including Shareholder-Recommended Candidates

The Governance Committee will consider candidates for nomination as a director recommended by shareholders, directors, officers, third-party search firms and other sources. In evaluating candidates, the Governance Committee considers attributes of the candidate (including strength of character, mature judgment, career specialization, relevant technical skills or financial acumen, diversity of viewpoint and industry knowledge) and the needs of our Board. In addition, in March 2012, Mr. Szews contacted several large Oshkosh shareholders to understand the skill sets that shareholders believe we should seek in new directors, and he shared the input that he received with the Governance Committee. Our Board and the Governance Committee believe the following minimum qualifications must be met by a director candidate to be recommended as a director nominee by the Governance Committee: (i) each director nominee must display the highest personal and professional ethics, integrity and values; (ii) each director nominee must have the ability to make independent analytical inquiries and to exercise sound business judgment; (iii) each director nominee must have relevant expertise and experience and an understanding of our business environment and be able to offer advice and guidance to our Board of Directors and executives based on that expertise, experience and understanding; (iv) director nominees generally should be active or former chief or other senior executive officers of public companies or leaders of major complex organizations, including commercial, scientific, government, educational and other non-profit institutions; (v) each director nominee must be independent of any particular constituency, be able to represent all shareholders of our company and be committed to enhancing long-term shareholder value; (vi) each director nominee must have sufficient time available to devote to activities of our Board and to enhance his or her knowledge of our business; and (vii) unless otherwise determined by the Governance Committee, a director nominee may not have attained the age of 72. Our Board and the Governance Committee also believe that at least one director should have the requisite experience and expertise to be designated as an "audit committee financial expert" as defined by applicable rules of the SEC.

Table of Contents

The Governance Committee will review all candidates in the same manner, regardless of the source of the recommendation. If a shareholder wishes to recommend a director candidate for consideration, the shareholder must provide written notice to the attention of our Secretary at our address as shown on the Notice of Annual Meeting of Shareholders included herewith. Such notice must include the shareholder's name, address, the class and number of shares of Common Stock owned, the name, age, business address and principal occupation of the candidate, and the number of shares of Common Stock beneficially owned by the candidate, if any. It must also include the information that would be required to be disclosed in the solicitation of proxies for election of directors under the federal securities laws. We may require any candidate to furnish any other information, within reason, that may be needed to determine the eligibility of the candidate. Our Secretary will forward the recommendations to the Governance Committee for consideration. A shareholder wishing to nominate a person for election as a director must comply with the provisions of our By-Laws described under "Other Matters Shareholders Intending to Present Business at the 2014 Annual Meeting".

Diversity on the Board

Our Corporate Governance Guidelines have long provided that our Board is committed to a diversified membership, in terms of both the diversity of the individuals serving on our Board and their various experiences and areas of expertise. As part of its process of identifying director candidates, the Governance Committee considers the attributes of existing directors and directs the third-party executive search firm that it retains to assist it in the search for candidates to serve on our Board to identify candidates who would contribute to diversity, taking into account the attributes of existing directors. As part of its annual self-evaluation, the Governance Committee assesses the effectiveness of its efforts to attain diversity by considering whether it has an appropriate process for identifying and selecting director candidates.

Human Resources Committee

The Human Resources Committee's basic responsibility is to assure that the non-employee members of our Board of Directors and the Chief Executive Officer, other executive officers and key management are compensated effectively and in a manner consistent with our stated compensation philosophy and objectives, internal equity considerations, competitive practices and the requirements of the appropriate regulatory bodies. The Human Resources Committee oversees our organizational, personnel, compensation, and benefits policies and practices. It establishes the compensation for executive officers and oversees the administration of other executive compensation and benefit plans. The Human Resources Committee met five times in fiscal 2012. All members of the Human Resources Committee are independent directors as defined under NYSE listing standards.

The Human Resources Committee has retained the services of an external compensation consultant, Towers Watson. The mandate of the consultant is to serve us and work for the Human Resources Committee in its review of executive and director compensation practices, including the competitiveness of pay levels, executive compensation design issues, market trends and technical considerations. The nature and scope of services that Towers Watson rendered on the Human Resources Committee's behalf are described below:

Analyses of general industry compensation data and updates of trends in executive compensation;

Table of Contents

Ongoing support with regard to the latest relevant regulatory, technical, and/or accounting considerations impacting executive compensation and benefit programs;

Guidance on overall compensation program structure, executive compensation levels, comparator groups and executive employment agreement terms;

Preparation for and attendance at selected management, committee or Board of Directors meetings; and

Recommend competitive positioning of outside director compensation.

The services that Towers Watson has rendered have not included valuing for accounting purposes the performance shares that we have granted. The Human Resources Committee has the final authority to hire and terminate the consultant, and the Human Resources Committee evaluates the consultant periodically.

In addition to Towers Watson's work for the Human Resources Committee during fiscal 2012, management purchased compensation survey products directly from Towers Watson at a price equal to its standard rates. The Human Resources Committee approved the purchase of the survey products from Towers Watson. The purchase of the survey products was not related to or connected with the work that Towers Watson performed for the Human Resources Committee. Billings for work that Towers Watson performed for the Human Resources Committee were approximately 97% of the total amount we paid to Towers Watson in fiscal year 2012.

The compensation decisions that the Human Resources Committee makes may reflect factors and considerations other than the information and recommendations that Towers Watson, management or any other advisor provides to the Committee. The Human Resources Committee determined the terms of Towers Watson's engagement as a compensation consultant and updated these terms in a thorough statement of work. Also, the Human Resources Committee: (i) has sole authority to retain and terminate Towers Watson or any other compensation consultant; (ii) meets with Towers Watson without management being present; and (iii) evaluates the quality and objectivity of Tower Watson's services annually. Based on these policies and procedures, the Human Resources Committee believes that the advice it receives from Towers Watson is independent, objective and not influenced by any other relationships that Towers Watson may have with our company.

Towers Watson provided us with a report intended to reveal any potential conflicts of interest. Outside legal counsel and the Human Resources Committee reviewed the report and concluded that Towers Watson had no conflicts.

We provide additional information regarding the Human Resources Committee and our policies and procedures regarding executive compensation, including the role of executive officers in recommending executive compensation, below under "Executive Compensation Discussion and Analysis."

Table of Contents

Corporate Governance Documents

We make our Corporate Governance Guidelines and the written charters of the Audit Committee, the Governance Committee and the Human Resources Committee of our Board of Directors available, free of charge, on our website at www.oshkoshcorporation.com.

Our Board of Directors adopted the Oshkosh Corporation Code of Ethics Applicable to Directors and Senior Executives, or the Code, which applies to our Chief Executive Officer, our President and Chief Operating Officer, our Executive Vice President and Chief Financial Officer, our Executive Vice President, General Counsel and Secretary, our Senior Vice President Finance and Controller, and the Presidents, Vice Presidents of Finance and Controllers of our business units, or persons holding positions with similar responsibilities at a business unit, and other officers elected by our Board of Directors at the vice president level or higher. Our Board of Directors also adopted a Code of Ethics and Standards of Conduct that applies to all of our employees, known as "The Oshkosh Way." We make both of such codes available on our website at www.oshkoshcorporation.com, and each such code is available in print to any shareholder who requests it from our Secretary at the address above.

Policies and Procedures Regarding Related Person Transactions

As described above, our Board of Directors adopted the Oshkosh Way for all employees. Our named executive officers are also required to acknowledge in writing that they have received, reviewed and understand the requirements of the Code and further acknowledge that failure to fully comply with the Code can subject them to discipline, up to and including removal from our Board of Directors or termination of employment.

The Code requires the prompt disclosure to our General Counsel or the Chair of the Audit Committee of any proposed transaction or relationship that could create or appear to create a conflict of interest. The Code provides, "the phrase 'actual or apparent conflict of interest' shall be broadly construed and include, for example, direct conflicts, indirect conflicts, potential conflicts, apparent conflicts and any other personal, business or professional relationship or dealing that has a reasonable possibility of creating even the mere appearance of impropriety." Additionally, the Code prohibits directors and senior executives from taking personal advantage of business opportunities that we typically would pursue or in which we may be interested.

The Governance Committee is responsible for the administration of the Code, which specifically provides that there is a "firm bias" against waivers of the Code.

Oversight of Risk Management by Our Board of Directors

Our Board is responsible for general oversight of our risk management. Our Board focuses on the most significant and material risks facing our company and ensures that management develops and implements appropriate risk mitigation strategies. Our Board also responds to particular risk management issues as part of its general oversight of our company and in connection with its review and approval of corporate matters.

Edgar Filing: OSHKOSH CORP - Form DEF 14A

Our Board has delegated many of its responsibilities for oversight of our risk management program to the Audit Committee. The Audit Committee evaluates and discusses our overall guidelines,

Table of Contents

policies, processes and procedures with respect to risk assessment and risk management, including material risks that could impact our company's performance, operations and strategic plans. We have implemented our Organization Risk Management program, which we refer to as the ORM Program. The ORM Program identifies our potential exposure to risks that include strategic, operational, financial, knowledge and legal and regulatory compliance risks. Our senior management is responsible for the administration of the ORM program and conducts assessments and evaluations of potential risks for each of our business segments and our company as a whole. Our senior management then develops mitigation strategies to address these potential risks.

Senior management reports these risk assessments and mitigation strategies to the Audit Committee. The Audit Committee then considers and discusses these risk assessments and mitigation strategies. Additionally, senior management and the Audit Committee report to our Board on material risk assessments and mitigation strategies as part of the strategic plan updates that they give to our Board during the fiscal year. Senior management reviews and prioritizes these risk assessments and mitigation strategies and reports to the Audit Committee on risk management results to effectively manage our risk profile. The ORM Program is designed to: (i) provide the Audit Committee with an assessment of our potential exposure to material risks; (ii) inform the Audit Committee as to how our senior management addresses and mitigates such potential material risks; and (iii) allow the Audit Committee to evaluate how these risks may impact our performance, operations and strategic plans and ensure that senior management is implementing effective mitigation strategies as necessary. We believe our ORM Program provides an effective approach for addressing the potential risks we face and enables the Audit Committee and our Board to fulfill their general risk oversight functions.

In addition to the ORM Program, each of the Audit Committee, Human Resources Committee and Governance Committee routinely monitors the various risks that fall under that Committee's respective area of responsibility. The Audit Committee monitors risks related to our financial and accounting controls as well as legal and regulatory compliance risks. The Governance Committee monitors risks related to our corporate governance. The Human Resources Committee considers and monitors the impact of our compensation programs on our risk exposure. Each Committee then routinely reports on its actions to the full Board. This coordination of risk management allows our Board and the Committees to effectively manage the risk oversight function of our company, especially, the management of interrelated risks.

Board Leadership Structure

Independent Directors

Our Board believes that having an independent board of directors and an independent Chairman of the Board greatly enhances its ability to provide effective governance and oversight. With the exception of our Chief Executive Officer, all of our directors are independent directors, including all of the members of our Audit Committee, Human Resources Committee and Governance Committee. In addition, our non-employee, independent directors regularly meet in executive sessions without our officers, including our Chief Executive Officer, present.

Table of Contents

Independent Chairman of the Board

Under our By-Laws and Corporate Governance Guidelines, our Chairman of the Board must be a director that our Board has determined to be independent in accordance with the listing standards of the NYSE and one who has not previously served as an executive officer of our company. As a result, separate individuals serve as our Chairman of the Board and Chief Executive Officer and an independent director serves as our Chairman of the Board. We believe this leadership structure fosters effective governance and oversight of our company by our Board. Specifically, our Board has determined that separating the roles of Chairman and Chief Executive Officer and having an independent Chairman of the Board: (i) provides the independent directors with control over our Board meeting agenda and discussion; (ii) assures that independent directors control discussions over strategic alternatives; (iii) permits more effective assessment of the Chief Executive Officer's performance; (iv) provides a more effective means for our Board to express its views on our management, strategy and execution; and (v) enables the Chairman to obtain direct and more meaningful feedback from shareholders regarding our corporate governance and shareholders' interests.

Majority Voting for Directors

In the absence of a contested election, pursuant to the majority voting provisions of our By-Laws, any nominee for director who receives a greater number of votes "withheld" from his or her election than votes "for" such election must promptly tender his or her resignation to the Chairman of the Board. The Governance Committee of our Board of Directors (or, under certain circumstances, another committee appointed by our Board) will promptly consider that resignation and will recommend to our Board whether to accept the tendered resignation or reject it based on all relevant factors. Our Board must then act on that recommendation no later than 90 days following the date of an Annual Meeting of Shareholders. Within four days of our Board's decision, we must disclose the decision in a Current Report on Form 8-K filed with the Securities and Exchange Commission ("SEC") that includes a full explanation of the process by which the decision was reached and, if applicable, the reasons for rejecting the resignation.

Stock Ownership Guidelines for Directors

The Human Resources Committee has adopted stock ownership guidelines that apply to non-employee directors to ensure that our non-employee directors have a direct stake in the oversight and development of our company by becoming shareholders. Under these guidelines, our non-employee directors are encouraged to acquire and own our Common Stock in an amount equal to five times the annual cash retainer paid to these non-employee directors. Non-employee directors should achieve this stock ownership level within five years of becoming a director. See "Director Compensation Stock Ownership Guidelines for Directors."

Succession Planning

The Human Resources Committee, in conjunction with the Chief Executive Officer, reviews a comprehensive management succession plan each year. The plan identifies (i) potential successors for each executive position, including the Chief Executive Officer, (ii) prior year accomplishments in preparing successors, and (iii) current development needs. The results of these are evident in the orderly transition of Mr. Szews to the role of President and Chief Executive Officer in fiscal 2011, the

Table of Contents

promotion of Mr. Jones to the role of President and Chief Operating Officer in fiscal 2012, and the internal promotions of two executives to fill the vacancy in the Access Equipment segment created when we promoted Mr. Jones to his current role.

Shareholder Engagement

Shareholders are key participants in the governance of our company. For this reason, we spent significant time in fiscal 2012 meeting with our shareholders, listening to concerns and responding to feedback. Each quarter, management contacted each of the 20 largest shareholders of our company, offering them an opportunity to discuss our company's most recent quarterly results and to discuss other topics related to Oshkosh Corporation.

Our company conducted the September 14, 2012 Analyst Day meeting to communicate our strategic roadmap under the MOVE strategy, a detailed review of each business, performance targets for each business, and our capital allocation strategy. We received strong, positive feedback from the attendees indicating that they appreciated the comprehensiveness of the presentation. Attendees have largely supported our MOVE strategy as a realistic, achievable plan.

Our company also contacted shareholders to get their suggestions for ways to improve your Board. Specifically, we sought shareholder opinions on what skill sets they consider key for members of your Board. We considered the responses, including the need for impartiality and to be an advocate for the interests of all shareholders, as we conducted searches for directors, and our Board's director nominees for the Annual Meeting include one new nominee with those skill sets.

We value your support. By continuing to have constructive dialogue with you our shareholders we are better positioned to fulfill our obligations to you and to our company. We encourage you to share your opinions, interests and concerns and invite you to write to us with your reactions and suggestions. If you would like to communicate with our Board, you may send correspondence to the Secretary, Oshkosh Corporation, 2307 Oregon Street, P.O. Box 2566, Oshkosh, Wisconsin 54903-2566. Our Secretary will submit your correspondence to our Board or the appropriate Committee, as applicable. You may also communicate directly with the Chairman of our Board by sending correspondence to Chairman, Board of Directors, c/o Secretary, Oshkosh Corporation, 2307 Oregon Street, P.O. Box 2566, Oshkosh, Wisconsin 54903-2566.

Table of Contents

Ratification of the Appointment of Independent Registered Public Accounting Firm

The Audit Committee has appointed Deloitte & Touche LLP, an independent registered public accounting firm, to serve as our independent auditors for the fiscal year ending September 30, 2013.

Representatives of Deloitte & Touche LLP will be present at the Annual Meeting to answer questions. They also will have the opportunity to make a statement if they desire to do so.

We are asking our shareholders to ratify the appointment of Deloitte & Touche LLP as our independent auditors. Although ratification is not required by our By-Laws or otherwise, our Board is submitting the appointment of Deloitte & Touche LLP, an independent registered public accounting firm, to our shareholders for ratification because we value our shareholders' views on our independent auditors and as a matter of good corporate practice. In the event that our shareholders fail to ratify the appointment, the Audit Committee will consider it as a direction to consider the appointment of a different firm. Even if the appointment is ratified, the Audit Committee in its discretion may select a different independent auditor at any time during the fiscal year if it determines that such a change would be in the best interests of our company and our shareholders.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR RATIFICATION OF THE APPOINTMENT OF DELOITTE & TOUCHE LLP, AN INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM, AS OUR INDEPENDENT AUDITORS.

Report of the Audit Committee

The Audit Committee of our Board of Directors is responsible for providing independent, objective oversight of our financial reporting and disclosure responsibilities, accounting functions and internal controls. The Audit Committee acts under a written charter, which our Board of Directors first adopted in 1997 and last amended in November 2011. Each of the members of the Audit Committee is independent as defined by the NYSE's listing standards and SEC rules.

Audit and Non-Audit Fees

The following table presents fees for professional audit services rendered by Deloitte & Touche LLP for the audit of our annual consolidated financial statements for the fiscal years ended

Table of Contents

September 30, 2012 and September 30, 2011 and fees billed for other services rendered by Deloitte & Touche LLP during those periods.

	2012	2011
Audit fees (1)	\$ 3,031,600	\$ 2,543,600
Audit-related fees (2)	41,500	83,600
Tax fees (3)	56,300	58,400
Total	\$ 3,129,400	\$ 2,685,600

(1) Audit fees consisted principally of fees for the audit of our annual consolidated financial statements, for reviews of the interim condensed consolidated financial statements included in our Forms 10-Q and for work in connection with the attestations required by Section 404 of the Sarbanes-Oxley Act of 2002 related to our internal control over financial reporting.

(2) Audit-related fees consisted of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of our consolidated financial statements or internal control over financial reporting and are not reported under "Audit fees." These services primarily relate to employee benefit plan audits.

(3) Tax fees consisted of fees billed for the review of state income tax returns and review of cash repatriation tax calculations.

Pre-approval of Services by the Independent Registered Public Accounting Firm

The Audit Committee has adopted a policy for pre-approval of audit and permitted non-audit services to be provided by our independent registered public accounting firm. The Audit Committee will consider annually and, if appropriate, approve the provision of audit services by our independent registered public accounting firm and consider and, if appropriate, pre-approve the provision of certain defined audit and non-audit services. The Audit Committee will also consider on a case-by-case basis and, if appropriate, approve specific engagements that are not otherwise pre-approved.

Any proposed engagement that does not fit within the definition of a pre-approved service may be presented to the Audit Committee for consideration at its next regular meeting or, if earlier consideration is required, to the Audit Committee Chair or one or more of its members. The member or members to whom such authority is delegated report any specific approval of services at its next regular meeting. The Audit Committee will regularly review summary reports detailing all services being provided to us by our independent registered public accounting firm.

The Audit Committee pre-approved the provision of all of the services described above and has considered and determined that the provision of such services is compatible with maintaining the independence of Deloitte & Touche LLP.

The Audit Committee reviews our financial reporting process on behalf of our Board of Directors. In fulfilling its responsibilities, the Audit Committee has reviewed and discussed our audited consolidated financial statements contained in the Annual Report on Form 10-K for the fiscal year ended

Table of Contents

September 30, 2012 with our management and independent registered public accounting firm. Management is responsible for the consolidated financial statements and the reporting process, including the system of internal control. The independent registered public accounting firm is responsible for expressing an opinion on the conformity of those audited consolidated financial statements with accounting principles generally accepted in the United States and the effectiveness of the internal controls over financial reporting based upon the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

The Audit Committee discussed with the independent registered public accounting firm matters required to be discussed by AU Section 380 of the Public Company Accounting Oversight Board (PCAOB), *Communication With Audit Committees*, and Rule 2-07 of SEC Regulation S-X. In addition, the independent registered public accounting firm provided to the Audit Committee the written disclosures required by PCAOB Ethics and Independence Rule 3526, *Communication with Audit Committees Concerning Independence*, and the Audit Committee discussed with the independent registered public accounting firm their independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to our Board of Directors that our audited consolidated financial statements be included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2012, for filing with the SEC.

Table of Contents**Stock Ownership of Directors, Executive Officers and Other Large Shareholders**

The following table shows the beneficial ownership of Common Stock of each director, each director nominee, each named executive officer appearing in the Summary Compensation Table on page 77, each other shareholder owning more than 5% of our outstanding Common Stock and the directors and executive officers (including the named executive officers) as a group.

"Beneficial Ownership" means more than "ownership" as that term commonly is used. For example, a person "beneficially" owns stock if he or she owns it in his or her name or if he or she has (or shares) the power to vote or sell the stock as trustee of a trust. Beneficial ownership also includes shares the directors and executive officers have a right to acquire within 60 days after November 30, 2012 as, for example, through the exercise of a stock option.

Except as otherwise stated in the footnotes to the following table, information about Common Stock ownership is as of November 30, 2012, the record date for the Annual Meeting. At the close of business on November 30, 2012, there were 91,107,265 shares of Common Stock outstanding. At the close of business on December 12, 2012, there were 89,506,948 shares of Common Stock outstanding. None of the directors, named executive officers or the director nominee have pledged any such shares, and unless stated otherwise in the footnotes to the table, each person named in the table owns his or her shares directly and has sole voting and investment power over such shares.

Name of Beneficial Owner	Shares of Common Stock Beneficially Owned	Percent of Common Stock Beneficially Owned
Bryan J. Blankfield (1)(2)	286,379	*
Richard M. Donnelly (1)	48,152	*
Michael W. Grebe (1)	57,866	*
Peter B. Hamilton (1)	6,300	*
Kathleen J. Hempel (1)	57,866	*
Wilson R. Jones (1)	185,449	*
Leslie F. Kenne (1)	7,878	*

BlackRock Inc. (7)	4,892,753	5.35%
Thornburg Investment Management Inc. (8)	4,653,954	5.09%

* The amount shown is less than 1% of the outstanding shares of Common Stock.

Table of Contents

(1) Amounts shown include 250,166 shares for Bryan J. Blankfield, 26,616 shares for Richard M. Donnelly, 38,616 shares for Michael W. Grebe, 500 shares for Peter B. Hamilton, 38,616 shares for Kathleen J. Hempel, 114,832 shares for Wilson R. Jones, 1,216 shares for Leslie F. Kenne, 15,816 shares for Harvey N. Medvin, 26,616 shares for J. Peter Mosling, Jr., 6,916 shares for Craig P. Omtvedt, 500 shares for Duncan J. Palmer, 205,466 shares for David M. Sagehorn, 26,616 shares for Richard G. Sim, 361,134 shares for Charles L. Szews, 6,666 shares for John M. Urias, 833 shares for William S. Wallace, and 1,789,584 shares for all directors and executive officers as a group that such persons have the right to acquire pursuant to stock options exercisable within 60 days of November 30, 2012. Amounts also include shares of restricted Common Stock, which are subject to forfeiture until they vest, in the following amounts to the following individuals listed in the table: 17,667 shares for Bryan J. Blankfield, 59,501 shares for Wilson R. Jones, 45,001 shares for David M. Sagehorn, 24,334 shares for John M. Urias, and 321,174 shares for all directors and executive officers as a group. Amounts shown also include restricted stock units under our Deferred Compensation Plan for Directors and Executive Officers, all of which are vested, in the following amounts to the following individuals listed in the table: 2,286 units for Richard M. Donnelly, 6,350 units for Leslie F. Kenne, 1,112 units for Craig P. Omtvedt, 5,800 units for Duncan J. Palmer, 6,350 units for William S. Wallace, and 21,899 units for all directors and executive officers as a group. Amounts shown also include units deemed to be invested in shares of our Common Stock that are credited to the following individuals' accounts in the following amounts under the Deferred Compensation Plan: 1,013 units for Bryan J. Blankfield, 12,417 units for Harvey N. Medvin, 27,553 units for Richard G. Sim, and 50,244 units for all directors and executive officers as a group. Restricted stock units and units held under the Deferred Compensation Plan will be distributed in the form of shares of our Common Stock.

(2) Amounts shown include 1,502 shares as to which ownership is shared with Rebecca R. Blankfield, Mr. Blankfield's wife.

(3) Amounts shown include 156,126 shares as to which ownership is shared with Joan C. Mosling, Mr. Mosling's wife.

(4) Amounts shown include 8,354 shares as to which ownership is shared with Katherine A. Sagehorn, Mr. Sagehorn's wife.

(5) Amounts shown include 9,200 shares as to which ownership is shared with Rochelle A. Szews, Mr. Szews' wife.

(6) Amount shown is as of December 13, 2012 and is as described in the Schedule 13D/A that High River Limited Partnership, Carl C. Icahn and certain other entities affiliated with Carl C. Icahn, to whom we have referred collectively as the "Icahn Group", filed with the SEC on that date. The address of the Icahn Group is 767 Fifth Avenue, 47th Floor, New York, New York 10153. The Icahn Group reported shared voting and shared dispositive power with respect to the shares included in the amount shown. As of the November 30, 2012 record date for the Annual Meeting, the Icahn Group beneficially owned 8,665,260 shares of Common Stock as was described in the Schedule 13D/A that the Icahn Group filed with the SEC on October 17, 2012.

(7) Amount shown is as described in the Schedule 13G that BlackRock Inc. filed with the SEC on February 9, 2012. BlackRock Inc. is located at 40 East 52nd Street New York, New York 10022. BlackRock Inc. has sole voting power and sole dispositive power with respect to the shares included in the amount shown.

Table of Contents

(8) Amount shown is as described in the Schedule 13G that Thornburg Investment Management Inc. filed with the SEC on February 3, 2012. Thornburg Investment Management Inc. is located at 2300 North Ridgetop Road Santa Fe, New Mexico 87506. Thornburg Investment Management Inc. has sole voting power and sole dispositive power with respect to the shares included in the amount shown.

Section 16(a) Beneficial Ownership Reporting Compliance

The Securities and Exchange Act of 1934 requires our directors, executive officers, controller and any persons owning more than 10% of our Common Stock to file reports with the SEC regarding their ownership of our Common Stock and any changes in such ownership. Based upon our review of copies of these reports and certifications given to us by such persons, we believe that our directors, executive officers and controller have complied with their filing requirements for fiscal 2012. However, forms reporting one transaction each on behalf of two of our directors, Mr. Medvin and Mr. Sim, both relating to shares awarded in payment of Board of Directors meeting fees, were not timely filed.

Table of Contents

The Human Resources Committee of our Board of Directors has reviewed and discussed the following "Compensation Discussion and Analysis" for fiscal 2012 and has further discussed and reviewed it with management. Based on their review and analysis, the Human Resources Committee recommended to our Board of Directors that the "Compensation Discussion and Analysis" be included in this Proxy Statement, and also be incorporated by reference in our Annual Report on Form 10-K for the fiscal year ended September 30, 2012.

Compensation Discussion and Analysis

Executive Summary

Pay for Performance Philosophy

Our Human Resources Committee follows a philosophy of linking our named executive officers' compensation to performance that will ultimately reward our shareholders. We use compensation programs to attract and retain the best executive talent and to motivate our executives to exceed specific financial and organizational goals set each year. The components of our compensation strategies include allocating a greater portion of compensation to pay that varies based on company performance (annual bonus and long-term equity incentives) than to fixed compensation (base salary and benefits). We believe this mix is properly aligned with shareholder interests. Perquisites are few and related to business need, and executives must comply with executive officer stock ownership guidelines to link their interests to those of shareholders.

The Committee makes our annual compensation decisions in a thoughtful and deliberate way based on competitive market data that an independent compensation consultant provides and through open discussion within the Committee. We mitigate risks by having incentive plan caps, defined financial performance measures, multiple approval review gates and a compensation clawback policy. Furthermore, each year, we complete a thorough risk analysis of our compensation programs.

Current market conditions can also influence the annual goals and tools we use to have prudent flexibility to adapt to changing situations. This flexibility ensures we can make the best decisions to attract and retain the "right" executives to deliver strong performance for our shareholders over time.

Business Highlights⁽¹⁾

Oshkosh Corporation is a leading global specialty vehicle and vehicle body manufacturer with a long track record of superior growth. From fiscal year 1997 through fiscal year 2012, sales and operating income grew at compound annual growth rates of 18.0% and 18.5%, respectively. Despite significant challenges from the latest recession, we maintain the leading market share in virtually all of our businesses. While we continue to face a potentially sharp downturn in our largest segment Defense where U.S. defense spending is likely to decline over the next few years, we have communicated a roadmap to shareholders regarding how we intend to overcome the Defense downturn and create value for shareholders. We communicated the roadmap in detail to shareholders at a September 14, 2012 Analyst Day when we introduced our target to increase earnings per share from continuing operations to \$4.00 - \$4.50 by fiscal 2015.

In fiscal 2012, our primary focus was successfully executing our MOVE strategy. As we describe in detail in this Proxy Statement under "Summary Information Business Highlights Our MOVE Strategy," we delivered on our MOVE strategy with measurable results in fiscal 2012. In each quarter of fiscal 2012, we exceeded Wall Street consensus estimates for our earnings per share. We most recently illustrated this fact on our fourth quarter earnings conference call when we reported fourth quarter fiscal

Edgar Filing: OSHKOSH CORP - Form DEF 14A

(1) Non-GAAP results. See "Non-GAAP Financial Measures" in Attachment A to this Proxy Statement for reconciliation to GAAP results.

Table of Contents

2012 adjusted consolidated operating income of \$110.4 million and adjusted earnings per share of \$0.65, compared to adjusted operating income of \$87.4 million and adjusted earnings per share of \$0.50 in the fourth quarter of fiscal 2011. The results from the fourth quarter of fiscal 2012 reflect improved adjusted operating income margins in each of our business segments. For the full year fiscal 2012, we reported adjusted earnings per share of \$2.27 per diluted share, which exceeded our most recent expectations of \$2.05 - \$2.15 per share. These results significantly exceeded our initial expectations for the year, which evidences the effectiveness of our MOVE strategy in driving results. We also generated \$215 million of free cash flow in fiscal 2012 to strengthen our balance sheet. We believe that our fourth quarter and full year fiscal 2012 performance reflect the actions and commitment of all our dedicated employees, management and Board to deliver value for all Oshkosh shareholders.

Alignment of Performance and Compensation

Our compensation philosophy, programs and practices support our Board of Directors, executive officers and employees as they work to meet and exceed both customer and shareholder expectations in an ever-competitive global economy. We have designed the specific compensation programs that we have in place to retain key, talented executives during these uncertain times and incentivize them to continue our history of increasing sales and profits and to meet the aggressive goals of our MOVE strategy. Retention remains a critical focus area for us as we prepare for the industry downturn in defense, we faced an unsolicited tender offer, we faced and still face the prospect of a proxy contest, and we strive to protect our talent from other companies that routinely target our executives for recruitment. Our fiscal year 2012 compensation plans again contained restricted stock awards to provide that element of retention while continuing cash incentives and other equity awards that reward our key executives for achieving better than industry benchmark performance tied to key business measures or superior performance in light of competitive market conditions. We must have effective compensation programs to recruit and retain experienced and talented executives to achieve our aggressive MOVE strategy objectives and always be developing managers and technical employees as future leaders in our company. Despite the market challenges, our compensation plans remain targeted well within industry norms and are generally targeted close to the 50th percentile to prudently manage our compensation expense.

In line with our core values to be accountable to shareholders over the long term, below is a summary of how we have strengthened our executive team and aligned our pay with current company performance and economic and market conditions:

During fiscal year 2012, we promoted Mr. Wilson Jones from Executive Vice President and President Access Equipment to President and Chief Operating Officer of our company effective August 2012. This promotion was to recognize his performance and potential succession to Mr. Szews in the future and to provide additional executive leadership to successfully drive our MOVE initiatives. The promotion of Mr. Jones also allowed us to provide valuable business segment president opportunities for two other outstanding internal executives.

We also strengthened our team through external sources by hiring Mr. John Urias into the position of Executive Vice President and President Defense effective October 2011. He joined our company after a successful role in business development at Raytheon Company and 31 years of distinguished service in the United States Army, serving as Commanding General, Joint Contracting Command of the U.S. Army Training and Doctrine Command in Iraq/Afghanistan in support of Operation

Table of Contents

Iraqi Freedom and Operation Enduring Freedom and as the program executive officer of Air, Space, & Missile Defense and deputy for systems acquisition at the Tank-Automotive and Armaments Command (TACOM).

In addition, we made important modifications to our compensation and benefits practices that we expect will reduce volatility of cash flows and expenses, lower costs to be more competitive and further align pay with shareholder interests:

For many salaried employees, we froze benefits under our qualified defined benefit plans effective December 31, 2012 and in the future will be providing benefits to impacted employees under a new, qualified defined contribution plan.

We also froze benefits under our supplemental Executive Retirement Plan ("SERP") for executive officers, including our named executive officers, and will similarly be providing benefits under a new, non-qualified defined contribution plan with substantially lower benefits for executives, reducing the annual cost to our company to provide such benefits by over 30%.

We eliminated a post-employment health plan for certain current employees that reduced current costs and future obligations.

We modified certain sales representative incentive programs to provide incentives for expanding margins.

Recognizing that fiscal year 2012 results would be challenged, the executive salary increases that we implemented for fiscal year 2012 were generally below the market. In addition, we deferred salary adjustments to January 2012 to coincide with the timing of completion of performance evaluations for the full fiscal year 2011 and to provide some cost relief for fiscal year 2012. The Human Resources Committee determined that 2% base salary increases were appropriate for the named executive officers (including Mr. Szews, who declined the increase) for fiscal year 2012. Average increases for comparable executives and other professionals, based on the Towers Watson Executive Compensation Database that we describe below, were approximately 3% for fiscal year 2012.

The cash compensation that we paid to our current Chief Executive Officer, Mr. Szews, in fiscal year 2012 placed him at approximately the 25th percentile for cash compensation paid to the chief executive officers of companies included in the Towers Watson Executive Compensation Database, as he asked not to receive a raise in fiscal year 2012.

For the third consecutive year (September 2010, September 2011 and September 2012), Mr. Szews declined equity compensation so that we could provide retention awards to key executives and senior managers in September 2010 and September 2012 and make prudent awards in recognition of performance to named executive officers (other than Mr. Szews) and other officers in all three years to support higher returns for our shareholders. Mr. Szews' decision to forgo any equity compensation awards allowed us to avoid approximately \$15 million of pre-tax costs related to such awards over this three-year period, assuming that we would have made such awards at the 50th percentile of awards to chief executive officers at similarly-sized companies. We recognize that it is unusual not to provide an equity award to the CEO, and the decision was not based on Mr. Szews' performance but a means to first serve shareholder interests. The Human Resources

Table of Contents

Committee will be considering how best to provide incentives to better align Mr. Szews' long term compensation with shareholder interests in fiscal year 2013. It is important to note that Mr. Szews does beneficially own 523,692 shares of Oshkosh stock as of November 30, 2012, including 27,000 shares that Mr. Szews purchased on the open market during 2012, which does provide a substantial alignment with shareholder interests.

We designed the specific incentive awards in fiscal year 2012 for our named executive officers (other than Mr. Szews as to long-term incentives), and other executives, to provide considerable retention value, given the expected downturn in our defense business, and to reward successful implementation of our MOVE strategy. For long-term awards, we awarded a mix: time-based restricted stock to provide tangible value over the next three years to aid retention; Total Shareholder Return (TSR)-based Performance Shares (as compared to the S&P Mid Cap 400); and stock options to provide longer-term upside based on stock price appreciation resulting from successful execution of our MOVE strategy. The fiscal year 2012 annual cash incentive plan continued to focus on Operating Income (OI) to drive share price appreciation, Return on Invested Capital (ROIC) as measured against a comparator group of industry peer companies to drive sound capital allocation, and Days Net Working Capital Improvement (DNWCI) in our business segments to promote improved cash flow. Actual performance in fiscal year 2012 for operating income significantly exceeded our original expectations as management successfully executed our MOVE strategy. As a result, our operating income performance was above target. Actual performance in fiscal year 2012 for ROIC compared to the ROIC peer group that we describe below was below target, as we expected. As a result, payouts for our executives based on these two measures fell between target and maximum, which we believed was appropriate given our performance in exceeding operating income targets for the fiscal year.

For fiscal year 2013, to support our MOVE strategy, the Committee established target Consolidated Operating Income performance for our annual cash incentive plan at a level commensurate with adjusted earnings per share from continuing operations of \$2.60, the high end of the earnings per share performance estimate that we have disclosed for fiscal year 2013 as of November 19, 2012. For fiscal years 2014 and 2015, the Committee intends to continue to align Consolidated Operating Income performance targets for our annual cash incentive plan with MOVE earnings per share targets. The Committee will also consider aligning some portion of equity awards, most likely performance shares, to MOVE earnings per share targets for awards that it approves in fiscal year 2013.

This Compensation Discussion and Analysis explains our compensation programs and policies for fiscal year 2012, and in certain instances our plans for fiscal year 2013, and how those programs and policies affected the compensation we paid to the following, who are our named executive officers:

Charles L. Szews, Chief Executive Officer
David M. Sagehorn, Executive Vice President and Chief Financial Officer
Wilson R. Jones, President and Chief Operating Officer
Bryan J. Blankfield, Executive Vice President, General Counsel and Secretary
John M. Urias, Executive Vice President and President, Defense

Table of Contents

Oversight

Our fiscal year 2012 ended September 30, 2012. During fiscal year 2012, the Human Resources Committee of our Board of Directors, which we refer to in this Compensation Discussion and Analysis as the Committee, consisted of the following independent directors: Mr. Richard M. Donnelly (Chairman), Mr. Peter B. Hamilton, Ms. Kathleen J. Hempel and Gen. (Ret.) William S. Wallace. As its charter provides, the Committee establishes, oversees and approves the compensation programs, awards, practices and procedures for our executive officers.

The Committee has the authority to engage the services of outside advisors, experts and others to assist it in performing its responsibilities. In fiscal year 2012, the Committee retained Towers Watson as its advisor on issues related to the Committee's responsibilities. Throughout the year, the Committee regularly evaluated Towers Watson's performance, determined that Towers Watson had no conflicts of interest, and provided Towers Watson appropriate feedback. See "Governance of the Company Committees of the Board of Directors Human Resources Committee" for more information on the processes and procedures of the Committee, including the role of Towers Watson in assisting the Committee as it sets executive officer and non-employee director compensation.

Compensation Philosophy and Objectives

The objective of our company's executive compensation program is to attract, retain and motivate executives who will perform at the highest levels to execute our strategy, continue to improve business performance and increase the long-term market value of our company. A guiding principle of our executive compensation philosophy is to clearly align incentive compensation opportunities with the long-term interests of our shareholders. As a result, we have designed our compensation program to provide executives with rewards for quantifiable annual results as well as to reward strategic decision making by providing rewards for sustained long-term company performance.

Consistent with these objectives, the Committee has designed compensation programs that have varying time frames for earning and payment, include a substantial proportion of pay that is "at risk" because the amount is dependent on future performance, and involve both cash and equity awards. These include:

Base Compensation and Benefits: Base salary, with potential merit increases based on performance and market competitiveness, employee benefits (e.g., health insurance) and limited perquisites (principally annual physicals and relocation packages when we ask executives to relocate);

Short-Term Incentive Compensation: Cash-based incentive awards based on the achievement of challenging annual performance goals.

Long-Term Compensation: Equity-based long-term incentive awards, including performance-based awards, that reward performance over a period of time; and

Edgar Filing: OSHKOSH CORP - Form DEF 14A

Benefits Following Service: Benefits under qualified retirement plans, retirement plans for senior executives, non-qualified deferred compensation plans, and severance agreements.

Because we want our executives' compensation to fluctuate upward or downward consistent with our financial and share price performance, we designed our incentive compensation programs to

Table of Contents

reward improvement in operating income, improvement in efficiency of use of net working capital, return on invested capital and appreciation of our share price. We believe that these performance measures correlate directly with the performance goals that we have established under our MOVE strategy namely to approximately double adjusted earnings per share from continuing operations to \$4.00 - \$4.50 by fiscal 2015 compared to fiscal 2012 expectations that we announced on September 14, 2012. Specifically, we believe improvements in operating income directly contribute to an increase in earnings per share and share price appreciation is largely driven by market reaction to reported increases in earnings per share and returns on invested capital.

For fiscal year 2013, the Committee expects reduced performance in our Defense segment due to expected lower sales and flat operating income margins and improved performance in our other business segments due largely to expected increasing sales and operating income margins. The Committee expects the Access Equipment segment to have the greatest improvement due to the expected continued market recovery in that segment, improved pricing, cost reduction programs and new product introductions. In addition, the Committee expects that Commercial segment performance will improve due to expected increasing demand for concrete mixers and the expectation that Fire & Emergency segment operating income will improve as a result of our closure of non-performing businesses in fiscal year 2012 and cost reduction programs. The Committee took these expectations into account in designing incentive compensation for fiscal year 2013 while noting that retention of executives was still a high priority in fiscal 2013 to support the successful execution of our MOVE strategy in a market with increasing external employment opportunities at companies not dealing with the cloud of an activist investor.

Annual Compensation Plans Design Review

The Committee annually evaluates our compensation plans to determine if it is appropriate to make changes in plan design, types of awards or levels of pay. This evaluation includes a review of Towers Watson's analyses of general industry compensation data, which provides comparative references for the Committee that we describe in more detail below. These analyses give the Committee an understanding of each executive's total direct compensation package so the Committee can determine if our compensation structure is consistent with our goals.

Towers Watson also provides the Committee with updates regarding trends in executive compensation, recommendations for outside director and executive officer compensation, summaries of new or proposed regulations affecting executive compensation and special reports responding to specific inquiries from the Committee. The Committee also solicits Towers Watson's recommendations for changes to our methods of compensating executive officers in light of these general developments as well as factors specifically affecting our company. This information provides input for the Committee to consider when adopting the performance measures we use for our annual cash incentive awards and the performance-based and retention-oriented elements of our equity-based long-term incentive awards.

In November 2011, the Committee decided to continue to use the Consolidated Operating Income and Return on Invested Capital performance measures for fiscal year 2012 to maintain the emphasis on maximizing income and debt reduction and on strong balance sheet management. The Committee also retained the Return on Invested Capital performance measure because it is a relative performance measure, requiring company performance to exceed certain thresholds relating to a peer

Table of Contents

group of companies, which we refer to as the ROIC peer group, in determining a portion of our executives' annual compensation. Based on an analysis of the ROIC peer group by Towers Watson, the Committee approved a change to the ROIC peer group for fiscal year 2012 to provide a peer group of similar-sized companies that are better aligned with our company in terms of revenue in the Industrial Machinery, Construction/Farm Machinery and Heavy Truck, and Defense and Aerospace industry categories.

Determining Pay Levels

On an annual basis, Towers Watson provides the Committee various analyses of general industry compensation data from its Executive Compensation Database, a survey of over 840 companies, which we refer to in this Proxy Statement as the Towers Watson Executive Compensation Database. We use Towers Watson Executive Compensation Database because we believe the size of the database ensures consistent and statistically valid data that is representative of the market in which we compete for executive talent. In using the Towers Watson Executive Compensation Database, we generally consider only aggregate data and do not select individual companies for comparison. By focusing on the data in the aggregate, we believe we can avoid the undue impact of statistically outlying companies and obtain a general understanding of compensation practices in the market.

Towers Watson compiles data regarding base salary, target and actual annual cash incentive awards and long-term incentive awards for these companies. The data reflects the individual responsibilities of each position and company revenue size. Through a regression analysis, Towers Watson adjusts the base salary and annual cash incentive data to match our revenue size using our estimates of our annual revenues for the then current fiscal year. At the time that the Committee took action relating to fiscal year 2012 compensation in September 2011, the Committee noted that our fiscal 2012 revenues would likely be higher than our estimated 2011 revenues due in large part to expected Family of Medium Tactical Vehicles (FMTV) revenues in our Defense segment and expected higher sales volumes in our commercial businesses, most notably in our Access Equipment segment.

For long-term incentive awards, Towers Watson compiles a "Long-Term Incentive Plan Report", which is a subset of the Towers Watson Executive Compensation Database. This report includes long-term incentive values for executives who perform duties at a subset of companies whose revenue is both higher and lower than ours that correspond to the job duties of each of our named executive officers. For fiscal years 2012 and 2013, Towers Watson used all companies within the Towers Watson Executive Compensation Database with revenues between \$6 billion and \$10 billion in the Long-Term Incentive Plan Report. We refer to the subset of data from the Long-Term Incentive Plan Report as the Long-Term Compensation Data in this Proxy Statement.

The Committee requests the Towers Watson Executive Compensation Database data at the 25th, 50th, 60th, 70th and 75th percentile levels for base salary, target and actual annual cash incentive awards, and long-term incentive awards for each of our executive positions at companies whose total revenue, as reported, corresponds to our total revenue and whose executive positions have responsibilities that correspond to the responsibilities of our executive officers. The Committee made compensation decisions for fiscal year 2012 at the Committee's meetings in September 2011 and November 2011 and used the Towers Watson Executive Compensation Database data that Towers Watson provided to us in September 2011. The Committee made compensation decisions for fiscal year 2013 at the Committee's

Table of Contents

meetings in September 2012 and November 2012 and used the Towers Watson Executive Compensation Database data that Towers Watson provided to us in September 2012.

To evaluate an executive officer's performance, the Committee considers the contributions of the executive officer by a review of his or her accomplishments for the current year as compared to objectives that the Committee established for the executive in the previous year. In setting performance objectives, the Committee considers the recommendations of Mr. Szews for each executive reporting to him or to our President and Chief Operating Officer (Mr. Jones). These performance objectives can emphasize the following financial and operational goals: earnings per share, revenue growth, cash flow improvement, working capital management, earnings growth, return on invested capital, operating income, operating income growth, operating income as a percent of revenue, margin expansion, customer relations, operational efficiency, international expansion, successful acquisition integration, debt reduction, cost containment, process improvement, innovation, talent development and implementation of lean manufacturing principles. Specific objectives for each executive reflect the responsibilities of their individual positions. The Committee independently sets similar performance objectives for the Chief Executive Officer. At the end of the fiscal year, each executive completes a self-assessment and provides it to the Chief Executive Officer or Chief Operating Officer for him to complete his evaluation of the executive's performance as to specific performance objectives for the year. The Committee then reviews these evaluations by the Chief Executive Officer and Chief Operating Officer. The Committee further evaluates in a subjective manner each executive's leadership, technical skills and personal growth and development. The Chief Executive Officer also completes a self-assessment as to specific performance objectives for the year, which the Committee approves at the beginning of each year, and of his performance generally. The Committee similarly evaluates the Chief Executive Officer's performance and meets with the Chief Executive Officer to provide coaching and discuss areas of improvement.

The following table summarizes the general target mix of pay (fixed versus variable) for our Chief Executive Officer and the other named executive officers. The Long Term Incentive values in the table represent the 50th percentile of the Towers Watson Executive Compensation Database. As we discuss further below, our Chief Executive Officer requested not to receive and did not receive equity incentive awards in fiscal 2012.

Table of Contents**Base Salary**

For fiscal year 2012, the Committee, based on the recommendation of management, moved the effective date of base salary adjustments to January 2012. The Committee determined to delay its base salary adjustment decisions until its November meeting to coincide with the timing of completion of performance evaluations for the full fiscal year 2011. The Committee believes this timing better aligns its performance-based base salary adjustment decisions with the end of our fiscal year and reporting of final business results. The Committee now considers base salary adjustments at its November meeting after performance reviews have been completed and reviewed with the Committee. In November 2011, the Committee accepted management's recommendation to implement base salary increases for executive officers (other than the Chief Executive Officer) effective January 2012 in recognition of the executive team's performance, but to limit those increases to 2% due to market conditions that existed for our company at that time and to prudently manage costs for the future.

For its review and adjustment of base salaries at its November 2011 meeting, the Committee reviewed the Towers Watson Executive Compensation Database data that Towers Watson provided in September 2011 by position to evaluate the competitiveness of our named executive officers' base salaries. The Committee generally believes base salaries that are within a range of the 50th percentile for this database are competitive. To ensure the accuracy of this comparison, the Committee reviewed the position descriptions that Towers Watson used to validate that the positions fully reflect our expectations for the corresponding position. The Committee then reviewed the performance objectives identified above so that its base salary decisions for each executive reflected his or her performance and were otherwise consistent with all of our compensation goals. In this regard, to save costs, the Committee intended to go beyond a 2% base salary adjustment only in the case of exceptional performance.

After analyzing the data and performance information, at its November 2011 meeting, the Committee made the following base salary adjustments for fiscal year 2012.

Named Executive Officer	Base Salary Adjustment as a % of Base Salary
Mr. Szews*	
Mr. Sagehorn	2%
Mr. Jones	2%
Mr. Blankfield	2%
Mr. Urias	0%

*

Note that Mr. Szews did not receive a salary increase at his request.

The Committee noted that the 2% increases for Messrs. Sagehorn, Jones and Blankfield were consistent with salary increases for our other executive officers, reflected their performance and were appropriate to maintain their salaries at a competitive level as compared with the Towers Watson Executive Compensation Database. Mr. Urias did not receive an increase as he did not join our company until October 2011. Mr. Urias' base salary was within the competitive range for his position. Later in fiscal year 2012 and coincident with his promotion to President and Chief Operating Officer, the Committee approved an increase in Mr. Jones' base salary to \$575,000, a 31% increase, which was just below the 50th percentile of the Towers Watson Executive Compensation Database for his new position.

Table of Contents

Annual Cash Incentive Awards

Our annual cash incentive plan links compensation to the achievement of specific short-term corporate performance goals that management recommends and the Committee reviews each year at its September meeting and approves at its November meeting after having received more current performance forecasts for the ensuing fiscal year. Under this plan, we tie a significant portion (in fiscal year 2012, up to a maximum of 200% of base salary for Mr. Szews, 150% of base salary for Mr. Jones effective upon his promotion to President and Chief Operating Officer in fiscal year 2012 (120% of base salary for the period prior to his promotion), 120% of base salary for Mr. Sagehorn in fiscal year 2012, moving to 150% in fiscal year 2013 for market competitiveness, and 120% of base salary for Messrs. Blankfield and Urias) of an executive's annual compensation to our performance relative to specific performance measures.

For the named executive officers (except Mr. Jones before his promotion to President and Chief Operating Officer and Mr. Urias), the Committee used both a Consolidated Operating Income and a Return on Invested Capital performance measure for fiscal year 2012. The Committee set the fiscal year 2012 Consolidated Operating Income goal at a level lower than our consolidated operating income results for fiscal year 2011, largely reflecting the Committee's expectation of significantly decreased revenue and operating income in our Defense segment. However, the Committee required a minimum of 3% operating income margin to achieve incentive compensation above the target level under the operating income performance measure. When the Committee set the fiscal year 2012 Consolidated Operating Income goal in November 2011, the Committee determined that, as a result of its projections for a difficult year, there was a reasonable likelihood that executives would receive cash incentive payments just above the minimum payment level, with any above-target payments being linked to exceptional performance.

For Mr. Jones, prior to his promotion to President and Chief Operating Officer, the Committee used a Consolidated Operating Income performance measure, an Access Equipment segment Operating Income performance measure, and an Access Equipment segment Days Net Working Capital Improvement, or DNWCI, performance measure for fiscal year 2012. For Mr. Urias, the Committee used a Consolidated Operating Income performance measure, a Defense segment Operating Income performance measure, and a DNWCI performance measure for fiscal year 2012. The Committee determined to continue to provide business segment presidents the opportunity to be rewarded for results primarily tied to their business segment. The Committee required a minimum of 3% operating income margin to achieve incentive compensation above the target level under the operating income performance measure.

Performance under our Return on Invested Capital goal equals our net income before extraordinary items, nonrecurring gains and losses, discontinued operations and accounting changes plus the after tax cost of interest expense for the four quarters ended June 30, 2012 divided by the simple average of total debt plus shareholders' equity for the five quarters ended June 30, 2012. DNWCI represents our (or our relevant business segment's) year over year improvement in Days Net Working Capital. Days Net Working Capital is based on average Net Working Capital over the five fiscal quarters ending September 30 and the average daily sales for the fiscal year. Net Working Capital is defined as current assets (less cash) minus current liabilities (less short term debt). Operating Income equals income from continuing operations before other income/expense, income taxes, and income/equity of our unconsolidated affiliates.

Table of Contents

The Return on Invested Capital measure compares our results to the ROIC peer group. Threshold, target and maximum performance levels would be met if our Return on Invested Capital results were at the 25th, 50th and 75th percentiles, respectively, of the ROIC peer group. We believe the ROIC peer group is representative of the industrial machinery, construction machinery, heavy truck and defense industries in which we compete with our products. We believe this smaller and more focused universe of companies improves the reliability of the comparison for the Return on Invested Capital measure because these companies are more likely to have investment needs similar to ours both to support the maintenance and improvement of their infrastructure and to ensure continued growth.

For fiscal year 2012, following its review of an analysis that Towers Watson provided, the Committee updated the companies in the ROIC peer group to more accurately reflect our industry competition, business mix and revenue size. The ROIC peer group for fiscal year 2012 included companies in the same three distinct Standard Industrial Classification (SIC) industry groupings as in fiscal year 2011, Defense & Aerospace, Construction/Farm Machinery and Heavy Trucks, and Industrial Machinery, with annual revenues between \$2 billion and \$10 billion (approximately one-quarter to two times our annual revenue). The Committee removed fifteen companies from the ROIC peer group that we used in fiscal year 2011 that had annual revenues below \$2 billion or above \$10 billion. The Committee added twelve companies to the ROIC peer group for fiscal year 2012, five from the Defense & Aerospace SIC grouping, five from the Construction/Farm Machinery and Heavy Trucks SIC grouping, and two from the Industrial Machinery SIC grouping. The companies that were added met the revenue criteria the Committee established. As a result, the ROIC peer group for fiscal year 2012 was as follows:

**Return on Invested Capital
Comparator Group of Companies for Fiscal Year 2012**

Industrial Machinery	Construction/Farm Machinery and Heavy Trucks	Defense & Aerospace
Briggs & Stratton Corp.	AGCO Corp.	Alliant Techsystems Inc.
Crane Co.	Joy Global Inc.	BE Aerospace Inc.

Valmont Industries, Inc.		
Xylem Inc.		

The Committee established threshold, target and maximum operating income and DNWCI performance levels at its November 2011 meeting after reviewing management's recommendations at

Table of Contents

its September 2011 meeting. For the business segment DNWCI and business segment Operating Income performance measures, our Chief Executive Officer presented to the Committee, and the Committee considered, forecasts of our Consolidated Operating Income and our consolidated DNWCI performance for fiscal 2012 that included estimates of the DNWCI and Operating Income performance levels required by each of our four business segments for us to achieve the Operating Income and Consolidated DNWCI forecasts. Management initially recommended the threshold, target and maximum performance levels, and the Committee made final adjustments and determinations. When making the determinations in November 2011, the Committee looked at our fiscal 2012 budget and anticipated industry trends.

Threshold performance levels represented our view of an acceptable level of performance short of target that merited receipt of a partial annual cash incentive award in view of our overall performance and desire for improvement in shareholder value. Providing an annual cash incentive award for achievement at the threshold performance level also aids in our ability to retain our key executives during periods of market weakness.

For fiscal year 2012, the Committee set target payout levels at approximately the 50th percentile of target annual cash incentive awards for similar executive positions as shown in the Towers Watson Executive Compensation Database. The Committee set the target performance levels at amounts that we believed were very challenging and above our most likely performance level, but at amounts that we believed were not impossible to achieve.

We set the maximum performance level to provide incentive to significantly enhance earnings, taking into consideration challenging market conditions in many of our businesses, to reduce debt and grow the business, and to ensure that executives would not receive a cash incentive award payment that is significantly above the market data for their positions as reflected in the Towers Watson Executive Compensation Database. We set the maximum performance level at what we believed would be an extremely challenging level for our executives to achieve.

The Committee discussed the weighting between the Operating Income and Return on Invested Capital performance measures for fiscal year 2012. For executive officers other than Mr. Jones before his promotion to President and Chief Operating Officer and Mr. Urias, the Committee decided that Consolidated Operating Income would comprise 80% of the target weighting and ROIC would comprise 20% of the target weighting. For Mr. Jones before his promotion and for Mr. Urias, the Committee decided that the Consolidated Operating Income would comprise 20% of the target weighting, Access Equipment or Defense segment Operating Income, respectively, would comprise 60% of the target weighting, and Access Equipment or Defense segment DNWCI, respectively, would comprise 20% of the target weighting. At its November 2011 meeting, the Committee structured the annual cash incentive

Table of Contents

plan for fiscal year 2012 for the named executive officers (other than Mr. Jones and Mr. Urias) based upon the forecasted financial performance of our company as follows:

	Bonus Weighting	Threshold	Target	Maximum
Consolidated OI	80%	\$205 Million	\$320 Million	\$435 Million
ROIC	20%	25 th Percentile of Comparator Group Performance	50 th Percentile of Comparator Group Performance	75 th Percentile of Comparator Group Performance

OI = Operating Income

ROIC = Return on Invested Capital

Actual annual incentive consolidated operating income calculated under the terms of the plan was \$380.1 million in fiscal year 2012, and consolidated ROIC was above the 25th percentile but below the 50th percentile. Actual annual incentive consolidated operating income for purpose of the plan differs from consolidated operating income as it appears in our financial statements because the applicable plan language excludes certain non-cash and non-recurring items from the calculation of operating income, including costs associated with the exit of our Medtec ambulance business of \$4,475,000 (\$935,000 of which charges related to impairment of tangible assets associated with business restructurings) and pension curtailment charges of \$1,968,000, each within our Fire & Emergency segment; a pension curtailment charge of \$482,000 within our Defense segment; a restructuring credit of (\$292,000) in Europe within our Access Equipment segment; and SERP curtailment charges of \$931,000 and proxy contest costs of \$6,618,000.

The Committee structured the annual cash incentive plan for fiscal year 2012 for Mr. Jones as Executive Vice President and President of our Access Equipment segment based upon the forecasted financial performance of our company and the Access Equipment segment as follows:

Consolidated Company and Access Equipment Segment Specific Financial Performance Measures				
	Bonus Weighting	Minimum	Target	Maximum
Consolidated OI	20%	\$205 Million	\$320 Million	\$435 Million
Access Equipment OI	60%	\$160 Million	\$210 Million	\$260 Million
Access Equipment DNWCI (Reduction) Percentage	20%	(5%)	15%	35%

OI = Operating Income (minimum 3% OI margin required for OI payment above target)

DNWCI = Days Net Working Capital Improvement (Reduction) Percentage

Actual annual incentive plan Access Equipment segment operating income calculated under the terms of the plan in fiscal year 2012 was \$228.9 million and DNWCI was 3.9%. We prorated Mr. Jones' payout under this plan to account for the time that he served as Executive Vice President and President of our Access Equipment segment.

Table of Contents

The Committee structured the annual cash incentive plan for fiscal year 2012 for Mr. Urias as Executive Vice President and President of our Defense segment based upon the forecasted financial performance of our company and the Defense segment as follows:

Consolidated Company and Defense Segment Specific Financial Performance Measures

	Bonus			
	Weighting	Minimum	Target	Maximum
Consolidated OI	20%	\$205 Million	\$320 Million	\$435 Million
Defense OI	60%	\$135 Million	\$180 Million	\$225 Million
Defense DNWCI Percentage	20%	5%	40%	75%

OI = Operating Income (minimum 3% OI margin required for OI payment above target)

DNWCI = Days Net Working Capital Improvement Percentage

Actual annual incentive plan Defense segment operating income calculated under the terms of the plan in fiscal year 2012 was \$237.0 million and DNWCI was 26.1%.

Actual performance in fiscal year 2012 for Consolidated Operating Income was above target and below maximum primarily due to higher revenue and operating income margins, and actual performance in fiscal year 2012 for ROIC compared to the ROIC peer group was below target. As a result, Messrs. Szews, Sagehorn, Blankfield and Jones (pro-rated for the time that he was President and Chief Operating Officer) received performance payouts between target and maximum. In addition, Mr. Jones received a prorated award for his time as Executive Vice President and President of the Access Equipment segment between the target and maximum level as this business segment performed above target levels. Mr. Urias received a performance payout between target and maximum as the Defense segment performed above target levels.

The chart below shows our ROIC performance for fiscal year 2012, and historically, relative to the 50th percentile of the ROIC peer group.

Edgar Filing: OSHKOSH CORP - Form DEF 14A

* Note that we did not use ROIC for fiscal year 2009. Rather, we used consolidated DNWCI to focus on cash flow, which we believed was more important at that time.

Table of Contents

Payouts under the annual cash incentive plan for fiscal year 2012 were generally between the target and maximum performance levels, which we believed was appropriate given our performance in exceeding operating income targets for the fiscal year.

In November 2012, the Committee again assigned each executive a threshold, target and maximum annual cash incentive award payment level for fiscal year 2013 after a review of data from the Towers Watson Executive Compensation Database. To target the annual cash incentive award opportunity at approximately the 50th percentile of the competitive data (the targets are just below the 50th percentile), the Committee established the payout opportunity for fiscal year 2013 for each of the named executive officers as follows:

	Threshold	Target	Maximum
Mr. Szews	50%	100%	200%
Mr. Jones	37.5%	75%	150%
Mr. Sagehorn	37.5%	75%	150%
Mr. Blankfield	30%	60%	120%
Mr. Urias	30%	60%	120%

The Committee increased Mr. Jones' bonus payout opportunity range to 37.5% at minimum, 75% at target and 150% at maximum of his base salary reflecting his promotion to President and Chief Operating Officer. This placed Mr. Jones at the 50th percentile of the Towers Watson Executive Compensation Database for an annual incentive target. When Mr. Jones was President of our Access Equipment segment president, his payout opportunity range was the same as Mr. Urias' range. The Committee increased Mr. Sagehorn's bonus payout opportunity to 37.5% at minimum, 75% at target and 150% at maximum of his base salary to move him to the 50th percentile of the Towers Watson Executive Compensation Database for executives serving in similar positions.

At its November 2012 meeting, consistent with the performance measures that it selected for fiscal year 2012, the Committee selected Operating Income and Return on Invested Capital as our performance measures for fiscal year 2013, other than for Mr. Urias. The Committee once again assigned a weighting of 80% for Consolidated Operating Income and 20% for Return on Invested Capital. For Mr. Urias, consistent with fiscal year 2012, the Committee structured the annual cash incentive plan for fiscal year 2013 to reflect a weighting of 20% for Consolidating Operating Income, 60% for Defense segment Operating Income, and 20% for Defense segment DNWCI. The Committee established target Consolidated Operating Income performance for fiscal 2013 at a level commensurate with adjusted earnings per share from continuing operations of \$2.60, which is at the high end of the earnings per share performance estimate that we have disclosed for fiscal 2013 under our MOVE strategy as of November 19, 2012. At the November 2012 meeting, the Committee also expressed its intent to align Consolidated Operating Income performance targets for fiscal 2014 and fiscal 2015 with the adjusted earnings per share from continuing operations targets under our MOVE strategy.

For fiscal year 2013, following its review of an analysis that Towers Watson provided, the Committee made several changes to the companies in the ROIC peer group. These changes were due to one company having exceeded \$10 billion in annual revenues (PACCAR, Inc.), new ownership (Goodrich Corp.) or divestiture (ITT was split into Excelis, a defense company that the Committee added, and Xylem, which the Committee did not add as it is in a different industry) and to more accurately reflect our industry competition, business mix and revenue size. The ROIC peer group for

Table of Contents

fiscal year 2013 includes companies in the same three distinct Standard Industrial Classification (SIC) industry groupings as in fiscal year 2012, Defense & Aerospace, Construction/Farm Machinery and Heavy Trucks, and Industrial Machinery, with annual revenues between \$2 billion and \$10 billion (approximately one-quarter to two times our annual revenue). The companies that were added met the revenue criteria the Committee established. As a result, the ROIC peer group for fiscal year 2013 is:

**Return on Invested Capital
Comparator Group of Companies for Fiscal Year 2013**

Industrial Machinery	Construction/Farm Machinery and Heavy Trucks	Defense & Aerospace
Briggs & Stratton Corp.	AGCO Corp.	Alliant Techsystems Inc.
Crane Co.	Joy Global Inc.	BE Aerospace Inc.
Dover Corp.	Manitowoc Company, Inc. (The)	Curtiss Wright Corp.

Pall Corp.		Triumph Group, Inc.
Parker-Hannifin Corp.		
Pentair, Inc.		
SPX Corp.		
Stanley Black & Decker, Inc.		
Timken Co. (The)		
Valmont Industries, Inc.		

In certain special circumstances, such as for newly-hired executives, we also provide compensation outside of the regular annual bonus plan. For example, upon his hiring, Mr. Urias received a bonus of \$215,000 to compensate him for compensation that he was forgoing as a result of his leaving his prior employer. Mr. Urias effectively earned this bonus pro rata over a twelve month retention period.

Equity-Based Long-Term Incentive Awards

We also grant equity-based long-term incentive awards. We structure these awards so that executives receive equity-based compensation when long-term shareholder value is increased. We believe these awards help ensure that executives consider the interests of our shareholders when they make long-term strategic decisions. We granted three kinds of equity-based long-term incentive awards to the named executive officers in fiscal year 2012 (other than Mr. Szews): stock options, performance share awards and restricted stock. Each of these awards is subject to the terms of our 2009 Incentive Stock and Awards Plan.

The Committee believes these equity-based, long-term incentive awards are key components of our compensation program and that they are aligned to the growth targets in the MOVE strategy. The Committee designs them to encourage a focus on our long-term growth and performance as well as to encourage and facilitate ownership of our Common Stock by those executives from whom a commitment to

shareholders is most important. To further this alignment to the MOVE strategy, the Committee will consider allocating a portion of the equity awards that it approves in fiscal year 2013,

Table of Contents

most likely performance shares, to MOVE earnings per share targets. In addition to motivating key executives, we believe equity based awards have proven to be a valuable tool in hiring and retaining key executives so that they remain our employees over time, which we believe contributes to increased shareholder value. The Committee generally grants individual equity awards for executives on an annual basis at the September Board meeting prior to the start of our next fiscal year. The only exceptions to this timing for granting equity awards are in the event of a new hire, if an executive officer receives a promotion, or to address retention before the annual award process.

In making equity-based long-term incentive awards in September 2012, the Committee reviewed the Long-Term Compensation Data that Towers Watson provided, using an estimate of annual revenues for the current fiscal year and companies in the appropriate subset revenue range. The Long-Term Compensation Data identifies a competitive dollar value of long-term awards for each position between the 25th and 75th percentiles.

Except for Mr. Szews, who declined long-term incentive awards for the third straight year, the Committee determined to make equity awards to named executive officers in fiscal year 2012 that the Committee generally targeted at approximately the 50th percentile of the Long-Term Compensation Data, which provides a significant incentive for executives to achieve our MOVE strategy goals and retention incentives for key executives. In determining actual grants, the Committee decided to deliver the value that the Committee targeted by awarding to each executive on average 40% in the form of stock options, 20% in the form of performance shares and 40% in the form of restricted stock, which is different than the mix of awards in fiscal year 2011 which was 50% stock options, 20% performance shares and 30% restricted stock. The Committee increased the weighting of time-based restricted stock in the mix of awards in fiscal 2012 to provide increased stock ownership and to place greater emphasis on retention due to restricted stock having greater tangible value than stock options and performance shares. The Committee valued stock options using estimated valuations under the Black-Scholes valuation model, performance shares using estimated valuations under a Monte Carlo simulation model that were based on valuations of prior awards by a third-party provider and restricted stock using fair market value of the Common Stock. We use a third-party provider to value the performance shares for accounting purposes, and we have used an estimate of the accounting value for grant purposes. Recently, the third-party provider informed us that it had performed its calculations incorrectly dating back to 2007. This resulted in executives receiving more performance shares than would have been the case had the provider performed its calculations correctly. As a result, although any approach to valuing performance shares is inherently imprecise, the Committee will review the manner in which it values and grants performance shares prior to making grants in fiscal year 2013.

In fiscal 2012, Mr. Szews declined equity compensation for the third consecutive year (September 2010, September 2011 and September 2012) so that we could provide retention awards to key executives and senior managers in September 2010 and September 2012 and make prudent awards in recognition of performance to other named executive officers and other officers in all three years to support higher returns for our shareholders. Mr. Szews' decision to forgo any equity compensation awards allowed us to avoid approximately \$15 million of pre-tax costs related to such awards, assuming that we would have made such awards at the 50th percentile of awards to chief executive officers at similarly-sized companies. The Committee plans to periodically revisit this subject, which may result in the Committee awarding equity-based incentive awards to Mr. Szews during fiscal year 2013.

Table of Contents

The charts below show, based on the base salary in effect at the close of fiscal year 2012, the target bonus for fiscal year 2012 and the target value of the long-term incentive compensation that the Committee awarded in fiscal year 2012 (excluding a one-time promotional award of restricted stock to Mr. Jones), the mix of fiscal year 2012 compensation for our named executive officers, other than Mr. Szews, that was "at risk" and how it compares to that of the competitive market at the 50th percentile as reflected in the compensation data that Towers Watson provided:

Note that the above does not include Mr. Szews as he received no long-term incentive awards in fiscal 2012. For the third consecutive year (September 2010, September 2011 and September 2012) and as the below graph illustrates, based upon the Committee's acceptance of Mr. Szews' recommendation, Mr. Szews did not receive equity-based long-term incentive awards so that we could provide retention awards to key executives and senior managers in September 2010 and September 2012 and make prudent awards in recognition of performance to other named executive officers and other officers in all three years to support higher returns for our shareholders. Also, in light of the 523,692 shares of our Common Stock that Mr. Szews beneficially owned as of November 30, 2012, including 27,000 shares that he purchased in 2012, which is disclosed under "Stock Ownership of Directors, Executive Officers and Other Large Shareholders," Mr. Szews has a significant interest in the performance of our Common Stock and is very aligned with shareholders' interests. The Committee's decisions to not grant Mr. Szews long-term awards are in no way indicative of the Committee's view of his performance, nor do they represent a change in the Committee's compensation philosophies which include compensating executives generally at the 50th percentile of competitive pay.

Table of Contents

In addition, during fiscal 2012, in connection with Mr. Jones' appointment as President and Chief Operating Officer, Mr. Jones received 20,000 shares of restricted stock that will vest on a cliff basis after three years of continuous employment, which provides a retention incentive during the full three-year vesting period. The Committee made the award to further align Mr. Jones' interests with shareholders and as a retention incentive.

Stock Options

The Committee believes stock options are a valuable tool that ties a portion of the executives' compensation to stock price appreciation. Because participants realize value from stock options only when and to the extent that the price of our Common Stock on the date of exercise exceeds the exercise price of the option, there is a strong link between executive decision making and long-term shareholder value. The Committee also believes stock option grants enable us to attract highly skilled executives in the marketplace which is essential to our long-term success. This form of compensation provides executives with a competitive compensation package and an opportunity to create wealth by becoming owners of our Common Stock.

Each stock option that the Committee granted in September 2012 permits executives, for a period of seven years, to purchase shares of our Common Stock at the exercise price that is equal to the closing price of our Common Stock on the date of the grant. The stock options that we granted in September 2012 vest in three equal annual installments beginning one year after the grant date.

Performance Share Awards

Edgar Filing: OSHKOSH CORP - Form DEF 14A

The Committee awarded performance shares to certain of our named executive officers in September 2012. Executives earn performance shares only if our total shareholder return, which is defined as stock price appreciation plus dividends, over three years compares favorably to a group of companies defined in the award terms for the performance shares. The final number of shares that an executive receives can range from zero to double the target for the award. Performance shares also

Table of Contents

support the Committee's objective of increasing executives' ownership interest in our company, but only if and to the extent that our total shareholder return reaches a specified level of performance relative to the other companies defined in the award terms for the performance shares.

Under these awards, executives realize value by receiving shares of our stock at the end of a three-year period based upon the number of target performance shares for an executive at the start of the period, provided that our total shareholder return reaches the specified level of relative performance.

An executive will earn shares under the performance shares award terms that the Committee approved in fiscal year 2012 if we achieve a total shareholder return that is at least equal to the 40th percentile of the total shareholder return that the group of companies comprising the Standard & Poor's MidCap 400 Index achieves over the three-year performance period. The Committee chose the Standard & Poor's MidCap 400 Index rather than a more targeted index because it reflects the Committee's view that there is a broad range of investment options available to shareholders.

The schedule below reflects the percent of target performance shares that an executive could earn at the end of the three-year period based on our performance:

3 Year Total Shareholder Return Percentile	Percent of Target Shares Award Earned
Below 40 th Percentile	0%
40 th Percentile	50%
60 th Percentile	100%
80 th Percentile	200%

The Committee believes the use of performance shares structured in this format will reward executives only if we achieve shareholder returns similar to or better than companies in the Standard & Poor's MidCap 400 Index. This also reinforces our pay for performance philosophy by providing target (100%) payout only if we achieve at least the 60th percentile, and up to a 200% maximum payout for performance at or above the 80th percentile. This approach adds the element of performance, rather than being a strictly time-based award. However, the fact that the performance shares, in essence, vest on a cliff basis after three years of continuous employment also provides a retention incentive during the full three-year vesting period. As part of its annual review of our executive compensation practices, Towers Watson found the performance share payout schedule to be in line with other companies in the Long-Term Compensation Data for this type of long-term incentive.

For performance share awards that we granted in fiscal 2009, the total shareholder return was right below the minimum payout level as of September 30, 2012, which resulted in no payout under these awards.

Restricted Stock

The Committee believes restricted stock is a valuable tool that ties a portion of the executive's compensation to stock price appreciation, and the vesting period helps our company retain the executive. Because participants realize more value to the extent that the price of our Common Stock on the vesting date is higher, there is a link between executive decision making and shareholder value. The fact that the restricted stock has no value unless the participant remains employed until the vesting dates serves as a retention tool.

Table of Contents

Each restricted stock grant that the Committee made in fiscal 2012, other than the special award to Mr. Jones that vests on a cliff basis after three years, has a three-year vesting period with one-third vesting each year. To further support retention, for each restricted stock grant that the Committee made in fiscal 2012, the Committee continued to provide that the shares of restricted stock do not vest upon retirement.

Retirement Benefits

We have long offered a variety of plans that provide retirement benefits based on general competitive market trends. The retirement plans for the named executive officers include a 401(k) plan with company matching contributions which we offer to most employees. In addition, all of the named executive officers are eligible to participate in our qualified non-contributory defined benefit pension plan and a retiree health plan that provides coverage up to age 65 with certain qualifications, which we also offer to the salaried employees in our corporate office and Defense business segment. We also offer non-qualified supplemental executive retirement plans that are only available to executives on the recommendation of the Chief Executive Officer and with Committee approval. See "Pension Benefits" for more information regarding our supplemental executive retirement plans and our pension plan. In fiscal year 2012, the Committee approved significant changes to our defined benefit pension plan, retiree health plan, and supplemental executive retirement plan that directly and adversely affect the named executive officers. The primary objectives were to reduce the cash flow volatility associated with defined benefit plans and to reduce future expense obligations. The changes were as follows:

The qualified non-contributory defined benefit plans for office employees will be frozen, meaning that there will be no further benefit accruals under those plans after December 31, 2012.

The retiree health plan for office employees that provides coverage for employees retiring at age 55 or older will be eliminated effective December 31, 2012, except for existing eligible employees who are at least age 55 with at least five years of service by December 31, 2012. This group of "grandfathered" employees will have until December 31, 2013 to elect this benefit if they retire by this date. Mr. Szews is the only named executive officer eligible for this benefit, and he has no plans to retire.

The non-qualified defined benefit supplemental executive retirement plan, which covers the named executive officers, will be frozen, meaning that there will be no further benefit accruals under that plan after December 31, 2012.

To still provide a competitive retirement benefit based on input from Towers Watson, we added the following retirement benefit plans as replacements for the frozen qualified defined benefit and non-qualified supplemental retirement plans:

We will implement a qualified defined contribution retirement benefit plan effective January 1, 2013 under which we will contribute a percentage of base salary for each participant up to Internal Revenue Code limits for such plans (\$250,000 as of December 31, 2012) based on age. The contributions will vary by business segment and employee groups. For the named executive officers, the contributions will be as follows: under age 30, 3%; age 30 to 39, 4%; age 40 to 49, 5%; and age 50 and older, 6%.

Table of Contents

For the named executive officers and other executives currently eligible to participate in the frozen non-qualified defined benefit supplemental executive retirement plan, we will implement a non-qualified defined contribution supplemental executive retirement plan effective January 1, 2013 that provides a percentage of base salary and bonus based on age. The contributions are as follows: under age 45, 10%; age 45 to 50, 12.5%; and over age 50, 15%. No new participants will be added to this plan.

For new executive officers, we will implement a restoration, non-qualified defined contribution plan effective January 1, 2013 that provides a percentage of base salary and bonus above the Internal Revenue Code retirement plan limits that we use in the company's broad based defined contribution retirement plan. The contributions are as follows: under age 30, 3%; age 30 to 39, 4%; age 40 to 49, 5%; and age 50 and older, 6%.

The change to the non-qualified executive supplemental retirement plan represents an average reduction in benefits of approximately 30% for the named executive officers and other executives currently eligible to participate in the frozen non-qualified defined benefit supplemental executive retirement plan as a group, but a reduction of up to 55% for certain executives. The Committee made these decisions after reviewing an analysis by Towers Watson of trends relating to executive retirement plans that showed most companies with non-qualified defined benefit retirement plans were replacing them with non-qualified defined contribution retirement plans, existing participants in legacy plans typically received some level of grandfathered benefits, and new participants often receive restoration-type plans of the type that the Committee approved. We believe that these changes will better align our retirement benefit practices with shareholder interests while continuing to provide top executives a competitive level of retirement benefits.

Deferred Compensation

Our named executive officers are also eligible to participate in our Deferred Compensation Plan for Directors and Executive Officers, which is a non-qualified, unfunded retirement savings plan. This plan allows the deferral of base salary and annual cash incentive awards into either an investment program, which pays a guaranteed rate of return based on the prime interest rate plus 1%, or a share program, which mirrors the performance of our Common Stock during the relevant time period, including dividends. Executives may also defer restricted stock grants and performance shares under the Deferred Compensation Plan.

See "Nonqualified Deferred Compensation" for more information regarding our deferred compensation plans.

Certain Perquisites and Benefit Programs

During fiscal year 2012, we provided limited perquisites to certain executive officers. Mr. Szews' employment agreement requires him to have an annual physical examination at our expense, but Mr. Szews elected to personally pay for the cost of his annual physical in fiscal year 2012. In addition, our Board had approved Mr. Szews' service as a member of the board of directors of another company in recognition of the valuable professional development opportunities such service can provide Mr. Szews while serving as our Chief Executive Officer. During fiscal year 2012, Mr. Szews traveled to most of this

Table of Contents

board's meetings on our company aircraft to minimize travel time and to facilitate his service on that board.

We provided health and welfare benefit plans to all of our executives under the plans available to most of our employees. These included medical, dental, vision, life insurance, and short- and long-term disability coverage. All of our executives were eligible to receive an annual physical examination outside the normal health plan but none were reimbursed in fiscal year 2012. Mr. Szews and other executives utilize the normal health plan for routine annual physicals as needed. In addition, we made payments to Mr. Jones and Mr. Urias to reimburse them for taxes they incurred for relocation expenses in accordance with our relocation policies and on that additional payment. Finally, we made a payment to Mr. Urias to reimburse him for taxes he incurred for spousal travel in an instance in which it was appropriate to have his spouse travel with him for business-related reasons but the spousal travel was taxable under applicable tax rules and on that additional payment.

Executive Employment and Severance Agreements and Other Agreements

Employment Agreement

The only named executive officer with whom we currently have an employment agreement is Mr. Szews. The other named executive officers have a severance agreement (See "Severance Agreements") under which certain benefits would become payable to the executive in the event of a change in control of our company and subsequent termination of the executive's employment. Mr. Szews also has a change in control severance agreement, and his employment agreement does not provide for benefits payable to him in the event of a change in control of our company.

We first entered into an employment agreement with Mr. Szews in 2007. We subsequently entered into an amended and restated employment agreement with Mr. Szews in 2008 and again on April 26, 2011 in connection with his appointment to the position of Chief Executive Officer. We have an employment agreement with Mr. Szews because he holds a critical position that is highly visible to the investment community and other outside constituents. Our loss of Mr. Szews would result in concerns among external parties and could lead to an adverse impact on our share price. Therefore, we want to retain his services and have protection in the form of various restrictive and protective covenants, such as an agreement not to compete with us for a certain time should he decide to terminate his employment with us. The Committee believes that the terms of the amended and restated employment agreement that we entered into with Mr. Szews on April 26, 2011 are, in the aggregate, significantly more favorable to our company compared to those of our prior Chief Executive Officer's employment agreement.

The initial term of Mr. Szews' employment agreement expires on December 31, 2012. Following the expiration of the initial term, the term of the employment agreement will be automatically renewed and extended annually for periods of one year unless either party gives notice of nonrenewal. However, the term of the employment agreement will not be automatically renewed and extended beyond the date on which Mr. Szews attains age 62. The employment agreement provides that Mr. Szews is entitled to a base salary of a specified amount and the right to participate in all employee benefit plans offered to our other senior executives. If we terminate Mr. Szews' employment without cause or Mr. Szews terminates his employment for good reason, then, provided that Mr. Szews executes a release of claims against us, Mr. Szews will generally be entitled to receive, in lieu of base salary and bonus for the remaining term of the employment agreement, severance pay in an amount determined pursuant to the terms of the

Table of Contents

employment agreement. If Mr. Szews is entitled to severance pay, then, for no additional consideration, Mr. Szews is obligated to make himself available to consult with and otherwise assist or provide general advice to our then Chief Executive Officer and to our Board of Directors as and at such times as they may reasonably request during the two-year period after the date of termination of Mr. Szews' employment. See "Potential Payments upon Termination or Change in Control" for more information regarding Mr. Szews' employment agreement and potential amounts that we may pay to Mr. Szews under the employment agreement.

Severance Agreements

We have severance agreements with Messrs. Szews, Sagehorn, Jones, Blankfield and Urias that we intend to provide each of them with reasonable compensation if their employment is terminated in certain defined circumstances, primarily following a change in control of our company. We entered into these agreements to provide us with certain protections, specifically to retain key executives prior to or following a change in control and to ensure key executives keep in mind the best interests of shareholders when making decisions during a potential or actual change in control. The Committee administers the severance agreements and selects executive officers who are eligible for these agreements. In fiscal year 2009, the Committee determined that the company would not enter into any new severance agreement that provides for an Internal Revenue Code Section 280G tax gross up benefit. Although the Committee has since approved amendments to certain severance agreements that the company had entered into prior to the Committee's determination, the amendments that the Committee has approved with respect to those severance agreements that provide for a Section 280G tax gross up benefit have been only those necessary to cause such severance agreements to comply with Internal Revenue Code Section 409A.

Under the executive severance agreements, after a change in control of our company, if we terminate the executive's employment other than by reason of death, disability or for cause, then the executive is entitled to a cash termination payment of up to three times base salary and bonus (except for Messrs. Jones and Urias who are entitled to two times base salary and bonus) and other benefits, including additional retirement benefits (except for Messrs. Jones and Urias), outplacement services, legal services and continuation of welfare benefits for up to three years (except for Messrs. Jones and Urias, who are entitled to up to two years of continuation of welfare benefits). Each executive is also entitled to a cash termination payment and other benefits if the executive terminates his employment for good reason, as defined in the severance agreements, after a change in control. The agreements also provide for a tax gross-up payment to Mr. Szews, Mr. Sagehorn or Mr. Blankfield if any payments in connection with the change in control are subject to the 20% excise tax imposed by the Internal Revenue Code for "excess parachute payments." The form of agreement to which Messrs. Jones and Urias are a party provides that, to the extent that payments to any of those executives under his agreement would be considered "excess parachute payments," the payments will be reduced to a point at which they are no longer considered excess parachute payments, or the executive will receive the full payment and be personally liable for the excise tax, whichever produces the larger after-tax benefit to the executive. The Committee has approved severance agreements for other officers with terms that are not as favorable to those officers (among other things, by providing for a maximum of one times base salary and bonus for certain officers), and the Committee carefully selects the appropriate agreement for a given executive after considering market conditions and other relevant circumstances in each case.

Table of Contents

See "Potential Payments upon Termination or Change in Control" for more information regarding these severance agreements and potential amounts that we may pay under them to our named executive officers.

Executive Incentive Compensation Recoupment Policy

In September 2011, the Committee adopted the Oshkosh Corporation Executive Incentive Compensation Recoupment Policy, which is also known as a "clawback policy." The policy applies to all non-equity incentive compensation and equity awards granted on or after September 30, 2011, and has been communicated to "covered executives," including our named executive officers. Under the policy, if we are required to prepare an accounting restatement relating to our publicly-reported consolidated financial statements due to our material noncompliance with financial reporting requirements under U.S. federal securities laws, then we will have the right, to the extent permitted by governing law, to take appropriate action to recoup all or part of any incentive award that we actually paid to a covered executive if the amount of money or number of shares paid to the executive was expressly based on the achievement of financial results that were subject to the restatement and the executive would have been paid a lower amount or number under the express terms of the incentive award based on the financial results after the restatement. The amount of non-equity incentive compensation to be recovered will be the excess of the amount actually paid to the covered executive, calculated on the basis of the financial results before the restatement, over the amount that would have been paid had the amount been calculated on the basis of the financial results giving effect to the restatement. The amount of any equity award to be recovered will be the excess of the number of shares of our Common Stock (or equivalent value) actually paid to the covered executive, calculated on the basis of the financial results before the restatement, over the number of shares (or equivalent value) that would have been paid had the number been calculated on the basis of the financial results giving effect to the restatement.

Stock Ownership Guidelines for Executive Officers

The Committee has adopted executive officer stock ownership guidelines that apply to executive officers to align these individuals' interests with those of shareholders with respect to improving our stock performance in the long term. The Committee last changed these guidelines on February 4, 2008 to increase stock ownership levels to the following levels:

Chief Executive Officer	Five Times Annual Base Salary
Chief Operating Officer	Four Times Annual Base Salary
Chief Financial Officer	Four Times Annual Base Salary
Executive Vice Presidents	Three Times Annual Base Salary

These guidelines set forth the Committee's recommendation that each named executive officer achieve the level of stock ownership set forth in these guidelines within five years of commencement of employment or promotion. Stock ownership includes stock that is not restricted in any way and the value of exercisable stock options for which the exercise price is less than the current market value of a share of our Common Stock, based upon the market price of our Common Stock, the exercise price and taxes that the officer would pay on exercise. An executive who does not meet the guidelines within the requisite timeframe will not receive approval to sell shares or to exercise options unless such executive reinvests the net proceeds in shares during any of our trading windows until he satisfies that stock

Table of Contents

ownership level. As of November 13, 2012, Mr. Szews and Mr. Blankfield exceeded the stock ownership levels in these guidelines. Mr. Jones and Mr. Urias have not been in their current positions for five years.

Tax Treatment of Compensation

Section 162(m) of the Internal Revenue Code limits our income tax deduction for compensation paid in any taxable year to certain executive officers that exceeds \$1,000,000 unless such compensation falls within certain exceptions. It is the policy of the Committee that we should use our best efforts to cause any compensation paid to executive officers in excess of this dollar limit to qualify for such exceptions and thereby continue to be deductible by us. In particular, we designed the 2009 Incentive Stock and Awards Plan to permit awards made under it to qualify for the Code's exception for "performance-based compensation." The Committee views the tax deductibility of executive compensation as one of the many factors to be considered in the context of its overall compensation objectives.

Conclusion

We believe our executive compensation programs position us to effectively compete when recruiting, selecting, and seeking to retain key executives. The Committee believes that executive retention is even more critical to keep this high-performing team in place to implement our MOVE strategy over the next three years, particularly as alternative employment opportunities become more frequently available and our executives continue to be a prime target of certain executive search firms. We further believe that our recent promotional, retention-based and equity-based incentives will focus the interests of our executives to achieve our MOVE financial targets that we believe are in the best interests of our shareholders. We believe that these incentives will continue to retain and motivate our executives to create long-term shareholder value. In developing compensation plans for fiscal year 2013, the Committee considered the positive "say on pay" vote of our shareholders at our 2012 Annual Meeting of Shareholders. As a result and as we described in this Compensation Discussion and Analysis, the Committee kept in place for fiscal year 2013 many of the same executive compensation program components that it had disclosed to shareholders in our proxy statement for the 2012 Annual Meeting of Shareholders. However, the Committee did make certain changes to our executive compensation program for and during fiscal year 2012, such as the change to the mix among stock options, restricted stock and performance shares that we awarded to our executive officers in fiscal year 2012 and the changes we made to our executive retirement plans, in each case as described in this Compensation Discussion and Analysis, that the Committee believes better align the interests of our executive officers with those of our shareholders and better incentivize our executive officers to successfully execute our important MOVE strategy.

Relation of Our Compensation Policies and Procedures to Risk Management

Our senior management conducted a comprehensive risk assessment of our compensation programs. Senior management considered each of our material compensation programs and evaluated the levels of risk-taking that each of those programs could potentially encourage. Management then presented this risk assessment to the Committee, which independently reviewed and evaluated the risk

Table of Contents

assessment. In conducting its review of management's risk assessment, the Committee considered in particular the following attributes and risk-mitigation features of our compensation programs:

the use of comparative short-term and long-term compensation data from a preselected group of comparable companies to determine appropriate compensation benchmarks for our employees;

the Committee's independent oversight and administration of many of our compensation programs;

multiple corporate departments, including our Human Resources, Finance and Legal Departments, conducted internal reviews of our compensation programs;

the Committee sets the awards following receipt of advice and industry benchmarking from Towers Watson, a nationally recognized compensation consultant;

we have established maximum short-term and long-term compensation payouts for performance-based components of our compensation programs;

our compensation programs maintain an appropriate balance between short-term and long-term incentive awards so that our employees have an incentive to enhance earnings, reduce debt and grow our business while ensuring that employees' interests are aligned with those of our shareholders;

we determine compensation awards based on the satisfaction of clearly defined criteria that the Committee established based on its independent review and analysis of our financial performance goals and comparisons with other relevant companies;

we have specifically designed our compensation programs to reflect our compensation philosophy of incentivizing employees to perform with shareholders' interests in mind, building a successful senior leadership team, retaining key employees, motivating our senior leaders to perform at their highest levels and balancing incentives for short-term results with long-term company performance;

we limit the authority of senior management to enter into certain transactions that are inherently risky without Board approval, including certain hedging and foreign currency transactions over prescribed levels, acquisitions and divestitures and certain tax transactions, among others;

we do not issue "mega grants" to any employees, we do not allow equity grant re-pricing and we limit annual awards within industry benchmarks;

the shareholders approved the compensation of our named executive officers on an advisory basis in January 2012, and we have not materially changed or altered our programs since that time; and

the Oshkosh Corporation Executive Incentive Compensation Recoupment Policy provides us the right to recoup all or part of any incentive award actually paid to a covered executive if we are required to prepare an accounting restatement relating to our publicly-reported consolidated financial statements.

As a result of the review of management's risk assessment that we describe above, the Committee determined that our compensation programs effectively create a proper balance between

Table of Contents

appropriate risk-taking and competitive compensation. Based on the Committee's determination, we believe our compensation programs do not create risks that are reasonably likely to have a material adverse effect on our company.

Summary Compensation Table

The table below summarizes for our last three fiscal years the compensation paid to or earned by our Chief Executive Officer, our Chief Financial Officer and our next three highest paid executive officers. We refer to such individuals in this Proxy Statement as our named executive officers. As we discuss more fully in the notes to the table, we calculated amounts for equity awards based on SEC rules. Therefore, the amounts shown are not necessarily actual amounts we paid to these officers or that these officers will receive in the future. We are not including information for Mr. Blankfield for fiscal 2010 because Mr. Blankfield did not become a named executive officer until fiscal 2011. We are not including information for Mr. Urias for prior years because Mr. Urias did not become our employee until fiscal 2012.

Name and Principal Position	Fiscal Year	Salary (\$)	Bonus (\$)(1)	Stock Awards (\$)(2)(3)	Option Awards (\$)(2)	Change in Pension Value and Non-Equity Non-Qualified Incentive Plan Compensation			Total (\$)(3)
						Deferred Compensation (\$)(4)	Earnings Compensation (\$)(5)	All Other Compensation (\$)(3)	
Charles L. Szews, Chief Executive Officer	2012	1,000,002				1,344,403	1,388,574	3,881	3,736,860
	2011	983,037				960,126	1,013,334	5,536	2,962,033
	2010	684,950				1,095,920	437,290	14,117	2,232,277
David M. Sagehorn, Executive Vice President and Chief Financial Officer	2012	573,259		1,620,000	728,100	463,031	367,032	6,933	3,758,355
	2011	561,155		1,152,875	646,365	326,797	211,237	8,299	2,906,728

Wilson R. Jones, President and Chief Operating Officer	2012	460,994		2,159,160	760,460	383,097	58,729	18,494	3,840,934
	2011	438,078	277,808	659,450	367,850	361,681	37,894	7,393	2,150,154
	2010	355,385	112,192	838,875	622,399	330,712	35,326	81,625	2,376,514
Bryan J. Blankfield, Executive Vice President, General Counsel and Secretary	2012	445,559		712,800	323,600	359,886	378,222	7,500	2,227,567
	2011	438,648		555,490	310,045	253,999	300,880	9,029	1,868,091

Edgar Filing: OSHKOSH CORP - Form DEF 14A

John M. Urias, Executive Vice President, President, Defense	2012	395,577	204,250	1,056,800	512,200	418,044	285,824	2,872,695
---	------	---------	---------	-----------	---------	---------	---------	-----------

(1) Messrs. Jones and Urias received bonuses of \$390,000 and \$215,000 on June 18, 2010 and October 21, 2011, respectively, in connection with their appointments as Executive Vice President and President of the Access Equipment segment and the Defense segment, respectively. Each executive effectively earned his bonus pro rata over a twelve month retention period. For Mr. Jones, the table reflects \$112,192 of such bonus in fiscal 2010 and \$277,808 in fiscal 2011. For Mr. Urias, the table reflects \$204,250 of such bonus in fiscal 2012, and we will reflect the remainder of his bonus in his compensation for fiscal 2013.

(2) As applicable SEC rules require, amounts in this column are based on the aggregate grant date fair value of awards to our named executive officers under our 2004 Incentive Stock and Awards Plan and our 2009 Incentive Stock and Awards Plan rather than actual amounts we paid to these officers or amounts that the officers actually realized or will realize as a result of these awards. We

Table of Contents

computed the aggregate grant date fair value of these awards in accordance with Fair Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 718, *Stock Compensation*, which we refer to as FASB ASC Topic 718, except that, in compliance with SEC requirements, for awards that are subject to performance conditions, we reported the value at the grant date based upon the probable outcome of such conditions. We based the fair value of stock awards on the market price of the shares awarded on the date of grant (which considers the value of dividends that the holder of restricted shares is entitled to receive). We calculated the fair values of option awards using a Black-Scholes valuation model. Note 17 to our audited consolidated financial statements for the fiscal year ended September 30, 2012, which we included in our Annual Report on Form 10-K that we filed with the SEC on November 19, 2012, includes assumptions that we used in the calculation of these amounts. In fiscal 2012, we granted performance shares to certain of our named executive officers that vest at the end of the third fiscal year following the grant date. Our named executive officers earn shares under performance awards only if our total shareholder return over the three year performance period compares favorably to that of a comparator group of companies. Potential payouts range from 0% to 200% of the target values for these awards. Where amounts in this column include these performance share awards, the amounts in the table assume achievement of the target level of performance (100% payout) for such awards. Assuming performance at the highest level, the aggregate grant date values of the stock awards for each of our named executive officers that received such awards during fiscal 2012 were as follows: (i) for Mr. Sagehorn, \$2,172,000; (ii) for Mr. Jones, \$2,733,240; (iii) for Mr. Blankfield, \$955,680; and (iv) for Mr. Urias, \$1,299,680.

(3) The Summary Compensation Table in our Proxy Statements for our 2011 and 2012 Annual Meeting of Shareholders contained incorrect grant date values relating to awards of performance shares due to errors in calculation by our third party provider. The Summary Compensation Table above includes the corrected values. The correction of previously reported amounts resulted in an increase in the reported values as compared to previously reported amounts for "Stock Awards" and "Total" amounts as follows: Mr. Sagehorn: 2010 \$381,080 and 2011 \$499,950; Mr. Jones: 2010 \$272,200 and 2011 \$272,200; Mr. Blankfield: 2011 \$236,340.

(4) The amounts in this column reflect the actuarial increase from the prior year in the present value of the named executive officer's benefits under our applicable retirement plans that apply determined using the assumptions set forth in footnote (2) to the Pension Benefits Table below. As we discuss more fully elsewhere, we took action in fiscal year 2012, applicable to many salaried employees, to freeze benefits under both our qualified and non-qualified defined benefit plans effective December 31, 2012 and in the future will be providing benefits to impacted employees under new, qualified and non-qualified defined contribution plans.

(5) We paid relocation-related costs for Mr. Jones and Mr. Urias in connection with Mr. Jones' promotion to the position of President and Chief Operating Officer in August 2012 and the hiring of Mr. Urias in October 2011.

Table of Contents**Grants of Plan Based Awards**

The table below sets forth information regarding all incentive plan awards that we granted to our named executive officers in fiscal 2012 under our 2009 Incentive Stock and Awards Plan.

Name	Grant Date	Estimated Future Payouts Under Non-Equity Incentive Plan Awards(1)			Estimated Future Payouts Under Equity Incentive Plan Awards(2)			All Other Stock Awards: Other Number of Shares of Stock or Underlying Securities of Awards or Exercise Base Price of Option Awards				Grant Date Fair Value of Stock and Option Awards (\$)(3)

Edgar Filing: OSHKOSH CORP - Form DEF 14A

(1) The amounts shown represent the threshold, target and maximum awards that each of our named executive officers could have earned under our annual cash incentive plan for fiscal year 2012 as we describe more fully under "Compensation Discussion and Analysis Annual Cash Incentive Awards." We include the amount of the annual cash incentive plan award that each of our named executive officers earned for fiscal year 2012 under these awards based on our actual performance for fiscal year 2012 in the "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table on page 77.

(2) The amounts shown represent the threshold, target and maximum amounts of performance share awards that we awarded in fiscal year 2012 to the named executive officers under our 2009 Incentive Stock and Awards Plan as we describe more fully under "Compensation Discussion and Analysis Equity Based Long-Term Incentive Awards Performance Share Awards." The threshold amount is total shareholder return at or above the 40th percentile as compared to total shareholder return of the group of companies comprising the Standard & Poor's MidCap 400 Index over a three year performance period. Payments are prorated for performance between the 40th and 80th percentiles. We pay the awards that executives earn in shares of our Common Stock on a one-for-one basis and include credit for any dividends our Board approves during the performance period. However, we do not pay dividends or dividend equivalents with respect to unearned performance share awards.

(3) The dollar amount shown reflects the grant date fair value of the stock options that we granted in fiscal year 2012 calculated in accordance with FASB ASC Topic 718. Performance share awards are reflected at the target payout level, which is based on the probable outcome of the actual performance. If performance share awards were reflected at maximum payout levels, the totals in this column would be \$2,900,100 for Mr. Sagehorn, \$3,048,300 for Mr. Jones, \$1,279,280 for Mr. Blankfield and \$1,279,280 for Mr. Urias.

Table of Contents**Outstanding Equity Awards at September 30, 2012**

	10/06/14	6,667
	09/17/15	3,667

(4) We used the closing price of our Common Stock of \$27.43 on September 30, 2012 to calculate the value of unvested shares.

Table of Contents

(5) The vesting dates for all performance shares that our named executive officers held at September 30, 2012 are as follows:

Name	Vesting Date of Performance Shares		
	9/30/13	9/30/14	9/30/15
Charles L. Szews			
David M. Sagehorn	14,000	27,500	25,000
Wilson R. Jones	10,000	15,000	26,000
Bryan J. Blankfield	7,000	13,000	11,000
John M. Urias		9,500	11,000

(6) The number and value of performance shares reflected in the above table assume performance at target level.

Option Exercises and Stock Vested Table

The table below shows a summary of the stock options that our named executive officers exercised during fiscal year 2012 and restricted stock awards that vested for the named executive officers during fiscal year 2012.

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting \$(1)
Charles L. Szews				
David M. Sagehorn			13,333	381,324
Wilson R. Jones			8,333	208,613
Bryan J. Blankfield			3,333	96,390
John M. Urias				

(1) Reflects the amount calculated by multiplying the number of shares of restricted stock and performance shares vested by the market price of our Common Stock on the vesting date.

Pension Benefits

The table below sets forth the number of years of credited service and the present value of accumulated benefits and payments during fiscal year 2012 for (i) each of the named executive officers

Table of Contents

under the Oshkosh Corporation Retirement Plan and the Oshkosh Corporation Executive Retirement Plan.

Name	Plan Name	Number of Years of Credited Service (#) (1)	Present Value of Accumulated Benefit (\$ (2)	Payments During Last Fiscal Year (\$)
Charles L. Szews	Retirement Plan	17	522,635	
	Executive Retirement Plan	16	4,108,963	
David M. Sagehorn	Retirement Plan	13	304,961	
	Executive Retirement Plan	8	493,437	
Wilson R. Jones	Retirement Plan	8	203,427	
	Executive Retirement Plan	4		
Bryan J. Blankfield	Retirement Plan	11	281,196	
	Executive Retirement Plan	10	788,753	
John M. Urias	Retirement Plan	2		
	Executive Retirement Plan	0		

(1) Years of credited service under the Retirement Plan are based on the executive working one thousand hours during the plan year (*i.e.*, March 1 – February 28); however, years of credited service under the Executive Retirement Plan are based on completed years and months of employment with us, and vesting under the Executive Retirement Plan is based on completed years of employment as an executive officer.

(2) The actuarial values of the accumulated plan benefits for the Retirement Plan and the Executive Retirement Plan were calculated using the unit credit valuation method and the following assumptions, among others: that the participants retire at their first unreduced retirement age of 62; that the benefit calculation date is September 30, 2012, consistent with our accounting measurement date for financial statement reporting purposes; that the discount rate is 4.25%; that the post-retirement mortality assumption is based on the RP-2000 table and a 12-year projection; that final average pay is based on the current average pay without projection; that the form of payment is a single life annuity; and that the Retirement Plan benefit accrues ratably over the greater of 30 years or the participant's projected years of service at age 65 and the Executive Retirement Plan benefit accrues ratably over the first 20 years from the date of hire and becomes vested 20% per year from years 5 to 10 from the date the employee became an officer.

Oshkosh Corporation Retirement Plan Under the Retirement Plan, a salaried employee is entitled to receive upon retirement at age 65 a monthly benefit equal to 50% of average monthly compensation less 45% of the primary social security benefit payable at age 65, reduced by 1/30th for each benefit accrual year of service less than 30, or certain actuarially equivalent benefits. Average monthly compensation is based on the average of the five highest consecutive years of earnings (excluding bonuses and subject to a maximum amount of compensation as established pursuant to IRS regulations) prior to the participant's normal retirement age or other date of termination. One thousand hours constitute a year of service. As of March 1, 1994, IRS regulations lowered the maximum amount of compensation allowed to be included in benefit calculations from \$235,840 to \$150,000. This amount was increased to \$160,000 as of March 1, 1997, \$170,000 as of January 1, 2000, \$200,000 as of January 1, 2002, \$205,000 as of January 1, 2004, \$210,000 as of January 1, 2005, \$220,000 as of January 1, 2006, \$225,000 as of

Edgar Filing: OSHKOSH CORP - Form DEF 14A

January 1, 2007, \$230,000 as of January 1, 2008, \$245,000 as of January 1, 2009 and \$250,000 as of January 1, 2012. Accrued benefits calculated as of February 28, 1994 at the higher limit have been grandfathered. An employee who has reached the age of 55 with a minimum of five years of service may retire and begin to receive the actuarial equivalent of his or her pension benefits. The pension benefits payable to an employee who retires at age 55 with a minimum of

Table of Contents

five years of service are equal to 50% of the pension benefits that would have been payable to such employee had he or she continued his or her employment with us until he or she reached age 65. The percentage increases for each year of continued service with us between the date on which the employee reaches age 55 and the date on which the employee reaches age 65. The spouse of an employee who would have been eligible for early retirement at death is entitled to a monthly benefit equivalent to 50% of the amount of the life annuity which would have been payable to a participant as of the participant's normal retirement age. Compensation that the Retirement Plan covers for the named executive officers generally corresponds with the base salary for each such individual, subject to the annual maximum. As we discuss more fully elsewhere, we took action in fiscal year 2012 to freeze benefits under the Retirement Plan effective December 31, 2012 and in the future will be providing benefits to impacted employees under a new, qualified defined contribution plan.

Oshkosh Corporation Executive Retirement Plan Under the Executive Retirement Plan, certain of our officers, including the named executive officers, are entitled to receive upon retirement a monthly benefit equal to 24% of their average monthly compensation at age 55 increasing to 40% of average monthly compensation at age 62, prorated if the executive has less than 20 years of service at retirement. This amount is reduced by the amount of any pension payable by us under the Retirement Plan, the annuity value of the executive's 401(k) plan match and 50% of the executive's social security benefit. Average monthly compensation is based on the average of the executive's compensation for the highest five years of pay in the last ten years of credited service with the highest five not required to be consecutive. Beginning October 1, 2004, the final average monthly compensation includes base and bonus pay. The executive's spouse is entitled to receive 50% of the Executive Retirement Plan benefit that would have been payable in the event of the executive's death. Compensation that the Executive Retirement Plan covers generally corresponds with base salary and earned bonus compensation. As we discuss more fully elsewhere, we took action in fiscal year 2012 to freeze benefits under the Executive Retirement Plan effective December 31, 2012 and in the future will be providing benefits to impacted employees under a new, non-qualified defined contribution plans.

Table of Contents**Non-Qualified Deferred Compensation**

Oshkosh Corporation Deferred Compensation Plan for Directors and Executive Officers The following table sets forth certain information with respect to amounts earned during fiscal 2012 under the Oshkosh Corporation Deferred Compensation Plan for Directors and Executive Officers, or the Deferred Compensation Plan. Our named executive officers, other than Mr. Blankfield, have not elected to participate in the Deferred Compensation Plan, and none of our named executive officers made any contributions to the Deferred Compensation Plan during fiscal year 2012.

Name	Executive Contributions	Registrant Contributions	Aggregate Earnings	Aggregate Withdrawals/ Distributions	Aggregate Balance

Charles L. Szews					
David M. Sagehorn					
Wilson R. Jones					
Bryan J. Blankfield			11,846		27,796
John M. Urias					

(1) Mr. Blankfield's Deferred Compensation Plan account is comprised entirely of units the value of which is equal to the value of shares of our Common Stock. The aggregate earnings reported in the table above reflect the increase in the price per share of our Common Stock from October 1, 2011 to September 30, 2012 and are not reported as compensation in fiscal year 2012 in the Summary Compensation Table.

(2) Includes the amount of employee contributions that would have been reported as compensation to the named executive officer in the Summary Compensation Table for the year in which such amount was earned and deferred if the officer had been a named executive officer in such year.

Under the Deferred Compensation Plan, each participating named executive officer may defer up to 65% of the executive officer's base salary for the plan year, up to 85% of the executive officer's annual incentive compensation payable in the plan year for services and performance during the preceding plan year, and up to 100% of any share-based long-term incentives.

An executive participating in the Deferred Compensation Plan may elect to have his deferrals credited to a fixed-income investment account or in a stock account. Deferrals credited to a fixed-income investment account earn interest at the prime rate as published in *The Wall Street Journal* on the last business day of the immediately preceding plan year quarter, plus 1%. Deferrals credited to a stock account are treated as though invested in our Common Stock. Any dividends earned on our Common Stock are reinvested in each executive's stock account.

Edgar Filing: OSHKOSH CORP - Form DEF 14A

Payments from the Deferred Compensation Plan may be made in a lump sum or in annual installments for up to ten years at the election of the executive. Payments generally initiate upon the executive's separation from service with us. However, in the event of a change in control of our company, as defined in the Deferred Compensation Plan, we will pay out the accounts of all executives in a single lump sum cash payment.

Table of Contents**Potential Payments Upon Termination Or Change In Control**

The following tables disclose potential payments and benefits under our compensation and benefit plans and arrangements to which our named executive officers would be entitled to upon a termination of employment or a change in control of our company. We list the estimated amount of compensation payable to each of our named executive officers in each situation in the tables below assuming that the termination and/or change in control of our company occurred at September 30, 2012 and that our Common Stock had a value per share of \$27.43, which was the closing market price for our Common Stock on September 30, 2012. The actual amount of payments and benefits can only be determined at the time of such a termination or change in control, and therefore the actual amounts would vary from the estimated amounts in the tables below. Descriptions of the circumstances that would trigger payments or benefits to our named executive officers, how such payments and benefits are determined under the circumstances, material conditions and obligations applicable to the receipt of payments or benefits and other material factors regarding such agreements and plans, as well as other material assumptions that we have made in calculating the estimated compensation, follow these tables. However, refer to the Pension Benefits table above for the present value of amounts that our named executive officers would receive upon retirement absent a change in control of our company.

Key Executive Employment and Severance Agreements We currently have in effect Key Executive Employment and Severance Agreements, or KEESAs, with our executive officers, including each of our named executive officers. Under the KEESAs, after a change in control of our company, if we terminate the executive's employment other than by reason of death, disability or for cause, then the executive is entitled to a cash termination payment and other benefits. The executive is also entitled to a cash termination payment and other benefits if, after the change in control of our company, the executive

Table of Contents

terminates his employment for good reason. The termination payment will be equal to the sum of the executive's annual salary in effect at the change in control (or any subsequent higher salary) plus the highest annual bonus award paid during the three years before the change in control, multiplied by the number of years remaining in the employment period (up to three but not less than one for Messrs. Szews, Sagehorn and Blankfield, and up to two, but not less than one, for Messrs. Jones and Urias). The amounts in the tables assume the maximum three years, for Messrs. Szews, Sagehorn and Blankfield, or two years, for Messrs. Jones and Urias, remaining in the employment period. If Mr. Szews, Mr. Sagehorn or Mr. Blankfield is entitled to a cash termination payment, then the executive also is entitled to (i) additional retirement benefits equal to the difference between the amount he would actually be entitled to receive on retirement and the amount to which he would have been entitled to receive had he continued to work until the earlier of age 65 or the number of years remaining in the employment period (up to three) and (ii) the difference between the unreduced social security benefit payable to the executive if his employment continued until his unreduced social security age and the actual social security benefit payable to the executive at the end of the employment period. This payment ceases at the executive's unreduced social security age. In addition, the KEESAs provide for outplacement services and continuation of life and disability insurance for up to three years, for Messrs. Szews, Sagehorn and Blankfield, or two years, for Messrs. Jones and Urias, hospitalization, medical and dental coverage and other welfare benefits as in effect at the termination. The KEESAs for Messrs. Szews, Sagehorn and Blankfield provide that if the payments under the agreement are an "excess parachute payment" for purposes of the Internal Revenue Code, then we will pay the executive the amount necessary to offset the 20% excise tax that the Internal Revenue Code imposes and any additional taxes on this payment. To the extent that payments to Messrs. Jones and Urias under their agreements would be considered "excess parachute payments," the payments will be reduced to a point at which they are no longer considered excess parachute payments, or the executive will receive the full payment and be personally liable for the excise tax, whichever produces the larger after-tax benefit to him. In fiscal 2008, we revised the terms of the KEESAs with the purpose of ensuring that payments under the agreement are not "income includible under Section 409A" for purposes of the Internal Revenue Code. However, if for some reason payments under the agreement are nonetheless "income includible under Section 409A," then we can be obligated to pay the executive the 20% additional income tax that Internal Revenue Code Section 409A imposes and interest and any additional taxes on this payment.

In consideration of the KEESA benefits, each executive officer party to a KEESA agrees not to compete with us for a period of 18 months after the executive officer leaves us and to keep in confidence any proprietary information or confidential information for a period of 18 months after the executive officer leaves us. Our Board of Directors can waive both of these conditions.

Under the KEESAs, there is a "change in control" if:

any person is or becomes the beneficial owner of securities representing 25% or more of our outstanding Common Stock;

there is a change in the composition of our Board of Directors that at least two-thirds of the existing directors have not approved;

a merger, consolidation or share exchange with any other corporation (or the issuance of voting securities in connection with a merger, consolidation or share exchange) is consummated in which our shareholders control less than 50% of combined voting power after the merger, consolidation or share exchange; or

Table of Contents

our shareholders approve a plan of complete liquidation or dissolution or a sale or disposition by us of all or substantially all of our assets is consummated.

Under the KEESAs, the term "cause" generally means:

committing any act of fraud, embezzlement or theft in connection with the executive's duties as an executive officer;

continuing, willful and unreasonable refusal by an executive to perform duties or responsibilities;

willfully engaging in illegal conduct or gross misconduct that causes us demonstrable and serious financial injury;

willfully disclosing our trade secrets or confidential information; or

engaging in competition with us that our Board of Directors determines to be materially harmful to us.

Under the KEESAs, the term "good reason" generally means:

a breach of the agreement by us;

any reduction in an executive's base salary, percentage of base salary available as incentive compensation or bonus opportunity or benefits;

a material adverse change in the executive's working conditions or status with us from such working conditions or status in effect during the 180-day period prior to the change in control, including but not limited to a significant change in the nature or scope of his authority, powers, functions, duties or responsibilities or a significant reduction in the level of support services, staff, secretarial and other assistance, office space and accoutrements, but in each case excluding for this purpose an isolated, insubstantial and inadvertent event not occurring in bad faith that we remedy promptly after receipt of notice thereof;

relocation of the executive's principal place of employment to a location more than 50 miles from the executive's principal place of employment during the 180-day period prior to the change in control;

Edgar Filing: OSHKOSH CORP - Form DEF 14A

we require the executive to travel on business to a materially greater extent than was required during the 180-day period prior to the change in control;

our failure to cause a successor to assume an executive's agreement; or

we terminate the executive's employment after a change in control without delivering proper notice of termination.

Stock Option Agreements We have granted stock option awards to our named executive officers under the Oshkosh Corporation 1990 Incentive Stock Plan, the Oshkosh Corporation 2004 Incentive Stock and Awards Plan, and the Oshkosh Corporation 2009 Incentive Stock and Awards Plan. Each plan contains provisions that apply upon a termination of an executive or a change in control of our company.

Table of Contents

Oshkosh Corporation 1990 Incentive Stock Plan

Under this plan and the related award agreements, if the executive's employment terminates by reason of the executive's death, disability or retirement, then the option award will become fully vested and will remain exercisable by the executive or his beneficiary for a period of one year after the date of the executive's death or disability or three months after the date of the executive's retirement. If we cease to employ the executive for any reason other than death, disability or retirement, then that portion of the option award that is exercisable on the date of the executive's termination of employment will remain exercisable for a period of three months after such date and the remaining portion of the option award will automatically expire on such date. Effective upon a change in control of our company, the option award will fully vest and will immediately become exercisable. "Change in control" in this plan is defined in the same manner as under the KEESAs.

Oshkosh Corporation 2004 Incentive Stock and Awards Plan

Under this plan and the related award agreements, if the executive's employment terminates by reason of the executive's death, disability or retirement, then the option award will become fully vested and will remain exercisable by the executive or his beneficiary for a period of one year after the date of the executive's death or disability or one to three years after the date of the executive's retirement. Effective upon a change in control of our company, the option award will fully vest and will immediately become exercisable, and the executive holding the option award will have the right to receive, in exchange for surrender of each option, an amount of cash equal to the excess, if any, of the fair market value of a share of our Common Stock as determined on the date of exercise over the exercise price of the option. "Change in control" in this plan is defined in the same manner as under the KEESAs.

Oshkosh Corporation 2009 Incentive Stock and Awards Plan

Under this plan and the related award agreements, if the executive's employment terminates by reason of the executive's death, disability or retirement, then the option award will become fully vested and will remain exercisable by the executive or his beneficiary for a period of one year after the date of the executive's death or disability or three years after the date of the executive's retirement. Effective upon a change in control of our company, the option award will fully vest and will immediately become exercisable, and the executive holding the option award will have the right to receive, in exchange for surrender of each option, an amount of cash equal to the excess, if any, of the fair market value of a share of our Common Stock as determined on the date of exercise over the exercise price of the option as stated on the date the option was awarded. "Change in control" in this plan is defined in the same manner as under the KEESAs.

The amounts in the tables above include the value attributable to unvested stock options that our named executive officers held valued at the amount by which the closing price of our Common Stock on September 30, 2012 exceeds the exercise price of the unvested options.

Performance Share Awards We have granted performance share awards to our named executive officers under the Oshkosh Corporation 2004 Incentive Stock and Awards Plan and the Oshkosh Corporation 2009 Incentive Stock and Awards Plan. Under these plans and the related award terms, if the executive's employment terminates by reason of the executive's death, disability or retirement after the tenth trading day of the performance period in respect of an award, then the

Table of Contents

executive will receive a proportionate number of the shares of our Common Stock that the executive would have received had the performance period ended on the date of termination based on the number of days that have elapsed in the performance period prior to the date of termination. If we cease to employ the executive for any reason other than death, disability or retirement, then the executive will forfeit any rights with respect to an award of performance shares. Pursuant to the award terms, effective upon a change in control of our company that occurs during the performance period in respect of an award, the executive will be fully vested in the number of shares of our Common Stock calculated as if the performance period ended on the date of the change in control. The tables above do not reflect any amounts relating to performance share awards that we granted in fiscal year 2010 because the total shareholder return under these awards calculated as of September 30, 2012 was below the threshold. The amounts reflected in the tables above relating to performance share awards that we granted in fiscal year 2011 reflect a payment amount equal to 200% of the target performance share awards based on our achievement of total shareholder return at the maximum performance level under these awards calculated as of September 30, 2012. Amounts are not shown for performance awards that we granted in fiscal year 2012 because the performance period for those awards does not begin to run until the beginning of fiscal year 2013.

Restricted Stock We have granted restricted stock awards to our named executive officers under the Oshkosh Corporation 2009 Incentive Stock and Awards Plan. Under this plan and the related award agreements, if the executive's employment terminates by reason of the executive's death, disability or, for awards granted prior to September 2011, retirement, then any shares of restricted stock that are not vested will become fully vested at the time the executive's employment is terminated as a result of death, disability or retirement. For awards granted in September 2011 and thereafter, restricted stock does not fully vest at the time the executive's employment is terminated as a result of retirement. No named executive officer was eligible for retirement for purposes of these awards at September 30, 2012. If we cease to employ the executive for any reason other than death, disability or, in certain cases, retirement, then any shares of restricted stock held by the executive that are not vested on the date of such termination will be immediately forfeited. Effective upon a change in control of our company, any shares of restricted stock that have not vested will vest and the executive will have the right to receive, in exchange for surrender of such shares of restricted stock, an amount of cash equal to the greater of (i) the fair market value of a share of our stock as determined on the date of the change in control, (ii) the highest per share price paid in the change in control transaction or (iii) the fair market value of a share calculated on the date of surrender.

Oshkosh Corporation Executive Retirement Plan Upon a change in control of our company, executives participating in our Executive Retirement Plan are credited with up to an additional three years of service (except for Messers. Jones and Urias) and this benefit is vested without regard to the normal vesting schedule under the plan. Furthermore, if we terminate the executive's employment for any reason following the change in control, the executive will be entitled to receive a single lump sum cash payment equal to the present value (as determined under the Executive Retirement Plan) of the executive's earned and vested benefits under the Executive Retirement Plan through December 31, 2004, within 60 days after the termination of the executive's employment. "Change in control" is defined in the same manner as under the KEESAs for this purpose. The executive will also be entitled to receive a single lump sum cash payment equal to the present value (as determined under the Executive Retirement Plan) of the executive's earned and vested benefits under the Executive Retirement Plan for the period commencing January 1, 2005, within 60 days of the change in control. "Change in control" has a specified meaning for this purpose as defined in the Executive Retirement Plan.

Table of Contents

Annual Cash Incentive Awards Under the Oshkosh Corporation 2004 Incentive Stock and Awards Plan and the Oshkosh Corporation 2009 Incentive Stock and Awards Plan, upon a change in control of our company, for any annual cash incentive award that a named executive officer has not earned by the time of the change in control, the named executive officer is entitled to receive a proportionate amount of the executive's annual cash incentive target award opportunity, based on the number of whole months that have elapsed in the fiscal year prior to the change in control. For each named executive officer, the amounts we disclose as "Unearned Annual Cash Incentive Awards" in the tables above assume that the change in control occurred prior to the end of the fiscal year and, therefore, the named executive officers did not yet earn their annual cash incentive awards, but the amounts do reflect the full target award opportunity for such executive for fiscal 2012 rather than only a proportionate amount. The Summary Compensation Table reflects the actual amount of the annual cash incentive award that each named executive officer earned for fiscal 2012. A named executive officer would not be entitled to receive both the amount in the tables above and the amount in the Summary Compensation Table.

For purposes of determining the amount of any excise tax that the Internal Revenue Code may impose as a result of our payment of an executive's annual cash incentive target award opportunity upon a change in control of our company (and to enable us to estimate any excise tax gross-up payment that we would have to pay to Mr. Szews, Mr. Sagehorn or Mr. Blankfield), we assume that the executive has earned the entire amount of the award as of September 30, 2012, the assumed date of the change in control.

Deferred Compensation Plans A termination of an executive officer or a change in control of our company would not impact the amounts payable to our named executive officers under the Oshkosh Corporation Deferred Compensation Plan for Directors and Executive Officers.

Executive Employment Agreements*Mr. Szews' Employment Agreement*

We entered into an employment agreement with Mr. Szews on March 20, 2007 and amended the agreement in 2008 to bring the agreement in compliance with the requirements of Internal Revenue Code Section 409A. We amended the agreement again on April 26, 2011 in connection with Mr. Szews' appointment as Chief Executive Officer. Under the employment agreement, as amended, we have the right to terminate Mr. Szews' employment at any time. If we terminate Mr. Szews' employment without cause or Mr. Szews terminates his employment for good reason, then, provided that Mr. Szews executes a release of claims against us, Mr. Szews will generally be entitled to receive as severance pay, in lieu of base salary and bonus for the remaining term of the employment agreement, an amount equal to the sum of (i) the product of two times the sum of (A) Mr. Szews' then current base salary, plus (B) a representative annual bonus amount for Mr. Szews, plus (ii) if Mr. Szews will not receive a bonus with respect to the fiscal year in which such termination occurs under the bonus plan then in effect solely as a result of the termination of Mr. Szews' employment, a pro rata bonus for the fiscal year in which the termination occurs in an amount based upon the bonus (if any) that Mr. Szews would have received had he remained employed through the entire fiscal year. If Mr. Szews is entitled to severance pay, then, for no additional consideration, Mr. Szews is obligated to make himself available to consult with and otherwise assist or provide general advice to our then Chief Executive Officer and to our Board of

Table of Contents

Directors as and at such times as they may reasonably request during the two-year period after the date of termination of Mr. Szews' employment.

In consideration of the benefits provided to Mr. Szews in his employment agreement, Mr. Szews entered into a confidentiality and loyalty agreement with us whereby he agrees not to compete with us for a period of 18 months after the termination of his employment and to keep in confidence any proprietary information or confidential information for a period of two years after the termination of his employment. In this agreement, Mr. Szews also agrees not to solicit our employees and to notify us before accepting employment with a competitor of ours for a period of 18 months after the termination of his employment.

Under Mr. Szews' employment agreement, "cause" is defined as follows:

engaging in misconduct that is substantially injurious to us;

engaging in any willful act or omission that materially injures our reputation, business or prospects;

being convicted of a felony;

consenting to an order of the SEC for a violation of the federal securities laws;

failing to perform material duties in a competent and efficient manner which failure is not due to illness or disability;

being made subject to a petition under the federal bankruptcy laws or any state insolvency law or having a receiver appointed;

failing to file timely federal or state income tax returns and to pay related taxes;

being involved in the commission of an impropriety involving our financial statements;

committing material violations of our codes of conduct; or

materially breaching obligations under the confidentiality and loyalty agreement.

Under Mr. Szews' employment agreement, the term "good reason" means any substantial breach by us of the employment agreement that is not remedied by us promptly after receipt of notice thereof from Mr. Szews.

Table of Contents**Director Compensation**

Based on a competitive review by Towers Watson on non-employee director compensation trends, the Committee approved the following changes effective January 2012:

The annual non-employee director retainer increased \$20,000 to \$85,000

The annual Human Resources and Audit Committee chair fees increased \$5,000 to \$15,000

The annual Governance Chair fee increased \$5,000 to \$10,000

We provided 100% of the long-term equity in the form of restricted stock (5,000 shares)

The committee participation fee remained at \$13,500. The long term equity awards were at the 50th percentile of the Towers Watson data based for non-employee director compensation. The changes were made to ensure that the company could attract non-employee directors when openings would occur.

The table below summarizes the compensation paid to or earned by our non-employee directors during fiscal 2012.

Name (1)	Fees Earned or Paid in Cash (\$)	Stock Awards (\$)(2)(3)	Change in Pension Value and Nonqualified Deferred Compensation Earnings (\$)(4)	All Other Compensation (\$)	Total (\$)

Edgar Filing: OSHKOSH CORP - Form DEF 14A

Craig P. Omtvedt	107,250	121,400	228,650
Duncan J. Palmer	73,875	121,400	195,275
John S. Shiely	67,719	121,400	189,119
Richard G. Sim	93,500	121,400	214,900
William S. Wallace	91,863	121,400	213,263

(1) Mr. Szews, who serves as both a director and as our Chief Executive Officer, received no additional compensation for his service on our Board of Directors and is not included in this table. The compensation Mr. Szews received as our Chief Executive Officer during and for fiscal 2012 is shown in the Summary Compensation Table on page 77.

(2) As applicable SEC rules require, amounts in this column are based on the aggregate grant date fair value of awards to our directors under our 2009 Incentive Stock and Awards Plan rather than actual amounts we paid to these directors or amounts that the directors actually realized or will realize as a result of these awards. We computed the aggregate grant date fair value of these awards in accordance with FASB ASC Topic 718. We based the fair value of stock awards on the market price of the shares awarded on the date of grant (which considers the value of dividends that the holder of restricted shares is entitled to receive).

Table of Contents

(3) The table below sets forth the aggregate number of unvested restricted stock awards and the aggregate number of stock option awards of each of our non-employee directors outstanding at September 30, 2012.

Name	Aggregate Number of Outstanding Restricted Stock Awards (#)	Aggregate Number of Outstanding Stock Option Awards (#)
Richard M. Donnelly		29,050
Michael W. Grebe		41,050
Peter B. Hamilton		1,500
Kathleen J. Hempel		41,050
Leslie F. Kenne		3,075
Harvey N. Medvin		18,250
J. Peter Mosling, Jr.		29,050
Craig P. Omtvedt		9,350
Duncan J. Palmer		1,500
John S. Shiely		
Richard G. Sim		41,050
William S. Wallace		2,500

(4) The amounts in this column represent above-market interest on non-qualified deferred compensation computed on a quarter by quarter basis. The above-market interest rate is the percentage amount by which the interest rate earned on deferred compensation in fiscal 2012 exceeded 120% of the applicable federal long-term interest rate, with compounding, at the time the interest rate was set. The interest rate earned on deferred compensation for the first, second, third and fourth quarters of fiscal 2012 was 4.25%. For the same periods, 120% of the applicable long-term interest rate was 4.23%, 3.33%, 3.15% and 3.13%, respectively.

Retainer and Meeting Fees

Each non-employee director, other than Mr. Donnelly, is entitled to receive an annual retainer of \$85,000. Mr. Donnelly is entitled to receive an additional annual retainer of \$150,000 in recognition of his position as Chairman of the Board. The Chairpersons of the Audit Committee and the Human Resources Committee receive an additional annual retainer of \$15,000 and the Chairperson of the Governance Committee receives an additional annual retainer of \$10,000. Committee members receive an additional fee of \$13,500 per calendar year for each Committee on which they serve. Additionally, we reimburse directors for reasonable travel and related expenses that they incur in attending Board and Board committee meetings as well as continuing education programs.

Restricted Stock Awards

We generally grant shares of restricted stock to our non-employee directors at the meeting of our Board held on the date of our Annual Meeting of Shareholders, or at the time a director joins our Board. Effective upon election at our 2012 Annual Meeting of Shareholders, we

Edgar Filing: OSHKOSH CORP - Form DEF 14A

granted to each of our then non-employee directors 5,000 shares of restricted stock under the Oshkosh Corporation 2009 Incentive Stock and Awards Plan, which are subject to certain limited restrictions on transfer.

Table of Contents

Deferred Compensation Plan

Our non-employee directors may elect to participate in our Deferred Compensation Plan for Directors and Executive Officers, under which each director may defer up to 100% of all retainer fees, attendance fees and fees for serving as a committee chair. We will reduce the fees paid to each director by the amount of all deferrals made on his or her behalf.

A director participating in the Deferred Compensation Plan may elect to have his or her deferrals credited to a fixed-income investment account or a stock account. Deferrals credited to a fixed-income investment account earn interest at the prime rate as published in *The Wall Street Journal* on the last business day of the immediately preceding plan year quarter, plus 1%. Deferrals credited to a stock account are treated as though invested in our Common Stock. Any dividends earned on our Common Stock are reinvested in each director's stock account.

Payments from the Deferred Compensation Plan may be made in a lump sum or in annual installments for up to ten years at the election of the director. Payments generally initiate upon the director ceasing to be a member of our Board. However, in the event of a change in control of our company, as defined in the Deferred Compensation Plan, we will pay out the accounts of all directors in a single lump sum cash payment.

Stock Ownership Guidelines for Directors

The Human Resources Committee has also adopted stock ownership guidelines that apply to non-employee directors to ensure that our non-employee directors have a direct stake in the oversight and development of our company by becoming shareholders. Under these guidelines, our non-employee directors are encouraged to acquire and own our Common Stock in an amount equal to five times the annual cash retainer paid to these non-employee directors. Non-employee directors should achieve this stock ownership level within five years of becoming a director.

As of November 13, 2012, Messrs. Donnelly, Grebe, Mosling, Omtvedt and Sim, Ms. Hempel and Mr. Medvin (who is retiring at the Annual Meeting) exceeded the stock ownership levels in these guidelines. Messrs. Hamilton, Palmer, Gen. (Ret.) Wallace, Shiely and Lt. Gen. (Ret.) Kenne have each served as a director for less than five years. Mr. Newlin will become subject to these guidelines if elected as a director. As Mr. Szews also served as an executive officer of our company, he was subject to the stock ownership guidelines that apply to our officers. At November 13, 2012, Mr. Szews exceeded the stock ownership guidelines relative to his position as Chief Executive Officer.

Table of Contents

As noted in the preceding extensive and comprehensive discussion, executive compensation is an important matter both to us and to our shareholders. As a reflection of this importance and pursuant to SEC rules, we offer our shareholders the opportunity to approve, on a non-binding, advisory basis, the compensation of our named executive officers. Accordingly, we are seeking input from shareholders with this advisory vote on the compensation of our named executive officers as disclosed in the Compensation Discussion and Analysis section and the accompanying compensation tables contained in this Proxy Statement in accordance with the executive compensation disclosure rules of the SEC.

The Human Resources Committee has overseen the development and implementation of our executive compensation programs. We have designed our compensation programs to directly link a significant portion of the compensation of our named executive officers to defined performance standards that promote balance between the drive for near-term growth and long-term increase in shareholder value. The Committee also designed our compensation programs to attract, retain and motivate key executives who are essential to the implementation of our strategic growth and development strategy. Performance and executive retention are critical to the success of our MOVE strategy.

The Human Resources Committee bases its executive compensation decisions on our core compensation principles, including the following:

incentivizing our executives to perform with shareholders' interests in mind;

assembling and maintaining a senior leadership team with the skills necessary to successfully execute our MOVE strategy, maintain our competitiveness, and continue increasing the long-term market value of our company; and

balancing awards earned for short-term results with awards earned for strategic decisions that we expect to sustain our long-term performance and deliver the results outlined in our MOVE strategy.

We believe that our existing compensation programs have been effective at motivating our key executives, including our named executive officers, to achieve superior performance and results for our company, effectively aligning compensation with performance results, giving our executives an ownership interest in our company so their interests are aligned with our shareholders, and enabling us to attract and retain talented executives whose services are in key demand in our industry and market sectors. Fiscal year 2012 performance is an example of meeting these needs: overachieving on an aggressive operating income target and continuing to build and retain a talented executive team.

With our core compensation principles in mind, the Human Resources Committee took compensation actions including the following:

structuring our annual cash incentive awards for fiscal year 2012 with aggressive operating income targets that supported MOVE earnings per share targets;

accepting management's recommendation to approve no base salary increase for the Chief Executive Officer for fiscal year 2012, to defer base salary increases for other executive officers until January 2012, and to implement base salary increases

Edgar Filing: OSHKOSH CORP - Form DEF 14A

for executive officers (other than the CEO) effective at that time due to the executive team's performance but to limit those increases to 2% (compared to 3% average increases among companies included)

Table of Contents

in the Towers Watson Executive Compensation Database) due to the difficult market and cost pressure conditions that exist for our company;

modifying the mix of equity compensation awards to emphasize restricted stock to increase the shareholdings of our executives;

accepting the recommendation of our Chief Executive Officer to decline long-term equity awards in September 2012 for the third straight year (September 2010, September 2011 and September 2012) so that we could provide retention awards to key executives and senior managers in September 2010 and September 2012 and make prudent awards in recognition of performance to our named executive officers (other than Mr. Szews) and other officers in all three years to support higher returns for our shareholders;

maintaining the structure of our long-term incentive equity awards generally with the objective of providing compensation around the 50th percentile;

for many salaried employees, freezing benefits under both our qualified and non-qualified defined benefit plans effective December 31, 2012 and in the future providing benefits to impacted employees under new, qualified and non-qualified defined contribution plans to reduce volatility of cash flow and expense;

eliminating post-employment healthcare benefits for our current salaried employees;

continuing to significantly limit the amounts payable under new severance agreements that we enter into with our executive officers to a maximum of two times base salary and bonus and not including any excise tax gross-ups under these agreements; and

continuing to limit the number and value of perquisites.

Compensation actions like those described above evidence our philosophy of aligning executive compensation with company performance and increasing long-term shareholder value. We will continue to design and implement our executive compensation programs and policies in line with this philosophy to promote superior performance results and generate greater value for our shareholders. The MOVE objectives will continue to influence these decisions.

We urge shareholders to read the Compensation Discussion and Analysis section and the accompanying compensation tables contained in this Proxy Statement, which provide detailed information on the compensation of our named executive officers. The Human Resources Committee and our Board believe that the executive compensation program articulated in the Compensation Discussion and Analysis and the accompanying compensation tables contained in this Proxy Statement is effective in achieving our goals and that the compensation of our named

Edgar Filing: OSHKOSH CORP - Form DEF 14A

executive officers reported in this Proxy Statement has supported and contributed to our success.

Our Board would like the support of our shareholders for the compensation of our named executive officers as disclosed in the Compensation Discussion and Analysis section and the accompanying compensation tables contained in this Proxy Statement. This advisory vote on the compensation of our named executive officers allows our shareholders to express their opinions about our executive compensation programs. As we seek to align our executive compensation programs with our performance results and shareholders' interests, we ask that our shareholders approve the

Table of Contents

compensation of our named executive officers as disclosed in the Compensation Discussion and Analysis section and the accompanying compensation tables contained in this Proxy Statement. Accordingly, for the reasons we discuss above, our Board recommends that shareholders vote in favor of the following resolution:

"**RESOLVED**, that the shareholders approve, on an advisory basis, the compensation of the named executive officers as disclosed pursuant to Item 402 of Regulation S-K, including in the Compensation Discussion and Analysis section and compensation tables and narrative discussion contained in this Proxy Statement."

This advisory vote on the compensation of our named executive officers is not binding on us, our Board or the Human Resources Committee. However, our Board and the Committee will review and consider the outcome of this advisory vote when making future compensation decisions for our named executive officers. Pursuant to the vote of our shareholders at the 2011 Annual Meeting of Shareholders, we will ask our shareholders to consider an advisory vote on the compensation of our named executive officers every year until otherwise determined by a vote of our shareholders pursuant to applicable SEC rules. The next advisory vote on the compensation of our named executive officers will occur at our 2014 Annual Meeting of Shareholders.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THE COMPENSATION DISCUSSION AND ANALYSIS SECTION AND ACCOMPANYING COMPENSATION TABLES CONTAINED IN THIS PROXY STATEMENT.

Table of Contents

The following proposal was submitted by one of our individual shareholders and will be voted on at the Annual Meeting if it is properly presented. Such shareholder's name, address, and number of shares of Common Stock held may be obtained upon written request therefor made to our Secretary. The proposal has been included according to the SEC rules as we received it.

4* Executives to Retain Significant Stock

RESOLVED, shareholders urge that our executive pay committee adopt a policy requiring that senior executives retain a significant percentage of stock acquired through equity pay programs until reaching normal retirement age and to report to shareholders regarding this policy before our next annual shareholder meeting.

Shareholders recommend that a percentage of at least 33% of net after-tax stock be required. This policy shall apply to future grants and awards of equity pay and should address the permissibility of transactions such as hedging transactions which are not sales but reduce the risk of loss to executives. This proposal asks for a retention policy starting as soon as possible.

Requiring senior executives to hold a significant portion of stock obtained through executive pay plans would focus our executives on our company's long-term success. A Conference Board Task Force report on executive pay stated that hold-to-retirement requirements give executives "an ever-growing incentive to focus on long-term stock price performance." Kenneth Steiner and Ray T. Chevedden have submitted proposals on this topic to a number of major companies.

This proposal should also be evaluated in the context of our Company's overall corporate governance as reported in 2012:

The Corporate Library/GMI, an independent investment research firm, expressed concern regarding our executive pay and director qualifications.

Regarding executive pay, GMI said that 80% of 2011 long-term equity pay consisted of either stock options or restricted stock pay, both of which simply vest with the passage of time. Equity pay should have performance-vesting thresholds in order to assure full alignment with shareholder interests. Also, market-priced stock options may provide rewards to executives due to a rising market alone, regardless of individual performance. The other 20% of long-term equity was composed of performance share pay that is given even if the company underperforms 60% of its peers. Underperforming industry peers should not result in extra pay.

In addition, our CEO received no long-term equity pay for the second straight year so that none of his pay is tied to our company's long-term success.

Directors with 15 to 36 years long tenure, which challenged their independence, included: Richard Sim, Kathleen Hempel, Michael Grebe and Peter Mosling. Directors with 22 to 36 years long tenure made up 67% of our nomination committee.

In 2011 we gave 49% support for shareholders to be able to act by written consent an indication that we want improvements in our corporate governance.

Table of Contents

Please encourage our board to respond positively to this proposal for improved governance:

Executives To Retain Significant Stock Yes on 4.*

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "AGAINST" PROPOSAL NUMBER 4 FOR THE FOLLOWING REASONS:

Our Board of Directors fully agrees that the ownership of a meaningful amount of our common stock by our executive officers creates a beneficial alignment of the interests of our executive officers with the long-term interests of our shareholders. Accordingly, we have long enforced guidelines for significant stock ownership by all of our executive officers, and we maintain other policies that align the interests of our executive officers with the long-term interests of our shareholders. In light of these existing policies, the strong culture of stock ownership that exists among our executive officers, the potential unintended negative consequences of this proposal that are discussed below, and the proponent's mischaracterizations of our pay for performance practices and Chief Executive Officer equity compensation practices that are discussed below, we do not believe that implementation of this proposal is appropriate for our company or in the best interests of our shareholders.

Our executives are subject to stock ownership guidelines that appropriately align their interests with the long-term interests of our shareholders.

As we explained in more detail under "Executive Compensation Compensation Discussion and Analysis Stock Ownership Guidelines for Executive Officers," the Human Resources Committee of our Board of Directors has adopted executive officer stock ownership guidelines to align our executive officers' interests with the long-term interests of our shareholders namely, improving our stock performance in the long term. These guidelines set forth varying levels of ownership and retention of our common stock, depending on an executive's position. For example, the guidelines provide that our Chief Executive Officer own a number of shares with a market value of at least five times his or her annual base salary, our Chief Financial Officer own a number of shares with a market value of at least four times his or her annual base salary, and each of our Executive Vice Presidents own a number of shares with a market value of at least three times his or her annual base salary. The guidelines provide that each officer meet the applicable ownership threshold within five years of commencement of employment or promotion and then retain the requisite ownership level throughout the officer's service to our company. The Human Resources Committee periodically reviews these stock ownership guidelines. As of November 13, 2012, Mr. Szews and Mr. Blankfield exceeded the stock ownership levels in these guidelines. Mr. Jones and Mr. Urias have not been in their current positions for five years.

Our existing recoupment policy and restriction on hedging further align the interests of our executives with the long-term interests of shareholders.

Our stock ownership guidelines are supplemented by a recoupment policy and a restriction on hedging, each of which strengthens the incentive for our executives to focus on the long-term health and success of our business. Without the prior approval of our General Counsel, none of our employees may enter into hedging transactions with our stock. This restriction ensures that our executives bear the full economic risk and reward of stock ownership with respect to their holdings. Moreover, under our Executive Incentive Compensation Recoupment Policy, if we are required to make an accounting restatement relating to our publicly reported consolidated financial statements due to our material

Table of Contents

noncompliance with financial reporting requirements under U.S. federal securities laws, then we will have the right, to the extent permitted by governing law, to take appropriate action to recoup all or part of any incentive award that we actually paid to a covered executive if the amount of money or number of shares paid to the executive was expressly based on the achievement of financial results that were subject to the restatement and the executive would have been paid a lower amount or number under the express terms of the incentive award based on the financial results after the restatement. See "Executive Compensation Compensation Discussion and Analysis Executive Incentive Compensation Recoupment Policy."

We have a strong culture of stock ownership that has resulted in our executives holding significant equity stakes.

Stock ownership alone paints an incomplete picture of the extent of our named executive officer's holdings or our stock. We have long had a strong corporate culture of stock ownership and retention. For example, including in-the-money options that are fully vested and exercisable, our Chief Executive Officer is the beneficial owner of 511,692 shares of our common stock, which represents a significant ongoing investment value of over \$5 million as of November 13, 2012 and reflects his purchase of 15,000 shares on the open market for cash during fiscal 2012. With respect to stock retention, our named executive officers have voluntarily retained a significant number of the net after-tax shares received under our equity compensation programs throughout their careers with our company and have paid taxes relating to stock awards with cash rather than surrendering shares for the purpose of retaining the gross number of shares associated with the award.

A requirement to retain at least 33% of the net after-tax shares from all equity awards would hinder our ability to recruit key executive talent and to promote from within.

In addition to making it more difficult for us to retain our most successful and therefore valuable executives, this proposal would harm our ability to recruit new executive talent. We believe the vast majority of companies do not impose stock retention requirements beyond stock ownership requirements. In fact, based on data from Towers Watson's 2011 Long-Term Incentive Policies and Practices Survey, 77% of companies reported having no mandatory stock retention requirements. Adoption of this proposal would also serve to discourage current employees from accepting promotions that would result in them becoming subject to the proposed retention policy. Our success in promoting from within has been another important factor in our long-term success, and this proposal would undermine that strength and harm our business.

A requirement to retain at least 33% of the net after-tax shares from all equity awards is inappropriately high and would create an incentive for successful executives to terminate their employment with our company.

A meaningful portion of each of our named executive officers' compensation is paid in the form of equity awards (on average, approximately 44% of total compensation reported in the Summary Compensation Table over the last two years), and our named executive officers have had long careers with our company (the average tenure of our named executive officers is over 9 years). As a result of these two factors, there is a legitimate need for executives to be able to diversify their assets. A requirement to retain 33% or more of all net after-tax shares until reaching retirement age is unreasonably high and is not necessary to achieve the objective of aligning the long-term interests of our

Table of Contents

executive officers with those of our shareholders. Such a requirement would, in fact, create a strong incentive for executives to leave employment with our company to realize the value of their equity compensation. Ironically, under this proposal the most successful executives those whose leadership contributes to a significant increase in our stock price during their tenure would have the greatest financial incentive to leave. The long tenure of our executives has been an important factor in our long-term success, and this proposal would undermine that strength and harm our business.

The proponent mischaracterizes our pay for performance practices and our Chief Executive Officer equity compensation practices.

Contrary to the proponent's assertions, a cornerstone of our executive compensation program is our pay for performance philosophy. As described in more detail under "Executive Compensation Compensation Discussion and Analysis Executive Summary," our Human Resources Committee follows a philosophy of linking our named executive officers' compensation to performance that will ultimately reward our shareholders. We use compensation programs to attract and retain the best executive talent and to motivate our executives to exceed specific financial and organizational goals set each year. In addition, the proponent highlights as a flaw in our executive compensation program that a portion of our long-term, performance-based equity awards is payable if we achieve total shareholder return equal to the 40th percentile of our peer group of companies. However, the proponent fails to recognize that we pay only half of an executive's target award for performance at the 40th percentile, and based on the advice of Towers Watson, the independent compensation consultant to our Human Resources Committee, paying half of an executive's target award for performance at the 40th percentile is well within competitive norms. Finally, the proponent argues that the failure to grant long-term equity awards to our Chief Executive Officer in fiscal 2010 or fiscal 2011 means that none of his pay is tied to our company's long-term success. While we did not grant long-term equity awards to our Chief Executive Officer in fiscal 2010 or fiscal 2011 and in fact this is true for fiscal 2012 as well, the proponent fails to recognize that the decision not to grant long-term equity awards to our Chief Executive Officer was a result of our Chief Executive Officer declining such awards so that we could provide retention awards to other key executives and limit total awards to the named executive officers and other officers to cost conscious levels for the benefit of all shareholders. In fact, our Chief Executive Officer's decision to forgo any equity compensation awards allowed us to avoid approximately \$15 million of pre-tax costs related to such awards, assuming such awards would have been made at the 50th percentile of awards made to chief executive officers at similarly sized companies. Moreover, our Chief Executive Officer beneficially owned 511,692 shares of our common stock as of November 13, 2012, including 15,000 shares that Mr. Szews purchased on the open market during fiscal 2012, representing an ongoing investment in our company of more than \$5 million, a fact that clearly illustrates the alignment of the interests of our Chief Executive Officer with those of our shareholders.

For all of the reasons set forth above, our Board of Directors urges our shareholders to vote "AGAINST" proposal number 4.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "AGAINST" PROPOSAL NUMBER 4.

Table of Contents***Non-GAAP Financial Measures***

The Company reports its financial results in accordance with generally accepted accounting principles (GAAP) in the United States of America. The Company is presenting various operating results, such as operating income, income from continuing operations and earnings per share from continuing operations, both on a reported basis and on a basis excluding items that affect comparability of operating results. When the Company uses operating results, such as operating income, income from continuing operations and earnings per share from continuing operations, excluding items, they are considered non-GAAP financial measures. The Company believes excluding the impact of these items is useful to investors to allow a more accurate comparison of the Company's operating performance. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's results prepared in accordance with GAAP. The table below presents a reconciliation of the Company's presented non-GAAP measures to the most directly comparable GAAP measures (in millions, except per share amounts):

	Three Months Ended		Fiscal Year Ended
