EBITDA is income from operations excluding charges for depreciation and amortization, impairment loss, loss or recoveries on affiliate obligations and loss on early extinguishment of debt and including minority interest expense. EBITDA is not a measure of performance or liquidity calculated in accordance with generally accepted accounting principles. EBITDA information is presented solely as a supplemental disclosure because management believes that it is a widely used measure of such performance in the gaming industry. EBITDA should not be construed as an alternative to operating income, as an indicator of our operating performance, or as an alternative to cash flows from operating activities, as a measure of liquidity, or as any other measure of performance determined in accordance with generally accepted accounting principles. We have significant uses of cash flows, including capital expenditures, interest payments, taxes and debt principal repayments, which are not reflected in EBITDA. It should also be noted that other gaming companies that report EBITDA information may calculate EBITDA in a different manner than us.
