Registrant's Telephone Number

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months and (2) has been subject to such filing requirements for the past 90 days. **YES** ☒ **NO** ☐

Indicate by check mark whether the Registrant is an accelerated filer (as defined in Exchange Act Rule 12b-2).

YES ☒ **NO** ☐

The number of shares of common stock of the Registrant outstanding on August 1, 2003 was 97,437,190.

Forward-Looking Statements

This Quarterly Report of Form 10-Q, together with other statements and information publicly disseminated by New Plan Excel Realty Trust, Inc. (the Registrant or the Company), contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on assumptions and expectations which may not be realized and are inherently subject to risks, uncertainties and other factors, many of which cannot be predicted with accuracy and some of which might not even be anticipated. Future events and actual results, performance, transactions or achievements, financial or otherwise, may differ materially from the results, performance, transactions or achievements expressed or implied by the forward-looking statements. Risks, uncertainties and other factors that might cause such differences, some of which could be material, include, but are not limited to:

changes in the global political environment

changes in the national or local economic, business, real estate and other market conditions, including the ability of the general economy to recover timely from the current economic downturn

the competitive environment in which we operate

property management risks

financial risks, such as the inability to obtain debt or equity financing on favorable terms

possible future downgrades in our credit rating

the level and volatility of interest rates

financial stability of tenants, including the ability of tenants to pay rent, the decision of tenants to close stores and the effect of bankruptcy laws

the rate of revenue increases versus expense increases

the ability to maintain our status as a REIT for federal income tax purposes

governmental approvals, actions and initiatives; environmental/safety requirements and costs

risks of real estate acquisition and development, including the failure of acquisitions to close and pending developments and redevelopments to be completed on time and within budget; risks of disposition strategies, including the failure to complete sales on a timely basis and the failure to reinvest sale proceeds in a manner that generates favorable returns

risks of joint venture activities

other risks identified in this Quarterly Report on Form 10-Q and, from time to time, in other reports we file with the SEC or in other documents that we publicly disseminate.

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

We undertake no obligation to publicly update or revise these forward-looking statements, whether as a result of new information, future events or otherwise.

NEW PLAN EXCEL REALTY TRUST, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1: Description of Business

New Plan Excel Realty Trust, Inc. and its subsidiaries (collectively, the Company) are operated as a self-administered, self-managed real estate investment trust (REIT). The principal business of the Company is the ownership and operation of retail properties throughout the United States.

Note 2: Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements have been prepared by the Company pursuant to the rules of the Securities and Exchange Commission (SEC) and, in the opinion of the Company, include all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of financial position, results of operations and cash flows in accordance with accounting principles generally accepted in the United States (GAAP). All significant intercompany transactions and balances have been eliminated. Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such SEC rules. The Company believes that the disclosures made are adequate to make the information presented not misleading. The consolidated statements of income and comprehensive income for the three and six months ended June 30, 2003 and 2002 are not necessarily indicative of the results expected for the full year. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's latest annual report on Form 10-K.

Net Earnings per Share of Common Stock

In accordance with Statement of Financial Accounting Standards (SFAS) No. 128, *Earnings per Share* (SFAS No. 128), the Company presents both basic and diluted earnings per share. Net earnings per common share (basic EPS) is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. Net earnings per common share assuming dilution (diluted EPS) is computed giving effect to all dilutive potential common shares that were outstanding during the period. Dilutive potential common shares consist of the incremental common shares issuable upon the conversion of preferred stock (using the if converted method), the exercise of in-the-money stock options and the conversion of Excel Realty Partners, L.P. (ERP) limited partnership units.

Cash Equivalents

Cash equivalents consist of short-term, highly liquid debt instruments with maturities of three months or less at acquisition. Items classified as cash equivalents include insured bank certificates of deposit and commercial paper. At times, cash balances at a limited number of banks may exceed insurable amounts. The Company believes it mitigates this risk by investing in or through major financial institutions.

Restricted Cash

Restricted cash consists primarily of cash held in escrow accounts for deferred maintenance, capital improvements, environmental expenditures, taxes, insurance, operating expenses and debt service as required by certain loan agreements. As of December 31, 2002, restricted cash balances also contained escrow funds held for the repayment of a promissory note issued in connection with the Equity Investment Group portfolio acquisition (Note 3). Substantially all restricted cash is invested in money market mutual funds and carried at market value.

Accounts Receivable

Accounts receivable is stated net of allowance for doubtful accounts of \$15.9 million and \$15.3 million as of June 30, 2003 and December 31, 2002, respectively.

Real Estate

Land, buildings and building and tenant improvements are recorded at cost and stated at cost less accumulated depreciation. Major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives; ordinary repairs and maintenance are expensed as incurred.

Properties are depreciated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

Buildings	35 to 40 years
Building Improvements	5 to 40 years
Tenant Improvements	The shorter of the term of the related lease or useful life

Long-Lived Assets

On a periodic basis, management assesses whether there are any indicators that the value of its real estate properties may be impaired. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property (taking into account the anticipated holding period of the asset) are less than the carrying value of the property. Such cash flows consider factors such as expected future operating income, trends and prospects, as well as the effects of demand, competition and other economic factors. To the extent impairment has occurred, the loss will be measured as the excess of the carrying amount of the property over the fair value of the property, and reflected as an adjustment to the basis of the property.

When assets are identified by management as held for sale, the Company discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management's opinion, the net sales price of the assets which have been identified for sale is less than the net book value of the assets, a valuation allowance is established. For investments accounted for under the equity method, a loss is recognized if the loss in value of the investment is other than temporary.

Employee Loans

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

Prior to 2001, the Company had made loans to officers, directors and employees primarily for the purpose of purchasing common stock of the Company. These loans are demand and term notes bearing interest at rates ranging from 5% to 10%. Interest is payable quarterly. Loans made for the purchase of common stock are reported as a deduction from stockholders' equity. At June 30, 2003 and December 31, 2002, the Company had aggregate loans to employees of approximately \$1.1 million and \$6.9 million, respectively.

Investments in /Advances to Unconsolidated Ventures

The Company has direct equity investments in several joint venture projects. The Company accounts for these investments in unconsolidated ventures using the equity method of accounting, as the Company exercises significant influence over, but does not control, these entities. These investments are initially recorded at cost, as Investments in/advances to unconsolidated ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions.

Deferred Leasing and Loan Origination Costs

Costs incurred in obtaining tenant leases (including internal leasing costs) are amortized using the straight-line method over the terms of the related leases and included in depreciation and amortization. Unamortized deferred leasing costs are charged to amortization expense upon early termination of the lease. Costs incurred in obtaining long-term financing are amortized and charged to interest expense over the terms of the related debt agreements, which approximates the effective interest method.

Internal Leasing Costs

Effective January 1, 2002, the Company commenced capitalizing internal leasing costs in accordance with SFAS No. 91, *Nonrefundable Fees & Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases* (at June 30, 2003 and December 31, 2002, approximately \$2.2 million and \$2.8 million had been capitalized, respectively).

Derivative/Financial Instruments

The Company accounts for derivative and hedging activities in accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS No. 133) and SFAS No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities*. These accounting standards require the Company to measure derivatives, including certain derivatives embedded in other contracts, at fair value and to recognize them in the Consolidated Balance Sheet as assets or liabilities, depending on the Company's rights or obligations under the applicable derivative contract. For derivatives designated as fair value hedges, the changes in the fair value of both the derivative instrument and the hedged item are recorded in earnings. For derivatives designated as cash flow hedges, the effective portions of changes in fair value of the derivative are reported in other comprehensive income (OCI) and are subsequently reclassified into earnings when the hedged item affects earnings. Changes in fair value of derivative instruments not designated as hedging instruments and ineffective portions of hedges are recognized in earnings in the current period.

Self-Insured Health Plan

Beginning in May 2003, the Company implemented a self-insured health plan for all its employees. In order to limit its exposure, the Company has purchased stop-loss insurance, which will reimburse the Company for individual claims in excess of \$0.1 million annually, or aggregate claims in excess of \$1.0 million annually. Self-insurance losses are accrued based on the Company's estimates of the aggregate liability for uninsured claims incurred using certain actuarial assumptions adhered to in the insurance industry. At June 30, 2003, the liability for self-insured losses is included in accrued expenses and was approximately \$0.4 million.

Revenue Recognition

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

Rental revenue is recognized on the straight-line basis, which averages minimum rents over the terms of the leases. The cumulative difference between lease revenue recognized under this method and contractual lease payment terms is recorded as deferred rent receivable, and is included in trade receivables on the accompanying consolidated balance sheets. Certain leases provide for percentage rents based upon the level of sales achieved by the lessee. These percentage rents are recorded once the required sales levels are achieved. The leases also typically provide for tenant reimbursement of common area maintenance and other operating expenses.

Income Taxes

The Company has elected to be treated as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the Code). In order to maintain its qualification as a REIT, the Company is required to, among other things, distribute at least 90% of its REIT taxable income to its stockholders and meet certain tests regarding the

nature of its income and assets. As a REIT, the Company is not subject to federal income tax with respect to that portion of its income which meets certain criteria and is distributed annually to the stockholders. Accordingly, no provision for federal income taxes is included in the accompanying consolidated financial statements. The Company plans to continue to operate so that it meets the requirements for taxation as a REIT. Many of these requirements, however, are highly technical and complex. If the Company were to fail to meet these requirements, the Company would be subject to federal income tax. The Company is subject to certain state and local taxes. Provision for such taxes has been included in real estate and other taxes in the Company's consolidated statements of income and comprehensive income.

The Company may elect to treat one or more of its corporate subsidiaries as a taxable REIT subsidiary (TRS). In general, a TRS of the Company may perform additional services for tenants of the Company and generally may engage in any real estate or non-real estate related business (except for the operation or management of health care facilities or lodging facilities or the provision to any person, under a franchise, license or otherwise, of rights to any brand name under which any lodging facility or health care facility is operated). A TRS is subject to corporate federal income tax. The Company has elected to treat certain of its corporate subsidiaries as TRSs. At June 30, 2003, the Company's TRSs had a tax net operating loss (NOL) carryforward of approximately \$18.4 million, expiring from 2013 to 2016.

Segment Information

The principal business of the Company is the ownership and operation of retail shopping centers. The Company does not distinguish or group its operations on a geographical basis for purposes of measuring performance. Accordingly, the Company believes it has a single reportable segment for disclosure purposes in accordance with GAAP. Further, all operations are within the United States and no tenant comprises more than 10% of revenue.

Recently Issued Accounting Standards

In May 2003, the Financial Accounting Standards Board (FASB) issued Statement 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity* (SFAS No. 150). This statement established principles for the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). Previously, many of those instruments were classified as equity. SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the interim period beginning after June 15, 2003. The Company does not expect the adoption of SFAS No. 150 to have a material impact on the Company.

In April 2003, FASB issued Statement 149, *Amendment of Statement 133 on Derivative Instruments and Hedging Activities* (SFAS No. 149). This statement amends and clarifies financial accounting and reporting for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives) and for hedging activities under SFAS No. 133. SFAS No. 149 improves financial reporting by requiring that contracts with comparable characteristics be accounted for similarly. In particular, this statement (1) clarifies under what circumstances a contract with an initial net investment meets the characteristics of a derivative as defined by SFAS No. 133, (2) clarifies when a derivative contains a financing component, (3) amends the definition of an underlying to conform it to the language used in FASB Interpretation No. 45, *Guarantors Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*, and (4) amends certain other existing pronouncements. Those changes will result in more consistent reporting of contracts as either derivatives or hybrid instruments. SFAS No. 149 is effective for contracts entered into or modified after June 30, 2003, and is not expected to have a material impact on the Company.

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

In January 2003, FASB issued FASB Interpretation No. 46, *Consolidation of Variable Interest Entities* (FIN 46), an interpretation of ABR 51. FIN 46 provides guidance on identifying entities for which control is achieved

through means other than through voting rights, variable interest entities (VIE), and how to determine when and which business enterprises should consolidate the VIE. In addition, FIN 46 requires both the primary beneficiary and all other enterprises with a significant variable interest in a VIE to make additional disclosures. The transitional disclosure requirements are required for all financial statements initially issued after January 31, 2003. The consolidation provisions of FIN 46 are effective immediately for variable interests in VIEs created after January 31, 2003. For variable interests in VIEs created before February 1, 2003, the provisions of FIN 46 are effective for the first interim period beginning after June 15, 2003. The Company's potential variable interests in VIEs are its Investments in/advances to unconsolidated ventures described in Note 7. The Company does not expect the adoption of FIN 46 to have a material impact on the Company.

In December 2002, FASB issued Statement 148, *Accounting for Stock-Based Compensation - Transition and Disclosure - an amendment of FAS 123* (SFAS No. 148). This statement provides alternative transition methods for a voluntary change to the fair value basis of accounting for stock-based employee compensation. However, SFAS No. 148 does not permit the use of the original FAS 123 prospective method of transition for changes to fair value based methods made in fiscal years beginning after December 15, 2003. In addition, SFAS No. 148 amends the disclosure requirements of Statement No. 123, *Accounting for Stock Based Compensation* (SFAS No. 123), to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation, a description of the transition method utilized and the effect of the method used on reported results. The transition and annual disclosure provisions of SFAS No. 148 shall be applied for fiscal years ending after December 15, 2002. The new interim disclosure provisions are effective for the first interim period beginning after December 15, 2002. Effective January 1, 2003, the Company adopted the prospective method provisions of SFAS No. 148, which apply the recognition provisions of FAS 123 to all employee awards granted, modified or settled after January 1, 2003. Accordingly, options which the Company granted in 2003 were valued at approximately \$0.8 million and will be amortized over the related vesting periods of the options.

With respect to the Company's stock options which were granted prior to 2003, the Company accounted for stock-based compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB No. 25), and related interpretations. Under APB No. 25, compensation cost is measured as the excess, if any, of the quoted market price of the Company's stock at the date of grant over the exercise price of the option granted. Compensation cost for stock options, if any, is recognized ratably over the vesting period. The Company's policy is to grant options with an exercise price equal to the quoted closing market price of the Company's stock on the business day preceding the grant date. Accordingly, no compensation cost has been recognized under the Company's stock option plans for the granting of stock options made prior to December 31, 2002.

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

SFAS No. 148 disclosure requirements, including the effect on net income and earnings per share if the fair value based method had been applied to all outstanding and unvested stock awards in each period, are presented below (in thousands, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2003	2002	2003	2002
Net income, as reported	\$ 32,529	\$ 30,761	\$ 67,718	\$ 52,749
Total stock based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(491)	(540)	(982)	(1,080)
Pro forma net income	\$ 32,038	\$ 30,221	\$ 66,736	\$ 51,669
Earnings per share:				
Basic as reported	\$ 0.27	\$ 0.27	\$ 0.58	\$ 0.44
Basic pro forma	\$ 0.26	\$ 0.26	\$ 0.57	\$ 0.43
Diluted as reported	\$ 0.27	\$ 0.26	\$ 0.57	\$ 0.44
Diluted pro forma	\$ 0.26	\$ 0.26	\$ 0.56	\$ 0.43

In November 2002, FASB issued FASB Interpretation No. 45, *Guarantors Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others* (FIN 45) (an interpretation of FASB Statements No. 5, 57 and 107 and rescission of FASB Interpretation No. 34). FIN 45 clarifies the requirements of FASB Statement No. 5, *Accounting for Contingencies*. It requires that upon issuance of a guarantee, the guarantor must recognize a liability for the fair value of the obligation it assumes under that guarantee regardless of whether or not the guarantor receives separate identifiable consideration (i.e., a premium). The Company adopted the new disclosure requirements, effective beginning with the consolidated financial statements for the 2002 fiscal year. FIN 45's provisions for initial recognition and measurement are effective on a prospective basis to guarantees issued or modified after December 31, 2002. The adoption of FIN 45 did not have a material impact on the Company.

In July 2002, FASB issued Statement 146, *Accounting for Costs Associated with Exit or Disposal Activities* (SFAS No. 146). This statement addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies Emerging Issues Task Force Issue No. 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in Restructuring)*. It addresses when to recognize a liability for a cost associated with an exit or disposal activity such as, but not limited to, termination benefits provided to current employees that are involuntarily terminated, costs to terminate a contract that is not a capital lease and costs to consolidate facilities or relocate employees. SFAS No. 146 does not apply to entities newly acquired in a business combination or with a disposal activity covered by FASB Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (SFAS No. 144) and to costs associated with the retirement of long-lived assets covered by FASB Statement No. 143, *Accounting for Asset Retirement Obligations*. SFAS No. 146 states that a liability for a cost associated with an exit or disposal activity be recognized and measured initially at fair value only when the liability is incurred and not at the date of an entity's commitment to a plan, as previously defined in Issue 94-3. The provisions of SFAS No. 146 shall be applied for exit and disposal activities that are initiated after December 31, 2002. The adoption of SFAS No. 146 did not have a material impact on the Company.

In April 2002, FASB issued Statement 145, *Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13 and Technical Corrections* (SFAS No. 145). This statement rescinds FASB Statement No. 4, *Reporting Gains and Losses from Extinguishment of Debt*. Debt extinguishments that do not meet the criteria for classification as extraordinary items in APB Opinion No. 30 should not be classified as extraordinary. The provisions of

SFAS No. 145 shall be applied in fiscal years beginning after May 15, 2002. Debt extinguishments that were classified as extraordinary in prior periods presented that do not meet the criteria of APB Opinion No. 30 for classification as an extraordinary item shall be reclassified. The Company adopted this statement, as required, effective January 1, 2003, and the adoption of SFAS No. 145 did not have a material impact on the consolidated financial statements of the Company.

Effective January 1, 2002, the Company adopted SFAS No. 144. This statement addresses financial accounting and reporting for the impairment of long-lived assets and for the disposition of long-lived assets. SFAS No. 144 requires, among other things, that the primary assets and liabilities and the results of operations of the Company's real properties which have been sold during 2002, or otherwise qualify as held for sale (as defined by SFAS No. 144), be classified as discontinued operations and segregated in the Company's Consolidated Statements of Income and Comprehensive Income and Balance Sheets. Properties classified as real estate held for sale generally represent properties that are under contract for sale and are expected to close within the next twelve months. SFAS No. 144 requires that the provisions of this statement be adopted prospectively. Accordingly, real estate designated as held for sale prior to January 1, 2002 will continue to be accounted for under the provisions of Statement 121, *Accounting for the Impairment of Long-Lived Assets*, and the results of operations, including impairment, gains and losses, of these properties are included in income from continuing operations. Real estate designated as held for sale subsequent to January 1, 2002 will be accounted for in accordance with the provisions of SFAS No. 144 and the results of operations of these properties are included in income from discontinued operations. Prior periods have been restated for comparability, as required.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. The most significant assumptions and estimates relate to impairments of real estate, recovery of mortgage notes and trade accounts receivable and depreciable lives.

Reclassifications

Certain prior period amounts have been reclassified to conform with current period presentation.

Note 3: Acquisitions and Dispositions

Spartan Acquisition

On January 3, 2003, the Company acquired a portfolio of seven grocery-anchored neighborhood shopping centers located in Michigan and aggregating 534,386 square feet for approximately \$46 million in cash (the Spartan Acquisition). The cash component of the acquisition was financed through borrowings under the Company's \$350 million revolving credit facility.

EIG Acquisition

On December 12, 2002, the Company acquired a portfolio of 57 community and neighborhood shopping centers from Equity Investment Group, a private retail-focused REIT. The acquisition of one additional shopping center from Equity Investment Group was completed on January 3, 2003 (collectively, the EIG Acquisition). The aggregate purchase price for the acquisition was approximately \$437 million, consisting of the assumption of approximately \$149 million of outstanding indebtedness, the issuance of approximately \$25 million of units in ERP and approximately \$263 million in cash. The cash component of the acquisition was financed with proceeds generated from the sale of four of

the Company's factory outlet centers (see Factory Outlet Center Disposition below) and through borrowings under the Company's \$350 million revolving credit facility.

CenterAmerica Acquisition

On March 1, 2002, the Company acquired a portfolio of 92 community and neighborhood shopping centers (the CenterAmerica Acquisition) from CenterAmerica Property Trust, L.P., a private company majority owned by Morgan Stanley Real Estate Fund II. As part of the transaction, the Company also acquired a 10% managing membership interest in a joint venture with a private U.S. pension fund. The joint venture currently owns 14 grocery-anchored shopping centers located in six states. The aggregate purchase price for the acquisition was approximately \$654 million, consisting of approximately \$365 million in cash and the assumption of approximately \$289 million of outstanding indebtedness. The cash component of the acquisition was financed with the proceeds of a public equity offering of the Company's common stock and with borrowings under the Company's then existing credit facilities and a \$125 million senior unsecured term loan facility.

Other Acquisitions

During the six months ended June 30, 2003, the Company acquired the remaining 50% interest in Vail Ranch II, a community shopping center in the later stages of development, and Panama City Square. Vail Ranch II is located in Temecula, California, and the 50% interest was acquired on February 25, 2003 for approximately \$1.5 million in cash and the satisfaction of \$9.0 million of mortgage indebtedness on the property. Panama City Square is a 289,119 square foot shopping center located in Panama City, Florida and was acquired on June 25, 2003 for approximately \$18.3 million, including the assumption of \$12.7 million of mortgage indebtedness.

In fiscal 2002, the Company acquired three properties, Midway Market Square, Superior Marketplace and Whitestown Plaza. Midway Market Square, a 234,670 square foot grocery-anchored community shopping center located in Elyria, Ohio, was acquired on November 20, 2002 for approximately \$23.7 million, including approximately \$17.8 million of assumed mortgage indebtedness. Superior Marketplace was acquired on July 31, 2002 from The Ellman Companies for approximately \$13.6 million in cash and the satisfaction of \$38.0 million of notes receivable and accrued interest. Superior Marketplace is an existing 148,302 square foot grocery-anchored community shopping center located in Superior, Colorado, northwest of Denver. The shopping center is currently in the later stages of development and is expected to total 295,602 square feet upon completion. Whitestown Plaza, an 80,612 square foot shopping center located in Whitesboro, New York, was acquired on April 3, 2002 in consideration of \$3.8 million of notes and interest receivable.

Factory Outlet Center Disposition

On December 19, 2002, the Company and Chelsea Property Group, Inc. completed the sale by the Company of four of its factory outlet centers (the Factory Outlet Disposition). The four properties included St. Augustine Outlet Center, located in St. Augustine, Florida; Factory Merchants Branson, located in Branson, Missouri; Factory Outlet Village Osage Beach, located in Osage Beach, Missouri; and Jackson Outlet Village, located in Jackson, New Jersey. As consideration for the four properties, the Company received gross proceeds of approximately \$193 million, and after costs associated with the disposition, the gain on sale was approximately \$79 million, and was included in income (loss) from discontinued operations. The proceeds were used to pay down a portion of the balance outstanding under the Company's \$350 million revolving credit facility, which had been drawn to fund a portion of the EIG Acquisition.

Other Dispositions

During the six months ended June 30, 2003, the Company sold 15 properties and two land parcels for aggregate gross proceeds of approximately \$30.4 million. In connection with the sale of these properties, and in accordance with

SFAS No. 144 (Note 2), the Company recorded the results of operations and the related gain/loss on sale as income (loss) from discontinued operations (Note 5).

During the six months ended June 30, 2002, the Company sold six properties, one outparcel and approximately 0.2 acres of land for aggregate gross proceeds of approximately \$17.0 million. The gain from these sales was approximately \$2.0 million and is allocated between Gain on sale of real estate and (Loss) gain on sale of discontinued operations in accordance with the provisions of SFAS No. 144.

Note 4: Real Estate Held for Sale

As of June 30, 2003, seven retail properties, two land parcels and one outparcel were classified as Real estate held for sale. These properties are located in eight states and have an aggregate gross leasable area of approximately 0.6 million square feet. Such properties had an aggregate book value of approximately \$17.7 million, net of accumulated depreciation of approximately \$4.0 million and impairment charges of \$6.0 million. In accordance with SFAS No. 144 (Note 2), the Company has recorded the results of operations and the related impairment of any properties classified as held for sale subsequent to December 31, 2001 as income (loss) from discontinued operations (Note 5).

As of December 31, 2002, 11 retail properties and two land parcels were classified as Real estate held for sale. These properties were located in seven states and had an aggregate gross leasable area of approximately 0.5 million square feet. Such properties had an aggregate book value of approximately \$21.3 million, net of accumulated depreciation of approximately \$4.0 million and impairment charges of approximately \$3.5 million. In accordance with SFAS No. 144, the Company has recorded the results of operations and the related impairment of any properties classified as held for sale subsequent to December 31, 2001 as income (loss) from discontinued operations.

Note 5: Income (Loss) from Discontinued Operations

The following is a summary of income (loss) from discontinued operations for the three and six months ended June 30, 2003 and 2002 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2003	2002	2003	2002
Total revenue

Note 6: Pro Forma Financial Information

The following pro forma financial information for the three and six months ended June 30, 2002 is presented as if the Factory Outlet Disposition, the EIG Acquisition, the CenterAmerica Acquisition, and the Company's public offering of 6,900,000 shares of common stock in January 2002 (the Common Stock Offering), had occurred on January 1, 2002. In management's opinion, all adjustments necessary to reflect the effects of these transactions have been made.

	Three Months Ended	Six Months Ended
	June 30, 2002	
Rental revenues	\$ 103,305	\$ 209,781
Expenses	(84,078)	(164,702)
Other income	3,577	8,325
Income from continuing operations	22,804	53,404
Net Income	\$ 26,330	\$ 53,455
Income from continuing operations per share - basic	\$ 0.18	\$ 0.45
Income from continuing operations per share - diluted	\$ 0.18	\$ 0.44
Net income per share - basic	\$ 0.22	\$ 0.45
Net income per share - diluted	\$ 0.22	\$ 0.44
Average shares outstanding - basic	94,701	94,520
Average shares outstanding - diluted	97,579	97,425

This pro forma financial information is not necessarily indicative of what the actual results of operations of the Company would have been assuming such transactions had been completed as of January 1, 2002, nor do they represent the results of operations of future periods.

Note 7: Investments in/Advances to Unconsolidated Ventures

At June 30, 2003, the Company had investments in four joint ventures: (1) Benbrooke Ventures, (2) CA New Plan Venture Fund, (3) Clearwater Mall and (4) The Centre at Preston Ridge, Phases 1, 2 and 3. The Company accounts for these joint venture investments using the equity method. The following table summarizes the joint

venture projects as of June 30, 2003 and December 31, 2002 (in thousands):

	City	State	JV Partner	Percent Ownership	Investments in/Advances to June 30, 2003	December 31, 2002

(1) Includes preferred returns of \$0.2 million and \$1.1 million for the three months ended June 30, 2003 and 2002, respectively, and \$0.5 and \$2.0 million for the six months ended June 30, 2003 and 2002, respectively.

The following is a brief summary of the joint venture obligations that the Company had as of June 30, 2003:

Benbrooke Ventures. The Company has an investment in a joint venture which owns three community and neighborhood shopping centers located in Dover, Delaware; Fruitland, Maryland; and Spotsylvania, Virginia. Under the terms of this joint venture, the Company has a 50% interest in the venture; however, the Company has agreed to contribute 80% of any capital required by the joint venture. The Company does not, however, expect that any significant capital contributions will be required.

CA New Plan Venture Fund. In connection with the CenterAmerica Acquisition, the Company assumed obligations under a joint venture agreement with a third-party institutional investor. The joint venture had loans outstanding of approximately \$90.1 million as of June 30, 2003. Under the terms of this joint venture, the Company has a 10% interest in the venture, and is responsible for contributing its pro rata share of any capital that might be required by the joint venture, up to a maximum amount of \$8.3 million, of which approximately \$5.7 million had been contributed by the Company as of June 30, 2003. The Company anticipates contributing the remaining \$2.6 million during the remainder of 2003.

Clearwater Mall, LLC. In October 2002, the Company contributed its Clearwater Mall property to this joint venture, which is currently redeveloping the property. The joint venture had loans outstanding of approximately \$20.2 million as of June 30, 2003. Under the terms of this joint venture, the Company has a 50% interest in the venture; however, the Company has agreed to contribute 75% of any capital that might be required by the joint venture. The Company does not, however, expect that any significant capital contributions will be required.

The Centre at Preston Ridge Joint Venture. The Company has investments in various joint ventures that own a community shopping center (The Centre at Preston Ridge), a shopping center development site and undeveloped land in Frisco, Texas.

Phase 1. Under the terms of this joint venture, the Company has a 25% interest in a venture that owns The Centre at Preston Ridge. The Company's ownership interest was reduced to 25% from 50% on November 25, 2002 when a U.S. partnership comprised substantially of foreign investors purchased a 70% interest in the joint venture. The Company has agreed to contribute its pro rata share of any capital that might be required by the joint venture; however, the Company does not expect that any significant capital contributions will be required. The joint venture had loans outstanding of approximately \$70.0 million as of June 30, 2003.

Phase 2. The Company has a 50% investment in a joint venture that owns approximately 38.6 acres of undeveloped land in Frisco, Texas. The Company has agreed to contribute its pro rata share of any capital that might be required by the joint venture; however, the Company does not expect that any significant capital contributions will be required. As of June 30, 2003, the joint venture had a mortgage loan outstanding of approximately \$3.0 million, payable to the Company.

Phase 3. The Company has a 50% investment in a joint venture that owns a shopping center development site consisting of approximately 5.4 acres of land in Frisco, Texas, on which a 51,000 square foot shopping center is currently under construction. The Company has agreed to contribute its pro rata share of any capital that might be required by the joint venture; however, the Company does not expect that any significant capital contributions will be required. The joint venture had loans outstanding of approximately \$4.1 million as of June 30, 2003.

Note 8: Debt Obligations

As of June 30, 2003 and December 31, 2002, the Company has debt obligations under various arrangements with financial institutions as follows (in thousands):

	Maximum Amount Available	Carrying Value as of		Stated Interest Rates	Scheduled Maturity Date
		June 30, 2003	December 31, 2002		
<u>CREDIT FACILITIES</u>					
Fleet Revolving Facility	\$ 350,000	\$ 125,000	\$ 75,000	LIBOR + 105 bp (1)	April 2005
Fleet Term Loan	155,000	155,000	155,000	LIBOR + 115 bp (1)	December 2003
Total Credit Facilities	\$ 505,000	\$ 280,000	\$ 230,000		
<u>MORTGAGES PAYABLE</u>					
Fixed Rate Mortgages	\$	527,357	\$ 529,256	6.670% - 9.625%	2004 - 2028

CAPITAL LEASES	\$	28,716	\$	28,866	7.500%	June 2031
TOTAL DEBT	\$	1,763,698	\$	1,742,342		

-
- (1) The Company incurs interest using the 30-day LIBOR rate which was 1.11% as of June 30, 2003.
 - (2) As defined in the applicable loan agreement, the Company incurs interest on these obligations using Moody's A Corporate Bond Index, which was 5.19% as of June 30, 2003, plus spreads ranging from 125 to 375 basis points.
 - (3) Represents convertible senior notes.
 - (4) Represents a promissory note issued in connection with the EIG Acquisition. The note was repaid in full on January 2, 2003.

The Company has a \$350 million senior unsecured revolving credit facility (the Fleet Revolving Facility), which matures on April 25, 2005, with a one-year extension option. As of June 30, 2003, the Fleet Revolving Facility bore interest at LIBOR plus 105 basis points, based on the Company's current debt rating.

The Company has a \$155 million senior unsecured term loan facility (the Fleet Term Loan). The facility matures on December 31, 2003 and contains covenants consistent with those contained in the Fleet Revolving Facility. As of June 30, 2003, the Fleet Term Loan bore interest at LIBOR plus 115 basis points, based on the Company's current debt rating.

On May 19, 2003, the Company completed a public offering of \$100 million aggregate principal amount of 3.75% convertible senior notes due June 2023 (the "Convertible Debt Offering"). On June 10, 2003, the underwriters exercised their over-allotment option and purchased an additional \$15 million aggregate principal amount of the notes. The notes are convertible into common stock of the Company upon the occurrence of certain events, at an initial conversion price of \$25.00 per share. The notes may not be redeemed by the Company prior to June 9, 2008, but are redeemable for cash, in whole or in part, any time thereafter. The net proceeds to the Company from the offering were approximately \$112 million and were used to repay a portion of the borrowings outstanding under the Fleet Revolving Facility.

The Fleet Revolving Facility and the Fleet Term Loan require that the Company maintain certain financial coverage ratios. These coverage ratios currently include:

net operating income of unencumbered assets to interest on unsecured debt ratio of at least 2:1

EBITDA to fixed charges ratio of at least 1.75:1

minimum tangible net worth of approximately \$1.3 billion

total debt to total adjusted assets of no more than 55%

total secured debt to total adjusted assets of no more than 40%

unsecured debt to unencumbered assets value ratio of no more than 55%

book value of ancillary assets to total adjusted assets of no more than 25%

book value of new construction assets to total adjusted assets of no more than 15%

FFO payout ratio no greater than 95%

On June 11, 2002, the Company completed a public offering of \$250 million aggregate principal amount of 5.875% senior unsecured notes due June 2007 (the "Bond Offering"). Interest on the notes is payable semi-annually on June 15 and December 15. The notes were priced at 99.66% of par value to yield 5.955%. Net proceeds from the offering were used to repay a portion of the borrowings under the Fleet Revolving Facility.

As of June 30, 2003, future expected/scheduled maturities of outstanding long-term debt obligations are as follows (in thousands):

2003 (remaining six months)	\$	211,925
2004		125,749
2005		286,099
2006		28,987
2007		307,063
Thereafter		786,111

Total debt maturities	1,745,934
Net unamortized premiums on mortgages	18,797
Net unamortized discount on notes	(3,149)
Fair value adjustment on debt subject to reverse swap agreement	2,116
Total debt obligations	\$ 1,763,698

Note 9: Risk Management and Use of Financial Instruments

Risk Management

In the normal course of its on-going business operations, the Company encounters economic risk. There are three main components of economic risk: interest rate risk, credit risk and market risk. The Company is subject to interest rate risk on its interest-bearing liabilities. Credit risk is the risk of default on the Company's operations and

tenants' inability or unwillingness to make contractually required payments. Market risk changes in the value of loans due to changes in interest rates or other market factors, including the rate of prepayments of principal and the value of the collateral underlying loans and the valuation of properties held by the Company.

Use of Derivative Financial Instruments

The Company's use of derivative instruments is primarily limited to the utilization of interest rate agreements or other instruments to manage interest rate risk exposures and not for speculative purposes. The principal objective of such arrangements is to minimize the risks and/or costs associated with the Company's operating and financial structure, as well as to hedge specific transactions. The counterparties to these arrangements are major financial institutions with which the Company and its affiliates may also have other financial relationships. The Company is potentially exposed to credit loss in the event of non-performance by these counterparties. However, because of their high credit ratings, the Company does not anticipate that any of the counterparties will fail to meet these obligations as they come due.

During the three months ended June 30, 2003, in order to mitigate the potential risk of adverse changes in the LIBOR swap rate, the Company entered into a 10-year forward starting interest rate swap for an aggregate of approximately \$47.0 million in notional amount. This derivative instrument is expected to be used to hedge the risk of changes in interest cash outflows on an anticipated fixed rate financing by effectively locking the LIBOR swap rate at 4.1135%. The swap is expected to be cash settled no later than the pricing of the forecasted hedged debt. The gain or loss on the swap will be deferred in accumulated other comprehensive income and will be amortized into earnings as an increase/decrease in effective interest expense during the same period or periods in which the hedged transaction affects earnings.

During the three months ended June 30, 2002, in order to hedge a portion of the expected cash flows on the anticipated long-term fixed rate borrowing, the Company entered into certain derivative instruments based on LIBOR for an aggregate of approximately \$90.0 million in notional amount. Under these agreements, the Company would generally settle the agreement upon consummation of the forecasted issuance of debt, at which time the Company would receive additional cash flow settlement if interest rates rose and pay cash if interest rates fell. On June 11, 2002, upon consummation of the Bond Offering, the Company settled these agreements for approximately \$1.9 million. The effects of such payments are deferred in accumulated other comprehensive income and will be amortized into earnings as an increase in effective interest expense over the term of the fixed rate borrowing.

The following table summarizes the terms and fair values of the Company's derivative financial instruments at June 30, 2003 (in thousands). The notional amount at June 30, 2003 provides an indication of the extent of the Company's involvement in these instruments at that time, but does not represent exposure to credit, interest rate or market risks.

Hedge Product	Hedge Type	Notional Amount	Strike	Maturity	Fair Value
Reverse Arrears Swap	Fair Value	\$ 50,000	4.357%	10/15/04	\$ 2,116
Forward Starting Swap	Cash Flow	47,000	4.114%	08/15/13	(879)
					\$ 1,237

On June 30, 2003, the reverse arrears swap and the forward starting swap were reported at their fair values as Other Assets of \$2.1 million and Other Liabilities of \$0.9 million, respectively. Additionally, the reverse arrears swap was reported as a component of the note payable to which it was assigned. As of June 30, 2003, there were \$2.4 million in deferred losses represented in OCI, representing the unamortized portion of the settlement costs for the hedge on the Bond Offering, as well as the unsettled portion of the forward starting swap.

Over time, the unrealized losses held in OCI will be reclassified to earnings in the same period(s) in which the hedged items are recognized in earnings. The current balance held in OCI is expected to be reclassified to earnings over

the lives of the current hedging instruments, or for realized losses on forecasted debt transactions, over the related term of the debt obligation, as applicable.

Concentration of Credit Risk

A concentration of credit risk arises in the Company's business when a national or regionally-based tenant occupies a substantial amount of space in multiple properties owned by the Company. In that event, if the tenant suffers a significant downturn in its business, it may become unable to make its contractual rent payments to the Company, exposing the Company to a potential loss in rental revenue that is magnified as a result of the tenant renting space in multiple locations. The Company regularly monitors its tenant base to assess potential concentrations of credit risk. Management believes the current credit risk portfolio is reasonably well diversified and does not contain any unusual concentration of credit risk. No tenant exceeds 5% of annual reported rental income.

Note 10: Minority Interest in Consolidated Partnership

In 1995, ERP, a consolidated entity, was formed to own certain real estate properties. A wholly-owned subsidiary of the Company is the sole general partner of ERP and is entitled to receive 99% of all net income and gains before depreciation, if any, after the limited partners receive their net income and gain allocations. Properties have been contributed to ERP in exchange for limited partnership units (which may be redeemed at stipulated prices for cash or shares of common stock of the Company, at the Company's option), cash and the assumption of mortgage indebtedness. These units are convertible into shares of common stock of the Company at exchange ratios from 1.0 to 1.4 shares of common stock for each unit. ERP unit information is summarized as follows:

	Total Units	Company Units	Limited Partner Units
Outstanding at December 31, 2002	5,565,066	3,430,524	2,134,542
Redeemed		1,541	(1,541)
Outstanding at June 30, 2003	5,565,066	3,432,065	2,133,001

Note 11: Stockholders Equity
Earnings per Share (EPS)

In accordance with the disclosure requirements of SFAS No. 128 (Note 2), a reconciliation of the numerator and denominator of basic and diluted EPS is provided as follows (in thousands, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2003	2002	2003	2002

Earnings per share - discontinued operations	(0.04)	0.04	(0.04)	
Diluted earnings per common share	\$ 0.27	\$ 0.26	\$ 0.57	\$ 0.44

Note - Preferred A shares are anti-dilutive for earnings per share calculations. On July 15, 2002, the Company redeemed all Preferred A shares outstanding, resulting in the issuance of approximately 1.9 million shares of common stock.

On January 29, 2002, the Company completed the Common Stock Offering. The net proceeds to the Company from the Common Stock Offering were approximately \$120.7 million, and were used initially to pay down amounts outstanding under the Company's existing revolving credit facilities (which amounts were subsequently re-drawn to finance the CenterAmerica Acquisition).

On July 15, 2002, pursuant to a notice issued to shareholders on June 5, 2002, the Company redeemed all outstanding shares of its Series A Cumulative Convertible Preferred Stock. Each share of Series A preferred stock was

redeemed for 1.24384 shares of common stock of the Company, and resulted in the issuance of approximately 1.9 million shares of common stock at an equivalent of \$20.10 per share. The redemption occurred at a discount to the carrying value of the preferred stock aggregating approximately \$7.0 million based on shares redeemed by the Company at the closing price at redemption.

On April 21, 2003, the Company completed a public offering of 8,000,000 depositary shares, each representing a 1/10 fractional interest of a share of 7.625% Series E Cumulative Redeemable Preferred Stock (the Preferred Stock Offering). The net proceeds to the Company from the Preferred Stock Offering were approximately \$193 million and were used to redeem all of the Company's outstanding Series B depositary shares (the Preferred Stock Redemption), each of which represented a 1/10 fractional interest of a share of the Company's 8 5/8% Series B Cumulative Redeemable Preferred Stock, as well as to repay a portion of the amount outstanding under the Fleet Revolving Facility.

On May 5, 2003, the Company completed the Preferred Stock Redemption at an aggregate cost of \$158 million. The redemption occurred at a premium to the carrying value of the preferred stock, aggregating approximately \$0.6 million based on shares redeemed by the Company at the closing price at redemption.

Note 12: Comprehensive Income

Total comprehensive income was \$31.9 million and \$29.7 million for the three months ended June 30, 2003 and 2002, respectively, and \$67.3 million and \$52.8 million for the six months ended June 30, 2003 and 2002, respectively. The primary components of comprehensive income, other than net income, are the adoption and continued application of SFAS No. 133 to the Company's cash flow hedges and the Company's mark-to-market on its available-for-sale securities.

As of June 30, 2003 and December 31, 2002, accumulated other comprehensive loss reflected in the Company's equity on the consolidated balance sheet is comprised of the following (in thousands):

	As of June 30, 2003	As of December 31, 2002
Unrealized gains on available-for-sale securities	\$ 1,447	\$ 1,142
Unrealized loss on interest risk hedges	(879)	
Realized losses on interest risk hedges, net	(1,544)	(1,735)
Accumulated other comprehensive loss	\$ (976)	\$ (593)

Note 13: Commitments and Contingencies

General

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

The Company is not presently involved in any material litigation nor, to its knowledge, is any material litigation threatened against the Company or its properties. The Company is involved in routine litigation arising in the ordinary course of business.

Funding Commitments

In addition to the joint venture funding commitments described in Note 7 above, the Company also has the following contractual obligations as of June 30, 2003, none of which the Company believes will have a material adverse affect:

Non-Recourse Debt Guarantees. Under certain Company and joint venture non-recourse mortgage loans, the Company could, under certain circumstances, be responsible for portions of the mortgage indebtedness in connection with certain customary non-recourse carve out provisions such as

environmental conditions, misuse of funds and material misrepresentations. As of June 30, 2003, the Company had mortgage loans outstanding of approximately \$557.0 million and joint ventures in which the Company has a direct or indirect interest had mortgage loans outstanding of approximately \$184.4 million.

Leasing Commitments. The Company has entered into leases, as lessee, in connection with ground leases for shopping centers which it operates, an office building which it sublets, and administrative space for the Company. These leases are accounted for as operating leases. The minimum annual rental commitments for these leases during the next five fiscal years and thereafter are approximately as follows (in thousands):

<u>Year</u>	
2003 (remaining six months)	\$ 1,258
2004	1,356
2005	1,323
2006	833
2007	543
Thereafter	13,043

Environmental Matters

Under various federal, state and local laws, ordinances and regulations, the Company may be considered an owner or operator of real property or may have arranged for the disposal or treatment of hazardous or toxic substances and, therefore, may become liable for the costs of removal or remediation of certain hazardous substances released on or in their property or disposed of by them, as well as certain other potential costs which could relate to hazardous or toxic substances (including governmental fines and injuries to persons and property). Such liability may be imposed whether or not the Company knew of, or was responsible for, the presence of these hazardous or toxic substances. As is common with community and neighborhood shopping centers, many of the Company's properties had or have on-site dry cleaners and/or on-site gasoline facilities. These operations could potentially result in environmental contamination at the properties.

The Company is aware that soil and groundwater contamination exists at some of its properties. The primary contaminants of concern at these properties include perchloroethylene and trichloroethylene (associated with the operations of on-site dry cleaners) and petroleum hydrocarbons (associated with the operations of on-site gasoline facilities). The Company is also aware that asbestos-containing materials exist at some of its properties. While the Company does not expect the environmental conditions at its properties, considered as a whole, to have a material adverse effect on the Company, there can be no assurance that this will be the case. Further, no assurance can be given that any environmental studies performed have identified or will identify all material environmental conditions, that any prior owner of the properties did not create a material environmental condition not known to the Company or that a material environmental condition does not otherwise exist with respect to any of the Company's properties.

Note 14: Subsequent Event

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

On July 21, 2003, the Company established a standby equity distribution program with BNY Capital Markets, Inc. pursuant to which the Company may issue and sell from time to time up to \$50 million of common stock in at the market transactions.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Consolidated Financial Statements and the accompanying notes thereto. Historical results and percentage relationships set forth in the Consolidated Statements of Income and Comprehensive Income contained in the Consolidated Financial Statements and accompanying notes, including trends which might appear, should not be taken as indicative of future operations.

On January 3, 2003, we completed the Spartan Acquisition. Accordingly, our results of operations for the three and six months ended June 30, 2003 include the results of operations of the properties acquired in the Spartan Acquisition.

On December 12, 2002, we completed the EIG Acquisition. Accordingly, our results of operations for the three and six months ended June 30, 2003 include the results of operations of the properties acquired in the EIG Acquisition.

On March 1, 2002, we completed the CenterAmerica Acquisition. As part of the acquisition, we also acquired a 10% managing membership interest in a joint venture with a private U.S. pension fund. Accordingly, our results of operations for the three and six months ended June 30, 2003 and 2002 include the results of operations of the properties acquired in the CenterAmerica Acquisition from and after March 1, 2002.

During the third and fourth quarters of 2002 and the first and second quarters of 2003, we acquired three properties, Superior Marketplace, Midway Market Square and Panama City Square, as well as the remaining 50% interest in Vail Ranch II (collectively, *Other Acquisitions*). Accordingly, our results of operations for the three and six months ended June 30, 2003 include the results of operations of the *Other Acquisitions*.

Results of operations for the three months ended June 30, 2003 and 2002

Revenues:

Total rental revenue increased \$20.8 million, or 21%, from \$100.8 million for the three months ended June 30, 2002 to \$121.6 million for the three months ended June 30, 2003. The major areas of change are discussed below.

Rental income increased \$17.0 million, or 22%, from \$78.9 million for the three months ended June 30, 2002 to \$95.9 million for the three months ended June 30, 2003. The following factors accounted for this variance:

The EIG Acquisition, which increased rental income by approximately \$12.6 million

The Spartan Acquisition, which increased rental income by approximately \$1.3 million

Other Acquisitions, which increase rental income by approximately \$1.7 million

Increased lease termination fee income, which increased rental income by approximately \$0.2 million

Increases in rental rates, combined with rental revenues generated by properties previously under redevelopment, which accounted for the balance of the variance

Percentage rents increased \$0.5 million, or 33%, from \$1.5 million for the three months ended June 30, 2002 to \$2.0 million for the three months ended June 30, 2003. This variance is primarily attributable to a transition of certain tenants' leases from annual minimum rent based to percentage rent based. This variance was compounded by a general increase in tenants' sales.

Expense reimbursements increased \$3.3 million, or 16%, from \$20.4 million for the three months ended June 30, 2002 to \$23.7 million for the three months ended June 30, 2003. The following factors accounted for this variance:

The EIG Acquisition, which increased expense reimbursements by approximately \$3.3 million

The Spartan Acquisition, which increased expense reimbursements by approximately \$0.3 million

Other Acquisitions, which increased expense reimbursements by approximately \$0.4 million

A decrease in the amount of reimbursable operating expenses, compounded by lower recovery rates, which accounted for the balance of the variance

Interest, dividend and other income decreased \$0.8 million, or 30%, from \$2.7 million for the three months ended June 30, 2002 to \$1.9 million for the three months ended June 30, 2003. This variance is primarily attributable to the loss of interest income on certain loans receivable, which were paid off during the first six months of 2003.

Equity in income of unconsolidated ventures increased \$0.4 million, or 50%, from \$0.8 million for the three months ended June 30, 2002 to \$1.2 million for the three months ended June 30, 2003. This variance is primarily attributable to our share of the gain recognized on the sale of a joint venture property.

Expenses:

Total expenses increased \$10.5 million, or 14%, from \$77.5 million for the three months ended June 30, 2002 to \$88.0 million for the three months ended June 30, 2003. The major areas of change are discussed below.

Operating costs increased \$6.3 million, or 37%, from \$17.0 million for the three months ended June 30, 2002 to \$23.3 million for the three months ended June 30, 2003. The following factors accounted for this variance:

The EIG Acquisition, which increased operating costs by approximately \$3.0 million

The Spartan Acquisition, which increased operating costs by approximately \$0.2 million

Other Acquisitions, which increased operating costs by approximately \$0.3 million

Increased insurance expense as a result of higher premiums under our renewed policy and our addition of a higher coverage terrorism clause of approximately \$0.8 million

Combined increases in payroll, utilities and professional services of approximately \$2.0 million

Real estate and other taxes increased \$2.9 million, or 24%, from \$11.9 million for the three months ended June 30, 2002 to \$14.8 million for the three months ended June 30, 2003. The following factors accounted for this variance:

The EIG Acquisition, which increased real estate and other taxes by approximately \$2.0 million

The Spartan Acquisition, which increased real estate and other taxes by approximately \$0.2 million

Other Acquisitions, which increased real estate and other taxes by approximately \$0.3 million

Property tax rate increases at certain municipalities, combined with higher assessments at certain properties, which increased real estate and other taxes by approximately \$0.4 million

Interest expense increased \$0.9 million, or 4%, from \$24.0 million for the three months ended June 30, 2002 to \$24.9 million for the three months ended June 30, 2003. The following factors accounted for this variance:

Debt assumed in connection with the EIG Acquisition, which increased interest expense by approximately \$2.4 million

Debt assumed in connection with the Other Acquisitions, which increased interest expense by approximately \$0.4 million

The Convertible Debt Offering and the Bond Offering, which increased interest expense by approximately \$2.9 million

Lower outstanding balance under the Fleet Revolving Facility, primarily attributable to repayments with funds from the Preferred Stock Offering and the Convertible Debt Offering, compounded by lower interest rates, which reduced interest expense by approximately \$1.3 million

The payoff of the variable rate REMIC debt, which reduced interest expense by approximately \$1.0 million

The payoff of two mortgages, which decreased interest expense by approximately \$0.4 million

The expiration of a two-year interest rate swap agreement in October 2002 with Fleet National Bank, compounded by interest received from our reverse arrears swap agreement, which decreased interest expense by approximately \$1.3 million

Reduced amortization of debt issuance costs, which reduced interest expense by approximately \$0.8 million

Depreciation and amortization expense increased \$1.7 million, or 10%, from \$17.1 million for the three months ended June 30, 2002 to \$18.8 million for the three months ended June 30, 2003. The following factors accounted for this variance:

The EIG Acquisition, which increased depreciation and amortization expense by approximately \$2.2 million

The Spartan Acquisition, which increased depreciation and amortization expense by approximately \$0.2 million

Other Acquisitions, which increased depreciation and amortization expense by approximately \$0.3 million

Reductions in the book value of certain properties not included in our held for sale pool, attributable to impairment taken in the fourth quarter of 2002, which decreased depreciation and amortization expense by approximately \$0.6 million

Properties contributed to joint venture projects, which accounted for the balance of the variance

General and administrative expenses decreased \$1.2 million, or 22%, from \$5.4 million for the three months ended June 30, 2002 to \$4.2 million for the three months ended June 30, 2003. The following factors accounted for this variance:

Increased payroll expense, attributable to additional personnel hired in conjunction with our acquisitions, which increased general and administrative expense by approximately \$0.4 million

Increased utility expense, attributable to our operation of additional offices nationwide, which increased general and administrative expense by approximately \$0.2 million

Decreased franchise tax, which reduced general and administrative expense by approximately \$1.8 million

Minority Interest in Income of Consolidated Partnership:

Minority interest in income of consolidated partnership increased \$0.3 million, or 300%, from \$0.1 million for the three months ended June 30, 2002 to \$0.4 million for the three months ended June 30, 2003. This increase is primarily attributable to our issuance of additional ERP partnership units in December 2002 in connection with the EIG Acquisition.

Discontinued Operations:

Effective January 1, 2002, we adopted SFAS No. 144. This statement retains the requirement of APB Opinion No. 30 to report discontinued operations separately from continuing operations, and extends that reporting to a component of an entity that either has been disposed of (by sale, by abandonment, or in a distribution to owners) or is classified as held for sale. As of June 30, 2003, such properties generated approximately \$0.7 million, \$4.6 million and \$0.1 million in results of operations, impairment expense and gain on sale, respectively. As of June 30, 2002, such properties generated approximately \$5.9 million, \$4.2 million and \$1.8 million in results of operations, impairment expense and loss on sale, respectively. Accordingly, these amounts have been classified as discontinued operations.

Results of operations for the six months ended June 30, 2003 and 2002

Revenues:

Total rental revenue increased \$58 million, or 31%, from \$184.9 million for the six months ended June 30, 2002 to \$242.9 million for the three months ended June 30, 2003. The major areas of change are discussed below.

Rental income increased \$45.5 million, or 31%, from \$145.6 million for the six months ended June 30, 2002 to \$191.1 million for the six months ended June 30, 2003. The following factors accounted for this variance:

The CenterAmerica Acquisition, which increased rental income by approximately \$14.1 million

The EIG Acquisition, which increased rental income by approximately \$25.0 million

The Spartan Acquisition, which increased rental income by approximately \$2.6 million

Other Acquisitions, which increased rental income by approximately \$3.4 million

Increases in rental rates, combined with rental revenues generated by properties previously under redevelopment, which increased rental income by approximately \$1.0 million

Decreased lease termination fee income, which reduced rental income by approximately \$0.6 million

Expense reimbursements increased \$12.6 million, or 35%, from \$35.5 million for the six months ended June 30, 2002 to \$48.1 million for the six months ended June 30, 2003. The following factors accounted for this variance:

The CenterAmerica Acquisition, which increased expense reimbursements by approximately \$2.8 million

The EIG Acquisition, which increased expense reimbursements by approximately \$6.7 million

The Spartan Acquisition, which increased expense reimbursements by approximately \$0.7 million

Other Acquisitions, which increased expense reimbursements by approximately \$0.8 million

An increase in reimbursable real estate taxes and property operating expenses, including insurance and snow removal costs, which accounted for the balance of the variance

Interest, dividend and other income decreased \$0.6 million, or 10%, from \$5.9 million for the six months ended June 30, 2002 to \$5.3 million for the six months ended June 30, 2003. This variance is primarily attributable to the loss of interest income from certain notes receivable, which were paid off during the period.

Equity in income of unconsolidated ventures decreased \$0.9 million, or 35%, from \$2.6 million for the six months ended June 30, 2002 to \$1.7 million for the six months ended June 30, 2003. This variance is primarily attributable to reduced income from our investment in The Centre at Preston Ridge Phase 1 joint venture, in which our investment percentage decreased to 25% from 50% on November 25, 2002.

Expenses:

Total expenses increased \$36.7 million, or 26%, from \$141.1 million for the six months ended June 30, 2002 to \$177.8 million for the six months ended June 30, 2003. The major areas of change are discussed below.

Operating costs increased \$16.1 million, or 53%, from \$30.3 million for the six months ended June 30, 2002 to \$46.4 million for the six months ended June 30, 2003. The following factors accounted for this variance:

The CenterAmerica Acquisition, which increased operating expenses by approximately \$3.7 million

The EIG Acquisition, which increased operating expenses by approximately \$6.3 million

The Spartan Acquisition, which increased operating expenses by approximately \$0.5 million

Other Acquisitions, which increased operating expenses by approximately \$0.7 million

Increased insurance expense of approximately \$1.4 million, attributable to higher premiums under our renewed policy and our addition of a higher coverage terrorism clause

Increased snow removal costs of approximately \$2.1 million, attributable to unusually harsh winter conditions in the Northeast and Midwest as compared to 2002

Combined increases in utilities, cleaning, security and professional expenses of approximately \$1.4 million

Real estate and other taxes increased \$9.2 million, or 43%, from \$21.3 million for the six months ended June 30, 2002 to \$30.5 million for the six months ended June 30, 2003. The following factors accounted for this variance:

The CenterAmerica Acquisition, which increased real estate and other taxes by approximately \$2.8 million

The EIG Acquisition, which increased real estate and other taxes by approximately \$3.9 million

The Spartan Acquisition, which increased real estate and other taxes by approximately \$0.4 million

Other Acquisitions, which increase real estate and other taxes by approximately \$0.4 million

Property tax rate increases at certain municipalities, combined with higher assessments at certain properties, which increased real estate and other taxes by approximately \$1.7 million

Interest expense increased \$7.2 million, or 16%, from \$43.8 million for the six months ended June 30, 2002 to \$51.0 million for the six months ended June 30, 2003. The following factors accounted for this variance:

Debt assumed in connection with the CenterAmerica Acquisition, which increased interest expense by approximately \$1.2 million

Debt assumed in connection with the EIG Acquisition, which increased interest expense by approximately \$4.9 million

Debt assumed in connection with the Other Acquisitions, which increased interest expense by approximately \$0.7 million

The Convertible Debt Offering and the Bond Offering, which increased interest expense by approximately \$5.2 million

Lower outstanding balance under the Fleet Revolving Facility, primarily attributable to repayments with funds from the Preferred Stock Offering and the Convertible Debt Offering, compounded by lower interest rates, which decreased interest expense by approximately \$0.4 million

The payoff of two mortgages, which decreased interest expense by approximately \$0.8 million

The expiration of a two-year interest rate swap agreement in October 2002 with Fleet National Bank, compounded by interest received from our reverse arrears swap agreement, which decreased interest expense by approximately \$2.2 million

Increased capitalization with respect to our redevelopment projects, which decreased interest expense by \$0.4 million

A reduced amount amortization attributable to debt issuance costs, which decreased interest expense by approximately \$1.0 million

Depreciation and amortization expense increased \$5.7 million, or 18%, from \$32.0 million for the six months ended June 30, 2002 to \$37.7 million for the six months ended June 30, 2003. The following factors accounted for this variance:

The CenterAmerica Acquisition, which increased depreciation and amortization by approximately \$2.3 million

The EIG Acquisition, which increased depreciation and amortization by approximately \$4.3 million

The Spartan Acquisition, which increased depreciation and amortization by approximately \$0.4 million

Other Acquisitions, which increased depreciation and amortization by approximately \$0.6 million

Reductions in the book value of certain properties not included in our held for sale pool, attributable to impairment taken in the fourth quarter of 2002, which decreased depreciation and amortization expense by approximately \$1.1 million

Properties contributed to joint venture projects, which accounted for the balance of the variance

Provision for doubtful accounts decreased \$0.9 million, or 19%, from \$4.7 million for the six months ended June 30, 2002 to \$3.8 million for the six months ended June 30, 2003. This decrease reflects the \$1.7 million received from Kmart Corporation in satisfaction of previously reserved accounts receivable, partially offset by increases attributable to the EIG Acquisition, the Spartan Acquisition and Other Acquisitions.

Gains on the Sale of Assets:

We sold one single tenant property and one outparcel during 2002 that resulted in a gain of approximately \$0.4 million.

Minority Interest in Income of Consolidated Partnership:

Minority interest in income of consolidated partnership increased \$0.5 million, or 167%, from \$0.3 million for the six months ended June 30, 2002 to \$0.8 million for the six months ended June 30, 2003. This increase is primarily attributable to our issuance of additional ERP partnership units in December 2002 in connection with the EIG Acquisition.

Discontinued Operations:

Effective January 1, 2002, we adopted SFAS No. 144. This statement retains the requirement of APB Opinion No. 30 to report discontinued operations separately from continuing operations, and extends that reporting to a component of an entity that either has been disposed of (by sale, by abandonment, or in a distribution to owners) or is classified as held for sale. As of June 30, 2003, such properties generated approximately \$0.8 million, \$8.0 million and \$3.6 million in results of operations, impairment expense and gain on sale, respectively. As of June 30, 2002, such properties generated approximately \$12.0 million, \$13.6 million and \$1.6 million in results of operations, impairment expense and gain on sale, respectively. Accordingly, these amounts have been classified as discontinued operations.

Same Property Analysis

Included in our consolidated results of operations are the results of operations of shopping centers that have been owned for the full periods presented (Same-Store Properties). The Same-Store Properties results exclude the results of operations of properties that have undergone or are undergoing redevelopment during the applicable periods, as well as properties acquired or disposed of during the periods presented. Same-Store Properties financial information and statistics are as follows (in thousands, except for number of properties included in analysis and percent leased (weighted average)):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2003	2002	2003	2002
Number of properties included in analysis	256	256	180	180
Percent leased (weighted average)	90.5%	91.4%	90.0%	91.8%
Rental revenues:				
Rental income (1)	\$ 64,447	\$ 63,000	\$ 90,464	\$ 88,548
Percentage rents	1,259	739	1,928	2,191
Expense reimbursements	15,378	16,084	23,207	22,111
Total rental revenues	81,084	79,823	115,599	112,850
Expenses:				
Operating costs	14,680	12,687	20,494	16,815
Real estate and other taxes	9,726	9,277	13,598	12,537
Provision for doubtful accounts	336	1,523	604	2,289

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

Total expenses		24,742		23,487		34,696		31,641
Net operating income	\$	56,342	\$	56,336	\$	80,903	\$	81,209

(1) Amounts exclude lease termination fees.

Same-Store Properties Results of operations for the three months ended June 30, 2003 and 2002

Revenues:

Rental income for the Same-Store Properties increased \$1.4 million, or 2%, from \$63.0 million for the three months ended June 30, 2002 to \$64.4 million for the three months ended June 30, 2003. This variance is

attributable to increased rental rates, as well as increased billings for rent step-ups, which are based on the consumer price index.

Percentage rents for the Same-Store Properties increased \$0.6 million, or 86%, from \$0.7 million for the three months ended June 30, 2002 to \$1.3 million for the three months ended June 30, 2003. This variance is primarily attributable to a general increase in tenants' sales.

Expense reimbursements decreased \$0.7 million, or 4%, from \$16.1 million for the three months ended June 30, 2002 to \$15.4 million for the three months ended June 30, 2003. This decrease is primarily attributable to a decrease in the recovery of reimbursable operating expenses.

Expenses:

Total expenses increased \$1.2 million, or 5%, from \$23.5 million for the three months ended June 30, 2002 to \$24.7 million for the three months ended June 30, 2003. The major areas of change are discussed below.

Operating expenses increased \$2.0 million, or 16%, from \$12.7 million for the three months ended June 30, 2002 to \$14.7 million for the three months ended June 30, 2003. This variance is attributable to (1) increased insurance expense as a result of higher premiums under our renewed policy and our addition of a higher coverage terrorism clause and (2) increased utility and snow removal expenses attributable to unfavorable weather conditions as compared to the same period in 2002.

Real estate and other taxes increased \$0.4 million, or 4%, from \$9.3 million for the three months ended June 30, 2002 to \$9.7 million for the three months ended June 30, 2003. This increase is due primarily to property tax rate increases in certain municipalities combined with higher assessments at certain properties in 2003.

Provision for doubtful accounts decreased \$1.2 million, or 80%, from \$1.5 million for the three months ended June 30, 2002 to \$0.3 million for the three months ended June 30, 2003. This decrease is primarily attributable to the \$1.7 million received from Kmart Corporation in satisfaction of previously reserved accounts receivable.

Same-Store Properties Results of operations for the six months ended June 30, 2003 and 2002

Revenues:

Rental income for the Same-Store Properties increased \$2.0 million, or 2%, from \$88.5 million for the six months ended June 30, 2002 to \$90.5 million for the six months ended June 30, 2003. This variance is attributable to increased rental rates, as well as increased billings for rent step-ups, which are based on the consumer price index.

Expense reimbursements increased \$1.1 million, or 5%, from \$22.1 million for the six months ended June 30, 2002 to \$23.2 million for the six months ended June 30, 2003. This variance is primarily attributable to an increase in reimbursable real estate taxes and property operating expenses.

Expenses:

Total expenses increased \$3.1 million, or 10%, from \$31.6 million for the six months ended June 30, 2002 to \$34.7 million for the six months ended June 30, 2003. The major areas of change are discussed below.

Operating expenses increased \$3.7 million, or 22%, from \$16.8 million for the six months ended June 30, 2002 to \$20.5 million for the six months ended June 30, 2003. This variance is attributable to (1) increased insurance expense as a result of higher premiums under our renewed policy and our addition of a higher coverage terrorism clause and (2) increased utility and snow removal expenses attributable to unfavorable weather conditions as compared to the same period in 2002.

Real estate and other taxes increased \$1.1 million, or 9%, from \$12.5 million for the six months ended June 30, 2002 to \$13.6 million for the six months ended June 30, 2003. This increase is due primarily to property tax rate increases in certain municipalities combined with higher assessments at certain properties in 2003.

Provision for doubtful accounts decreased \$1.7 million, or 74%, from \$2.3 million for the six months ended June 30, 2002 to \$0.6 million for the six months ended June 30, 2003. This decrease is primarily attributable to the \$1.7 million received from Kmart Corporation in satisfaction of previously reserved accounts receivable.

Funds from Operations

Funds from Operations (FFO) is a widely used performance measure for real estate companies and is provided here as a supplemental measure of operating performance. We calculate FFO in accordance with the best practices described in the April 2002 National Policy Bulletin of the National Association of Real Estate Investment Trusts (the White Paper). The White Paper defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from debt restructuring and sales of property, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. Given the nature of our business as a real estate owner and operator, we believe that FFO is helpful to investors as a measure of our operational performance because it excludes various items included in net income that do not relate to or are not indicative of our operating performance such as various non-recurring items, gains and losses on sales of real estate and real estate related depreciation and amortization, which can make periodic and peer analyses of operating performance more difficult to compare. FFO should not, however, be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of our financial performance, is not an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, and is not indicative of funds available to fund our cash needs, including our ability to make distributions. Our computation of FFO may differ from the methodology utilized by other equity REITs to calculate FFO and, therefore, may not be comparable to such other REITs.

The following information is provided to reconcile net income, the most comparable GAAP number, to FFO, and to show the items included in our FFO for the past periods indicated (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2003	2002	2003	2002
Net income	\$ 32,529	\$ 30,761	\$ 67,718	\$ 52,749
Add:				
Depreciation and amortization				
Continuing operations real estate assets (1)	19,037	17,478	38,193	32,613
Discontinued operations real estate assets	113	1,423	329	2,979
Impairment of real estate				
Impairment of real estate held for sale	4,575	4,175	8,029	13,604
Deduct:				
Preferred Dividends	(5,753)	(5,646)	(10,612)	(11,305)
Gain on the sale of real estate (2)		(10)		(202)
Gain on the sale of discontinued operations (2)	(682)	(1,755)	(1,682)	(1,622)
Funds from operations basic	49,819	46,426	101,975	88,816
Add:				
Preferred A dividends		787		1,587
Minority interest in income of consolidated partnership	375	104	776	344
Funds from operations diluted	\$ 50,194	\$ 47,317	\$ 102,751	\$ 90,747
Weighted average of common shares outstanding diluted	99,953	98,072(3)	99,750	96,912(3)

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

- (1) Includes pro rata share of joint venture projects.
- (2) Excludes gain/loss on sale of land, includes gain on sale of joint venture property.
- (3) Includes the dilutive effect of convertible Preferred A shares. On July 15, 2002, the Company redeemed all Preferred A shares outstanding, resulting in the issuance of approximately 1.9 million shares of common stock at an equivalent of \$20.10 per share.

Liquidity and Capital Resources

As of June 30, 2003, we had approximately \$29.6 million in available cash, cash equivalents, restricted cash and marketable securities. As a REIT, we are required to distribute at least 90% of our taxable income to our stockholders on an annual basis. Therefore, as a general matter, it is unlikely that we will have any substantial cash balances that could be used to meet our liquidity needs. Instead, these needs must be met with cash generated from operations and external sources of capital.

Short-Term Liquidity Needs

Our short-term liquidity requirements consist primarily of funds necessary to pay for operating and other expenses directly associated with our portfolio of properties (including regular maintenance items), interest expense and scheduled principal payments on our outstanding debt, capital expenditures incurred to facilitate the leasing of space (*e.g.*, tenant improvements and leasing commissions), and quarterly dividends and distributions that we pay to our common and preferred stockholders and holders of partnership units in a partnership that we control. Historically, we have satisfied these requirements principally through cash generated from operations. We believe that cash generated from operations and borrowings under the Fleet Revolving Facility will be sufficient to meet our short-term liquidity requirements; however, there are certain factors that may have a material adverse effect on our cash flow.

We derive substantially all of our revenue from tenants under existing leases at our properties. Therefore, our operating cash flow is dependent on the rents that we are able to charge to our tenants, and the ability of these tenants to make their rental payments. We believe that the nature of the properties in which we typically invest - primarily community and neighborhood shopping centers - provides a more stable revenue flow in uncertain economic times, because consumers still need to purchase basic living essentials such as food and soft goods. However, general economic downturns, or economic downturns in one or more markets in which we own properties, still may adversely impact the ability of our tenants to make lease payments and our ability to re-lease space on favorable terms as leases expire. In either of these instances, our cash flow would be adversely affected.

The current economic downturn in the United States has had an adverse effect on our performance thus far. A continuation of the current downturn would continue to negatively impact our operating results in 2003. The extent of such impact is dependent upon the magnitude and length of the downturn.

In January 2002, Kmart Corporation, one of our largest tenants, filed for bankruptcy protection under Chapter 11 of the federal bankruptcy laws. As part of the bankruptcy process, (i) Kmart rejected leases at a total of 13 of our properties (including six leases that were rejected on April 30, 2003, the annualized base rent for which was approximately \$2.2 million, or approximately \$3.83 per square foot), and (ii) we entered into agreements to reduce Kmart's rent at eight of our properties (including rental reductions at six properties that were effective April 1, 2003) that currently are in effect. In connection with the confirmation of its bankruptcy plan of reorganization, which became effective on May 5, 2003, Kmart affirmed its remaining 29 leases with us.

We are in the process of re-leasing the space at the 13 rejected lease locations. In some cases we expect to re-lease the entire space to a single tenant while in other cases we expect to divide the space and lease to multiple tenants. It may take a significant amount of time to re-lease the space at these rejected lease locations and we may not be able to achieve the rental rates that Kmart was previously paying at these locations. Depending on the amount of time it takes to re-lease the space at the rejected lease locations and the rents we are able to achieve from any new

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

leases for these spaces, the overall impact of the lease rejections could impact our short-term liquidity. We do not, however, believe the lease rejections will have a material adverse effect on our short or long-term liquidity.

We are not currently aware of any pending tenant bankruptcies that are likely to materially affect our rental revenues.

In December 2002, we completed the EIG Acquisition, which increased the net rentable area of our properties by approximately 7.9 million square feet. As a result of this acquisition, we have and will continue to incur substantial, additional expenses that are attributable to the operation of these properties. We also assumed or

incurred approximately \$412 million of additional indebtedness to finance the transaction. Subsequently, in connection with the Factory Outlet Disposition, we repaid approximately \$193 million of this debt. In January 2003, we completed the Spartan Acquisition, which increased the net rentable area of our properties by approximately 0.5 million square feet. We also incurred approximately \$46 million of additional debt to finance the transaction. While we believe that the cash generated by these acquired properties will more than offset the operating and interest expenses associated with these properties, it is possible that these properties may not perform as well as expected and as a result, our cash needs may increase. In addition, there may be other costs incurred as a result of the acquisition of these properties, including increased general and administrative costs while we assimilate such a large number of properties into our operating system.

Our current redevelopment pipeline is comprised of 27 redevelopment projects, including 23 community and neighborhood shopping centers, one enclosed regional mall project and three outparcels, the aggregate cost of which (including costs incurred in prior years on these projects) is expected to be approximately \$113.4 million and which we intend on financing through draws on the Fleet Revolving Facility.

We regularly incur significant expenditures in connection with the re-leasing of our retail space, principally in the form of tenant improvements and leasing commissions. The amounts of these expenditures can vary significantly, depending on negotiations with tenants and the willingness of tenants to pay higher base rents over the life of the leases. We also incur expenditures for certain recurring capital expenses. We expect to pay for re-leasing and recurring capital expenditures out of cash from operations.

We have established a stock repurchase program under which we may repurchase up to \$75 million of our outstanding common stock through periodic open market transactions or through privately negotiated transactions. As of June 30, 2003, we had repurchased approximately 2,150,000 shares of common stock under this program at an average purchase price of \$15.30 per share. In light of the current trading price of our common stock, we do not anticipate effecting additional stock repurchases in the near future, although we could reevaluate this determination at any time based on market conditions.

We have also established a repurchase program under which we may repurchase up to \$125 million of our outstanding preferred stock and public debt through periodic open market transactions or through privately negotiated transactions. As of June 30, 2003, no purchases had been made under this program.

The current quarterly dividend on our common stock is \$0.4125 per share. We also pay regular quarterly dividends on our preferred stock. The maintenance of these dividends is subject to various factors, including the discretion of our Board of Directors, our ability to pay dividends under Maryland law, the availability of cash to make the necessary dividend payments and the effect of REIT distribution requirements, which require at least 90% of our taxable income to be distributed to stockholders. We also make regular quarterly distributions on units in a partnership that we control.

In addition, under our existing credit facilities, we are restricted from paying common stock dividends that would exceed 95% of our funds from operations during any four-quarter period.

Long-Term Liquidity Needs

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

Our long-term liquidity requirements consist primarily of funds necessary to pay for the principal amount of our long-term debt as it matures, significant non-recurring capital expenditures that need to be made periodically at our properties, redevelopment projects that we undertake at our properties and the costs associated with acquisitions of properties that we pursue. Historically, we have satisfied these requirements principally through the most advantageous source of capital at the time, which has included the incurrence of new debt through borrowings (through public offerings of unsecured debt and private incurrence of secured and unsecured debt), sales of common and preferred stock, capital raised through the disposition of assets, repayment by third parties of notes receivable and joint venture capital transactions. We believe that these sources of capital will continue to be available in the

future to fund our long-term capital needs; however, there are certain factors that may have a material adverse effect on our access to these capital sources.

Our ability to incur additional debt is dependent upon a number of factors, including our degree of leverage, the value of our unencumbered assets, our credit rating and borrowing restrictions imposed by existing lenders. Currently, we have investment grade credit ratings for prospective unsecured debt offerings from two major rating agencies - Standard & Poor's (BBB) and Moody's Investor Service (Baa2). A downgrade in outlook or rating by a rating agency can occur at any time if the agency perceives an adverse change in our financial condition, results of operations or ability to service debt. If such a downgrade occurs, it would increase the interest rate currently payable under our existing credit facilities, it likely would increase the costs associated with obtaining future financing, and it potentially could adversely affect our ability to obtain future financing.

Our ability to raise funds through sales of common stock and preferred stock is dependent on, among other things, general market conditions for REITs, market perceptions about our company and the current trading price of our stock. We will continue to analyze which source of capital is most advantageous to us at any particular point in time, but the equity markets may not be consistently available on attractive terms.

We have selectively effected asset sales to generate cash proceeds over the last two years. In particular, in December 2002 we completed the Factory Outlet Disposition and generated gross proceeds of approximately \$193 million. During the first six months of 2003 and during fiscal 2002, we also sold other assets and generated proceeds from certain of our joint venture projects and notes receivable that raised an additional \$32.8 million and \$172 million in gross proceeds, respectively. Our ability to generate cash from asset sales is limited by market conditions and certain rules applicable to REITs. Our ability to sell properties in the future in order to raise cash will necessarily be limited if market conditions make such sales unattractive.

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

The following table summarizes all of our long-term contractual cash obligations, excluding interest, to pay third parties as of June 30, 2003 (based on a calendar year, in thousands):

Contractual Cash Obligations	Total	Less than 1 year	1 - 3 years	3 - 5 years	More than 5 years
Long-Term Debt (1)	\$ 1,717,218	\$ 211,796	\$ 411,393	\$ 335,321	\$ 758,708
Capital Lease Obligations	28,716	129	455	729	27,403
Operating Leases	18,356	1,258	2,679	1,376	13,043
Total	\$ 1,764,290	\$ 213,183	\$ 414,527	\$ 337,426	\$ 799,154

(1) Long-term debt includes scheduled amortization and scheduled maturities for mortgage loans, notes payable and credit facilities.

In January 2003, we repaid \$28.3 million of Notes payable, other with deposits held in escrow. On March 3, 2003, we repaid \$110.5 million of mortgage indebtedness that was to mature in July 2003 through borrowings under the Fleet Revolving Facility. On April 21, 2003, we completed the Preferred Stock Offering. Our net proceeds from the Preferred Stock Offering were approximately \$193 million, approximately \$158 million of which were used to complete the Preferred Stock Redemption. The remaining proceeds were used to repay a portion of the balance outstanding under the Fleet Revolving Facility. On May 19, 2003, we completed the Convertible Debt Offering. On June 10, 2003, the underwriters exercised their over-allotment option and purchased an additional \$15 million aggregate principal amount of the notes offered in the Convertible Debt Offering. Our net proceeds from the Convertible Debt Offering were approximately \$112 million and were used to repay a portion of the balance outstanding under the Fleet Revolving Facility.

We intend to repay \$49 million issued under our medium term note program that matures in November 2003 and the balance outstanding under the Fleet Term Loan that matures in December 2003 either through draws under the Fleet Revolving Facility or from the proceeds generated through the issuance of public or private secured or unsecured debt or a combination thereof. We anticipate repaying the balance of the 2003 long-term debt obligations, which consists of scheduled amortization, through draws under the Fleet Revolving Facility.

The following table summarizes our obligations under our existing credit facilities:

Loan	Amount Available to be Drawn (in thousands)	Amount Drawn as of June 30, 2003 (in thousands)	Current Interest Rate (1)	Maturity Date
Fleet Term Loan	\$ 155,000	\$ 155,000	LIBOR plus 115 bp	December 2003
Fleet Revolving Facility	350,000	125,000	LIBOR plus 105 bp	April 2005
Total	\$ 505,000	\$ 280,000		

(1) We incur interest using a 30-day LIBOR rate, which was 1.11% at June 30, 2003.

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

The Fleet Revolving Facility and the Fleet Term Loan require that we maintain certain financial coverage ratios. These coverage ratios currently include:

net operating income of unencumbered assets to interest on unsecured debt ratio of at least 2:1

EBITDA to fixed charges ratio of at least 1.75:1

minimum tangible net worth of approximately \$1.3 billion

total debt to total adjusted assets of no more than 55%

total secured debt to total adjusted assets of no more than 40%

unsecured debt to unencumbered assets value ratio of no more than 55%

book value of ancillary assets to total adjusted assets of no more than 25%

book value of new construction assets to total adjusted assets of no more than 15%

FFO payout ratio no greater than 95%

Under the terms of each of the Fleet Term Loan and the Fleet Revolving Facility, the respective covenants will be modified to be consistent with any more restrictive covenant contained in any other existing or new senior unsecured credit facility that we enter into.

We have also issued approximately \$899 million of indebtedness under four public indentures. These indentures also contain covenants that require us to maintain certain financial coverage ratios. These covenants are generally less onerous than the covenants contained in our senior unsecured credit facilities, as described above.

As of June 30, 2003, we were in compliance with all of the financial covenants under our existing credit facilities and public indentures, and we believe that we will continue to remain in compliance with these covenants. However, if our properties do not perform as expected, or if unexpected events occur that require us to borrow additional funds, compliance with these covenants may become difficult and may restrict our ability to pursue certain business initiatives. In addition, these financial covenants may restrict our ability to pursue particular acquisition transactions (for example, acquiring a portfolio of properties that is highly leveraged) and could significantly impact our ability to pursue growth initiatives.

In addition to our existing credit facilities and public indebtedness, we had approximately \$557 million of mortgage debt outstanding as of June 30, 2003, having a weighted average interest rate of 7.6% per annum, and \$898 million of notes payable with a weighted average interest rate of 6.5% per annum.

Joint Ventures

In a few cases, we have made commitments to provide funds to joint ventures under certain circumstances. The liabilities associated with these joint ventures do not show up as liabilities on our consolidated financial statements.

The following is a brief summary of the joint venture obligations that we had as of June 30, 2003:

Benbrooke Ventures. We have an investment in a joint venture which owns three community shopping centers located in Dover, Delaware; Fruitland, Maryland; and Spotsylvania, Virginia. Under the terms of this joint venture, we have a 50% interest in the venture; however, we have agreed to contribute 80% of any capital required by the joint venture. We do not, however, expect that any significant capital contributions will be required. As of June 30, 2003, the book value of our investment in Benbrooke Ventures was approximately \$9.8 million.

CA New Plan Venture Fund. In connection with the CenterAmerica Acquisition, we assumed obligations under a joint venture agreement with a third-party institutional investor. The joint venture had loans outstanding of approximately \$90.1 million as of June 30, 2003. Under the terms of this joint venture, we have a 10% interest in the venture, and are responsible for contributing our pro rata share of any capital that might be required by the joint venture, up to a maximum amount of \$8.3 million, of which approximately \$5.7 million had been contributed by us as

of June 30, 2003. We anticipate contributing the remaining \$2.6 million during the remainder of 2003. As of June 30, 2003, the book value of our investment in CA New Plan Venture Fund was approximately \$5.9 million.

Clearwater Mall, LLC. In October 2002, we contributed our Clearwater Mall property to this joint venture, which is currently redeveloping the property. The joint venture had loans outstanding of approximately \$20.2 million as of June 30, 2003. Under the terms of this joint venture we have a 50% interest in the venture; however, we have agreed to contribute 75% of any capital that might be required by the joint venture. We do not, however, expect that any significant capital contributions will be required. As of June 30, 2003, the book value of our investment in the Clearwater Mall, LLC was approximately \$4.1 million.

The Centre at Preston Ridge Joint Venture. We have investments in various joint ventures that own a community shopping center (The Centre at Preston Ridge), a shopping center development site and undeveloped land in Frisco, Texas. As of June 30, 2003, the aggregate book value of our investment in these joint ventures was approximately \$9.9 million.

Phase 1. Under the terms of this joint venture, we have a 25% interest in the venture that owns The Centre at Preston Ridge. Our ownership interest was reduced to 25% from 50% on November 25, 2002 when a U.S. partnership comprised substantially of foreign investors purchased a 70% interest in the joint venture. We have agreed to contribute our pro rata share of any capital that might be required by the joint venture; however, we do not expect that any significant capital contributions will be required. The joint venture had loans outstanding of approximately \$70.0 million as of June 30, 2003.

Phase 2. We have a 50% interest in a joint venture that owns approximately 38.6 acres of undeveloped land in Frisco, Texas. We have agreed to contribute our pro rata share of any capital that might be required by the joint venture; however, we do not expect that any significant capital contributions will be required. As of June 30, 2003, the joint venture had a mortgage loan outstanding of approximately \$3.0 million, payable to us.

Phase 3. We have a 50% interest in a joint venture that owns approximately a shopping center development site consisting of 5.4 acres of land in Frisco, Texas, on which a 51,000 square foot shopping center is currently under construction. We have agreed to contribute our pro rata share of any capital that might be required by the joint venture; however, we do not expect that any significant capital contributions will be required. The joint venture had loans outstanding of \$4.1 million as of June 30, 2003.

Other Funding Obligations

In addition to the joint venture obligations described above, we also had the following contingent contractual obligations as of June 30, 2003, none of which we believe will materially adversely affect us:

Non-Recourse Debt Guarantees. Under certain of our non-recourse loans and those of our joint ventures, we could, under certain circumstances, be responsible for portions of the mortgage indebtedness in connection with certain customary non-recourse carve out provisions such as environmental conditions, misuse of funds and material misrepresentations. As of June 30, 2003, we had mortgage loans outstanding of approximately \$557.0 million and our joint ventures had mortgage loans outstanding of approximately \$184.4 million.

Leasing Commitments. The Company has entered into leases, as lessee, in connection with ground leases for shopping centers which it operates, an office building which it sublets, and administrative space for the Company. These leases are accounted for as operating leases. The minimum annual rental commitments for these leases during the next five fiscal years and thereafter are approximately as follows (in thousands):

Year

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

2003 (remaining six months)	\$	1,258
2004		1,356
2005		1,323
2006		833
2007		543
Thereafter		13,043

For a discussion of other factors which may adversely affect our liquidity and capital resources, please see the section titled "Risk Factors" in Item I of our Annual Report on Form 10-K for the year ended December 31, 2002.

Inflation

The majority of our leases contain provisions designed to mitigate the adverse impact of inflation. Such provisions include clauses enabling us to receive percentage rents which generally increase as prices rise but may be adversely impacted by tenant sales decreases, and/or escalation clauses which are typically related to increases in the consumer price index or similar inflation indices. In addition, we believe that many of our existing lease rates are below current market levels for comparable space and that upon renewal or re-rental such rates may be increased to or get closer to current market rates. This belief is based upon an analysis of relevant market conditions, including a

comparison of comparable market rental rates, and upon the fact that many of such leases have been in place for a number of years and may not contain escalation clauses sufficient to match the increase in market rental rates over such time. Most of our leases require the tenant to pay its share of operating expenses, including common area maintenance, real estate taxes and insurance, thereby reducing our exposure to increases in costs and operating expenses resulting from inflation. In addition, we periodically evaluate our exposure to interest rate fluctuations, and may enter into interest rate protection agreements which mitigate, but do not eliminate, the effect of changes in interest rates on our floating rate loans.

In the normal course of business, we also face risks that are either non-financial or non-qualitative. Such risks principally include credit risks and legal risks.

Item 3. QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

As of June 30, 2003, we had approximately \$10.9 million of outstanding floating rate mortgages. We also had approximately \$280 million outstanding under floating rate credit facilities. We do not believe that the interest rate risk represented by our floating rate debt is material as of June 30, 2003, in relation to our \$1.8 billion of outstanding total debt, our \$3.5 billion of total assets and the \$4.1 billion total market capitalization as of that date. In addition, as discussed below, we have converted \$50 million of fixed rate borrowings to floating rate borrowings through the use of a hedging agreement.

We have entered into a hedging agreement: a reverse arrears swap agreement under which we will receive the difference between the fixed rate of the swap, 4.357%, and the floating rate option, which is the six-month LIBOR rate, in arrears. Hedging agreements expose us to the risk that the counterparties to these agreements may not perform, which could increase our exposure to rising interest rates. Generally, the counterparties to hedging agreements that we enter into are major financial institutions. We may borrow additional money with floating interest rates in the future. Increases in interest rates, or the loss of the benefit of existing or future hedging agreements, would increase our expense, which would adversely affect cash flow and our ability to service our debt. Future increases in interest rates will increase our interest expense as compared to the fixed rate debt underlying our hedging agreements and we could be required to make payments to unwind such agreements.

If market rates of interest on our variable rate debt increase by 1%, the increase in annual interest expense on our variable rate debt would decrease future earnings and cash flows by approximately \$3.4 million. If market rates of interest on our variable rate debt decrease by 1%, the decrease in interest expense on our variable rate debt would increase future earnings and cash flows by approximately \$3.4 million. This assumes that the amount outstanding under our variable rate debt remains at approximately \$340.9 million, the balance as of June 30, 2003. If market rates of interest increase by 1%, the fair value of our total outstanding debt would decrease by approximately \$17.6 million. If market rates of interest decreased by 1%, the fair value of our total outstanding debt would increase by approximately \$17.6 million. This assumes that our total outstanding debt remains at \$1.8 billion, the balance as of June 30, 2003.

As of June 30, 2003, we had no material exposure to market risk (including foreign currency exchange risk, commodity price risk or equity price risk).

Item 4. CONTROLS AND PROCEDURES

Edgar Filing: NEW PLAN EXCEL REALTY TRUST INC - Form 10-Q

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective. There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The 2003 annual meeting of stockholders was held on May 14, 2003. Proxies for the meeting were solicited by the Company pursuant to Regulation 14 under the Securities Exchange Act of 1934, as amended; there was no solicitation in opposition to management's nominees as listed in the proxy statement and all of such nominees were elected.

Proposal One: Election of Directors.

- (a) 79,176,853 votes were cast for the election of Irwin Engelman as a Director; 1,656,115 votes were withheld.
- (b) 79,181,262 votes were cast for the election of Nina Matis as a Director; 1,651,706 votes were withheld.
- (c) 79,164,896 votes were cast for the election of H. Carl McCall as a Director; 1,668,072 votes were withheld.
- (d) 79,260,273 votes were cast for the election of Melvin Newman as a Director, 1,572,695 votes were withheld.
- (e) 79,354,972 votes were cast for the election of George Puskar as a Director, 1,477,996 votes were withheld.
- (f) 79,077,947 votes were cast for the election of Glenn J. Rufrano as a Director, 1,755,021 votes were withheld.

There were no abstentions or broker non-votes in connection with this proposal.

Proposal Two: Approval of 2003 Stock Incentive Plan

(a) 70,352,303 votes were cast in favor of the 2003 Stock Incentive Plan, 9,405,972 votes were cast against.

There were 1,074,693 abstentions and no broker non-votes in connection with this proposal.

Item 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits:

- 4.1* Articles Supplementary for the 7.625% Series E Cumulative Redeemable Preferred Stock, Liquidation Preference \$250.00 Per Share, Par Value \$.01 Per Share, filed as Exhibit 4.1 to the Company's Current Report on Form 8-K filed on April 17, 2003.
- 4.2 Officers' Certificate relating to the terms of the Company's 3.75% Convertible Senior Notes due 2023.
- 10.1 Agreement, dated June 24, 2003, between the Company and Steven Siegel.
- 10.2 Second Amended and Restated Agreement of Limited Partnership of Excel Realty Partners, L.P., dated as of May 19, 2003.
- 12.1 Ratio of Earnings to Fixed Charges and Preferred Stock Dividends.
- 31.1 Certification of Chief Executive Officer required by Rule 13a-14(a)/15d-14(a) under the Exchange Act, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Chief Financial Officer required by Rule 13a-14(a)/15d-14(a) under the Exchange Act, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(b) During the period covered by this report the Company filed the following reports on Form 8-K:

Form 8-K filed on April 17, 2003, containing Item 5, Other Events disclosure regarding the sale by the Company of 8,000,000 depositary shares, each representing 1/10 of one share of 7.625% Series E Cumulative Redeemable Preferred Stock.

Form 8-K filed on May 19, 2003, containing Item 5, Other Events disclosure regarding the sale by the Company of \$100 million aggregate principal amount of its 3.75% Convertible Senior Notes due 2023.

Form 8-K filed on June 17, 2003, containing Item 5, Other Events disclosure regarding the sale of common stock of the Company by Glenn J. Rufrano.

*Incorporated herein by reference as above indicated.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
