WIMM-BILL-DANN FOODS OJSC ANNOUNCES

INTERIM 2004 FINANCIAL RESULTS

Moscow, Russia September 2, 2004 Wimm-Bill-Dann Foods OJSC [NYSE: WBD] today announced its financial results for the six months ended June 30, 2004.

During the first half of 2004, Wimm-Bill-Dann's sales rose 22.8% compared to the same period last year. Gross profit increased by 12.3% year-on-year, while gross margins declined to 27.7% from 30.3%. Adjusted EBITDA* increased 14.4% compared to the same period last year, while net income was down 27.1%.

Commenting on today's announcement, Sergei Plastinin, CEO of Wimm-Bill-Dann Foods OJSC, said: "In the first six months of 2004 we saw positive results of our regional modernization program: our sales increased 22.8% due to strong dairy sales, which grew 33.4% year on year, driven primarily by increased regional production. We remain committed to our regional expansion strategy and we are constantly widening our regional product offering as consumer spending is growing steadily in the regions. Profitability for the group is continuing to suffer from the higher cost of raw milk, increases in personnel and transportation costs and high depreciation charges. At the same time we are taking concrete steps to improve our margins and operational efficiency, including setting management targets linked to profit as opposed to volume, product range optimization and tight control over costs."

Key Operating and Financial Indicators of 1H 2004

	2004 H1 US\$ mln	2003 H1 US\$ mln	Change
Sales	580.4	472.6	22.8%

* Note: See Attachment A for changed definitions of Adjusted EBITDA and Adjusted EBITDA margin and reconciliations to net income.

Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

Wimm-Bill-Dann sales reached US\$580.4 million in the first half of 2004 compared to US\$472.6 million in the first half of 2003.

Sales in the Dairy Segment increased 33.4% from US\$321.7 million in the first six months of 2003 to US\$429.2 million in the first six months of 2004, while the average selling price increased 17.9% from US\$0.64 per 1 kg in the first half of 2003 to US\$0.75 per 1 kg in the first half of 2004. This increase was primarily driven by ruble price increase and change in the mix in favour of higher priced products, as well as by ruble appreciation. Gross margins in the Dairy Segment declined from 28.4% in the first half of 2003 to 25.0% in the first half of 2004. This change was primarily caused by 19% year-on-year increase in the average ruble price of raw milk as well as rising personnel costs and depreciation charges.

Sales in the Juice Segment slightly decreased from US\$150.6 million in the first half of 2003 to US\$149.7 million in the first half of 2004 while the average selling price increased 15.2% from US\$0.56 per liter in the first six months of 2003 to US\$0.65 per liter in the first six months of 2004. This increase was primarily due to ruble price increase, change in the product mix in favour of higher priced brands such as J-7 in PET bottles and 100% Gold, as well as due to ruble appreciation. Higher average price, coupled with decreased cost of raw materials, resulted in gross margin improvement in the Juice Segment from 34.6% in the first six months of 2003 to 35.4% in the first half of 2004.

Selling and distribution expenses remained flat as a percentage of sales, while in absolute terms they grew 22.4% in the first six months of 2004 due to higher advertising and marketing costs, personnel and transportation expenditures as a consequence of rising transportation tariffs per ton.

General and administrative expenses decreased as a percentage of sales from 8.0% during the first six months of 2003 to 7.6% in the same period this year, but grew in absolute terms by 17.2% as a result of the increased personnel costs and the repeal of the property tax privilege in the Dairy Segment due to changed legislation.

Financial expense in the first six months of 2004 totaled US\$7.1 million compared to US\$6.8 million in the first half of 2003. Interest expenses rose from US\$9.5 million to US\$11.4 million and were partially offset by US\$4.3 million foreign currency gain compared to US\$2.6 million during the same period last year.

Net income fell 27.1% and stood at US\$12.9 million mainly due to substantially higher raw milk prices, personnel and transportation costs, as well as depreciation. Adjusted EBITDA in the first six months of 2004 increased 14.4% year-on-year and amounted to US\$50.8 million. Adjusted EBITDA margin was 8.8% compared to 9.4% in the first six months of 2003.

*Attachment A***Reconciliation of Adjusted EBITDA and Adjusted EBITDA margin to US GAAP Net Income*

Adjusted EBITDA is a non-U.S. GAAP financial measure. The following table presents reconciliation of Adjusted EBITDA to net income (and Adjusted EBITDA margin to net income as a percentage of sales), the most directly comparable U.S. GAAP financial measure.

	Six Months ended June 30, 2004		Six Months ended June 30, 2003	
	US\$ mln	% of sales	US\$ mln	% of sales
Net income	12.9	2.2%	17.7	3.8%
Add: Depreciation and amortization	21.8	3.7%	12.9	2.7%
Add: Income tax expense	7.4	1.3%	6.0	1.3%
Add: Interest expense	11.4	2.0%	9.5	2.0%
Less: Interest income	(0.8)	0.1%	(0.9)	0.2%
Less: Currency remeasurement gains, net	(4.3)	0.8%	(2.7)	0.6%
Add: Bank charges	0.7	0.2%	1.3	0.3%
Add: Other financial expenses (gain)	0.0	0.0%	(0.5)	0.1%
Add: Minority interest	1.7	0.3%	1.1	0.2%
Adjusted EBITDA	50.8	8.8%	44.4	9.4%

We changed the way of reporting Adjusted EBITDA. Adjusted EBITDA represents net income before interest, income taxes and depreciation and amortization, adjusted for interest income, currency remeasurement gains, bank charges and other financial expenses and minority interest. Adjusted EBITDA margin is Adjusted EBITDA expressed as a percentage of sales.

We present Adjusted EBITDA because we consider it an important supplemental measure of our operating performance. In particular, we believe Adjusted EBITDA provides useful information to securities analysts, investors and other interested parties because it is used in the debt to EBITDA debt incurrence financial measurement in certain of our financing arrangements. Moreover, according to our compensation policy, certain executive incentive compensation payments are based on our Adjusted EBITDA performance against budgets.

Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as substitute for analysis of our operating results as reported under U.S. GAAP. Since we adjust EBITDA for recurring items in order to calculate Adjusted EBITDA, we particularly caution users that Adjusted EBITDA is not an alternative to net income, operating income or any other GAAP measure, nor to EBITDA. Moreover, other companies in our industry may calculate Adjusted EBITDA differently or may use it for different purposes than we do, limiting its usefulness as a comparative measure.

Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

Adjusted EBITDA also should not be considered as an alternative to cash flow from operating activities or as a measure of our liquidity. In particular, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business.
