PROSPECTUS SUMMARY

Edgar Filing: CRDENTIA CORP - Form 424B3

This summary highlights information contained elsewhere in this prospectus. It does not contain all of the information that is important to you. You should read this entire prospectus carefully, especially the discussion of **Risk Factors** and our consolidated financial statements and related notes, before deciding to invest in shares of our common stock. Unless context indicates otherwise, the terms **the Company**, **we**, **us**, or **our** in this prospectus refer to Crdentia Corp.

General

Edgar Filing: CRDENTIA CORP - Form 424B3

We are a provider of healthcare staffing services, focusing on the areas of travel nursing, per diem staffing, contractual clinical services, and private duty home care. Our travel nurses are recruited domestically as well as internationally and placed on temporary assignments at healthcare facilities across the United States. Our per diem nurses are local nurses placed at healthcare facilities on short-term assignments. Our contractual clinical services group provides complete clinical management and staffing for healthcare facilities, and our private duty home care group provides nursing case management and staffing for skilled and non-skilled care in the home.

In 2004 and for the nine months ended September 30, 2005, approximately 58% and 38%, respectively, of our revenue was derived from the placement of travel nurses on assignment, typically 13 weeks in length. Such assignments generally involve temporary relocation to the geographic area of the assignment. We also provide per diem nurses to satisfy the very short-term needs of healthcare facilities. Per diem services provided 29% of our revenue in 2004 and 51% of our revenue for the nine months ended September 30, 2005. We believe this market presents a significant growth opportunity. The balance of our revenue in 2004 and in the nine months ended September 30, 2005 came from providing clinical management and staffing to healthcare facilities and private duty home care. We anticipate there are growth opportunities in these areas as well and intend to pursue such opportunities as they arise.

With the existing and growing shortage of nurses in the United States, we believe there is an opportunity to build a significant company in the field of healthcare staffing services. We intend to pursue this opportunity through organic growth of our existing businesses and through the continued acquisition of complementary companies in this sector. We believe that temporary staffing companies must consolidate in order to thrive. The success of the large industry leaders is indicative of the efficiency, both in operations as well as capital formation, of this strategy. Smaller companies in this sector will increasingly be at a competitive disadvantage in the marketplace because technology, operating efficiency and breadth of service will soon be the key to successful operations.

Growth Strategy

Edgar Filing: CRDENTIA CORP - Form 424B3

Prior to 2003, we were a development stage company with no commercial operations. We did not have any revenue in 2002 and did not have any revenue in 2003 until we completed our first acquisition in August 2003. During 2003, we pursued our operational plan of acquiring companies in the healthcare staffing field and completed acquisitions of four companies. In 2004, we purchased two additional companies, and in 2005 we purchased three additional companies. As a result, we have contracted with more than 1,500 healthcare facilities across 49 states and the District of Columbia. We anticipate continuing our plan to acquire specialized companies in the healthcare staffing field for the foreseeable future. Our goal is to further expand our position within the temporary healthcare staffing sector in the United States.

Unless the context otherwise requires, common stock refers to the common stock, par value \$0.0001 per share, of Crdentia Corp.

RISK FACTORS

Edgar Filing: CRDENTIA CORP - Form 424B3

Any investment in our common stock involves a high degree of risk. You should consider carefully the following information about the risks described below, together with the other information contained in this prospectus, before you decide whether to buy our common stock. If any of the following risks actually occur, our business, financial condition, results of operations and cash flows could be materially and adversely affected. In those circumstances, the market price of our common stock could decline, and you may lose all or part of the money you paid to buy our common stock.

Risks Related to Our Business and Ownership of Our Common Stock

If we fail to raise additional capital in the near future, our business will fail.

We were formed in November 1997 and commenced operations on August 7, 2003 with our acquisition of Baker Anderson Christie, Inc. We are a newly created operation and subject to all the risks inherent in a new business venture, many of which are beyond our control, including the ability to implement successful operations, lack of capital to finance acquisitions and failure to achieve market acceptance. In addition, as a newly created venture we face significant competition from many companies, virtually all of which are larger, better financed and have significantly greater market recognition than us.

As a newly created operation, we have limited cash resources and will need to raise additional capital through public or private financings or other arrangements in order to meet current commitments and continue development of our business. We cannot assure you that additional capital will be available to us when needed, if at all, or, if available, will be obtained on terms attractive to us. Our failure to raise additional capital when needed could cause us to cease our operations.

We have financed our operations since inception primarily through the private placement of equity and debt securities and loan facilities. Although our management recognizes the need to raise funds in the near future, there can be no assurance that we will be successful in consummating any fundraising transaction, or if we do consummate such a transaction, that its terms and conditions will not require us to give investors warrants or other valuable rights to purchase additional interest in our company, or be otherwise unfavorable to us. Among other things, the agreements under which we issued some of our existing securities include, and any securities that we may issue in the future may also include, terms that could impede our ability to raise additional funding. The issuance of additional securities could impose additional restrictions on how we operate and finance our business. In addition, our current debt financing arrangements involve significant interest expense and restrictive covenants that limit our operations.

Our need to raise additional capital in the future could have a dilutive effect on your investment.

Edgar Filing: CRDENTIA CORP - Form 424B3

We will need to raise additional capital. One possibility for raising additional capital is the public or private sale of our common stock or securities convertible into or exercisable for our common stock.

If we sell additional shares of our common stock, such sales will further dilute the percentage of our equity that our existing stockholders own. In addition, our recent private placement financings have involved the issuance of securities at a price per share (or conversion price per share) that represented a discount to the trading prices listed for our common stock on the Over-the-Counter Bulletin Board and it is possible that we will close future private placements involving the issuance of securities at a discount to prevailing trading prices. Depending upon the price per share of securities that we sell in the future, a stockholder's interest in us could be further diluted by any adjustments to the number of shares and the applicable exercise price required pursuant to the terms of the agreements under which we previously issued securities. No assurance can be given that previous or future investors, finders or placement agents will not claim that they are entitled to additional anti-dilution adjustments or dispute our calculation of any such adjustments. Any such claim or dispute could require us to incur material costs and expenses regardless of the resolution and, if resolved unfavorably to us, to effect dilutive securities issuances or adjustments to previously issued securities. In addition, future financings may include provisions requiring us to make additional payments to the investors if we fail to obtain or maintain the effectiveness of SEC registration statements by specified dates or take other specified

action. Our ability to meet these requirements may depend on actions by regulators and other third parties, over which we will have no control. These provisions may require us to make payments or issue additional dilutive securities, or could lead to costly and disruptive disputes. In addition, these provisions could require us to record additional non-cash expenses.

We may face difficulties identifying acquisitions and integrating these acquisitions into our operations. These acquisitions may be unsuccessful, involve significant cash expenditures or expose us to unforeseen liabilities.

Edgar Filing: CRDENTIA CORP - Form 424B3

We continually evaluate opportunities to acquire healthcare staffing companies that complement or enhance our business and frequently have preliminary acquisition discussions with such companies. During 2003 we acquired four businesses, during 2004 we acquired two businesses, and during 2005 we acquired three additional businesses. These acquisitions involve numerous risks, including:

potential loss of revenues following the acquisition;

potential loss of key employees or clients of acquired companies;

difficulties integrating acquired personnel and distinct cultures into our business;

difficulties integrating acquired companies into our operating, financial planning and financial reporting systems;

diversion of management attention from existing operations; and

assumption of liabilities and exposure to unforeseen liabilities of acquired companies, including liabilities for their failure to comply with healthcare regulations.

These acquisitions may also involve significant cash expenditures, debt incurrence and integration expenses that could seriously harm our financial condition and results of operations. We may fail to achieve expected efficiencies and synergies. Any acquisition may ultimately have a negative impact on our business and financial condition. In addition, we have historically faced competition for acquisitions. In the future, such competition could limit our ability to grow by acquisitions or could raise the prices of acquisitions and make them less attractive to us.

Our Series C convertible preferred stock has a significant liquidation preference.

Edgar Filing: CRDENTIA CORP - Form 424B3

As of January 25, 2006, we had (i) 183,028 shares of Series C convertible preferred stock outstanding and (ii) warrants to purchase 124,075 shares of Series C convertible preferred stock outstanding. We may sell additional shares of Series C convertible preferred stock and issue additional warrants to purchase shares of Series C convertible preferred stock. Each share of Series C convertible preferred stock is convertible into one hundred (100) shares of our common stock. In the event of any liquidation or winding up of our company, the holders of Series C convertible preferred stock will be entitled to receive, in preference to the holders of our other equity securities, an amount equal to five times the original purchase price per share, or \$300.00 per share, plus any dividends declared on the Series C convertible preferred stock but not paid. Assuming the exercise of all outstanding warrants to purchase Series C convertible preferred stock, upon a liquidation or winding up of our company, the holders of our Series C convertible preferred stock would be entitled to receive approximately \$92 million prior to the payment of any amounts to the holders of our other equity securities, including common stock offered under this prospectus. As a result, upon a liquidation or winding up of the Company, there may not be sufficient proceeds, following the payment of the Series C liquidation preference described above, to make any distribution to the holders of our other equity securities, including common stock offered under this prospectus.

There is no active public market for our common stock, and the trading price of our common stock is subject to volatility.

Edgar Filing: CRDENTIA CORP - Form 424B3

The quotation of shares of our common stock on the OTC Bulletin Board began on June 3, 2003. There can be no assurances, however, that a market will develop or continue for our common stock. Our common stock may be thinly traded, if traded at all, even if we achieve full operation and generate significant revenue and is likely to experience significant price fluctuations. In addition, our stock may be defined as a penny stock under Rule 3a51-1 adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended. In general, a penny stock includes securities of companies which are not listed on the principal stock exchanges or the National Association of Securities Dealers Automated Quotation System, or Nasdaq, National Market System and have a bid price in the market of less than \$5.00; and companies with net tangible assets of less than \$2,000,000 (\$5,000,000 if the issuer has been in continuous operation for less than three years), or which have recorded revenues of less than \$6,000,000 in the last three years. Penny stocks are subject to Rule 15c-2, which imposes additional sales practice requirements on broker-dealers that sell such securities to persons other than established customers and accredited investors (generally, individuals with net worth in excess of \$1,000,000 or annual incomes exceeding \$200,000, or \$300,000 together with their spouses, or individuals who are officers or directors of the issuer of the securities). For transactions covered by Rule 15c-2, a broker-dealer must make a special suitability determination for the purchaser and have received the purchaser's written consent to the transaction prior to sale. Consequently, this Rule may adversely affect the ability of broker-dealers to sell our common stock, and therefore, may adversely affect the ability of our stockholders to sell common stock in the public market.

The trading price of our common stock is likely to be subject to wide fluctuation. Factors affecting the trading price of our common stock may include:

variations in our financial results;

announcements of innovations, new solutions, strategic alliances or significant agreement by us or by our competitors;

recruitment or departure of key personnel;

changes in estimates of our financial results or changes in the recommendations of any securities analysts that elect to follow our common stock;

market conditions in our industry, the industries of our customers and the economy as a whole; and

sales of substantial amounts of our common stock, or the perception that substantial amounts of our common stock will be sold, by our existing stockholders in the public market.

Our credit facility imposes significant expenses and restrictive covenants upon us.

Edgar Filing: CRDENTIA CORP - Form 424B3

In June 2004 we obtained a \$15.0 million revolving credit facility, which was reduced in 2005 to \$10.0 million (the Revolving Facility) from Bridge Healthcare Finance, LLC. In August 2004 we obtained a \$10.0 million term loan credit facility from Bridge Opportunity Finance, LLC (the Term Facility and together with the Revolving Facility, the Credit Facility). Bridge Opportunity Finance, LLC is an affiliate of Bridge Healthcare Finance, LLC.

The Credit Facility involves significant interest expenses and other fees. In addition, except in certain limited circumstances, the Revolving Facility cannot be pre-paid in full without us incurring a significant pre-payment penalty.

The Credit Facility imposes various restrictions on our activities without the consent of the lenders, including a prohibition on fundamental changes to us or our direct or indirect subsidiaries (including certain consolidations, mergers and sales and transfer of assets, and limitations on our ability or any of our direct or indirect

subsidiaries to grant liens upon our property or assets). In addition, under the Credit Facility we must meet certain net worth, earnings and debt service coverage requirements. The Credit Facility includes events of default (with grace periods, as applicable) and provides that, upon the occurrence of certain events of default, payment of all amounts payable under the Credit Facility, including the principal amount of, and accrued interest on, the Credit Facility may be accelerated. In addition, upon the occurrence of certain insolvency or bankruptcy related events of default, all amounts payable under the Credit Facility, including the principal amount of, and accrued interest on, the Credit Facility will automatically become immediately due and payable.

The expenses and restrictions associated with the Credit Facility may have the effect of limiting our operations. In addition, our failure to pay required interest expenses and other fees or to meet restrictions under the Credit Facility would have a material adverse affect on us.

The agreements governing the convertible debentures contain covenants and restrictions that may limit our ability to operate our business.

The terms of our outstanding convertible debentures limit our ability to, among other things: declare or pay dividends or distributions on any equity securities, create or incur additional indebtedness, create additional liens on our assets and repurchase common stock. These restrictions could adversely effect our ability to borrow additional funds or raise additional equity to fund our future operations. In addition, if we fail to comply with any of the covenants contained in the agreements or otherwise default on the convertible debentures, the holders may accelerate the indebtedness, and we may not have sufficient funds available to make the required payments.

MedCap Partners, L.P. controls a majority of our outstanding capital stock, and this may delay or prevent change of control of our company or adversely affect our stock price.

Edgar Filing: CRDENTIA CORP - Form 424B3

MedCap Partners, L.P., a selling stockholder under this prospectus, controls approximately 65% of our outstanding capital stock, on an as-converted basis. As a result, MedCap is able to exercise control over matters requiring stockholder approval, such as the election of directors and the approval of significant corporate transactions. These types of transactions include transactions involving an actual or potential change of control of our company or other transactions that the non-controlling stockholders may deem to be in their best interests and in which such stockholders could receive a premium for their shares. C. Fred Toney, a member of our Board of Directors, is the managing member of MedCap Management & Research LLC, the general partner of MedCap Partners, L.P.

The successful implementation of our business strategy depends upon the ability of our management to monitor and control costs.

Edgar Filing: CRDENTIA CORP - Form 424B3

With respect to our planned operations, management cannot accurately project or give any assurance with respect to our ability to control development and operating costs and/or expenses in the future. Consequently, as we expand our commercial operations, management may not be able to control costs and expenses adequately, and such operations may generate losses.

The ability to attract and retain highly qualified personnel to operate and manage our operations and qualified sales personnel is extremely important and our failure to do so could adversely affect us.

Edgar Filing: CRDENTIA CORP - Form 424B3

Presently, we are dependent upon the personal efforts of our management team. The loss of any of our officers or directors could have a material adverse effect upon our business and future prospects. We do not presently have key-person life insurance upon the life of any of our officers or directors. Additionally, as we continue our planned expansion of commercial operations, we will require the services of additional skilled personnel. There can be no assurance that we can attract persons with the requisite skills and training to meet our future needs or, even if such persons are available, that they can be hired on terms favorable to us.

In addition, execution of our business strategy and continued growth of our business are substantially dependent upon our ability to attract, develop and retain qualified and skilled sales personnel who engage in selling and business development for our services. The available pool of qualified sales personnel candidates is limited. We commit substantial resources to the recruitment, training, development and operational support of our sales personnel. There can be no assurance that we will be able to recruit, develop and retain qualified sales personnel in sufficient numbers or that our sales personnel will achieve productivity levels sufficient to enable growth of our business. Failure to attract and retain productive sales personnel could adversely affect our business, financial condition and results of operations.

If we are unable to attract qualified nurses and healthcare professionals for our healthcare staffing business, our business could be negatively impacted.

Edgar Filing: CRDENTIA CORP - Form 424B3

We rely significantly on our ability to attract and retain nurses and healthcare professionals who possess the skills, experience and licenses necessary to meet the requirements of our hospital and healthcare facility clients. We compete for healthcare staffing personnel with other temporary healthcare staffing companies and with hospitals and healthcare facilities. We must continually evaluate and expand our temporary healthcare professional network to keep pace with our hospital and healthcare facility clients' needs. Currently, there is a shortage of qualified nurses in most areas of the United States, competition for nursing personnel is increasing, and salaries and benefits have risen. We may be unable to continue to increase the number of temporary healthcare professionals that we recruit, decreasing the potential for growth of our business. Our ability to attract and retain temporary healthcare professionals depends on several factors, including our ability to provide temporary healthcare professionals with assignments that they view as attractive and to provide them with competitive benefits and wages. We cannot assure you that we will be successful in any of these areas. The cost of attracting temporary healthcare professionals and providing them with attractive benefit packages may be higher than we anticipate and, as a result, if we are unable to pass these costs on to our hospital and healthcare facility clients, our profitability could decline. Moreover, if we are unable to attract and retain temporary healthcare professionals, the quality of our services to our hospital and healthcare facility clients may decline and, as a result, we could lose clients.

The temporary staffing industry is highly competitive and the success and future growth of our business depend upon our ability to remain competitive in obtaining and retaining temporary staffing clients.

Edgar Filing: CRDENTIA CORP - Form 424B3

The temporary staffing industry is highly competitive and fragmented, with limited barriers to entry. We compete in national, regional and local markets with full-service agencies and in regional and local markets with specialized temporary staffing agencies. Some of our competitors include AMN Healthcare Services, Inc., Cross Country, Inc., Medical Staffing Network Holdings, Inc. and On Assignment, Inc. All of these companies have significantly greater marketing and financial resources than we do. Our ability to attract and retain clients is based on the value of the service we deliver, which in turn depends principally on the speed with which we fill assignments and the appropriateness of the match based on clients' requirements and the skills and experience of our temporary employees. Our ability to attract skilled, experienced temporary professionals is based on our ability to pay competitive wages, to provide competitive benefits, to provide multiple, continuous assignments and thereby increase the retention rate of these employees. To the extent that competitors seek to gain or retain market share by reducing prices or increasing marketing expenditures, we could lose revenues and our margins could decline, which could seriously harm our operating results and cause the trading price of our stock to decline. As we expand into new geographic markets, our success will depend in part on our ability to gain market share from competitors. We expect competition for clients to increase in the future, and the success and growth of our business depend on our ability to remain competitive.

Our business depends upon our continued ability to secure and fill new orders from our hospital and healthcare facility clients, because we do not have long-term agreements or exclusive contracts with them.

Edgar Filing: CRDENTIA CORP - Form 424B3

We generally do not have long-term agreements or exclusive guaranteed order contracts with our hospital and healthcare facility clients. The success of our business depends upon our ability to continually secure new orders from hospitals and other healthcare facilities and to fill those orders with our temporary healthcare professionals. Our hospital and healthcare facility clients are free to place orders with our competitors and may choose to use temporary healthcare professionals that our competitors offer them. Therefore, we must maintain positive relationships with our hospital and healthcare facility clients. If we fail to maintain positive relationships with our hospital and healthcare facility clients, we may be unable to generate new temporary healthcare professional orders and our business may be adversely affected.

Fluctuations in patient occupancy at our clients' hospitals and healthcare facilities may adversely affect the demand for our services and therefore the profitability of our business.

Edgar Filing: CRDENTIA CORP - Form 424B3

Demand for our temporary healthcare staffing services is significantly affected by the general level of patient occupancy at our clients' hospital and healthcare facilities. When occupancy increases, hospitals and other healthcare facilities often add temporary employees before full-time employees are hired. As occupancy decreases,

hospitals and other healthcare facilities typically reduce their use of temporary employees before undertaking layoffs of their regular employees. In addition, we may experience more competitive pricing pressure during periods of occupancy downturn. Occupancy at our clients' hospitals and healthcare facilities also fluctuates due to the seasonality of some elective procedures. We are unable to predict the level of patient occupancy at any particular time and its effect on our revenues and earnings.

We have a substantial amount of goodwill and other intangible assets on our balance sheet. Our level of goodwill and other intangible assets may have the effect of decreasing our earnings or increasing our losses.

Edgar Filing: CRDENTIA CORP - Form 424B3

As of September 30, 2005, we had \$25.0 million of goodwill and other unamortized intangible assets on our balance sheet, which represents the excess of the total purchase price of our acquisitions over the fair value of the net assets acquired. At September 30, 2005, goodwill and other intangible assets represented 77% of our total assets.

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 141 requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001, as well as all purchase method business combinations completed after June 30, 2001. SFAS No. 142 requires that, subsequent to January 1, 2002, goodwill not be amortized but rather that it be reviewed annually for impairment. In the event impairment is identified, a charge to earnings would be recorded. We have adopted the provisions of SFAS No. 141 and SFAS No. 142. Although it does not affect our cash flow, an impairment charge of goodwill to earnings has the effect of decreasing our earnings or increasing our losses, as the case may be. If we are required to write down a substantial amount of goodwill, our stock price could be adversely affected.

We could be difficult to acquire due to anti-takeover provisions in our charter documents and Delaware law.

Edgar Filing: CRDENTIA CORP - Form 424B3

Provisions of our certificate of incorporation and bylaws may have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from attempting to acquire control of our company. These provisions may make it more difficult for stockholders to take corporate actions and may have the effect of delaying or preventing a change in control. We are subject to the anti-takeover provisions of Section 203 of the Delaware General Corporation Law. Subject to specified exceptions, this section provides that a corporation may not engage in any business combination with any interested stockholder during the three-year period following the time that such stockholder becomes an interested stockholder. This provision could have the effect of delaying or preventing a change of control of our company. The foregoing factors could limit the price that investors or an acquiror might be willing to pay in the future for shares of our common stock.

Risks Related to Our Industry

We operate in a regulated industry and changes in regulations or violations of regulations may result in increased costs or sanctions that could reduce our revenues and profitability.

Edgar Filing: CRDENTIA CORP - Form 424B3

The healthcare industry is subject to extensive and complex federal and state laws and regulations related to professional licensure, conduct of operations, payment for services and payment for referrals. If we fail to comply with the laws and regulations that are directly applicable to our business, we could suffer civil and/or criminal penalties or be subject to injunctions or cease and desist orders.

Our business is generally not subject to the extensive and complex laws that apply to our hospital and healthcare facility clients, including laws related to Medicare, Medicaid and other federal and state healthcare programs. However, these laws and regulations could indirectly affect the demand or the prices paid for our services. For example, our hospital and healthcare facility clients could suffer civil or criminal penalties or be excluded from participating in Medicare, Medicaid and other healthcare programs if they fail to comply with the laws and regulations applicable to their businesses. In addition, our hospital and healthcare facility clients could receive reduced reimbursements, or be excluded from coverage, because of a change in the rates or conditions set by federal or state governments. In turn, violations of or changes to these laws and regulations that adversely affect our

hospital and healthcare facility clients could also adversely affect the prices that these clients are willing or able to pay for our services.

In addition, improper actions by our employees and other service providers may subject us to regulatory and litigation risk.

Further government regulations or healthcare reform could negatively impact our business opportunities, revenues and margins.

Edgar Filing: CRDENTIA CORP - Form 424B3

Although our operations are currently not subject to any significant government regulations, it is possible that, in the future, such regulations may be legislated. Although we cannot predict the extent of any such future regulations, a possibility exists that future or unforeseen changes may have an adverse impact upon our ability to continue or expand our operations as presently planned.

The United States government has undertaken efforts to control increasing healthcare costs through legislation, regulation and voluntary agreements with medical care providers and drug companies. In the recent past, the United States Congress has considered several comprehensive healthcare reform proposals. The proposals were generally intended to expand healthcare coverage for the uninsured and reduce the growth of total healthcare expenditures. While Congress did not adopt any comprehensive reform proposals, members of Congress may raise similar proposals in the future. If any of these proposals are approved, hospitals and other healthcare facilities may react by spending less on healthcare staffing, including nurses. If this were to occur, we would have fewer business opportunities, which could seriously harm our business.

State governments have also attempted to control increasing healthcare costs. For example, the state of Massachusetts has recently implemented a regulation that limits the hourly rate payable to temporary nursing agencies for registered nurses, licensed practical nurses and certified nurses aides. The state of Minnesota has also implemented a statute that limits the amount that nursing agencies may charge nursing homes. Other states have also proposed legislation that would limit the amounts that temporary staffing companies may charge. Any such current or proposed laws could seriously harm our business, revenues and margins.

Furthermore, third party payers, such as health maintenance organizations, increasingly challenge the prices charged for medical care. Failure by hospitals and other healthcare facilities to obtain full reimbursement from those third party payers could reduce the demand or the price paid for our staffing services.

Significant legal actions could subject us to substantial uninsured liabilities.

Edgar Filing: CRDENTIA CORP - Form 424B3

In recent years, healthcare providers have become subject to an increasing number of legal actions alleging malpractice, product liability or related legal theories. Many of these actions involve large claims and significant defense costs. In addition, we may be subject to claims related to torts or crimes committed by our employees or temporary healthcare professionals. In some instances, we are required to indemnify our clients against some or all of these risks. A failure of any of our employees or healthcare professionals to observe our policies and guidelines intended to reduce these risks, relevant client policies and guidelines or applicable federal, state or local laws, rules and regulations could result in negative publicity, payment of fines or other damages. Our professional malpractice liability insurance and general liability insurance coverage may not cover all claims against us or continue to be available to us at a reasonable cost. If we are unable to maintain adequate insurance coverage or if our insurers deny coverage we may be exposed to substantial liabilities.

We may be legally liable for damages resulting from our hospital and healthcare facility clients' mistreatment of our healthcare personnel.

Edgar Filing: CRDENTIA CORP - Form 424B3

Because we are in the business of placing our temporary healthcare professionals in the workplaces of other companies, we are subject to possible claims by our temporary healthcare professionals alleging discrimination, sexual harassment, negligence and other similar activities by our hospital and healthcare facility clients. The cost of defending such claims, even if groundless, could be substantial and the associated negative publicity could adversely affect our ability to attract and retain qualified healthcare professionals in the future.

OVERVIEW

We are a provider of healthcare staffing services, focusing on the areas of travel nursing, per diem staffing, contractual clinical services, and private duty home care. Our travel nurses are recruited domestically as well as internationally, and placed on temporary assignments at healthcare facilities across the United States. Our per diem nurses are local nurses placed at healthcare facilities on short-term assignments. Our contractual clinical services group provides complete clinical management and staffing for healthcare facilities and our private duty home care group provides nursing case management and staffing for skilled and non-skilled care in the home. We consider the different services described above to be one segment as each of these services relate solely to providing healthcare staffing to customers that are healthcare providers and utilize similar distribution methods, common procedures, processes and similar methods of identifying and serving these customers.

During 2003, we pursued our operational plan of acquiring companies in the healthcare staffing field and completed acquisitions of four companies. In 2004, we purchased two additional companies, and in 2005 purchased three additional companies. We have contracted with more than 1500 healthcare facilities across 49 states and the District of Columbia.

The companies we acquired in 2003 Baker Anderson Christie, Inc., New Age Nurses, Inc., Nurses Network, Inc., and PSR Nurses, Ltd. (through our acquisition of PSR Nurses Holdings Corp. and PSR Nurse Recruiting, Inc., which hold the limited partner and general partner interests in PSR Nurses, Ltd.) provide the foundation for our continued growth. During 2003 we began operating the acquired companies, combining the various back offices and support staff and streamlining the operations. We continued our acquisition program in 2004 and acquired Care Pros Staffing, Inc. and Arizona Home Health Care/Private Duty, Inc. On March 29, 2005, we acquired TravMed USA, Inc. and Health Industry Professionals, LLC. On May 4, 2005, we acquired PrimeStaff, LP and Mint Medical Staffing Odessa.

Although we have raised approximately \$13 million since the beginning of 2005, we will need to raise \$1.5 million to \$2 million in the first quarter of 2006 and additional capital during the next twelve months to satisfy debt service requirements and other working capital needs. If additional capital is not readily available, our business could fail if we cannot successfully scale back our operations until our income exceeds our expenses or pursue other strategic alternatives.

Some key factors we are focusing on to improve performance are as follows:

We are identifying innovative ways to attract and retain nurses such as a nurse stock program and competitive compensation packages.

We are installing new operating software to assist us in more effectively managing gross profits by nurse and by healthcare facility.

We are vigorously managing professional liability insurance costs, workers compensation insurance costs, and health care costs to enhance gross margins.

We are expanding our home health business in an effort to improve gross margins through a better mix of the services provided.

We are devoting constant attention toward achieving growth both organically and through acquisitions so that we can spread our corporate overhead over a larger base of business and achieve economies of scale.

We are currently working to raise \$1 million to \$4 million of debt and equity for working capital needs, for debt retirement and for acquisitions.

We are working to resolve the significant (in excess of \$92 million) Series C Preferred Stock liquidation preference (assuming exercise of all Series C warrants).

We are seeking to list our common stock on the Nasdaq National Market or another national exchange (our common stock is currently quoted on the OTC Bulletin Board).

LIQUIDITY AND CAPITAL RESOURCES

Although we have raised approximately \$13 million since the beginning of 2005, we will need to raise additional capital during the next twelve months to satisfy debt service requirements and working capital needs. We are currently working to raise \$1.5 million to \$4 million in a combination of debt and equity in a private placement transaction with qualified investors. If we are successful in raising more than the \$1 million to \$2 million needed to satisfy debt service requirements and working capital needs, we will employ additional funds for internal growth, retirement of higher cost debt, and to a lesser extent targeted acquisitions which satisfy our due diligence review.

In June 2004, we obtained a \$15 million revolving line of credit facility from Bridge Healthcare Finance, LLC (reduced to \$10 million in March 2005). In August 2004, we obtained a \$10 million term loan credit facility from Bridge Opportunity Finance, LLC. Bridge Opportunity Finance, LLC is an affiliate of Bridge Healthcare Finance, LLC. During the third quarter of 2005, Bridge Healthcare finance, LLC made a \$600,000 credit line available to us in the form of an over-advance on our revolving line of credit. We had \$2,521,598 and \$5,057,451 outstanding at December 31, 2004 and September 30, 2005, respectively, under our revolving line of credit facility (including any over-advances) and \$2,697,802 of principal (after adding back the discount) of term loan outstanding at December 31, 2004 and September 30, 2005. Agreements for both the revolving line of credit facility and the term loan facility contain financial covenants for the maintenance of minimum net worth, minimum EBITDA, maximum capital expenditure limits and maximum operating lease obligations. At March 31, 2005, we were out of compliance with financial covenants in both agreements, and we received waivers from the lenders. In May 2005 we renegotiated covenants related to both the revolving line of credit facility and the term loan; however, at September 30, 2005, we were not in compliance with the revised covenants. Bridge Healthcare Finance, LLC waived compliance with the covenants for the three months ended September 30, 2005. Failure to satisfy these covenants would severely restrict or eliminate our ability to obtain additional funding under these agreements. The term loan (which matures on April 30, 2007) has been classified as a long-term liability at September 30, 2005.

We generated a net loss of \$3,378,199 for the nine months ended September 30, 2005 and used cash in operations of \$3,691,159 during the first nine months of 2005. Additionally, although we ended the first nine months of 2005 with a working capital deficit of \$2.2 million, we were able to secure additional funding during 2004 and the first nine months of 2005 to finance our operations as we continue to execute our business plan to acquire and grow companies involved in healthcare staffing. We will need to raise \$1.5 million to \$2 million in the first quarter of 2006 and additional capital during the next twelve months to satisfy debt service requirements and other working capital needs.

In March 2005 our majority stockholder exercised warrants to purchase 108,333 shares of Series C Convertible Preferred Stock, providing \$6.4 million to us. Also, in May 2005 our majority stockholder exercised warrants to purchase 22,187 shares of Series C Convertible Preferred Stock, providing \$1.3 million to us. The infusion of \$7.7 million enabled us to acquire additional companies and to retire certain liabilities. Following the three acquisitions during the first nine months of 2005, we increased our borrowings under our accounts receivable line, but at September 30, 2005, there was no additional borrowing availability under this line. In the third

quarter of 2005, additional short-term funding of \$600,000 in the form of an over-advance on the accounts receivable line was secured from Bridge Healthcare Finance, LLC.

In December 2005 and January 2006 we completed a private placement totaling \$4.75 million. The financing consists of \$2.75 million, or 4,583,333 shares of common stock and \$2 million of 8% convertible debentures. The common stock was priced at \$0.60 per share. The convertible debentures have a term of three years and bear interest at a rate of 8.0% per year, payable semi-annually in cash or registered stock at our option. The debentures are convertible at a price of \$0.60 per share. The sale of convertible debentures included 50% warrant coverage. The warrants have a five year term and an exercise price of \$0.75 per share. In addition, purchasers of convertible debentures were granted the right to purchase additional common stock in the form of warrants at an exercise price of \$0.60 per share. Such warrants are exercisable, subject to extension, for a period of 60 days from the effective date of a registration statement filed by us covering the shares (including the shares issuable upon conversion of the debentures and exercise of the warrants). The warrants are for cash exercise only unless after one year there is no effective registration statement. We are obligated to register the shares (including the shares issuable upon conversion of the debentures and exercise of the warrants) for resale on a registration statement to be filed within 30 days. The shares, debentures and warrants (and the shares issuable upon conversion of the debentures and exercise of the warrants) were not registered under the Securities Act of 1933, as amended, or any state securities law and were sold in a private transaction pursuant to Regulation D promulgated under the Securities Act. Unless the shares, debentures and warrants (and the shares issuable upon conversion of the debentures and exercise of the warrants) are registered, they may not be offered or sold within the United States absent exemption from such registration requirements and compliance with applicable state laws. We have used the proceeds from the private placement for working capital and the retirement of 50% of our outstanding \$2.7 million term debt as well as retirement of the \$600,000 over-advance facility.

Although we have raised approximately \$13 million since the beginning of 2005, we will need to raise additional funding during the next twelve months to satisfy debt service requirements and working capital needs. There is no assurance that we will be able to raise the amount of debt or equity capital required to meet our objectives. Our challenging financial circumstances may make the terms, conditions and cost of any available capital relatively unfavorable. If additional debt or equity capital is not readily available, we will be forced to scale back our acquisition activities and our operations until our income exceeds our expenses. This would result in an overall slowdown of our development. Our short-term need for capital may force us to consider and potentially pursue other strategic options sooner than we might otherwise have desired.

Since October 31, 2005 we have not made debt service payments required by terms of the \$3.2 million of notes payable to sellers. Accordingly, we received a notice of default in early November 2005. The due date of the notes has been accelerated such that the entire balance of the notes payable to sellers is due. We have six months to cure the default. If cured, payment due dates revert back to the original non-accelerated terms. The default under the notes payable to sellers triggers defaults under the revolving loan and term loan discussed above. Also, as a result of this default, Bridge Healthcare Finance, LLC has an option to discontinue making revolving credit loans to us on receivables of TravMed USA, Inc., the acquisition which gave rise to the notes payable to sellers.

At September 30, 2005, we had \$25.0 million of goodwill and other unamortized intangible assets on our balance sheet, which represents the excess of the total purchase price of our acquisitions over the fair value of the net assets acquired. At September 30, 2005, goodwill and other intangible assets represented 77% of our total assets. These assets will be analyzed for impairment at year end. If an impairment charge is needed at year end, the charge could partially or totally eliminate stockholders' equity.

Our capital commitments for the next twelve months are minimal as our business does not require the purchase of plants, factories, extensive capital equipment or inventory.

CRITICAL ACCOUNTING POLICIES AND MANAGEMENT JUDGMENT

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires us to make judgments, estimates, and assumptions regarding uncertainties that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. Areas that require significant judgments, estimates, and assumptions include the assignment of fair values upon acquisition of goodwill and other intangible assets, testing for impairment of long-lived assets and valuation of the stock used to consummate our acquisitions. We use historical experience, qualified independent consultants and all available information to make these judgments and estimates, and actual results will inevitably differ from those estimates and assumptions that are used to prepare the company's financial statements at any given time.

Accounts Receivable

Accounts receivable are reduced by an allowance for doubtful accounts that provides a reserve with respect to those accounts for which revenue was recognized but which management subsequently determines that payment is not expected to be received. We analyze the balances of accounts receivable to ensure that the recorded amounts properly reflect the amounts expected to be collected. This analysis involves the application of varying percentages to each accounts receivable category based on the age of the uncollectible accounts receivable. The amount ultimately recorded as the reserve is determined after management also analyzes the collectibility of specific large or problematic accounts on an individual basis, as well as the overall business climate and other factors. Our estimate of the percentage of uncollectible accounts may change from time to time and any such change could have a material impact on our financial condition and results of operations.

Purchase Accounting, Goodwill and Intangible Assets

All business acquisitions have been accounted for using the purchase method of accounting and, accordingly, the statements of operations include the results of each acquired business since the date of acquisition. The assets acquired and liabilities assumed are recorded at their estimated fair value as determined by management and supported in some cases by an independent third-party valuation. We finalize the allocation of the purchase price to the fair value of the assets acquired and liabilities assumed when we obtain information sufficient to complete the allocation, but in any case, within one year after acquisition.

Goodwill arising from the acquisitions of businesses is recorded as the excess of the purchase price over the estimated fair value of the net assets of the businesses acquired. Statement of Financial Accounting Standards No. 142 (Goodwill and Other Intangible Assets) provides that goodwill is to be tested for impairment annually or more frequently if circumstances indicate potential impairment. Consistent with this standard, we will review goodwill, as well as other intangible assets and long-term assets, for impairment annually or more frequently as warranted, and if circumstances indicate that the recorded value of any such other asset is impaired, such asset is written down to its new, lower fair value. If any item of goodwill or such other asset is determined to be impaired, an impairment loss would be recognized equal to the amount by which the recorded value exceeds the estimated fair market value.

Comparison of the Nine Months Ended September 30, 2005 and 2004

Revenues for the first nine months of 2005 were \$23,883,000 compared to revenues of \$17,234,000 for the first nine months of 2004. Revenues increased in the first nine months of 2005 compared to the first nine months of 2004 due to acquisitions in August 2004 and March and May of 2005. However, the loss of certain larger customers in 2004 and 2005 and the soft demand experienced in the industry offset a significant portion of the increase in revenue due to acquisitions. In the first nine months of 2005 approximately 38% (77% in the first nine months of 2004) of our revenue was derived from the placement of travel nurses on assignment, typically 13 weeks in length. Such assignments generally involve temporary relocation to the geographic area of the assignment. In the first nine months of 2005, we also provided per diem nurses to satisfy the very short-term needs of healthcare facilities. Per diem services provided 51% of our revenue for the first nine months of 2005 (19% in the first nine months of 2004). Per diem revenue became a larger portion of our revenue in the first nine months of 2005 compared to the first nine months of 2004 because of our acquisition of per diem businesses in the third quarter of 2004. The remaining amount of our revenue in the first nine months of 2005 and 2004 came from providing clinical management and staffing to healthcare facilities and private duty homecare. During the first nine months of 2005 and 2004, most of our customers were acute care hospitals located throughout the continental United States.

Our overall gross profit in the first nine months of 2005 was \$5,140,000 or 21.5% of revenues compared to \$3,712,000 or 21.5% of revenues in the first nine months of 2004. Our gross profit is the difference between the revenue we realize when we bill our customers for the services of our healthcare professionals and our direct operating costs, which include the cost of the healthcare professionals and the related housing and travel costs, certain employment related taxes and workers compensation insurance coverage.

Our selling, general and administrative costs were \$6,362,000 or 26.6% of revenues in the first nine months of 2005 compared to \$6,767,000 or 39.3% of revenues in the first nine months of 2004. Selling, general and administrative expenses are comprised primarily of personnel costs, legal and audit fees related to being a public company and various other office and administrative expenses. Selling, general and administrative costs as a percentage of revenue are down in the first nine months of 2005 following the elimination of redundant costs in our travel business in October 2004. Also, the dollar amount of selling, general and administrative costs has decreased even though revenue has increased indicating that we have been able to effectively achieve economies of scale with a larger revenue base.

Non-cash stock based compensation expense increased from \$300,000 in the first nine months of 2004 to \$671,000 in the first nine months of 2005 reflecting incremental amortization related to granting 3,700,000 shares of restricted stock to officers of the Company in May 2005.

The \$7,497,000 non-cash charge for conversion of debt in 2004 represents a charge related to inducement to convert seller debt to preferred stock. The amount was calculated by considering the fair market value of the preferred stock issued upon conversion of the seller debt.

Interest costs decreased from \$1,712,000 in the first nine months of 2004 compared to \$1,484,000 in the first nine months of 2005 which decrease reflects lower overall rates on the new debt facilities we obtained in 2004 (which were restructured in the first quarter of 2005).

Deemed dividends were \$4,521,000 in the first nine months of 2004. The deemed dividends relate to beneficial conversion features of our Series A, Series B, Series B-1 and Series C convertible preferred stock and beneficial conversion features of Series B-1 warrants.

The non-cash preferred stock dividends in the first nine months of 2005 relate to common stock dividends declared by the Board of Directors on our Series B, Series B-1 and Series C convertible preferred stock as well as cumulative common stock dividends declared for September 30, 2004, December 31, 2004 and March 31, 2005 related to the warrants exercised on March 29, 2005 for 108,333 shares of Series C convertible preferred stock and cumulative common stock dividends declared for December 31, 2004 and March 31, 2005 related to the warrants exercised on May 2, 2005 for 22,187 shares of Series C convertible preferred stock. The common stock dividends on the warrants are payable once the warrants are exercised.

Comparison of Years Ended December 31, 2004 and 2003.

At the beginning of 2003, we were a development stage company with no commercial operations. We pursued our operational plan and acquired four companies in 2003, with our first acquisition in August 2003. We purchased two more companies in August 2004. Below, we discuss operating results for 2004 compared to 2003. However, because of the various purchase dates of our subsidiaries throughout 2003 and 2004 and the inclusion of different periods of operating results for each of our subsidiaries, it is not possible to make meaningful comparisons of revenue and expense categories between 2004 and 2003.

Revenues in 2004 were \$23,018,000 compared to revenues of \$4,712,000 in 2003. In 2004, approximately 58% (61% in 2003) of our revenue was derived from the placement of travel nurses on assignment, typically 13 weeks in length. Such assignments generally involve temporary relocation to the geographic area of the assignment. In 2004, we also provided per diem nurses to satisfy the very short-term needs of healthcare facilities. Per diem services provided 29% of our revenue in 2004 (11% in 2003). The balance of our revenue in 2004 and 2003 came from providing clinical management and staffing to healthcare facilities and private duty homecare. During 2004 and 2003, most of our customers were acute care hospitals located throughout the continental United States. For 2004, sales to one customer group, Rhode Island Hospital and Newport Hospital, represented approximately 16.3% of our revenue. In the third quarter of 2004, we experienced a decline in revenue at these facilities and travel nurse assignments have not been renewed to date. Our top ten customers accounted for 48% of revenues in 2004.

Our overall gross profit margin in 2004 was \$4,767,000 or 20.7% of revenues compared to \$1,141,000 or 24.2% of revenues in 2003. Our gross margin is the difference between the revenue we realize when we bill our customers for the services of our healthcare professionals and our direct operating costs, which include the cost of the healthcare professionals and the related housing and travel costs, certain employment related taxes and workers compensation insurance coverage. Competitive pressures on pricing and higher medical insurance costs, higher workers compensation insurance costs, particularly in our California markets, and higher professional liability costs are reasons for the lower margins in 2004. Also, internal management reporting systems need to be improved to provide more timely information on individual nurse margins to enable more effective management of gross profit.

Our selling, general and administrative costs were \$9,517,000 or 41.3% of revenues in 2004 compared to \$3,410,000 or 72.4% of revenues in 2003. Selling, general and administrative expenses are comprised primarily of personnel costs, legal and audit fees related to being a public company and various other office and administrative expenses. Approximately 17.5% or \$595,000 of the selling, general and administrative expense in 2003 was incurred when the company was still in its formative stage, prior to the completion of our first acquisition, and 2003 included a long-term bonus to our Chief Executive Officer. We consider the long-term bonus payable to be a one-time event that is unlikely to be repeated.

Due to the decline in revenue related to the loss of certain customers, including a significant customer relationship, and due to the impact of new immigration regulations limiting access to foreign nurses, we have determined that certain intangibles are impaired. As a result of this analysis, \$1,800,000 was recorded as an impairment loss in 2004.

In 2003, we incurred significant non-cash compensation expense of \$51,638,000 primarily from a compensation agreement with our Chairman and Chief Executive Officer, related to our initial acquisitions. For a more extensive explanation of this agreement, see Note 15 to the consolidated financial statements. In the future we intend to use stock options as an incentive to our employees and, therefore, could incur additional non-cash compensation expense. However, we do not believe that such additional expense will be at the level incurred in 2003.

In 2004, we incurred a significant non-cash expense of \$24,541,000 for conversion of debt. For a more extensive discussion of this expense which is classified below loss from operations, see Note 12 to the consolidated financial statements.

Interest costs increased from \$409,000 in 2003 to \$2,218,000 in 2004 reflecting higher levels of borrowing to finance acquisitions and working capital needs.

Deemed dividends were \$4,648,000 in 2004 compared to \$1,750,000 in 2003. The deemed dividends relate to beneficial conversion features of our convertible preferred stock, and we had greater amounts of convertible stock issued in 2004 compared to 2003.

The non-cash preferred stock dividends in 2004 related to dividends declared by the Board of Directors on all series of our convertible preferred stock.

BUSINESS

Company Overview and History

Edgar Filing: CRDENTIA CORP - Form 424B3

We are a provider of healthcare staffing services, focusing on the areas of travel nursing, per diem staffing, contractual clinical services, and private duty home care. Our travel nurses are recruited domestically as well as internationally and placed on temporary assignments at healthcare facilities across the United States. Our per diem nurses are local nurses placed at healthcare facilities on short-term assignments. Our contractual clinical services group provides complete clinical management and staffing for healthcare facilities and our private duty home care group provides nursing case management and staffing for skilled and non-skilled care in the home.

At the beginning of 2003 we were a development stage company with no commercial operations. We did not have any revenue in 2002 and did not have any revenue in 2003 until we completed our first acquisition in August 2003. During 2003, we pursued our operational plan of acquiring companies in the healthcare staffing field and completed acquisitions of four companies. In 2004, we purchased two additional companies and in 2005 purchased three additional companies. As a result, we are now providing temporary healthcare workers in 20 states and have contracts with approximately 136 healthcare facilities. We anticipate continuing our plan to acquire specialized companies in the healthcare staffing field for the foreseeable future.

In August 2003, we completed our acquisition of Baker Anderson Christie, Inc., a California corporation, which operated a healthcare staffing business in Northern California. The transaction, for which we paid 160,000 shares of our common stock, was consummated pursuant to the terms of the Agreement and Plan of Reorganization dated June 19, 2003, as amended on July 31, 2003.

In September 2003, we completed our acquisition of New Age Staffing, Inc., a Delaware corporation, which operated healthcare staffing operations in Louisiana, Alabama and Tennessee. The transaction, for which we paid 2,294,871 shares of our common stock, was consummated pursuant to the terms of the Agreement and Plan of Reorganization dated September 15, 2003. This acquisition provided us entry into the area of travel nursing and resulted in our first significant revenue.

In October 2003, we completed our acquisition of Nurses Network, Inc, a California corporation, which operated a healthcare staffing operation in Northern California. The transaction, for which we paid 39,361 shares of our common stock, was consummated pursuant to the terms of the Agreement and Plan of Reorganization dated July 16, 2003, as amended on September 9, 2003.

In December 2003, we completed our acquisition of PSR Nurse Recruiting, Inc., a Texas corporation, and PSR Nurses Holdings Corp., a Texas corporation, which hold the limited partner and general partner interests in PSR Nurses, Ltd., which operated a healthcare staffing business in Texas. The transactions, for which we paid 1,139,595 shares of our common stock, were consummated pursuant to the terms of the Agreement and Plan of Reorganization dated November 4, 2003. This acquisition expanded our presence in travel nursing and provided us with a complete back-office operation.

In August 2004, we purchased Care Pros Staffing, Inc., a Texas corporation which operated a per diem nurse staffing business in Texas. The transaction, for which we paid \$275,000 in cash, \$275,000 in notes payable and \$39,706 of net acquisition costs, was consummated pursuant to the terms of the Agreement and Plan of Reorganization dated August 13, 2004.

In August 2004, we purchased Arizona Home Health Care/Private Duty, Inc., an Arizona corporation which operated per diem and home health care staffing businesses in Arizona. The transaction, for which we paid \$3,900,000 in cash, 200,000 shares of our stock, and \$77,154 of net acquisition costs was consummated pursuant to the terms of the Agreement and Plan of Reorganization dated August 31, 2004.

On March 29, 2005, we acquired TravMed USA, Inc. and Health Industry Professionals, LLC. On May 4, 2005, we acquired PrimeStaff, LP and Mint Medical Staffing Odessa.

On March 29, 2005, we acquired Health Industry Professionals, LLC (HIP) in exchange for \$1,350,900 in cash, 1,283,684 shares of our common stock valued at \$2,601,600, (determined by the average of \$2.03 per share which approximates the trading value as quoted on the OTC Bulletin Board 3 days before and 3 days after the acquisition date), and \$30,653 of net acquisition costs.

On May 4, 2005, we acquired Prime Staff, LP and Mint Medical Staffing Odessa in exchange for \$150,000 in cash, 165,042 shares of our common stock valued at \$287,264 (determined by the average of \$1.74 per share which approximates the trading value as quoted on the OTC Bulletin Board 3 days before and 3 days after the acquisition date), and \$78,638 of net acquisition costs.

We have put in place a plan to seek Joint Commission on Accreditation of Healthcare Organizations (JCAHO) certification for all of our staffing offices. We anticipate that those surveys will be held in early 2006. Although certification is not required by any of our current customers, we feel that attaining certification in each of our offices will demonstrate our commitment to quality and demonstrate best practices in client service, employee credentialing, and over all monitoring of quality outcomes.

Industry Overview

Edgar Filing: CRDENTIA CORP - Form 424B3

The Staffing Industry Report, an independent staffing industry publication, estimates that the healthcare segment of the temporary staffing industry was \$10.6 billion in 2002, an increase of 25% from \$8.5 billion in 2001. Nurse staffing represents over 70% of the revenue generated in the temporary medical staffing industry.

The most common temporary nurse staffing alternatives available to hospital administrators are travel nurses and per diem nurses.

Travel nurse staffing involves placement of registered nurses on a contracted, fixed-term basis. Assignments may range from several weeks to one year, but are typically 13 weeks long and involve temporary relocation to the geographic area of the assignment. The staffing company generally is responsible for providing travel nurses with customary employment benefits and for coordinating and providing travel and housing arrangements.

Per diem staffing involves placement of locally based healthcare professionals on very short-term assignments, often for daily shift work, with little advance notice of assignments by the client.

Supply and Demand Factors

Beginning in the mid-1990s, changes in the healthcare industry prompted a fundamental shift in staffing models that led to an increased usage of temporary staffing at hospitals and other healthcare facilities. We believe that these changes in the healthcare industry will continue over the long-term because of the following factors:

Shortage of Nurses. Notwithstanding the recent two-year increase in the nurse workforce, the nursing shortage is expected to grow over the coming decades. The nursing workforce is projected to shrink to 2.2 million by 2020, yet the latest government forecast reflects that 2.8 million full-time equivalent RNs will be required by 2020. A U.S. Bureau of Labor Statistics report (February 2004) stated that, for the first time, nurses represented the largest projected 10-year job growth occupation, putting the demand for RNs at 2.9 million in 2012, up from 2.3 million in 2002. A study by the U.S. Department of Health and Human Services (July 2002) estimated there will be a 20% shortage of nurses by 2015 and 29% by 2020 that equates to a vacancy of 810,000 RNs. A similar report in 2002 to Joint Commission on Accreditation of Healthcare Organizations (JCAHO) quantified this shortage to be at least 400,000 fewer nurses available to provide care than will be needed by 2020. Meanwhile, the current national nurse vacancy rate is estimated to be approximately 7%. A year earlier, the vacancy rate was 13.9% according to a survey conducted by Bernard Hodes Group. The 2004 Health Affairs study, however, stated that despite the recent increase in nurses in the workforce, there is no empirical evidence that the nursing shortage has ended, citing a national survey of RNs and physicians conducted in 2004 which found that a majority of RNs (82%) and doctors (81%) perceived shortages of RNs in the hospitals where they worked or admitted most of their patients. Further, the national shortage of RNs is not evenly distributed across the country. The 2003 Nursing Shortage Update by Fitch,

Inc. estimates that 30 states are currently experiencing a shortage, and by 2020, 44 states and the District of Columbia are projected to have shortages.

Several factors have contributed to the decline in the supply of nurses:

The nurse pool is getting older and approaching retirement age. Several factors contribute to the aging of the registered nurse workforce: (1) the decline in number of nursing school graduates, (2) the higher age of recent graduates, and (3) the aging of the existing pool of licensed nurses. The largest source of new registered nurses, associate-degreed nurses, are on average 33 years old when they graduate, which is considerably older than in 1980 when the average age was 28. The JCAHO report outlined the average age of a working registered nurse at 43.3 and increasing at a rate more than twice that of other workforces in this country. By the year 2010, it is projected that the average age of working registered nurses will be 50.

Approximately 60% of nurses work in hospitals. Many registered nurses are leaving the hospital workforce through retirement, death or by choosing careers outside of acute care hospitals or in professions other than direct patient care. There are currently more than 500,000 licensed nurses not employed in nursing. Generally, the primary reasons nurses leave patient care, besides retirement, is to seek a job that is less stressful and less physically demanding, to seek more regular hours and more compensation.

Enrollment levels in nursing schools declined in the last half of the 1990s, resulting in 26% fewer registered nurse graduates in 2000 than in 1995. Similarly, the number of domestically educated candidates taking the registered nurse licensing examination (NCLEX) for the first time has declined at an average of 5.5% for each of the past six years, as reported by the National Council of State Boards of Nursing, Inc.

There is an increasing shortage of nursing faculty. As a result of the faculty shortage, nursing schools turned away 5,000 qualified baccalaureate program applicants in 2001.

We believe the shortage of nurses increases demand for our services. Hospitals are increasingly turning to temporary nurses as a flexible way to manage changes in demand of their permanent staff and make up for budgeted shortfalls in staffing.

Increasing Demand for Healthcare Services. There are a number of factors driving an increase in the demand for healthcare services, including:

A projected 18% increase in population in the United States between the year 2000 and 2020, resulting in an additional 50 million people who will require health care 19 million of which will be in the 65-and-over age group (according to the July 2002 Report by U.S. Department of Health and Human Services).

The aging of America. Baby boomers are just entering the 55 to 64 age group, where inpatient days per thousand are 58% higher than in the 45 to 54 age group, and 121% higher than in the 35 to 44 age group.

Advances in medical technology and healthcare treatment methods that attract a greater number of patients with complex medical conditions requiring higher intensity of care.

Legislative Changes that will Increase Demand. In response to concerns by consumer groups over the quality of care provided in healthcare facilities and concerns by nursing organizations about the increased workloads and pressures on nurses, a number of states have either passed or introduced legislation related to prohibiting mandatory overtime and addressing nurse-to-patient ratios. The passage of such legislation is expected to increase the demand for nurses. California, in particular, has passed legislation requiring minimum nurse-to-patient ratios at

all hospitals. Maine, New Jersey and Oregon have passed legislation limiting mandatory overtime for nurses. Several states are considering, or have already introduced similar legislation.

Growth Strategy

Our goal is to expand our position within the temporary healthcare staffing sector in the United States. The key components of our business strategy include:

Expanding Our Network of Qualified Temporary Healthcare Professionals. Through our recruiting efforts both in the United States and internationally, we continue to expand our network of qualified temporary healthcare professionals. We have a staff of professional recruiters who establish contact with qualified healthcare professionals by phone, by email and through the internet. Our best source, however, is by referrals from satisfied healthcare professionals already associated with our company.

Strengthening and Expanding Our Relationships with Hospitals and Healthcare Facilities. We continue to strengthen and expand our relationships with our hospital and healthcare facility clients, and to develop new relationships. Hospitals and healthcare facilities are seeking a strong business partner for outsourcing who can fulfill the quantity and quality of their staffing needs and help them develop strategies for the most cost-effective staffing methods. We believe we are well positioned to offer our hospital and healthcare facility clients effective solutions to meet their staffing needs.

Increasing Our Market Presence in the Per Diem Staffing Market. We intend to expand our per diem services to the acute care hospital market by opening or acquiring new per diem staffing offices in selected markets. While we have not historically had a significant presence in per diem staffing services, we believe that this market presents a substantial growth opportunity.

Acquiring Complementary Businesses. We continually evaluate opportunities to acquire complementary businesses to strengthen and broaden our market presence and suite of products.

Expanding Service Offerings Through New Staffing Solutions. In order to further enhance the growth in our business and improve our competitive position in the healthcare staffing sector, we continue to explore new service offerings. In addition, we believe there are opportunities for growth in allied health (technicians and therapists) and we have begun to pursue new initiatives in this area as well.

Competition

Edgar Filing: CRDENTIA CORP - Form 424B3

The healthcare staffing industry is highly competitive, with low barriers to entry. We compete with both national firms as well as local and regional firms to attract nurses and other healthcare professionals and to attract hospital and healthcare facility clients. We compete for temporary healthcare professionals on the basis of service and expertise, the quantity, diversity and quality of assignments available, compensation packages, and the benefits that we provide to a temporary healthcare professional while they are on an assignment. We compete for hospital and healthcare facility clients on the basis of the quality of our temporary healthcare professionals, the timely availability of our professionals with requisite skills, the quality, scope and price of our services, our recruitment expertise and the geographic reach of our services. Although we believe we compete favorably with respect to these factors, we expect competition to continue to increase.

We also compete with national, regional and local firms who also seek to acquire temporary healthcare companies. Many of these firms have greater financial resources and market recognition than we do. However, we believe that the combination of our management team and the growth plan that we have established will be attractive to many of the acquisition candidates that we encounter and that we will compete favorably in this environment.

Regulatory Issues

The healthcare industry is subject to extensive and complex federal and state laws and regulations related to professional licensure, conduct of operations, payment for services and payment for referrals, and additional federal

legislation was introduced in 2005. Our business, however, is not generally impacted because we provide services on a contract basis and are paid directly by our hospital and healthcare facility clients.

Some states require state licensure for businesses that employ and/or assign healthcare personnel to provide healthcare services on-site at hospitals and other healthcare facilities. We have applied for or are currently licensed in all states in which we do business that require such licenses.

Most of the temporary healthcare professionals that we employ are required to be individually licensed or certified under applicable state laws. We take reasonable steps to ensure that our employees possess all necessary licenses and certifications in all material respects.

With respect to our recruitment of international temporary healthcare professionals, we must comply with certain United States immigration law requirements, including the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.

Employees

Edgar Filing: CRDENTIA CORP - Form 424B3

At December 31, 2005, we employed 714 employees, including 337 full-time healthcare professionals, 74 full-time corporate and field office employees, 300 part-time healthcare professionals and 3 part-time corporate and field office employees. None of our employees, including our temporary healthcare professionals, are represented by a labor union. We believe we have excellent relations with our employees.

LEGAL PROCEEDINGS

Edgar Filing: CRDENTIA CORP - Form 424B3

From time to time, we may become involved in various lawsuits and legal proceedings which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. We are not currently aware of any such legal proceedings or claims that we believe will have, individually or in the aggregate, a material adverse effect on our business, financial condition or operating results.

Board Committees and Meetings

Edgar Filing: CRDENTIA CORP - Form 424B3

Our Board of Directors held 16 meetings and acted by written consent three times during our fiscal year ended December 31, 2005. Our Board of Directors has an audit committee and a compensation committee. Each director attended 75% or more of the aggregate of (i) the total number of meetings of our Board of Directors (held during the period for which such person was a director) and (ii) the total number of meetings held by all committees of our Board of Directors on which the director served (during the periods that he served).

Although the Board of Directors does not have a formal policy regarding attendance by members of the Board of Directors at the Annual Meeting, it encourages directors to attend. Each of our then-current directors attended the 2005 Annual Meeting of Stockholders.

Our compensation committee currently consists of two directors, Mr. Kenneth, who serves as chairman of the committee, and Mr. Herman, and is primarily responsible for reviewing and approving our general compensation policies and setting compensation levels for our executive officers. The committee held six meetings during our 2005 fiscal year.

Our audit committee currently consists of three directors, Mr. DeLuca, who serves as chairman of the committee, Mr. Oliver and Mr. Herman. Each of the members of the audit committee is independent as defined pursuant to Rule 4200 of the National Association of Securities Dealers listing standards and as required by applicable law and the SEC. Our Board of Directors has designated Mr. Herman as the audit committee's financial expert.

The audit committee generally meets at least quarterly to review our financial statements and to perform its other functions. The audit committee held nine meetings during our 2005 fiscal year.

Given our limited operating history, our Board of Directors has not yet formed a nominating committee for the election of directors. Currently, our full Board of Directors designates nominees for election to the Board of Directors at each Annual Meeting of Stockholders.

The Board of Directors has not adopted a formal policy concerning stockholder recommendations regarding the election of directors. The absence of such a policy does not mean, however, that a recommendation would not have been considered had one been received. Although our Board of Directors has historically designated nominees for election, the Board of Directors will consider nominations submitted by our stockholders, and our Bylaws contain provisions which address the process by which a stockholder may nominate an individual to stand for election to the Board of Directors at the Annual Meeting. To date, the Board of Directors has not received any recommendations from stockholders requesting that it consider a candidate for inclusion among the slate of nominees in the Proxy Statement.

In evaluating director nominees, the Board of Directors considers a number of factors, including the appropriate size of the Board of Directors; the knowledge, skills and experience of nominees, including experience in business, finance, administration or healthcare in light of prevailing business conditions and the knowledge, skills and experience already possessed by other members of the Board of Directors; experience with accounting rules and practices; and the desire to balance the considerable benefit of continuity with the periodic injection of the fresh perspective provided by new members. The Board of Directors' goal is to assemble a Board of Directors that brings a variety of perspectives and skills derived from high quality business and professional experience. In doing so, the Board of Directors also considers candidates with appropriate non-business backgrounds. Other than the foregoing there are no stated minimum criteria for director nominees, although the Board of Directors and any nominating committee may also consider such other factors as it may deem are in the best interests of the Company and its stockholders.

The Board of Directors identifies nominees by first evaluating the current members of the Board of Directors willing to continue in service. Current members of the Board of Directors with skills and experience that are relevant to our business and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of the Board of Directors with that of obtaining a new perspective. If any member of the Board of Directors does not wish to continue in service or if the Board of Directors decides not to re-nominate a member for re-election, the Board of Directors then identifies the desired skills and experience of a new nominee in light of the criteria above. Current members of the Board of Directors are polled for suggestions as to individuals meeting the desired criteria. Research may also be performed to identify qualified individuals. To date, the Board of Directors has not engaged third parties to identify or evaluate or assist in identifying potential nominees, although it reserves the right in the future to retain a third party search firm, if necessary.

Historically, we have not adopted a formal process for stockholder communications with the Board of Directors. Nevertheless, every effort has been made to ensure that the views of stockholders are heard by the Board of Directors or individual directors, as applicable, and that appropriate responses are provided to stockholders in a timely manner.

Code of Ethics

Edgar Filing: CRDENTIA CORP - Form 424B3

The Board of Directors has adopted a Code of Ethics that applies to all of our employees, officers and directors. The Code of Ethics contains general guidelines for conducting the business of our company consistent with the highest standards of business ethics, and is intended to qualify as a code of ethics within the meaning of Section 406 of the Sarbanes-Oxley Act of 2002 and Item 406 of Regulation S-K.

Employment Contracts, Severance Agreements and Change of Control Arrangements

Edgar Filing: CRDENTIA CORP - Form 424B3

Employment Agreement with James D. Durham

We have entered into an Employment Agreement with James D. Durham, our Chairman and Chief Executive Officer. Pursuant to the Employment Agreement, as amended to date, we have agreed to pay Mr. Durham a base salary \$320,000 for the 2004 calendar year, subject to adjustment each calendar year thereafter by the Board of Directors. In the event that Mr. Durham becomes subject to an Involuntary Termination, we have agreed to pay severance to Mr. Durham in one lump sum within thirty (30) days of the date of such Involuntary Termination in an aggregate amount equal to two times his then-current rate of base salary. In addition, for a period of twenty-four months, Mr. Durham would also be provided with life, health and disability plan benefits.

As used in the Employment Agreement, the term Involuntary Termination means the termination of Mr. Durham's employment with us involuntarily upon his discharge, dismissal or our failure to renew the Employment Agreement. In addition, the term Involuntary Termination also means his termination, voluntarily or involuntarily, provided such termination occurs in connection with (i) a change in his position with us or any successor which materially reduces his level of responsibility or changes his title from Chairman and Chief Executive Officer, (ii) a reduction in his level of compensation, (iii) a relocation of his principal place of employment by more than forty-five (45) miles without his written consent, (iv) our failure to qualify for trading on the OTC Bulletin Board within ninety (90) days of the date of the Employment Agreement or to continuously be listed for trading on the OTC Bulletin Board or another national securities exchange at all times thereafter, or (v) the commencement of any action, arbitration, audit, hearing, investigation, litigation or suit conducted or heard by or before, or otherwise involving, the SEC, the National Association of Securities Dealers or any other federal or state governmental body which has a material adverse effect on the price at which our securities trade and is not principally attributable to his actions or omissions.

Under the Employment Agreement, if Mr. Durham receives the benefit of any payment or distribution of any type from the Company, any of its affiliates, any person who acquires ownership or effective control of the Company or ownership of a substantial portion of the Company's assets (within the meaning of Section 280G of the Code and the regulations thereunder) or any affiliate of such person, pursuant to the terms of the Employment Agreement or otherwise (the Total Payments), that is subject to the excise tax imposed by Section 4999 of the Code or any interest or penalties with respect to such excise tax (collectively, the Excise Tax), then Mr. Durham will be entitled to receive an additional payment (a Gross-Up Payment) in an amount such that after payment by Mr. Durham of all taxes imposed upon the Gross-Up Payment, including any Excise Tax, Mr. Durham will retain an amount of the Gross-Up Payment equal to the Excise Tax imposed on the Total Payments.

In addition, under the Employment Agreement, in the event that, during the term of the Employment Agreement, the Company closes a sale transaction which constitutes a Change in Control thereunder (such transaction, a Corporate Transaction), Mr. Durham will be entitled to receive a bonus in the amount of one and one-half percent (1.5%) of the Total Consideration actually paid to the Company's stockholders in connection therewith. As used therein, the term Total Consideration means the aggregate consideration actually paid to the stockholders of the Company in respect of capital stock of the Company owned by such stockholders and will not include earn-out, escrow, hold back or similar contingent payments unless and until such amounts are actually paid to the stockholders of the Company. Such payment(s) will be made at the same time(s) and in the same form and combination (whether in cash, securities or other property) as the form and combination in which the Total Consideration is paid to the stockholders in respect of their ownership of the Company's capital stock.

Indemnification of Directors and Officers

Section 145 of the Delaware Corporation Law provides that a Delaware corporation may indemnify any person against expenses, judgments, fines and settlements actually and reasonably incurred by any such person in connection with a threatened, pending or completed action, suit or proceeding in which he is involved by reason of the fact that he is or was a director, officer, employee or agent of such corporation, provided that (i) he acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation, and (ii) with respect to any criminal action or proceeding, he had no reasonable cause to believe his conduct was unlawful. If the action or suit is by or in the name of the corporation, the corporation may indemnify such person against expenses actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification may be made in respect to any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation for negligence or misconduct in the performance of his duty to the corporation, unless and only to the extent that the Delaware Court of Chancery or the court in which the action or suit is brought determines upon application that, despite the adjudication of liability but in view of all of the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

As permitted by Section 102 of the Delaware General Corporation Law, the Company has adopted provisions in its restated certificate of incorporation and amended and restated bylaws that limit or eliminate the personal liability of its directors for a breach of their fiduciary duty of care as a director. The duty of care generally requires that, when acting on behalf of the Company, directors exercise an informed business judgment based on all material information reasonably available to them. Consequently, a director will not be personally liable to the Company or its stockholders for monetary damages or breach of fiduciary duty as a director, except for liability for:

any breach of the director's duty of loyalty to the Company or its stockholders;

any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;

any act related to unlawful stock repurchases, redemptions or other distributions or payment of dividends; or

any transaction from which the director derived an improper personal benefit.

These limitations of liability do not affect the availability of equitable remedies such as injunctive relief or rescission.

As permitted by Section 145 of the Delaware General Corporation Law, the Company's amended and restated bylaws provide that:

the Company may indemnify its directors, officers and employees to the fullest extent permitted by the Delaware General Corporation Law, subject to limited exceptions;

the Company may advance expenses to its directors, officers and employees in connection with a legal proceeding to the fullest extent permitted by the Delaware General Corporation Law, subject to limited exceptions; and

the rights provided in its amended and restated bylaws are not exclusive.

We have entered into indemnification agreements with each of our directors and executive officers. These indemnification agreements provide that we hold harmless and indemnify each such director and executive officer to the fullest extent authorized or permitted by law. In addition, subject to certain conditions, these indemnification agreements provide for payment of expenses (including attorney's fees) actually and reasonably incurred in connection with any threatened, pending or completed proceeding to which the indemnified director or executive officer or employee is, was or at any time becomes a party, or is threatened to be made a party, by reason of the fact that he or she is, was or at any time becomes a director or executive officer of us, or is or was serving or at any time serves at the request of us as a director or executive officer of another corporation, partnership, joint venture, trust, employee benefit plan or other enterprise. In addition, we have purchased policies of directors' and officers' liability insurance, which insure our directors and executive officers against the cost of defense, settlement or payment of a judgment in some circumstances.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the small business issuer to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable.

The transfer agent and registrar for our common stock is Continental Stock Transfer and Trust Company. Our common stock is traded on the OTC Bulletin Board, under the symbol CRDE.OB.

PLAN OF DISTRIBUTION

Edgar Filing: CRDENTIA CORP - Form 424B3

Each selling stockholder of our common stock and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock on the Trading Market or any other stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. A selling stockholder may use any one or more of the following methods when selling shares:

ordinary brokerage transactions and transactions in which the broker dealer solicits purchasers;

block trades in which the broker dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker dealer as principal and resale by the broker dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately negotiated transactions;

settlement of short sales entered into after the effective date of the registration statement of which this prospectus is a part;

broker dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;

a combination of any such methods of sale;

through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise; or

any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares under Rule 144 under the Securities Act of 1933, as amended (the Securities Act), if available, rather than under this prospectus.

Broker dealers engaged by the selling stockholders may arrange for other brokers dealers to participate in sales. Broker dealers may receive commissions or discounts from the selling stockholders (or, if any broker dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this Prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with NASDR Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with NASDR IM-2440.

In connection with the sale of the common stock or interests therein, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The selling stockholders may also sell shares of the common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The selling stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The selling stockholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be underwriters within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by

them may be deemed to be underwriting commissions or discounts under the Securities Act. Each selling stockholder has informed the Company that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the common stock. In no event shall any broker-dealer receive fees, commissions and markups which, in the aggregate, would exceed eight percent (8%).

The Company is required to pay certain fees and expenses incurred by the Company incident to the registration of the shares. The Company has agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Because selling stockholders may be deemed to be underwriters within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. Each selling stockholder has advised us that they have not entered into any written or oral agreements, understandings or arrangements with any underwriter or broker-dealer regarding the sale of the resale shares. There is no underwriter or coordinating broker acting in connection with the proposed sale of the resale shares by the selling stockholders.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the shares may be resold by the selling stockholders without registration and without regard to any volume limitations by reason of Rule 144(e) under the Securities Act or any other rule of similar effect or (ii) all of the shares have been sold pursuant to the prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Securities Exchange Act of 1934, as amended (the Exchange Act), any person engaged in the distribution of the resale shares may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the selling stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of the common stock by the selling stockholders or any other person. We will make copies of this prospectus available to the selling stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale.

Crdentia Corp.

Dallas, Texas

We have audited the accompanying consolidated balance sheet of Crdentia Corp. as of December 31, 2003 and the related consolidated statements of operations, stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Crdentia Corp. at December 31, 2003, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

CRDENTIA CORP.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2004

Note 1. Organization and Summary of Significant Accounting Policies

Organization

Crdentia Corp (the Company), a Delaware corporation, is a provider of healthcare staffing services in the United States. Such services include travel nursing, per diem staffing, contractual clinical services and private duty home health care. The Company considers these services to be one segment. Each of these services relate solely to providing healthcare staffing to customers and the Company utilizes common systems, databases, procedures, processes and similar methods of identifying and serving these customers.

At the beginning of 2003, the Company was a development stage company with no commercial operations. During that year, the Company pursued its operational plan of acquiring companies in the healthcare staffing field and completed the acquisition of four operating companies. The companies acquired in 2003 Baker Anderson Christie, Inc., New Age Nurses, Inc., Nurses Network, Inc., and PSR Nurse Recruiting, Inc. and PSR Nurses Holdings Corp., which holds the limited partner and general partner interests in PSR Nurses, Ltd. provide the foundation for future growth. During 2004, the Company completed the acquisitions of Arizona Home Health Care/Private Duty, Inc. and Care Pros Staffing, Inc.

The accompanying financial statements include the results of the wholly-owned subsidiaries discussed above from their respective dates of acquisition. All intercompany transactions have been eliminated in consolidation.

On June 28, 2004, the Company executed a one-for-three reverse stock split of the outstanding shares of Common Stock. All common share and per share information included in these financial statements have been retroactively adjusted to reflect the reverse stock split.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amount of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The most significant estimates relate to the allowance for doubtful accounts, the valuation and allocation of acquired intangible assets and goodwill, the stock valuation of the shares used to consummate the Company's acquisitions, and analysis of impairment of goodwill and other intangible assets. Actual results could differ from those estimates.

Liquidity

Although the Company ended 2004 with a working capital deficit of \$5.3 million, the Company was able to secure additional funding during 2004 to finance its operations as it continued to execute its business plan to acquire and grow companies involved in healthcare staffing. As discussed in Note 20, in March 2005 the Company's majority stockholder exercised warrants to purchase 108,333 shares of Series C Convertible Preferred Stock providing \$6.5 million to the Company. The infusion of \$6.5 million into the Company enabled it to acquire additional companies and to retire certain liabilities and, based on the Company's projections, will generate cash flow from operations in 2005 sufficient to service its debt and fund its operations for the foreseeable future. The Company will also be able to borrow on its existing line of credit to finance the growth in receivables.

Fair Value of Financial Instruments

The company's financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable, revolving lines of credit, and notes payable. The Company believes the reported carrying amounts of its cash and cash equivalents, accounts receivable, and accounts payable approximates fair value, based upon the maturities and short-term nature of those instruments. The Company believes that the fair value of the revolving lines of credit and notes payable approximates the fair value based on the terms and conditions the Company feels could be attained from other institutions.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less at the date of maturity to be cash equivalents. At times, the Company's cash balances may exceed the Federal Deposit Insurance Corporation (FDIC) insured limit of \$100,000. However, management presently believes that the risk of loss is not significant. To date, the Company has not experienced any losses in such accounts.

Trade Receivables

Accounts receivable are uncollateralized customer obligations due under normal trade terms. The Company provides services to various public and private medical facilities such as hospitals, prisons, and nursing care facilities. Management performs continuing credit evaluations of the customers' financial condition. In addition, the Company provides home healthcare to individuals on a private pay arrangement or state funded insurance reimbursement.

Senior management reviews accounts receivable on a regular basis to determine if any receivables will potentially be uncollectible. An allowance for doubtful accounts is recorded based upon management's evaluation of current industry conditions, historical collection experience and other relevant factors which, in the opinion of management, require recognition in estimating the allowance. After all attempts to collect a receivable have failed, the receivable is written off against the allowance.

Property and Equipment

Property and equipment is stated at cost. Depreciation is provided by utilizing the straight-line method over the estimated useful life of the assets (generally three to ten years). Amortization of leasehold improvements is being provided on the straight-line method over the various lease terms or estimated useful lives, if shorter. The cost of maintenance and repairs is charged to operations as incurred.

Long-Lived Assets

Long-lived assets, including property and equipment, are assessed for possible impairment whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable or whenever management has committed to a plan to dispose of the assets. Such assets are carried at the lower of book value or fair value as estimated by management based on appraisals, current market value, and comparable sales value, as appropriate. Long-lived assets affected by such impairment loss are depreciated or amortized at their new carrying amount over the remaining estimated life. Assets to be sold or otherwise disposed are not subject to further depreciation or amortization.

Goodwill and Intangible Assets

Edgar Filing: CRDENTIA CORP - Form 424B3

Intangible assets other than goodwill consist of customer relationships and international nurse contracts, are presented net of accumulated amortization and are amortized over their respective useful lives estimated to be five years. Goodwill is assessed for impairment at least annually. The valuation of these intangibles is determined based upon valuations performed by third-party specialists and management's best estimates of fair value. As a result, the ultimate value and recoverability of these assets is subject to the validity of the assumptions used.

Income Taxes

The Company accounts for income taxes under an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax return. A valuation allowance is recorded, based on currently available information, when it is more likely than not that any or all of a deferred tax asset will not be realized. The Company files a consolidated Federal income tax return with its subsidiaries.

Revenue Recognition

The Company recognizes revenue generally on the date the Company's healthcare staff provides services to healthcare facilities or individuals in their home. For certain permanent placement contracts, revenue is recognized over the life of the guarantee period provided in the contract.

Unbilled receivables represent an estimate of revenue earned during the period in excess of amounts billed.

Stock-Based Compensation

As permitted under the provisions of Statement of Financial Accounting Standard (SFAS) No. 123, *Accounting for Stock-Based Compensation*, the Company continues to account for employee stock-based transactions under Accounting Principles Board Opinion (APB) No. 25, *Accounting for Stock Issued to Employees*. However, SFAS 123 requires the Company to disclose pro forma net loss and loss per share as if the fair value method had been adopted. Under the fair value method, compensation cost is measured at the grant date based on the fair value of the award and is recognized over the service period, which is usually the vesting period. For non-employees, cost is also measured at the grant date, using the fair value method, but is actually recognized in the financial statements over the vesting period or immediately if no further services are required.

If the Company had elected the fair value method of accounting for employee stock-based compensation, compensation cost would be accrued at the estimated fair value of the stock award grants over the service period, regardless of later changes in stock prices and price volatility. The date of grant fair values for options granted have been estimated based on the Black-Scholes pricing model with the assumptions identified in the following table:

	December 31,

Dividend Yield	0		0
Volatility	134%-162%		60%

The table below shows net loss per share attributable to common stockholders for December 31, 2004 and 2003 as if the Company had elected the fair value method of accounting for stock options.

Earnings Per Share

The Company adopted the standards set by the Financial Accounting Standards Board and computes earnings per share in accordance with SFAS No. 128 Earnings per Share. The basic per share data has been computed on the loss attributable to common stockholders for the period divided by the weighted average number of shares of common stock outstanding for the period. Diluted earnings per common share include both the weighted average number of shares and any common share equivalents such as convertible securities, options or warrants in the calculation. As the Company recorded losses in 2004 and 2003, common share equivalents outstanding would be anti-dilutive, and as such, have not been included in weighted average shares outstanding.

New Accounting Pronouncements

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123 (revised 2004), *Share-Based Payment*, which is a revision of SFAS No. 123, *Accounting for Stock-Based Compensation*. Statement 123R supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and amends SFAS No. 95, *Statement of Cash Flows*. Generally, the approach in Statement 123R is similar to the approach described in Statement 123. However, Statement 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. The company expects to adopt Statement 123R on January 1, 2006.

The Company is evaluating the impact of adopting SFAS 123R and expects that it will record substantial non-cash stock compensation expense. The adoption of SFAS 123R is not expected to have a significant effect on the Company's financial condition or cash flows but is expected to have a significant effect on the company's results of operations. The future impact of the adoption of SFAS 123R cannot be predicted at this time because it will depend on the levels of share-based payments granted by the Company in the future. However, had the Company adopted SFAS 123R in prior periods, the impact of the standard would have approximated the impact of SFAS 123 as described in the pro forma net loss attributable to common shareholders included in the Stock-Based Compensation policy footnote.

Note 2. Acquisitions

Edgar Filing: CRDENTIA CORP - Form 424B3

Arizona Home Health Care/Private Duty, Inc.

On August 31, 2004, the Company acquired Arizona Home Health Care/Private Duty, Inc. (AHHC) in exchange for \$3,900,000 in cash, 200,000 shares of the Company's Common Stock valued at \$690,000, (determined by the average of \$3.45 per share as of the two days prior to and subsequent to the acquisition date as quoted on the OTC Bulletin Board), and \$77,154 of net acquisition costs. The primary purpose of the acquisition was to enable the Company to expand its market share in the nurse staffing industry. The following table summarizes the assets acquired and liabilities assumed as of the closing date:

Cash acquired	\$	35,000
Tangible assets acquired		76,853
Customer related intangible assets		705,487
Goodwill		3,849,814
Total assets acquired		4,667,154
Liabilities assumed		
Net assets acquired	\$	4,667,154

The acquisition was accounted for using the purchase method of accounting. Customer related intangible assets will be amortized over their estimated useful life of five years. Allocation of the excess of merger consideration over the fair value of assets acquired between goodwill and customer relationships was determined by management's estimate based on a consistent model for all acquisitions developed by a professional valuation group. The Company will be required to issue additional shares of its Common Stock to the former stockholders of

AHHC should its results of operations exceed performance standards established in the merger agreement. The goodwill acquired may not be amortized for federal income tax purposes.

Care Pros Staffing, Inc.

Allocation of the excess of merger consideration over the fair value of assets acquired between goodwill and customer relationships was determined by management's estimate based on a consistent model for all acquisitions developed by a professional valuation group. The Company will be required to issue shares of its Common Stock to the former stockholders of Care Pros Staffing, Inc. should its results of operations exceed performance standards established in the merger agreement. The goodwill acquired may not be amortized for federal income tax purposes.

The Company's top ten customers accounted for 48% of revenues in 2004.

During 2003, one hospital accounted for 32.8% of total revenue.

Note 5. Goodwill and Other Intangible Assets

In June 2001, the Financial Accounting Standards Board (FASB) issued SFAS No. 141, *Business Combinations*, and SFAS No. 142, *Goodwill and Other Intangible Assets*. Under the new rules, goodwill and indefinite lived intangible assets are no longer amortized and will be reviewed annually for impairment. Intangible assets that are not deemed to have an indefinite life will continue to be amortized over their useful lives.

SFAS No. 142 uses a two-step process to measure potential impairment. In the first step, the fair values of the Company's reporting units are compared to the units' carrying amounts. A reporting unit is an operating segment or one level below an operating segment (referred to as a component). Two or more components of an operating segment with similar economic and operating characteristics may be combined into a single segment level evaluation. If the fair value of a reporting unit exceeds its carrying cost, goodwill is not considered impaired. If the carrying cost exceeds fair value, a second step is used to determine the amount of impairment. The second step determines the implied fair value of goodwill for a reporting unit by applying the estimated fair value to the tangible and separately identifiable intangible assets of the reporting unit, with any remaining amount considered goodwill.

During 2004, the Company completed the first step analysis under the requirements of the standard and determined that goodwill was not impaired. Fair value of the Company's reporting unit was determined using a capitalized cash flow technique. The Company used an outside valuation firm to assist in developing the primary assumptions, such as projected cash flows and capitalization rates and to perform the valuation to apply to the reporting unit. The Company next evaluated its tangible and identifiable intangible assets and liabilities to estimate their fair values.

Due to the decline in revenue related to the loss of certain customers, including a significant customer relationship, and due to the impact of new immigration regulations limiting access to foreign nurses, the Company has determined that certain intangibles are impaired. As a result of this analysis, \$1,800,000 was recorded as an impairment loss in 2004.

Goodwill and other intangible assets at December 31, 2004 and 2003 consist of:

	December 31,			
	2004		2003	
Goodwill	\$	12,974,973	\$	8,519,821
Customer relationships	\$	1,912,480	\$	1,725,000
International nurse contracts		590,000		1,820,000
Other intangibles				22,598
		2,502,480		3,567,598
Less accumulated amortization		(841,763)		(82,264)
Net other intangible assets	\$	1,660,717	\$	3,485,334

Following is a table of estimated amortization expense of other intangible assets for the next five years:

Year	Estimated Amortization Expense
2005	\$ 641,966
2006	437,763
2007	277,996
2008	151,496
2009	151,496

Amortization expense of other intangible assets amounted to \$759,499 in 2004 and \$82,264 in 2003.

Note 6. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of the following:

	December 31,			
	2004		2003	
Accounts payable	\$	1,815,778	\$	655,701
Accrued expenses		707,291		245,709
	\$	2,523,069	\$	901,410

Note 7. Income Taxes

At December 31, 2004, the Company had net operating loss carryforwards for federal and state income tax purposes of approximately \$8,000,000, which expire in varying amounts beginning in 2019 through 2024. The Company has undergone an ownership change as defined in Section 382 of the Internal Revenue Code. Therefore, utilization of its tax net operating loss carryforwards incurred prior to August 2003 will be limited.

Deferred taxes are comprised of the following:

	December 31,			
	2004		2003	
Net operating loss carryforwards	\$	3,128,000	\$	765,000
Deferred compensation stock options and rights		19,628,000		19,413,000
Accrued bonuses		327,000		296,000
Intangibles		756,000		
Other		54,000		78,000
Total deferred tax assets		23,893,000		20,552,000
Less: Valuation allowance		(23,893,000)		(20,552,000)
Net deferred tax assets	\$		\$	

A reconciliation of the difference between the provision computed at the statutory federal tax rate and the Company's effective tax rate is as follows (in thousands):

	December 31,			
	2004		2003	
Provision computed at statutory federal tax rate	\$	(11,459,000)	\$	(18,749,000)
Permanent differences (primarily non-cash expense for conversion of debt in 2004)				
		8,857,000		
		89,000		
State tax expense		(667,000)		(1,655,000)
Other		(72,000)		8,000
Increase in valuation allowance		3,341,000		20,307,000
Income tax expense (benefit)	\$		\$	

The Company believes that, based on a number of factors, the available objective evidence creates sufficient uncertainty regarding the realizability of the deferred tax assets such that a full valuation allowance has been recorded. These factors include the Company's history of losses, relatively high expense levels, the fact that the market in which the Company competes is intensely competitive and the lack of carryback capacity to realize deferred tax assets. The Company will continue to assess the realizability of the deferred tax assets based on actual and forecasted operating results.

Note 8. Revolving Lines of Credit

Edgar Filing: CRDENTIA CORP - Form 424B3

On June 16, 2004, the Company entered into a Loan and Security Agreement with a company specializing in healthcare finance, pursuant to which the Company obtained a revolving credit facility up to \$15,000,000 (the "Loan"). Subsequent to year-end, the revolving line of credit facility was reduced to \$10,000,000 permitting the Company to lower its effective interest rate through lower unused line fees. The Loan has a term of three years and bears interest at a rate equal to the greater of three percent (3.0%) per annum over the prime rate or nine and one-half percent (9.5%) per annum (9.5% at December 31, 2004). Interest is payable monthly. Accounts receivable serves as security for the Loan and the Loan is subject to certain financial and reporting covenants. Customer payments are used to repay the advances on the credit facility after deducting charges for interest expense, unused line and account management fees. The financial covenants are for the maintenance of minimum net worth, minimum debt service coverage ratio, minimum EBITDA, maximum capital expenditure limits and maximum

operating lease obligations. At December 31, 2004, the Company was out of compliance with certain financial covenants of the Loan, for which a waiver was received from the lender. Until such time as the Company demonstrates its ability to comply with the financial covenants of the Loan, the outstanding balance has been classified as a current liability on the Balance Sheet. The outstanding balance on the Loan is \$2,521,598 at December 31, 2004.

In 2003, the Company had a line of credit with a financial institution secured by the accounts receivable and fixed assets of the Company. Interest accrued at the financial institution's Base Rate plus 1% (5% at December 31, 2003) and was payable monthly. The Company was permitted, at its option and within the covenants of the loan agreement, to repay principal at its discretion. On a quarterly basis, the Company had to comply with certain financial and operating covenants. As of December 31, 2003, the Company failed to comply with certain financial and operating covenants of the line of credit and the financial institution waived all such non-compliance. At December 31, 2003, the outstanding balance was \$86,272. The entire line of credit was paid in full on March 12, 2004.

The Company had credit facilities with two commercial financing institutions for the financing of eligible accounts receivable. These accounts receivable served as security for the lines of credit. The Company paid interest monthly at 24% per annum on one obligation and approximately 10% on the other, based on the daily outstanding balance. Customer payments were used to repay the advances from the financing institutions after deducting charges for bad debts, reserves for charge backs, and interest expense. These credit facilities were paid off on June 16, 2004 with the proceeds from the Loan as described above.

The Company assumed a note in connection with the PSR acquisition from a commercial finance entity, which held a second secured position on the Company's accounts receivable, in the amount of \$689,001 with an interest rate of 20% per annum. Interest was accrued and payable monthly on the outstanding balance. The Company paid \$50,000 of principal at the acquisition closing. The Company was further obligated to make a principal payment in the amount of \$139,000 on December 31, 2003. The payment was made on January 1, 2004. An additional principal payment in the amount of \$161,000 was due on February 29, 2004 with the balance paid over 10 months. The balance of the note was paid off on June 16, 2004 with the proceeds from the Loan as described above.

The Company had a variable rate installment note with a financial institution in the amount of \$250,000. The note was subject to the same security as the related line of credit with the same financial institution. Under the terms of the loan, the Company was required to make monthly payments plus accrued interest on the unpaid principal at the institution's Base Rate plus 2%. The note was paid off on June 16, 2004, with the proceeds from the Loan as described above.

Note 9. Notes Payable to Lender

Edgar Filing: CRDENTIA CORP - Form 424B3

Pursuant to a loan agreement dated August 31, 2004, the Company obtained a term loan credit facility (Term Loan) in the amount up to \$10.0 million from a company specializing in healthcare finance. The Company may obtain loans under the agreement to fund permitted acquisitions. Any loans obtained under the Term Loan agreement are due and payable in full on August 31, 2007 and bear interest at the rate of fifteen and one-quarter percent (15.25%) per annum. Interest is payable monthly. The Term Loan is secured by all assets of the borrower. On August 31, 2004, the Company received proceeds from the Term Loan of \$2,697,802 for the acquisitions of Arizona Home Health Care/Private Duty, Inc. and Care Pros Staffing, Inc.

The Term Loan provides that the Company shall issue warrants to purchase shares of Common Stock to the lender up to 12% of the Company's overall capitalization on the date of borrowing. On August 31, 2004, the Company issued warrants to purchase 905,758 shares of Common Stock in connection with the first borrowing under the credit facility. As a result, the Term Loan has been recorded net of a discount of \$810,000 which represents the estimated fair market value related to the warrants at the date of issuance. The discount will be amortized to interest expense over the life of the Term Loan.

The Term Loan financial covenants are for the maintenance of minimum net worth, minimum debt service coverage ratio, minimum EBITDA, maximum capital expenditure limits and maximum operating lease obligations. At December 31, 2004, the Company was out of compliance with certain financial covenants of the Term Loan, for which a waiver was received from the lender. Until such time as the Company demonstrates its ability to comply

with the financial covenants of the Term Loan, the outstanding balance has been classified as a current liability on the Balance Sheet.

Note 10. Notes Payable to Stockholders

Edgar Filing: CRDENTIA CORP - Form 424B3

On November 29, 2004, MedCap Partners L.P., the majority stockholder, loaned the Company \$400,000 for working capital purposes. The Note bears interest at 5% and is payable on demand. As discussed in Note 20, this amount was repaid in March 2005 when the majority stockholder exercised 108,333 warrants to purchase Series C Convertible Preferred Stock for \$6.5 million.

On June 30, 2003, the Company executed a Promissory Note in favor of one of its stockholders, Atlantic International Capital Holdings, Ltd., in the principal amount of \$25,000 in exchange for cash in the same amount. This Promissory Note accrued interest at 12% per annum and matured on August 13, 2003 at which time the principal plus accrued interest would have been payable in full. On September 29, 2003, the scheduled repayment date was extended by the maker until November 30, 2003. The maker further extended the repayment until January 31, 2004. The note, plus accrued interest, was paid in full on February 2, 2004.

Note 11. Subordinated Convertible Notes

Edgar Filing: CRDENTIA CORP - Form 424B3

During 2003, the Company issued \$910,000 in Convertible Subordinated Promissory Notes (the Notes) to twelve investors. Subject to the conversion provisions set forth in the Notes, the unpaid principal together with all accrued interest on the Notes is due and payable in full one year following the issuance date of each such note (from September to December, 2004). Interest accrues on the unpaid principal balance at a rate of ten percent (10%) per annum, simple interest, and is payable in quarterly payments. The notes are convertible to Common Stock at the holder's option, prior to the due date, at an initial conversion price of \$1.50 per share. The conversion price was subsequently adjusted to \$1.00 per share upon the issuance of the Series A Convertible Preferred Stock. The Company recorded a beneficial conversion charge of \$910,000 which represents the lesser of the proceeds or beneficial conversion feature of \$2.0 million. The beneficial conversion was calculated as the difference between the conversion price and the Company's Common Stock market price at the date the note proceeds were received. The beneficial conversion charge is amortized over the one year life of the notes, resulting in interest expense of \$659,167 and \$250,833 for the years ended December 31, 2004 and 2003, respectively.

On September 30, 2004, \$740,000 of the principal amount of the Notes plus accrued interest was converted into 12,642 shares of Series B-1 Convertible Preferred Stock. The holders of such notes included the Company's Chairman and Chief Executive Officer, a member of the Company's Board of Directors and an entity whose managing member is also on the Company's Board of Directors. On November 16, 2004, \$120,000 of the principal amount of the Notes plus accrued interest were repaid. The remaining \$50,000 of the Notes was due on March 7, 2005. This \$50,000 note was extended in March 2005 to be repaid with principal and interest payments on June 2, 2005, September 2, 2005, December 2, 2005 and March 2, 2006.

Note 12. Notes Payable to Sellers

Edgar Filing: CRDENTIA CORP - Form 424B3

As partial consideration for the acquisition of New Age Staffing, Inc. on September 22, 2003, the Company issued unsecured subordinated notes to the former stockholders. A note for \$265,000 was payable upon the earlier of the closing of additional financing or October 15, 2003. The Company made a payment of approximately \$97,000 on October 15, 2003, and the holders of the note agreed to defer the remaining balance of \$168,000 until such time as the Company secured additional financing. The \$168,000 plus interest at 10% was paid on December 22, 2003. A second note to the sellers of New Age Staffing, Inc. with the principal amount of \$1,385,000 was payable in equal installments of \$65,952, beginning January 31, 2004, for 21 months plus interest at 4%. The note was payable to a former owner who was hired by the Company as a Vice President. Remaining amounts due on the note were converted to stock as discussed below.

There are two notes to the sellers of Nurses Network, the first in the amount of \$64,000 was due in three equal installments on October 2, 2004, October 2, 2005 and October 2, 2006. Interest was accrued at a financial institution's Base Rate plus 1%. The second note, in the amount of \$50,432 plus interest accrued at a financial institution's Base Rate plus 1% was due and payable on July 2, 2004. Remaining amounts due on the note were converted to stock as discussed below.

The Company assumed two notes in the acquisition of the PSR entities, one with a balance of \$188,911, which is based on outstanding credit card balances owed by the previous seller. The Company will make at least minimum payments on the credit card balances until they are paid in full. The second note had a principal amount of \$2,525,000 and was due to a previous owner of the business. Interest only payments were payable each month at a rate of 8%. Principal and interest payments due monthly were to begin on December 1, 2004 for eight years. Remaining amounts due on these notes were converted to stock as discussed below.

A note to a seller of the PSR entities with a principal amount of \$1,200,000 was payable monthly over a three year period beginning November 30, 2003 at an interest rate of 12%. Remaining amounts due on the note were converted to stock as discussed below.

On August 9, 2004, holders of approximately \$2.2 million of the notes payable and accrued interest to selling shareholders accepted a cash payment of \$225,000 to reduce the principal outstanding and converted their remaining balance to common and preferred stock. Approximately \$127,000 of the seller notes converted to Common Stock (40,822 shares at \$3.10 per share price) and \$1.8 million converted to Series B-1 Convertible Preferred Stock (29,990 shares at \$60.00 per share price). Approximately \$1.0 million of the notes were with an employee and approximately \$96,000 of the notes were with a member of the Company's Board of Directors. The conversion was recorded as an inducement and as a result of the fair market value of the preferred stock issued to convert the debt, approximately \$7.5 million was recorded as a non-cash expense for conversion of debt in the accompanying statement of operations.

During November 2004, the Company entered into an agreement to convert approximately \$2.7 million of Seller Notes and accrued interest to Series B-1 Convertible Preferred Stock. As a result, the Company issued 45,450 shares of Series B-1 Convertible Preferred Stock. The conversion was recorded as an inducement and as a result the Series B-1 was recorded at fair market value on the date of issuance totaling \$19.8 million. As a result of the fair market valuation, approximately \$17.0 million was recorded as a non-cash expense for conversion of debt on the accompanying statement of operations.

Four notes to the sellers of Care Pros Staffing, Inc. totaling \$275,000 are payable in monthly installments over one year from August 13, 2004 and bear interest at the rate of 5% per year. One of the selling shareholders of Care Pros Staffing, Inc. was hired by the Company as a Vice President.

The proceeds from the shares issued under the Makewell Agreement are to be used to pay down the balance of the revolving line of credit Loan (as described in Note 8 above), which will allow the Company additional availability to draw on the Loan.

F-25

In connection with the Makewell Agreement, the Company agreed that for every share of Series C Convertible Preferred Stock purchased by MedCap Partners L.P. under the Makewell Agreement, the Company would grant MedCap Partners L.P. a warrant to purchase 2.5 shares of Series C Convertible Preferred Stock. The proceeds were used to reduce the amount outstanding on the revolving line of credit Loan.

On August 6, 2003, a number of the Company's stockholders agreed to return an aggregate of 1,016,000 shares of the Company's common stock to treasury for no consideration, thus reducing the total number of the Company's then issued and outstanding shares of common stock from 3,666,055 to 2,650,055. These stockholders determined in consultation with the Company's management that, in connection with the Company's acquisition program and on-going financing efforts, it would be in the Company's best interests to reduce the overall number of shares of the Company's issued and outstanding common stock. In accordance with the provisions of APB Statement No. 25, the effect of this return of shares to the Company's treasury was to generate non-cash

compensation expense of \$5,750,593 due to the imputed increase in ownership percentage of the Company's stock held by its officers and directors at the date of return.

On September 2, September 29, October 16, December 3, and December 12, 2003, the Company issued convertible subordinated notes in the aggregate amount of \$910,000 to twelve investors. The conversion privilege enables the holders of the note to exchange their notes for the Company's common stock at an initial price of \$4.50 per share. As a result of the issuance of the Series A Convertible Preferred Stock discussed above, the conversion price, per the terms of the note agreement, was reduced to \$3.00 per share.

In connection with an agreement, 250,000 shares of Common Stock were delivered by a party to the agreement, to an escrow agent. These shares will be released from escrow as follows: (i) beginning on July 1, 2004 and continuing on the first day of each month through and including June 1, 2005, the Company, or its assignee, shall pay \$31,250 to the escrow agent, and the escrow agent shall cause 10,417 shares to be transferred to the Company or its assignee; and (ii) beginning on July 1, 2005 and continuing on the first day of each month through and including June 1, 2006, the Company, or its assignee, shall pay \$46,875 to the escrow agent, and the escrow agent shall cause 10,417 shares to be released to the Company or its assignee. The Company valued the warrant at \$810,000 and recorded this as a discount to the debt. The debt will be recorded at face value of \$2,697,802 less the discount of \$810,000, which will be amortized to interest expense over the three-year life of the Term Loan.

Employee Stock Options and Restricted Stock Grants

Subject to the terms and conditions of a Common Stock Purchase Agreement dated May 15, 2002 with the Chief Executive Officer, the Company granted the right to purchase, at a purchase price of \$0.0003 per share, up to a number of additional shares of common stock equal to twenty-five (25%) of the aggregate number of additional shares of common stock and other securities convertible into common stock issued or issuable in connection with any acquisitions the Company completed on or before August 7, 2004. In consideration for this modification and based on extensive analysis and review of the Company's planned acquisition program by the Board of Directors and with the assistance of a third-party compensation specialist, the Chief Executive Officer was granted an option to purchase up to 2,333,333 shares of common stock at an exercise price of \$.30 per share. The options expire December 31, 2018. One hundred percent (100%) of the shares of common stock subject to the option to purchase 2,333,333 shares shall be exercisable by the Chief Executive Officer on December 31, 2008. The difference between the purchase price of the common stock and option (\$0.0003 and \$0.30 per share, respectively) and the closing price of common stock on the respective grant date, as quoted on the OTC Bulletin Board, has been accounted for as a non-cash compensation expense. The total amount of expense recorded by the Company in 2003 is \$43,945,485.

The Company's President had the option to purchase shares at the fair market value of common stock from the Company equal to 4.167% of the number of shares of the Company's common stock issued or issuable in connection with certain acquisitions completed by the Company on or before August 7, 2004. On May 27, 2004, the Company adopted a stock incentive plan (the "2004 Plan"). A total of 800,000 shares of common stock were initially reserved for issuance plus annual increases equal to the lesser of (a) 5% of the total number of shares outstanding as of that date, (b) 1,000,000 shares or (c) a lesser number of shares determined by the Board.

The 2004 Plan is administered by the Board of Directors or one or more committees designated by the Board. The Board or committee determines whether and to what extent awards are granted, to determine the number of shares of common stock to be covered by each award, to approve award agreements for use under the 2004 Plan, and to determine the terms and conditions of any award. The term of any incentive stock option granted under the 2004 Plan may not be for more than ten years and may not be granted at an exercise price less than the fair

market value of the common stock on the date the option is granted. In the event of a corporate transaction or change in control, the Administrator shall have the discretion to provide that outstanding awards shall automatically become fully vested and exercisable for all or a portion of the shares at the time represented by the award, immediately prior to the specified effective date of such corporate transaction or change in control. Effective upon the consummation of a corporate transaction, all outstanding awards shall terminate. However, all such awards shall not terminate to the extent the contractual obligations represented by the award are assumed by the successor entity.

Options to purchase 50,000 common shares were issued to Board members during 2004 with an exercise price of \$5.10. On August 3, 2004, the Company's CEO was granted the option to purchase 866,666 shares at \$3.10 per share and the Company's President was granted the option to purchase 433,333 shares at \$3.10 per share. The grants to the CEO and President contained vesting provisions that were contingent upon the completion of three acquisitions, listing of the Company on AMEX, closing of a term loan agreement and meeting a defined stockholders' equity goal by December 31, 2004. Two of the four provisions were met by December 31, 2004. In accordance with grant provisions, any non-vested shares at December 31, 2004 were terminated.

The Company generated a net loss of \$3,378,199 for the nine months ended September 30, 2005 and used cash in operations of \$3,691,159 during the first nine months of 2005. Additionally, although the Company ended the first nine months of 2005 with a working capital deficit of \$2.2 million, the Company was able to secure additional funding during 2004 and the first nine months of 2005 to finance its operations as it continues to execute its business plan to acquire and grow companies involved in healthcare staffing. As discussed in Note 8, in March 2005 the Company's majority stockholder exercised warrants to purchase 108,333 shares of Series C Convertible Preferred Stock providing \$6.4 million to the Company. Also, as discussed in Note 8, in May 2005 the Company's majority stockholder exercised warrants to purchase 22,187 shares of Series C Convertible Preferred Stock providing \$1.3 million to the Company. The infusion of \$7.7 million into the Company enabled it to acquire additional companies and to retire certain liabilities. Also, following the three acquisitions discussed in Note 2, the Company increased its borrowings under its accounts receivable line, but at September 30, 2005, there is no additional borrowing availability under this line. In the

Edgar Filing: CRDENTIA CORP - Form 424B3

third quarter of 2005, additional short-term funding of \$600,000 in the form of an over-advance on the accounts receivable line was secured from Bridge Healthcare Finance, LLC. The Company will need to raise \$1.5 million to \$2.0 million before calendar year end 2005 or pursue other strategic options to fund operations.

F-38

There is no assurance that the Company will be able to raise the amount of debt or equity capital required to meet its objectives. If additional debt or equity capital is not readily available, the Company will be forced to scale back its acquisition activities and its operations until income exceeds expenses. This would result in an overall slowdown of the Company's development and could result in the failure of the Company's business and the Company will not be able to continue as a going concern.

Stock-Based Compensation

As permitted under the provisions of Statement of Financial Accounting Standard (SFAS) No. 123, *Accounting for Stock-Based Compensation*, the Company continues to account for employee stock-based transactions under Accounting Principles Board Opinion (APB) No. 25, *Accounting for Stock Issued to Employees*. However, SFAS 123 requires the Company to disclose pro forma net loss and loss per share as if the fair value method had been adopted. Under the fair value method, compensation cost is measured at the grant date based on the fair value of the award and is recognized over the service period, which is usually the vesting period. For non-employees, cost is also measured at the grant date, using the fair value method, but is actually recognized in the financial statements over the vesting period or immediately if no further services are required.

If the Company had elected the fair value method of accounting for employee stock-based compensation, compensation cost would be recorded at the estimated fair value of the stock award grants over the service period, regardless of later changes in stock prices and price volatility. The date of grant fair values for options granted have been estimated based on the Black-Scholes pricing model.

The table below shows net loss per share attributable to common stockholders for the nine months ended September 30, 2005 and 2004 as if the Company had elected the fair value method of accounting for stock options.

	Nine Months Ended September 30, 2005	Nine Months Ended September 30, 2004

Earnings Per Share

Edgar Filing: CRDENTIA CORP - Form 424B3

Basic per share data has been computed on the loss attributable to common stockholders for each period divided by the weighted average number of shares of common stock outstanding for each period (excluding the restricted common stock issued to certain officers in May 2005 as discussed in Note 9). Diluted earnings per common share include both the weighted average number of common shares and any common share equivalents

F-39

such as convertible securities, options or warrants in the calculation. As the Company recorded net losses for the nine months ended September 30, 2005 and 2004, common share equivalents outstanding would be anti-dilutive, and as such, have not been included in diluted weighted average shares outstanding. Common share equivalents that were excluded in the September 30, 2005 calculations totaled 41,546,158.

New Accounting Pronouncements

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123 (revised 2004), *Share-Based Payment*, which is a revision of SFAS No. 123, *Accounting for Stock-Based Compensation*. Statement 123R supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*. Generally, the approach in Statement 123R is similar to the approach described in Statement 123. However, Statement 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. The Company expects to adopt Statement 123R on January 1, 2006.

The Company is evaluating the impact of adopting SFAS 123R and expects that it will record non-cash stock compensation expense. The adoption of SFAS 123R is not expected to have a significant effect on the Company's financial condition or cash flows but is expected to have an effect on the company's results of operations. The future impact of the adoption of SFAS 123R cannot be predicted at this time because it will depend on the levels of share-based payments granted by the Company in the future. However, had the Company adopted SFAS 123R in prior periods, the impact of the standard would have approximated the impact of SFAS 123 as described in the pro forma net loss attributable to common stockholders included in the Stock-Based Compensation policy footnote.

Note 4. Revolving Line of Credit

Edgar Filing: CRDENTIA CORP - Form 424B3

On June 16, 2004, the Company entered into a Loan and Security Agreement with Bridge Healthcare Finance, LLC, pursuant to which the Company obtained a revolving credit facility up to \$15,000,000 (the "Loan"). During the first quarter of 2005, the revolving line of credit facility was reduced to \$10,000,000 permitting the Company to lower its effective interest rate through lower unused line fees. The Loan had an original term of three years and bears interest at a rate equal to the greater of three percent (3.0%) per annum over the prime rate or nine and one-half percent (9.5%) per annum (9.75% at September 30, 2005). Interest is payable monthly. Accounts receivable serves as security for the Loan and the Loan is subject to certain financial and reporting covenants. Customer payments are used to repay the advances on the credit facility after deducting charges for interest expense, unused line and account management fees. Except in certain limited circumstances, the Loan cannot be prepaid in full without the Company incurring a significant prepayment penalty. The financial covenants are for the maintenance of minimum tangible net worth, minimum debt service coverage ratios, minimum EBITDA, maximum capital expenditure limits and maximum operating lease obligations. In May 2005, the covenants were restructured;

however, at September 30, 2005, the Company was not in compliance with the restructured covenants. Bridge Healthcare Finance, LLC waived compliance with the covenants for the three months ended September 30, 2005. The Loan includes events of default (with grace periods as applicable) and provides that, upon the occurrence of certain events of default, payment of all amounts payable under the Loan, including the principal amount of, and accrued interest on, the Loan may be accelerated. There are also cross default provisions between the Loan and the Term Loan discussed in Note 5. The outstanding balance on the Loan is \$4,457,451 at September 30, 2005 (excluding the over-advance of \$600,000 described below), which represents the total availability under the line relative to the amount of receivables outstanding at that date.

During the third quarter of 2005, Bridge Healthcare Finance, LLC made a \$600,000 credit line available to the Company in the form of an over-advance on the Company's Loan. The line of credit will be used as necessary to pay certain remaining amounts due on acquisitions completed in March, 2005 and for working capital purposes. The line accrues interest at the revolving line of credit rate discussed above. The \$600,000 has been completely drawn down at September 30, 2005, and must be repaid by December 31, 2005. As additional consideration for the line, the Company is required to pay a monthly fee of \$15,000 through December 31, 2005. The maturity date of the related revolving credit Loan discussed above is being extended for an additional year through June 2008. The prepayment penalty discussed above is applicable for the one-year extension period except the amount is reduced in the event of a change in control of the Company.

Note 5. Notes Payable to Lender

Edgar Filing: CRDENTIA CORP - Form 424B3

Pursuant to a loan agreement dated August 31, 2004, the Company obtained a term loan credit facility (Term Loan) in the amount up to \$10,000,000 from Bridge Opportunity Finance, LLC, an affiliate of Bridge Healthcare Finance, LLC. The Company may obtain loans under the agreement to fund permitted acquisitions. Any loans obtained under the Term Loan are due and payable in full on August 31, 2007 and bear interest at the rate of fifteen and one-quarter percent (15.25%) per annum. Interest is payable monthly. The Term Loan is secured by all assets of the Company. On August 31, 2004, the Company received proceeds from the Term Loan of \$2,697,802 for the acquisitions of Arizona Home Health Care/Private Duty, Inc. and Care Pros Staffing, Inc. To date, this is the only advance received under the Term Loan and no principal payments have been made by the Company to reduce this amount.

The Term Loan provides that the Company shall issue warrants to purchase shares of Common Stock to the lender up to 12% of the Company's overall capitalization on the date of borrowing. On August 31, 2004, the Company issued warrants to purchase 905,758 shares of Common Stock at a price of \$3.15 per share in connection with the first borrowing under the credit facility. As a result, the Term Loan has been recorded net of a discount of \$810,000 which represents the estimated fair market value related to the warrants at the date of issuance. The discount is being amortized to interest expense over the life of the Term Loan.

Except in certain limited circumstances, the Term Loan cannot be prepaid in full without the Company incurring a significant prepayment penalty. The Term Loan also contains certain financial covenants, including the maintenance of minimum tangible net worth, minimum debt service coverage ratios, minimum EBITDA, maximum capital expenditure limits and maximum operating lease obligations. At March 31, 2005, the Company was out of compliance with certain financial covenants of the Term Loan, for which a waiver was received from the lender. In May 2005, the covenants were restructured; however, at September 30, 2005, the Company was not in compliance with the restructured covenants. Bridge Healthcare Finance, LLC waived compliance with the covenants for the three months ended September 30, 2005. The Term Loan includes events of default (with grace periods as applicable) and provides that, upon the occurrence of certain events of default, payment of all amounts payable under the Term Loan, including the principal amount of, and accrued interest on, the Term Loan may be accelerated. There are also cross default provisions between the Term Loan and the Loan.

Note 6. Notes Payable to Stockholders

Edgar Filing: CRDENTIA CORP - Form 424B3

On November 29, 2004, MedCap Partners L.P., the Company's majority stockholder, loaned the Company \$400,000 for working capital purposes. During the first quarter of 2005, the Company borrowed an additional \$1,050,000 from the majority stockholder for working capital purposes. The notes required interest at 5% and were payable on demand. These notes plus accrued interest were repaid on March 29, 2005. As an incentive to the majority stockholder to provide the working capital until acquisitions were consummated in the first quarter of 2005,

the Company issued 77,751 shares of common stock to the majority stockholder at an average market value of \$2.09 per share. The related expense of \$162,500 was recorded as interest expense in the accompanying statement of operations during the first quarter of 2005.

Note 7. Notes Payable to Sellers

Edgar Filing: CRDENTIA CORP - Form 424B3

As partial consideration for the acquisition of TravMed USA, Inc. on March 29, 2005, the Company issued unsecured subordinated notes to the former TravMed stockholders in the total amount of \$3,215,490. The notes are three-year convertible notes bearing interest at 7.75%. Monthly interest payments are required for the first six months followed by principal and interest payments the next thirty months to fully repay the debt. See additional discussion in Note 11.

All Convertible Preferred Shares issued and outstanding are convertible currently at the option of the holder. The Company has evaluated the potential effect of any beneficial conversion terms related to convertible instruments. As a result, the convertible instruments may have a carrying amount that differs significantly from its redemption amount. In such cases, the difference between the carrying amount and the redemption amount (limited to the actual proceeds received) is recorded as a beneficial conversion feature and deducted as a deemed dividend in determining net loss attributable to common stockholders. The table below summarizes the redemption requirements and beneficial conversion of the Convertible Preferred Shares outstanding as of September 30, 2005:

Series of Convertible Preferred Stock	Shares Outstanding	Carrying Amount	Common Shares Issuable Upon Conversion	Beneficial Conversion Recorded at Issuance

Note 9. Common Stock

Edgar Filing: CRDENTIA CORP - Form 424B3

The Company is authorized to issue 150,000,000 shares of common stock at a par value of \$0.0001. The authorized shares were increased in January 2005 from 50,000,000 shares.

In connection with an agreement, 250,000 shares of Common Stock were delivered by parties to the agreement, to an escrow agent. These shares will be released from escrow as follows: (i) beginning on July 1, 2004 and continuing on the first day of each month through and including June 1, 2005, the Company, or its assignee, shall pay \$31,250 to the escrow agent, and the escrow agent shall cause 10,417 shares to be transferred to the Company or its assignee; and (ii) beginning on July 1, 2005 and continuing on the first day of each month through and including June 1, 2006, the Company, or its assignee, shall pay \$46,875 to the escrow agent, and the escrow agent shall cause 10,417 shares to be released to the Company or its assignee. The escrow agent shall distribute funds received from the Company, or its assignee, to the stockholders who are parties to the Stock Purchase Agreement. For July, 2004, through December, 2004, the Company assigned its right to purchase under the Stock Purchase Agreement to an existing shareholder. Neither the Company nor its assignee purchased shares subsequent to December, 2004, and, in accordance with the agreement, the transfer agent was authorized to return all remaining shares to the parties who initially tendered their shares to the escrow agent.

On May 31, 2005, the Company granted 3,700,000 shares of restricted stock to four of its officers. The restricted stock has been valued at \$6,290,000, which represents the trading value of the stock as quoted on the OTC Bulletin Board on May 31, 2005. All shares of restricted stock vest in five years or earlier in the event the average daily trading volume for the Company's common stock reaches specified levels or in certain other circumstances. The \$6,290,000 value has been reflected as common stock issued and outstanding with an offsetting amount included in the equity section as deferred non-cash stock compensation. The deferred non-cash stock compensation amount is being amortized monthly over the five year expected vesting period of the restricted stock grant. The President's restricted stock grant of 900,000 shares is subject to forfeiture of 300,000 shares per quarter for the second, third and fourth quarters of 2005 if certain revenue and EBITDA targets are not achieved. The second quarter and third quarter targets were not achieved, but forfeiture has not yet been reflected since the achievement of targets is ultimately measured on a cumulative basis through December 31, 2005. The remaining grants are not

subject to forfeiture except in the event grantee's continuous service is terminated for any reason, other than death or disability prior to the fifth anniversary of the grant date. Non-cash stock based compensation in the accompanying statement of operations for the third quarter and nine months ended September 30, 2005 includes \$314,500 and \$419,333, respectively, related to these grants.

Note 11. Subsequent Events

Edgar Filing: CRDENTIA CORP - Form 424B3

The Company did not make the October 31, 2005 debt service payments of \$118,246 required by terms of the \$3.2 million of notes payable to sellers. Accordingly, the Company received a notice of default in early November 2005. The due date of the notes may be accelerated such that the entire balance of the notes payable to sellers is due, but such acceleration option cannot be exercised until November 21, 2005. If sellers exercise their option, the company has six months to cure the default. If cured, payment due dates revert back to the original non-accelerated terms. The default under the notes payable to sellers triggers defaults under the revolving loan and term loan discussed in Notes 4 and 5. The Company expects to cure the defaults on the notes payable to sellers, revolving loan and term loan by November 30, 2005; accordingly, the notes payable to sellers due beyond one year and the term loan continue to be classified as non-current. Also, as a result of this default, Bridge Healthcare Finance, LLC has an option to discontinue making revolving credit loans to the Company on receivables of TravMed USA, Inc., the acquisition which gave rise to the notes payable to sellers. On November 9, 2005, Bridge Healthcare Finance, LLC waived their right to exercise this option through November 30, 2005.

In November 2005, the Board of Directors declared second quarter and third quarter 2005 dividends on the Series C Preferred Stock, which will require the issuance of 915,140 shares of common stock. Also, in November 2005, the Board of Directors approved the grant of options to key employees and directors to purchase 177,417 shares of the Company's common stock under the 2004 option plan at \$2.00 per share (fair market value on the date of grant). The options vest 25% after one year and monthly thereafter on a straight-line basis over three years. The options expire in ten years.
