2.5. Remuneration

The Nominal Value of the Promissory Notes will not undergo monetary updating. Organized Over-the-counter Assets and Derivatives Market (Cetip) in the daily information bulletin available on its website (<http://www.cetip.com.br>) (respectively, the DI Rate and the Remuneration). The Remuneration shall be calculated exponentially and cumulatively, *pro rata temporis*, by Business Days elapsed, applying to the Nominal Unit Value of each Promissory Note, from the date of its actual subscription and paying-up up to the respective Maturity Date, obeying the following formula:

$$J = VN \times (FatorJuros - 1)$$

where:

J = Unit value of the remuneratory interest, calculated to 6 (six) decimal places without rounding, payable at the end of the Capitalization Period.

VNe = Nominal Value of the issue, informed/calculated with 6 (six) decimal places without rounding.

Fator Juros = Product of the DI rates, augmented exponentially by a percentage factor, from the date of start of the Capitalization Period, inclusive, up to the date of termination of the Capitalization Period, exclusive, calculated to 8 (eight) decimal places, with rounding, calculated as follows:

where:

n = a whole number, the total number of DI rates used in the updating of the asset.

P = 113.0000 (one hundred and thirteen)

TDIk = The DI rate, expressed daily, calculated to 8 (eight) decimal places with rounding, as follows:

where:

Capitalization Period : means the interval of time that begins on the Issue Date inclusive and ends on the day of payment of the Nominal Unit Value of the Promissory Note, exclusive, augmented by the Remuneration.

If, at any time during the period of validity of the Promissory Notes the DI Rate is not published, the last previous DI Rate available shall be applied, and no compensation shall be due between the Issuer and the holders of the Promissory Notes at the time of the subsequent publication of the DI Rate, which would be applicable.

If the DI Rate ceases to be published for a period of more than 10 (ten) days, or if it is abolished or if there is legal impossibility of application of the DI Rate to the Promissory Notes, then such legal parameter as comes to be determined, if any, shall be used in substitution for it. If there is no substitute legal parameter for the DI Rate, the weighted average remuneration of Brazilian short-term federal public securities, at the time of such verification, such as have been traded in the prior 30 (thirty) days, with maturity of com 180 (one hundred and eighty) days, shall be used.

For the purposes of the Issue, the expression Business Day(s) means any day, with the exception of Saturdays, Sundays and national holidays.
