+ Other Financial Instruments are derivatives not reflected in the Portfolio of Investments and may include open forward foreign currency contracts, equity forwards, futures, swaps, and written options. Forward foreign currency contracts, equity forwards and futures are valued at the unrealized gain (loss) on the instrument. Swaps and written options are valued at the fair value of the instrument.

The earlier close of the foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities. To account for this, the Fund may frequently value many of its foreign equity securities using fair value prices based on third party vendor modeling tools to the extent available. Accordingly, a significant portion of the Fund's investments are categorized as Level 2 investments.

There were no significant transfers between Level 1 and 2 during the period ended November 30, 2011.

The following is a reconciliation of the fair valuations using significant unobservable inputs (Level 3) for the Portfolio's assets and liabilities during the period ended November 30, 2011:

| | Beginning Balance 2/28/2011 | Purchases | Sales | Accrued Discounts/ (Premiums) | Total Realized Gain/(Loss) | Total Unrealized Appreciation/ (Depreciation) | Transfers Into Level 3 | Transfers Out of Level 3 | Ending Balance 11/30/2011 |
|------------------------------|-----------------------------------|-----------|-------|-------------------------------------|-------------------------------|---|------------------------------|--------------------------------|------------------------------|
| Asset Table | | | | | | | | | |
| Investments, at value | | | | | | | | | |
| Common Stock | \$ 112,948 | | | | | | \$ 94,484 | \$ (112,948) | \$ 94,484 |
| Rights | 14 | | | | | | | (14) | |
| Total Investments, at value | \$ 112,962 | | | | | | \$ 94,484 | \$ (112,962) | \$ 94,484 |

As of November 30, 2011, total change in unrealized gain (loss) on Level 3 securities still held at period end and included in the change in net assets was \$0.

Transfers in or out of Level 3 represent either the beginning value (for transfers in), or the ending value (for transfers out) of any security or derivative instrument where a change in the pricing level occurred from the beginning to the end of the period. Transfers are recognized at the end of the reporting period.
