NOTES TO FINANCIAL STATEMENTS (Unaudited)

Note 1. Portfolio Valuation

Investments in securities that are listed on the New York Stock Exchange are valued, except as indicated below, at the last sale price reflected at the close of the New York Stock Exchange on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and ask prices on such day or, if no ask price is available, at the bid price. Exchange traded options are valued at their last sale price as of the close of options trading on applicable exchanges. In the absence of a last sale price, options are valued at the average of the quoted bid and ask prices as of the close of business. Over-the-counter options quotations are provided by the respective counterparty. Forward foreign currency exchange contracts are valued daily at the prevailing forward exchange rate.

Securities not listed on the New York Stock Exchange but listed on other domestic or foreign securities exchanges are valued in a similar manner. Securities traded on more than one securities exchange are valued at the last sale price reflected at the close of the exchange representing the principal market for such securities on the business day as of which such value is being determined. If after the close of a foreign market, but prior to the close of business on the day the securities are being valued, market conditions change significantly, certain foreign securities may be fair valued pursuant to procedures established by the Board of Directors.

Readily marketable securities traded in the over-the-counter market, including listed securities whose primary market is believed by the investment manager to be over-the-counter, are valued at the last sale price on the valuation date as reported by sources deemed appropriate by the Board of Directors to reflect their fair market value. If there has been no sale on such day, the securities are valued at the mean of the closing bid and ask prices on such day or, if no ask price is available, at the bid price. However, certain fixed-income securities may be valued on the basis of prices provided by a pricing service when such prices are believed by the investment manager, pursuant to delegation by the Board of Directors, to reflect the fair market value of such securities. Interest rate swaps are valued utilizing quotes received from an outside pricing service.

Short-term debt securities with a maturity date of 60 days or less are valued at amortized cost, which approximates value. Investments in open-end mutual funds are valued at their closing net asset value.

The policies and procedures approved by the Fund's Board of Directors delegate authority to make fair value determinations to the investment manager, subject to the oversight of the Board of Directors. The investment manager has established a valuation committee (Valuation Committee) to administer, implement and oversee the fair valuation process according to the policies and procedures approved annually by the Board of Directors. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers and other market sources to determine fair value.

Securities for which market prices are unavailable, or securities for which the investment manager determines that the bid and/or ask price or a counterparty valuation does not reflect market value, will be valued at fair value, as determined in good faith by the Valuation Committee, pursuant to procedures approved by the Fund's Board of Directors. Circumstances in which market

Cohen & Steers REIT and Preferred Income Fund, Inc.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

prices may be unavailable include, but are not limited to, when trading in a security is suspended, the exchange on which the security is traded is subject to an unscheduled close or disruption or material events occur after the close of the exchange on which the security is principally traded. In these circumstances, the Fund determines fair value in a manner that fairly reflects the market value of the security on the valuation date based on consideration of any information or factors it deems appropriate. These may include, but are not limited to, recent transactions in comparable securities, information relating to the specific security and developments in the markets.

The Fund's use of fair value pricing may cause the net asset value of Fund shares to differ from the net asset value that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security.

Fair value is defined as the price that the Fund would expect to receive upon the sale of an investment or expect to pay to transfer a liability in an orderly transaction with an independent buyer in the principal market or, in the absence of a principal market, the most advantageous market for the investment or liability. The hierarchy of inputs that are used in determining the fair value of the Fund's investments is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing the transfer at the end of the period in which the underlying event causing the movement occurred. Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. During the period ended September 30, 2012, transfers between Level 1 and Level 2 securities totaled \$6,703,125.

The following is a summary of the inputs used as of September 30, 2012 in valuing the Fund's investments carried at value:

Cohen & Steers REIT and Preferred Income Fund, Inc.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

	Total	Quoted Prices In Active Markets for Identical Investments (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Balance as of September 30, 2012	\$ 48,832,544	\$ 6,783,750	\$ 25,949,702	\$ 7,001,087	\$ 7,084,532	\$	\$ 2,013,473

Cohen & Steers REIT and Preferred Income Fund, Inc.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

The change in unrealized appreciation/(depreciation) attributable to securities owned on September 30, 2012 which were valued using significant unobservable inputs (Level 3) amounted to \$1,298,055. Transfers are recognized at the end of the period.

The following table summarizes the quantitative inputs and assumptions used for investments categorized in Level 3 of the fair value hierarchy.

	Fair Value at 9/30/2012	Valuation Technique	Unobservable Inputs		Range	
Preferred Securities - Capital Securities Banks - Foreign	\$ 3,937,187	Consensus Pricing	Bid	Ask Spread	90.875	92.250

The significant unobservable inputs utilized in the fair value measurement of the Fund's Level 3 equity investment in Preferred Securities - Capital Securities - Banks - Foreign is the bid-ask spread. Significant changes in these inputs may result in a materially higher or lower fair value measurement.

Note 2. Derivative Instruments

The following is a summary of the Fund's derivative instruments as of September 30, 2012:

Interest rate swaps	\$ (9,697,817)
Forward foreign currency exchange contracts	(285,046)
	\$ (9,982,863)

The balance of outstanding interest rate swaps at September 30, 2012 is representative of the volume outstanding during the period ended September 30, 2012. The following summarizes the volume of the Fund's forward foreign currency exchange contracts activity during the period ended September 30, 2012:

	Forward Foreign Currency Exchange Contracts	
Average Notional Amount	\$	18,888,428
Ending Notional Amount	\$	19,878,453

Edgar Filing: COHEN & STEERS REIT & PREFERRED INCOME FUND INC - Form N-Q

Interest Rate Swaps: The Fund uses interest rate swaps in connection with borrowing under its credit agreement. The interest rate swaps are intended to reduce interest rate risk by countering the effect that an increase in short-term interest rates could have on the performance of the Fund's common shares as a result of the floating rate structure of interest owed pursuant to the credit

Cohen & Steers REIT and Preferred Income Fund, Inc.

NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)

agreement. In these interest rate swaps, the Fund agrees to pay the other party to the interest rate swap (which is known as the counterparty) a fixed rate payment in exchange for the counterparty's agreement to pay the Fund a variable rate payment that is intended to approximate the Fund's variable rate payment obligation on the credit agreement. The payment obligation is based on the notional amount of the swap. Depending on the state of interest rates in general, the use of interest rate swaps could enhance or harm the overall performance of the common shares. The market value of interest rate swaps is based on pricing models that consider the time value of money, volatility, the current market and contractual prices of the underlying financial instrument. Unrealized appreciation is reported as an asset and unrealized depreciation is reported as a liability on the Statement of Assets and Liabilities. The change in value of swaps, including the accrual of periodic amounts of interest to be paid or received on swaps, is reported as unrealized appreciation or depreciation in the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of a swap agreement. Swap agreements involve, to varying degrees, elements of market and counterparty risk, and exposure to loss in excess of the related amounts reflected on the Statement of Assets and Liabilities. The Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from the counterparty over the contract's remaining life, to the extent that such amount is positive.

Forward Foreign Currency Exchange Contracts: In connection with its investments in foreign securities, the Fund may be exposed to foreign currency risks associated with portfolio investments and therefore use forward foreign currency exchange contracts (forward contracts) to hedge or manage these exposures. Forward contracts represent obligations to purchase or sell foreign currency on a specified future date at a price fixed at the time the contracts are entered into. The risks include the potential inability of counterparties to meet the terms of their contracts and unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The resultant unrealized exchange gains and losses are recorded as unrealized foreign currency translation gains or losses. The Fund records realized gains or losses on delivery of the currency or at the time the forward contract is extinguished (compensated) by entering into a closing transaction prior to delivery.

Note 3. Income Tax Information

As of September 30, 2012, the federal tax cost and unrealized appreciation and depreciation in value of securities held were as follows:

Cost for federal income tax purposes	\$	993,379,056
Gross unrealized appreciation	\$	226,334,424
Gross unrealized depreciation		(2,268,715)
Net unrealized appreciation	\$	224,065,709

Item 2. Controls and Procedures

(a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) are effective based on their evaluation of these disclosure controls and procedures required by Rule 30a-3(b) under the Investment Company Act of 1940 and Rule 13a-15(b) or 15d-15(b) under the Securities Exchange Act as of a date within 90 days of the filing of this report.

(b) During the last fiscal quarter, there were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits.

(a) Certifications of principal executive officer and principal financial officer as required by Rule 30a-2(a) under the Investment Company Act of 1940.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
