Transcript of video to which a link is provided on page 11:

As global population continues to grow, so does the demand for nitrogen fertilizer, and over the last several years, CF Industries has been investing to meet that demand. 2016 marks the completion of our expansion projects at our facilities in Donaldsonville, Louisiana and Port Neal, Iowa, and will increase our nitrogen capacity by more than 25 percent. We've transformed into the global nitrogen leader, but what underpins our work has never changed: a focus on helping feed the crops that feed the world and delivering attractive returns to shareholders. That's the story you know, and that's the story you can count on today, and in the future.
