Item 1.01 Entry into a Material Definitive Agreement.

On April 21, 2013, S&W Seed Company ("S&W") entered into a license agreement with Forage Genetics International, LLC ("FGI") to develop and commercialize seed varieties that incorporate proprietary traits, including the Roundup Ready® trait. This agreement further documents and formalizes S&W's previously announced collaboration with FGI and Monsanto Company to develop genetically modified versions of certain of S&W's proprietary alfalfa varieties.

This development of biotech seed varieties consists of several phases including lab work and field trials to confirm agronomic performance and trait efficiency of each developed variety. Upon completion of the field trials for any developed variety, S&W may at its option elect to commercialize the variety, and, at that time, enter into a variety specific license agreement with FGI and thereupon become obligated to pay certain royalties and access fees to FGI.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned thereunto duly authorized.
