Note 1 - Business and Basis of Presentation

TWL Corporation (the "Company") is creating a global learning company by acquiring operating subsidiaries that specialize in educational and training content, delivery, and services for particular industries or that target a particular segment of the workforce. The Company believes that there are product and service synergies between and among our various subsidiaries that position us to create a global learning company that can provide integrated learning services to corporations, organizations, educational institutions, and individual learners, using a variety of delivery technologies, platforms and methods to meet the growing need for global learning solutions. The Company believes that it will be one of the first companies to be able to serve major multinational employers at multiple levels of their organizations and assist these customers to meet the challenges of a major turnover in the world's workforce over the coming decade. Factors such as demographics, technology, and globalization will require enterprises, organizations and governments around the world to invest in human capital to remain competitive.

We operate through our primary operating subsidiary, TWL Knowledge Group, Inc., formerly Trinity Workplace Learning Corporation, located in our 205,000 square foot digital multimedia production center in Carrollton, Texas, in the greater Dallas metropolitan area. At this Global Learning Center we create, distribute and archive rich media for workplace learning and certification for approximately 2,000 corporate, institutional and government customers in healthcare, industrial services, and public safety including homeland security, first responders, and federal agencies. We distribute content to our customers through a variety of learning media including satellite, broadband, e-learning, CD-ROM, and DVDs. Our proprietary brands include the Law Enforcement Training Network, HomelandOne, the Fire and Emergency Training Network, and others. In our healthcare division we participate in 17 distinct accreditations for medical-related continuing professional education and certification. While our strategic focus is to grow our assets and operations in North America, we continue to maintain ownership positions in small operating subsidiaries in Australia and Norway.

The information furnished herein was taken from the books and records of the Company without audit. However, in the opinion of management, the accompanying unaudited interim consolidated financial statements reflect all adjustments that are necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods presented. This includes normal and recurring adjustments.

The accompanying unaudited interim consolidated financial statements and related notes have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB and Item 310 of Regulation S-B. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. These financial statements include the accounts of TWL and its consolidated subsidiaries. All significant intercompany transactions and accounts have been eliminated in consolidation.

These unaudited interim consolidated financial statements should be read in conjunction with the audited financial statements and related notes thereto included in the Company's Annual Report on Form 10-KSB for the year ended June 30, 2007. The results of operations for the three months ended September 30, 2007, are not necessarily indicative of the results to be expected for the full year.

Loss Per Share

Basic loss per common share is computed by dividing net loss available for common stockholders by the weighted average number of common shares outstanding for the period. Diluted loss per share is computed by dividing net loss available for common stockholders by the weighted-average common shares and dilutive common share equivalents outstanding during the period. As all common stock equivalents would be anti-dilutive, basic loss per share is the same as dilutive loss per share. Potential shares from the conversion of notes and exercise of options and warrants total 112,586,520 at September 30, 2007.

Use of Estimates

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and costs during the reporting periods. Actual results could differ from those estimates. On an ongoing basis, the Company reviews its estimates based on information that is currently available. Changes in facts and circumstances may cause the Company to revise its estimates. Significant estimates include revenue recognition, valuation and allocation of the purchase consideration of the assets and liabilities and assets acquired in business combinations and equity investments in associated companies, our determination of fair value of common stock issued in business combinations and equity investments in associated companies, and the annual valuation and review for impairment of assets acquired and of long-lived assets.

Note 2 – Going Concern Uncertainty

During the three month period ended September 30, 2007 the Company incurred a net loss of \$3,220,693 and experienced a cash flow deficit from its operations, in the amount of \$1,665,325. As of September 30, 2007 the Company had a cash balance of \$351,426 and a negative working capital balance of \$16,341,788. The negative working capital is attributable to extending payments to vendors, increased accrued expenses and increased short-term borrowings. It is anticipated that such losses and cash flow deficits will continue in the near future. The Company plans to raise additional funds through the sale of its common stock. The proceeds will be used for general working capital purposes. There can be no assurance that this effort will be successful.

Currently, we do not have an established source of revenues sufficient to cover our operating costs and to allow us to continue as a going concern. We cannot be certain that our existing sources of cash will be adequate to meet our liquidity requirements. Based on our cash balance at November 1, 2007, we will not be able to sustain operations for more than two months without additional sources of funding. To meet our present and future liquidity requirements, we will continue to seek additional funding through private placements, conversion of outstanding loans and payables into common stock and collections on accounts receivable. There can be no assurance that we will be successful in obtaining more debt and/or equity financing in the future or that our results of operations will materially improve in either the short- or the long-term. If we fail to obtain such financing and improve our results of operations, we will be unable to meet our obligations as they become due. This raises substantial doubt about our ability to continue as a going concern.

Our financial statements are prepared using accounting principles generally accepted in the United States of America generally applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. Accordingly, our consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of liabilities that might be necessary should we be unable to continue as a going concern.

Note 3 – Related Party Transactions

On April 26, 2007, the board of directors of the Company appointed Laird Q. Cagan (Mr. Cagan) as a director of the Company. There are no understandings or arrangements between Mr. Cagan and any other person pursuant to which Mr. Cagan was selected as a director. Mr. Cagan is the cousin of Dennis J. Cagan, the Company's Chief Executive

Officer, President and a member of the board of directors. Mr. Cagan is the general partner of Trinity Investments GP, an entity which, in March 2007, acquired the debt previously issued to Palisades Master Fund, Ltd., (Palisades) with a face value of \$4,500,000. This entity also entered into a debt financing transaction pursuant to which the Company received proceeds totaling \$1,125,000 through September 30, 2007. In connection with this transaction and the transfer of the Palisades notes payable, the Company also transferred 2,800,000 preferred shares and reduced the conversion into common stock price to \$0.03 per share. In fiscal 2007, the Company recorded a deemed dividend for the reduction in conversion price totaling \$3,725,000. Interest expense on the notes for the three months ended September 30, 2007 totaled \$281,180.

Note 4 – Notes Payable

Laurus

On August 31, 2006, the Company entered into agreements with Laurus Master Fund, Ltd., (Laurus), pursuant to which the Company sold debt and issued preferred stock of the Company to Laurus in a private offering pursuant to exemption from registration under Section 4(2) of the Securities Act of 1933 as follows:

- A secured three-year term note (the Secured Note) with a principal amount of \$2,500,000 (the Secured Note Amount), which matures on August 31, 2009 (the Maturity Date);
- A secured three-year revolving note with maximum amount of \$5,000,000, which matures on August 1, 2009 (the Revolving Note; the Revolving Note and the Secured Note are collectively referred to as the Notes).
- Issued 1,500,000 preferred Series A shares which are convertible into common shares at \$0.10 per share, subject to anti-dilution adjustments.

Net proceeds of \$2,173,000 were received by the Company under the Secured Note. We also agreed to pay, out of the Loan proceeds, the sum of \$270,000 to Laurus Capital Management, LLC, the manager of Laurus, the sum of \$60,000 to Laurus as reimbursement for Laurus' legal fees, due diligence fees and expenses incurred in connection with the transaction.

The Notes are secured by a blanket lien on all of the Company's assets and the assets of the Company's subsidiaries. The Company pledged its ownership interests in TWL Knowledge Group, Inc., its subsidiary, to Laurus in connection with the aforementioned financing. In the event of a default, Laurus has the right to accelerate payments under the Notes and, in addition to any other remedies available to it, to foreclose upon the assets securing the Notes.

The principal amount of the Secured Note carries an interest rate of prime plus three percent (the Secured Note Rate), subject to adjustment. We must make monthly amortizing payments of \$42,500 commencing January 1, 2007 and with said monthly amortizing payments increasing to \$62,500 commencing on January 1, 2008, toward the outstanding principal amount. Furthermore, the Secured Note Rate shall not at any time be less than nine percent (9.0%). The Company may prepay the Secured Note at any time by paying Laurus 105% of the Secured Note Amount, if such prepayment occurs prior to the first anniversary of the Closing Date, 103% if such prepayment occurs on or after the first anniversary of the Closing Date and prior to the second anniversary of the Closing Date, or 101% of the Secured Note Amount outstanding at such time if such prepayment occurs thereafter but prior to the Maturity Date, plus any accrued but unpaid interest thereon.

The Company accounted for the Laurus transaction by allocating proceeds to the preferred stock, the secured note, and the revolving note, pro rata based upon each instrument's relative fair value. Based upon this allocation proceeds in the amount of \$1,250,000 were allocated to the preferred stock. Proceeds in the amount of \$2,083,333 were allocated to the secured note resulting in a debt discount in the amount of \$416,667. Also, in connection with the transaction the Company recorded \$833,333 in loan origination costs related to the revolving note. The Company is amortizing the

debt discount and loan origination fees over the term of the respective notes.

As of September 30, 2007, the balance owed on the Laurus Secured Note was \$2,117,500.

The principal amount of the Revolving Note carries an interest rate of prime plus two percent (the Revolving Note Rate) subject to adjustment, and we must make said monthly interest payments, payable in arrears, commencing September 1, 2006. Furthermore, the Revolving Note Rate shall not at any time be less than nine percent (9.0%). The Company may prepay the Revolving Note at any time without penalty. The availability under the Revolving Note is subject to a borrowing base formula based on eligible inventory and accounts receivable.

We also have granted Laurus a right of first refusal with respect to any debt or equity financings, with such restriction being in effect for no longer than 2 years after the closing date, of the Laurus financing.

Notes Payable To Related Party

TIGP

In March 2007, Palisades transferred its note and the preferred stock to Trinity Investments GP (TIGP), a related party. See note 3.

On March 13, 2007, the Company entered into a Purchase and Amendment Agreement with TIGP (the "Agreement") for the issuance of up to an aggregate of \$4,000,000 in face amount of 15% Senior Secured Convertible Debentures (the Debentures) maturing March 31, 2011, and warrants (the Warrants; the Warrants and the Debentures are collectively referred to as the Securities), to purchase up to an aggregate of 56,250,000 shares of common stock of the Company (the Financing). The Company sold \$1,125,000 (with 15,000,000 warrants) of the debentures as of June 30, 2007 and intends selling the remaining Securities on the same terms as the 15% Senior Secured Convertible Debentures sold on March 31, 2006 (to Palisades) and the accompanying four year warrants, with the exception of the following terms: (i) the Debentures are convertible into shares of the Company's common stock at a price equal to \$0.03 per share (the Conversion Price), (ii) the Warrants shall be exercisable at \$0.03 per share, have a six month termination period and do not have a cashless exercise provision, (iii) the Company's obligation to redeem 1/24th of the face amount of the Debentures on the first of every month (the Rate), starting March 31, 2008 (the Dates), shall be conditional on the Holders of the Debentures electing to have the Company redeem the Debentures at the scheduled Rate on the scheduled Dates which payment can be made in cash or in common stock of the Company; if in stock at the lower of the Conversion Price or 80% of the volume weighted average price of the Company's stock for the twenty trading days prior to the repayment date; and (iv) the Securities are subject to Modified Registration Rights (as defined further below).

The Company's obligation to repay the Debentures is secured by all of its assets (junior position to Laurus), and the assets of its wholly owned subsidiary, TWL Knowledge Group, Inc.

In addition, the Company has agreed to the following registration rights, which shall equally be applicable to the Holders, additional purchasers of the Securities, if any, and the current holders of the securities sold by the Company in the March 2006 Financing: the Company has agreed to file a registration statement (the Registration Statement) with the Commission the 60th calendar day (the Filing Date) following the date the Company receives a written notice from the Holders holding at least the majority of the Registrable Securities (as defined in the Agreement) requesting the Company to file an initial Registration Statement (the Initial Filing Date) and use its best efforts to have it declared effective the 120th calendar day following the Initial Filing Date (or 150th if reviewed by the SEC). If the Registration Statement is not filed, or effective on time, or the Company fails to maintain the effectiveness of the Registration Statement, the Company shall pay 1.0% of the amount of the Debentures sold in liquidated damages until such default is cured, subject to an overall limit of up to three months of partial liquidated damages. The Registration Statement also will cover the future sale by (i) placement agent of the shares issuable on exercise of the Warrants issued to the placement agent in connection with the transaction, (ii) shares of common stock of the Company underlying the securities sold in the March 2007 Financing, and (iii) the rest of the Registrable Securities (as defined in the Agreement). These registration rights shall collectively be referred to as the "Modified Registration Rights."

In addition, the holder (Laurus) of the Company's term note (the "Term Note") and revolving note issued by the Company on August 31, 2006 (the August 2006 Holder), has agreed to the following terms of consents and waivers with the Company: (i) consent to the Company entering into the Financing and related agreements entered into in March, 2007, (ii) consent to the Modified Registration Rights, (iii) consent to a reduction of the conversion price of the 15% Senior Secured Convertible Debentures sold in the March 2007 Financing to \$0.03, a reduction of the exercise price of the warrants sold in the March 2007 Financing to \$0.03, and a reduction of the conversion price of the shares of the Series A Preferred Stock issued by the Company in connection with the March 2007 Financing to \$0.08, (iv) waiver of all liquidated damages that may have accrued through the Closing Date under the registration rights agreement (the "RR Agreement") entered into by and between the Company and the August 2006 Holder, as a result solely of the Company's failure to file a registration statement (the "August 2006 Registration Statement") on or prior to the Filing Date, each as defined in the RR Agreement, (iv) waiver of participation rights to the extent available to the August 2006 Holders as a result of the Financing, (v) agreement to have the Company file the August 2006 Registration Statement no later than 210 days of the Closing Date, and have the Commission declare it effective no later than 365 days following the Closing Date. Furthermore, to the extent that the Company receives (x) gross proceeds of no less than \$2,000,000 and no greater than \$4,000,000 from the issuance of the Securities and such gross proceeds are used by the Company solely for working capital and payment of accounts payable purposes and not to repay indebtedness of the Company or any of its Subsidiaries (collectively the "Purposes"), the August 2006 Holder and the Company agreed that for the three consecutive Amortization Dates (as defined in the Term Note) following the first date of receipt of the Company of no less than \$2,000,000 of gross proceeds (the "Initial Deferral Term") from the issuance of such Securities, the principal portion of the Monthly Amount (as defined in the Term Note) due on each such Amortization Date shall be postponed to, and repaid to the August 2006 Holder on the Maturity Date (as defined in the Term Note), or (y) gross proceeds of no less than \$4,000,000 from the issuance of the Securities and such gross proceeds are used by the Company solely for the Purposes, the August 2006 Holder and the Company agreed that for the three consecutive Amortization Dates (as defined in the Term Note) following the Initial Deferral Term (the "Additional Deferral Term"), the principal portion of the Monthly Amount (as defined in the Term Note) due on each such Amortization Date shall be postponed to, and repaid to the August 2006 Holder on, the Maturity Date (as defined in the Term Note).

The above consents and waivers entered into by and between the Company and the August 2006 Holder, were granted in consideration of the Company reducing the exercise price of the shares of the Series A Preferred Stock issued by the Company to these holders, from its current amount to \$0.08 per share of common stock. The reduction in the conversion price per share was recorded as additional debt discount of \$375,000 as is being amortized to interest expense over the remaining term of the debt (to the extent such original exercise price is prior to such reduction greater than or equal to \$0.08). Except as set forth above, all of the terms and provisions of the security agreement and the various transaction documents entered into by and between the Company and the August 2006 Holder, are, and shall remain, in full force and effect.

The Company claims an exemption from the registration requirements of the Act for the private placement of these securities pursuant to Section 4(2) of the Act and/or Regulation D promulgated thereunder since, among other things, the transaction did not involve a public offering, the investors were accredited investors and/or qualified institutional buyers, the investors had access to information about the Company and their investment, the investors took the securities for investment and not resale, and the Company took appropriate measures to restrict the transfer of the securities.

The Company recorded the fair value of the 15,000,000 warrants as a debt discount of \$294,000 and is amortizing this discount over the term of the debt. Additionally, a beneficial conversion feature of \$731,000 was recorded and is being amortized to interest over the debt term. The conversion price per share for the \$4,500,000 note held by TIGP was adjusted to \$0.03 per share in accordance with the debt agreement. As 100% of the note has already been recorded as debt discount, no incremental debt discount or beneficial conversion feature amount for the reduction in conversion price was recorded.

In April, 2007, the Company cancelled the 2,800,000 Series A preferred stock to TIGP and is in the process of issuing 2,800,000 Series B preferred shares. All terms of the Series B preferred remain the same except the conversion into common shares price as \$0.03 per share. The fair value of the additional consideration totaling \$4,573,000 was recorded as preferred stock deemed dividend.

As of September 30, 2007, the balance owed on the TIGP convertible notes due March 31, 2010 was \$4,500,000 and the balance owed on the TIGP convertible notes due March 31, 2011 was \$1,125,000.

The balance of the revolving note (LOC) at September 30, 2007 totaled \$942,290. The LOC has a maximum facility of \$5,000,000 subject to borrowing base computations. The LOC bears interest at prime plus 2% (9.75 at September 30, 2007). The LOC is secured by substantially all the assets of the Company.

Note 6 – Stock Option Plan

As of September 30, 2007, an aggregate of 100,000,000 shares of our common stock are currently authorized for issuance pursuant to our 2002 Stock Plan. This plan was approved on December 2, 2002, at a special meeting of our shareholders. The Plan allowed for a maximum aggregate number of shares that may be optioned and sold under the plan of (a) 3,000,000 shares, plus (b) an annual 500,000 increase to be added on the last day of each fiscal year beginning in 2003 unless a lesser amount is determined by the board of directors. The plan became effective with its adoption and remains in effect for ten years unless terminated earlier. On December 30, 2003, the board of directors amended the 2002 Stock Plan to allow for a maximum aggregate number of shares that may be optioned and sold under the plan of (a) 6,000,000 shares, plus (b) an annual 1,000,000 increase to be added on the last day of each fiscal year beginning in 2004 unless a lesser amount is determined by the board of directors. Options granted under the plan vest pro rata over a 48 month period and are typically issued with a four to seven year term. In some cases, selected officers and directors have been given accelerated vesting schedules.

The Company issued stock options to employees, officers and directors. The following schedule summarizes the activity for the three months ended September 30, 2007:

Effective July 1, 2005, the Company adopted the fair value based method of accounting for stock-based employee compensation in accordance with Statement of Financial Accounting Standards Number 123(R). SFAS 123(R) requires stock based compensation expense to be recognized for all share based payments. Stock based compensation expense of \$442,102 and \$206,813 was recognized for the three months ended September 30, 2007 and 2006, respectively. The estimated fair value of options and warrants is amortized to expense using the straight-line method over the vesting period. The expense was calculated using the Black-Scholes option pricing model with the following assumptions:

Note 9 – Subsequent Events

On October 19, 2007 TWL Corporation (the “Company”) filed a preliminary information statement – Schedule PRE14C with the Securities and Exchange Commission. The Company gave notice that it intends to take the following actions pursuant to the written consent of a stockholders holding a majority of the outstanding shares of common stock, in lieu of a special meeting of the stockholders. The Company is expected to take the following actions during the second quarter of 2008:

1. Amend the Certificate of Incorporation to effect a 1-for-20 reverse stock split of TWL Corporation’s outstanding common stock
2. Change the Company’s domicile from Utah to Nevada.

From October 1, 2007 thru October 30, 2007, the Company raised an additional \$500,000 from the sale of common stock to accredited investors.

Table Of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION**

Our fiscal year ends on June 30. This management's discussion and analysis of financial condition and results of operations and other portions of this Quarterly Report on Form 10-QSB (the "Quarterly Report") contain forward looking information that involves risks and uncertainties. Our actual results could differ materially from those anticipated by this forward looking information. Factors that could cause or contribute to such differences include, but are not limited to, those discussed or referred to in the Annual Report on Form 10-KSB for the fiscal year ended June 30, 2007 under the heading Information Regarding Forward-Looking Statements and elsewhere. Investors should review this Quarterly Report in combination with our Annual Report on Form 10-KSB in order to have a more complete understanding of the principal risks associated with an investment in our common stock. This management's discussion and analysis of financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and related notes included elsewhere in this document.

Overview

Our financial statements are prepared using accounting principles generally accepted in the United States of America generally applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. Currently, we do not have an established source of revenues sufficient to cover our operating costs and to allow us to continue as a going concern. We cannot be certain that our existing sources of cash will be adequate to meet our liquidity requirements. Based upon our cash balance at November 1, 2007, we will not be able to sustain operations for more than two months without additional sources of funding. To meet our present and future liquidity requirements, we will continue to seek conversion of outstanding loans and payables into common stock, development of the business of our newly-acquired subsidiaries and collections on accounts receivable. There can be no assurance that we will be successful in obtaining more debt and/or equity financing in the future or that our results of operations will materially improve in either the short- or the long-term. If we fail to obtain such financing and improve our results of operations, we will be unable to meet our obligations as they become due. This raises substantial doubt about our ability to continue as a going concern.

Table Of Contents**Revenue**

The Company has experienced a decrease in its subscription customer base as well as reduced single event sales. The combination of these factors and price discounting has resulted in the overall decline in revenue. The Company has modified its sales and marketing efforts in order to prevent further erosion of the customer base.

Cost and expenses

The Company has been discounting many of its product offerings in order to retain existing customers. Consequently, the Company is experiencing lower profit margins on some of its products.

Salaries and benefit costs have increased this year over last year due to increased headcount and related benefits primarily because of additions to our sales and marketing divisions. On September 28, 2007 the Company reduced its workforce by 29 individuals. The reduction in force should reflect cost savings in future periods estimated at \$2.4 million annually.

Selling, general and administrative are less this year due to decreased property and real estate taxes, occupancy expenses and contract labor.

Amortization of program inventory decreased \$2,142,145 due to the unamortized balance at June 30, 2006 being fully amortized during the first quarter of fiscal 2007. Capitalized amounts related to the purchase price allocation in connection with a purchase transaction in fiscal 2005 and no additional amounts have been capitalized.

Interest expense in the prior year included non-cash recording of \$3,600,055 for debt discount on a note payable. Net cash interest expense of \$295,814 and \$262,779 was paid in the three months ended September 30, 2007 and 2006, respectively.

The loss on refinancing of debt in the prior year is for the value of preferred stock issued for an agreement to subordinate debt.

The gain on settlement of accounts relates to trade vendor payables settled for amounts less than owed. We do not anticipate continued gain on settlement of trade vendor accounts..

Liquidity and Capital Resources

Our expenses are currently greater than our revenue.

During the three month period ended September 30, 2007 the Company incurred a net loss of \$3,220,693 and experienced a cash flow deficit from its operations, in the amount of \$1,665,325. As of September 30, 2007 the Company had a cash balance of \$351,426 and a negative working capital balance of \$16,341,788. The negative working capital is attributable to extending payments to vendors, increased accrued expenses and increased short-term borrowings. In an effort to preserve cash, the Company has delayed scheduled payments to many of its trade vendors. It is anticipated that such losses and cash flow deficits will continue in the near future. The Company plans to raise additional capital through the sale of its common stock. There can be no assurance that these efforts will provide sufficient working capital.

We continue to have negative cash flow from our operations, but have been able to raise additional capital this year by selling our common stock. Proceeds were used for general working capital purposes.

As a professional services organization we are not capital intensive. Capital expenditures historically have been for computer-aided instruction, accounting and project management information systems, and general-purpose computer equipment to accommodate our growth.

Table Of Contents

We continued to seek equity and debt financing in fiscal 2008 to support our growth and to finance proposed acquisitions.

To meet our present and future liquidity requirements, we are continuing to seek additional funding through private placements, conversion of outstanding loans and payables into common stock, development of the businesses of our newly-acquired subsidiaries, collections on accounts receivable, and through additional acquisitions that have sufficient cash flow to fund subsidiary operations. There can be no assurance that we will be successful in obtaining more debt and/or equity financing in the future or that our results of operations will materially improve in either the short- or the long-term. If we fail to obtain such financing and improve our results of operations, we will be unable to meet our obligations as they become due. This raises substantial doubt about our ability to continue as a going concern.

Debt owed to unrelated parties

On August 31, 2006, the Company entered into agreements with Laurus Master Fund, Ltd., (Laurus), pursuant to which the Company sold debt and issued preferred stock of the Company to Laurus in a private offering pursuant to exemption from registration under Section 4(2) of the Securities Act of 1933 as follows:

- A secured three-year term note (the Secured Note) with a principal amount of \$2,500,000 (the Secured Note Amount), which matures on August 31, 2009 (the Maturity Date);
- A secured three-year revolving note with maximum amount of \$5,000,000, which matures on August 1, 2009 (the Revolving Note; the Revolving Note and the Secured Note are collectively referred to as the Notes).
- Issued 1,500,000 preferred Series A shares which are convertible into common shares at \$0.10 per share, subject to anti-dilution adjustments.

Net proceeds of \$2,173,000 were received by the Company under the Secured Note. We also agreed to pay, out of the Loan proceeds, the sum of \$270,000 to Laurus Capital Management, LLC, the manager of Laurus, the sum of \$60,000 to Laurus as reimbursement for Laurus' legal fees, due diligence fees and expenses incurred in connection with the transaction.

The Notes are secured by a blanket lien on all of the Company's assets and the assets of the Company's subsidiaries. The Company pledged its ownership interests in TWL Knowledge Group, Inc., its subsidiary, to Laurus in connection with the aforementioned financing. In the event of a default, Laurus has the right to accelerate payments under the Notes and, in addition to any other remedies available to it, to foreclose upon the assets securing the Notes.

The principal amount of the Secured Note carries an interest rate of prime plus three percent (the Secured Note Rate), subject to adjustment. We must make monthly amortizing payments of \$42,500 commencing January 1, 2007 and with said monthly amortizing payments increasing to \$62,500 commencing on January 1, 2008, toward the outstanding principal amount. Furthermore, the Secured Note Rate shall not at any time be less than nine percent (9.0%). The Company may prepay the Secured Note at any time by paying Laurus 105% of the Secured Note Amount, if such prepayment occurs prior to the first anniversary of the Closing Date, 103% if such prepayment occurs on or after the first anniversary of the Closing Date and prior to the second anniversary of the Closing Date, or 101% of the Secured Note Amount outstanding at such time if such prepayment occurs thereafter but prior to the Maturity Date, plus any accrued but unpaid interest thereon.

The Company accounted for the Laurus transaction by allocating proceeds to the preferred stock, the secured note, and the revolving note, pro rata based upon each instrument's relative fair value. Based upon this allocation proceeds in the amount of \$1,250,000 were allocated to the preferred stock. Proceeds in the amount of \$2,083,333 were allocated to the secured note resulting in a debt discount in the amount of \$416,667. Also, in connection with the transaction the Company recorded \$833,333 in loan origination costs related to the revolving note. The Company is amortizing the debt discount and loan origination fees over the term of the respective notes.

Table Of Contents

As of September 30, 2007, the balance owed on the Laurus Secured Note was \$2,117,500.

The principal amount of the Revolving Note carries an interest rate of prime plus two percent (the Revolving Note Rate) subject to adjustment, and we must make said monthly interest payments, payable in arrears, commencing September 1, 2006. Furthermore, the Revolving Note Rate shall not at any time be less than nine percent (9.0%). The Company may prepay the Revolving Note at any time without penalty. The availability under the Revolving Note is subject to a borrowing base formula based on eligible inventory and accounts receivable.

We also have granted Laurus a right of first refusal with respect to any debt or equity financings, with such restriction being in effect for no longer than 2 years after the closing date, of the Laurus financing.

Debt owed to related parties

In March 2007, Palisades transferred its note and the preferred stock to Trinity Investments GP (TIGP), a related party. .

On March 13, 2007, the Company entered into a Purchase and Amendment Agreement with TIGP (the "Agreement") for the issuance of up to an aggregate of \$4,000,000 in face amount of 15% Senior Secured Convertible Debentures (the Debentures) maturing March 31, 2011, and warrants (the Warrants; the Warrants and the Debentures are collectively referred to as the Securities), to purchase up to an aggregate of 56,250,000 shares of common stock of the Company (the Financing). The Company sold \$1,125,000 (with 15,000,000 warrants) of the debentures as of June 30, 2007 and intends selling the remaining Securities on the same terms as the 15% Senior Secured Convertible Debentures sold on March 31, 2006 (to Palisades) and the accompanying four year warrants, with the exception of the following terms: (i) the Debentures are convertible into shares of the Company's common stock at a price equal to \$0.03 per share (the Conversion Price), (ii) the Warrants shall be exercisable at \$0.03 per share, have a six month termination period and do not have a cashless exercise provision, (iii) the Company's obligation to redeem 1/24th of the face amount of the Debentures on the first of every month (the Rate), starting March 31, 2008 (the Dates), shall be conditional on the Holders of the Debentures electing to have the Company redeem the Debentures at the scheduled Rate on the scheduled Dates which payment can be made in cash or in common stock of the Company; if in stock at the lower of the Conversion Price or 80% of the volume weighted average price of the Company's stock for the twenty trading days prior to the repayment date; and (iv) the Securities are subject to Modified Registration Rights (as defined further below).

The Company's obligation to repay the Debentures is secured by all of its assets (junior position to Laurus), and the assets of its wholly owned subsidiary, TWL Knowledge Group, Inc.

In addition, the Company has agreed to the following registration rights, which shall equally be applicable to the Holders, additional purchasers of the Securities, if any, and the current holders of the securities sold by the Company in the March 2006 Financing: the Company has agreed to file a registration statement (the Registration Statement) with the Commission the 60th calendar day (the Filing Date) following the date the Company receives a written notice from the Holders holding at least the majority of the Registrable Securities (as defined in the Agreement) requesting the Company to file an initial Registration Statement (the Initial Filing Date) and use its best efforts to have it declared effective the 120th calendar day following the Initial Filing Date (or 150th if reviewed by the SEC). If the Registration Statement is not filed, or effective on time, or the Company fails to maintain the effectiveness of the Registration Statement, the Company shall pay 1.0% of the amount of the Debentures sold in liquidated damages until such default is cured, subject to an overall limit of up to three months of partial liquidated damages. The Registration Statement also will cover the future sale by (i) placement agent of the shares issuable on exercise of the Warrants issued to the placement agent in connection with the transaction, (ii) shares of common stock of the Company underlying the securities sold in the March 2007 Financing, and (iii) the rest of the Registrable Securities (as defined in the Agreement). These registration rights shall collectively be referred to as the "Modified Registration Rights."

In addition, the holder (Laurus) of the Company's term note (the "Term Note") and revolving note issued by the Company on August 31, 2006 (the August 2006 Holder), has agreed to the following terms of consents and waivers with the Company: (i) consent to the Company entering into the Financing and related agreements entered into in March, 2007, (ii) consent to the Modified Registration Rights, (iii) consent to a reduction of the conversion price of the 15% Senior Secured Convertible Debentures sold in the March 2007 Financing to \$0.03, a reduction of the exercise price of the warrants sold in the March 2007 Financing to \$0.03, and a reduction of the conversion price of the shares of the Series A Preferred Stock issued by the Company in connection with the March 2007 Financing to \$0.08, (iv) waiver of all liquidated damages that may have accrued through the Closing Date under the registration rights agreement (the "RR Agreement") entered into by and between the Company and the August 2006 Holder, as a result solely of the Company's failure to file a registration statement (the "August 2006 Registration Statement") on or prior to the Filing Date, each as defined in the RR Agreement, (iv) waiver of participation rights to the extent available to the August 2006 Holders as a result of the Financing, (v) agreement to have the Company file the August 2006 Registration Statement no later than 210 days of the Closing Date, and have the Commission declare it effective no later than 365 days following the Closing Date. Furthermore, to the extent that the Company receives (x) gross proceeds of no less than \$2,000,000 and no greater than \$4,000,000 from the issuance of the Securities and such gross proceeds are used by the Company solely for working capital and payment of accounts payable purposes and not to repay indebtedness of the Company or any of its Subsidiaries (collectively the "Purposes"), the August 2006 Holder and the Company agreed that for the three consecutive Amortization Dates (as defined in the Term Note) following the first date of receipt of the Company of no less than \$2,000,000 of gross proceeds (the "Initial Deferral Term") from the issuance of such Securities, the principal portion of the Monthly Amount (as defined in the Term Note) due on each such Amortization Date shall be postponed to, and repaid to the August 2006 Holder on the Maturity Date (as defined in the Term Note), or (y) gross proceeds of no less than \$4,000,000 from the issuance of the Securities and such gross proceeds are used by the Company solely for the Purposes, the August 2006 Holder and the Company agreed that for the three consecutive Amortization Dates (as defined in the Term Note) following the Initial Deferral Term (the "Additional Deferral Term"), the principal portion of the Monthly Amount (as defined in the Term Note) due on each such Amortization Date shall be postponed to, and repaid to the August 2006 Holder on, the Maturity Date (as defined in the Term Note).

The above consents and waivers entered into by and between the Company and the August 2006 Holder, were granted in consideration of the Company reducing the exercise price of the shares of the Series A Preferred Stock issued by the Company to these holders, from its current amount to \$0.08 per share of common stock. The reduction in the conversion price per share was recorded as additional debt discount of \$375,000 as is being amortized to interest expense over the remaining term of the debt (to the extent such original exercise price is prior to such reduction greater than or equal to \$0.08). Except as set forth above, all of the terms and provisions of the security agreement and

the various transaction documents entered into by and between the Company and the August 2006 Holder, are, and shall remain, in full force and effect.

The Company claims an exemption from the registration requirements of the Act for the private placement of these securities pursuant to Section 4(2) of the Act and/or Regulation D promulgated thereunder since, among other things, the transaction did not involve a public offering, the investors were accredited investors and/or qualified institutional buyers, the investors had access to information about the Company and their investment, the investors took the securities for investment and not resale, and the Company took appropriate measures to restrict the transfer of the securities.

The Company recorded the fair value of the 15,000,000 warrants as a debt discount of \$294,000 and is amortizing this discount over the term of the debt. Additionally, a beneficial conversion feature of \$731,000 was recorded and is being amortized to interest over the debt term. The conversion price per share for the \$4,500,000 note held by TIGP was adjusted to \$0.03 per share in accordance with the debt agreement. As 100% of the note has already been recorded as debt discount, no incremental debt discount or beneficial conversion feature amount for the reduction in conversion price was recorded.

In April, 2007, the Company cancelled the 2,800,000 Series A preferred stock to TIGP and is in the process of issuing 2,800,000 Series B preferred shares. All terms of the Series B preferred remain the same except the conversion into common shares price as \$0.03 per share. The fair value of the additional consideration totaling \$4,573,000 was recorded as preferred stock deemed dividend.

As of September 30, 2007, the balance owed on the TIGP convertible notes due March 31, 2010 was \$4,500,000 and the balance owed on the TIGP convertible notes due March 31, 2011 was \$1,125,000.

Our financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. Currently, we do not have significant cash. To sustain operations our material assets are pledged as security for the Laurus credit facility. We do not have an established source of revenues sufficient to cover our operating costs that will allow us to continue as a going concern. We do not currently possess a financial institution source of financing and we cannot be certain that our existing sources of cash will be adequate to meet our liquidity requirements. Based upon our cash balance at November 1, 2007, we will not be able to sustain operations for more than 2 months without additional sources of financing.

Off Balance Sheet Arrangements

We do not have any off balance sheet arrangements that will have a current or future effect on our financial condition, revenues, operating results, liquidity or capital expenditures

ITEM 3. CONTROLS AND PROCEDURES

(a) Management's Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer, after conducting an evaluation, together with other members of management, of the effectiveness of the design and operation of our disclosure controls and procedures at the end of the period covered by this report, have concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in our reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the SEC. There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to that evaluation, and there were no significant deficiencies or material weaknesses in such controls requiring corrective actions.

(b) Changes In Internal Controls

There were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to that evaluation, and there were no significant deficiencies or material weaknesses in such controls requiring corrective actions.
