Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 1 – Company Background

Sociedad Química y Minera de Chile S.A. (the “Company”) was registered with the Chilean Superintendency of Securities and Insurance (“SVS”) on March 18, 1983.

Note 2 – Summary of Significant Accounting Policies

a) Basis of the preparation of the consolidated financial statements

The accompanying consolidated financial statements have been prepared in U.S. dollars in accordance with accounting principles generally accepted in Chile (“Chilean GAAP”) and the regulations of the SVS. Certain accounting practices applied by the Company that conform to Chilean GAAP may not conform to generally accepted accounting principles in the United States (“US GAAP”) or International Financial Reporting Standards (“IFRS”). For the convenience of the reader, the consolidated financial statements and their accompanying notes have been translated from Spanish into English.

The consolidated financial statements include the accounts of Sociedad Química y Minera de Chile S.A. (the “Parent Company”) and subsidiaries (companies in which the Parent Company holds a controlling participation, generally equal to direct or indirect ownership of more than 50%). The Parent Company and its subsidiaries are referred to as the “Company”.

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

In accordance with SVS Circular No. 1,697 and Technical Bulletins Nos. 64 and 72 of the Chilean Association of Accountants, the consolidated financial statements include the following subsidiaries:

Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 2 - Summary of Significant Accounting Policies (continued)

b) Accounting period

These consolidated financial statements have been prepared as of September 30, 2007 and 2006 and for the nine-month periods then ended.

c) Reporting currency and monetary correction

The financial statements of the Company are prepared in U.S. dollars. As a significant portion of the Company's operations are transacted in U.S. dollars, the U.S. dollar is considered the currency of the primary economic environment in which the Company operates.

The Parent Company and those subsidiaries which maintain their accounting records in U.S. dollars are not required, or permitted, to restate the historical dollar amounts for the effects of inflation.

The financial statements of domestic subsidiaries that maintain their accounting records in Chilean pesos have been restated to reflect the effects of variations in the purchasing power of the Chilean peso during the period. For this purpose, and in accordance with Chilean regulations, non-monetary assets and liabilities, equity and income statement accounts have been restated in terms of year-end constant pesos based on the change in the consumer price index during the year (5.1% and 2.5% in 2007 and 2006, respectively). The resulting net charge or credit to income arises as a result of the gain or loss in purchasing power from the holding of non-U.S. dollar denominated monetary assets and liabilities exposed to the effects of inflation.

Prior period financial statements presented for comparative purposes have not been restated to reflect the change in the purchasing power of the Chilean pesos during the most recent year-end. In accordance with Chilean GAAP, amounts expressed in U.S. dollars, including amounts included in the consolidated financial statements as determined in prior years from the translation of financial statements of those Chilean subsidiaries which maintain their accounting records in Chilean pesos, are not adjusted for price-level changes.

SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 2 - Summary of Significant Accounting Policies (continued)

d) Foreign currency

i) Foreign currency transactions

Monetary assets and liabilities denominated in Chilean pesos and other currencies have been translated to U.S. dollars at the observed exchange rates determined by the Central Bank of Chile in effect at each year-end of Ch\$ 511.23 per US\$1 at September 30, 2007 and Ch\$ 537.03 per US\$1 at September 30, 2006.

ii) Translation of non-U.S. dollar financial statements

In accordance with Chilean GAAP, the financial statements of foreign and domestic subsidiaries that do not maintain their accounting records in U.S. dollars are translated from the respective local currencies to U.S. dollars in accordance with Technical Bulletin No. 64 and No. 72 of the Chilean Association of Accountants ("BT 64-BT 72") as follows:

a) For those subsidiaries and affiliates located in Chile which keep their accounting records in price-level adjusted Chilean pesos:

- Balance sheet accounts are translated to U.S. dollars at the year-end exchange rate without eliminating the effects of price-level restatement.

- Income statement accounts are translated to U.S. dollars at the average exchange rate each month. The monetary correction line on the income statement, which is generated by the inclusion of price-level restatement of non-monetary assets and liabilities and shareholders' equity, is translated to U.S. dollars at the average exchange rate for each month.

- Translation gains and losses, as well as the price-level restatement of the balance sheet mentioned above, are included as an adjustment in shareholders' equity, in conformity with Circular No. 1,697 of the SVS.

b) The financial statements of those foreign subsidiaries that keep their accounting records in currencies other than the U.S. dollar have been translated at historical exchange rates as follows:

- Monetary assets and liabilities are translated at year-end exchange rates between the US dollar and the local currency.

- All non-monetary assets and liabilities and shareholders' equity are translated at historical exchange rates between the US dollar and the local currency.

- Income and expense accounts are translated at average exchange rates between the US dollar and the local currency.

- Any exchange differences are included in the results of operations for the period.

Note 2 - Summary of Significant Accounting Policies (continued)

d) Foreign currency

iii) Foreign currency translation

Foreign currency translation for the period ended September 30, 2007 and 2006 generated net earnings (loss) of ThUS\$ (2,311) and ThUS\$ (5,403) respectively, which have been charged to the consolidated statements of income in each respective period.

The monetary assets and liabilities of foreign subsidiaries were translated into US dollars at the exchange rates per US dollar prevailing as of September 30, as follows:

	2007 US\$	2006 US\$
Brazilian Real	1.96	2.18
New Peruvian Sol	3.10	3.25
Argentine Peso	3.15	3.10
Japanese Yen	115.43	117.90
Euro	0.71	0.79
Mexican Peso	10.92	11.05
Indonesian Rupee	9,830.04	9,290.00
Australian Dollar	1.13	1.34
Pound Sterling	0.51	0.54
Ecuadorian Sucre	1.00	1.00
South African Rand	7.01	7.68

The Company uses the “observed exchange rate”, which is the rate determined daily by the Chilean Central Bank based on the average exchange rates at which bankers conduct authorized transactions.

e) Cash and cash equivalents

The Company considers all highly liquid investments with a remaining maturity of less than 90 days as of the closing date of the financial statements to be cash equivalents.

f) Time deposits

Time deposits are recorded at cost plus accrued interest.

g) Marketable securities

Marketable securities are recorded at the lower of cost plus accrued interest or market value.

SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 2 - Summary of Significant Accounting Policies (continued)

h) Allowance for doubtful accounts

The Company records an allowance for doubtful accounts based on estimated probable losses.

i) Inventories and materials

Inventories of finished products and products in process are stated at average production cost, which is presented net of provisions. Provisions have been made on the basis of a technical study which covers the different variables that affect our products (density, humidity, and others).

Materials and supplies received are stated at average acquisition cost and inventories in transit are stated at cost incurred as of the end of the period.

The cost of inventories does not exceed their net realizable value.

j) Income taxes and deferred taxes

In conformity with current Chilean tax regulations, the Company recognizes the provision for corporate income tax expense and the income tax for the mining activity on an accrual basis.

Prior to 2000, income taxes were charged to results in the same period in which the income and expenses were recorded and were calculated in accordance with the enacted tax laws in Chile and the other jurisdictions in which the Company operated.

Under Chilean law, the Parent Company and its subsidiaries are required to file separate tax declarations.

Beginning January 1, 2000, the Company records deferred taxes in accordance with Technical Bulletin Nos. 60, 69, 71 and 73 of the Chilean Association of Accountants, and with SVS Circular No. 1466 issued on January 27, 2000, recognizing the deferred tax effects of temporary differences between the financial and tax values of assets and liabilities, using the liability method. The effect of the temporary differences at March 31, 1999 was recorded in complementary asset and liability accounts, which are recognized in the statement of operations over the estimated period in which they reverse.

SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 2 - Summary of Significant Accounting Policies (continued)

k) Property, plant and equipment

Property, plant, equipment and property rights are recorded at acquisition cost, considering in general an average residual value of 5%, except for certain assets that were restated in accordance with a technical appraisal in 1989. Depreciation for the period is calculated according to the straight-line method based on the remaining technical useful lives of assets, estimated by management.

Property, plant and equipment acquired through capital lease agreements are accounted for at the present value of the minimum lease payments plus the purchase option based on the interest rate included in each contract. The Company does not legally own these assets and therefore cannot freely dispose of them.

In conformity with Technical Bulletin No. 31 and 33 of the Chilean Association of Accountants, the Company capitalizes interest cost associated with the financing of new assets during the construction period of such assets.

Maintenance costs of plant and equipment are charged to expenses as incurred.

The Company obtains property rights and mining concessions from the Chilean state. Other than minor filing fees, the property rights are usually obtained without initial cost, and once obtained, are retained by the Company as long as the annual fees are paid. Such fees, which are paid annually in March, are recorded as prepaid assets to be amortized over the following twelve months. Values attributable to these original mining concessions are recorded in property, plant and equipment.

l) Investments in related companies

Investments in related companies over which the Company has significant influence are included in other assets and are recorded using the equity method of accounting, in accordance with SVS Circulars Nos. 368 and 1,697 and Technical Bulletins Nos. 64 and 72 issued by the Chilean Association of Accountants. Accordingly, the Company's proportional share in the net income or loss of each investee is recognized in the non-operating income and expense classification in the consolidated statements of income on an accrual basis, after eliminating any unrealized profits from transactions with the related companies.

The translation adjustment to U.S. dollars of investments in domestic subsidiaries that maintain their accounting records and are controlled in Chilean pesos is recognized in other reserves within shareholders' equity. Direct and indirect investments in foreign subsidiaries or affiliates are controlled in U.S. dollars.

Investments in which the Company has less than 20% participation and the capacity to exert significant influence or control over the investment, because SQM forms part of its Board of Directors, have been valued using the equity method.

Note 2 - Summary of Significant Accounting Policies (continued)

m) Goodwill and negative goodwill

Goodwill is calculated as the excess of the purchase price of companies acquired over their net book value, whereas negative goodwill occurs when the net book value exceeds the purchase price of companies acquired. Goodwill and negative goodwill resulting from equity method investments are maintained in the same currency in which the investment was made and are amortized based on the estimated period of investment return, generally 20 years for goodwill and 10 years for negative goodwill.

Beginning on January 1, 2004, goodwill and negative goodwill represents the difference between the acquisition cost of the investment in a related company and the fair value of this investment at the acquisition date, which is amortized with a charge or credit to income in the expected period of return of the investment, which does not exceed 20 years.

n) Intangible assets

Intangible assets are stated at cost plus acquisition expenses and are amortized over a period not longer than 40 years, in accordance with Technical Bulletin No. 55 of the Chilean Association of Accountants.

o) Mining development cost

Mining development costs are recorded in other long-term assets and are amortized utilizing the unit of production basis.

p) Staff severance indemnities

The Company calculates the liability for staff severance indemnities based on the present value of the accrued benefits for the actual years of service worked assuming average employee tenure of 24 years and a real annual discount rate of 8%.

q) Vacations

The cost of employee vacations is recognized in the financial statements on an accrual basis.

r) Operations with resale agreements

Operations with resale agreements are recorded in Other Current Assets at the amount of the purchase. Starting at the purchase date, the respective interest is recorded on an accrual basis, in accordance with SVS Circular 768.

Note 2 - Summary of Significant Accounting Policies (continued)

s) Dividends

Dividends are generally declared in U.S. dollars but are paid in Chilean pesos.

t) Derivative contracts

The Company maintains derivative contracts to hedge against movements in foreign currencies, which are recorded in conformity with Technical Bulletin No. 57 of the Chilean Association of Accountants. Such contracts are recorded at fair value with net losses recognized on the accrual basis and gains recognized when realized.

u) Reclassifications

For comparison purposes, certain reclassifications have been made to the 2006 financial statements.

v) Revenue recognition

Revenue is recognized on the date goods are physically delivered or when they are considered delivered according to the terms of the contract.

w) Computer software

Computer systems developed internally using the Company's personnel and materials are charged to income during the period in which the expenses are incurred. In accordance with Circular No. 1.819 dated November 14, 2006 of the SVS, computer systems acquired by the Company are recorded at acquisition cost plus additional associated costs.

x) Research and development expenses

Research and development cost are charged to the income statement in the period in which they are incurred. Property, plant and equipment that are acquired for use in research and development activities and determined to provide additional benefits to the Company are recorded in property, plant and equipment.

y) Obligations with the public (Bonds payable)

Bonds are stated at the principal amount plus interest accrued. The difference between the carrying value and the placement value is capitalized and amortized over the life of the bonds.

Note 2 - Summary of Significant Accounting Policies (continued)

z) Provisions for mine closure costs

The Company has made a provision to cover those costs associated with the closure of mines and mining facilities, as well as the mitigation of environmental damage. This provision has been recorded at its present value. The amount determined is presented under accrued liabilities in long-term liabilities.

aa) Deferred income

Deferred income relates to the recognition of documented sales whose delivery occurs subsequent to the closing date of the financial statements.

Note 3 - Changes in Accounting Principles

During the nine-month period ended September 30, 2007, there were no changes in the application of generally accepted accounting principles in Chile compared to the prior year that could significantly affect the interpretation of these financial statements.

Note 4 - Marketable Securities

b) Transactions executed in 2007

On January 12, 2007, the subsidiary PTM SQM Ibérica S.A. was liquidated and extinguished. This operation gave rise to a loss of ThUS\$ 41 in the subsidiary Soquimich European Holding B.V.

On March 2, 2007, the subsidiary SQM Industrial S.A. made a capital increase of ThUS\$ 130 in its subsidiary SQM Brasil Ltda. In accordance with Technical Bulletin No. 72 issued by the Chilean Association of Accountants and SVS Circular No. 1,697, the Company performed the valuation in consideration of the carrying value of the equity of SQM Brasil Ltda. as of March 31, 2006, which does not significantly differ from its fair value determined at that date.

On April 11, 2007, the subsidiary SQM S.A and the subsidiary Soquimich European Holding B.V. made a capital increase of ThUS\$ 6,599 in their subsidiary SQM Europe N.V. In accordance with Technical Bulletin No. 72 issued by the Chilean Association of Accountants and SVS Circular No. 1,697, the valuation was conducted considering the carrying value of the equity of SQM Europe N.V. as of September 30, 2006, which does not significantly differ from its fair value determined at that date.

c) Transactions executed in 2006

At the First General Extraordinary Shareholders' Meeting of SQM Industrial S.A. held on January 9, 2006, the shareholders approved the merger of SQM Procesos S.A. (dissolved) with the successor company SQM Industrial S.A., which acquires all the rights, shares, exceptions, assets, liabilities, obligations, shareholders' equity, shareholders and remaining assets and expectations of SQM Procesos S.A. This merger generates each and every of its effects beginning on January 1, 2006.

On January 19, 2006, Sociedad Química y Minera de Chile S.A. and SQM Potasio S.A. acquired 7,021,169 and 70,921 shares, respectively, of DSM Minera S.A. and its subsidiary Exploraciones Minera S.A. for the sum of ThUS\$100,067 in cash (equivalent to ownership of 99% and 1%, respectively).

This investment has been stated using the equity method under the acquisition method in accordance with Technical Bulletin No. 72 issued by the Chilean Association of Accountants and the standards established in SVS Circular No. 1,697. Accordingly, the Company conducted a preliminary evaluation of assets and liabilities in the consolidated financial statements of DSM Minera S.A. as of December 31, 2005. This generated negative goodwill of ThUS\$1,928, which, as it is directly associated with mineral rights, is amortized in accordance with their exploitation.

The Company will continue to review the valuation at fair value using the term allowed to refine the adjustment as provided in paragraph No. 66 in Technical Bulletin No. 72 issued by the Chilean Association of Accountants.

Note 25 – Commitments and Contingencies (continued)**I. Contingencies (continued):****(b) Other**

The Company and its subsidiaries are involved in litigation in the ordinary course of business. Based on the advice of counsel, management believes the litigation will not have a material effect on the consolidated financial statements.

II. Commitments:

- (a) The subsidiary SQM Salar S.A. maintains an agreement with a government agency, whereby the Company must make annual payments until 2030 based on the Company's annual sales. This amount, which has been paid since the beginning of the agreement in 1996, was ThUS\$ 10,182 in 2007 (ThUS\$ 6,831 in 2006).
- (b) Bank loans of SQM S.A. and its subsidiaries contain restrictions similar to those loans of the same nature which have been outstanding at pertinent times and which, among others, relate to maximum indebtedness and minimum equity. Save for this, SQM S.A. is not exposed to other covenants to its management activities or to limits in financial indicators because of contracts or agreements with creditors.
- (c) Bank debt of SQM S.A. and its subsidiaries has no restrictions or terms other than those that might usually be found in identical debt in the financial markets, such as, among others, maximum indebtedness and minimum equity.

Note 29 – Environmental Projects (continued)

Protecting the environment, both in regards to the Company's productive processes and the manufactured goods, is a constant concern for SQM. The Company's commitment is supported by the principles declared in the Company's Sustainable Development Policy.

SQM is currently using an Environmental Management System ("SGA"), which is based on the ISO 14000 standard. Through the SGA, the Company has improved its environmental performance by effectively applying the Sustainable Development Policy.

Processes where sodium nitrate is used as a raw material are carried out in the desert and other arid geographical areas with favorable weather conditions for drying solid materials and evaporating liquids using solar energy. The extraction of minerals in open pit mines, given their low waste-to-mineral ratio, gives rise to waste deposits that have little impact on the environment. The extraction process and ore crushing produce particles, which is normal for this type of operation.

On August 10, 1993, the Ministry of Health published a resolution in accordance with the Sanitary Code in the Official Gazette, establishing that breathable particle material levels in the productive facilities of María Elena exceeded the level allowed for air quality, thereby affecting the neighboring location. The particles mainly come from dust produced during the processing of caliche, in particular in the grinding of this ore prior to leaching. The Company has implemented a number of measures which have allowed a significant improvement in air quality at María Elena, both within the framework of a Decontamination Plan for this location and to comply with its Sustainable Development Policy. In October 2005, the Company obtained environmental approval for the "María Elena Technology Plan" project. This project will enable the Company to reduce particle emissions, as required by environmental regulations; the Company estimates that start-up of this project will take place during the second half of 2008. The Company is requesting that CONAMA make the necessary adjustments to the timeframe defined in the Decontamination Plan to reduce particles, so that the timeframe is consistent with the Company's progress on the María Elena Technology Plan.

The Company also develops plans for follow-up and environmental monitoring for all its operations, based on specialized scientific studies, and it annually develops a training program for environmental matters, for both its direct employees and its subcontractors. Within this context, SQM entered into an agreement with Corporación Nacional Forestal (CONAF) - the National Forestry Corporation - with the purpose of monitoring the activities of flamingo colonies in lagoon systems in the Atacama Salar, which includes counting birds and follow-up of the reproductive process. Environmental follow-up maintained by SQM in the Atacama Salar and in other systems in which it operates is supported by a number of studies that have integrated different scientific efforts by prestigious research centers, such as Dictuc from Pontificia Universidad Católica, the School of Agricultural Science of Universidad de Chile, Nevada University, Cornell University and the University of Binghamton, New York.

SOCIEDAD QUIMICA Y MINERA DE CHILE S.A.
Notes to the Consolidated Financial Statements
(A translation of the original in Spanish- see note 2 (a))

Note 29 – Environmental Projects (continued)

In addition, within the framework of environmental studies performed by the Company for its new projects, the Company is currently undertaking a significant amount of work in order to record pre-Hispanic and historical cultural heritage, as well as to protect heritage sites, in accordance with current Chilean laws. There has been a particularly great concentration of these efforts in the area surrounding Maria Elena and the Nueva Victoria plant. Furthermore, the Company is working to distribute this cultural heritage information within the community, as well as to make this information available at local and regional museums.

As emphasized by one of the points in its Sustainable Development Policy, the Company works to maintain a good neighbor relationship and to participate in the development of communities close to its operations, supporting joint projects and activities to improve the quality of life in these communities. For this purpose, the Company has focused its actions on the recovery of historical heritage, training, and social and cultural development. The Company makes efforts in these areas both on its own and in conjunction with other public and private organizations.

Note 30 – Significant Events

On March 21, 2007, the Company informed the Superintendency of Securities and Insurance (SVS) that the Board of Directors of Sociedad Química y Minera de Chile (SQM) at their meeting held on March 20, 2007, unanimously agreed to propose the payment of a final dividend for a sum of US\$0.34874 per share to those shareholders of SQM who were registered with the Shareholders' Registry during the fifth business day prior to the date of payment of this dividend.

Upon approval of this proposal by the shareholders at the General Ordinary Shareholders' Meeting to be held on April 27, 2007, this proposal will the Company to effectively pay and distribute dividends in conformity with its dividend policy, which provides for the payment of an annual dividend equivalent to 65% of distributable net income obtained during 2006.

Note 31 – Subsequent Events

Management is not aware of any significant subsequent events that have occurred between September 30, 2007 and the date of issuance of these financial statements (October 30, 2007) that may affect the Company's financial position or the interpretation of these financial statements.
