PROXY STATEMENT

INFORMATION CONCERNING SOLICITATION AND VOTING

General

The Board of Directors (**Board of Directors**) of Eden Bioscience Corporation (**Eden Bioscience**) is sending you this Proxy Statement in connection with its solicitation of proxies for use at Eden Bioscience's 2006 Annual Meeting of Shareholders (the **Annual Meeting**). The Annual Meeting will be held on Tuesday, May 16, 2006 at 9:00 a.m., local time, at the Country Inn & Suites, 19333 North Creek Parkway, Bothell,

Washington.

We intend to give or mail to shareholders definitive copies of this Proxy Statement and accompanying proxy card on or about April 6, 2006.

Record Date, Outstanding Shares and Quorum

Only those shareholders who owned our common stock at the close of business on March 27, 2006, the record date for the Annual Meeting, can vote. At the close of business on that date, there were 24,406,870 issued and outstanding shares of our common stock. The presence at the Annual Meeting of a majority of such shares, whether in person or by proxy, shall constitute a quorum for the transaction of business. Abstentions and broker non-votes will be included in determining the presence of a quorum at the Annual Meeting.

Revocability of Proxies

If you give us your proxy, you have the power to revoke it at any time before it is exercised by:

notifying the Secretary of Eden Bioscience in writing before the Annual Meeting that you revoke your proxy;

delivering to the Secretary of Eden Bioscience before the Annual Meeting a signed proxy with a later date; or

attending the Annual Meeting and voting in person.

Solicitation of Proxies

We will bear the cost of soliciting proxies from our shareholders. In addition to solicitation by mail, our directors, officers and employees may solicit proxies by telephone, facsimile or otherwise. Our directors, officers and employees will not be additionally compensated for this solicitation but may be reimbursed for out-of-pocket expenses they incur. Brokerage firms, fiduciaries and other custodians who forward soliciting material to the beneficial owners of shares of common stock held of record by them will be reimbursed for the reasonable expenses they incur in forwarding the material.

Voting

You are entitled to one vote for each share of common stock you hold. For the election of directors, the directors who receive the greatest number of affirmative votes cast by holders of common stock present, in person or by proxy, and entitled to vote at the Annual Meeting, will be elected to the board. You are not entitled to cumulate votes in the election of a director. If your shares are represented by proxy, they will be voted in accordance with your instructions. If your proxy is signed and returned without any instructions

given, your shares will be voted in accordance with our recommendation. We are not aware, as of the date of this Proxy Statement, of any matters to be voted on at the Annual Meeting other than as stated in the Proxy Statement and the accompanying notice of Annual Meeting of Shareholders. If any other matters are properly brought before the Annual Meeting, the enclosed proxy gives discretionary authority to the persons named in it to vote the shares in their best judgment.

Abstentions from voting on the election of directors will have no impact on the outcome of this proposal since no vote has been cast in favor of any nominee. There can be no broker nonvotes in the election of directors since brokers who hold shares for the accounts of their clients have discretionary authority to vote such shares with respect to the election of directors.

If the Annual Meeting is postponed or adjourned for any reason, at any subsequent reconvening of the Annual Meeting all proxies will be voted in the same manner as the proxies would have been voted at the original convening of the Annual Meeting, except for any proxies that have at that time effectively been revoked or withdrawn, notwithstanding that they may have been effectively voted on the same or any other matter at a previous meeting.

ELECTION OF DIRECTORS

In September 2005, the Board of Directors appointed Roger M. Ivesdal to the Board of Directors as a Class I director to fill the vacancy created when John W. Titcomb, Jr.'s term as a Class I director expired at our 2005 Annual Meeting of Shareholders. Washington law and our bylaws provide that the term of a director appointed to fill a vacancy expires at the next annual meeting of shareholders at which directors are elected. Accordingly, four directors, one Class I and three Class II directors, will be elected at the 2006 Annual Meeting of Shareholders, to serve until their terms end or until their earlier retirement, resignation or removal. Gilberto H. Gonzalez, Albert A. James and Agatha L. Maza, who currently serve as Class II directors of Eden Bioscience, have been nominated by the Board of Directors for re-election at the Annual Meeting. Biographical information regarding the nominees for the Board of Directors is set forth below. Unless otherwise instructed, the persons named as proxies on the accompanying proxy card intend to vote shares represented by properly executed proxies for such nominees. Although the Board of Directors anticipates that the nominees will be available to serve as our directors, if any of them should be unwilling or unable to serve, the persons named as proxies will vote for the election of such substitute nominee or nominees as may be designated by the Board of Directors. Ages listed are as of March 15, 2006.

Board Attendance

During 2005, there were seven meetings of the Board of Directors. Each director attended 80% or more of the Board meetings and the meetings of the Board Committees on which he or she served.

The Board of Directors has adopted a policy that each director is encouraged to attend Eden Bioscience's regularly scheduled annual meeting of shareholders. Six out of seven directors as of May 17, 2005 attended Eden Bioscience's 2005 annual meeting of shareholders held on that date.

Board of Directors Compensation

Our directors do not receive cash compensation for their services as directors or members of committees of the Board of Directors, but are reimbursed for their reasonable expenses incurred in attending meetings of the Board of Directors and its committees.

Eden Bioscience does not have a standard arrangement pursuant to which directors receive equity compensation for their services as directors. Rather, directors in the past have been and may in the future be granted equity awards at the discretion of the Board of Directors. No equity awards were granted to directors in 2004. Gonzalez and Pahre an option to purchase 35,000 shares of our common stock at an exercise price of \$1.40 per share, of which options to purchase 5,000 shares were vested immediately and the remaining options vest annually in equal installments on the first, second and third anniversaries of the date of grant. The options expire in February 2013. In July 2003, the Board of Directors granted each non-employee director, except for Messrs. Gonzalez and Pahre, an option to purchase 30,000 shares of our common stock at an exercise price of \$1.85 per share, with each option to vest annually in equal installments on the first, second and third anniversaries of the date of grant. Potential director candidates are referred to the Chairperson of the Nominating and Corporate Governance Committee for consideration by the Nominating and Corporate Governance Committee, which may then recommend the director candidate to the Board of Directors for its consideration, if deemed appropriate. If necessary or desirable in the opinion of the Nominating and Corporate Governance Committee, the Nominating and Corporate Governance Committee will determine appropriate means for seeking additional director candidates, including engagement of an outside consultant to assist in the identification of director candidates.

The Nominating and Corporate Governance Committee will consider candidates recommended by shareholders. Shareholders wishing to suggest director candidates should submit their suggestions in writing to the Chairperson of the Nominating and Corporate Governance Committee, c/o the Corporate Secretary of Eden Bioscience Corporation at 11618 North Creek Parkway N., Bothell, WA 98011-8201, providing the candidate's name, biographical data and other relevant information.

Shareholders who intend to nominate a director for election at the 2007 annual meeting of shareholders must provide advance written notice of such nomination to the Corporate Secretary of Eden Bioscience in the manner described below under Shareholder Proposals for 2007 Annual Meeting.

The Nominating and Corporate Governance Committee has recommended to the Board of Directors, and the Board of Directors has adopted, Director Selection Guidelines set out in Exhibit A to the Nominating and Corporate Governance Committee Charter. In accordance with the Director Selection Guidelines, the Nominating and Corporate Governance Committee and the Board of Directors, as appropriate, will review the following considerations, among others, in their evaluation of candidates for Board of Directors nomination:

leadership qualities; and

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Edgar Filing: EDEN BIOSCIENCE CORP - Form DEF 14A

Section 16(a) of the Securities Exchange Act of 1934 requires Eden Bioscience's officers, directors and persons who own more than 10% of a registered class of Eden Bioscience's equity securities to file reports of ownership and changes in ownership with the SEC. Officers, directors and greater-than-10% shareholders are required by SEC regulation to furnish Eden Bioscience with copies of all Section 16(a) forms they file.

Based solely on its review of the copies of such forms it received, or written representations from certain reporting persons that no forms were required for those persons, Eden Bioscience believes that during 2005 all of its officers, directors and greater-than-10% beneficial owners complied with all applicable filing requirements of Section 16(a).

All options were granted at exercise prices equal to the fair market value of our common stock on the dates of grant.

Aggregated Option Exercises in Last Fiscal Year and Fiscal Year-End Option Values

Edgar Filing: EDEN BIOSCIENCE CORP - Form DEF 14A

No stock options were exercised by the Named Executive Officers during the year ended December 31, 2005. The following table sets forth information regarding unexercised stock options held by Named Executive Officers as of December 31, 2005.

Name	Number of Securities Underlying Unexercised Options at Fiscal Year End (#)		Value of Unexercised In-the-Money Options at Fiscal Year End (\$) (1)	
	Exercisable	Unexercisable	Exercisable	Unexercisable
Rhett R. Atkins	375,000	125,000	\$	\$

The per-share closing price at year-end is not necessarily indicative of future price performance. An option is in-the-money if the fair market value of the underlying shares exceeds the exercise price of the option.

Employment Contracts, Termination of Employment and Change-in-Control Arrangements

Mr. Powell's Employment Agreement

Pursuant to an agreement we entered into with Mr. Powell in January 2002, if Mr. Powell's employment is terminated by Eden Bioscience without cause, as defined in the agreement, he will receive severance payments equal to six months annual base salary.

Change-in-Control Agreements

In August 2000, we entered into change-in-control agreements with Mr. Powell and Dr. Wei. The agreements for Mr. Powell and Dr. Wei provide that, upon a change in control, we would continue to employ them, and they would remain in our employ, for a period of two years following a change in control. During that time, the agreements each provide that the position, authority, duties and responsibilities of the executives would be substantially the same as they were during the 90-day period prior to the change in control, and that their annual base salaries would be at least equal to their annual base salaries established by our Board of Directors prior to the change in control.

If, during this two-year period, the employment of the executives is terminated by us other than for cause, as defined in the agreements, or by the executives for good reason, as defined in the agreements, the terminated executive would be entitled to receive:

his annual base salary, and pro rata annual bonus, through the date of termination, and any deferred compensation; and

a severance payment equal to twice the sum of his annual base salary and the average of his past three annual bonuses.

In addition, the terminated executive's unvested options would accelerate and become fully vested and exercisable. If the executive's employment is terminated by us for cause or by the executives without good reason, the terminated executive will receive only the amount of his annual base salary and other deferred compensation then due.

Mr. Powell's and Dr. Wei's change-in-control agreements each provide that the executive is subject to noncompetition and noninterference provisions during his employment and for 18 months thereafter, to a customary inventions assignment provision during his employment and for three years thereafter and to a customary confidentiality provision at all times during and after his employment.

Amended and Restated 2000 Stock Incentive Plan

In the event of certain corporate transactions, such as a merger or sale of all or substantially all of the assets of Eden Bioscience, except as otherwise provided in the instrument evidencing the stock option, each outstanding stock option will be assumed or replaced with a comparable award by the successor corporation or parent thereof. If the successor corporation will not assume or replace the stock options, the stock options will automatically accelerate and become 100% vested and exercisable immediately before the corporate transaction. All stock options will terminate and cease to remain outstanding immediately following a corporate transaction, except to the extent assumed by the successor corporation. Except as otherwise provided in the instrument evidencing the award, to the extent that stock options accelerate due to a corporate transaction, the restrictions on restricted stock awards also will lapse.

If awards are assumed or replaced in a corporate transaction, such awards will become fully vested and exercisable (and any forfeiture or repurchase rights applicable to restricted stock awards will lapse) if a participant's employment or services are terminated in contemplation of the corporate transaction or within three years following the corporate transaction, unless employment or services are terminated for cause or the participant terminates employment or services without good reason.

14

1995 Combined Incentive and Nonqualified Stock Option Plan

In a stock-for-stock transaction involving a merger, consolidation, acquisition of property or stock for reorganization, the Board of Directors and a successor corporation may determine that all outstanding options under our 1995 Combined Incentive and Nonqualified Stock Option Plan (the 1995 Plan) will be converted into options to purchase shares of the successor corporation. If options are not assumed in a transaction, outstanding options will become fully vested and exercisable immediately before the transaction and will terminate upon the effectiveness of the transaction. Except as otherwise provided in the instrument evidencing the option, if options are converted into options to purchase stock of the successor corporation, such options will become fully vested and exercisable if an individual's services are terminated in contemplation of the transaction or within three years of such transaction, unless services are terminated for cause or the individual terminates services without good reason. Effective on the date of our initial public offering, no additional options will be granted under our 1995 Plan.

Report on Executive Compensation by the Compensation Committee

The Compensation Committee has furnished the following report on executive compensation. The Compensation Committee, which is composed of three non-employee, independent directors, establishes and reviews all compensation and benefits of our executive officers, considers incentive compensation plans for our employees and carries out duties assigned to the committee under our stock option plans and our employee stock purchase plan. The Compensation Committee has the authority to retain and terminate compensation consulting firms, including authority to approve the firm's fees and other retention terms.

Compensation Policies

Our compensation policies for executive officers are based on the belief that the interests of executives should be closely aligned with those of our shareholders. We believe that this will encourage the creation of additional shareholder value. The compensation policies are designed to achieve the following objectives:

offer compensation opportunities that attract highly qualified executives, reward outstanding initiative and achievement, and retain the leadership and skills necessary to build long-term shareholder value;

maintain a significant portion of our executives' total compensation at risk, tied to both the annual and long-term financial performance of Eden Bioscience; and

further our short- and long-term strategic goals and values by aligning compensation with business objectives and individual performance.

Compensation Program

Our executive compensation program has three major integrated components: base salary, annual incentive awards and long-term incentives. We emphasize the award of stock options as long-term incentives to executive officers.

Edgar Filing: EDEN BIOSCIENCE CORP - Form DEF 14A

Base Salary. Base salary levels are determined annually by reviewing an individual executive's skills, performance level and contribution to the business. Our Named Executive Officers voluntarily reduced their annual base salaries for 2004 in order to reduce expenses and conserve cash.

Annual Incentive Awards. Annual cash bonus awards are based on an assessment by the Board of Directors of an individual executive's performance and of the achievement of corporate objectives, among which include the following:

achievement of planned revenue targets;

management of expenditures to levels established in the annual budget;

15

progress toward development of product extensions and new products that utilize natural plant systems; and

progress toward development of new markets for our current products and possible future products.

Based on these goals, one of the Named Executive Officers, Bradley S. Powell, received a \$20,000 annual cash bonus in 2005 for reduction of current and future expenditures.

Long-Term Incentives. The Compensation Committee views stock options as an important part of its long-term, performance-based compensation program. The committee believes that stock ownership is an excellent vehicle for compensating its officers and employees. We provide long-term incentives through our stock option plans. The purpose of the plans is to create a direct link between executive compensation and increases in shareholder value. Stock options are granted at fair market value and vest in installments generally over three to five years. Thus, the value of the shareholders' investment must appreciate before the optionee receives any financial benefit. Additionally, the employee must remain in our employ for the period required for the stock option to be exercisable, thus providing an incentive to remain in our employ. When determining option awards for an executive officer, the committee considers the executive's current contribution to company performance, the anticipated contribution to meeting our long-term strategic performance goals, and industry practices and norms. Long-term incentives granted in prior years and existing levels of stock ownership are also taken into consideration. Typically, options are granted on hire date and periodically thereafter.

Chief Executive Officer Compensation.

Dr. Atkins' base salary level is determined annually by reviewing skills, performance level and contribution to the business. Dr. Atkins' base salary for 2005 was \$174,819, which is \$8,000 more than his base salary for 2004. We did not meet our revenue target in 2005 and Dr. Atkins did not receive an annual cash bonus or stock option grant for 2005.

162 Limitation.

Section 162(m) of the Internal Revenue Code limits the tax deductibility by a corporation of compensation in excess of \$1 million paid to the chief executive officer and any other of its four most highly compensated executive officers. However, compensation that qualifies as performance-based is excluded from the \$1 million limit if, among other requirements, the compensation is payable only upon attainment of pre-established, objective performance goals under a plan approved by shareholders. The Compensation Committee does not presently expect total cash compensation payable for salaries and bonuses to exceed the \$1 million limit for any individual executive. The stock option plans are designed to qualify for the performance-based exemption.

REPORT OF THE AUDIT COMMITTEE

The members of the Audit Committee are independent under SEC rules and Nasdaq listing standards. The Board of Directors adopted a written Audit Committee Charter, which is available in the Investor Information section of Eden Bioscience's web site at www.edenbio.com.

In fulfilling its oversight responsibilities, the Audit Committee met and held discussions with management and the independent registered public accounting firm. The Audit Committee also met separately with the independent registered public accounting firm. Management represented to the Audit Committee that Eden Bioscience's audited financial statements for the fiscal year ended December 31, 2005 were prepared in accordance with U.S. generally accepted accounting principles. The Audit Committee reviewed and discussed with management and the independent registered public accounting firm the audited financial statements for the 2005 fiscal year.

The Audit Committee also discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. In addition, the Audit Committee has received from the independent registered public accounting firm the written disclosures and the letter required by Independence Standards Board Standard No. 1, and discussed with the independent registered public accounting firm their independence relating to Eden Bioscience. In accordance with the Sarbanes-Oxley Act of 2002, the Audit Committee pre-approves all audit and non-audit services performed by the independent auditors.

Based on the Audit Committee's review and discussions of the matters referred to above, the Audit Committee recommended to the Board of Directors, and the Board of Directors has approved, that the audited financial statements be included in Eden Bioscience's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 for filing with the Securities and Exchange Commission.
