COMPANY PROFILE

China Southern Airlines Company Limited (the "Company") together with its subsidiaries (collectively, the "Group") is one of the largest airlines in the People's Republic of China ("China" or "the PRC"). In 2003, the Group continued to rank first among all Chinese airlines in terms of volume of passenger traffic, number of scheduled flights per week, number of hours flown, number of routes and size of aircraft fleet.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

As of the year end of 2003, the Group operated 334 routes, of which 274 were domestic, 42 were international and 18 were Hong Kong regional. The Group operates the most extensive domestic route network among all Chinese airlines. In 2003, the Group operated an average of 4,118 landings and take-offs per week serving 94 destinations. Most of these cities served by the Group are located in commercial centres or rapidly developing economic regions in China. The Group's headquarters is located in Guangzhou, one of the gateway cities of China. Located in the rapidly developing Pearl River Delta region, Guangzhou is the transportation hub of Southern China.

In addition to its main route base in Guangzhou, the Group maintains 12 regional route bases in Zhengzhou, Wuhan, Changsha, Shenzhen, Haikou, Zhuhai, Xiamen, Fuzhou, Guilin, Shantou, Guiyang and Beihai. Most of its regional route bases are located in provincial capitals or major commercial centres in the PRC.

The Group operates a portion of its air transportation business through its subsidiaries, namely Xiamen Airlines Company Limited ("Xiamen Airlines"), Southern Airlines Group Shantou Airlines Company Limited, Guangxi Airlines Company Limited, Zhuhai Airlines Company Limited and Guizhou Airlines Company Limited (collectively, the "Airline Subsidiaries"). Each of the Airline Subsidiaries is 60%-owned by the Company.

As of 31 December, 2003, the Group operated a fleet of 132 aircraft, consisting primarily of Boeing 737-300, 737-500, 737-700, 737-800, 747-400, 757-200, 777-200, Airbus 320-200 and 319-100 aircraft. The average age of the Group's fleet was 7.82 years as of the year end of 2003.

CHAIRMAN'S STATEMENT

[PHOTO OF YAN ZHI QING]
Chairman

Dear Shareholders,

2003 was a year filled with difficult challenges for us. The outbreak of Severe Acute Respiratory Syndrome ("SARS") during 2003 in China and other parts of Asia caused an unprecedented adverse impact to our business. Nevertheless, the Group and our staff did not succumb to these difficult circumstances. With the recovery of the economy after the SARS epidemic was brought under control, together with the support of the government through implementation of a series of related policies, we once again were given the opportunities for development and achieved satisfactory performance in terms of safety and services quality.

During the first half of 2003, the Group encountered the most severe challenge due to the outbreak of SARS. The Group's air passenger business was severely Chairman affected as a result and recorded a significant drop in the number of passengers carried and passenger load factor for the period from April to June 2003, as compared to the corresponding period of the previous year. In terms of revenue tonne kilometres, there was a decrease of 40%, 83.5% and 61.5% respectively in April, May and June comparing to the corresponding period of the previous year. To minimise the negative impact of SARS, the Group took various timely measures to adjust its operating capacity, including reduction in the number of flights and suspension of certain routes to cope with the sharp decrease in demand for air transport caused by SARS. In addition, we also minimised controllable expenses through strictly controlling expenses to offset part of the negative impact.

In order to alleviate the operational pressure on the PRC's civil aviation industry caused by the SARS epidemic, the PRC government waived the levies of China Aviation Administration of China ("CAAC") Infrastructure Development Fund, sales tax and related supplementary charges for passenger transportation business for the period from 1 May to 31 December, 2003. These measures have significantly boosted the recovery of the Group's business.

While the Group was dealing with the challenges brought by the SARS epidemic, we continued to enhance the standards of our safety and services. As a result, we once again received the Golden Roc Cup, the highest award for flight safety in the civil aviation industry, and won the Five-star Diamond Award for flight services. These awards demonstrated the excellent performance of our colleagues in their effort to improve the standards of our safety and services.

In July 2003, the Group successfully issued 1,000,000,000 A Shares in the domestic market for listing and raised an aggregate proceeds of RMB2,700,000,000. Such proceeds have been applied to acquire the new model of Boeing 737 series and related flight equipment. The successful offering of A Shares was crucial to the realisation of our business goal, as it marked the entry of the Company into the PRC capital market. The successful fund raising exercise provides the Group with additional capital resources for future development, improves the Group's assets quality and strengthens its operating capacity, which in turn provides a solid foundation for the Group to compete efficiently in the ever increasingly competitive civil aviation market.

CHAIRMAN'S STATEMENT (Cont'd)

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

[PHOTO]

The injection of the airline transportation businesses of China Northern Airlines Company and Xinjiang Airlines Company into the Group by China Southern Air Holding Company ("CSAHC"), the controlling shareholder of the Company, is progressing as scheduled. Since 1 January, 2003, the three airlines have implemented a code sharing arrangement, whereby the flight code of CZ is used for the flights of the three airlines. The preparatory work for business integration and assets restructuring is making good progress. The proposed restructuring will provide the Group with opportunities for expanding its flight networks and enlarging its market share in the civil aviation industry.

[PHOTO]

In view of global and domestic economic development, we believe that there will be robust growth in the airlines market in the coming year. The global economy has shown a visible recovery in a new cycle of economic growth, which will stimulate rapid development of the global air transport business. China's macro economic development in 2004 will also help to maintain the growth momentum of China in its economic cycle. The direction and guidelines of the Government in economic development represent the principles of scientific development, pursuant to which China's economy will see integral, harmonious and sustainable growth whilst maintaining a stable and rapid pace of development. The stably increasing consumption will gradually replace the previously substantial investments as a stimulant to economic growth. China's air transportation industry has regained growth on all fronts after the SARS outbreak and the overall growth trend will gain further momentum in the coming year. The Group, as a major player in the PRC airlines market, will make its contributions to the growth of the domestic economy. Meanwhile, the implementation of the Closer Economic Partnership Arrangement between mainland China, Hong Kong and Macau, and the State policies on the overall development of the Western region and the revitalisation of the old industrial base of Northeast China will provide a perfect opportunity for the business growth of the Group.

[PHOTO]

With the approval of the State Council, the "Pricing Reform Plan for the Domestic Civil Aviation Industry" was adopted on 20 April, 2004. Pursuant to this Pricing Reform Plan, the pricing guidelines formulated by the government will be applied to the domestic air transport industry. Direct control by governmental pricing authorities over airfares for different flight routes will be changed to indirect control through the setting of basic rates and price ranges for air transport by such governmental pricing authorities. China's airlines will be able to determine their own airfares within the price ranges set by the governmental pricing authorities based on the changes in supply and demand of the market, and will adopt more flexible sales policies with an objective of maximising economic benefits. It is expected that as the reform in China's civil aviation industry continues to intensify, airline operators will gain a greater level of autonomy in managing their own business operations, and the Group will be able to achieve further business growth through fair and positive competition in a gradually regulated and orderly market.

CHAIRMAN'S STATEMENT (Cont'd)

On the other hand, recent political instability in the Middle East and other uncertainties continue to hamper global economic growth. The continuing high jet fuel price is also a factor unfavorable to the growth of the air transport industry.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Challenges come with opportunities. In this year, the Group will continue to ensure a high standard of safety in our service and expedite its progress in the restructuring of the airline-related businesses with CSAHC. The Group will further strengthen its market competitiveness and strive to maintain and increase its market share. The Group will strive to achieve the above objectives through the following measures:

1. In the middle of the year, the Group will be able to enhance its operating capacity, route coverage and flight networks after the official opening of the Guangzhou New Airport and the commencement of operation of terminal No. 1 in the Beijing Capital International Airport leased by the Group.
2. Consistent with the business policies that emphasise development in the domestic market and expansion into overseas market for further growth, the Group will build domestic transportation hubs, optimise its flight networks in China and at the same time, actively explore overseas and regional markets. We will increase our overseas market share by opening new routes including flights from Guangzhou to Paris and adjusting our international cargo flights during the year.
3. We will further promote the "China Southern" brand name and enhance brand value in terms of "Reliability, Punctuality and Convenience".
4. The Group's cargo operation will be advanced to a higher standard upon the commencement of operation of the Guangzhou New Airport and its new cargo transportation centre.
5. We will continue to strengthen our financial management and tighten cost controls.

Looking back on 2003, we and our counterparts in the air transport industry had been striving for growth and meeting challenges amid difficult market conditions. On behalf of the board, I would like to express our gratitude to our management and staff. If not for their team spirit and dedication, China Southern Airlines would not have managed to overcome these unprecedented difficulties. We are particularly grateful to our front line staff who have shown their professional attitude and devotion by bravely and diligently performing their duties in the dangerous situation during the SARS outbreak. Finally, I would like to express our sincere gratitude to our shareholders for their continuous trust and support.

The following discussion and analysis should be read in conjunction with the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

financial statements of the Group prepared under IFRS as set out in pages 39 to 98. The Group also prepares financial statements in accordance with PRC Accounting Rules and Regulations as set out in pages 99 to 182. IFRS differs in certain material respects from accounting principles generally accepted in the United States of America ("U.S. GAAP") and PRC Accounting Rules and Regulations. For a discussion of the material differences between IFRS, U.S. GAAP and PRC Accounting Rules and Regulations relating to the Group, see supplementary information on pages 183 to 188 of this Annual Report.

OVERVIEW

In 2003, the Group encountered the most unprecedented challenges and difficulties. The outbreak of the SARS earlier this year severely hit the PRC aviation industry. From April to June 2003, the Group's passenger volume and passenger load factor dropped which caused the revenue passenger kilometres ("RPK") for April, May and June of 2003 to fall by 40%, 83.5% and 61.5% respectively, as compared to the same period in 2002. In order to minimise the negative impact of SARS, the Group implemented various measures to adjust its operating capacity, for example by reducing the number of flights and suspending certain routes, in response to the reduced air traffic demand caused by the negative impact of SARS. The SARS was effectively under control in the PRC in July 2003 and the domestic market started to recover in the third quarter of 2003. The Group gradually resumed all its suspended flights since July 2003.

In order to alleviate the financial pressure suffered by the PRC civil aviation industry as a result of the SARS epidemic, the PRC government waived the levies of the CAAC Infrastructure Development Fund, sales tax and related supplementary taxes on passenger revenue payable by the PRC airlines, during the period from 1 May, 2003 to 31 December, 2003.

Besides, the political tension in the Middle East, in particular the Iraq war in March 2003, led to a surge in oil prices which in turn caused an increase in the Group's jet fuel cost.

The Group conducts a portion of its airline operations through the Airline Subsidiaries. Operating results for the Airline Subsidiaries are included in each of the years presented in the consolidated financial statements. The Airline Subsidiaries, which derive substantially all of their operating revenue from passenger traffic, accounted for 26.8% and 28.8% of the Group's total operating revenue, and 34.5% and 38.7% of the Group's total passengers carried, in 2002 and 2003, respectively. Xiamen Airlines is the largest member of the Airline Subsidiaries, with operating revenue of RMB3,278 million and RMB3,460 million in 2002 and 2003, respectively, or 18.2% and 19.8% of the Group's total operating revenue.

10 CHINA SOUTHERN AIRLINES COMPANY LIMITED 2003 ANNUAL REPORT [LOGO]

MANAGEMENT DISCUSSION AND ANALYSIS (Cont'd)

[PHOTO]

The Group's operating revenue is substantially dependent on the passenger and cargo traffic volume carried, which is subject to seasonal and other changes in traffic patterns, the availability of appropriate time slots for the Group's flights and alternative routes, the degree of competition from other airlines and alternate means of transportation, as well as other factors that may influence passenger travel demand and cargo and mail volume. In particular, the Group's airline revenue is generally higher in the second and third quarters than in the first and fourth quarters.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

[PHOTO]

Like most airlines, the Group is subject to a high degree of financial and operating leverage. A significant percentage of the Group's operating expenses is fixed costs that do not vary proportionally based on the Group's yields or the load factors. These fixed costs include depreciation expense, jet fuel costs, landing and navigation fees, financing costs, operating lease payments, aircraft maintenance costs and labour for flight crew, cabin crew and ground personnel. Thus, a minor change in the Group's yields or load factors would have a material effect on the Group's results of operations. In addition, certain of these expenses, primarily financing costs and operating lease payments, labour costs and depreciation do not vary based on the number of flights flown. Thus, the Group's operating results can also be substantially affected by minor changes in aircraft utilisation rates. The Group is and will continue to be highly leveraged with substantial obligations denominated in foreign currencies and, accordingly, the results of its operations are significantly affected by fluctuations in foreign exchange rates, particularly for the U.S. dollar and the Japanese yen. The Group recognised a net exchange loss of RMB175 million and RMB164 million in 2002 and 2003, respectively. These amounts represented mainly unrealised exchange differences resulting from the retranslation of the foreign currency borrowings as of the years ended 2002 and 2003.

A number of other external variables, including political and economic conditions in China, tend to have a major impact on the Group's performance. The Group's financial performance is also significantly affected by factors arising from operating in a regulated industry. As substantially all aspects of the Group's airline operations are regulated by the PRC government, the Group's operating revenues and expenses are directly affected by the PRC government's policies with respect to domestic airfares, jet fuel prices and landing and navigation fees, among others. The nature and extent of airline competition and the ability of Chinese airlines to expand are also affected by CAAC's control over route allocations. Any changes in the PRC government's regulatory policies, or any implementation of such policies could have a significant impact on the Group's future operations and its ability to implement its operating strategy.

2003 COMPARED WITH 2002

The Group recorded a net loss of RMB358 million for 2003, as compared to a net profit of RMB576 million for 2002. The Group's operating revenue decreased by RMB549 million or 3.0% from RMB18,019 million in 2002 to RMB17,470 million in 2003. Passenger load factor decreased by 0.8 percentage point from 65.4% in 2002 to 64.6% in 2003. Passenger yield (in passenger revenue per RPK) increased by 5.6% from RMB0.54 in 2002 to RMB 0.57 in 2003. Average yield (in traffic revenue per RTK) decreased by 1.7% from RMB4.84 in 2002 to RMB4.76 in 2003. Operating expenses increased by RMB1,021 million or 6.4% from RMB15,993 million in 2002 to RMB17,014 million in 2003. As operating revenue decreased while operating expenses increased, operating profit decreased by 77.5% from RMB2,026 million in 2002 to RMB456 million in 2003. The Group's net non-operating expenses increased by 9.1%, from RMB887 million in 2002 to RMB967 million in 2003, mainly due to a decrease in gain on disposal of fixed assets of RMB193 million, partly offset by a decrease in interest expense of RMB135 million. Overall, the Group recorded a net loss of RMB358 million in 2003, as compared to a net profit of RMB576 million in 2002.

OPERATING REVENUE

Substantially all of the Group's operating revenue is attributable to airline operations. Traffic revenue in 2003 and 2002 accounted for 97.1% and 97.0% respectively of total operating revenue. Passenger revenue and, cargo and mail revenue accounted for 88.5% and 11.5% respectively of total traffic revenue in 2003. The balance of the Group's operating revenue is derived from commission income, income from general aviation operations, fees charged for ground services and for air catering services and net income from lease arrangements.

MANAGEMENT DISCUSSION AND ANALYSIS (Cont'd)

Operating revenue decreased by 3.0% from RMB18,019 million in 2002 to RMB17,470 million in 2003. This decrease was primarily due to a 4.4% fall in passenger revenue from RMB15,696 million in 2002 to RMB15,010 million in 2003 resulting from lower traffic volume caused by SARS. The total number of passengers carried decreased by 4.8% to 20.5 million passengers in 2003. RPKs decreased by 8.8% from 28,940 million in 2002 to 26,387 million in 2003, primarily as a result of a decrease in passengers carried. However, passenger yield increased by 5.6% from RMB0.54 in 2002 to RMB0.57 in 2003, mainly as the result of the exemption of CAAC Infrastructure Development Fund and sales tax during the period from 1 May, 2003 to 31 December, 2003.

Domestic passenger revenue, which accounted for 81.6% of the total passenger revenue in 2003, increased slightly by 0.1% from RMB12,234 million in 2002 to

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

RMB12,242 million in 2003. Domestic passenger traffic in RPKs decreased by 3.6%, mainly due to a decrease in passengers carried. Passenger yield, however, increased from RMB0.55 in 2002 to RMB0.57 in 2003, mainly as the result of the aforesaid exemption of CAAC Infrastructure Development Fund and sales tax.

Hong Kong passenger revenue, which accounted for 5.0% of total passenger revenue, decreased by 28.9% from RMB1,055 million in 2002 to RMB750 million in 2003. For Hong Kong flights, passenger traffic in RPKs decreased by 28.0%, while passenger capacity in ASKs decreased by 22.9%, resulting in a 4.1 percentage point decrease in passenger load factor from 2002. Passenger yield decreased from RMB0.98 in 2002 to RMB0.96 in 2003 mainly due to slack in traffic volume.

International passenger revenue, which accounted for 13.4% of total passenger revenue, decreased by 16.2% from RMB2,407 million in 2002 to RMB2,018 million in 2003. For international flights, passenger traffic in RPKs decreased by 25.2%, while passenger capacity in ASKs decreased by 20.8%, resulting in a 3.6 percentage point fall in passenger load factor from 2002. Passenger yield increased by 11.9% from RMB0.42 in 2002 to RMB0.47 in 2003 mainly as the result of the aforesaid exemption of CAAC Infrastructure Development Fund and sales tax.

Cargo and mail revenue, which accounted for 11.5% of the Group's total traffic revenue and 11.1% of total operating revenue, increased by 9.5% from RMB1,786 million in 2002 to RMB1,955 million in 2003. The increase was primarily due to the full year effect of the opening of two international cargo routes to Los Angeles of the United States of America and Leige of Belgium in late 2002.

Other operating revenue decreased by 6.0% from RMB537 million in 2002 to RMB505 million in 2003. The decrease was primarily due to a decrease in aircraft short-term lease income of RMB46 million.

OPERATING EXPENSES

Substantially all of the Group's operating expenses result from its airline operations. The vast majority of such expenses relate directly to flight operations, aircraft and traffic servicing, aircraft repair and maintenance and to depreciation and amortisation in respect of aircraft and flight equipment. Expenses associated directly with the Group's flight operations (collectively, "flight operations expenses") include fuel costs, operating lease payments, catering expenses, aircraft insurance, flight personnel payroll and welfare and training expenses. Expenses associated directly with repairs and maintenance in respect of the Group's aircraft (collectively, "repairs and maintenance expenses") include repairs and maintenance and overhaul charges, the costs of consumables and other maintenance materials and labour costs for maintenance personnel. Expenses associated directly with the Group's aircraft and traffic servicing operations (collectively "aircraft and traffic servicing expenses") include landing and navigation fees, rental payments and charges in respect of terminal and other ground facilities and labour costs for ground personnel. The balance of the Group's operating expenses result from promotional and marketing activities

(collectively, "promotional and marketing expenses") such as sales commissions, fees for use of the CAAC's reservation system, ticket-printing and sales office expenses, advertising and promotional expenses, and from general and administrative expenses, such as administrative salaries and welfare and other personnel benefits and office expenses.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Total operating expenses in 2003 amounted to RMB17,014 million, representing an increase of 6.4% or RMB1,021 million over 2002, primarily due to the combined effect of increases in jet fuel costs, maintenance expenses and aircraft and traffic servicing expenses. Total operating expenses as a percentage of total operating revenue increased from 88.8% in 2002 to 97.4% in 2003.

Flight operations expenses, which accounted for 41.6% of total operating expenses, increased by 5.0% from RMB6,733 million in 2002 to RMB7,070 million in 2003, primarily as a result of increases in jet fuel costs and operating lease payments, partly offset by a decrease in catering expenses. Jet fuel costs, which accounted for 54.7% of flight operations expenses, increased by 9.9% from RMB3,519 million in 2002 to RMB3,867 million in 2003 mainly as a result of increased jet fuel prices. Operating lease payments increased by 8.4% from RMB1,417 million in 2002 to RMB1,536 million in 2003, primarily due to the full year effect of the addition of new operating leases in respect four Boeing 757-200 aircraft in late 2002 and four Airbus 319-100 aircraft and three Boeing 737-700 aircraft during 2003. Catering expenses decreased by 18.4% from RMB625 million in 2002 to RMB510 million in 2003, primarily reflecting a tighter cost controls exercised by the Group. Aircraft insurance costs decreased by 23.4% from RMB256 million in 2002 to RMB196 million in 2003, primarily because of a reduction in the rate of aircraft insurance premiums prescribed by the PRC insurance company. Labour costs for flight personnel decreased by 6.8% from RMB781 million in 2002 to RMB728 million in 2003, largely due to a decrease in flight hours.

Maintenance expenses which accounted for 15.2% of total operating expenses, increased by 11.0% from RMB2,333 million in 2002 to RMB2,589 million in 2003. The increase was primarily attributable to an 11.3% increase in aircraft maintenance and repair charges from RMB2,135 million in 2002 to RMB2,377 million in 2003, mainly as the result of the effect of fleet expansion in recent years.

Aircraft and traffic servicing expenses, which accounted for 16.3% of total operating expenses, increased by 10.2% from RMB2,511 million in 2002 to RMB2,767 million in 2003. The increase primarily resulted from an 8.9% rise in landing and navigation fees from RMB2,354 million in 2002 to RMB2,563 million in 2003, due to an increase in the charge rate for domestic landing and navigation fees effective September 2002.

Promotional and marketing expenses, which accounted for 8.7% of total operating expenses, decreased by 1.3% from RMB1,500 million in 2002 to RMB1,480 million in 2003. The decrease was due to 9.3% decrease in labour costs from RMB248 million in 2002 to RMB225 million in 2003, as fewer bonuses were given because of reduced sales volume in 2003.

General and administrative expenses, which accounted for 6.2% of the total operating expenses, decreased slightly by 0.7% from RMB1,060 million in 2002 to RMB1,053 million in 2003. This was mainly due to a decrease in scale of operations during SARS period.

Depreciation and amortisation, which accounted for 12.0% of total operating expenses, increased by 10.8% from RMB1,840 million in 2002 to RMB2,038 million in 2003. This increase was primarily as a result of the additions of aircraft during 2003.

MANAGEMENT DISCUSSION AND ANALYSIS (Cont'd)

OPERATING PROFIT

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Operating profit decreased by 77.5% from RMB2,026 million in 2002 to RMB456 million in 2003. This was mainly because operating revenue decreased by RMB549 million or 3.0% from 2002 while operating expenses increased by RMB1,021 million or 6.4% over the same period.

NON-OPERATING INCOME/(EXPENSES)

Interest expense decreased by 14.1% from RMB959 million in 2002 to RMB824 million in 2003, mainly reflecting the combined effect of scheduled debt repayments and the replacement of certain RMB denominated bank loans with US\$ denominated bank loans with lower interest rates.

Interest income decreased by 75.2% from RMB53 million in 2002 to RMB13 million in 2003. This was mainly attributable to a decrease in average cash balances.

The Group recorded a net loss on sale of fixed assets of RMB22 million in 2003, mainly resulting from retirement of two old Boeing 737-200 aircraft.

During 2003, the Group recorded a net exchange loss of RMB164 million predominantly due to its Japanese yen denominated borrowings as a result of the Japanese yen appreciation. Such amount comprised mostly unrealised translation loss.

TAXATION

On 17 October, 2003, the Company's registered address was moved to Guangzhou Economic & Technology Development Zone. In accordance with the Rules and Regulations for Implementation of Income Tax for Foreign Investment Enterprises and Foreign Enterprises of the PRC and a taxation approval document "Guangzhou Municipal State Tax Bureau Suo De Shui Zi Que 020043", the Company is entitled to enjoy the preferential tax policy implemented in the Guangzhou Economic & Technology Development Zone effective from 1 October, 2003. As a result, the Company's income tax rate has been changed to 15% from 33% beginning from that date.

The Group recorded an income tax credit of RMB324 million for 2003 compared to an income tax expense of RMB398 million for 2002. As a result of the reduction in income tax rate, the Company's net deferred taxation liability balance brought forward from 31 December, 2002 of RMB507 million was reduced by RMB392 million and a net deferred tax credit of RMB392 million was recognised in 2003 for such reduction in income tax rate accordingly.

MINORITY INTERESTS

Minority interests increased by 3.6% from RMB165 million in 2002 to RMB171 million in 2003, primarily reflecting the net profits earned by certain of the Group's airline subsidiaries for the year.

MANAGEMENT DISCUSSION AND ANALYSIS (Cont'd)

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

As at 31 December, 2003, the Group's borrowings totalled RMB18,460 million, representing a decrease of RMB815 million from RMB19,275 million last year. Such borrowings were denominated, to a larger extent, in United States dollars and, to a smaller extent, in Japanese yen and Renminbi, with a significant portion being fixed interest rate borrowings. Of such borrowings, RMB8,395 million,

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

RMB1,716 million, RMB1,601 million, RMB1,660 million and RMB5,088 million will be repayable in 2004, 2005, 2006, 2007, 2008 and thereafter respectively. As at 31 December, 2003, cash and cash equivalents of the Group totalling RMB2,080 million, of which 22.2% were denominated in foreign currencies, decreased by 44.8% from RMB3,771 million last year. Net debts (total borrowings net of cash and cash equivalents) increased by 5.7% to RMB16,380 million.

As at 31 December, 2003, the Group's shareholders' equity amounted to RMB11,896 million, representing an increase of RMB2,283 million from RMB9,613 million last year. The increase was mainly due to the issuance of 1,000,000,000 A shares with an issue price of RMB2.70 per share by way of public offering in July 2003 in the PRC.

Net debt/equity ratio of the Group at 31 December, 2003 was 1.38 times, as compared to 1.61 times last year.

FINANCIAL RISK MANAGEMENT POLICY

In the normal course of business, the Group is exposed to fluctuations in foreign currencies and jet fuel prices. The Group's exposure to foreign currencies was as a result of its debt which are denominated in foreign currencies. Depreciation or appreciation of the RMB against foreign currencies affects the Group's results significantly because the Group's foreign currency payments generally exceed its foreign currency receipts. The Group is not able to hedge its foreign currency exposure effectively other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange, or subject to certain restrictive conditions, by entering into forward foreign exchange contracts with certain authorised PRC banks.

The Group is required to procure a majority of its jet fuel consumption domestically at PRC spot market prices. There are currently no effective means available to manage the Group's exposure to the fluctuations in domestic jet fuel prices.

CHARGES ON ASSETS

As at 31 December, 2003, certain aircraft of the Group with an aggregate carrying value of approximately RMB14,576 million (2002: RMB14,783 million) were mortgaged under certain loan and lease agreements. Details of charges are set out in notes 10, 21 and 22 to the consolidated financial statements.

COMMITMENTS AND CONTINGENCIES

At December 31, 2003, the Group had capital commitments of approximately RMB13,628 million. Of such amounts, RMB10,615 million related to the acquisition of aircraft and related flight equipment and RMB2,072 million related to the Group's facilities and equipment to be constructed and installed at the Guangzhou new airport. The remaining amount of RMB941 million related to the Group's other airports and office facilities and equipment, overhaul and maintenance bases and training facilities.

WAIVER FOR ACQUISITIONS AND DISPOSALS OF AIRCRAFT

In March 2002, the Hong Kong Stock Exchange granted a waiver to allow the Company to use a new size test based on available tonne kilometres ("ATKs") to replace the normal net asset test and consideration test under Chapter 14 of the Listing Rules in respect of acquisitions and disposals of aircraft.

The Hong Kong Stock Exchange has granted the waiver on and subject to the following conditions:

1. Instead of the normal tests under Chapter 14 of the Listing Rules, the tests may be calculated by reference to the ATKs for aircraft being acquired or disposed of as compared to the Company's aggregate fleet ATKs.
2. The proposed method of calculation for the four tests will replace the net asset test and the consideration test only while the other two tests, namely, net profit and equity capital issued tests will continue to apply as set out in Chapter 14 of the Listing Rules.
3. The calculation of ATKs will be as follows: (i) fleet ATKs will be the aggregate actual ATKs for all aircraft in the Company's fleet for the last financial year as disclosed in the Company's annual report, (ii) ATKs for aircraft being disposed of will be based on actual ATKs of the aircraft for the previous two financial years; and (iii) ATKs for aircraft being acquired will be based on the historical operating data for the same type of aircraft. Where the aircraft to be acquired is a new type, the ATKs will be estimated based on other aircraft of similar size operated by the Company or the average for the Chinese civil aviation industry.

[LOGO] CHINA SOUTHERN AIRLINES COMPANY LIMITED 2003 ANNUAL REPORT 35

REPORT OF THE DIRECTORS (Cont'd)

4. The Company's ATKs figure will be disclosed in the Company's annual report and be reviewed by the Company's auditors which will report on an annual basis that the Company's ATKs are calculated correctly and consistently.
5. For the purposes of making the test as stated in paragraph 1 above, all acquisitions and disposals for the last 12 months will be aggregated, unless the acquisition or disposal has previously been reported as a notifiable transaction under these rules.
6. The thresholds for classifying a transaction as a discloseable, major or very substantial acquisition will be 30%, 50% and 100% (assuming that there are no circumstances which would make it a connected transaction or a share transaction).
7. Where the transaction is a discloseable transaction, disclosure will take the form of a press announcement complying with rule 14.14 of the Listing Rules and details of the transaction will be set out in the Company's next annual report and accounts. Where the transaction is a major transaction or a very substantial acquisition, the provisions of Chapter 14 of the Listing Rules will apply.
8. An option to acquire aircraft will not be treated as acquisition while the exercise of such an option will be treated as acquisition of aircraft.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

9. The waiver will only apply to acquisition/ disposal of aircraft, and acquisition or disposal of other types of assets by the Company will be subject to provisions under Chapter 14 of the Listing Rules.
10. The Company will disclose in its annual reports and interim reports the following information:
 - (a) Regarding future deliveries of aircraft, details of aircraft on order including the number and type; and the years in which such aircraft are scheduled to be delivered;
 - (b) The number and type of aircraft which are subject to options exercisable during a period of not less than 12 months from the end of the financial year or period to which the annual report relates; and
 - (c) Details of the waiver granted pursuant to the application.
11. The Company remains a subsidiary of the CSAHC. Should there be any change in control of the Company, the Hong Kong Stock Exchange will need to reconsider whether the waiver continues to be appropriate.

Regarding future deliveries of aircraft, details of aircraft on order and the years in which such aircraft are scheduled to be delivered, please refer to note 29 to the financial statements prepared under IFRS. One Boeing 757-200 aircraft and one Boeing 737-300 aircraft are subject to options exercisable in 2004.

REPORT OF THE SUPERVISORY COMMITTEE

Dear Shareholders,

In 2003, the members of the Supervisory Committee of the Company (the "Supervisory Committee") faithfully carried out their duties, participated in all the board meetings of the Directors, monitored the financial position of the Company and the Directors and senior administrative officers of the Company in discharge of their duties and protected the legitimate rights and interests of the Company and all the Shareholders, based on the powers bestowed upon them by the Company Law and the Company's Articles of Association and in accordance with the Working Procedures for the Supervisory Committee of China Southern Airlines Company Limited and their sense of responsibility toward all the Shareholders.

I. PARTICULARS OF THE WORK OF THE SUPERVISORY COMMITTEE

The Supervisory Committee held a meeting on 14 March, 2003 during which it reviewed and approved the 2002 Report of the Supervisory Committee and concluded that the 2002 financial statements of the Company truly reflected the financial position and operating results of the Company, and that the audit opinions prepared by KPMG and KPMG Huazhen were both objective and fair.

II. THE SUPERVISORY COMMITTEE'S INDEPENDENT OPINION:

1. The Company's policy making process and its operation were in compliance with the laws and the Company established a relatively comprehensive internal control system. The Supervisory Committee was not aware of any actions of the Directors or senior administrative officers of the Company who, in carrying out their duties, violated laws, regulations, the Articles of Association of the Company or were prejudicial to the interests of the Company.
2. The Company's financial report for 2003 gave a true and fair view of its financial positions and operating results. The unqualified opinion expressed in the auditors' reports issued by KPMG and KPMG Huazhen gave an objective and fair view.
3. The Supervisory Committee was not aware of any insider dealings or acts which impaired the Shareholders' interests or caused loss of assets of the Company in the course of acquisition or disposal of assets.
4. The Supervisory Committee was of the opinion that the use of proceeds from the offering was in accordance with the disclosure in the prospectus and such use of proceeds had not been changed.
5. The Supervisory Committee was of the opinion that the connected transactions between the Company and its connected persons were conducted at fair market value without prejudice to the interests of the Company and its medium and minority Shareholders.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

presented by the Board of Directors of the Company, and appreciates the satisfactory results in terms of enhancement of safety and service standards achieved by the management of the Company in the face of challenges and difficulties during the SARS outbreak. The Supervisory Committee will continue to closely monitor the reorganization of CSAHC in 2004, and consider that an integration of corporate culture after the reorganization is crucial to the future development. The Supervisory Committee has every confidence in the Group's prospects.

REPORT OF THE INTERNATIONAL AUDITORS

[KPMG LOGO]

TO THE SHAREHOLDERS OF CHINA SOUTHERN AIRLINES COMPANY LIMITED
(Established in the People's Republic of China with limited liability)

We have audited the financial statements on pages 40 to 98 which have been prepared in accordance with International Financial Reporting Standards promulgated by the International Accounting Standards Board.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS

The Company's directors are responsible for the preparation of financial statements which give a true and fair view. In preparing financial statements which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently, that judgements and estimates are made which are prudent and reasonable and that the reasons for any significant departure from applicable accounting standards are stated.

It is our responsibility to form an independent opinion, based on our audit, on those financial statements and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

BASIS OF OPINION

We conducted our audit in accordance with Statements of Auditing Standards issued by the Hong Kong Society of Accountants. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the Company's and the Group's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance as to whether the financial statements are free from material misstatement. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

financial statements. We believe that our audit provides a reasonable basis for our opinion.

OPINION

In our opinion, the financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December, 2003 and of the Group's loss and cash flows for the year then ended and have been properly prepared in accordance with International Financial Reporting Standards promulgated by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance.

NOTES TO THE FINANCIAL STATEMENTS
(Prepared under International Financial Reporting Standards)
(Expressed in Renminbi)

1 BACKGROUND OF THE COMPANY

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

China Southern Airlines Company Limited (the "Company") and its subsidiary companies (collectively the "Group") are principally engaged in the provision of domestic, Hong Kong regional and international passenger, cargo and mail airline services, with flights operating primarily from the Guangzhou Baiyun International Airport, which is both the main hub of the Group's route network and the location of its corporate headquarters.

The Company was established in the People's Republic of China (the "PRC", "China" or the "State") on 25 March, 1995 as a joint stock limited company as part of the reorganisation (the "Reorganisation") of the Company's holding company, China Southern Air Holding Company ("CSAHC"). CSAHC is a state-owned enterprise under the supervision of the PRC central government.

The Company's H Shares and American Depositary Shares ("ADS") (each ADS representing 50 H Shares) are listed on the Stock Exchange of Hong Kong Limited and the New York Stock Exchange, respectively since July 1997. In July 2003, the Company issued 1,000,000,000 A shares which are listed on the Shanghai Stock Exchange.

2 PRINCIPAL ACCOUNTING POLICIES

(a) STATEMENT OF COMPLIANCE

The financial statements of the Group and the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") promulgated by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance. IFRS includes International Accounting Standards ("IAS") and related interpretations.

(b) BASIS OF PREPARATION

The financial statements of the Group and the Company are prepared on the historical cost basis as modified by the revaluation of certain fixed assets. The accounting policies have been consistently applied by the Group and the Company and are consistent with those used in the previous year.

(c) BASIS OF CONSOLIDATION

The consolidated financial statements of the Group include the financial statements of the Company and all of its subsidiaries made up to 31 December each year. Subsidiaries are those enterprises controlled by the Group. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control effectively commences until the date that control effectively ceases.

NOTES TO THE FINANCIAL STATEMENTS (Cont'd)
(Prepared under International Financial Reporting Standards)
(Expressed in Renminbi)

2 PRINCIPAL ACCOUNTING POLICIES (cont'd)

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

(c) BASIS OF CONSOLIDATION (cont'd)

The results of subsidiaries are included in the consolidated profit and loss account and the share attributable to minority shareholders is deducted from or added to the consolidated profit after taxation. Losses attributable to minority shareholders of partly owned subsidiaries are accounted for based on the respective equity owned by the minority shareholders up to the amount of the capital contribution and reserves attributable to the minority shareholders. Thereafter, all further losses are assumed by the Company.

All significant intercompany balances and transactions have been eliminated on consolidation.

(d) INTEREST-BEARING BORROWINGS

Interest-bearing borrowings are recognised initially at cost, less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the profit and loss account over the period of the borrowings on an effective interest basis.

(e) INVESTMENTS

(i) Investments in subsidiaries

Investments in subsidiaries in the Company's balance sheet are stated at cost less impairment losses (refer to accounting policy n).

(ii) Investments in associated companies and jointly controlled entities

An associated company is an entity in which the Group or the Company has significant influence, but not control or joint control, over its management, including participating in the financial and operating policy decisions.

A jointly controlled entity is an entity which operates under a contractual agreement between the Group or the Company and other parties, where the contractual agreement establishes the Group or the Company and one or more of the other parties share joint control over the economic activity of the entity.

The consolidated profit and loss account includes the Group's share of the results of its associated companies and jointly controlled entities for the year. In the consolidated balance sheet, the investments in associated companies and jointly controlled entities are stated at the Group's attributable share of net assets. When the Group's share of losses exceeds the carrying amount of the associated company or jointly controlled entity, the carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred obligations in respect of the associated company or jointly controlled entity.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

(Prepared under International Financial Reporting Standards)
(Expressed in Renminbi)

2 PRINCIPAL ACCOUNTING POLICIES (cont'd)

(e) INVESTMENTS (cont'd)

The results of associated companies and jointly controlled entities are included in the Company's profit and loss account to the extent of dividends received and receivable, providing such dividends are in respect of a period ending on or before that of the Company and the Company's right to receive the dividend is established before 31 December each year. In the Company's balance sheet, investments in associated companies and jointly controlled entities are stated at cost, less impairment losses (refer to accounting policy n).

(iii) Other investments

Other investments are stated at cost less impairment losses (refer to accounting policy n). Other investments represent unquoted available-for-sale equity securities of companies established in the PRC. There is no quoted market price for such equity securities and accordingly a reasonable estimate of the fair value could not be made without incurring excessive costs.

(f) FIXED ASSETS AND DEPRECIATION

Fixed assets are stated at cost or revalued amount less accumulated depreciation and impairment losses (refer to accounting policy n). Revaluations are performed periodically to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date.

Depreciation is provided to write off the cost, or revalued amount where appropriate, of the fixed assets over their estimated useful lives on a straight line basis, after taking into account their estimated residual values, as follows:

	DEPRECIABLE LIFE	RESIDUAL VALUE
Buildings	15 to 40 years	Nil
Owned & leased aircraft	8 to 15 years	28.75%
Other flight equipment		
- Jet engines	8 to 15 years	3%
- Others, including rotatable spares	8 to 15 years	Nil
Machinery and equipment	5 to 10 years	3%
Vehicles	6 years	3%

No depreciation is provided in respect of construction in progress.

2 PRINCIPAL ACCOUNTING POLICIES (cont'd)

(g) LEASED ASSETS

Flight equipment under finance leases is stated at an amount equal to lower of its fair value and the present value of minimum lease payments at inception of the lease, and is amortised on a straight line basis over the shorter of the lease term or estimated useful life of the asset to residual value. In cases where title to the asset will be acquired by the Group at the end of the lease, the asset is amortised on a straight line basis over the estimated useful life of the asset to its residual value.

Amounts payable in respect of finance leases are apportioned between interest charges and reductions of obligations based on the interest rates implicit in the leases. Interest charges are included in the profit and loss account to provide a constant periodic rate of charge over the lease term.

Gains on aircraft sale and leaseback transactions which result in finance leases are deferred and amortised over the terms of the related leases. Gains on other aircraft sale and leaseback transactions are recognised as income immediately if the transactions are established at fair value. Any excess of the sales price over fair value is deferred and amortised over the period the assets are expected to be used.

Operating lease payments are charged to the profit and loss account on a straight line basis over the terms of the related leases.

(h) CONSTRUCTION IN PROGRESS

Construction in progress represents office buildings, various infrastructure projects under construction and equipment pending installation, and is stated at cost. Cost comprises direct costs of construction as well as interest charges during the periods of construction and installation. Capitalisation of these costs ceases and the construction in progress is transferred to fixed assets when the asset is substantially ready for its intended use, notwithstanding any delays in the issue of the relevant commissioning certificates by the relevant PRC authorities.

(i) LEASE PREPAYMENTS

Lease prepayments represent the purchase costs of land use rights and are amortised on a straight line basis over the period of land use rights (Note 26).

(j) INVENTORIES

Inventories, which consist primarily of expendable spare parts and supplies, are stated at cost less any applicable provision for obsolescence, and are expensed when used in operations. Cost represents the average unit cost. Inventories held for disposal is stated at the lower of cost and net realisable value. Net realisable value represents estimated resale price.

2 PRINCIPAL ACCOUNTING POLICIES (cont'd)

(k) TRADE AND OTHER RECEIVABLES

Trade and other receivables are stated at cost less impairment losses. Impairment losses are established based on evaluation of the recoverability of these accounts at the balance sheet date.

(l) DEFERRED EXPENDITURE

Custom duties and other direct costs in relation to modifying, introducing and certifying certain operating leased aircraft are deferred and amortised over the terms of the related leases.

Lump sum housing benefits payable to employees of the Group are deferred and amortised on a straight line basis over a period of 10 years, which represents the benefit vesting period of the employees.

(m) CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of cash in hand and balances with banks and other financial institutions with an original maturity within three months. For the purpose of the consolidated cash flow statement, cash and cash equivalents are presented net of bank overdrafts, if any.

(n) IMPAIRMENT LOSS

The carrying amounts of the Group's and the Company's assets, other than inventories (refer to accounting policy j) and deferred tax assets (refer to accounting policy u) are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to the recoverable amount. The recoverable amount is the greater of the net selling price and the value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value. The amount of the reduction is recognised as an expense in the profit and loss account.

The Group and the Company assess at each balance sheet date whether there is any indication that an impairment loss recognised for an asset in prior years may no longer exist. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A subsequent increase in the recoverable amount of an asset, when the circumstances and events that led to the write-down or write-off cease to exist, is recognised as income. The reversal is reduced by the amount that would have been recognised as depreciation had the write-down or write-off not occurred.

2 PRINCIPAL ACCOUNTING POLICIES (cont'd)

(o) DEFERRED CREDITS

In connection with the acquisition or operating lease of certain aircraft and engines, the Group receives various credits. Such credits are deferred until the aircraft and engines are delivered, at which time they are either applied as a reduction of the cost of acquiring the aircraft and engines, resulting in a reduction of future depreciation, or amortised as a reduction of rental expense for aircraft and engines under operating leases.

(p) REVENUE RECOGNITION

Passenger, cargo and mail revenues are recognised when the transportation is provided. Ticket sales for transportation not yet provided are included in current liabilities as sales in advance of carriage. Revenues from airline-related business are recognised when services are rendered. Revenue is stated net of sales tax and contributions to the CAAC Infrastructure Development Fund.

Interest income is recognised as it accrues unless collectability is in doubt. Dividend income is recognised when the Group's right to receive the dividend is established.

Operating lease income is recognised on a straight line basis over the terms of the respective leases.

(q) TRAFFIC COMMISSIONS

Traffic commissions are expensed when the transportation is provided and the related revenue is recognised. Traffic commissions for transportation not yet provided are recorded on the balance sheet as a prepaid expense.

(r) MAINTENANCE AND OVERHAUL COSTS

Routine maintenance and repairs and overhauls in respect of owned aircraft and aircraft held under finance leases are expensed in the profit and loss account as and when incurred. In respect of aircraft held under operating leases, a provision is made over the lease term for the estimated cost of scheduled overhauls required to be performed on the related aircraft prior to their return to the lessors.

(s) TRANSLATION OF FOREIGN CURRENCIES

Foreign currency transactions during the year are translated into Renminbi at the applicable rates of exchange prevailing on the transaction dates.

Foreign currency monetary balances at the balance sheet date are translated into Renminbi at the exchange rates quoted by the People's Bank of China ruling at that date. Exchange differences are dealt with in the profit and loss account.

2 PRINCIPAL ACCOUNTING POLICIES (cont'd)

(t) BORROWING COSTS

Borrowing costs are expensed in the profit and loss account as and when incurred, except to the extent that they are capitalised as being directly attributable to the acquisition or construction of an asset which necessarily takes a substantial period of time to get ready for its intended use.

(u) DEFERRED TAXATION

Deferred tax is provided using the balance sheet liability method on all temporary differences between the carrying amounts for financial reporting purposes and the amounts used for taxation purposes, except differences relating to the initial recognition of assets or liabilities which affect neither accounting nor taxable profit/loss.

The tax value of losses expected to be available for utilisation against future taxable income is recognised as a deferred tax asset and offset against the deferred tax liability attributable to the same legal tax unit and jurisdiction. Net deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(v) RETIREMENT BENEFITS

Contributions to retirement schemes and additional retirement benefits paid to retired employees are charged to the profit and loss account as and when incurred.

(w) FREQUENT FLYER AWARD PROGRAMMES

The Group maintains two frequent flyer award programmes, namely, the China Southern Airlines Sky Pearl Club and the Egret Mileage Plus, which provide travel awards to members based on accumulated mileage. The estimated incremental cost to provide free travel is recognised as an expense and accrued as a current liability as members accumulate mileage. As members redeem awards or their entitlements expire, the incremental cost liability is reduced accordingly to reflect the acquittal of the outstanding obligations.

Revenue from mileage sales to third parties under the frequent flyer award programmes is recognised when the related transportation services are provided.

(x) PROVISIONS

A provision is recognised in the balance sheet when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligations. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

(y) RELATED PARTIES

For the purposes of these financial statements, parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or entities.

(z) SEGMENTAL REPORTING

The Group operates principally as a single business segment for the provision of air transportation services. The analysis of turnover and operating profit by geographical segment is based on the following criteria:

- (i) Traffic revenue from domestic services within the PRC (excluding Hong Kong) is attributed to the domestic operation. Traffic revenue from inbound / outbound services between the PRC and Hong Kong, and the PRC and overseas destinations is attributed to the Hong Kong regional operation and international operation respectively.
- (ii) Other revenue from ticket selling, general aviation and ground services, air catering and other miscellaneous services is attributed on the basis of where the services are performed.

(aa) USE OF ESTIMATES

The preparation of the financial statements of the Group and the Company in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

	(22,217)	170,740

Note:

During 2003, the Group incurred a loss of RMB20,405,000 on early retirement of two old Boeing 737-200 aircraft.

Pursuant to certain sale and leaseback arrangements, the Group sold four Boeing 757-200 aircraft during 2002 to independent third parties and then entered into operating leases with such parties to lease back the aircraft for a period of eight to nine years. For the year ended 31 December, 2002, the Group recognised a profit of RMB199,394,000, being the excess of the sale proceeds which approximated the aircraft's fair value on the date of disposal, over the aircraft's net book value and related disposal costs.

=====		

On 17 October, 2003, the Company's registered address was moved to Guangzhou Economic & Technology Development Zone. In accordance with the Rules and Regulations for Implementation of Income Tax for Foreign Investment Enterprises and Foreign Enterprises of the PRC and a taxation approval document "Guangzhou Municipal State Tax Bureau Suo De Shui Zi Que 020043", the Company is entitled to enjoy the preferential tax policy implemented in the Guangzhou Economic & Technology Development Zone

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

effective 1 October, 2003. As a result, the Company's income tax rate has been changed to 15% from 33% beginning from that date.

As a result of the reduction in income tax rate, the Company's net deferred taxation liability balance brought forward from 31 December, 2002 of RMB507,077,000 was reduced by RMB392,137,000 and a net deferred tax credit of RMB392,137,000 was recognised for such reduction in income tax rate in the consolidated profit and loss account for the year ended 31 December, 2003.

In respect of the Group's overseas airline activities, the Group has either obtained exemptions from overseas taxation pursuant to the bilateral aviation agreements between the overseas governments and PRC government, or has sustained tax losses in these overseas jurisdictions. Accordingly, no provision for overseas tax has been made for the year (2002: nil).

	(324,277)	398,227

In accordance with relevant PRC tax regulations, a PRC lessee is liable to pay PRC withholding tax in respect of any lease payments regularly made to an overseas lessor. Depending on the circumstances, this tax is generally imposed at a fixed rate ranging from 10% to 20% of the lease payments, or in certain cases, the interest components of such payments. Pursuant to an approval document from the State Tax Bureau, lease arrangements executed prior to 1 September, 1999 are exempted from PRC withholding tax.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

For the year ended 31 December, 2003, the PRC withholding tax payable by the Group in respect of the leases executed on or after 1 September, 1999 of RMB7,706,000 (2002: RMB14,305,000) has been included as part of the operating lease charges for the year.

8 DIVIDENDS

No interim dividend was paid during the year ended 31 December, 2003 (2002: Nil).

The board of directors of the Company does not recommend the payment of a final dividend in respect of the year ended 31 December, 2003.

A final dividend of RMB0.02 per share totalling RMB67,484,000 in respect of the year ended 31 December, 2001 was approved and paid during 2002.

9 BASIC (LOSS)/EARNINGS PER SHARE

The calculation of basic (loss)/earnings per share is based on the consolidated loss attributable to shareholders of RMB358,267,000 (2002: profit of RMB575,761,000) and the weighted average number of shares in issue during the year of 3,831,712,000 (2002: 3,374,178,000).

The amount of diluted (loss)/earnings per share is not presented as there were no dilutive potential ordinary shares in existence for both years.

10 FIXED ASSETS (cont'd)

Substantially all of the Group's buildings are located in the PRC. The Group was formally granted the rights to use the twenty one parcels of land in Guangzhou, Shenzhen, Zhuhai, Beihai, Changsha, Shantou, Haikou, Zhengzhou, Guiyang and Wuhan by the relevant PRC authorities for a period of 30 to 70 years, which expire between 2020 and 2068. For other land in the PRC on which the Group's buildings are erected, the Group was formally granted the rights to use such land for periods of one to five years commencing in the second quarter of 1997 pursuant to various lease agreements between the Company and CSAHC. The leases with initial one-year term are automatically renewable for another one-year period unless the Group gives appropriate notice of termination. In this connection, rental payments totalling RMB15,224,000 (2002: RMB15,224,000) were paid to CSAHC during 2003 in respect of these leases.

During the year, the Company entered into operating lease arrangements to lease certain flight training facilities and buildings to Zhuhai Xiang Yi Aviation Technology Company Limited ("Zhuhai Xiang Yi"), a jointly controlled entity of the Company. The leases with initial one-year term are automatically renewable for another one year unless either party gives appropriate notice of termination. In this connection, rental income totalling RMB34,175,000 was received by the Company during 2003 in respect of the leases. As at 31 December, 2003, the cost and accumulated

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

depreciation of the relevant fixed assets totalled RMB787,432,000 and RMB462,281,000 respectively. As at 31 December, 2003, the Company's rental receivable in respect of the leases due in 2004 amounted to RMB34,175,000.

In compliance with the PRC rules and regulations governing initial public offering of shares by PRC joint stock limited companies, the fixed assets of the Group as at 31 December, 1996 were revalued. This revaluation was conducted by Guangzhou Assets Appraisal Corp. ("GAAC"), a firm of independent valuers registered in the PRC, on a depreciated replacement cost basis, and approved by the China State-owned Assets Administration Bureau.

In accordance with IAS 16 "Property, plant and equipment", subsequent to the 1996 revaluation, which was based on replacement costs, the fixed assets of the Group are carried at revalued amount, being the fair value at the date of the revaluation less any subsequent accumulated depreciation and impairment losses. Revaluation is performed periodically to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. In accordance with the revaluation performed by the directors in respect of fixed assets held by the Group as at 31 December, 2000, the carrying amounts of fixed assets did not differ materially from their respective fair value.

10 FIXED ASSETS (cont'd)

The effect of the above revaluation was to increase future annual depreciation charges of the Group by approximately RMB33,000,000 (2002: RMB33,000,000). Had the fixed assets of the Group and the Company been stated at cost, that is, the effect of the revaluation was excluded, the net book values of fixed assets of the Group and the Company as at 31 December, 2003 would have been approximately RMB28,522,787,000 and RMB22,793,781,000 respectively (2002: RMB26,874,709,000 and RMB19,440,211,000 respectively), made up as follows:

28,522,787 26,874,709 22,793,781 19,440,211

As at 31 December, 2003, certain aircraft of the Group and the Company with an aggregate carrying value of approximately RMB14,575,906,000 and RMB12,795,867,000 respectively (2002: RMB14,782,559,000 and RMB12,893,592,000, respectively) were mortgaged under certain loan and lease agreements (see Notes 21 and 22).

The Company entered into two separate arrangements (the "Arrangements") with certain independent third parties during each of 2002 and 2003. Under each of the Arrangements, the Company sold an aircraft and then immediately leased back the aircraft for an agreed period. As agreed, the lease payment obligations, with pre-determined net present value, are to be satisfied solely out of the sale proceeds and such amount has been placed irrevocably by the Company in form of deposits and debt securities in favour of the lessors. The Company has an option to purchase the aircraft at a pre-determined date and an agreed purchase price to be satisfied by the balances of the deposits and debt securities outstanding at that date. In the event that the lease agreement is early terminated by the Company, the Company is liable to pay a pre-determined penalty to the lessor. As long as the Company complies with the lease agreements, the Company is entitled to the continued possession and operation of the aircraft. Since the Company retains substantially all risks and rewards incident to ownership of the aircraft and enjoys substantially the same rights to their use as before the Arrangements, no adjustment has been made to the fixed assets. As at 31 December, 2003, the net present value of the lease commitments and the corresponding defeased deposits and debt securities amounted to RMB2,409,252,000 (2002: RMB1,322,843,000). As a result of the Arrangements, the Company received net cash benefits of RMB51,682,000 and RMB69,121,000 in 2002 and 2003 respectively which have been recognised as income for the respective years.

26 RESERVES (cont'd)

Notes:

- (a) According to the PRC Company Law and the Articles of Association of the Company and certain of its subsidiaries, the Company and the relevant subsidiaries are required to transfer 10% of their annual net profits after taxation, as determined under relevant PRC accounting regulations, to a statutory surplus reserve until the reserve balance reaches 50% of the registered capital. The transfer to this reserve must be made before distribution of a dividend to shareholders.

Statutory surplus reserve can be used to offset prior years' losses, if any, and may be converted into share capital by the issue of new shares to shareholders in proportion to their existing shareholding or by increasing the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of the registered capital.

- (b) According to the PRC Company Law and the Articles of Association of the Company and certain of its subsidiaries, the Company and the relevant subsidiaries are required to transfer between 5% to 10% of their annual net profits after taxation, as determined under PRC accounting regulations, to the statutory public welfare fund. This fund can only be utilised on capital items for the collective benefits of the Company's and the relevant subsidiaries' employees such as the construction of dormitories, canteen and other staff welfare facilities. This fund is non-distributable other than in liquidation. The transfer to this reserve must be made before distribution of a dividend to shareholders.
- (c) During 2002, the Group and the Company adopted certain new PRC accounting regulations which resulted in adjustments to the amounts of the Group's and Company's profits determined under PRC accounting regulations in respect of prior years and corresponding adjustments to amounts appropriated to the statutory surplus reserve, statutory public welfare fund and discretionary surplus reserve for the prior years.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

- (d) The usage of this reserve is similar to that of statutory surplus reserve.
- (e) Under PRC Company Law and the Company's Articles of Association, the net profit after taxation as reported in the PRC statutory financial statements of the Company can only be distributed as dividends after allowances have been made for:
- (i) making up cumulative prior years' losses, if any;
 - (ii) allocations to the statutory surplus reserve of at least 10% of after-tax profit, until the fund aggregates to 50% of the Company's registered capital;
 - (iii) allocations of 5% to 10% of after-tax profit to the Company's statutory public welfare fund; and
 - (iv) allocations to the discretionary surplus reserve, if approved by the shareholders.

Pursuant to the Articles of Association of the Company, the net profit of the Company for the purpose of profit distribution is deemed to be the lesser of (i) the net profit determined in accordance with the PRC accounting principles and financial regulations and (ii) the net profit determined in accordance with IFRS; or if the financial statements of the Company are not prepared in accordance with IFRS, the accounting standards of one of the countries in which its shares are listed. As at 31 December, 2003, the Company did not have any distributable reserves (2002: RMB445,636,000).

- (f) The Group adopted IAS 40 "Investment Property" in 2002. According to IAS 40, the land use rights which were previously included in fixed assets at revaluation base are now presented as lease prepayments and carried at historical cost base with effect from 1 January, 2002. Accordingly, the unamortised surplus on previous revaluations of the land use rights, net of related deferred tax asset, are reversed to the share premium and retained profits accounts. The IAS 40 was adopted prospectively in 2002 as the effect of this change did not have a material impact on the Group's financial condition and results of operations in the periods prior to the change.

27 RELATED PARTY TRANSACTIONS

The Group obtained various operational and financial services provided by CSAHC and its affiliates, and the Group's associated companies and jointly controlled entities during the normal course of its business. In the past, CSAHC was under the direct control of the CAAC. However, such control has been shifted to the State Assets Administration Committee since early 2003. Consequently, transactions with the CAAC and its affiliates are no

27 RELATED PARTY TRANSACTIONS (cont'd)

Notes:

- (a) Handling charges represent fees payable to Southern Airlines (Group) Import and Export Trading Company, a wholly owned subsidiary of CSAHC, in connection with the procurement of aircraft and flight equipment on the Group's behalf. Handling charges are calculated based on a fixed percentage of the purchase value and other charges.
- (b) Wet lease rentals represented rentals payable to Xinjiang Airlines Company, a subsidiary of CSAHC, pursuant to a wet lease agreement in respect of a Boeing 757-200 aircraft effective October 2002. The wet lease agreement was terminated in April 2003.
- (c) Advertising expenses represent expense reimbursements to Southern Airlines Advertising Company ("SAAC") for promotional services rendered to the Group. SAAC was a subsidiary of CSAHC up to July 2002. In August 2002, the Company acquired 90% equity interest in SAAC from CSAHC.
- (d) Sundry aviation supplies represent purchases of aviation supplies from Southern Airlines (Group) Economic Development Company, a subsidiary of CSAHC. Prices charged by this supplier to the Group are similar to those charged to other PRC airlines.
- (e) Commission expense represents commissions payable to certain subsidiaries of CSAHC in connection with services provided in exchange for air tickets sold by them. These commissions are calculated based on a fixed rate ranging from 1.5% to 12% on the ticket value.
- (f) Air catering expense represents purchases of inflight meals and related services from Shenzhen Air Catering Company Limited, a cooperative joint venture established in the PRC, in respect of which CSAHC is entitled to 33% of its profits after tax.
- (g) Repairing charges represent fees incurred by the Group in connection with aircraft repair and maintenance services rendered by Guangzhou Aircraft Maintenance Engineering Company Limited ("GAMECO") and MTU Maintenance Zhuhai Co., Ltd. ("MTU Zhuhai"). GAMECO and MTU Zhuhai are jointly controlled entities of the Company.
- (h) Housing benefits represent a fixed annual fee payable to CSAHC in respect of the provision of quarters to the eligible employees of the Group. (Note 28).
- (i) Charges were paid to CSAHC under certain lease agreements in respect of certain land and buildings in the PRC (Note 10).
- (j) Flight simulation service charges represent fees incurred by the Group in connection with flight simulation services provided by Zhuhai Xiang Yi, a jointly controlled entity of the Company.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

In addition, the Company entered into operating lease agreements to lease certain flight training facilities and buildings to Zhuhai Xiang Yi. Rental income earned by the Company amounted to RMB34,175,000 during 2003 (Note 10).

- (k) During the period from August to October 2002, the Company received wet lease rentals totalling RMB27,599,000 from wet leasing of an Airbus 320-200 aircraft to Sichuan Airlines Corporation Limited, an associated company of the Company.
- (l) Interest income represents interest received from deposits placed with SA Finance. The applicable interest rate is determined in accordance with the deposit rate published by the People's Bank of China (see Note 20).

NOTES TO THE FINANCIAL STATEMENTS (Cont'd)
(Prepared under International Financial Reporting Standards)
(Expressed in Renminbi)

27 RELATED PARTY TRANSACTIONS (cont'd)

Notes: (cont'd)

- (m) During the year, CSAHC made short term advances to the Group. These advances are unsecured, interest free and repayable on demand. As at 31 December, 2003, the advances amounted to RMB165,995,000.
- (n) Prior to 1 January, 2002, the Group paid a fixed annual fee to CSAHC in return for CSAHC providing medical benefit, transportation subsidies and other welfare facilities to the retirees of the Group. Such arrangement was terminated on 1 January, 2002. During 2003, CSAHC refunded to the Group the difference between the aggregate fixed annual fees received from the Group and the aggregate cost of services incurred by CSAHC under the above arrangement.
- (o) During 2002, the Group acquired five Boeing 737-300/37K aircraft and related spare parts and certain vehicles from Zhongyuan Airlines, a subsidiary of CSAHC, at a consideration of approximately RMB1,096,866,000. The consideration was satisfied by cash of approximately RMB132,130,000 together with an assumption by the Group of Zhongyuan Airlines' debts of approximately RMB964,736,000. In addition, the Group received reimbursements of wet lease rentals totalling RMB150,000,000.
- (p) In August 2002, the Company acquired 90% equity interest in each of Guangzhou Aviation Hotel, Southern Airlines Advertising Company and South China International Aviation & Travel Services Company from CSAHC at an aggregate cash consideration of approximately RMB107,846,000. Such consideration is determined by reference to the valuation reports prepared by Guangzhou Zhongtian Valuation Company Limited, a firm of independent valuers registered in the PRC.

In addition to the above, certain business undertakings of CSAHC also provided hotel and other services to the Group during the year. The total amount involved is not material to the results of the Group for the year.

The directors of the Company are of the opinion that the above

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

transactions with related parties were entered into in the normal course of business and on normal commercial terms or in accordance with the agreements governing such transactions.

28 RETIREMENT AND HOUSING BENEFITS

Employees of the Group participate in several defined contribution retirement schemes organised separately by PRC municipal governments in regions where the major operations of the Group are located. The Group is required to contribute to these schemes at the rates ranging from 14% to 19% (2002: 14% to 19%) of salary costs including certain allowances. A member of the retirement schemes is entitled to pension benefits equal to a fixed proportion of the salary at the retirement date. The retirement benefit obligations of all existing and future retired staff of the Group are assumed by these schemes.

In addition, the Group was selected as one of the pilot enterprises to establish a supplementary defined contribution retirement scheme for the benefit of employees. In this connection, employees of the Group participate in a supplementary defined contribution retirement scheme whereby the Group is required to make defined contributions at a rate of 4.5% of total salaries. The Group has no obligation for the payment of pension benefits beyond the contributions described above. Contributions to the retirement schemes are charged to the profit and loss account as and when incurred.

28 RETIREMENT AND HOUSING BENEFITS (cont'd)

Furthermore, pursuant to the comprehensive services agreement (the "Services Agreement") dated 22 May, 1997 between the Company and CSAHC, CSAHC agrees to provide adequate quarters to eligible employees of the Group as and when required. In return, the Group agrees to pay a fixed annual fee of RMB85,000,000 to CSAHC for a ten-year period effective 1 January, 1995.

During 2002, the Group provided additional quarters at its own expense to certain employees who are not eligible for quarters pursuant to the Services Agreement. These quarters were provided to the respective employees in accordance with the relevant PRC housing reform policy. The excess of the cost of these additional quarters over the considerations received by the Group from the employees of RMB17,624,000 were charged to expenses in 2002.

Pursuant to an additional staff housing benefit scheme effective September 2002, the Group agreed to pay lump sum housing allowances to certain employees who have not received quarters from CSAHC or the Group according to the relevant PRC housing reform policy, for subsidising their purchases of housing. Such expenditure has been deferred and amortised on a straight line basis over a period of 10 years, which represents the vesting benefit period of the employees. An employee who quits prior to the end of the vesting benefit period is required to pay back a portion of the lump sum housing benefits determined on a pro-rata basis of the vesting benefit period remained. The Group has the right to effect a charge on the employee's house and to enforce repayment through selling the house in the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

event of default in repayment. Any shortfall in repayment would be charged against profit and loss account. As at 31 December, 2003, the Group already made payments totalling RMB130,479,000 (2002: RMB46,325,000) under the scheme and recorded its remaining contractual liabilities totalling RMB129,521,000 (2002: RMB213,675,000) as accrued liabilities on its balance sheet.

(c) INVESTING COMMITMENTS

As at 31 December, 2003, the Company was committed to make a capital contribution of approximately RMB446 million and RMB Nil respectively (2002: RMB60 million and RMB201 million respectively) to its jointly controlled entities and associated companies.

30 CONTINGENT LIABILITIES

- (a) The Company has been advised by its PRC lawyers that, except for liabilities constituting or arising out of or relating to the businesses assumed by the Company in the Reorganisation, no other liabilities were assumed by the Company, and the Company is not jointly and severally liable for other debts and obligations incurred by CSAHC prior to the Reorganisation. There are not, however, any definitive PRC regulations or other pronouncements confirming such conclusion.
- (b) The Group leases from CSAHC certain land in Guangzhou and certain land and buildings in Wuhan, Haikou and Zhengzhou. The Group has a significant investment in buildings and other leasehold improvements located on such land. However, such land in Guangzhou and such land and buildings in Wuhan, Haikou and Zhengzhou lack adequate documentation evidencing CSAHC's rights thereto.

NOTES TO THE FINANCIAL STATEMENTS (Cont'd)
(Prepared under International Financial Reporting Standards)
(Expressed in Renminbi)

30 CONTINGENT LIABILITIES (cont'd)

With respect to the facilities in Guangzhou, CSAHC has received written assurance from the CAAC to the effect that CSAHC is entitled to continued use and occupancy of the land in Guangzhou. The Company understands that the CAAC is basing its conclusion on an agreement among certain government authorities relating to such land. Such assurance does not constitute formal evidence of CSAHC's right to transfer, mortgage or lease such real property interests. The Group cannot predict the magnitude of the effect on its financial condition or results of operations to the extent that its use of one or more of these parcels of land or the related facilities were successfully challenged. CSAHC has agreed to indemnify the Group against any loss or damage caused by any challenge or interference with the Group's use of any of its land and buildings.

- (c) The Company is currently involved in a civil litigation (Hong Kong High Court Action No. 515 of 2001) ("Litigation"). According to the writ of summons for the Litigation, New Link Consultants Limited, the plaintiff, claimed against the Group (as one of the defendants to the Litigation) on the basis of certain evidence proving that United Aero-Supplies System of China, Limited ("UASSC") entered into an agreement with the defendants for exclusive purchase of aviation equipment consigned to UASSC for sale and, that as the defendants failed to perform the agreement, UASSC has the right to compensation. Since UASSC is in the course of its winding up proceedings, all the rights and benefits of UASSC in connection with the claim have been transferred to the plaintiff. The Company, as one of the defendants to the Litigation, has been claimed for unspecified damages for breach of the agreement. Given that the Litigation is still at its preliminary stage, it is pre-matured to predict the result of the court judgment. Based on the opinion given by its instructing solicitors, the Company's directors consider that the Company has a reasonable chance of success in its defence to the claim. At present, the Company has filed an objection in respect of the jurisdiction of the court, and has requested the court to transfer the case of Mainland China for trial. Accordingly, the Company's directors consider that a provision for such claim and/or the associated legal costs is not required.

31 FAIR VALUE OF FINANCIAL INSTRUMENTS AND CONCENTRATION OF RISK

Financial assets of the Group include cash and cash equivalents, investments, trade receivables and other receivables. Financial liabilities of the Group include bank and other loans, amounts due to related companies, other liabilities, accounts payable, bills payable, sales in advance of carriage, accrual expenses and obligations under finance leases.

LIQUIDITY RISK

As at 31 December, 2003, the Group's net current liabilities amounted to RMB10,792 million (2002: RMB7,016 million). For the year ended 31 December, 2003, the Group recorded a net cash inflow from operating activities of RMB2,129 million (2002: RMB3,698 million), a net cash outflow from investing activities and financing activities of RMB3,820 million (2002: RMB2,745 million) and a decrease in cash and cash

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

equivalents of RMB1,691 million (2002: increase of RMB953 million).

With regard to 2004 and thereafter, the liquidity of the Group is primarily dependent on its ability to maintain adequate cash inflow from operations to meet its debt obligations as they fall due, and on its ability to obtain adequate external finance to meet its committed future capital expenditures. With regard to its short-term bank loans outstanding at 31 December, 2003, the Group has obtained firm commitments from its principal bankers to renew the relevant loans as they fall due during 2004. With regard to its future capital commitments and other financing requirements, the Group has already entered into loan financing agreements with several PRC banks to provide loan finance up to an approximate amount of RMB8,450 million during 2004 and thereafter. The directors of the Company believe that such financing will be available to the Group.

31 FAIR VALUE OF FINANCIAL INSTRUMENTS AND CONCENTRATION OF RISK (cont'd)

LIQUIDITY RISK (cont'd)

The directors of the Company have carried out a detailed review of the cash flow forecast of the Group for the twelve months ending 31 December, 2004. Based on such forecast, the directors have determined that adequate liquidity exists to finance the working capital and capital expenditure requirements of the Group during that period. In preparing the cash flow forecast, the directors have considered historical cash requirements of the Group as well as other key factors, including the availability of the above-mentioned loan finance which may impact the operations of the Group during the next twelve-month period. The directors are of the opinion that the assumptions and sensitivities which are included in the cash flow forecast are reasonable. However, as with all assumptions in regard to future events, these are subject to inherent limitations and uncertainties and some or all of these assumptions may not be realised.

BUSINESS RISK

The Group conducts its principal operations in the PRC and accordingly is subject to special considerations and significant risks not typically associated with investments in equity securities of the United States of America and Western European companies. These include risks associated with, among others, the political, economic and legal environment, influence of the CAAC over many aspects of its operations, and competition, in the passenger, cargo and mail airlines services industry.

INTEREST RATE RISK

The interest rates and maturity information of the Group's bank and other loans, and the maturity information of the Group's finance lease obligations are disclosed in Notes 21 and 22 respectively.

FOREIGN CURRENCY RISK

The Group has significant exposure to foreign currency as substantially all of the Group's lease obligations and bank loans are denominated in foreign currencies, principally US dollars, and to a lesser extent,

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Japanese Yen. Depreciation or appreciation of the Renminbi against foreign currencies affects the Group's results significantly because the Group's foreign currency payments generally exceed its foreign currency receipts. The Group is not able to hedge its foreign currency exposure effectively other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange, or subject to certain restrictive conditions, entering into forward foreign exchange contracts with authorised PRC banks.

CREDIT RISKS

Substantially all of the Group's cash and cash equivalents are deposited with PRC financial institutions.

A significant portion of the Group's air tickets are sold by agents participating in the Billing and Settlement Plan ("BSP"), a clearing scheme between airlines and sales agents organised by International Air Transportation Association. As of 31 December, 2003, the balance due from BSP agents amounted to RMB446,399,000 (2002: RMB353,246,000).

SELF INSURANCE RISK

The Group maintains a limited amount of property insurance in respect of certain personal and real property.

FAIR VALUE

The carrying amounts and estimated fair values of significant financial assets and liabilities at 31 December, 2002 and 2003 are set out below:

The following methods and assumptions were used to estimate the fair value for each class of financial instrument:

- (i) Cash and cash equivalents, trade receivables, other receivables, amounts due to related companies, other liabilities, accounts payable, bills payable, sales in advance of carriage and accrued expenses

The carrying values approximate fair value because of the short maturities of these instruments.

- (ii) Bank and other loans

The fair value has been estimated by applying a discounted cash flow approach using interest rates available to the Group for similar indebtedness.

31 FAIR VALUE OF FINANCIAL INSTRUMENTS AND CONCENTRATION OF RISK (cont'd)

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

The economic characteristics of the Group's leases vary from lease to lease. It is impractical to compare such leases with those prevailing in the market within the constraints of timeliness and cost for the purpose of estimating the fair value of such leases. Other investments represent unquoted available-for-sale equity securities of companies established in the PRC. There is no quoted market price for such equity securities and accordingly a reasonable estimate of the fair value could not be made without incurring excessive costs.

Fair value estimates are made at a specific point in time and are based on relevant market information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgement and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

* Mainly routes between the PRC and Asian countries, the United States of America, the Netherlands, Belgium and Australia.

The major revenue-earning assets of the Group are its aircraft fleet, most of which are registered in the PRC. Since the Group's aircraft fleet is employed flexibly across its route network, there is no suitable basis of allocating such assets to geographic segments. Substantially all of the Group's non-aircraft identifiable assets are located in the PRC.

116 CHINA SOUTHERN AIRLINES COMPANY LIMITED 2003 ANNUAL REPORT [LOGO]

NOTES TO THE FINANCIAL STATEMENTS

(Prepared under PRC Accounting Rules and Regulations)

1 BACKGROUND OF THE COMPANY

China Southern Airlines Company Limited (the "Company") and its subsidiary companies (collectively the "Group") are principally engaged in the provision of domestic, Hong Kong regional and international passenger, cargo and mail airline services, with flights operating primarily from the Guangzhou Baiyun International Airport, which is both the main hub of the Group's route network and the location of its corporate headquarters.

The Company is a joint stock limited company established by China Southern Air Holding Company ("CSAHC") pursuant to approval document Ti Gai Sheng [1994] No. 139 from the State Commission for Economic Restructuring of the Peoples' Republic of China ("PRC"). CSAHC injected airline-related assets and liabilities as at 1 January, 1994 into the Company in exchange for 2,200,000,000 domestic shares with a par value of RMB1.00 each. The Company was established on 25 March, 1995, and took over the control of the airline business from CSAHC since that date.

Pursuant to an approval document Zheng Wei Fa [1997] No. 33 from the China Securities Regulatory Commission, the Company listed its 1,174,178,000 H Shares on both the Stock Exchange of Hong Kong Limited

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

and the New York Stock Exchange in July 1997.

Pursuant to an extraordinary general meeting of shareholders held on 21 May, 2002, a resolution was passed authorising the Company to issue not more than 1,000,000,000 A shares of par value of RMB1.00 each. Pursuant to an approval document (2003) No. 70 from the China Securities Regulatory Commission, the Company issued and listed its 1,000,000,000 A shares with a par value of RMB1.00 each on the Stock Exchange of Shanghai in July 2003.

On 13 March, 2003, the Company obtained an approval certificate Wai Jing Mao Zi Yi [2003] No. 273 from the Ministry of Commerce to change to a permanent limited company with foreign investments and obtained the business licence (Qi Gu Guo Fu Zi No. 000995) on 17 October, 2003 issued by the State Administration of Industry and Commerce of the People's Republic of China.

2 CHANGE IN ACCOUNTING POLICY

The Company changed its accounting policy in order to conform with the revised "Accounting standard for business enterprises - Events occurring after the balance sheet date" ("Revised Standard"). According to the original standard, the appropriation of profit for the current year approved by the board of directors after the balance sheet date was an adjusting event. Pursuant to the revised "Accounting standard for business enterprises - Events occurring after the balance sheet date" (Cai Kuai [2003] No. 12) issued by the Ministry of Finance ("MOF") on 14 April, 2003, cash dividends for the current period declared and approved by the board of directors after the balance sheet date, but before the financial statements are authorised for issue, should be presented separately under shareholders' funds on the balance sheet. The Company has adopted the Revised Standard by adjusting retrospectively for the dividend for 2001 which was paid in 2002.

This change in accounting policy has no impact on the retained profits as at 1 January, 2003. The effect of the change in accounting policy for prior years is set out below:

	BEFORE ADJUSTMENT RMB' 000	ADJUSTMENT RMB' 000
Retained profits at 1 January, 2002	344,859	67,484

3 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted by the Group in the preparation of the financial statements conform to the Accounting Standards for Business Enterprises and the "Accounting Regulations for Business Enterprises" and other relevant regulations issued by the MOF.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Pursuant to a notice Cai Kuai (2003) No.18 from the MOF, the Group adopts the "Accounting Method for Civil Aviation Industry" since 1 January, 2003. The significant accounting policies adopted in the preparation of these financial statements are set out below:

(a) ACCOUNTING YEAR

The accounting year of the Group is from 1 January to 31 December.

(b) BASIS OF CONSOLIDATION

The consolidated financial statements have been prepared in accordance with "Accounting Regulations for Business Enterprises" and Cai Kuai Zi [1995] No.11 "Provisional regulations on consolidated financial statements" issued by the MOF.

The consolidated financial statements include the financial statements of the Company and all of its principal subsidiaries. Subsidiaries are those entities in which the Company has more than 50% equity interest or those entities controlled by the Company. The consolidated income statement of the Company only includes the results of the subsidiaries during the period when the Company has more than 50% equity interest, or when the Company does not have more than 50% equity interest, but has control over those entities. The effect of minority interests on equity and profit/loss attributable to minority interests are separately shown in the consolidated financial statements. For those subsidiaries whose assets and results of operations are not significant and have no significant effect on the Group's consolidated financial statements, the Company does not consolidate these subsidiaries.

Where the accounting policies adopted by subsidiaries are different from the policies adopted by the Company, the financial statements of the subsidiaries have been adjusted in accordance with the accounting policies adopted by the Company on consolidation. All significant intercompany balances and transactions, and any unrealised gains arising from inter-company transactions, have been eliminated on consolidation.

For those jointly controlled entities which the Company has joint control with other investors under contractual arrangements, the Company consolidates their assets, liabilities, revenues, costs and expenses based on the proportionate consolidation method according to the percentage of holding of equity interest in those entities in the consolidated financial statements.

(c) BASIS OF PREPARATION

The financial statements of the Group have been prepared on an accrual basis under the historical costs convention, unless otherwise stated.

(Prepared under PRC Accounting Rules and Regulations)

3 SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(d) REPORTING CURRENCY

The financial statements are prepared in Renminbi.

(e) TRANSLATION OF FOREIGN CURRENCIES

Foreign currency transactions during the year are translated into Renminbi at the exchange rates quoted by the People's Bank of China at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into Renminbi at the exchange rates quoted by the People's Bank of China at the balance sheet date. Exchange gains and losses on foreign currency translation, except for the gains and losses relating to the transactions referred to below, are dealt with in the income statement.

Exchange differences directly relating to the purchase or construction of fixed assets (including exchange differences on funds borrowed specifically for the purchase or construction of fixed assets) before they are ready for use are capitalised as part of the cost of fixed assets.

(f) CASH EQUIVALENTS

Cash equivalents are short-term, highly liquid investments which are readily convertible into known amounts of cash, and which are subject to an insignificant risk of change in value.

(g) ALLOWANCE FOR DOUBTFUL ACCOUNTS

Trade accounts receivable showing signs of uncollectibility are identified individually and allowance is then made based on the probability of being uncollectible. In respect of trade accounts receivable showing no sign of uncollectibility, allowance is made with reference to the ageing analysis and management's estimation based on past experience.

Allowances for other receivables are made based on the nature of the receivables and estimation of the corresponding collectibility risk.

(h) INVENTORIES

Inventories, which consist primarily of expendable spare parts and supplies, are carried at the lower of cost and net realisable value. Inventories are measured at their actual cost upon acquisition. The cost of inventories is calculated using the weighted average method. Any excess of the cost over the net realisable value of each class of inventories is recognised as a provision for diminution in value of inventories. Net realisable value is determined based on amount recoverable in the normal course of business after the balance sheet date or estimates made by management based on market conditions. Inventories are recorded using the perpetual stocking method.

Inventories are amortised in full when issue for use.

3 SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(i) LONG-TERM EQUITY INVESTMENTS

Long-term investments are stated at the lower of cost and the recoverable amount. A provision for impairment is determined on an individual basis on difference between the cost and the recoverable amount, if the latter is lower.

A long-term equity investment in an investee enterprise that the Company has the power to control, jointly control or exercise significant influence over is accounted for under the equity method of accounting whereby the investment is initially recorded at cost and adjusted thereafter for any post acquisition change in the Company's share of the net assets of the enterprise. Equity investment difference, which is the difference between the initial investment cost and the Company's share of the equity of the investee enterprise, is accounted for as follows:

- Any excess of the initial investment cost over the Company's share of the equity is amortised on a straight-line basis. The amortisation period is determined according to the investment period as stipulated in the relevant agreement, or 10 years if the investment period is not specified in the agreement.
- Any shortfall of the initial investment cost over the Group's share of investors' equity is amortised on a straight-line basis over 10 years if the investment was acquired before the issuance of the "Questions and answers on implementing Accounting Regulations for Business Enterprises and related accounting standards (II)" (Cai Kuai [2003] No. 10) on 7 April, 2003. Otherwise, the shortfalls are recognised in "Capital surplus - reserve for equity investment".

A long-term equity investment in an investee enterprise that the Group does not control, jointly control or exercise significant influence over is accounted for under the cost method. Investment income is recognised when an investee enterprise declares a cash dividend or distributes profits.

Upon disposal or transfer of long-term equity investments, the difference between the proceeds received and the carrying value of the investments is recognised in the income statement.

3 SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(j) FIXED ASSETS AND CONSTRUCTION IN PROGRESS

Fixed assets represent the assets held by the Group for rendering services and administrative purposes with useful lives over 1 year and comparatively high unit values.

Fixed assets are stated in the balance sheet at cost or revalued amount less accumulated depreciation and impairment losses. Construction in progress are stated in the balance sheet at cost less impairment losses. Valuation is carried out in accordance with the relevant rules and regulations in the PRC and fixed assets and construction in progress are adjusted to the revalued amounts accordingly.

All direct and indirect costs related to the acquisition or construction of fixed assets, incurred before the assets are ready for their intended uses, are capitalised as construction in progress. Those costs include borrowing costs, which include foreign exchange differences, on specific borrowings for the construction of the fixed assets during the construction period.

Construction in progress is transferred to fixed assets when the asset is ready for its intended use.

Pursuant to an approval document Cai Kuai Han [2004] No. 39 from the MOF, the Group accounts for rotables as fixed assets.

Depreciation is provided to write off the cost of fixed assets over their estimated useful lives on a straight-line basis, after taking into account their estimated residual values. The respective estimated useful lives, residual values and annual depreciation rates for fixed assets are as follows:

	DEPRECIABLE LIFE
Owned and leased aircraft	8 to 15 years
Other flight equipment:	
- Jet engines	8 to 15 years
- Others, including high value rotables	8 to 15 years
Buildings	15 to 40 years
Machinery and equipment	5 to 10 years
Motor vehicles	6 years

Land use rights are stated in the balance sheet at cost or revalued amount less accumulated depreciation and impairment losses, and are amortised on a straight line basis over the period for land use rights.

3 SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(k) LEASED ASSETS

(i) FINANCE LEASE

A finance lease is a lease that transfers substantially all the risks and benefits of ownership of an asset to the lessee, whether or not the legal title to the asset is eventually transferred. Flight equipment acquired by way of finance leases are stated at an amount equal to the lower of their original carrying value in the books of the legal owner (the lessor) and the present value of the minimum lease payments at inception of the lease. Depreciation of leased assets is calculated using the straight-line method. If there is no reasonable certainty that the lessee will obtain ownership of the leased assets at the end of the lease term, the leased assets are depreciated over the shorter of the lease term or their estimated useful lives. If there is reasonable certainty that the lessee will obtain ownership of the leased assets at the end of the lease term, the leased assets are depreciated over their estimated useful lives. At the inception of the lease, the minimum lease payments are recorded as obligations under finance leases. The difference between the value of the leased assets and the minimum lease payments is recognised as unrecognised finance charges under finance leases.

Unrecognised finance charges are amortised on an effective interest method over the lease term.

(ii) OPERATING LEASE

An operating lease is a lease other than a finance lease. Operating lease payments are charged to the income statement on a straight line basis over the terms of the related leases. Contingent rental is recognised as expenses of the current period when actually occurs.

(l) DEFERRED EXPENDITURE

Custom duties and other direct costs in relation to modifying, introducing and certifying certain operating leased aircraft are deferred and amortised on a straight line basis over the terms of the related leases.

3 SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(m) IMPAIRMENT OF LONG-TERM INVESTMENTS, FIXED ASSETS,
CONSTRUCTION IN PROGRESS AND OTHER ASSETS

The carrying amounts of individual assets are reviewed regularly to determine whether the recoverable amounts have declined below the carrying value. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to the recoverable amount. The recoverable amount is the greater of the estimated net selling price and the estimated value in use. In determining the value in use, estimated future cash flows to be generated by the asset are discounted to their present value. The provision for impairment loss is determined on an item-by-item basis and recognised as an expense in the income statement.

If there is an indication that an impairment loss recognised for an asset in prior years may no longer exist, or if there has been a change in the estimates used to determine the recoverable amount, which reduces the impairment loss, the provision for impairment loss is reversed. The reversed amount is credited to the income statement in the period in which the reversal is recognised.

(n) INCOME TAX

Income tax is recognised using the tax effect accounting method. Income tax for the year comprises current and deferred tax.

Current tax is calculated at the applicable tax rate on taxable profit.

Deferred tax is provided under the liability method, for timing differences between the accounting profit before tax and the taxable profit arising from the differences in the accounting and tax treatment of income and expenses or losses. When the tax rates change or new types of tax are levied, adjustments are made to the amounts originally recognised for the timing differences. The current tax rates are used in arriving at the reversal amounts when the timing differences are reversed.

Deferred tax assets arising from the tax value of losses, which are expected to be utilised against future taxable income, are set off against the deferred tax liabilities of the same tax payer and within the same jurisdiction. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(o) MAINTENANCE AND OVERHAUL COSTS

Routine maintenance and repairs and overhauls in respect of owned aircraft and aircraft held under finance leases are expensed as and when incurred. In respect of aircraft held under operating leases, a provision is made over the lease term for the estimated cost of scheduled overhauls that are required to be performed on the related aircraft prior to their return to the lessors.

3 SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(p) REVENUE RECOGNITION

Provided it is probable that the economic benefits will flow to the Group and the revenue and costs can be measured reliably, revenue is recognised in the income statement as follows:.

- (i) Passenger, cargo and mail revenues are recognised when the transportation is provided. Ticket sales for transportation not yet provided are included in current liabilities as sales in advance of carriage;
- (ii) Revenues from airline-related businesses are recognised when the relevant services are rendered;
- (iii) Interest income is recognised on a time-apportioned basis on the principal outstanding and at the applicable rate; and
- (iv) Dividend income is recognised when the Group's right to receive the dividend is established.

(q) TRAFFIC COMMISSIONS

Traffic commissions are expensed when the transportation is provided and the related revenue is recognised. Traffic commissions for transportation not yet provided are recorded on the balance sheet as a prepaid expense.

(r) BORROWING COSTS

Borrowing costs incurred on specific borrowings for the construction of fixed assets are capitalised into the cost of the fixed assets during the construction period in which the assets are brought to their intended uses.

Except for the above borrowing costs, other borrowing costs are recognised as financial expenses in the income statement when incurred.

(s) DIVIDENDS

Cash dividends to shareholders are recognised in the income and profit appropriation statement when approved. Dividends proposed or approved after the balance sheet date but before the date on which the financial statements are authorised for issue are separately disclosed under shareholders' equity in the balance sheet.

(t) RETIREMENT BENEFITS

Contributions to retirement schemes and additional retirement benefits paid to retired employees are charged to the income statement as and when incurred.

3 SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(u) FREQUENT FLYER AWARD PROGRAMMES

The Group maintains two frequent flyer award programmes, namely, the China Southern Airlines Sky Pearl Club and Egret Mileage Plus, which provide travel awards to members based on accumulated mileage. The estimated incremental cost of providing free travel is recognised as an expense and accrued as a current liability as members accumulate mileage. As members redeem awards or their entitlements expire, the incremental cost liability is reduced accordingly, to reflect the acquittal of the outstanding obligations.

Revenue from mileage sales to third parties under the frequent flyer award programmes is recognised when the related transportation services are provided.

(v) RELATED PARTY

Parties are considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control or common significant influence. Related parties may be individuals or entities.

4 TAXATION

(a) TAXES APPLICABLE TO RENDERING OF SERVICES BY THE GROUP ARE AS FOLLOWS:

CATEGORIES OF TAXES	TAX RATES	BASIS OF TAX
Business tax	3% or 5%	Traffic revenue, ground services income and commission income. All inbound international and Hong Kong regional flights are exempted from business tax.
City construction tax	7%	Business tax
Education surcharge	3%	Business tax

Pursuant to approval documents Cai Shui [2003] No. 113 and Cai Shui [2003] No. 227 jointly issued by the MOF and State Tax Bureau, passenger revenue from airline operations are exempted from business tax, city construction tax and education surcharge during the period from 1 May, 2003 to 31 December, 2003.

As mentioned in Note 1 to the financial statements, the Company's status has changed to foreign investment enterprise. Accordingly, pursuant to the relevant regulations, the Company is exempted from city construction tax and education surcharge

The useful lives for land use rights range from 30 to 70 years. At 31 December, 2003, the remaining unamortised periods range from 17 to 65 years.

At 31 December 2003, the net book values of the fully depreciated fixed assets of the Group and the Company in use were RMB60,345,000 and RMB42,800,000 respectively (2002: RMB18,704,000 and RMB9,465,000 respectively).

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

13 FIXED ASSETS (cont'd)

The Company entered into two separate arrangements (the "Arrangements") with certain independent third parties during each of 2002 and 2003. Under each of the Arrangements, the Company sold an aircraft and then immediately leased back the aircraft for an agreed period. As agreed, the lease payment obligations, with pre-determined net present values, were to be satisfied solely out of the sale proceeds and such amounts have been placed irrevocably by the Company in form of deposits and debt securities in favour of the lessors. The Company has an option to purchase the aircraft at a pre-determined date and the agreed purchase price is to be satisfied by the balance of the deposits and debt securities outstanding at that date. In the event that the lease agreement is early terminated by the Company, the Company is liable to pay a pre-determined penalty to the lessor. As long as the Company complies with the lease agreement, the Company is entitled to the continued possession and operation of the aircraft. Since the Company retains substantially all the risks and rewards incident to ownership of the aircraft and enjoys substantially the same rights to its use as before the Arrangements no adjustment has been made to the fixed assets. As at 31 December 2003, the net present value of the lease commitments and the corresponding defeased deposits and debt securities amounted to RMB2,409,252,000 (2002: RMB1,322,843,000). As a result of the Arrangements, the Company received a net cash benefit of RMB51,682,000 and RMB69,121,000 in 2002 and 2003 respectively, which has been recognised as income for the respective years.

14 CONSTRUCTION MATERIALS

The Group's and the Company's construction materials represented materials to be used for construction projects.

Notes:

(a) CUSTOMS DUTIES AND VALUE-ADDED TAX

Customs duties and value-added tax mainly represent custom duties and value-added tax payable by the Group in connection with purchase of aircraft. These custom duties and value-added tax payable were capitalised as part of the aircraft's costs. The Group is required to pay the customs duties and value-added tax by instalments.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

(b) LANDING AND TAKEOFF FEES, AIRCRAFT AND ENGINE REPAIR CHARGES, JET FUEL EXPENSES AND AIR CATERING EXPENSES

The transaction volumes and amounts involved for the landing and takeoff fees, aircraft and engine repair costs, jet fuel expenses and air catering expenses were significant. Their settlement generally took two to three months. Therefore, such expenses were accrued in the year to which they related in order to match with the revenue.

(c) STAFF HOUSING WELFARE AND LUMP SUM HOUSING ALLOWANCES

Pursuant to Cai Kuai Zi (2001) No. 5 issued by the MOF, lump sum housing allowances payable to employees who joined the Company before 1998 but having not yet allocated with staff housing were recorded as accrued expense.

Pursuant to certain sale and leaseback arrangements, the Company sold certain aircraft to independent third parties and then entered into operating leases with such parties to lease back the aircraft for a period of eight to nine years. The gains on sale and leaseback arrangements, being the excess of the sale proceeds, which approximated the aircraft's fair value on the date of disposal, over the aircraft's net book value and related disposal costs, were deferred and amortised over the period the aircraft were expected to be used.

Pursuant to certain operating lease arrangements for aircraft entered

Notes:

(a) TAX LOSSES

Pursuant to relevant tax regulations, taxable losses can be carried forward over a maximum period of five years to be offset against future taxable profits. The deferred tax is recognised based on the unutilised taxable losses and estimated future taxable profits.

(b) REPAIRS AND MAINTENANCE ACCRUALS

Certain of the Group's and the Company's overhaul expenses were deductible on a cash payment basis for taxation purposes. According to the accounting policies adopted in these financial statements, overhaul expenses are expensed as and when incurred. The Group and the Company recognised deferred tax for these timing differences.

Note: (cont'd)

(c) ROTABLE REPAIR CHARGES CAPITALISED

Pursuant to relevant tax regulations, repair charges for rotables are initially capitalised and amortised over five years for taxation purposes. According to the accounting policies adopted in these financial statements, repair charges for rotables are expensed as and when incurred. The Group and the Company recognised deferred tax for these timing differences.

(d) ACCRUED EXPENSES

Certain of the Group's and the Company's expenses are deductible on a cash payment basis for taxation purposes. In the preparation of these financial statements, these expenses are accounted for on an accrual basis. The Group and the Company recognised a deferred tax for these timing differences.

(e) GAINS ON SALE AND LEASEBACK TRANSACTIONS

Pursuant to relevant tax regulations, gains on sale and

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

leaseback transactions are taxable in the period they arise. According to the accounting policies adopted in these financial statements, these gains are recorded as deferred credits and amortised over the terms of the leases. The Group and the Company recognised deferred tax on these timing differences.

(f) UNDISTRIBUTED PROFITS OF SUBSIDIARIES

In 2002, the Company was required to pay additional tax on the dividends or profits received from certain subsidiaries that enjoyed preferential tax rates at a rate representing the difference between the Company's applicable rate of 33% and the subsidiaries' applicable tax rates. As stated in Note 1 to the financial statements, the Company's status has changed to a foreign investment enterprise in 2003. Accordingly, this deferred tax liability has been written back in 2003.

(g) DEPRECIATION OF FIXED ASSETS

This deferred tax was recognised for the timing difference arising from the difference between the aircraft depreciation rates for accounting purposes and the rates used for taxation purposes.

Notes: (cont'd)

(4) Advertising expenses represent advertising fees payable to Southern Airlines Advertising Company ("SAAC") for advertising and promotional services rendered to the Group. The fees are determined by reference to market rates. Annual budgeted advertising expenses are paid in a lump sum at the beginning of every year. Other advertising expenses are generally paid by the end of the following month. SAAC became a subsidiary of the Company in August 2002 and has been consolidated into the Group's consolidated financial statements since then.

(5) Commission expenses represent commission payable to Nanlung Travel & Express (H.K.) Ltd., South China International and Aviation and Travel Services Company, Golden Royal International Travel Ltd. and Shenzhen Baiyun Air Service Co. Ltd. in connection with air tickets sold by them on the Group's behalf. The Group's aggregate amount of ticket sales conducted through these agents was RMB143,016,000 for the year ended 31 December, 2003. The commission rates are based on the rates stipulated by the CAAC. The commission expense payable is offset directly against the sales proceeds receivable from them.

South China International and Aviation and Travel Services Company became a subsidiary of the Company in August 2002 and has been consolidated in the Group's consolidated financial statements since then.

(6) Air catering expenses represent fees payable to Shenzhen Air Catering Company Limited for providing inflight meals to the Group. CSAHC holds a 33% equity interest in the company. Prices are determined by reference to market prices. The payable is generally settled by the end of the following month.

(7) Repair charges represent fees payable to Guangzhou Aircraft Maintenance Engineering Company Limited and MTU Maintenance Zhuhai Co. Ltd. in connection with comprehensive aircraft maintenance services rendered to the Group. Fees are charged based on market prices. Fees amounting to RMB346,652,000 were eliminated upon the proportional consolidation of these companies.

(8) Housing benefits payable to CSAHC represent the difference between the carrying amounts of the quarters sold to the employees of the Group and the proceeds from sales of these quarters by CSAHC. The payment is determined based on number of quarter allocated and the construction cost of the housing sold over the sales prices, and is payable in accordance with the related agreement.

(9) Lease charges for land and buildings represent rentals payable to CSAHC by the Group under certain lease agreements in respect of certain land and buildings of CSAHC. The rentals are determined based

Please refer to Note 45(d) for the balance of deposits at the end of each year.
- (12) Pursuant to a wet lease agreement, the Company received wet lease rentals from wet leasing an Airbus 320-200 aircraft to Sichuan Airlines Corporation Limited. The rentals were determined by reference to market rentals. The rentals payable were settled on the 10th day of the following month.
- (13) During the year, CSAHC made short term cash advances to the Group. These advances were unsecured, interest free and repayable on demand. As at 31 December, 2003, the advances amounted to RMB165,995,000.
- (14) The Group provides retirees with medical benefits, transportation subsidies and other welfare facilities. Previously, the Group paid a fixed annual fee to CSAHC in return for CSAHC providing such benefits to the retired employees of the Group. With effect from 1 January, 2002, such arrangement was terminated. During 2003, CSAHC refunded to the Group the difference between the aggregate fixed annual fees received from the Group and the aggregate cost of services incurred by CSAHC.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

- (15) In August 2002, the Company acquired a 90% equity interest in each of Guangzhou Aviation Hotel, Southern Airlines Advertising Company and South China International Aviation & Travel Services Company from CSAHC at an aggregate cash consideration of approximately RMB107,846,000. The consideration was determined by reference to the valuation reports dated 18 March, 2002, prepared by Guangzhou Asset Appraisal Corp.. The consideration was settled in 2002.
- (16) During 2002, the Group acquired five Boeing 737-300/37K aircraft and related spare parts and certain vehicles from Zhongyuan Airlines, a subsidiary of CSAHC, at a consideration of approximately RMB1,096,866,000. The consideration was satisfied by cash of approximately RMB132,130,000 together with an assumption by the Group of Zhongyuan Airlines' debts of approximately RMB964,736,000. This consideration was determined by reference to the valuation reports prepared by Zhongfeng Valuation Company Limited.

In addition to the above, certain business undertakings of CSAHC provided transportation, hotel and other services to the Group during the year. The total amount involved was not material to the results of the Group for the year.

(e) GUARANTEES PROVIDED BY RELATED PARTIES AND OTHER CONTINGENT LIABILITIES: (cont'd)

- (ii) The Demerger Agreement dated 25 March, 1995 (such Agreement was amended by Amendment No. 1 dated 22 May, 1997) was entered into between the CSAHC and the Company for the purpose of defining and allocating the assets and liabilities between CSAHC and the Company. Under the Demerger Agreement, CSAHC and the Company have agreed to indemnify the other party against, among other things, claims, liabilities and expenses incurred by the other party but relating to the businesses, assets and liabilities held or assumed by CSAHC or the Company pursuant to the Demerger Agreement. From the date of the Demerger Agreement to the date on which these financial statements are authorised for issue, there have been no incidences of compensation in respect of claims, assets or liabilities held or assumed by CSAHC or the Company.
- (iii) The Company leases from CSAHC certain land in Guangzhou and certain land and buildings in Wuhan and Haikou. The Group has significant investments in buildings and other leasehold improvements located on such land. However, such land in Guangzhou and such land and buildings in Wuhan and Haikou lack adequate documentation evidencing the SA Group's ownership thereto.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Pursuant to Compensation Agreement dated 22 May, 1997, CSAHC agrees to indemnify the Group against any loss or damage caused by any challenge or interference with the Group's use of any of above land and buildings.

The directors of the Company are of the opinion that the above transactions with related parties were entered into in the normal course of business and on normal commercial terms or in accordance with the agreements governing such transactions.

=====			

Note: Mainly routes between the PRC and Asian countries, the United States of America, the Netherlands, Belgium and Australia.

The major revenue-earning assets of the Group is its aircraft fleet, most of which is registered in the PRC. Since the Group's aircraft fleet is employed flexibly across its route network, there is no suitable basis for allocating its assets to geographic segments. Substantially all of the Group's non-aircraft identifiable assets are located in the PRC.

47 CONTINGENT LIABILITIES

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

New Link Consultants Limited filed a lawsuit with the High Court in Hong Kong against the Company alleging violation of certain agreements in respect of the procurement of aviation inventories, and lodged a claim. The Company has conducted a detailed assessment of the claim and concluded that the Company will be successful in defending itself, and as the lawsuit is still at a preliminary stage, no provision for contingent liabilities is required in these financial statements.

Notes:

- (a) In accordance with PRC accounting rules and regulations, gains on aircraft sale and leaseback transactions are recorded as deferred credits and amortised over the lease terms on a straight line basis. Under IFRS, gains on sale and leaseback transactions where the subsequent lease is an operating lease are recognised as income immediately, if the transactions are established at fair value. Differences between the sale price and fair value are deferred and amortised over the lease term.
- (b) In accordance with PRC accounting rules and regulations, losses on staff housing allocation executed by CSAHC on the Company's behalf are charged to retained profits as and when incurred. In addition, lump sum housing benefits are charged to retained profits as of 1 January, 2001 pursuant to the relevant regulations. Under IFRS, losses on staff housing allocations and lump sum housing benefits are charged to the

income statement in the obligatory periods stipulated by the relevant contracts.

- (c) In accordance with PRC accounting rules and regulations, land use rights are carried at revalued amounts. Under IFRS, land use rights are carried at cost with effect from 1 January, 2002. Accordingly, the unamortised surplus on revaluation of the land use rights was reversed against the shareholders equity.
- (d) In the financial statements prepared under IFRS, an adjustment has been made to reverse certain unrealised deferred tax assets upon the annual assessment performed by the Group for the year. Such items were adjusted for in the financial statements of the Group prepared under PRC accounting rules and regulations in respect of the prior years.
- (e) The Group's consolidated financial statements prepared under IFRS for the two years ended 31 December, 2002 and 2003 were audited by KPMG, a firm of certified public accountants in Hong Kong.

NOTES:

(a) SALE AND LEASEBACK ACCOUNTING

Under IFRS, gains on sale and leaseback transactions where the subsequent lease is an operating lease are recognised as income immediately, if the transactions are established at fair value. Differences between the sale price and fair value are deferred and amortised over the period for which the assets are expected to be used. Under U.S. GAAP, such gains are deferred and amortised over the term of the lease.

(b) LEASE ARRANGEMENTS

As disclosed in Note 10 to the consolidated financial statements, during 2002 and 2003, the Group entered into two separate arrangements with certain independent third parties under which the Group sold aircraft and then immediately leased back the aircraft for a pre-determined period. As a result of the arrangements, the Group received a net cash benefit of RMB51,682,000 and RMB69,121,000 in 2002 and 2003 respectively which has been recognised as income under IFRS. Under U.S. GAAP, such benefits are deferred and amortised over the minimum lease period.

In addition, under the lease arrangements, the commitments by the Group to make long-term lease payments have been defeased by the placement of security deposits. As such, under IFRS, such commitments and deposits are not recognised on the consolidated balance sheet. Under U.S. GAAP, such commitments and deposits would be recognised on the consolidated balance sheet, as such commitments are not deemed as extinguished by the placement of security deposits.

(c) CAPITALISED INTEREST

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Under IFRS, the Group capitalises interest costs to the extent the related borrowings are directly attributable to the acquisition or construction of an asset.

Under U.S. GAAP, interest costs capitalised are determined based on specific borrowings related to the acquisition or construction of an asset, if an entity's financing plans associate a specific new borrowing with a qualifying asset. If average accumulated expenditures for the asset exceed the amounts of specific new borrowings associated with the asset, additional interest costs capitalised are based on the weighted average interest rate applicable to other borrowings of the entity.

(d) REVALUATION OF FIXED ASSETS

In connection with the Reorganisation in 1996, the fixed assets of the Group were revalued as of 31 December, 1996. Such fixed asset revaluation resulted in an increase in shareholders' equity with respect to the increase in carrying amount of certain fixed assets above their historical cost bases, while an exceptional charge to profit and loss account was recorded with respect to the reduction in carrying amount of certain fixed assets below their historical cost bases. In addition, the revalued fixed asset amounts serve as the tax bases of fixed assets for years beginning in 1997. Accordingly, the fixed asset revaluation eliminated certain of the temporary differences which gave rise to a deferred tax asset as at 31 December, 1996. Such deferred tax asset was offset against the revaluation surplus.

NOTES: (cont'd)

(d) REVALUATION OF FIXED ASSETS (cont'd)

Under U.S. GAAP, fixed assets are stated at their historical cost unless an impairment loss has been recorded. An impairment loss on fixed assets is recorded under U.S. GAAP if the carrying amount of such asset exceeds its future undiscounted cash flows, excluding finance costs. The future undiscounted cash flows, excluding finance costs, of the Group's fixed assets whose carrying amount was reduced in connection with the Reorganisation, exceed their historical cost carrying amount and, therefore, impairment of such assets is not appropriate under U.S. GAAP. Accordingly, the revaluation reserve recorded directly to shareholders' equity and the exceptional charge recorded under IFRS in 1996 and the additional depreciation charges recorded in the seven years ended 31 December, 2003, as a result of the Reorganisation are reversed for U.S. GAAP purposes. However, as a result of the tax deductibility of the net revaluation reserve, a deferred tax asset related to the reversal of the net revaluation reserve is created under U.S. GAAP with a corresponding increase in shareholders' equity as at 31 December, 1996. Such deferred tax asset will be reversed upon depreciation of the net revaluation surplus included in the fixed assets beginning 1997.

(e) INVESTMENTS IN ASSOCIATED COMPANY AND JOINTLY CONTROLLED ENTITY

During 2002, the Company invested in an affiliated company and a

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

jointly controlled entity, which were PRC state-owned enterprises. Under IFRS, such investments are initially recorded on a fair value basis at the cost of purchases borne by the Company. In the consolidated profit and loss account, the equity share of results of the investees are measured based on the fair value of underlying net assets determined on the date of acquisitions.

Under U.S. GAAP, such transactions would be considered to be "combinations of businesses under common control". Under U.S. GAAP, such investments are initially recorded at the Company's equity share of net assets of the investees determined on a historical cost basis. The differences between such amounts and the cost of purchases are reflected as movements in the shareholders' equity. In the consolidated profit and loss account, the equity share of results of the investees are measured based on the historical cost basis.

(f) FINANCIAL STATEMENTS PRESENTATION AND DISCLOSURES

In the consolidated profit and loss account presented under IFRS, (loss)/gain on sale of fixed assets is classified under "Non-operating income/(expenses)". Under U.S. GAAP, such (loss)/gain would be classified under "Operating income/ (expenses) - General and administrative".

As disclosed in note 16 to the consolidated financial statements, deferred tax assets are presented on a net basis under IFRS. Under U.S. GAAP, the gross amount of such deferred tax assets and any applicable valuation allowance would be separately disclosed.

(g) RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

FIN 46R

In December 2003, the FASB issued FASB Interpretation No. 46 (revised December 2003) "Consolidation of Variable Interest Entities" which addresses how a business enterprise should evaluate whether it has a controlling financial interest in an entity through means other than voting rights and accordingly should consolidate the entity. FIN 46R replaces FASB Interpretation No. 46 "Consolidation of Variable Interest Entities" which was issued in January 2003. The Company will be required to apply FIN 46R to variable interests in VIEs created after 31 December, 2003. For variable interests in VIEs created before 1 January, 2004, the Interpretation will be applied beginning on 1 January, 2005. For any VIEs that must be consolidated under FIN 46R that were created before 1 January, 2004, the assets, liabilities and noncontrolling interests of the VIE initially would be measured at their carrying amounts with any difference between the net amount added to the balance sheet and any previously recognised interest being recognised as the cumulative effect of an accounting change. If determining the carrying amounts is not practicable, fair value at the date FIN 46R first applies may be used to measure the assets, liabilities and noncontrolling interest of the VIE. The Company is evaluating the impact of applying FIN 46R to existing VIEs in which it

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

has variable interests and has not yet completed this evaluation.

FASB No. 150

FASB Statement No. 150 "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" was issued in May 2003. This Statement establishes standards for the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. The Statement also includes required disclosures for financial instruments within its scope. For the Company, the Statement was effective for instruments entered into or modified after 31 May, 2003 and otherwise will be effective as of 1 January, 2004, except for mandatorily redeemable financial instruments. For certain mandatorily redeemable financial instruments, the Statement will be effective for the Company on 1 January, 2005. The effective date has been deferred indefinitely for certain other types of mandatorily redeemable financial instruments. The Company currently does not have any financial instruments that are within the scope of this Statement.

Notes:

1. During 1999, the Group changed its IFRS accounting policy in respect of the recognition of aircraft overhaul expense. Such change was reflected in the consolidated financial statements on a retrospective basis with restatement of the relevant balances for the relevant prior periods. The restatement resulted in a decrease in an increase in profit attributable to shareholders for 1999 of RMB22 million.
2. Basic (loss)/earnings per share for year 2003 and for years 1999 to 2002 are computed by dividing (loss)/profit attributable to shareholders for the respective years by the weighted average number of shares in issue of 3,831,712,000 for year 2003 and 3,374,178,000 for years 1999 to 2002 respectively.
