Consolidated Business Results

For the first quarter of fiscal 2006, ended June 30, 2005, consolidated operating revenue was ¥164,183 million (US\$1,479.1 million), approximately the same as the corresponding period of the previous year. Operating loss, however, was ¥8,869 million (US\$79.9 million), compared with operating income of ¥5,012 million for the corresponding period of the previous year and net loss amounted to \(\pm\)5,343 million (US\(\pm\)48.1 million), compared with net income of ¥1,497 million for the corresponding period of the previous year. The average value of the yen was up 1.9% against the U.S. dollar and down 2.4% against the euro from the corresponding period in the previous year. Home Electronics sales increased 13.4% from the corresponding period in the previous year to \(\frac{1}{2}\)63,205 million (US\$569.4 million). In Japan, sales increased by 19.3% to ¥17,040 million (US\$153.5 million), primarily due to an increase in sales of plasma displays, reflecting the expansion of our OEM (original equipment manufacturing) sales caused by the acquisition of a new subsidiary last autumn, despite the decrease in sales of DVD recorders. Overseas sales increased 11.3% to ¥46,165 million (US\$415.9 million), due to a worldwide rise in sales of plasma displays, and in Asia of DVD drives for personal computers, despite a decline in sales of audio products in Europe and Asia. Car Electronics sales amounted to \(\frac{4}{82},213\) million (US\(\frac{5}{40}.7\) million), up 3.3\% over the corresponding period in the previous year. In Japan, sales decreased 7.4% to \(\frac{4}{2}\)9,941 million (US\(\frac{4}{2}\)969.7 million), due to a decrease in sales of car navigation systems to automobile manufacturers, which resulted from the lack of new car model launches compared with the corresponding period of the previous year, despite increased sales of such systems to consumer markets. Overseas sales increased 10.7% to ¥52,272 million (US\$470.9 million), due to growth in sales of car audio products to automobile manufacturers in North America and consumer markets in Central and South America and Europe; and higher sales of car navigation systems in North America.

Royalty revenue from **Patent Licensing** decreased 60.9% from the corresponding period in the previous year to \$1,123 million (US\$10.1 million), reflecting the expiration of patents included in a portfolio of patents licensed to the optical disc industry and the lack of revenue from renewed contracts with licensees compared with the corresponding period of the previous year.

Others sales decreased 30.3% from the corresponding period in the previous year to \(\xi\)17,642 million (US\(\xi\)158.9 million). In Japan, sales decreased 30.9% to \(\xi\)8,442 million (US\(\xi\)76.1 million) reflecting a sales shift from Japan to China of devices for cellular phones and a decrease in sales of organic light-emitting diode (OLED) display panels.

-2-

Table of Contents

Overseas, sales decreased 29.7% to ¥9,200 million (US\$82.9 million), due to a drop in sales of optical disc manufacturing systems in Asia, despite the increase in sales of devices for cellular phones in China. Operating loss was ¥8,869 million (US\$79.9 million) compared with operating income of ¥5,012 million for the corresponding period of the previous year. The loss resulted mainly from decreased gross profit margins due to the continuing decline in market prices of our major products. Net loss amounted to ¥5,343 million (US\$48.1 million) compared with net income of ¥1,497 million for the corresponding period of the previous year.

Cash Flows

Net cash used in operating activities for the first quarter ended June 30, 2005 was ¥1,060 million (US\$9.5 million), compared with ¥5,676 million used in the corresponding period of the previous year. Although net loss of ¥5,343 million was posted this quarter, collection of accounts receivable increased, and resulted in less cash used in operating activities. Net cash used in investing activities was ¥4,924 million (US\$44.4 million), compared with ¥13,283 million used in the corresponding period of the previous year. The difference resulted from decreased investment in production facilities as well as proceeds from sales of investment securities. Net cash provided by financing activities was ¥2,830 million (US\$25.5 million), compared with ¥6,365 million used in the corresponding period of the previous year.

Business Forecasts for Fiscal 2006

Our consolidated business forecasts for fiscal 2006, ending March 31, 2006, are unchanged from those announced on April 27, 2005, which are shown below. We assume average yen-U.S. dollar and yen-euro exchange rates for the remaining period of fiscal 2006 of \$105 and \$135, respectively.

(In millions of yen)

Cautionary Statement with Respect to Forward-Looking Statements

Statements made in this release with respect to our current plans, estimates, strategies and beliefs, and other statements that are not historical facts are forward-looking statements about our future performance. These statements are based on management sassumptions and beliefs

-3-

Table of Contents

in light of the information currently available to it. We caution that a number of important risks and uncertainties could cause actual results to differ materially from those discussed in the forward-looking statements, and therefore you should not place undue reliance on them. You also should not believe that it is our obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. We disclaim any such obligation. Risks and uncertainties that might affect us include, but are not limited to, (i) general economic conditions in our markets, particularly levels of consumer spending; (ii) exchange rates, particularly between the yen and the U.S. dollar, euro, and other currencies in which we make significant sales or in which our assets and liabilities are denominated; (iii) our ability to continue to design and develop and win acceptance of our products and services, which are offered in highly competitive markets characterized by continual new product introductions, rapid developments in technology and subjective and changing consumer preferences; (iv) our ability to successfully implement our business strategies; (v) our ability to compete, and develop and implement successful sales and distribution strategies in light of technological developments in and affecting our businesses; (vi) our continued ability to devote sufficient resources to research and development, and capital expenditure; (vii) our ability to continuously enhance our brand image; (viii) the success of our joint ventures and alliances; and (ix) the outcome of contingencies. Pioneer Corporation is one of the leading manufacturers of consumer- and business-use electronics products such as audio, video and car electronics on a global scale. Its shares are traded on the New York Stock Exchange (ticker symbol PIO), Euronext Amsterdam, Tokyo Stock Exchange, and Osaka Securities Exchange.
