06.05.05 09:56 **TEL SHARE BUYBACK AGREEMENT** other announcements o 133K

Telenor has entered into a new agreement with the Kingdom of Norway, as the largest shareholder in Telenor, regarding share buyback. The agreement is a renewal of the agreement entered into between the parties 26 March 2004 and which expires 20 May 2005.

The agreement assumes that the general meeting on 20 May 2005, authorises Telenor's Board of Directors to buyback own shares. The Kingdom of Norway is committed to vote in favour of such authorisation. The Kingdom of Norway is committed to participate in a buyback on a proportionate basis by way of cancelling a proportionate number of its shares at the subsequent General Meeting. The Kingdom of Norway's ownership percentage in Telenor will thus remain unaffected. The agreement states that upon a share buyback by Telenor, the subsequent General Meeting will be invited to approve cancellation of the buyback shares. The Kingdom of Norway is committed to vote in favour of such a cancellation. The compensation for the Kingdom of Norway's shares to be cancelled will be determined by the average price paid in the market under the buyback, plus an interest based on NIBOR + 1 percent p.a., calculated from the dates of purchases under the buyback until payment to the Kingdom of Norway at the time of cancellation. The agreement expires at the date of the General Meeting in 2006. The agreement will be annulled if Telenor uses own shares to other purposes than cancellation, and/or in order to fulfil obligations relating to option programs for managers and key employees and/or to share programs for employees.

23.05.05 08:08 **TEL TELENOR ACQUIRES BREDBANDSBOLAGET AND CYBERCITY** avtaler o 102K

Telenor has signed agreements with the shareholders of Bredbandsbolaget in Sweden and Cybercity in Denmark to acquire the two companies for SEK 6.0 billion and DKK 1.4 billion respectively. The acquisitions of Bredbandsbolaget and Cybercity strengthen Telenor's existing Nordic operations, and give Telenor a strong position

in the fast growing Nordic broadband and datacom market, said Morten Karlsen Sørby, Executive Vice President in Telenor.

Telenor will benefit from synergies when utilizing the backbone network capacities in each country. Future cost savings between the acquired companies and existing Telenor operations in Sweden (Telenor AB) and Denmark (SONOFON AS) adds up to NOK 2.5 billion (net present value).

Bredbandsbolaget is the second largest provider of broadband services in Sweden with 335,000 customers, representing a 24 per cent market share. Operating an all- IP fiber and DSL network, Bredbandsbolaget is synonymous with high-speed broadband. The company launched Voice-over- IP in 2003, and serves 80,000 voice customers today. Bredbandsbolaget recently launched IP-TV services, thus offering full triple-play. The purchase price for Bredbandsbolaget (including debt) is SEK 6,033 million.

Cybercity has consistently improved its position as the third largest Danish supplier of broadband services. Cybercity has 90,000 customers and 8 per cent market share. Covering 70 per cent of Denmark with its own DSL infrastructure, the company focuses on the high-end residential, home office and SME segments. Cybercity is known for its high quality solutions and excellent customer service. The purchase price for Cybercity is DKK 1,385 million in cash on a debt-free basis.

Commenting on the transactions, Morten Karlsen Sørby, Executive Vice President in Telenor, said: Bredbandsbolaget and Cybercity are both well-run companies, and they improve Telenor`s offering to both business and residential customers in the Nordic region. The companies add scale and offer substantial synergy to our Nordic operations. Broadband is an important distribution channel for future voice and content services, and we are well positioned for the high broadband growth in the Nordic region.

Bredbandsbolaget and Cybercity will continue to operate under their current brands. Both acquisitions are expected to be completed during June 2005, subject to approval from the Swedish and Danish competition authorities, respectively.
