EXPLANATORY NOTE

This report combines the Quarterly Reports on Form 10-Q for the three months ended June 30, 2012 of Summit Hotel Properties, Inc., a Maryland corporation, and Summit Hotel OP, LP, a Delaware limited partnership.

Unless stated otherwise or the context otherwise requires, references in this report to:

“Summit REIT” mean Summit Hotel Properties, Inc., a Maryland corporation;

“Summit OP” or “our operating partnership” mean Summit Hotel OP, LP, a Delaware limited partnership, our operating partnership, and its consolidated subsidiaries; and

“we,” “our,” “us,” “our company” or “the company” mean Summit REIT, Summit OP and their consolidated subsidiaries taken together as one enterprise. When this report discusses or refers to activities occurring prior to February 14, 2011, the date on which our operations commenced, these references refer to our predecessor.

Summit REIT is the sole member of Summit Hotel GP, LLC, a Delaware limited liability company, which is the sole general partner (the “General Partner”) of Summit OP. Effective as of February 14, 2011, our predecessor merged with and into Summit OP, with the former members of our predecessor exchanging their membership interests in our predecessor for common units of partnership interest of Summit OP (“Common Units”) and Summit OP succeeding to the business and assets of our predecessor. Also, on February 14, 2011, Summit REIT completed its initial public offering (“IPO”) and a concurrent private placement of its common stock and contributed the net proceeds of the IPO and concurrent private placement to Summit OP in exchange for Common Units. On October 28, 2011, Summit REIT completed a follow-on public offering of 2,000,000 shares of its 9.25% Series A cumulative redeemable preferred stock (“Series A Preferred Stock”). As of June 30, 2012, Summit REIT owned approximately 81.8% of the issued and outstanding Common Units, including the sole general partnership interest held by the General Partner. As of June 30, 2012, Summit REIT owned all of the issued and outstanding 9.25% Series A Cumulative Redeemable Preferred Units of Summit OP (“Series A Preferred Units”). As the sole member of the General Partner, Summit REIT has exclusive control of Summit OP’s day-to-day management. The remaining interests in Summit OP are owned by third parties, including the former members of our predecessor.

We believe combining the Quarterly Reports on Form 10-Q of Summit REIT and Summit OP into this single report provides the following benefits:

it enhances investors’ understanding of Summit REIT and Summit OP by enabling investors to view the business as a whole in the same manner as management views and operates the business;

it eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosure applies to both Summit REIT and Summit OP; and

it creates time and cost efficiencies for both companies through the preparation of one combined report instead of two separate reports.

We believe it is important to understand the few differences between Summit REIT and Summit OP in the context of how Summit REIT and Summit OP operate as a consolidated company. Summit REIT has elected to be taxed as a real estate investment trust (“REIT”) under the Internal Revenue Code of 1986, as amended (the “Code”), commencing with its short taxable year ending December 31, 2011 upon filing its federal income tax return for that year.

Edgar Filing: Summit Hotel OP, LP - Form 10-Q

As of June 30, 2012, Summit REIT's only material assets were its ownership of Common Units and Series A Preferred Units of Summit OP and its ownership of the membership interests in the General Partner. As a result, Summit REIT does not conduct business itself, other than controlling, through the General Partner, Summit OP, raising capital through issuances of equity securities from time to time and guaranteeing certain debt of Summit OP and its subsidiaries. Summit OP and its subsidiaries hold all the assets of the consolidated company. Except for net proceeds from securities issuances by Summit REIT, which are contributed to Summit OP in exchange for partnership units of Summit OP, Summit OP and its subsidiaries generate capital from the operation of our business and through borrowings and the issuance of partnership units of Summit OP.

Stockholders' equity, partners' capital and noncontrolling interests are the main areas of difference between the consolidated financial statements of Summit REIT and those of Summit OP. As of June 30, 2012, Summit OP's capital interests include Common Units, representing general and limited partnership interests, and Series A Preferred Units. The Common Units owned by limited partners other than Summit REIT and its subsidiaries are accounted for in partners' capital in Summit OP's consolidated financial statements and (within stockholders' equity) as noncontrolling interests in Summit REIT's consolidated financial statements.

In order to highlight the differences between Summit REIT and Summit OP, there are sections in this report that separately discuss Summit REIT and Summit OP, including separate financial statements and notes thereto and separate Exhibit 31 and Exhibit 32 certifications. In the sections that combine disclosure for Summit REIT and Summit OP (i.e., where the disclosure refers to the consolidated company), this report refers to actions or holdings as our actions or holdings and, unless otherwise indicated, means the actions or holdings of Summit REIT and Summit OP and their respective subsidiaries, as one consolidated company.

As the sole member of the General Partner, Summit REIT consolidates Summit OP for financial reporting purposes, and Summit REIT does not have assets other than its investment in the General Partner and Summit OP. Therefore, while stockholders' equity and partners' capital differ as discussed above, the assets and liabilities of Summit REIT and Summit OP are the same on their respective financial statements.

Finally, we refer to a number of other entities in this report as follows. Unless the context otherwise requires or indicates, references in this report to:

“the LLC” refer to Summit Hotel Properties, LLC and references to “our predecessor” include the LLC and its consolidated subsidiaries, including Summit Group of Scottsdale, Arizona, LLC (“Summit of Scottsdale”);

“our TRSs” refer to Summit Hotel TRS, Inc., a Delaware corporation, and Summit Hotel TRS II, Inc., a Delaware corporation, and any other taxable REIT subsidiaries (“TRSs”) that we may form in the future;

“our TRS lessees” refer to the wholly owned subsidiaries of our TRSs that lease our hotels from Summit OP or subsidiaries of Summit OP; and

“The Summit Group” refer to The Summit Group, Inc., our predecessor's hotel management company, Company Manager and Class C Member, which is wholly owned by our Executive Chairman, Kerry W. Boekelheide.

(PREDECESSOR)
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
JUNE 30, 2012

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES AND BUSINESS

Basis of Presentation

Summit Hotel Properties, Inc. (the “Company”) is a self-advised hotel investment company that was organized on June 30, 2010 as a Maryland corporation. The Company holds both general and limited partnership interests in Summit Hotel OP, LP (the “Operating Partnership”), a Delaware limited partnership also organized on June 30, 2010. On February 14, 2011, the Company closed on its initial public offering (“IPO”) of 26,000,000 shares of common stock and a concurrent private placement of 1,274,000 shares of common stock. Effective February 14, 2011, the Operating Partnership and Summit Hotel Properties, LLC (the “Predecessor”) completed the merger of the Predecessor with and into the Operating Partnership (the “Merger”). At the effective time of the Merger, the outstanding Class A, Class A-1, Class B and Class C membership interests in the Predecessor were issued and converted into, and cancelled in exchange for, a total of 9,993,992 common units of limited partnership interest in the Operating Partnership (“Common Units”), and the members of the Predecessor were admitted as limited partners of the Operating Partnership. Also effective February 14, 2011, The Summit Group, Inc., the parent company of the Predecessor (“The Summit Group”), contributed its 36% Class B membership interest in Summit Group of Scottsdale, Arizona LLC (“Summit of Scottsdale”) to the Operating Partnership in exchange for 74,829 Common Units and an unaffiliated third-party investor contributed its 15% Class C membership interest in Summit of Scottsdale to the Operating Partnership in exchange for 31,179 Common Units. Effective February 14, 2011, the Company contributed the net proceeds of the IPO and the concurrent private placement to the Operating Partnership in exchange for an aggregate of 27,274,000 Common Units, including Common Units representing the sole general partnership interest in the Operating Partnership, which are held by a wholly owned subsidiary of the Company as the sole general partner of the Operating Partnership. Unless the context otherwise requires, “we” and “our” refer to the Company and the Operating Partnership collectively.

While the Operating Partnership was the survivor of and the legal acquirer of the Predecessor in the merger, for accounting and financial reporting purposes, the Predecessor is considered the accounting acquirer in the Merger. As a result, the historical consolidated financial statements of the Predecessor are presented as the historical consolidated financial statements of the Company and the Operating Partnership after completion of the Merger and the contributions of the Class B and C membership interests in Summit of Scottsdale to the Operating Partnership (collectively, the “Reorganization Transaction”).

As a result of the Reorganization Transaction, the Operating Partnership and its subsidiaries acquired sole ownership of the 65 hotels in its initial portfolio. In addition, the Operating Partnership and its subsidiaries assumed the liabilities, including indebtedness, of the Predecessor and its subsidiaries.

As of June 30, 2012, our real estate investment portfolio consists of 73 upscale, upper midscale and midscale hotels with a total of 7,489 guestrooms located in small, mid-sized and suburban markets in 20 states (see Note 3 for new acquisitions). The hotels are leased to subsidiaries (“TRS Lessees”) of the Company’s taxable REIT subsidiaries (“TRSs”). The Company indirectly owns 100% of the outstanding equity interests in the TRS Lessees.

The accompanying unaudited interim financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”) for reporting on interim periods. Accordingly, certain information

and footnotes required by Generally Accepted Accounting Principles (“GAAP”) for complete financial statements have been condensed or omitted. Interim results may not be indicative of fiscal year performance because of seasonal and other factors. These interim statements should be read in conjunction with the financial statements and notes thereto included in our combined Annual Report on Form 10-K for the year ended December 31, 2011. In management’s opinion, all adjustments made were normal and recurring in nature, and were necessary for a fair statement of the results of the interim period.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Consolidation

The accompanying condensed consolidated financial statements of the Company include the accounts of the Company, the Operating Partnership, and the Operating Partnership's subsidiaries. The accompanying condensed consolidated financial statements of the Operating Partnership include the accounts of the Operating Partnership and its subsidiaries. All significant intercompany balances and transactions have been eliminated in the condensed consolidated financial statements.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation with no impact to net income, shareholders' equity or cash flows.

Recent Accounting Pronouncements

In May 2011, FASB issued an update (ASU No. 2011-04) to ASC 820, Fair Value Measurements and Disclosures, to develop common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with GAAP and IFRS. This update is effective for interim and fiscal years beginning after December 15, 2011. Adoption of this ASU did not have a material impact on the consolidated financial statements.

In June 2011, FASB issued ASU 2011-05, Presentation of Comprehensive Income. ASU 2011-05 requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in equity. ASU 2011-05 is effective for interim and fiscal years beginning after December 15, 2011. In December 2011, the FASB decided to defer the effective date of those changes in ASU 2011-05 that relate only to the presentation of reclassification adjustments in the statement of income by issuing ASU 2011-12, Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive income in Accounting Standards Update 2011-05. The adoption of this ASU did not have an impact on the consolidated financial statements.

(PREDECESSOR)
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
JUNE 30, 2012

Revenue Recognition

Revenue is recognized when rooms are occupied and services have been rendered.

Derivatives and Hedges

We use interest rate derivatives to hedge our risks on variable-rate debt and to capitalize on the historical correlation between changes in LIBOR (London Interbank Offered Rate) and RevPAR (Revenue per Available Room). We apply hedge accounting to our interest rate swap derivatives. Interest rate derivatives could include swaps, caps, and floors. We assess the effectiveness of each hedging relationship by comparing changes in fair value or cash flows of the derivative hedging instrument with the changes in fair value or cash flows of the designated hedged item or transaction.

All derivatives are recorded at fair value and reported as a derivative asset or liability in the condensed consolidated balance sheets. For interest rate derivatives designated as cash flow hedges:

- a) the effective portion of changes in fair value is initially reported as a component of “Accumulated Other Comprehensive Income (Loss)” (“OCI”) in the equity section of the consolidated balance sheets and reclassified to interest expense in the consolidated statements of operations in the period during which the hedged transaction affects earnings, and
- b) the ineffective portion of changes in fair value is recognized directly in earnings “gain (loss) on derivatives” in the consolidated statements of operations.

Fair Value

FASB ASC 820 defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements. Fair value is defined under GAAP as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs.

Our estimates of the fair value of financial instruments as of June 30, 2012 were determined using available market information and appropriate valuation methods. Considerable judgment is necessary to interpret market data and develop estimated fair value. The use of different market assumptions or estimation methods may have a material effect on the estimated fair value amounts.

The carrying amounts of cash and cash equivalents, restricted cash, receivables, accounts payable and accrued expenses approximate fair value due to the short-term nature of these instruments.

As of June 30, 2012, the aggregate fair value of our consolidated mortgages and notes payable, (Level 2) is approximately \$299.3 million, compared to the aggregate carrying value of approximately \$298.4 million on our consolidated balance sheet.

FASB ASC 820 also requires that non-financial assets and non-financial liabilities be disclosed at fair value in the financial statements if these items are measured at fair value on a non-recurring basis, such as in determining impairment loss or the value of assets held for sale as described below.

(PREDECESSOR)
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
JUNE 30, 2012

Depreciation and Amortization

Hotels are carried at cost and depreciated using the straight-line method over an estimated useful life of 27 to 40 years for buildings and two to 15 years for furniture, fixtures and equipment. We are required to make subjective assessments as to the useful lives and classification of our properties for purposes of determining the amount of depreciation expense to reflect each year with respect to the assets. Depreciation and amortization expense consists of depreciation of real property, amortization of deferred financing costs and amortization of franchise fees. Depreciation expense was \$7,437,937 and \$6,346,679 for the three months ended June 30, 2012 and 2011, respectively. Depreciation expense was \$15,013,179 and \$12,484,678 for the six months ended June 30, 2012 and 2011, respectively. Amortization of deferred financing costs was \$457,360 and \$337,938 for the three months ended June 30, 2012 and 2011, respectively. Amortization of deferred financing costs was \$1,222,693 and \$617,325 for the six months ended June 30, 2012 and 2011, respectively. Amortization of franchise fees was \$282,036 and \$134,991 for the three months ended June 30, 2012 and 2011, respectively. Amortization of franchise fees was \$421,749 and \$576,036 for the six months ended June 30, 2012 and 2011, respectively.

Long-Lived Assets and Impairment

We apply the provisions of FASB ASC 360, Property Plant and Equipment, which addresses financial accounting and reporting for the impairment or disposal of long-lived assets.

We monitor events and changes in circumstances for indicators that the carrying value of a hotel and related assets may be impaired. Factors that could trigger an impairment analysis include, among others: (1) significant underperformance relative to historical or projected operating results, (2) significant changes in the manner of use of a hotel or the strategy of our overall business, (3) a significant increase in competition, (4) a significant adverse change in legal factors or regulations or (5) significant negative industry or economic trends. When such factors are identified, we prepare an estimate of the undiscounted future cash flows, without interest charges, of the specific hotel and determine if the investment in such hotel is recoverable based on the undiscounted future cash flows. If impairment is indicated, an adjustment is made to the carrying value of the hotel to reflect the hotel at fair value.

During the second quarter of 2012, the Company disposed of three hotels located in Twin Falls, ID for a sales price of \$16.5 million. As a result of entering into this sales agreement, we recorded an impairment loss of approximately \$932,000 during the first quarter of 2012 for those assets as the anticipated net proceeds are less than the carrying value. During the second quarter of 2012, the Company entered into an agreement to sell a hotel in Missoula, MT and expects to close on this sale during third quarter of 2012. We recorded an impairment loss of approximately \$1,166,000 during the second quarter of 2012 for that asset as the anticipated net proceeds are less than the carrying value. This asset is classified as "held for sale" at June 30, 2012, and operations related to these hotels are included in discontinued operations (see Note 5).

Assets Held for Sale

FASB ASC 360 requires a long-lived asset to be sold to be classified as "held for sale" in the period in which certain criteria are met, including that the sale of the asset within one year is probable. If assets are classified as held for sale, they are carried at the lower of carrying amount or fair value, less costs to sell. FASB ASC 360 also requires that the

results of operations of a component of an entity that either has been disposed of or is classified as held for sale be reported in discontinued operations if the operations and cash flows of the component have been or will be eliminated from our ongoing operations. FASB ASC 360 also states that depreciation will cease to continue on held for sale assets.

JUNE 30, 2012

As a part of routine procedures, we periodically review hotels based on established criteria such as age of hotel property, type of franchise associated with hotel property, and adverse economic and competitive conditions in the region surrounding the property. During the period, we completed a comprehensive review of our investment strategy and of our existing hotel portfolio and our land held for development to identify properties which we believe are either non-core or no longer complement the business as required by FASB ASC 360. We have reclassified one hotel located in Missoula, MT as held for sale at June 30, 2012, as we have entered into a purchase and sale agreement on this hotel and plan to close on the sale during the third quarter of 2012. (see Note 5 for discontinued operations)

Assets and liabilities held for sale consisted of the following as of June 30, 2012:

	2012
Land	\$ 690,048
Building	741,257
Furniture, fixtures and equipment	198,107

Acquisitions

We allocate the purchase price of acquisitions based on the fair value of the acquired assets and assumed liabilities. We determine the acquisition-date fair values of all assets and assumed liabilities using appraisals or methods similar to those used by independent appraisers, for example, using a discounted cash flow analysis that utilizes appropriate discount and/or capitalization rates and available market information (level 3). Estimates of future cash flows are based on a number of factors including historical operating results, known and anticipated trends, and market and economic conditions (see Note 3 for new acquisitions). Acquisition costs are expensed as incurred.

Equity-Based Compensation

Effective as of the closing of the IPO, we adopted the 2011 Equity Incentive Plan, which provides for the grants of stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalent rights and other stock-based awards, or any combination of the foregoing. In accordance with FASB ASC 718, Compensation-Stock Compensation, equity-based compensation is recognized as an expense in the financial statements over the vesting period and measured at the fair value of the award on the date of grant. The amount of the expense may be subject to adjustment in future periods depending on the specific characteristics of the equity-based award and the application of accounting guidance.

Income Taxes

We elected to be taxed as a REIT under the Code commencing with our short taxable year ended December 31, 2011. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to distribute annually to our stockholders at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gains, which does not necessarily equal net income as calculated in accordance with GAAP. As a REIT, we generally will not be subject to federal income tax (other than taxes paid by our TRSs) to the extent we currently distribute 100% of our REIT taxable income to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income tax on our taxable income at regular corporate income tax rates and generally will not be permitted to qualify for treatment as a REIT for the four taxable years following the year during which qualification is lost unless we satisfy certain relief provisions.

Commencing on February 14, 2011, we began to account for federal and state income taxes with respect to our TRSs using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the consolidated financial statements' carrying amounts of existing assets and liabilities and respective tax bases and operating losses and tax-credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

NOTE 6 - NONCONTROLLING INTERESTS

As of June 30, 2012, limited partners of the Operating Partnership other than the Company owned 6,829,938 Common Units representing an approximate 18% limited partnership interest in the Operating Partnership. Beginning on or after February 14, 2012, pursuant to the limited partnership agreement, redemption rights of the limited partners other than the Company enable those limited partners, at their election, to cause the Operating Partnership to redeem their Common Units in exchange for cash based upon the fair value of an equivalent number of shares of the Company's common stock at the time of redemption, or at the Company's option, shares of the Company's common stock, on a one-for-one basis. The number of shares of the Company's common stock issuable upon redemption of Common Units may be adjusted upon the occurrence of certain events such as share dividends, share subdivisions or combinations.

The Company classifies these Common Units as noncontrolling interests as a component of permanent equity on the June 30, 2012 consolidated balance sheet. The share of net loss allocated to these Common Units is reported on the accompanying consolidated statement of operations for three and six months ended June 30, 2012 and the period of February 14, 2011 through June 30, 2011 as net loss attributable to noncontrolling interests. NOTE 7 - EQUITY-BASED COMPENSATION

The Company measures and recognizes compensation expense for all equity-based payments. The compensation expense is recognized based on the grant-date fair value of those awards. All of the Company's existing stock option awards have been determined to be equity-classified awards.

The Company's 2011 Equity Incentive Plan provides for the granting of options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalent rights, and other equity-based award or incentive award up to an aggregate of 2,318,290 shares of the Company's common stock. Options granted may be either incentive stock options or nonqualified stock options. Vesting terms may vary with each grant, and option terms are generally five to ten years.

Concurrent with the completion of the IPO, the Company granted options to purchase 940,000 shares of the Company's common stock. Options to purchase shares of common stock were granted with exercise prices equal to \$9.75 per share, the fair value of the common stock on the date of grant. Options vest on a ratable basis over a five year period following the date of grant and option terms are generally five to ten years following the date of grant. The fair value of stock options granted was estimated using a Black-Scholes valuation model with the following assumptions:

	2011	
Expected dividend yield at date of grant	5.09	%
Expected stock price volatility	56.6	%
Risk-free interest rate	2.57	%
Expected life of options (in years)	6.5	

The risk-free interest rate assumptions were based on the U.S. Treasury yield curve in effect at the time of the grant. The expected volatility was based on historical monthly price changes of a peer group of comparable entities based on the expected life of the options at the date of grant. The expected life of options is the average number of years the Company estimates that options will be outstanding. The Company considers groups of associates that have similar historical exercise behavior separately for valuation purposes.

NOTE 8 - EARNINGS (LOSS) PER SHARE

Presented below is a summary of the components used to calculate basic and diluted earnings per share. The Company applies the two-class method of computing earnings per share, which requires the calculation of separate earnings per share amounts for non-vested share-based awards and for common stock. Non-vested share-based awards that contain nonforfeitable rights to dividends are considered securities which participate in undistributed earnings with common stock. Under the two-class computation method, net losses are not allocated to participating securities unless the holder of the security has a contractual obligation to share in the losses. The non-vested share-based payment awards are not allocated losses as the awards do not have a contractual obligation to share in the losses of the Company.

NOTE 9 - DERIVATIVE INSTRUMENTS AND HEDGING

Risk Management Objective of Using Derivatives

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk primarily by managing the amount, sources, and duration of its debt funding and the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the payment of future known and uncertain cash amounts, the value of which are determined by interest rates. The Company's derivative financial instruments are used to manage differences in the amount, timing, and duration of the Company's known or expected cash payments principally related to the Company's

borrowings.

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount.

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in accumulated other comprehensive income and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. During 2012, such derivatives were used to hedge the variable cash flows associated with variable-rate debt. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings. During the three and six months ended June 30, 2012, the Company recorded \$1,012 of hedge ineffectiveness in earnings due to slight mismatches in timing of payments.

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. During the next twelve months, the Company estimates that an additional \$181,000 will be reclassified from other comprehensive income as an increase to interest expense.

As of June 30, 2012, the Company had the following outstanding interest rate derivatives that were designated as cash flow hedges of interest rate risk (in thousands):

Interest Rate Derivative	Number of Instruments	Notional Amount
Interest Rate Swaps	3	\$ 29,483

The maximum length of time over which the Company is hedging its exposure to the transactions related to the payment of variable interest on the existing derivative instruments is approximately seven years. The table below presents the fair value of the Company's derivative financial instruments as well as their classification on the condensed consolidated balance sheet as of June 30, 2012 (amounts in thousands). The Company had no active derivatives as of December 31, 2011.
