---

**Item 8.01 OTHER EVENTS**

On March 7, 2007, Genesis Technology Group, Inc. ( "GTEC" ), a Florida corporation, issued a press release regarding a letter from its Chief Executive Officer and Board of Directors that summarizes the Company's historic success recorded in fiscal year 2006 and forecasts even stronger performance in the future. The communication states that profits reaching \$20 million and assets of \$30 million are considered possible, based on current performance and trends. The full text of the press release is set forth in Exhibit 99.1 hereto and incorporated herein.

The Company states, in its disclaimer, the capital and growth program, the Company's central profit center, has specific risks and liabilities. Followers of this business model must understand that, until the Chinese partner company officially reaches public company status and files its initial Form 8-K, a high degree of risk exists that the partner may not ever attain that status. While receipt of a significant equity position in these companies is contractual, Genesis still recognizes that such compensation is conditional on performance and specific deliverables.
